In 1971 Tabano was replaced by Brad Whitford, and in 1972 this version of Aerosmith signed to Columbia Records, at this point Steve Tallarcio changed his last to Tyler. They recorded their debut album in Boston in October 1972, it was issued in 1973. Despite various line-ups through the years and the subsequent reformation on the 1971-79 version, Aerosmith are still active today and remain a chart band.

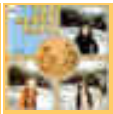
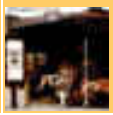
NB: * Released by **Tommy James**.There are also five French EPs with picture sleeves on Roulette (VREX 65044, 65045, 65048, 65049 and 65051).



Tommy James (real name Thomas Jackson) was born on 29 April 1947 in Dayton, Ohio. He formed his first group in Niles, Michigan when he was just nine and they cut a 45, *Long Pony Tail*, for a local label. Later in 1963, after hearing *Hanky Panky* performed in a night club in South Bend, Indiana, he recorded the song for DJ Jack Douglas' Snap label with an outfit called The Shondells. It sold quite well around Illinois, Michigan and Indiana - and you can now hear it on *Born Bad, Vol. 2*. Two years later when he'd just left college and was out of work Tommy received a call from a DJ in Pittsburgh, Pennsylvania, who had popularised the record. Tommy relocated there and, when the original Shondells refused to leave Indiana, he hired a local band, The Raconteurs, to become the new Shondells. The New York-based Roulette label picked up the disc from Red Fox for national release. It became a million-selling No 1 in the U.S. and also made No 38 in the UK. The debut album made No 46 in the U.S. Album Charts. The Roulette label arranged for songwriter/producers Bo Gentry and Richie Cordell to team up with the band in a partnership which produced a string of melodic and exhilarating hits. Their third LP *I Think We're Alone Now* reached No 74 in the U.S. Charts and their fourth - a compilation *Something Special! The Best of Tommy James And The Shondells* peaked at No 174. *Get Out Now*, their 10th single for Roulette, which made No 48, marked the end of their lightweight pop period.

Mony, Mony, still written by Gentry and Cordell but with assistance from Bobby Bloom and **James** himself, heralded a new hardened dance beat sound. Not only did it make No 3 in the U.S. but more surprisingly, in view of their lack of previous success there, it was an U.K. No 1 for four weeks and the most popular dance record of the Summer of 1968. The album of the same name reached No 153 in the US. However, after their two *Mony, Mony* - style follow-ups, *Somebody Cares* and *Do Something To Me* were relatively unsuccessful, the group persuaded Roulette to let them produce their next LP themselves.



This marked another change of direction and paid off in the short-term. Their next LP *Crimson And Clover* made No 8 in the U.S. and an abridged version of the title track topped the U.S. Charts, becoming their biggest selling record and winning a gold disk. With its hints of psychedelia, and complete web of instrumental and vocal sounds, *Crimson And Clover* and their next two 45s:- *Sweet Cherry Wine* and *Crystal Blue Persuasion* are their most relevant recordings to this book, but the LP *Cellophane Symphony*, which made No 141, and the compilation *The Best Of Tommy James And The Shondells*, which peaked at No 21, are also worth a listen. Their later recordings reverted back to a R&B style and are less relevant. The act ended when **James** collapsed on stage in Alabama and The Shondells quit to become Hog Heaven and James recuperated on his farm in upstate New York. When he recovered he embarked on a reasonably successful solo career in the early seventies, producing Neon's sole album with Bob King. He also had a minor resurgence when he signed to Millenium Records in the early eighties.

Crimson And Clover was covered by Joan Jeff in 1982 and her version climbed to No 7 in the U.S. Charts prompting other acts to cover some of the band's old hits. Later in 1987 Billy Idol topped the U.S. Charts with a cover of *Mony, Mony* which also made No 7 in the UK.

Jim Fox, who'd had a short stint on drums with Tom King's Starfires, formed the **James Gang** in 1966 with Tom Criss on bass (younger brother of Starfires' bassist Richie), Ron Silverman on guitar (replaced by Bill Jeric) and Phil Gialombardo (later of the Choir) on keyboards. After more comings and goings a suitable lead guitarist was found in Glenn Schwartz.

Joe Walsh had formed the original Measles while at Kent State University, and would have short stays with other local outfits including the Turnkeys before replacing Schwartz (who'd turn up in California with Pacific Gas And Electric). When Jeric and Gialombardo left in 1968, the band was ready to fold. During this crisis-period Walsh teamed up with Gialombardo and Jim Bonfanti (ex-Choir, later in the Raspberries) in a very short-lived group called Pie. Fate intervened in the non-appearance of a fill-in member when the **James Gang** were supporting Cream at the Grande Ballroom, forcing them to perform as a trio. They went down so well that they were encouraged to stay together.

Yer' Album from Fox, Criss and Walsh was equally encouraging, a mix of heavy rock mingled with lighter moments, both thoughtful and witty. By their second album Criss' place was occupied by Dale Peters, from Cleveland acid-rockers The Case Of E.T.Hooley, and the **James Gang** rode on with growing confidence. For fans of late-60s/early-70s power-rock trios, this group is recommended listening. Not content to stick in a hard riffin' heavy metal groove, their varied repertoire gave Walsh's considerable guitar talents full reign. He soon started to garner admiration and recognition from established guitar heroes and critics alike. This resulted in a support slot with the Who due to the patronage of Pete Townshend.

His deserved rise to stardom precipitated a departure to go solo after the first four fine LPs, whose finest moments are collected on *Best Of The James Gang* and *Sixteen Greatest Hits*.

The James Gang rode on without their star axeman, recruiting Canadians Domenic Troiano and Roy Kenner, but without Walsh their momentous rise was starting to falter. After *Passin' Thru*, Troiano left and was replaced by talented ex-Zephyr and Energy guitarist Tommy Bolin on the recommendation of Walsh. Bolin lasted for the *Bang* and *Miami* albums before joining Deep Purple in 1974. At this point the **James Gang** disbanded only to reform in 1975, but they were never to reach the same heights again.

Walsh continued to enjoy increasing commercial success and critical acclaim. His guitar style is almost instantly recognisable, plus a dry drawling vocal style that may not appeal to some but lends itself well to a healthy vein of wit that permeates much of his work.

He was supported by various musicians, sometimes known as the 'Barnstormers', after his first solo LP and who included Kenny Passarelli, Rocke Grace and Joe Vitale - the latter had known Walsh from the Measles.

Inexplicably to many, Walsh put his solo career to one side for a while in favour of joining super-smoothie-rock giants the Eagles.

Little is known about this artist, but hopefully more will be revealed. Here's what's turned up so far... Apparently hailing originally from, or was based in, Arizona. It's also been suggested that he's a U.K. artist, but seems to have spent most time Stateside - like Ian Whitcomb. He certainly spent some time in, or relocated to, L.A. where his first album was produced by the creative studio whizz Curt Boettcher (Ballroom, Sagittarius, Millennium...). Indeed, *Color Him In* is a must for Boettcher acolytes. **Jameson**'s strong, sometimes raw'n'bluesy, vocals are to the fore on his self-penned selection of folk-beat-hippie pop. On several cuts Curt B. wraps it in his trademark dreamy neo-psych aura with multi-layered sounds and effects. The angelic (verging on twee) backing vocals are there too. Both Verve 45s are taken from the album.

At least two of his 45s were regional hits, garnering airplay on Cleveland, Ohio and Detroit, Michigan stations. The biggest, *All I Want Is My Baby* was backed by The Rolling Stones.

Jameson also recorded an excellent album, *Songs Of Protest And Anti-Protest* under the pseudonym Chris Lucey. This was also released in the U.K. as *Too Many Mornings*, but as by **Bobby Jameson**.

Okey Fanokey Baby has also been aired on *Scum Of The Earth* whilst *Vietnam*, a Bo-Diddley rave-up, with snarling vocal, can be heard on *Turds On A Bum Ride Vol. 2* (LP) or the combined *Vol.1 & 2* CD. This track first appeared on the soundtrack LP *Mondo Hollywood* (Tower T 5083).

Their album was recorded in London, although it doesn't seem to have secured a U.K. release. The session musicians were Keshav Sathe (Cosmic Eye, Magic Carpet, John Martyn, etc.), Terry Cox (Pentangle, Humblebums, Sallyangie, Tudor Lodge, etc.), Clem Cattini (Brian Auger, Joe Cocker, P. J. Dominated by the strident in-yer-face vocals of January Tyme this is late sixties bluesy-folk-rock in the Jefferson Airplane/Big Brother format and somewhere between those two reference points in musical style. 2. Did You Know That (Mono/Stereo) DJ promo (Sunflower 107) 1971
3. You / General Gunther (Future Music FMI 101) 1976

This was a short-lived hippie rock outfit whose album was produced with assistance from Joey Levine and Jim Carroll. The most upbeat number, *Did You Know That?* also appeared on a 45; the flip side of which was not from the album. For the most part the album comprises soft rock with lots of electric and acoustic six and twelve string guitars, organ, harpsichord, celeste, percussion, theramin and variable frequency oscillators. It mostly works quite well with *Odyssey and Portrait: My Lady Angelina* probably the finest moments. The closing track, *Roland Of Montevere*, veers far more towards progressivism.

Their 1976 45, *You* / *General Gunther* is a comparatively disappointing typical mid-70s prog effort. It was produced by Jeff Cannata.

The band were formerly known as Christopher Hawke, and before that Tri-Power, who'd included Joe Mendyk (later of The Better Days and Nova Local). They were based in Hamden, Connecticut.

Jefferson Airplane had the advantage of a compulsive name. Previously groups had tended to name themselves after animals or insects but this name, which actually evolved from blues singer 'Blind Lemon Jefferson' really made you sit up and take note. The same was true of their music, you may love or hate it but you could not ignore it. They had so much to say and their music generated such urgency - a sort of direct channel of communication between the group and your brain.

Jefferson Airplane was the foremost of the new San Franciscan underground bands and also one of the earliest. Apparently only The Charlatans and The Mystery Trend predated them. More significantly they were the first of the new San Francisco bands to win a recording contract - a $20,000 advance from RCA to produce their first LP *Takes Off*.

Marty Balin was the group's founder member. Although born in Milwaukee, his family moved to San Francisco because of Marty's childhood asthma. He became a lithographer and painter, with a penchant to sing, cutting two solo 45s for Challenge Records in 1962: *I Specialize* and *Nobody But You* and singing in an Los Angeles folk group The Town Criers in 1964. After seeing The Beatles on the Ed Sullivan show earlier that year, he decided to start a rock and roll band and, when he met Paul Kantner at a local folk club in San Francisco, invited him to join his group (which had not been formed yet). Jorma Kaukonen, a friend of Kantner's, joined as a favour to him. Kaukonen had worked with Janis Joplin around the Bay Area, the strength of her vocals motivating him to buy his first electric guitar. Kaukonen recommended his old friend Jack Casady to come across from Washington DC and replace original bassist, Bob Harvey, in the group. With the addition of Signe Anderson, a girl singer, also originally from Washington DC, and Skip Spence, on drums, the show was on the road. Spence was not the band's original drummer, but he soon replaced Jerry Peloquin, who only lasted a few weeks. Balin had apparently recruited Spence while he was on his way to audition as guitarist for another important San Francisco band, Quicksilver Messenger Service.

In 1965 Marty Balin took over a folk and jazz club called 'The Honeybucket', which he rechristened as 'The Matrix Club' and **Airplane** became semi-resident there. They played at almost all the important early San Francisco music events, including the very first dance organised by the Family Dogg (a group of hippie concert promoters who originated from Mexico) at the Longshoreman's Hall near the Fisherman's Wharf on October 16th, 1965.

Marty Balin designed three screenprint posters to publicise the event and **The Airplane** topped the bill, which included The Charlatans, The Great Society and The Marbles (one of the lost bands of San Francisco rock history, who were there at the beginning but then simply vanished). They played again at the first event held at the Fillmore by its new owner, Bill Graham, as a benefit for the Mime Troupe, a radical theatre group which also organised dances (they were rival promoters to the Family Dogg), This time **The Airplane** played alongside The Great Society, The Mystery Trend, The Gentlemen's Band, The VIP'S, The Warlocks, (later to become The Grateful Dead) and many others.

In November 1965 **The Airplane** signed to RCA and four months later their debut single was issued, *Its No Secret/Runnin' Round This World*. The 'B' side contained the word 'trips' and RCA insisted that the track was omitted from their debut album, *Jefferson Airplane Takes Off*, which was issued a month later in the US. It was not issued in the U.K. until 1971. Apart from ensuring that this single would become one of the rarest **Airplane** releases, this incident marked the first souring of relationships between RCA and the band which would become a feature of the following year. A second single *Blues From An Airplane/Come Up The Years*, was issued.

The album, although instrumentally shaky, went gold. It included the hippie anthem *Let's Get Together*, later a hit

for The Youngbloods, which epitomised the peace and love message of the summers of 1966 and 1967. It also created enough interest to attract a host of record company executives to San Francisco to sign up the new 'acid rock' bands. However, for the present, **Airplane**'s format was very much folk-rock, with Marty Balin's love songs very much to the fore. Shortly after the release of the first album, Signe Anderson left the group, having had a baby, and Skip Spence, who was never at ease playing the drums, left to set up another important San Franciscan group, Moby Grape.

Spence was replaced by Spencer Dryden, an experienced jazz drummer, who was then playing with a Los Angeles based group, The Ashes (later to become The Peanut Butter Conspiracy). **The Airplane** had often gigged with The Great Society, another 'Frisco band, and Grace Slick who'd sometimes hung-out at **Airplane** rehearsals was recruited to replace Signe Anderson.

Grace bought with her an unique voice. It was rougher and more raucous than Signe Anderson's and complimented Marty Balin's smooth, sweeter tones. She combined with Kantner and Balin to produce strange harmonies which were superimposed on Casady's and Kaukonen's unpredictable and disturbing guitar rhythms. She also bought two songs from The Great Society, *Somebody To Love* and *White Rabbit* which **The Airplane** were to transform into their only big U.S. hits, reaching Nos 5 and 8 respectively in the Billboard charts. Both songs were contained on the group's second LP *Surrealistic Pillow*, although the British version of the album inexplicably omited *White Rabbit* and *Plastic Fantastic Lover* in favour of three songs from the *Takes Off* LP.

White Rabbit demonstrated Slick's meandering, weaving vocals and her use of unpredictable musical intervals admirably, a style which was to become a poignant feature of many of her songs. A drug song, and, therefore, banned by onshore radio in the U.K. at the time, *White Rabbit* appears to be based on the concept of Alice tripping in Wonderland.

> 'One pill makes you larger
> One pill makes you small
> And the ones that mother gives you
> Don't do anything at all
> Go ask Alice
> When she's ten feet tall
> And it you go chasing rabbits
> And you know you're going to tall.....
> (from *White Rabbit*)

From a gentle beginning the song builds into an impressive crescendo.

Like, The Byrds, **Airplane** progressed through various musical phases and their change from Marty Balin's electrified folk rock songs like *Today* (apparently two songs merged into one), *My Best Friend* and *Comin' Back To Me* towards the 'acid rock' of subsequent albums is evident on *Surrealistic Pillow* in songs such as *White Rabbit* and *3/5ths Of A Mile in 10 Seconds*, representing the more electrified 'acid' rock.

The AirpIane's next singIe *The Ballad Of You, Me and Pooneil/Two Heads* was superb. Both tracks were from their forthcoming album. Unfortunately, they were too complex for the singles market and it only reached No 42 in the States. Commercially, it was such a flop in the U.K. that their follow-up single *Watch Her Ride/Martha* was not released here.

Their next two studio LPs *After Bathing At Baxters* and *The Crown Of Creation* mark the pinnacle of their achievement and the consolidation of their 'acid' phase. Some of the songs on these LPs are very weird indeed, and in their live appearances the band strived hard to superficially recreate the drug experience, using imaginative light shows and often drifting into lengthy, improvised meandering jams which tifted the psychedelic mood of the times. The *Baxters* LP contained one such nine minute long jam *Spare Change*, while *Saturday Aftemoon* was written in memory of the 'Be-In', a spontaneous gathering held in the Polo grounds of the Golden Gate Park on 14th January

1967 which included the **Airplane**. This event attracted an estimated crowd of 20,000 and the concept of free music in parks had become part and parcel of the San Francisco rock scene. The 'Be-In' also inspired the 1967 Monterey Rock Festival, featuring the **Airplane** and many other leading San Francisco rock groups.

Airplane were playing in an era of considerable social change and this was often reflected in their lyrics, for instance in *Wild Tyme*, also on their third LP, they sing:.

'It's a wild time
I see people all around with changing faces
It's a wild time
I'm doing things that haven't got a name
yet.....

One of the most interesting songs of this album is *Rejoice*. A particularly complex piece, this again highlights the effectiveness of Grace's meandering vocals and unpredictable musical intervals. Like many of **Airplane**'s songs, it echoes their anti-establishment, anti-Vietnam senfiments:-

'War's their business
So give your son
But i'd rather have my country die
for me.....
(from *Rejoice*)

Although *The Ballad Of You, Me And Pooneil/Two Heads* was released as a single, the commercial success of their earlier singles eluded them. The influence of acid had made their music looser and altogether too complex for the singles market.

The *Crown Of Creation* LP features what is, arguably, their finest song *The House At Pooneil's Comer*. The song starts with an impressive, spacey and very compulsive beginning and works towards a compelling climax. The title song itself uses the lyrics from John Wyndham's The Chrysalids to re-emphasise **Airplane**'s interpretation of the conflict between the hippie movement and the American establishment.

'The old people are determined still that there is a final form to defend,
Soon they will attain the stability they strive tor,
In the only form it is granted - a plage among the fossils.....

and again

'In loyalty to their kind they cannot
tolerate our minds
In loyalty to our kind we cannot tolerate
their obstruction.....
(from *Crown Of Creation*)

The album contained many other impressive numbers such as *Greasy Heart* and *Ice Cream Phoenix* as well as *Cushingru*, a piece of Pink Floyd style psychedelia. It reached No 6 in the U.S. charts.

Their next album was a live one featuring reworked versions of their early material and some new material, including Donovan's song *Fat Angel* (which made the phrase 'Fly Jefferson Airplane, getcha there on time' world famous) and *Bear Melt* another trippy, drug influenced song.

But 1969 saw also the end of the hippie dream at Altamont, where **The Airplane** had played with The Rolling Stones, and also the demise of the Haight Ashbury peace-love scene. So **The Airplane** deserted 'acid rock' and the result was *Volunteers*, a strongly political album which developed the theme of conflict between the revolutionaries, **The Airplane** and the establishment, which had been introduced in the title track of *Crown Of Creation*. The title track *Volunteers*, and *We Can Be Together* contained the rallying cries: 'Got to Revolution, Got To Revolution' and

'Tear down the wall, motherfuckers', Beyond this lyrics were vague on how the revolution was to come about and it all sounds rather dated today. It does, however, contain a gorgeous version of *Wooden Ships* written by Kantner, Crosby and Steve Stills, which marks Kantner's first excursion into the realms of science fiction. The song assumes a post-nuctear age, permitting **The Airplane** to say 'We are leaving, you don't need us'- without having to confront the problems raised by their twin espousal ot love and revolution. However, the theme of leaving Earth in a giant starship would return later.

A single *Volunteers/We Can Be Together* was taken from the album and issued both in the US, where it was a minor hit and in UK.

After *Volunteers* the group began to fragment. Marty Balin left and with Slick expecting Kantner's child further gigging was impossible. Kaukonen and Casady, therefore, began to spend more time with their own 'spin-off' group Hot Tuna, which had first taken shape in December '68 as an outlet for **Airplane** members to gig more frequently, whereas Kantner in particular disliked touring, other members were keen to play in front of a live audience. Marty Balin, too sang at early Hot Tuna gigs, and future **Airplane** drummer, Joey Covington was also involved with the outfit from the beginning. There was also a need within the band to stretch themselves artistically and Slick and Kantner began work on solo albums.

Blows Against The Empire marked the development of Kantner's interest in science ficton. The plot suggested hijacking an interplanetary starship buift on the earth and to make it suitable for practical travel to other solar systems. *Hijack* deals with this, *Have You Seen the Stars Tonite?* with an evening stroll on board the deck and *Starship* rejoices about the whole scheme. Interspersed between the tracks are space-like sounds creditably produced given the minimal instrumentation available at the time. Some U.S. copies of this album were pressed on clear vinyl and have become some of the most collectable **Airplane** - related items. Kantner's science fiction fantasies would emerge again on later Jefferson Starship albums.

In comparison with *Blows Against The Empire* remaining **Airplane** studio albums were uninteresting. *Bark* was disappointing and *Long John Silver* not much better, although *Pretty As You Feel* from *Bark* was a minor hit. **Airplane**'s lyrics had always made them interesting - while most other groups and artistes sang the typical 'boy meets girl' love songs, **Airplane** always had a message to put across. But now with Kantner, the group's most prolific songwriter, keeping the best material for his solo albums and the hippie dream discredited, **The Airplane** seemed to be running out of things to say. Nevertheless, *Long John Silver* has its moments, particularly with *Easter?* featuring Grace singing about its futility as a religious festival. Two 45s were issued from the album, *Long John Silver/Milk Train* and *Trial By Fire/Twilight Double Leader*. Neither met with chart success.

A number of compilations of **The Airplane**'s material exist. *The Worst Of Jefferson Airplane* issued in 1970 contained a fair cross-section of their material. *Early Flight* (Grunt APL1 0437), issued in 1974, contains unissued songs from the band, including *High Flying Bird*, which they performed in the 'Monterey Pop' movie. *Thirty Seconds Over Winterland* (Grunt APL1 0147), issued in 1973, was recorded 'live'and contained a balance between their old and new material. It also featured ex-Turtle, John Barbara, for the first time on drums (Joey Covington having departed to form his own outfit, Fat Fandango); and David Freiberg, who had joined from Quicksilver Messenger Service. Later compilations included *Flight Log* (Grunt 1255/RCA LSP 3766), and *Best Of* (RCA 42727). *Crown Of Creation* and *Volunteers* were reissued in a budget series in 1985 and *The Worst Of* followed in 1986.

California Christmas 1 features live versions of *Kansas City* and *Fat Angel* from 1966 and three Levi commercials they did in 1967. *California New Year* includes versions of *White Rabbit, Please Come Back, She Has Funny Cars* and *Ride Jefferson Airplane*. Matthew Katz's *Then And Now Vol. 1* CD compilation also includes a live version of *Other Side Of This Life* recorded live at The Matrix in 1965, together with *It's No Secret* (from *Takes Off*)) and Marty Balin's live *Summer Of Love. Vol. 2* also includes *Runnin Round This World* and *Embryonic Journey* recorded live at the Matrix in 1965, and Marty Balin's *Always Tomorrow*.

1973 saw **The Airplane** finally disband, but they had indeed been a remarkable outfit. The most interesting and successful of the San Francisco bands. Just a year would elapse before they retumed to the limelight as the enormously successful (in commercial terms) Jefferson Starship. 1987 saw the issue of *2400 Fufton Street* (RCA NL90036(2)) - an important double LP compilation of their material. It featured 25 tracks put together by Bill Thompson, with an extra 10 tracks on the CD, which included a couple of previously unreleased Levi tracks. The four sides were subtitled:- Beginnings, Psychedelia, Revolution and Airplane Parts and featured material from 1965 to 1971. *White Rabbit* and *Somebody To Love* were also reissued on a 45 and the 12 inch version featured *She Has Funny Cars* and *Third Week In Chelsea* as extra tracks.

1988 saw the release of *The Jefferson Airplane Collection* on Castle Records (CCSLP 200), licensed from BMG/RCA. Also available on CD, it contained no previously unreleased material but included some of their less well known recordings like *Meadowlands, Alexander The Medium* and a live version of *Have You Seen The Saucers*.

1989 saw a CD release of *Live At The Monterey Pop Festival* (Document Records (DR 023 CD)) and featured their full 39 minute set.

In August 1989 *Jefferson Airplane* got it all together again for an American tour and a new album (also available on CD). The line-up was the seminal quintet of Marty Balin, Grace Slick, Jack Casady, Jorma Kaukonen and Paul Kantner, which had recorded all their best albums with the help of the then sixth (line-up C) member, drummer Spencer Dryden. The album *Jefferson Airplane* (Epic OE 45271) had some fine moments. Four new Grace Slick contributions of which *Freedom* is the best but *Common Market Madrigal, Now Is The Time* and *Panda* all found her in fine voice. Other tracks like *The Wheel* confirmed that Kantner, Slick and Balin could still produce those superb three-pan harmonies. Although the instrumentation suffered at times from the involvement of far too many "guest" musicians which undermined the traditional instrumental incisiveness of Casady, Kantner and Kaukonen, overall the album was a welcome testament for the short-lived relaunch.

The band's set at the Monterey Festival which had previously only been available on the quasi-legal CD on Document finally got an official release, *Live At The Monterey Festival* on Thunderbold (THBL 074) in 1990. The same year saw a vinyl-only release of *Avalon Ballroom, 1969* (Kornyfone 006), which is actually a reissue of the *Up Against The Wall* bootleg from 1970. Also released in 1990 was the very misleadingly titled CD *The Woodstock Revival* (Pulsar PULS 002) in Holland. It actually features material which entirely predated Woodstock - a mixture of material from the Monterey Festival, their *High Flyin' Bird* bootleg, *Takes Off, Surrealistic Pillow* and the four non-Airplane cuts which made up side 2of the *High Flyin'Bird* bootleg.

Fans of **Jefferson Airplane** are strongly recommended to subscribe to the 'fanzine' **Holding Together** published by Bill Parry, 89 Glengariff Street, Clubmoor, Liverpool L13 8DW.

In 1999, original bass player Bob Harvey is reported to be releasing a new CD with songs made from 1965 to 1999 with his current band San Francisco Blue.

1. I'm Allergic To Flowers/The Little Matador (Challenge 59371) 1967

Recorded in California this was a one-off venture by a group of Los Angeles session musicians. The 'A' side, which is ladened with references to flower-power mythology, can be heard on *Mindrocker, Vol. 1* and *Pebbles, Vol. 3*. The song was written by Dave Burgess, who'd previously played with The Champs, who'd enjoyed instrumental hits in

the late fifties and early sixties and Keith Colley, who wrote for The Knickerbockers and The Magic Lanterns among others. It relates how the narrator would love to be a hippie but couldn't be 'cos of his allergy to pollen (dig?).

The song travelled well - it was picked up down-under in 1968 by Aussie duo Vicky & Dicky - sniffle along with their version on *No.8 Wire*. You can also find *The Little Matador* on *Sixties Rebellion Vol. 12* (CD).

1. Book Of Love/Sorcerella (Original Sound OS-88) 1969
2. Bubblegum Music/Pancake Trees (Original Sound OS-93) 1970

A Californian act which may have just been a solo artist. *Sorcerella* is heavy melodramatic pop with fuzz and psychy guitar-work, whilst *Book Of Love* is a heavy 'psychedelic-soul' take on a Monotones song. The second 45 features catchy pop backed by an airy pop-psych ditty with flute and various effects that doesn't quite come off.

Sorcerella can also be found on *Son Of Gathering Of The Tribe* compilation and on *Turds On A Bum Ride, Vol. 3*.

1	Country Woman/Generation	(Mainstream 674)	1967

Hailing from New York State with one of Mainstream's better albums came the **Jelly Bean Bandits**. More punk than psychedelic it includes some searing guitar and good effects. The album contains the classic, *Generation*, which was arguably their finest moment with a bizarre intro about flying saucers giving way to a driving assault on the senses with searing guitar, powerful vocals and sound effects.

Little is known about the band but they managed to score a three-album deal with Mainstream on the basis of three demo tracks. Unbeknown to label boss Bob Shad, these were the only songs the band had written and a week-long marathon song-writing session ensued, before they were whisked into the cavernous Columbia Studio "A" to record the album in a generous twelve hours stretch.

Mainstream pulled the plug before the band could start on their second album, although a demo for one track, *Salesmen* was recorded, and the other material written back in '68 may yet see the light... the band are still in touch are currently recording the second album in the same style & manner as they had intended to do thirty years ago... "look to the skies... the flying saucers will always be there!"

Mike Raab reports: "Initial recording sessions this past February went quite well. Billy, who did half the singing in the group, is still involved with his oldies act, Big Edsel, and so declined participation in the project. We went with the material we could do justice to. First cut is a power riff-rocker *Lover Wrapped In Leather*, which was written back in 1968 about the woman we all lusted for, Diana Rigg (Mrs. Peel of The Avengers). Also a bouncy pop number, *Happiness Is You*. The next leg of the sessions is coming up in October. Scheduled tunes: *Superhog* (about a daytime computer programmer / nightime biker - from 1968), *Salesman* (a 1998 re-make of the 1968 original) and a few others, such as a tongue-in-cheek lookback entitled *Back in '68*."

The 1968 version of *Salesman* has recently arrived on *Psychedelic Crown Jewels Vol.2* - a mighty slab of ravin' freakbeat. Other compilation coverage has also included: *Generation* on *Mayhem And Psychosis, Vol. 1* and *Poor Precious Dreams* on *Turds On A Bum Ride, Vol's 1 & 2* (CD).

Fronted by Jeremy Steig, who'd earlier played with Peter Walker, this band's psychedelic rock LP has now become a very minor collectors' item. It was produced by John Court who also worked with Electric Flag and the Butterfield Blues Band.

Jeremy was a cartoon artist like his father William Steig (New Yorker Magazine etc.), whilst Adrian Guillery was studying art in New Paltz / Manhattan.

The band backed Tim Hardin live, and some members did some recording sessions with him.

Donald McDonald later played with Joe Beck and is now dead. Jeremy Steig became a reknowned jazz musician, whilst Warren Bernhardt moved to Woodstock, NY and has continued recording.

It's rumoured that their manager, who owned the name, had two or three group's playing as 'The Jerms' in different parts of the State. In their later days they included a female singer known as Angel. The Shana 45 was produced by the West Coast Pop Art Experimental Band's Shaun Harris, but the garage had been left far behind by then.

RON SKINNER	drums	B

A Dayton, Ohio combo better known as The Others. Their sole gift to posterity under either monicker was the drum-bashin' tambourine-shakin' Diddleyesque pounder *Don't Cry To Me*, peformed by line-up 'A' and composed by guitarist Robert Budeliney. It's one of the best cuts on the LP *WONE, The Dayton Scene* (Prism PR-1966) which showcased the top twelve groups from the WONE-sponsored three-day Daytonian battle of the bands in 1966.

Ron Skinner of The Pictorian Skiffuls joined later. The final Others line-up (B above) changed their name to the Elders in 1970, releasing the *Looking For The Answer* LP and 45 in 1971 on Audio Fidelity.

Thankfully *Don't Cry To Me* is accessible again on *Back From The Grave Vol. 3*, *Echoes In Time Vol. 1* (LP) and *Echoes In Time Vol's 1 & 2* (CD).

Jesse, Wolff and Whings was formed by Jesse Barish, a San Francisco singer/songwriter and Bill Wolff, the former Peanut Butter Conspiracy, Sound Machine and Fusion guitarist. Housed in a superb black and white sleeve with a mystic symbol on its front, their only album offered a very consistent choice of songs mixing West Coast guitars with good vocals and occasional flute playing from Barish. Their drummer, Kevin Kelley, had previously been with the Rising Sons and the Byrds and had already teamed up with Kenny Kaufman on a Phil Ochs album, *Gunfight At Carnegie Hall*. The album was recorded in Hollywood and produced by Denny Cordell.

Jesse Barish would later work with Jefferson Starship and also issued two bland solo albums which were produced by Marty Balin.

5. Unchain My Heart/Blue Feeling (Qualicon 5003) 1967

From Naples, Florida. This band were picked up by Mike Curb's Sidewalk label, home of all those exploitation movie soundtracks. One of these, the *Freak Out U.S.A.* soundtrack album, features one track by **The Jesters**, *Don't Try To Crawl Back*. Otherwise they remain uncompiled. *Hands Of Time* is an above average organ-punker worth picking up. The non-Sidewalk 45s are very elusive.

1	(Bye Bye Bye Bye) So Long / She Lied (I Know Why)	(Fuller CFP-2684)	May 1966

From Tampa Florida, this band played the Maderia Beach Surfers Club, Big Mooses' Saturday night St. Pete Dances and also the Spot Night Club in Tampa...

Robin Sibucao recalls: "Three of the four members were under fifteen. Instrumentation was bass, drums, two guitars and one singer. Radio station WALT used to have a vote by postcard for your favorite tune.... both tracks were selected at the time The Tropics and Roving Flames had records out."

"*Bye Bye So Long* was an uptempo tune, two verses and chorus with a guitar solo (clean - no fuzz tone) verse and out. Recorded in the basic 60's style with one microphone over the drums and vocals recorded at the same time as the music. It hits with all instruments at the beginning and ends sort of like the Zombies song *Tell Her No*. I was about 12 years old so my range was high and confused some people, thinking it was a girl singing."

"*She Lied* was a medium tempo tune with a power chord time guitar line that had no distortion or overload sound. The guitar sound was ultra clean with a bunch of reverb (sort of Ventures/Paul Revere and The Raiders tone) and the tune ended with just the electric guitar slowing down the tempo and playing five notes, gradually stalling with a little vibrato bar on the last note ...amazingly the radio stations let the song always play to the end. Some people later said the song reminded them of the feel of The Buckinghams' *Have Mercy On Me*."

She Lied has just been reaired on *Teenage Shutdown Vol.12: (No Tease)*.

A four piece from Santa Clara in California. They recorded their 45 in a back room studio of a record store there. The disc is an interesting crossover from surf to garage. Indeed the organist had earlier played in a surf group called The Crygons. *Stormy* has resurfaced on *Back From The Grave, Vol. 5*. Starting out with a crazy organ intro straight out of *Peter And The Wolf*, this is a fine garage cruncher with powerful vocals, interesting surf-influenced guitar and catchy organ and a very distinctive ending.

They were helped by several of the musicians who played with Bob Dylan on *Highway 61 Revisited*: Al Kooper, Harvey Brooks and Bobby Gregg. The influence of Dylan can also be heard on their cover of his *Lay Down Your Weary Tune* and the album also contains three covers of David Blue: *Grand Hotel*, *About My Love* and *Strangers In A Strange Land*. Nothing exceptional but a pleasant album nonetheless.

Lance Wakely would later move to California and play with Brewer and Shipley before forming Joyous Noise.

5. The Psychedelic Worm / Red River Rock (Atila 216) 1967
6. What You Know About Love / Yes It's You (Atila 221) 196?

A surprising entry perhaps. This well-known Toledo, Ohio group were a classy instrumental-rock'n'roll-dance band that hit big in the early '60s on both sides of the Atlantic with *Crossfire*, *Red River Rock*, *Reveille Rock* and *Rocking Goose* (a No.1 in the UK). Constantly touring and with only Johnny Paris surviving line-up changes into the Beatles era (the early personnel is shown above) their recorded music was pumped out even whilst they were on the road by session musicians - a fairly common practice of the times.

They released a total of five albums and over thirty 45s and EPs but the selective discography should be of interest here, with some of the later 45s being released as by **The Hurricanes**. George Gell has drawn attention to this period where "they did make the stylistic transition to a garage-pop sound and all their mid-60s records are worth having". He points out that the 'Live' LP isn't live but "features a solid garage sound of mostly hits of the day".

Wisdom's 5th Take (as by **The Hurricanes**) can be heard on *Garage Punk Unknowns Vol. 6* to confirm this. 1959's *Reveille Rock* was included on the K-Tels *Juke Box Jive*, a '70s double LP collection of 50s-60s party/pop classics.

Originally from Texas, but unconnected to The Joint Effort from McAllen, this bunch relocated to Los Angeles in 1967. They were picked up by Sunset Strip entrepreneur Bud Mathis. He added more members to the original trio, including vocalist/dancer Wanda Watkins from his previous proteges Garnerfield Saniatium (who became The Brain Train and finally Clear Light).

His contacts landed **The Joint Effort** a residency at Gazzarri's on The Strip in the summer of '67 and they released their debut to promote this. I wish I'd been there - *The Children* is breezy California psych-pop whilst *Third Eye* is glorious folk-raga-psych with an unusual solo of one long feedback sustain. A rare and highly recommended 45.

The follow-up 45s moved into Association harmony-pop and flower-pop territory, with occasional use of brass.

Check out *The Third Eye* on *Psychedelic Crown Jewels Vol. 2*.

In 2000, a retrospective of Bud Mathis acts appeared. *Take The Brain Train To The Third Eye* (Bacchus Archives BA 1147) re-airs *The Third Eye*, *The Children* and *Mary On A Go Round*. It also features two unreleased tracks - *Broken Glass* and *Tomorrow's Yesterdays* - where **The Joint Effort** provide backing for Wolfgang (Dios). He was a songwriter signed by Mathis and is best remembered for writing *Black Roses*, recorded by The Brain Train / Clear Light.

The album contains cover versions of Mouse and The Traps' *Like I Know You Do*, The Yardbirds' *Grizzly Bear*, and other interesting tracks are *Doctor Jon* and *You Got Style*.

There's also an earlier album (without The Five Americans members) by **Jon and Robin**, *The Soul Of A Boy And A Girl*. This contains many pop and soul hits cover versions (like *In The Midnight Hour* and *Hold On, I'm Coming*) but includes at least one good garagey track, *Love Me Baby*, with a *Gloria*-like guitar chord sequence and swirling organ.

Jimmy Wright, The Five Americans drummer went on to marry Javonne Braga aka "Robin" in the '70s after **Jon and Robin** and The Five Americans had broken up.

Jon's real name was John Abdnor Junior and his father John Abdnor Senior formed the record label Abnak. He went solo in 1969 as John Howard Abdnor and released one album *Intro To Change*.

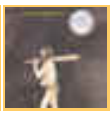
NB: There are also two later 45s: *Hard Luck/On Account Of You* (Hookah 78009) 1979 and *Let Me Move You/Big Time Loser* (Hookah 78010) 1979.

Emerging from the ashes of a band called United Gas in Houston, **Josefus** formed in September 1969. A couple of months later they attracted the attention of record producer Jim Musil, who invited them to Phoenix in Arizona to record under the name Come. However the deal he was negotiating with Straight Records did not materialise and the sessions remained unreleased until the *Get Off My Case* retrospective.

The band reverted back to the name **Josefus** and returned to Houston. They went back to Phoenix, however, to record their 'first' album, *Dead Man*, which was recorded in just eight hours and mixed the next day. Comprising largely of originals it was probably their best work. It sold well in Texas and the highlight was the 17.5 minute title track. Two tracks from the album *Crazy Man/Country Boy* were also issued on as a single.

Indeed the *Dead Man* release attracted the attention of Mainstream who signed them on a one album contract. The result was recorded at the Criteria Studios in Miami and produced by Bob Shad. This was in the same hard rock vein as their first effort but less imaginative and when neither the album or the 45 taken from it made any impression they split in December 1970.



Pete Bailey and Ray Turner went on to play in a 1971 combo Stone Axe, together with guitarist Mike 'Wolf' Long and drummer Jerry Ontiverez. They had one 45, *Snakebite* on Rampart in the same year. Doug Tull later played for an outfit called Christopher and Pete and Dave Mitchell were involved in an EP by Guitar Orchestra issued on Home Cooking Records in 1976.

In July 1978 Pete Bailey and Dave Mitchell reformed the band with a new line-up. This was short-lived but did make the two 1979 45s listed.

In the nineties *Get Off My Case* appeared, which contains their first efforts recorded in December 1969 prior to *Dead Man*. It also has some different versions of songs that appeared on their first official album, including a lengthier version of *Dead Man, Crazy Man* and *Situation*. The release was accompanied by a booklet of the band's story.

You'll find *Dead Man* on the *Gathering Of The Tribe* compilation.

ALBUM:

1 (A)	AN ALL AMERICAN EMPEROR	(All American AA-5783-LPD)	197?

Ernie Joseph was a local hero on the Santa Barbara scene - as Ernie Orosco he fronted several outfits in the '60s including Ernie and The Emperors, Ernie's Funnys, Giant Crab and Big Brother. The content of this solo venture by the Big Brother mainman is not what one might expect from his group's style and indeed the axeman poses on the cover. Perhaps in an attempt to appeal to a more mainstream audience it is big production pop-rock of mainly Scott English (co-)compositions, often with beefy orchestration. **Ernie** was nothing if not adaptable and possesses a fine voice but don't be suckered by any garage or psych tags attached to this. It's more likely to appeal to fans of the Association - Cleo being one track that immediately brings that comparison to mind.

Cory Colt was also a member of Big Brother whilst Gary Munford was with label-mates Indescribably Delicious.

NB: Also released in the U.K. (Key KL 014) 1973 R4.

From the Southwestern U.S., this religious hard rock band's rare album also got a release in the U.K. on Key. For no particular reason, this is valued at R4. There are two U.S. pressings in existence; the original is black, the second has a red label. Tony Sena penned almost all of the material on their album, although three cuts: *New Life*, *Caterpillar* and *Free Me* were co-written with other band members. We're talking melodic rock with crisp guitar work and quite poignant lyrics here, but the stand out track is the only non-original, *I Wish We'd All Been Ready*, a pleasant vocal harmony number. Formed by students at St.Petersburg Jr. College in Florida in 1966. Initially covering their favourite bands like the Rolling Stones, their immediate popularity led to a 45 on Paris Tower in 1967.

A menacing fuzzed-up cover of the Animals' *Cheating*, re-aired on Psychedelic States: Florida Vol. 1, is backed by a blues standard also covered by the Stones.

1	Runaway Baby / Synthetic People	(Nottingham Disc Co. 849)	1968

Before the advent of the Beatles, the Burnell brothers were playing instrumentals with The Live Wires in their hometown of Plymouth, Va.. Nothing was released but they also kept recordings on reel-to-reel, travelling widely to tape other local acts. One such trip into North Carolina was to capture the Creations just as that band was ending.

In 1967 they formed **The Journey Back** with Bill Brown and Bobby Sutton from the Creations. The following year they released their sole 45 (500 copies), both sides of which grace *Aliens, Psychos And Wild Things* (CD). *Runaway Baby*, also on *Sixties Rebellion Vol. 3*, is a slow-burner with fiendish fuzz and powerful vocals ala Eric Burdon. *Synthetic People*, also on *A Fistfull Of Fuzz*, is mighty fuzz-rock with a Cream-y riff and a nod in the direction of Blue Cheer.

Come the new millennium and the Burnell brothers are still playing together in a band called... **The Journey Back**.

McClure was previously in Levitt and McClure and played with Dennis Dragon in Ron Elliott's *Candlestickmaker* album. Their first LP was produced by John Palladino and recorded in September 1971. All the tracks were written by McClure, Wakely or Montgomery, except *Question Of Direction* composed by Ron Elliott and Gary Downey and a cover of Hoyt Axton's *Never Been To Spain*. Recorded in January 1972, their second album was coproduced by Palladino, Gary Downey and Elliott who wrote the side-long (17' 23") *Wanderingman*, a melodramatic three-part suite of moods, atmosphere and magnificence. The five other tracks were written by the group. It should appeal to those who prize the later Beau Brummels albums but is definitely not for garage or psych heads.

Marc McClure then recorded a good solo album *Songs For Old Ladies and Babies* (Capitol ST 11113) 1972 with Ron Elliott (who provided five songs), Dennis Dragon, Dan Levitt and Chris Darrow. He also worked with Pamela Polland (of Gentle Soul) for her 1972 LP on CBS. Dennis Dragon went on to do surf music, producing surf movies soundtracks, recording with "The Farm" and Corky Carroll. In the '80s he was the co-leader of the Surf Punks.

From Grand Rapids, Michigan, this band's vocalist sounded very like David Surkamp (of Pavlov's Dog) although it was one Ray Hummell Ill, on the Fenton 45. Ray Hummel Ill also issued a solo 45 *Fine Day/Gentle Rain* on Fenton. Hummel left the group after the first 45 to form The Traffic Jams. They started out as a five piece, though, and the second 45 suffered rather for Hummel's departure. Whilst with Fenton they recorded material for an album which remained unreleased, although a limited edition cassette was in circulation a few years back.

Rick Stevens had earlier played with The Paeans, who apparently recorded an unreleased 45 for Fenton.

A number of their tracks have appeared on compilations, including: *Do You Understand Me?* on *Back From The Grave, Vol. 1*; *You Treat Me Bad* on *Pebbles Vol. 1* (CD), *The Essential Pebbles Collection, Vol. 1* (CD) and *Best Of Michigan Rock Groups Vol. 1* (Cass); *Hey Little Girl* on *Pebbles, Vol. 8* and *I'm Really Sorry* on *Highs In The Mid-Sixties, Vol. 19, Psychedelic Unknowns, Vol. 8* and *Let 'Em Have It, Vol. 1* (CD).

2. I've Got The Time/Disbelievin' (Epic 10446) 1969

This highly talented, underrated band from Sacramento in California produced what is now one of the most sought-after psychedelic albums. Mellow laid-back tracks like *I've Got Time* and *Flowing By* are merged with up-tempo numbers like *Disbelievin'* and *Electric Sailor*. The excellent guitar playing of Patten and Yoder is evident throughout the album. Most tracks, particularly the final one *Lemonaide Kid* had considerable commercial potential and the band was clearly a victim of under-exposure, They disbanded in 1970.

Yoder had earlier managed The Oxford Circle, issued a solo 45 *Good Time Music/Flight From The East* (Epic 10560) in 1970 and then played for a while in Blue Cheer. Patten was also in The Oxford Circle, and Damrell in Group "B".

The Big Beat reissue of the album, with a healthy dollop of bonus tracks, *Kak-Ola* is recommended.

Compilation coverage so far includes: *Trieulogy* on *Endless Journey, Phase 2*; *Lemonaide Kid* and *Electric Sailor* on *Psychedelic Dream*; *Disbelievin'* on *Reverberation IV* (CD) and *Rain*, (the third movement from *Trieulogy*) on *California Halloween*.

Kaleidoscope's music was so wide-ranging it is difficult to categorise. Not surprisingly therefore, all of their albums have become obscure collectors items. However, compilations of material from their first three albums are now available, and all the original albums have been reissued on CD.

An explanation for the range of this group's music can be found in the backgrounds of its personnel. Lindley, born in LA, had previously played with a number of bands, including The New Christy Minstrels and The Greenwood Singers and had also played banjo for several labels. He formed the group in September 1966. They initially called themselves The Baghdad Blues Band. Feldthouse originated from Ismit in Turkey and played a wide range ot exotic instruments which included the sax bouzoukee, dobro, vina, doumbeg and dulcimer as well as the more mundane 12 string guitar and fiddle. He was responsible for the Eastern influence on tracks like *Egyptian Gardens*, *Why Try* and *Keep Your Mind Open* on their first album. Darrow was born in South Dakota, but raised in Claremont, California. His musical taste encompassed bluegrass, country, blues, jug band, R&B and old time jazz. Percussionist, Vidican, grew up in Hollywood and Epp was from Oklahoma City. Apart from the Eastern-influenced songs, other tracks on their first album included the traditional *Come On In, Oh Death* and the offbeat *Minnie The Moocher*. Another cut *Please* was chosen as the 'A' side for their first single with a non-LP track, *Elevator Man*. a more straight ahead rock track with some superb guitar playing from Lindley, on the flip. The single went nowhere. Next off they tried are mixed version of *Why Try* and a version of *Little Orphan Annie*, written by Darrow and Epp, which later tumed up on the *Bernice* album in a very different form. However, this 45 made no commercial impression either.

A Beacon From Mars contained an incredible 12-minute 'live' version of the psychedelic title track and an 11 minute 'live' version of their Eastern-jam *Taxim*. Indeed, their 'live' performances were quite a show with a belly dancer performing to the latter track and flamenco dancers accompanying their Spanish guitar work. The remainder of the album comprised more traditional country-influenced songs like *Greenwood Sidee*, *Life Will Pass You By*, *Louisiana Man* and the goodtime rag *Baldheaded End Of A Broom*.

By the time of *Incredible Kaleidoscope*, Darrow and Vidican had left. Darrow played fiddle on Morning's second album and went on to record a number of solo albums. He has also had a number of recent releases on the German Taxim label, played for a very short time with *The Nitty Gritty Dirt Band* and also backed Linda Ronstadt. Side 1 opens with the Eastern-influenced *Lie To Me* and the goodtime rag *Let The Good Times Flow*. The bluesy *Temple Arizona* is followed by the country-influenced *Petite Fleut* and *Banjo*. Side 2 contained the group's arrangement of the traditional ballad *Cuckoo* and the 11.30 minute *Seven-Ate Sweet*.

However, *Bernice* was comparatively weak and the group disbanded in 1970. The album was to have included many tracks which were censored by Epic, including three that were removed for taking stands on major political issues of the day, including the Chicago riots.

The group reformed in 1975 for a rather disappointing album *When Scopes Collide*, (Pacific Arts 102) and again in 1995 for the *Greetings From Kartoonistan* album.

Kaleidoscope also recorded a some pre-Epic demos, which were produced by Curt Boettcher and Victoria Winston. Tantalisingly, these have recently resurfaced and the tape log indicates that the sessions included *Down The Line*, an early version of *Egyptian Gardens*, plus a reel apparently containing a number of songs labelled *Irish With Sitars*.

The first three albums are recommended but the originals will be very difficult to obtain at reasonable prices. More accessible are the CD reissues, and four compilations of their material, including: Sony's *Egyptian Candy* (CD), issued by Edsel, *Bacon From Mars* (Edsel XED 11 5), which features some ot their best short compositions, *Rampe Rampe* (Edsel ED 138), which contains most of their longer cuts and 1993's *Blues From Baghdad* CD (Edsel EDCD 375), which basically comprised the earlier vinyl compilation *Bacon From Mars* with four additional tracks:- *Beacon From Mars, Seven Ate Sweet, Greenwood Sidee* and *Rampe Rampe*.

Kaleidoscope's other compilation appearances include:- *Keep Your Mind Open* on *Psychedelic Dream, Brother Mary* and *Mickey's Tune* on the *Zabriskie Point* soundtrack and *Nobody* (with Johnny Guitar Watson and Larry Williams) on *Mindrocker, Vol. 7*. They also have three live tracks:- *Oh Death, Taxim* and *Egyptian Garden* on *California Acid Folk*. Fans of the band will also want to seek ot a free EP which came with 'Ptolemaic Terrascope Magazine No. 12', containing two 1965 acetate tracks by this band - *I'm A Hog For You* and *Little Orphan Annie*.

A California artist. The first album (also known as *A Tribute To Jimi Hendrix* and privately reissued some years back in a limited edition of 300) is a folky voyage into psychedelia. This album is very rare and came with suitably pretentious sleeve notes. Mellow certainly, mystical at times, particularly on *Color Fantasy*, the prime cut, it uses a voice box to good effect and is certainly worth a spin, though not essential (Mike Love shares vocals on one song). The second album (reissued in 1991) is an experimental progressive album with some good guitar work which has had a very limited repress. Don't fork out for the original but the reissue is worth a spin.

Both albums have just been reissued as a double LP set with all the original inserts by Two Little Indians. As usual, with this excellent collectors label, it's lavishly packaged in a heavy duty gatefold sleeve and 180 gm vinyl.

2. Take Your Love And Shove I/National Anthem (Red/Yellow Vinyl) (Shove Love 0069) 1968/9

This mob came out of Fort Lauderdale, Florida. The music is mainly buried beneath the party going on in the studio, a veritable confusion of 'intermissions', noises, quips and general hilarity. They certainly had a lot of recording freedom. One track where they finally come together as an integrated unit is the tough rockin' ode to Jim Morrison suitably titled *Morrison*. This is followed by the long instrumental freak-out jam *Rushes*, which builds up to an impressive climax to close the LP. Oh yes - the labels on the record are reversed too - so funny! Best avoided. When Barbara Keith and N.D.Smart relocated from Boston to Washington DC, they teamed up with local heroes John Hall and Ted Spelios (ex British Walkers), who were based in the downtown area. **Kangaroo** played at the Peppermint Lounge during their short lifespan.

Basically their album's a country-rock influenced collection with some rather over-enthusiastic lead guitar. It does have two outstanding tracks which feature the beautiful vocals of Barbara Keith (the only two that do). Certainly an album that's worth a listen. John Hall was later with Orleans whilst, prior to **Kangaroo** N.D. Smart II had played with several bands including The Mark V, The Knights, Thee Rubber Band, The Remains {1966}, The Bait Shop and Bo Grumpus before joining **Kangaroo** in 1968. Whilst with **Kangaroo** he met the performance troupe The Hello People at the Cafe Wha? and worked with both groups for a while. In 1969 he left to work with Leslie West and was in the initial Mountain line-up, before joining Great Speckled Bird {1969-72}, and it's Woodstock based spin-off Hungry Chuck {1971-72}. In 1972 he worked with The Hello People once again.

Barbara Keith wrote *Free The People*, the Delaney and Bonnie hit and also released an excellent eponymous solo album in 1969 on Reprise, with one of the best versions of *All Along The Watchtower* and the participation of Lowell George and N.D. Smart II. Ted Spelios later played with Holy Moses.

This 'Bubblegum' rock group was assembled by producers Jerry Kasenetz and Jeff Katz and comprised members from The Ohio Express, Music Explosion and 1910 Fruitgum Company. 'Bubblegum' was a short -lived, but extremely commercially successful fad in America between 1968-69. At its most basic it was characterised by a heavy, repetitive bass beat; simple lyrics and affected nasal vocals. It was particularly successful with teen audiences. Jerry Kasenetz and Jeff Katz are generally credited for inventing the phenomenon and *Quick Joey Small* with its heavy, repetitive bass beat was one of the better examples of the genre. Like so many other recordings of this ilk it was commercially successful reaching No 25 in the U.S. and No 19 in the UK. You'll also find it on the compilation *Born Bad (Songs The Cramps Taught Us)* and back in 1968 it appeared on Buddah's *Pop Explosion*.

The first album was a fake live LP, though oddly the concert was recorded and is itself pretty good. The second also features the Shadows Of Knight. Another album by **K-K Orchestral Circus**, called *Classical Smoke* reputedly sounds uncanilly like a Joe Meek record (details anyone??).

Brother of Jorma, **Peter Kaukonen** released his only solo album in 1972 on Jefferson Airplane's label, Grunt. *Black Kangaroo* is a very convincing attempt at producing an Hendrix style album, a bit like Randy California's *Kaptain Kopter* or Velvert Turner's output. *Up Or Down*, *Prisoner* or *Dynamo Snackbar* are filled with electric guitar solos while *Barking Dog Blues* is a country blues track with funny lyrics. **Peter Kaukonen** wrote all the songs and produced the album. Definitely worth a spin.

Joe Covington was previously drummer for the 'Airplane and Mark Ryan played with Quicksilver and Bodacious D.F.. Larry Weisberg would later join Spirit.

Peter Kaukonen's career was not as prolific as his brother's. He later played with Grace Slick (*Manhole*) and Terry Allen (1975, *Juarez*) and did some session work too.

1(A)	Love For A Price/Never	(Lucky Sounds 1006)	1966
2(A)	Love For A Price/Never	(Romunda P-1)	1966

This Dallas outfit's finest moment was *Love For A Price*, which they got to record after winning 1st place in a Gibsons' Discount Center's "battle of the bands" contest. Shortly after they also got to perform it on Ron Chapmen's "Sumpin' Else" TV show. The two versions of the 45 feature different versions of *Love For A Price*, with the Romunda recording including an additional blistering guitar break, with lead guitar on both being provided by Dean Brown.

Line-up 'A' features the bands main personnel circa 1966/67, although during the bands four year lifetime, some members did change. One such member, E. Pat Davidson, went on to record a solo 45, *Fools Prlde/Stay With Me* (Sevens Internations 11005).

The band originated in Oak Cliff Texas when Gary Seals and Dean Brown got together with their guitars in Jr. High School. Dean:- "I was 13 and he was 15. We found a drummer and entered a battle of the bands at our local Montgomery Wards store, but lost to Jimmy Vaughn's band, The Pendulums. They were good and deserved to win. After that we played school parties and dances as The Guardians for about a year. Gary Kemp (Kempy) Rawlings was at one of our parties and sang a song with us. He sang so well we asked him to join and we became **Kempy**

and The Guardians. We eventually graduated from school parties and roller rinks to playing several local teenage clubs in the north Dallas area".

Kempy left the band sometime around 1968, but the band continued as The Guardians with Larry Samford switching from bass and vocals to lead vocals and David Johnson coming in on bass. This form of the Guardians lasted about a year or so, but by the time they had graduated from high school it was all but over.

Dean Brown still performs to this day, whilst Alan Roth bacame a local police officer.

Compilation coverage has included:- *Love For A Price* (Romunda version) on *Flashback, Vol. 6, Sixties Archives, Vol. 2* and *Garage Punk Unknowns, Vol. 2*; *Love For A Price* (Lucky Sounds version) on *Highs In The Mid-Sixties, Vol. 17- Texas Part Four*; and both versions appear on *Texas Punk From The Sixties, Vol. 2*.

NB: (1) shown as by Rande Bell Soup. (2) shown as by Gray Ghost.

From Phoenix, Arizona, Ken Walker and Bob Narloch played as a duo originally in the sixties. **Kennélmus** was formed in 1970 and their two albums were recorded between 1970-72 in recording engineers' Chuck Hauke's studio using two Ampex 351-2 two track recorders. Even the Rockadelic reissue of the first album is becoming hard to find. This is the better of the two. The main attraction being the rarity rather than the music. Side one of the album is instrumental and while some of the tracks are in a primitive hard rock style not unlike Hootch, others are very dense and beautiful. The vocal tracks are very quirky and strangely recorded - it's clear that **Kennélmus** spent a great deal of time knob-twiddling in their studio! While the results are obviously mixed, the album is recommended.

A number of additional musicians assist on the second album, which includes a couple of adequate Dylan covers, *I'll Be Your Baby Tonight* and *On The Road Again*, four Bob Narloch originals and three penned by Chuck Hauke among others. Of these, *Pickers On A Guitar* has a strong country feel. The most psychedelic is Chuck Hauke's *Black Sunshine* with some groovy guitar work and for me this is the stand-out track. Rather disappointing overall. The six 45 tracks are non-album cuts or different versions.

NB: (5) Leased to United Artists (UA 50085) for nationwide release.

One of Texas' finest sixties bands, they were reputedly playing at the La Fontaine Club in Dallas one night as The Illusion Combo (another of their early names was The Ken Daniel Combo) when Mark Lee walked in and told them that they were now called **Kenny And The Kasuals** and he was their manager. Their first three 45s on Lee's label attracted little attention but during 1966 they started playing at the Studio Club in Dallas and the same year they recorded their first album just to be sold there as a promotion gimmick. It begins with a guy answering the telephone with music In the background telling a caller that **Kenny And The Kasuals** are playing the Studio Club that evening. In fact it was not a live album at all - it was the result of one afternoon's work in a recording studio, but it captured the band playing cover versions of some of the popular songs of the time like *Gloria*, *Baby Please Don't Go*, *You Better Move On*, *Money*, and *All Day And All The Night*. Just 500 copies were pressed in mono and around 400 sold, but it gradually acquired a legendary reputation among record collectors and by the mid-seventies copies were changing hands for megabucks hence its eventual reissue in 1977. After its release Jerry Smith replaced Tommy Nichols on lead guitar and started writing songs with Kenny. Their next 45, *Raindrop To Teardrop* was a local hit as was the follow-up *Journey To Tyme*, which marked their progression from punk to psychedelia and told the story of an acid trip. This was leased to United Artists for nationwide distribution. After a further, equally good 45, *See Saw Ride* they headed to New York with a new line-up. Jerry Smith, realising his limitations on lead guitar had switched to rhythm and Richard Bergens (previously with The Briks) filled the resulting vacancy. The organist, Paul Roach, also left because he didn't want to leave Dallas that Summer. They failed to make the break in New York, where Kenny and Richard Bergens were constantly rowing and soon after their return from New York in September 1967 their fate was arguably sealed when Kenny got drafted, although they renamed themselves The Truth and soldiered on for a while releasing one funher 45. Unfortunately their name was confused with the title of Jeff Beck's album and the 45 flopped. Kenny did return to make a farewell appearance with the band at the 'Flower Fair', a big show in Dallas in April 1968.

In 1977 their first album was reissued and the following year Kenny and Jerry Smith reformed the band with a new line-up (D). They recorded a new album, *Garage Kings*, and *The Kasuals Are Back* (EP). A year earlier a compilation of their 45s and some unreleased cuts were issued, *Teen Dreams*. In Europe this was circulated as the 'lost Electric Prunes LP'!

Both of the Eva releases are worth checking out. *Nothing Better To Do* contains their six singles and the Truth 45, *Things Get Better* included The Gator Shades Blues Band's *Down In Mexico* and previously unissued material and outtakes. (The Gator Shades Blues Band were a short-lived venture which consisted of The Kasuals minus Kenny. Their *Down In Mexico* 45 had a test pressing of 100).

Compilation coverage has so far included: *Journey To Tyme* on *Nuggets, Vol. 12*, *Mayhem And Psychosls, Vol. 3* and *Songs We Taught The Fuzztones*; and *Everybody's Making It* on *Acid Visions, Box Set 1* (CD).

The Keymen were generally recognized as the premiere band in Las Cruces, New Mexico throughout the '60s. Not garage or psych, and probably best avoided.

ALBUM:

1. (A) LEVEL 61/2 (LPL 892) 1970

NB. (1) originally limited to 180 copies. The album was later pirated in the late eighties and issued on CD in the nineties by the band as *Encore!* with eight bonus tracks.

From Morton Grove, Illinois, this band took its name from the mountain, "Khazad Dûm" in J.R.R. Tolkien's 'Lord Of The Rings' trilogy. A progressive rather than psychedelic or garage album, it's quite an interesting listen if you can get the reissue CD but don't fork out megabucks for an original. The finer moments include *Nothing To Fear*, quite a commercial song with appealing vocals and lots of atmosphere; *In This World*, a melodic harmony soft rock song and *Excerpt From The Hunters, The Prelude*, a long progressive piece with lots of keyboards.

The group had their roots in an act called **The Laymen**, who formed back in 1964 and graduated from surf through soul to mild psychedelia. In late '69 they changed name to **Khazad Doom**, which with it's Tolkein reference, reflected their penchant for concept-laden song-writing. Their *Level 6 1/2* album, which was recorded in Chicago and Gary, Indiana, was named after the seven internal levels of Tolkein's "Khazad Dûm" mountain, but modified slightly, to show that "there was still room for them to grow...".

Gigging at local teen clubs around Illinois, they also were featured in the Chicago "Walk For Hunger", where 15,000 people gathered in a parking lot in Skokie, Illinois one Saturday morning to walk 20 miles on behalf of the hungry.

The *Encore* CD retrospective, includes two tracks by **The Laymen**, recorded in '68, their *Level 6 1/2* album, and five tracks recorded in 1971, shortly before a band disagreement caused them to split. One of these 1971 cuts, *Stanley's Visit To Kerkle Morff*, is a twelve minute epic, telling in three acts how Stanley invents and builds a flying machine, flys to Kerkle Morff, and eventually becomes King. With a catchy beat and original narrative, the track is a reminiscent of Caravan's *In The Land Of Grey And Pink*. In fact the band used to help audiences understand the intricasies of the piece by handing out pamplets explaining the storyline. The *Encore* CD also features a track by Jack Eadon from 1978, and all the bonus material is in a similar vein to the original release.

Came out of Fall River, Mass. with a typical garage-punker soaked in plenty of fuzz, snotty vocals and anti-social lyrics, called *Nature's Children*. You'll find it on *Pebbles, Vol. 21* (*Vol. 10* on CD). If it sounds a little familiar then it's because the band gave it another outing on their first LP after a name change to Tangerine Zoo.

ALBUM:

1(A)	LIGHT OF DAY	(Elektra EKS-7311)	1966

According to **Pat Kilroy**'s linernotes he was influenced by writers like Herman Hesse, Aldous Huxley, and George Gurdjieff, making it literally interesting to this book. All compositions were made by **Pat Kilroy** and the album was produced by Peter K. Siegel and supervised by Jac Holzman. Several of the musicians came from New York City so perhaps **Pat Kilroy** did too. Best known amongst the supporting cast is Stefan Grossman (earlier in Even Dozen Jug Band) and Eric Kaz (Bear, Blues Magoos and Happy & Artie Traum).

The album contains a mix of folk, strumming blues and some eastern moves with lots of tabla. Typified by **Pat Kilroy**'s very improvised vocals predating Tim Buckley's avantgarde excursions in 1968-1970. The final track, *Star Dance*, could have been an Incredible String Band tune. Depending on taste the best tracks are the

dreamy/trippy folk songs which features lots of flute, tabla and glockenspiel.

An Aquired taste but certainly memorable if you are into something highly original material.

An obscure Johnstown, Pennsylvanian sextet. You'll find their finest moment *Blue Avenue* on *Acid Dreams Epitaph* CD, *An Overdose of Heavy Psych* CD and *Return Of The Young Pennsylvanians* compilation. It's notable for a memorable guitar riff and otherwise is a good example of the typical garage-punk farfisa organ sound.

ALBUM:

1(A)	EVIL WIND IS BLOWING	(Specialty SPS 5003)	1972

This rare and excellent psyche/heavy blues album was produced by **Denny King**, Dillard Crume and Alex St.Clair. Recorded at White Tree Studios, Palmdale, Ca, the liner notes written by Dr. Demento (Barry Hansen) are explicit about its content: "From the Califonia High desert to your own sweet magic mind - may we present the blues band that makes you smile, **Denny King** and his B.O.Boogie Band. Yes sir, it's the true blues this **King** sings, while the B.O. blows a blue norther of sneaky slide guitar and howling harp. But there ain't no bringdowns in this here blues. May the truth be told - Denny has the greatest laugh on records! The High Desert is where the real funky sounds of Southern California come from. It's the primeval home of Beefheart and Zappa. Right now **Denny King** is the magic man, and he's called out the meanest cats between Lancaster and Mojave and recorded them right there on the desert, just to bring some sunshine soul into your heavy head. Touch your strongest stylus to these growling grooves and you'll soon know why they call that place the High Desert!"

The songs are really nice and often funny: *Evil Wind Is Blowing*, *Sunday Driver*, *Boogie Man*, *Bessie Mae*... All the tracks were composed by *Dennis King* except *Lucille* (Penniman/Collins) and *Desert Sand* (**King** / A St. Claire). Alex St Claire and Doug Moon wre previously were in Captain Beefheart's Magic Band and Greg Hampton was circa 1964/65 in Merrell and the Exiles.

3. Lost In The Shuffle/Hardly (Part 3) (RCA 47-8979) 1966

The King Bees were a little ahead of their time, playing the blues in New York City before it became popular there, They recorded three singles for RCA between Autumn 1965 and late 1966, which consequently were not as successful. Perhaps their best effort was *Lost In The Shuffle*, a cool blues number structured around the organ and deliberate vocals, which is featured on *Mindrocker, Vol. 9*. Another track, *On Your Way Down The Drain* has recently resurfaced on the *Hide & Seek Again* compilation.

Frustrated by their lack of success, **The King Bees** split in the Autumn of 1966. Kortchmar and O'Brien joined James Taylor in Flying Machine, whilst John McDuffy replaced Al Kooper in The Blues Project.

A popular late sixties Portland, Oregon Northwest band which evolved out of an outfit called Genesis. Kennedy, Ashley and Huyche had also all previously played in The Wilde Knights and Ron Overman had once been in Don and The Goodtimes. The name change from Genesis to **The King Biscuit Entertainers** came about when Mark Whitman, a flash guitarist, was added to the initial quartet. After they had recorded the two 45s for Burdette, Ron Overman was drafted. The KBE release was on their own label and Revue was a R&B subsidiary of Uni Records whose Russ Regan had heard a demo tape of the band and signed them up as a token white act. The record bummed and shortly after Mark Whitman left. His replacement Neil Anderson had previously been in The Bootmen and The Wailers. With a slightly modified line-up they went on to record as American Cheese. *Now, Baby I Love You* can be heard on *Rough Diamonds: The History of Garage Band Muslc, Vol. 7* which includes detailed sleevenotes by Greg Shaw about **The King Biscuit Entertainers** and the bands that preceded them. According to these Kennedy now works in a record pressing plant in LA, Scott Ashley now lives in South Carolina where he's active in the music scene and Roger Huyche drives a bus in Seattle. Mark Whitman now plays in The Mark Whitman band.

From Southern California, near Los Angeles. A West Coast heavy psychedelic rock outfit with two lead guitars and pretty incisive they are too at times. All bar one song (*Seasons*) were written by Jim Potkey. If you're into lots of heavy guitar work side one's for you, but aside from the two 45 cuts the material's rather samey. *Seven Fathoms Deep* has a melodramatic intro and if *l Was Never To See Her Again* was altogether more commercial. Side two is more interesting and includes the magnum opus *Prelude* with some interesting percussion and the extended finale *Morning Swallow*. Worth investigation.

4. Why / That's The Way It Goes (Delta 2115) 1965
5. I Don't Need You / How About Now (Delta 2143) 1966
6. Moonbeam (vocal version) / ?? (Jyck 102) 1990s

Starting as an instrumental outfit in Albuquerque, New Mexico, they hit big locally with *Precision*, a catchy Ventures-style instrumental with piano, which the majors failed to pick up. Led by Dick 'King Richard' Stewart, who wrote their material, they graduated to a vocal rockin'-fratrock-garage style in 1964 and so it's the three Delta 45s that are of the most interest to us. Their new style was an updated U.S. sound rather than UK-Invasion influenced. A crisp clean sound and the odd use of sax that points to their rock and instrumental roots. The vocals too are clean sounding and more like the Everlys than the Beatles. No dirty 'longhair' sounds in Stones or Animals vein, though *Why* treads close in its mean'n'moodiness. Other highlights are *I Want To Love You* with its *Louie Louie* beat, and a catchy *That's The Way It Goes* which a country-pickin' air.

Drummer Corky would join local rivals The Plague and still plays today in Dark Horse. Replacement drummer Jack Paden moved to another local band the Sidewinders when the **Knights** split in 1966. Dick Stewart also produced the Kreeg's now legendary *Impressin'*. The CD is really an Albuquerque retrospective, starring **King Richard and The Knights**. It features all their '60s 45s above plus a '90s rerecording of *Moonbeam*. The CD then adds Delta/Look label 45s by The Plague, Era Of Sound, Kreeg, Sidewinders, Saliens and a new recording by Jason Stewart, one of Dick's two musician sons. With its wide range of sounds running from instrumental through beat, frat-rock, garage, folk-rock and psychedelia this package neatly encapsulates the musical evolution of a local scene in the early-to-mid sixties. Liner notes and reminiscences are by Dick Stewart himself - which have helped to flesh out this entry and do it justice. I hope he doesn't mind because this package is to be commended, and heartily recommended.

1. (A) KINGS VERSES (Beatrocket BR 105) 1998

Formed in 1966 in Fresno, California, this band soon peaked locally, winning the 1966 KYNO Battle Of The Bands, where the guest band was the 13th Floor Elevators. Despite Bob Melchor's previous outfit being a local covers-band, the Trandells, this confident quartet performed originals only. It was inevitable therefore that after graduation they were drawn to the music mecca Los Angeles. Line-up B made the trip to the Strip in the Summer Of Love, playing openers and rubbing shoulders with established acts and gaining the interest of some labels. Before any contract had been signed however, the band was finished after they were blacklisted by L.A. clubs for daring to speak out against illegal club practices.

Luckily ten demos from 1966 and two live performances from the KYNO 1966 both survive and are at last aired on Sundazed's subsidiary Beatrocket. The demos show that their repertoire ranged from upfront and uptempo garage-rockers (*Lights*), fuzz-rockers (*Ballad Of Lad Polo, A Million Faces*), and groovy keyboard-led instrumental workouts (*Mind Rewind*), to sultry folk-punkers and beat ballads from the Beau Brummels-Byrds canon (*It's Not Right, She Belonged To Me, It's Love*). *She Belonged To Me* and *Light* comprise the live couplet.

With pics and memories from Bob Melchor and sleeve notes from Jud Cost, from which the above is extracted, this is a worthwhile and recommended release.

The origins of this Portland, Oregon band go back to 1957 when Lynn Easton and some of his pals from David Douglas High School formed a band which played at local dances and fairs and was a little unusual for featuring a small church type organ in its act. This phase in their career lasted until about 1962 when they got one of their early breaks. Ken Chase, Musical Director for KISN spotted them playing at a Portland teen club called The Headless Horseman and offered them a residency at his own bigger club, The Chase. They remained the house band there for a whole year. Then in 1963 Ken Chase helped them cut some audition tapes at the Old Northwest Recording Studio. Among the cuts recorded was *Louie, Louie*. Recorded under extremely primitive conditions it gave them a No 2 in the U.S. and reached No 26 in the UK, although Paul Revere And The Raiders' version (recorded the same week in the same studio) actually faired better in the Northwest. Chase had originally persuaded Jerry Dennon to release the song on his own Jerden label but later the group were signed by Wand becoming the first white act on what had been an all black label.

Louie, Louie sold over seven million copies legally and a few more were pirated. **The Kingsmen** were extremely successful enjoying eight singles in the Top 100 and five Top 100 albums in the Billboard charts, selling over 20 million records in all. Of their albums (1), (2), (3), (4) and (5) peaked at Nos 20,15, 22, 68 and 87 respectively. All five are now becoming mini-collectables.

Lynn Easton left the group in July 1967, the remaining members soldiered on until September 1968. There was a reformation in 1972 (line-up D) - Freddie Dennis had previously played with The Liverpool Five - and later in 1982 (line-up E), although they played mostly for fun. Norm Sunholm set up the Sun Amplifier Company with his brother using **The Kingsmen** as a testing ground for their products. Jack Ely is still in the music business in Portland and, since leaving the band, Lynn Easton has hosted a teen dance show, worked in advertising and most recently as a printing salesman. The band's stature as America's premiere garage band shows no sign of diminishing. Don Gallucci, went on to fame by forming Don & The Goodtimes and later Touch. Compilation coverage has also been extensive:- *Louie, Louie* as one would expect can be heard on several albums:- *Frat Rock! The Greatest Rock 'N' Roll Parly Tunes Of All Time; Tough Rock, Highs Of The Sixties, History Of Nortthwest Rock, Vol. 1; Nuggets, Vol. 8, We Have Come For Your Children* and *Wild Thing*; their version of *C.C. Rider* can be found on *History Of Northwest Rock, Vol. 3. I Guess I Was Dreaming*, quite a drug damaged recording, is on *Nuggets, Vol. 8*; *J.A.J.* is on *History Of Northwest Rock, Vol's 2* & *7* and *Jolly Green Giant* is on *Vol. 1* of the same series.

4. No Doubt About It/Mama's Gone (Empire 1) 196? -

This punk outfit hailed from the Dallas/Fort Worth area of Texas and were originally known as The Outlaws with their debut 45 and early copies of the second issued under this name. The second 45 attracted quite a lot of attention and got national distribution but did not make the national charts. Their version of *Midnight Hour* was ok, but the flip, *Don't Tread On Me* was their finest moment, and in the eighties the track was covered by numerous bands including Gravedigger V and The Nomads.

Compilation coverage has included: *Don't Tread On Me* on *Flashback, Vol. 5, All Cops In Delirium* (aka *Good Roots*), *Highs In The Mid-Sixties Vol. 11: Texas, Part One* and *The Best of Pebbles, Vol. 2* and *Midnight Hour* on *Sixties Rebellion Vol's 1 & 2* (CD).

2	Leave Me Alone/The Girl I Threw Away	(Dunwich 147)	1967
3	Inside Outside/You're Ready	(Dunwich 164)	1967

NB: (3) unreleased.

This short-lived Chicago mid-sixties outfit attracted the interest of a major label but failed to break through commercially. Their first 45, *Leave Me Alone* is regarded as among the finest U.S. sixties garage singles. An uptempo rocker with lots of mouth organ and great lyrics, it's subsequently resurfaced on *What A Way To Die*, *Dunwich Records Story* and *Oh Yeah! The Best Of Dunwich Record, Vol. 1*. The flip, *The Girl I Threw Away*, is a brooding pop-punk ballad, and has also got further exposure on *Pebbles, Vol. 9*, *Mindrocker, Vol. 2* and *Pebbles (CD) Vol. 1*.

They also recorded a second 45 for Dunwich, which apparently owed more to the sexual suggestiveness of The Troggs than any other influences. Perhaps this is why Dunwich never released it.

Shortly before their demise they escaped the freezing Northern winter to tour California with The Flock, one of Chicago's premier progressive rock bands.

Howard Berkman, Neal Pollack were later in Euphoria Blimp Works, an early seventies Chicago act which did not record, as well as in a related project Yama And The Karma Dusters, who cut an album in 1970.

In addition to *Leave Me Alone* you'll also find two previously unreleased tracks - *Tease Me* and *Away*on the *Dunwich Records Story*, whilst *Oh Yeah! The Best Of Dunwich Record, Vol. 1* compiles *The Girl I Threw Away, Tease Me, Leave Me Alone, Inside Outside* and *Your Stuff. Vol. 2* also includes *Away*.

The Knickerbockers took their name from Knickerbocker Avenue in Bergenfield, New Jersey, where they came from, but they moved to Los Angeles in 1965, where they recorded for Challenge Records. They followed the initial success of their Beatlesque rock number *Lies* with a succession of excellent pop/rock singles. *One Track Mind*, which was also covered by The Gants was a bit more punkish... whilst another of their finer moments, *High On Love*, was an energetic pop/rock 45.

Jimmy Walker later joined The Righteous Brothers.

Compilation coverage has so har included: *Lies* on *Nuggets, Highs Of The Sixties, Nuggets, Vol. 3, Tough Rock, Wild Thing* and *We Have Come For Your Children*; *One Track Mind* on *Mindrocker, Vol. 1* and *Nuggets, Vol. 4*; *High On Love* on *Nuggets, Vol. 5*; and two unreleased demos, *Lies* and *My Feet Are Off The Ground*, are to be found on *I Turned Into A Helium Balloon* (CD).

Curtis Knight

ALBUM:

(very selective)			
1	DOWN THE VILLAGE	(Paramount PAS 5023)	1970

Curtis Knight was a soul/rock singer who hired Jimi Hendrix, then known as Jimi James, in 1965 and 1966, to work the club circuit. Several records document this period but, generally released after Hendrix's death, they are best avoided. His only worthwhile album was released in 1970 and contains the long cut *Give You Plenty Lovin*, full of heavy guitars.

In 1974, **Knight** wrote a Hendrix biography, "Jimi", and kept on recording, often for small European labels. His subsequent records are quite painful to listen to, as they were generally trying to recapture the Hendrix sound with pale imitators.

Curtis Knight died in 1999.

This garage-rock quintet from Flint, Michigan is probably most significant for containing DJ **Terry Knapp**, who formed, managed and produced Grand Funk Railroad, which also included Pack members, Don Brewer and Mark Farner. In the early '60s, Terry was a DJ in Detroit who played Pretty Things, Them, Zombies, Kinks etc long before anyone in the 'States had picked up on the U.K. bands, introducing The Rolling Stones on stage at their first New York gig and interviewing them during their first U.S. tour.

With the Pack Terry had a few minor hits and their first two albums are now minor collectables. Prior to becoming Grand Funk Railroad and without Terry, the group also recorded two 45s as The Pack and The Fabulous Pack. There is a pic sleeve one of these 45s, *Wide Trackin'*, that clearly shows a five-piece with him on keyboards. Whether it was a contemporary photo is another matter of course. Another of their tracks (*I Got News For You*) was penned by Dick Wagner (of Frost), whilst *Love, Love, Love, Love, Love* was covered by The Music Explosion and later in 1973 by Brownsville Station.

In 1975, Terry left the music business.

Compilation coverage to date has been limited to the brilliant *How Much More?* on *Michigan Mayhem Vol. 1* (CD) and *Chosen Few, Vol. 2*; *What's On Your Mind?*. on *Michigan Brand Nuggets*; *The Color Of Love* on *Relics* and *Sixties Archives Vol. 7*; *Numbers* on *Turds On A Bum Ride Vol's 1 & 2* (CD) and both *Harlem Shuffle* and *Wide Trackin'* on *Mindrocker, Vol. 11*.

From Belmont, California, this band became better known due to the issue of their one unreleased June 1965 track *I* on *San Francisco Roots* in 1968 (the compilation was also reissued in 1975 on JAS). Clearly a popular number - it's appeared more recently on *Pebbles, Vol. 13, We Have Come For Your Children* and *Mlndrocker, Vol. 10*. Basically, it's a infectiously catchy punker with a bit of extended guitar work in the middle.

More recently, *I* and the previously unreleased *I Don't Know* have also resurfaced on *Psychedelic Microdots Of The Sixties, Vol. 3* (CD), whilst Big Beats' *Dance With Me* CD (part of the *Nuggets From The Golden State* series features *I* plus three unreleased tracks from 1965 - *Where Did I Fail, Torture And Pain* and *Won't You Be My Baby*.

This was a prep-rock outfit from Herman College, Massachusetts, who were also known as **The Herman Knights**. They played between 1961-69 but started recording in 1962 making several tremendously rare LPs. Musically these ranged from early sixties instrumental sounds, to big band jazz and garage covers in the mid-sixties. *The Knights 1967*, for example, reveals a collection of soul, R&B, beat and ballad covers ranging from soppy goo (*Unchained Melody*, *Under The Boardwalk*) to Invasion-style (*Bring It On Home*, *I'm Crying*), all done competently but not inspiringly.

Two of its members would later turn up in Quill.

Their cover of Goffin/King's *Don't Bring Me Down* has also resurfaced on *Oil Stains* and *You're Not Mine* from the *Off Campus* album can be heard on *Hipsville, Vol. 2*.

This was a bunch of Australians who sought fame and fortune in the Big Apple and were based in New York City. Bob Wyld and Art Polliemus (of Blues Magoos discovery fame) produced their 45. The 'A' side is slightly reminiscent of Autosalvage (as is the album), the flip is a heavy psychedelic ballad. These two cuts are the best tracks from the album which for the most part is decent hard rock. The case for their inclusion here is borderline but I've done so mostly on the strength of their 45. One member went on to Sir Lord Baltimore.

A track from the album, *Poor Discarded Baby*, has resurfaced on *Turds On A Bum Ride, Vol. 2*.

1	Gooseberry Pie / The Next Boy	(Elko 3001)	Jan 1968

Dean Kohler started out playing instrumentals in his hometown of Portsmouth, Va. with The Satellites. The group's orbit was halted by his call-up from Uncle Sam in 1966. Undeterred, Dean formed The Electrical Banana whilst on tour in Vietnam to entertain his comrades. In 1967 they recorded two folk-rockers live in an army tent and pressed up ten customised acetates.

Shortly after his safe return to Portsmouth, in time for Christmas 1967, he was back in the studio recording *Gooseberry Pie* - a catchy slice of fuzz-pop about "a trip to the drive-in with a girl". Success was elusive despite a lip-synched appearance on local TV show Disco Ten although it gave him the opportunity to form the show's house band (Soft Light) for the following season.

Gooseberry Pie has been served up again on the 2-CD *Essential Pebbles Collection Vol. 2* and on the excellent Virginia compilation *Aliens, Psychos And Wild Things* (CD). The latter includes his earlier waxings with The Satellites and Electrical Banana.

This classic slice of early 'heavy psych' can also now be heard by a wider audience via the excellent compilation *An Overdose Of Heavy Psych* and *Psychedelic Experience* (CD). *Savage Lost* is a great title too and Jeff Lemlich used it for his fascinating and worthy Florida Discography. The flip is not up to the same standard but a Vanilla Fudge type rework.

From Miami, and previously known as The Shaggs, member Bob Jabo would later be in Katmandu, whilst vocalist Angela Risoff split in '68 to tour with Blues Image. (Max Waller)

ALBUMS:
(Selective)

1	SUPER SESSION	(Columbia CS 9701)	1968
2	THE LIVE ADVENTURES OF MIKE BLOOMFIELD AND AL KOOPER	(Columbia KGP-6)	1969

NB: (1) by Bloomfield/Kooper/Stills.

Singer, guitarist, organist, arranger, producer, **Al Kooper** was an essential figure of the rock scene between 1965 and 1970. He formed the Blues Project in 1965 and Blood, Sweat and Tears in 1968. As an organist, he played on Bob Dylan's *Highway 61 Revisited* and *Blonde On Blonde*, helping to create a sound which was influential on groups like The Band or Procol Harum.

Kooper was also an active session man playing with Tom Rush, Jim and Jean, Jimi Hendrix, the Paupers and Moby Grape. He was also one of the first musicians to record a session of rock jams with the commercially successful *Super Session* with Mike Bloomfield and Steve Stills in 1968. Although this was common with jazz or blues, the 'jam' album hadn't yet set root in the rock genre. This was followed in 1969 by *The Live Adventures* with Bloomfield, John Kahn, Skip Prokop, Carlos Santana and Elvin Bishop. In 1972 he formed his own label, Sounds Of The South, and produced the first three Lynyrd Skynyrd albums, one of the best southern rock acts. He also produced several other rock and soul groups.

Between 1968 and 1978, **Al Kooper** recorded several solo albums, which are mainly pop oriented, generally weak and out of the scope of this book. After a long legal procedure with Columbia, he came back in 1995 with a new album which failed to chart.

From Edwardsberg and Ann Arbor, Michigan comes this typical keyboard/guitar driven progressive era item. Acceptable but by no means essential or even innovative in any way. You could be forgiven for thinking that the best thing about it is the rather striking cover. All the songs were written and arranged by the band. Jimmey Robinson was responsible for the lyrics on 10 of the 11 tracks. Chuck Eagan was the lyricist on *Anatomy*.

From the New York scene, this was a short-lived project lead by Artie Kornfeld, also known for his production work (The Wind In The Willows) and many '70s pop groups). The album is mainly composed of original material penned by Kornfeld and played by a group of outstanding musicians: McDonald was in Jeremy and The Satyrs and played with both Joe Beck and Tim Hardin. Hugh McCracken (who was an in-demand session man on the New York scene then) filled the guitar parts with ease and bassist Tony Levin went on to King Crimson in the late '70s.

Although it was recorded in the early seventies with the band being so young it sounds more like a mid-sixties effort. They chose the name because they Were all going to an Episcopalian School - they took the word creed and replaced the C with a K David Cannon wrote all the songs on the album and he was clearly a talent. Between 1976-1982 he fronted No Cheese Please, Balderdash and The Fabulous Toasters. **Kreed** were together for just eight months from September 1970 until the Summer of 1971. A short-lived, Corpus Christi rock and roll outfit included here because it was a late outing for Gerniottis who had earlier led The Liberty Bell and prior to that Zakary Thaks. You can hear their 45 on *The J-Beck Story, Vol. 3: The Liberty Bell* (Eva 12036) 1984, or check out the Collectables retrospective CD, which includes previously unreleased material.

Formed in February 1970 the band only lasted until September that year. They hardly played live at all but mainly spent their time rehearsing and recording at Studio B in Corpus Christi. Their 45, *Bad Side Of The Moon* was an early Elton John number while the other tracks on the retrospective CD range in style from the latin-rock of *Bossa Nova* through the broodingly atmospheric instrumental *Help Yourself* to gruff-voiced hard rock and gospel. Unfortunately, it's a bit lacklustre compared to Gerniottis's earlier outings with Zakary Thaks and The Liberty Bell.

A seminal group from the Boston scene, **Jim Kweskin and his Jug Band** appeared in 1963 and played a happy mix of folk, blues, jug band music, rock and old timey songs. The personnel was quite unstable, having between four and eleven members, but they had a very good live reputation. Muldaur and Richmond also played with Eric Von Schmidt and are both present on the Elektra *Blues Project* album from 1964. Their records may interest fans of the early Nitty Gritty Dirt Band, Dr. West's Medecine Show and Junk Band or the Lovin' Spoonful.

When the group finally broke up in 1967, its various members kept on playing: Geoff and Maria Muldaur recorded, first as a duo, then with Paul Butterfield Better Days and finally had solo careers. Fritz Richmond moved to California and become a renowned studio engineer. He also played with Norman Greenbaum, Ry Cooder and is still touring with John Sebastian. **Jim Kweskin** for many years became a devotee of "guru" Mel Lyman, although recently he has pursued a low-ley career in the folk clubs and is now recording once again.

In 1969, Bill Keith and Richard Greene founded the Blue Velvet Band who released a good country folk album produced by Erik Jacobsen, the producer of Lovin' Spoonful and Norman Greenbaum. Greene also joined Seatrain and took part in several groups and sessions (Brewer and Shipley, William Truckaway, Pearls Before Swine). Prior to joining the '**Jug Band** Bill Keith had played with Bill Monroe and The Bluegrass Boys. In the early '60s he revolutionised bluegrass banjo with his melodic style, adapted from arranging fiddle tunes for the banjo.

From Marshall, Missouri and pronouncing their name 'Kicks' this quintett recorded an album in 1967 in Memphis. Titled *Bittersweet*, it was scraped before release, although Collectables are promising a "reissue" in the near future. Their sole 45, which was recorded at Columbia studios in Nashville, came in a picture sleeve which photo'd the band in a field surrounded by their Vox Super Beatles, and then superimposed their name in blue psychedelic lettering. The contents of the sleeve, a routine garage dirge, did not live up to the promise, but you can find the 'A' side on *Monsters Of The Midwest, Vol. 2* and both sides on the excellent CD comp *The Human Expression And Other Groups: Your Mind Works In Reverse*.

The group changed its name to Bittersweet some time around '68 or '69 and recorded the "album" tape at a recording studio outside Columbia, Mo. The group remained the same with the exception of Bob Williams who replaced Mike Williams (no relation).

From San Francisco, **Lamb** was primarily a hippy duo formed by Barbara Mauritz and Bob Swanson. Appearing at several concerts in the Bay Area, by the time of their third album, they were a quintet with a strong rhythm section, backing Barbara Mauritz' powerful voice. Their music is a mix of west coast and soul with some oriental and jazzy influences.

From Beaumont, Texas originally, Barbara Mauritz was born into a very musical family that claims Gypsy blood. At the age of four she began playing piano and at fifteen started playing in the local clubs. There she met artists like Edgar and Johnny Winter and Janis Joplin, the latter being a close friend of Barbara's sister.

A year later, Barbara moved first to Houston, where she opened for Lightning Hopkins and The American Blues, and then New Orleans. Around this time she started playing guitar and composing songs, but it wasn't long before the attractive "new sounds" coming out from California led her to settle in San Francisco.

There she formed **Lamb** with Bob Swanson and after being spotted by producer David Rubinson, got to open for CSN & Y at the Winterland for four nights. Suitably impressed, Bill Graham took **Lamb** under his wing. In 1969 their first album for the Fillmore label, *A Sign Of Change* was released. Still today it has a unique and very distinctive sound, enhanced by the unusual instrumentation: classical guitars, upright bass, cello, flute, oboe and Barbara's beautiful voice. *Traveler's Observation*, *In My Dreams* and *The Odyssey of Ehram Spickor* are real gems of acoustic psych-rock.

After recording *Hello Friends* for the famous *Last Days Of The Fillmore* set, **Lamb** switched to Warner Bros., and produced two further albums. Both *A Cross Between* and *Bring Out The Sun* offered more haunting songs composed by both Barbara and Swanson, but with a fuller and sometimes elaborated sound due to the participation of many more talented musicians. These included Jerry Garcia, Ed Bogas, Bill Attwood, Mark Springer, John McFee and Tom Salisbury, to name a few. The best tracks probably remain the more acoustic numbers like *Sleepwalkers*, *While Waiting*, *The Vine*; or the lively *Ku*, *Milo And The Travelers* and *Live To Your Heart*.

In 1973 Barbara Mauritz became a solo artist and completed *Music Box*, a good - even if a little more mainstream - offering. Particularly noteworthy are two beautiful ballads, *Winter In The Valley* and the title track. The same year The Pointer Sisters went platinum with a cover of Barbara's *River Boulevard* (originally on *Bring Out The Sun*). In 1974 she wrote a music score for "Where The Lilies Bloom" movie, sharing the musical space with Earl Scruggs. The soundtrack was issued by Columbia (KC 32806).

In 1976 a bad road accident interrupted her live performances, major label recording deals and an eight year management contract with Bill Graham's Fillmore Management. Still in 1977 and '78 Barbara collaborated with artists like Tom Salisbury and Chris Michie, but only in 1983 resumed writing again. More recently she has composed more than 150 commercials, including a Levi-Strauss one and you can hear her sing on albums by Link Wray (1973), Steve Douglas (1983) and Vince Wellnick (1998). Today she has plenty of new songs, runs an independent label called Citylife Records and publishing company.

A new CD *Give Me Half A Chance* and a compilation of **Lamb** material is expected to be out soon.

David Hayes went on to work with Jesse Colin Young and Terry and The Pirates.

From L.A., this folk/rock group formed in the autumn of 1966 and lasted through to June 1967. Their first single was a cover of the famous Donovan song. James Hendricks was married to Mama Cass from the Mamas and Papas and had been with her in the Big Three and the Mugwumps. Billy Mundi (ex-Mastin and Brewer) helped record the singles, but left in October 1966 to join the Mothers Of Invention. He later played with Rhinoceros and on numerous sessions (Stone Poneys, Fred Neil etc.). A good guitarist, Fred Olsen would later play with Mike Bloomfield and Brewer and Shipley.

No More Running Around (co-written by Hendricks and Gabriel Mekler, the future Steppenwolf producer) has been compiled on *Penny Arcade, Dunhill Folk Rock, Vol. 2*. It's not certain if Gabriel Mekler was actually a band member, but he certainly helped out with the recordings and used the group's equipment to help start up Steppenwolf.

ALBUM:

1. (A) TWO SIDED FANTASY (Capitol ST 11006) 1972

Thought to have been a New York bunch, they don't appear to have released any 45s for Capitol, but their album is an undiscovered gem. Kicking off with *Do What I Want* which featured slick rhythms and fine guitar a high standard is set and equalled by *Creepy Feeling* and the Johnny Winter-influenced *Everybody Knowns (Slippin)*, with its gruff vocals and fine guitar interplay. *Dream Novel* rounds off side one with some simply exquisite guitar work. Perhaps the album's finest moment is *Happy*, the closing track, which builds into an amazing climax. Recommended.

NB: (3) issued as by The Mark Five. (5) Issued as by The Bad.

The first and one of the best garage bands to come out of Fort Worth in the sixties. Slater and Roquemore put the band together to play at a Halloween gig. Line-up 'A' dates from 1963, but line-up 'B' was the one that played on their 45s. Hammond had earlier played for Jack And The Rippers, a sixties Texan outfit that did not make it on to vinyl. Their first song was *Night Of The Sadist*, a spine-chilling recital of an attack by the Lake Worth Goat Monster whose legend the band fuelled. They took it to local entrepreneur Major Bill Smith, who feeling he had a hit on his hands, removed the word 'sadist' from the title and renamed the record *Night Of The Phantom*. It was soon leased to 20th Century Fox and gave the band a local hit. The group developed a penchant for recording under pseudonyms and later that year recorded an inferior rehash of the song for a 45 released as by The Mark Five. For a latter 45 they used the pseudonym The Bad, and also toured as a bogus Sir Douglas Quintet.

In 1968 the band split when Slater and Roquemore went on to form a new outfit, Soul Purpose and Randy Cates joined Gypsy. Roquemore also had a solo 45, *Mrs Brown You've Got A Lovely Daughter/Just Stay* (Guyden 2124). The 'A' side was a U.S. No. 1 back in 1965 tor Herman's Hermits.

Understandably, the band have been heavily compiled including: *In And Out* on *Gathering Of The Tribe, Highs In The Mid-Sixties, Vol. 11* and *Flashback, Vol. 5*; *Night Of The Phantom* on *Back From The Grave, Vol. 1* and *The Major Bill Tapes, Vol. 2 - The Fort Worth Teen Scene*; and *Night Of The Sadist* on *Back From The Grave, Vol. 4, Acid Dreams Epitaph* (CD) and *Acid Dreams Complete Collection* (3LP).

I've seen this minor collectable described as 'psychedelic' but it's really an experimental horn-rock album, with psychedelic influenced lyrics from Alan Springfield. It has a rather messy production, by Tom Wilson and unless you're a jazz or horn-rock connoisseur steer clear.

4	Mo'reen/Runnin' And Hidin'	(Atco 6579)	1968

NB : (1) and the flips of (2) and (4) are non LP tracks.

A frustrating band that embraced many styles. Their debut 45 is moody beat-punk. Subsequently they'd vary from strident garage beat with some wicked guitar outbursts, to straight pop and brassy soul-tinged bombast. Their slightly fuzzy cover of Paul Revere and The Raiders' *Mo'reen* is O.K. but lacks conviction, whereas the flip is a much livelier affair with some excellent scorching guitar runs - the pick of the crop. Produced by Brad Shapiro and Steve Alaimo, the album is similarly patchy despite occasional fuzz outbursts. It features four originals and six covers: - Phil Spectors' *Be My Baby* (Ronnettes) and *You've Lost That Lovin' Feelin'* (Righteous Bros) - the latter in overblown Vanilla Fudge style; the Beatles' *No Reply* is also ala Fudge; *The Kids Are Alright* (The Who); *Mor'een* (Raiders); and an awkwardly beefed-up version of *A Basket Of Flowers* (by Florida folk-rockers The Nightcrawlers). They come across as a club/cabaret covers-band with an interesting choice of material but some clumsy re-arrangements. Two members were from Jersey City and other two from New York, where the band was based before relocating to Florida.

Bidin' My Time has also resurfaced on the *Acid & Flowers* CD.

One of Austin's most durable sixties outfits, they were assembled by local D.J. Mike Lewis who picked De Penning and Arnold from Baby Cakes and Schwertner and Inman from The Reasons Why. Their line-up changed over the years - Nunn and Nye had previously played with The Sparkles and Yaryan and Wier with The Wig. The Sonobeat 45s, which were issued in picture sleeves, were actually recorded in a 'studio' set up at the famous Vulcan Gas Company club. Musically after an initial pop 45, they experimented in a country direction. Indeed when they split, Rusty Wier became an important figure in the local C & W scene and enjoyed a solo career. Schwertner was involved with Plymouth Rock who issued a 45 on Sonobeat and the remaining members apart from Nye went on to play in Genesee, a later Austin band. Most of them later achieved commercial success in other bands.

4. Ain't Too Proud To Beg/Harry's Drive-In Church (Steffek 1969) 1969

This outfit, which dates from December 1966, features among Houston's finest punk bands. Their first 45 was picked up by Huey P. Meaux's Tribe label and made No 65 on Billboard, but their finest moment *So Sophisticated* is captured on *Flashback, Vol. 5*. The flip to this 45 was later covered by The Chesterfield Kings, but you can check

out the original on *Sixties Rebellion Vol. 6* (CD). Their third and final effort was the work of line-up B. Swonke who had previously played with Pena in The Coachmen, an earlier Houston act that did not record.

They disintegrated in 1969 and all except Swonke were invited to join The Clique although Teaque and Headley remained with them only briefly. They went on to record material for Intemational Artists which remains unreleased and Teaque also played with an outfit called Just Us who made a 45 on Mod International. In 1982 Tom, Mike and Steve built their own recording stuido. They record progressive rock under the name Tiger's Claws and run Adonis Records.

A cool quintet from Memphis, Tennessee. *If You Want Me...* is a fine Stones - cum - Pretty Things style shuffle-punker featured on *The Lost Generation*. The superb droning pop-punker *Half Way Down The Stairs* is part-featured (is cut off abruptly) on the *Straight From The Garage* (aka *Punk Classics*) *Vol. 3* but you can hear the full version on *The Psychedelic Experience Vol. 3* (CD).

Terry Manning had previously been briefly in the Bobby Fuller Four and stayed in Memphis where he became a respected sound engineer and producer for the Staples Singers, Isaac Hayes and ZZ Top.

Both tracks of the first single were written and produced by Jim Dickinson (it's the first record he ever produced), who was then working with several Memphis groups including: The Jesters, Flash and The Memphis Casuals and The Avengers (also with Terry Manning) to name some.

Ardent was a short-lived local label managed by John Fry, the owner of the Ardent Studios, one of the more active Memphis studios. Fry later relaunched the label in the early '70s and signed a distribution deal with Stax. The best

group of this second Ardent would be Big Star.

1. I'm Gonna Love You/As Long As I Have You (Enterprise 5060) 1965
2. I'm A Clown/Poor Boys Always Weep (Enterprise 5085) 1965

This Detroit area act started life as **TC and The Good Guys** in 1960 and were managed by Bob Swartz, who also managed Bob Seger's Last Heard. Indeed both bands knew each other well, although they never actually gigged together and Swartz failed to break either act... Still, **The Lazy Eggs**' superb blend of Beatlesque garage-beat, helped them pack clubs in the Detroit / Michigan area and both 45s were local Top 10 hits. In particular *I'm A Clown*is an instantly likeable affair that bounces effortlessly along and oozes pure class - by rights it should have been a massive hit. The flip, *Poor Boys*... is more of a ballad with some simple effective guitar-work.

Sadly, their 45s were given little promotional support and in 1968, although still popular on the University circuit **The Lazy Eggs** split. A contributory reason, no doubt, was the unusual day job Sam Moceri held, as being a Police Office by day and rock & roll musician by night could not have been an easy task - given the political turmoil of the time. Moceri and Carson later started a music business in 1970, the "Fiddlers Music Company" that lasted until 1980 and was well known in the Detroit area.

1(A)	CORRIDOR OF FACES	(Onyx ES 6903)	March 1969

NB. (1) reissued on CD by Afterglow (003) in 1993, and by Arf! Arf! with twelve extra tracks (AA-065) 1997 and on vinyl by Heyoka (HEY 206) 1986.

This outfit came out of Northern Massachusetts with what some would argue is the ultimate psychedelic album, full of superb Beatles - like vocals and songs with great guitar work.

All the band's members had previously been in an outfit called The Road Runners, who released an acetate single, *You Don't Understand*/*One Light* and Charron, Mazzotta, Door and Pollano were helped out on the album by Joe Villanucci, who played electric piano on *Sarah Saturday*. Original copies of *Corridor Of Faces* now change hands for hundreds of dollars and were virtually impossible to find in the U.S. let alone elsewhere.

The album was recorded between 22nd June and 13th July 1968 on a budget of $1000 and emphasised the softer, more reflective side of the band, which was apparently a lot heavier live. Although lacking the range of the Beatles, the album perfectly establishes a mood - musing and introspective but not melancholy - with guileless vocals expressing a rapt, unhurried contentment. While not overtly psychedelic, the atmosphere strongly suggests the drug experience in its basking-in-the moment serenity. At times the band sound almost dead-ringers for Kaleidoscope (UK version) on tracks like *Salty People*, *How Was Your Day Last Night* and *Come With The Day*. *Under Skies* has all the evanescence and permanence of a hazy summer's day, while *Sarah Saturday* and *How Did You Die* sound like parodies of Paul McCartney and John Lennon respectively. A beautiful album that keeps on improving with further acquaintance.

By the time that the album was released, the band had split up (Door had left so soon after the album's recording that he wasn't included on the album cover), but Pollano cut one post-album 45 in a trio called The Owl, which is in similar style to the album. The twelve bonus tracks on the excellent Arf-Arf CD, which contains a full history of the band including many photos, are acoustic (mainly) demos recorded in the autumn of 1967, seven of which are early versions of songs from the album.

Pollano also recorded twelve further songs in Boston in the Winter of 1969 for an intended second album, but only two of them surfaced on a single, *You Always Seem To Know/It Happened Again*. Mazzotta later played with Euclid and was playing in a country band in Massachusetts in the early-'90s.

Very recently a reunion album was recorded, *Pictures In The Smoke*.

You can also find *There Was A Time* on *Love Peace & Poetry Vol. 1*.

Leary was the 'high priest' of the psychedelic cult. Whilst Proffessor of Psychology at the University of Havard he

had promoted the potential of psychedelic drugs as a vehicle for expanding the individual consciousness and for favourably modifying social attitudes. He was an extremely energetic writer and in his book, 'The Politics Of Ecstacy' through a series of articles, reported speeches and interviews, he explained why he believed people should turn to psychedelic drugs to achieve a more humane and satisfying relationship with the universe and everyone and everything in it. Leary used every channel of communication open to him to expound the aims of the psychedelic movement and like his many other books, the above four albums, which are all now minor collectables, did just that. Needless to say that all this not only cost him his job but he was also imprisoned for ten years on the charge of possessing a very small quantity of 'pot'. He later escaped from prison, fled to North Africa and then to Switzerland, where his later publications continued to give him considerable influence as a 'high priest' of the psychedelic culture. He was a very important cult figure, indeed martyr, for very many young people.

Timothy Leary died on 31st May, 1996 at the age of 75.

ALBUM:

1. (A) TRIP DOWN THE SUNSET STRIP (Viva V-36003) 1967

NB. (1) issued on Fontana (5412) in the UK.

This was a Los Angeles-based studio project involving J.J. Cale and the Tillisons, a folky couple who had migrated to LA and released one 45 as Gypsy Trips in 1965 which was subsequently covered by The Electric Prunes on their debut 45. The album, which was released on Amos "Snuf" Garrett's Viva label is notable for being Cale's first album appearance. He wrote the self-penned material on and co-produced the album. It consists mainly of covers of the 'in' sounds of the time including *Eight Miles High, Psychotic Reaction, Over Under Sideways Down, Sunshine Superman, Kicks* (by Paul Revere And The Raiders), *Mr. Tambourine Man* and *Along Comes Mary*.

We previously had the Viva label down as being owned by Leon Russell, however this is incorrect as all the Viva 45s we've checked bear a logo and 'Snuff Garrett Productions'. Leon Russell did produce at least one 45 on the label - The Shindogs 45 on Viva 601- so perhaps he was an inhouse-producer for the label?

Roger Tillison later released a good solo LP in 1970 *Roger Tillison's Album* with Jesse Ed Davis.

Beatlemania influenced Jim Pons to put together a band called The Rockwells, in 1964, whilst at San Fernando State College (California), with the money he was awarded after a $1,000 automobile lawsuit. The original line-up soon set about performing classics like *Louie, Louie* and *Twist And Shout* at frat parties. The band's quest for self-improvement soon led them to add John Beck and replace Jimmy Kern with Tom Ray.

The band's break came when they got a residency at Ciro's in LA. They then chose a new name **The Leaves** and had posters designed with pictures of themselves and a marijuana leaf saying 'The Leaves Are Happening'. Pat Boone heard them playing at the club one night and signed them for his Penthouse Production Company. Through this **The Leaves** were first signed to Mira and released their debut single *Too Many People/Love Minus Zero*. The flip is included on *Mindrocker, Vol. 5*. The 'A' side was a hit in Los Angeles and later resurfaced on *Nuggets, Vol. 2*.

The Leaves were the first band to release *Hey Joe* as a single. David Crosby had first performed the song with The Byrds. They made two previous recordings of *Hey Joe* before the third fuzztone version, which reached No 31 in the U.S. charts and is included on Lenny Kaye's *Nuggets* compilation and on *Mayhem And Psychosis, Vol. 1*, *Nuggets, Vol. 1, Tough Rock* and *Wild Thing*. In England, Jimi Hendrix took it to No 6. By now, Bobby Arlin had replaced Bill Rhinehart on guitar. **The Leaves** had now won a residency at the Whisky A Go Go in LA, where they topped the bill, which on occasions included The Grateful Dead, Big Brother and the Holding Company and Quicksilver Messenger Service. In 1965 when they appeared at the Golden Bear in Huntinton Beach, The Rolling Stones opened for them!

However, their follow-up single *Get Out Of My Life Woman* was less successful. 1966 saw Roben Lee Reiner become an acid casualty and leave the band. But, as a 'four-piece' they lacked the fullness of sound necessary to make them click.

Then they signed for Capitol to produce a second album, augmented by studio musicians and strings. It contained some of their best material including *Lemon Princess* and *Twilight Sanctuary*, (issued on their last single), but it did not sell and Pons left during its recording to sign for The Turtles. Pons later did work with Frank Zappa. Beck and Arlin went on to produce a song called *Dead Time Bummer Blues* which was never released. Arlin later formed the power-trio, The Hook.

1. Summertime/Crabs (MAAD 2668) 1968

The origins of this band lie in the Montgomery, Minnesota-based Uni-Qs who'd formed back in September 1965. The name change to **Leaves Of Grass** came in late 1966 and, given its association with marijuana, was well suited to the times. Their sole vinyl offering consisted of a very fast rendition of Gershwin's *Summertime* with a scorching guitar break in the middle backed by *Crabs*, which was penned by the band. This got a further airing on *Hipsville, Vol. 3*. Don Freid got drafted in May 1968 with Jerry Kotek and Dave Edel departing soon after. Shag Smith and Paul Durenberger were recruited from Cambridge Heresy but by then the band was inescapably in the twilight of its career.

The brainchild behind this band was Michael Brown, who'd been born in New York as Michael Lookofsky. He'd undergone a classical musical training and his father, Harry, was a respected musician who owned a recording studio and gave his son much encouragement in his career as a producer and pianist. Brown's first disc was a 45 in February 1966, *Its Alright Ma (I'm Only Bleeding)/They Just Don't Care* (Philips 1 530), which was credited to an outfit called Christopher and The Chaps. The 'A' side was a Bob Dylan cover, the flip was writen by M. Lookofsky and B. Jerome (whoever he was) and produced by Harry Lookofsky's World United Productions. However, it soon vanished without trace.

Brown resurfaced soon after with line-up (A) of **The Left Banke**, although on their debut 45 *Walk Away Renee*, which appeared on Smash in July 1966 and eventually made it into the Top Ten in November that year, Harry Lookofsky made use of session musicians. The song was later covered by The Four Tops giving them a massive U.K. hit. It seems that the musical abilities of some group members were rather dubious. After the follow-up, *Pretty Ballerina*, had also made the Top 20, the band began work on their debut album. Around this time Jeff Winfield was replaced by Rick Brand, a talented guitarist and songwriter. The album was a successful vehicle for Michael Brown's songwriting talents, his father's production skills (making use as it did of studio techniques and session musicians) and Steve Martin's haunting vocals. It's a very consistent album and, aside from the first two singles, it featured several other gems notably *Shadows Breaking Over My Head*, *She May Call You Up Tonight* and *I've Got*

Something On My Mind, It's rather sad, therefore that the group subsequently collapsed when Michael Brown announced he wanted to experiment and compose in the studio and wouldn't tour with the band anymore. Hereafter, the band's history becomes rather complex with both the remaining four members and Brown (who'd put together a new line-up (D)) claiming the name. Brown and Tom Feher (from (C)) penned another lovely song, *Ivy Ivy*, which was released as a follow-up 45 and later withdrawn when the other four band members demanded that radio stations boycott the disk. *She May Call You Up Tonight* was released instead, neither 45 made any commercial impression. An attempted reconcilation took place in September 1967 and another Brown/Feher composition *Desiree* was issued in the hope of relaunching the group. However, radio stations tended to steer clear of it and the anticipated commerical comeback just did not happen. At this point Brown quit the group but the remaining members soldiered on producing a brace of good 45s:- *Dark Is The Bark, Goodbye Holly* and *Bryant Hotel* - which came nearer to the 'group' sound as opposed to orchestrated backing that Brand and the other remaining members wanted. They also released a further album, *Too*, which suffered overall from Brown's absence but matched their earlier effort in its finest moments (particularly with *There's A Storm Coming*). It was generally ignored and after just one further 45, *Myrah* (which has become the band's rarest 45), the band (by now a trio (line-up E)) gave up the ghost, shelving plans for a projected third album with just one cut left in the can.

Brown went on to form Montage in 1969, which was really another vehicle for his songwriting and production skills and later he formed Stories (in 1972) and The Beckies (in 1976). More recently, circa 1998, he was responsible or producing / engineering / songwriting and providing keyboards on Yvonne Vitale's *On This Moment* CD. Sadly, the album, on the aptly named "Endangered" record label, was quickly withdrawn and less than 200 copies are thought to have survived. Bert Sommer became an actor in the Broadway production of "Hair", had a minor hit single with *We're All Playing In The Same Band* in 1970, and died of liver failure on July 23 1990.

The Bam-Caruso compilation, issued in 1982, rekindled some interest in the band. It was reissued in 1988 with two additional cuts, *Walk Away Renee* and a mono version of *Foggy Waterfall* (the one track in the can for the third and never completed LP). *Voices Calling* was taken from the master tapes of a 1978 reunion of line-up E. This and all the other retrospective compilations except for *There's Gonna Be A Storm - The Complete Recordings 1966 - 69* (which contains both their original albums, as well as several rare bonus tracks) are now deleted. You can also find *Walk Away Renee* on *Highs Of The Sixties* and *Pretty Ballerina* on *Nuggets, Vol. 11*. However, with their lavish orchestration and complex arrangements, the baroque-rock outfit is still lovingly remembered by many psychedelic rock fans.

Their Coca Cola ad from 1967 can also be heard on *From The New World, Vol. 1* - one of three adverts they did featured on a recent bootleg EP. *From The New World Vol.1* also includes Christopher and The Chaps' *They Don't Care*.

Tom Finn had earlier been in The Magic Plants.

A few cuts, like *Where Oh Where Is Mother* contain some good guitar playing with psychedelic undertones and the album ends with a little sitar solo.

All but the first 45 feature non-LP tracks. *Enjoy Yourself* is on *A Lethal Dose Of Hard Psych*, whilst *Portrait Of Youth* is also on *Boulders, Vol. 11* and was later re-recorded for their album as Dragonfly.

NB: (7) is a limited edition 45 of two Hartman-penned tracks from 1969.

Hailing from Harrisburg, Pennsylvania, **The Legends** set out as a soul band but soon got into rock. However, this soon led to the departure of their original drummer, Ralph Swartz, who hated rock, and his replacement by Sadler.

Soon after their debut single was released in early 1968 with the above-mentioned line-up. The 'A' side was a mellow, bluesy ballad - an attempt at commercialism and it was a local hit. The flip was an early Cat Stevens' composition, which the band rearranged into a driving rock song. Their follow-up did not stray much from the original versions. It featured Larry Swartzwelder on guitar as Dan Hanman was drafted for the Vietnam war. This also was a local hit, and the 'B' side *Cheating* can now also be heard on *Sixties Rebellion, Vol. 15*.

Their third single was cut in 1969. Dan Hartman played guitar on this as Swartzwelder had gone into service. Joe Caleoiero had joined the band on bass. This was the band's most stable line-up and they sounded much like The Jimi Hendrix Experience, performing many of his songs in their live shows. *High Towers* included wah wah effects, electric piano, double tracked vocals and dreamy Nazz-like harmonies, and was the band's most popular single. It can be heard on *30 Seconds Before The Calico Wall* (CD) and *Psychedelic Patchwork, Vol. 1*. The 'B' side, is equally inspired by Hendrix / Cream, and happily, has been compiled on *Brainshadows Vol. 2* CD.

The band were arguably on the verge of a breakthrough when its leader, Dan Hartman, departed to join The Edgar Winter Group and later embarked on a solo career. However, they soldiered on and were rejoined by Swartzwelder upon his return from service and added Dean Lescalette (rhthm gtr). The 'A' side of their final single, *Rock And Roll Woman* was nonetheless produced and written by Hartman. Initially issued on Heart Records (CS 7672), it was at Hartman's instigation later issued by Epic (5-10937). The band planned a single for Epic, but this did not materialise, although they carried on playing until 1975 before calling it quits: Caleoiero went on to play in a pop R & B band, The Class Act. Sadier became a session musician for Olivia Newton-John and John Miles among others and managed funk band, Positive Force, and co-managed Skyline Records.

Sometimes referred to as Sam McCue's Legends, this Milwaukee group were also known as the Canadian Legends - why 'Canadian' I don't know unless, like the Five Canadians from Texas, it was a trick to get more interest as exotic foreigners in the wake of Invasion-mania. They only appear to have released one 45 under that monicker though - the final one on White Cliffs. They spent considerable time in the mid-60s down in Florida and continued to release 45s whilst there, causing them to be regarded as a Florida band too.

I've yet to hear any of their pre-64 material, all their 45s from 1964 onwards are recommended to fans of pure '60s Invasion-flavoured beat-pop. Their use of melody, three-part harmonies and clear ringing guitars is more reminiscent of the Searchers than the Beatles - particularly *How Can I Find Her, If I Only Had Her Back, Here Comes The Pain*, and their rendition of Buddy's *Raining In My Heart*. Yeah, for the most part they're sultry beat ballads but they can belt it out too - especially on their version of Ross-Vanadore's *Alright*, featured on *Off The Wall*. This song was previously done by Houston's Coastliners, and later by Palmyra Wisconsin's Madadors. The final 45

puts amended lyrics to the Monkees' hit but is the least focused of these 45s. Sam McCue would later feature in Crowfoot in the early 70s.

For fuller (and doubtless more accurate) details on this band seek out a book on Wisconsin bands 'Do You Hear That Beat' by Gary Myers.

1. (B) I Live In The Springtime/Listen Girl (Rembrandt 5009) 1967

This band formed in the Chicago, Illinois suburb of McHenry in 1966. Despite its repetitive lyrics the band's only 45 *I Live In The Springtime*, has a strong enough melody to suggest that better things could have laid ahead.... but as it turned out, none of their other 1967-68 recording sessions were released on record until the mid-eighties.

Ricky Erickson (ex-The Nuchez) was brought in to do guitar on the 45 after the band's original guitarist (George Sorenson) had quit prior to the recording and *I Live ln The Springtime* did get some airplay in New York. Consequently the **Lemon Drops** recorded a second 45, the hard rockin' *It Happens Everyday* backed by a Ricky Erickson composition *Alone*, at the RCA Studios in Chicago, but it was never released. They then recruited a new 17 year old singer Dick Sidman and working on an ambitious new project with tablas, flowery harmonies and numerous special effects ran up a studio bill of $1,200 that Reggie Weiss, the owner of Rembrandt Records couldn't pay. Only in 1985 were the master tapes from this session released as *Crystal Pure*.

In their quest for major label interest the band proceeded to record a live album over two evenings at Weiss' home. They took the tapes to several Hollywood labels but none were interested and losing heart the band actually split in 1968. However, the following month the Weiss family moved to Phoenix, Arizona and by chance played their tape to Buena Vista Productions who offered to put up $250,000 to promote the group. Obviously they were thrilled and the **Lemon Drops** reformed with just Ricky Erickson missing from the new line-up. They recorded lots of new songs in Chicago's Sound Studios during November and December 1968, but ironically these efforts too proved to

be in vain, for the owner of Buena Vista died in his sleep and the deal was cancelled! Devastated the band split up for good.

Gary and Eddie Weiss later formed Watermelon and then Buzzsaw. In 1972 Reggie Weiss, frustrated by the lack of success issued a stereo mix of *I Live In The Springtime* as Buzzsaw. This can also be heard on *Highs In The Mid-Sixties, Vol. 4* and *Pebbles, Vol. 6* (CD).

Pebbles, Vol. 8, *Psychedelic Patchwork, Vol. 1* and *Chicago Garage Band Greats* all include *I Live In The Springtime*, the latter an unreleased version culminating in a guitar solo, alongside two other unissued tracks, *Alone* and *Jennifer Ann*, a mellow ballad, both from 1967. Another unreleased cut, *I Talk To The Animals* with loads of fuzz guitar can also be found on *Psychedelic Crown Jewels Vol. 1* (CD), whilst *The Cicadelic '60s Vol. 5* (CD) contains the following demos - *Sometime Ago, My Friend (Theatre Of Your Eyes), Jennifer Ann, Crystal Pure, Maria* and an eight-track demo of *(Flower) Dream*.

In the spring of 1963, The Bar Eights were formed, with Fillmore High School classmates Danny Ogg and Terry Horde on lead guitar and drums, respectively, Timmy Thorpe on bass, and Dale VanDeloo on saxophone and vocals. Essentially, The Bar Eights were a Rip Chords cover band, with a few Lou Christie covers mixed in for variety. Aside from a few coffee bar gigs and a sock hop, The Bar Eights failed to establish themselves even semi-professionally over the next two years. When VanDeloo reportedly attacked Ogg with a mic stand during an argument over who would get the taller riser, The Bar Eights were no more.

Then, one sweltering afternoon in the summer of 1965 at Clem's Music in downtown Houston, it happened. Chris Lyons was hanging around the store recruiting talent for a new band he was forming. He had already earmarked drummer Eddie Sura and keyboardist Jimmy Spicher, and was looking for a guitarist and bassist. Danny Ogg entered the store with hopes of trying out the new Danelectro that Clem had in. When Chris asked him to join, he agreed, but only under the condition that his friend Timmy Thorpe, who had just gotten laid off from his job at the glass factory and was bored out of his mind, play bass for them. Lyons agreed, taking on Thorpe sight-unseen. After a few rehearsals, it became painfully obvious that Sura was not working out. According to Ogg, "Eddie kept yelling at everybody, particularly Timmy, 'cause he couldn't keep good time." When Ogg ran into formed Bar Eight bandmate Terry Horde at Clem's the following week, Ogg offered him the drummer spot in the band. Horde

agreed. By that weekend, The Pla-Boys were playing their first gig, at St. Regis College for the Arts. In the audience that night was a man who would change their lives...

Ted Eubanks, an avant garde composer and fixture of Houston's mod scene, caught The Pla-Boys' act. Their set consisted mostly of covers of such garage greats as Sam the Sham and the Pharaohs and ? and the Mysterians. As Eubanks puts it, "They were playing this garage crap! It was horrible. But something about them struck me... I think it was their chemistry". Eubanks immediately approached the band after the show and offered to take them over. They agreed. But Eubanks decided that before anything was to become of them, a few changes would need to be made. First, the music. Eubanks immediately began injecting original numbers into the group's repertoire, and dissuaded them from the typical garage fare they had been playing. Second, the image. The Pla-boys basically looked like something right out of a Frankie and Annette movie, with matching grey sport suits. But Eubanks got them good and "psychedelicised", dressing them in beads, mod suits, and the like. Finally, the name. From this moment forth,The Pla-Boys would be known as **The Lemon Fog**.

In short time, **The Lemon Fog** established themselves as one of the area's two premier bands, along with the well-established Nomads. The "all thumbs" Jimmy Spicher was substituted for fellow Fillmore High classmate Bill Simmons. At this point, Eubanks decided to also drop Timmy Thorpe, whom Ted felt was "an incompetent", and switch Danny Ogg to bass, while Chris Lyons assumed guitar duties. This line-up gained local celebrity status, and in short time, **The Lemon Fog** were invited into the studio to cut a single.

Under Eubanks' guidance, **The Lemon Fog** entered the studio to create some of the most experimental recordings of the 1960's. Eubanks' ongoing experimentation with new electronic sounds became a hallmark of **The Lemon Fog** recorded legacy. From July of 1966 to February 1968, they recorded several albums worth of material. Little of this material was ever released, however, most of it having been stolen when Liquid Stereo Studios' vaults were raided in 1968. But two singles were released, *Echoes Of Time/The Prisoner*, and the compelling *Living Eye Theme/Summer*, and a self-titled EP containing these and three other songs, *Girl From The Wrong Side Of Town*, *Day By Day* and *So Sophisticated*, was released. *The Living Eye Theme*, also known as *The Lemon Fog*, was their biggest success, reaching the Top 8 regionally. The song's composer, Ted Eubanks explains, "The Living Eye was a huge club in Houston where we were the house band. I vaguely remember one night staring at the huge pulsating eye which sits in front of the door. As I sat there, suddenly the words and images of the song just started dancing around in my head. It's not the kind of thing one forgets". Aside from their studio work, **The Lemon Fog** enjoyed being one of the top club draws in the area. Besides the music, the Fog benefited from a spectacular stage presence. This was attributed largely to Chris Lyons' charisma and good looks. Also adding to the spectacle was Ted Eubanks, dancing on stage wearing a long, flowing, sequined cape, and occasionally chiming in a harmony or two, described by Ogg as "Chinese sounding." Off-kilter harmonies aside, Ted assumed the role of group leader, despite the fact that he himself played no instruments. Ted felt his presence was enough. In addition to live performances, **The Lemon Fog** also made television appearances on Sump 'n' Else and The Larry Kane Show, where they performed *Echoes Of Time* and *The Living Eye Theme*.

At the height of the Fog's heyday, problems began to arise. Eubanks was becoming increasingly demanding of the others, insisting that they practice every day they are not performing. In particular, the slothenly Horde took exception to this. Furthermore, Eubanks' compositions began to become more and more self-indulgent and less accessible. The others tried to turn down his latest inclusions, and attempted to inject some covers back into their repertoire to give their show more appeal. But Ted would have none of it. He insisted that his new material be considered. A power clash began to develop. At one point, Eubanks threatened to walk out on the group and leave them holding the bag for four gigs they had lined up that month. When the group proceeded with those engagements without him, Eubanks reluctantly grovelled back. Adding to this, acid casualty Bill Simmons began making himself scarce, sometimes for as long as a month, causing further tension in the group. Eubanks refused to substitute for Simmons, insisting that his on-stage role was too important to compromise. As a result, Chris Lyons was left to take up a "lyon's" share (pun intended) of the keyboard duties, in addition to guitar and vocals.

By 1970, the group was in disarray. A break-up seemed inevitable at this point. When Eubanks met with the others for rehearsal, planning to propose his latest composition, *Internal Combustion* (later titled *Bedroom War* and released by Eubanks as a solo single), he found the equipment packed away, and grim faces on his bandmates. They told him it was over. The four left the practice space that day, and each went their separate ways.

Cicadelic's first collectors' LP in 1982 *Three O'Clock Merrian Webster Time* has one side devoted to them, which compiles all seven of their surviving tracks - this has also been reissued on CD by Collectables, who have also included their magnificant seven trax on: *Acid Visions - The Complete Collection Vol. 3* (3CD), and *The History Of Texas Garage Bands In The '60s Vol. 2*- the latter featuring two additional takes of *Summer*; Other comp coverage includes: *Lemon Fog* and *Summer* on *Green Crystal Ties, Vol. 9* (CD), *Summer* and *Yes I Cry*on *Gathering Of The Tribe* (CD); and *Summer* on *Acid Dreams Epitaph* (CD) and *Acid Dreams - The Complete Collection* (3LP).

This psychedelic bubblegum group from Oxford, Ohio will be best remembered for their single *Green Tambourine*, which topped the U.S. charts and reached No 7 in the U.K. in early 1968. It was later included on the recent *Best Of '60s Psychedelic Rock* (CD). Ironically, this was one of the earliest drug songs to achieve chart success. Although follow-up *Rice Is Nice* also made the U.S. Top 50 and No 41 in the UK, like most other bubblegum bands they were not equipped to live up to their original promise and split after further single failures.

Their singles were released by Pye Int. in the UK.

Thru' With You on their first album contrasts starkly with their bubblegum repertoire - being an awesome psychedelic guitar, extended freak-out. This album was later reissued by Buddah. The band also have an excellent track, *Quiet Please* on *Echoes In Time, Vol. 1*, and *We Can Be Together* was included on *Pop Explosion* (Buddah 643 312) 1968. Bill Bartlelt later became the leader of Ram Jam.

A second (unreleased) album, *Christian Lucifer* has also been released on Gear Fab (GF-141) 1999.

From Philadelphia, *Experiment In Metaphysics* is probably the most sought-after solo acoustic folk record in the world, with only 300 copies were pressed originally. **Leopold** handles the vocals and guitar and a dark atmosphere is both attempted and obtained by this mysterious troubadour. The album sides are labelled 'Smoke' and 'Drop' with Side Two being bannered "ACID FOLK". This one delivers!

Perry Leopold later recorded material for two further albums. An eponymous 7" EP was released in 1978, but is of interest only as a postscript to the *Metaphysics* album - not recommended.

Anyone interested in checking out **Leopold**'s work, without obtaining a second mortgage first, should try http://www.christianlucifer.com, which includes an exclusive 1970 track, *Serpentine Lane* from his unreleased

This album is an an interesting example of West Coast rock with nice guitars. It is also an extremely rare private pressing, with Hogfat being "a Division of the Society for the Naturalization of Animals". Scheff, French and Benay were previously in Goldenrod, Cooder in the Rising Sons and Captain Beefheart's Magic Band.

One of the first examples of artists "going (back) to the country". The liner notes are explicit: "So I'm off to the mountains, the sea, the earth of nature. I leave you my songs and my wealth of insights of THE SCENE. They are of some use to the narrow minded youth of tomorrow and some use to the narrow minded aged of yesterday. To me they are of no use any longer... The meaning to my life is to be found other than drugs/words/sex/money. Where? the glimpse I've had tells me to move: physically. So my move: where words are few, where money is not important, where drugs are surpassed by environment, where sex is children and love".

Definitely not for garage fans, but it should interest Beau Brummels fans due to the involvement of Ron Elliott, who produced the album and provided three songs:- *Empty Boxes*, *Farewell To Sally Brown* and *Paradise* (co-written by Butch Engle, from Butch Engle and the Styx). Recorded at Sunwest Studios in Hollywood in August 1969, the album is a good mix of folk, country and west coast sound with duet vocals, the liner notes indicating Flatts and Scruggs and Buffalo Springfield as their main influences.

Marc McClure (ex-Wildflower) co-wrote *Mercedes Blues* with Janis Joplin and went on to form Joyous Noise.

Both worked again with Ron Elliott for his *Candlestickmaker* solo album, Levitt also working on the Beau Brummels 1975 album.

NB: (2) recorded Dec. '66. (3) most probably released on Split Sound.

Originally called the Cokats, from Mt. Lemon, Arizona, their story is told on *Hitch-Hike!* a fourteen track CD retrospective. Comfortable and competent in adopting the Invasion sounds, with some fine Beatlesque poppy numbers and Zombie-inspired minor-moodies, the CD features generally cool pop-beat fodder with excellent harmonies. The stand-out track is *It Must Be Love*, a reedy upbeat number with an unexpected edge due to an outburst of mean 'n' moody guitar. This is used similarly on an alternate version of *If I Was You* to end the collection with a buzz.

Other compilation coverage has included: *It Must Be Love* on *The Tucson Sound 1960-68: Think Of The Good Times*. *Cause You Want Me To, Don't Say Why, Dream, I'm Normal, Wine, Wine, Wine* and *You're Gonna Leave Me* (four unreleased and two live tracks) on *Cicadelic '60s Vol. 5* CD; *Only A Dream* and *Tough He Was* on *Green Crystal Ties Vol. 3* CD; and *Wine, Wine, Wine* on *Green Crystal Ties, Vol. 7*.

Having enjoyed mammoth profits with their pre-packaged Beatles-clones The Monkees, it only made sense that Colgems (co-owned by RCA and Columbia) would attempt to manufacture a second corporate super group. That said, how many of you remember **The Lewis and Clarke Expedition**? Probably few of you. That's unfortunate since the band's sole album, 1967's *Earth, Air, Fire And Water* is nothing short of wonderful.

1966 found Travis Lewis (aka Michael Martin Murphey) and Boomer Clarke (aka Owen Castleman) paying their bills as songwriters for Screen Gems. Originally from Dallas, Texas, Lewis/Murphey was a passing acquaintance of Mike Nesmith. The connection helped the pair place one of their compositions *Hangin' Round* with **The Monkees**, in the process bringing them to the attention of Colgems which quickly recognized their potential and signed them to a recording contract. Produced by Jack Keller and built around the talent of Lewis and Clarke (the line up rounded out by multi-instrumentalist Ken Bloom, guitarist John London and drummer Johnny Raines) actually debuted with an instantly obscure 1966 single for the small Chartmaster label. While parallels to The Monkees were apparent, there were also some major difference; notably the fact the band were all capable musicians and namesakes Lewis and Clarke were responsible for the majority of material. That said, their debut was easily as good as anything in The Monkees catalogue. Musically varied, the set included stabs at shimmering top-40 pop (*I Feel Good (I Feel Bad)*), folk-rock (*This Town Ain't The Same Anymore*), vaudeville (*Everybody Loves a Fire*), psych (*House Of My Sorrow*), an ecological message (*Chain Of Flowers*) and Byrds-styled jangle-rock (*Blue Revelation*). Rounded out by strong melodies and tight harmonies, mid-'60s pop simply didn't get much better. Highlights included the goofy *Spirit Of Argyle High* and the extended suite *Memorial To The American Indian* which included one of the first covers of J.D. Loudermilk's *(The Lament Of) The Cherokee Reservation Indian* we've ever heard (coming a full three years before Paul Revere and The Raiders' hit). Unfortunately, with Colgems devoting most of it's energy to marketing The Monkees, neither the band nor the LP or much in the way of promotional support. Needless to say, it failed to chart.

4. Thoughts And Visions/Look For Tommorow (Back Beat 595) 1969

This Corpus Christi outfit was originally called The Zulus but when Carl Becker, who ran the J-Beck/Cee-Bee record labels, became their manager circa 1966/67 he persuaded vocalist Ronnie Tanner to join the band and changed their name to **Liberty Bell**. They quickly recorded a Yardbirds cover as their first 45 and with this line-up released two other 45s. They also recorded two versions of an Al Hunt composition entitled *I Can See* which was never released but was to have been Cee-Bee 1004. Chris Gerniottis came in from Zakary Thaks to replace Ronnie Tanner on vocals on their last two 45s. The band disintegraged whilst recording these, but the owner of the Back Beat label which concentrated on black artistes considered Chris one of the best vocalists he'd heard. Eva's retrospective album and the equivalent Collectables CD includes all the band's 45s (including the unissued one), *Eveline Kaye* an Al Hunt number and *Reality Is The Only Answer*, a superb psychedelic-punk song written by Chris. It also includes both sides of Gerniottis' next band's 45. They were called Kubla Khan. A briefer selection of their material - *Reality Is The Only Answer, Eveline Kaye, I Can See* and *For What You Lack* can be found on *Texas Reverberations* (Texas Archive Recordings TAR-1) 1982. The Lime Spiders later covered *That's How It Will Be* on *Slave Girl*.

A Seattle five-piece, **The Liberty Party** were originally known as The Enchanters, with Vern Kjellberg (aka Joey Newman), Gordon Kjellberg, Ed Leckenby, Mike Robbins, Jerry Hawkes, Bill Rieben, and Al Malosky all playing in the final version of The Enchanters. When Ed Leckenby left to play drums for Merrilee Rush and the Turnabouts, and Vern Kjellberg left to play with The Kingsmen, the remaining members became **The Liberty Party**.

Their two 45s were recorded at Audio Recording studio in Seattle and Mike Robbins recalls that the band recorded *Get Yourself Home* and *Send For Me* under pressure from the label owner Jerry Dennon, as he liked those particular tunes although the band felt that they had much "rockier" material available...

Gordon was drafted to the National Guard and when he returned from the army, although the group were sounding great with Mike Robbins standing in on vocals in his abscence, something had been lost and the magic was never quite there again. Mike left to attend college, as did Bill Rieben and Jerry Hawkes whilst Al Malosky moved to LA and was in and out of the music scene for awhile. Gordon Kjellberg later played with The Feelies and Vern Kjellberg went on to Don & The Goodtimes and Touch. Sadly Jerry Hawkes had a very serious car accident many years ago and has never been able to play the guitar or sing again. Bill Rieben meanwhile has had a very successful career in finance and accounting, Al Malosky played with several successful bands after the **Liberty Party** including the Emergency Exit and Easy Chair, and today spends his time working in construction and helping troubled kids. Mike Robbins went on to become a Dr. of Clinical Psychology and a B&B owner in the Kitsap/Hood Canal area.

Mike Robbins also played in Jimmy Hanna and the Dynamics, The Kingsmen, Merrilee Rush and the Turnabouts, and had one brief West Coast tour with Sonny and Cher).

NB: (1) also issued in the U.K. on Liberty (LBF 15228) 1969, and in France with an art sleeve showing a drawing of the statue of liberty (Liberty 2C00690272M) 1969. (2) French release.

Tribal rock precursor to Redbone, sought-after and included here because of the West Coast Pop Art Experimental Band connection - their Liberty recordings were produced by Bob Markley. Their *Heya* 45 sold well in France, precipitating a further 45 there, *Na-Ru-Ka*, which is excellent "navajo rock" with strong guitar parts. **J.J. Light** was in fact Jim Stallings, the Sir Douglas Quintet bassist.

Heya was covered in 1970 by the German group Jeronimo.

Their third 45, produced by Jim Stallings and P.Boyde is weak pop and best avoided.

1. One, Two Boogaloo/Same Old Thing (Dunwich 149) 1967

This outfit formed in in 1965 and were originally known as **Gary And The Night Lights**, and also worked as **The Knight Lites**. Like The Del-Vetts, they had previously worked with Bill Traut cutting two low-budget jukebox singles for Seeburg. After a brief move to U.S.A. where they released an underrated soulful ballad, *I Don't Need Your Help*, in late 1965, they appeared under dubious arrangement on Dunwich. After recording one single as **The Light Nites** they signed to Acta and changed their name to The American Breed.

All of the band came from Chicago except Al Ciner who was from Brookfield, Illinois.

Same Old Thing has resurfaced on *The Dunwich Records Story* and *If You're Ready! The Best Of Dunwich Records, Vol. 2*. You can also find *Take Me Back*, originally released as **Gary & The Knight Lites** on Kedlen (2002) 1965, on *Pebbles, Vol. 7* (CD).

45:

1. Freedom/Hideaway (P. I. P. 8923) 1970

NB: (1) contains edited versions of tracks taken from the P.I.P album.

Originally known as White Lightning the group was formed by Tom Caplan in Minneapolis, Minnesota, upon leaving The Litter. Musically their recorded output was decent hard rock, not dissimilar from the Caplan-less Litter's third album.

The *Lost Studio Album* contains two tracks by White Lightning, *Only Love* and *William Tell*, taken from an acetate and digitally cleaned, along with analog recordings made by **Lightning** in 1969, prior to the release of the Pip album. Three of the songs featured are also on the Pip album, but they are in a very different form on this limited edition release, which features some good guitar work and is well worth investigation.

Bernie Pershey had previously played in Triology.

This outfit operated out of Sunnyvale, California in the mid-sixties. The pounding flip appears on *Back From The Grave, Vol. 3* and *Boulders, Vol. 11*. The song was a hit in Monterey and was also very popular in San Jose. Dave and Larry had originally come together in the early sixties as The Ritones an instrumental and hits covers band. They changed name to The Conquests in 1964 and became **Lil' Boy Blues** in 1965.

From Los Angeles. The 'A' side of their first 45, *Guaranteed Love*, is a Stones/Bo Diddley styled rocker, with some fine lead guitar. *Out Of Sight, Out Of Mind*, their 2nd 45 was a softer cover version of The Marauders' obscurity, complete with harpsichord.

Compilation coverage has included: *Guaranteed Love* and *Out Of Sight, Out Of Mind* on *Pebbles, Vol. 8* (CD); *Guaranteed Love* on *Highs In The Mid-Sixties, Vol. 1*; *Out Of Sight, Out Of Mind* on *Highs In The Mid-Sixties, Vol. 3* and *Gather My Things And Go* on *Psychedelic Unknowns, Vol. 8* and *Boulders, Vol. 11*.

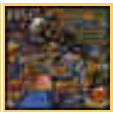
Very punkish with lots of fuzz, it sounds straight out of 1966 but was actually one ot their last recordings released in early 1969. *We Got Some* can be heard on *Garage Punk Unknowns, Vol. 1* or *Vile Vinyl, Vol. 1* and you'll find *Pop Kat* on *Vile Vinyl, Vol. 1* too, as well as on *Riot City*. 11	Elusive Butterfly/Truly Julie's Blues	(United Artist XW032)	Nov. 1972

An introspective folk singer/songwriter, born in Baltimore on Nov. 25, 1942. The success of his song *Elusive Butterfly* in March 1966 opened up a space in the charts for a new kind of song, breathy and wispy, previously thought to be too slow to be commercial. Other folk singers, like Tim Buckley or Tim Hardin, benefited from this breakthrough, but **Lind** only charted again with his follow-up 45 *Remember The Rain*.

After two albums for World Pacific (both produced by Jack Nitzsche and the second engineered by Dave Hassinger), he retired temporarily from the music business, suffering from alcohol and drug abuse and moved to Santa Fe, New Mexico.



The Verve Forecast album was released to cash-in on **Lind**'s success. They bought an acoustic tape of Lind from his Denver days, overdubbed instruments, and released it as an authentic album.

When **Lind** returned to LA in early 1971, Capitol Records signed him and he recorded a sombre warts and all album, *Since There Were Circles*, but he soon retired permanently, giving up music for a literary career.

Lind was managed by Charles Green and Brian Stone, who later worked with Buffalo Springfield, Iron Butterfly and Dr. John.

His song *Cheryl's Going Home* was covered by the Blues Project on their *Projections* album. The Turtles also recorded his *Down In Suburbia* on their *You Baby* album, whilst The Yardbirds' Keith Relf recorded *Mr Zero*.

A Sioux Indian band based in Albuquerque, New Mexico. *The Bummer* is a fine upbeat rocker, whilst *Sunny Sunday Dream* is much more trippy with lots of keyboards. Changing their name to Xit the band made several albums in support of the cause of the American Indian during the 1970's. The **Lincoln St. Exit** album is essentially blues-based and does not include their non-Mainstream 45s. It is now a very minor collectors' item, and has been booted. Much of their earlier material was unearthed on the Xit LP *Entrance* (Canyon 7114) 1974.

From Cleveland, the singer and songwriter **Buzzy Linhart** was a veteran of the east coast coffee house scene and formed the Seventh Sons in 1967. Between 1968 and 1974, he also released several interesting solo albums as well as forming Music.

His first album *Buzzy* was recorded in England in October 1968. On the first side he is backed by the Welsh group Eyes of Blue and performs his own songs (*Willie Jean*, *Step Into My Wildest Dreams*) and a fast cover of Tim Hardin's *Yellow Cab*. The second side features *Sing Joy*, a long (18'45") raga with only Big Jim Sullivan on sitar and Keshav Sathe on tabla. A really interesting album, it deserves to be heard.

In 1971, after Music, *The Time To Live Is Now* was recorded in New York. Reduced to a trio, the group provide a solid album with a cover of *Get Together* plus several original songs. Rix was previously in Group Image.

The later albums are unfortunately not as interesting.

In addition to his solo career, **Linhart** was very active in the late '60s / early '70s, playing guitar or vibes with Jimi Hendrix (*Cry Of Love*), Cat Mother, Jake and the Family Jewels, Montreal or Zephyr.

From Boston and rated highly by some, this album includes some fine guitar and organ work on cuts like *Baby: Where Are You?*. Still an undiscovered gem this is worth searching out.

Most of the vocals were performed by drummer Ernie Kamanis, and Peter Malick (who was 16 at the time the album was recorded) is still active, fronting his own **Peter Malick Band** playing blues / R&B influenced music in/around Boston.

Walter Powers had previously been in the famed punk band The Lost. The label suggests that this was possibly a Los Angeles band. The five piece (three lads and two lasses) was led by Johnima, who takes all the credits on the first album - the others don't get a jot. An early seventies 'beautiful people' act, *Warning* is soft hippie rock. *Hanana*, probably the only 'psychedelic' track on the album, can also be heard on *Turds On A Bum Ride, Vol. 1* (LP or CD). The unheard second LP sounds even less encouraging.

One of the girls is possibly Kali Bahlu (Johnima's Wife? Sister?) who, in her persona of 'Gypsy Star Child', released an LP entitled *Kali Bahlu Takes The Forest Children On A Journey Of Cosmic Rememberance* (World Pacific WPS-21875) which says it all!

5	On Our Minds/Blue Ice	(Probe 467)	1970

The Litter came from Minneapolis, Minnesota and recorded two of America's finest psychedelic punk albums. *Distortions* and *$100 Fine* are both strongly recommended. *Distortions* contained high energy psychedelic rock versions of many classic songs. Of these *Action Woman* is featured on *Pebbles, Vol. 1* and the *Pebbles Box* set and their amazing (If over the top) psychedelic rework of *I'm A Man* may be found on *Pebbles, Vol. 2*. Play it Loud! Feedback appears to have been one of the main weapons in their repertoire, and it is seldom used more effectively than on the aforementioned track. Also on the album are fine versions of Cream's *I'm So Glad*, The Small Faces' classic *Whatcha Gonna Do 'Bout It*, The Who's *Substitute* and *A Legal Matter*, Spencer Davis' *Somebody Help Me*, The Yardbirds' *Wrack My Mind*, Warren Kendrick's *Soul Searchin'* and Buffy St. Marie's much recorded *Codine*. Strandlof played lead on *Action Woman*, *A Legal Matter*, and *Soul Searchin'* but his attempts to steer the band in a folk-rock direction caused friction with Kane who wanted the band to become heavier. In the spring of 1967, he was replaced by Zippy Caplan, freshly back from a sojourn in California.

By their next effort *$100 Fine* the group were writing much of their own material. For this reason *$100 Fine* is probably the better album. Opening track *Mindbreaker* features fine fuzztone guitar work and culminates in a psychedelic haze. Their driving electric guitar work is well represented in tracks like *Tallyman*, *Here I Go Again* has a catchy guitar riff intro. More vintage psychedelic guitar work is evident on *Morning Sun* and *(Under The Screaming Double) Eagle*. The side culminates with a piece of psychedelic nonsense *Apologies To 2069*, which ends with the intro to *Action Woman* - a track on their first album. However, the stand-out track is the aptly named *Kaleidoscope* on side two, featuring an early use of 'phasing'. The remainder of this side is comprised of an impressive extended version of The Zombies' *She's Not There* and the self-explanatory *Blues One*. If you ever get the chance to hear either of these two albums, take it!

Bad management decisions hampered the band's progress during 1968. Both Elektra and Columbia made offers to the band but were knocked back because of heavy touring commitments. In August 1968 they recorded numbers for the film 'Medium Cool' but only made about 20 seconds of the final cut with the Mothers Of Invention overdubbed over them. Soon after Waite (who was burnt-out) and Caplan (who formed White Lightning and then Lightning) dropped out of the band.

1969 saw the group sign to a major record company (ABC) for a third album - a good hard rock effort that suffers only by comparison to the first two. Denny Waite had also departed and his place was taken by Mark Gallagher who'd previously been with The Troys.

Despite the band's legendary status there has often been confusion and misspeculation surrounding them and the other artistes under Warren Kendrick's guidance. The Electras/Twas Brillig outfit must be fed up by the constant claims that they were a **Litter** offshoot since they'd been around for some years beforehand - see their entry for details. This confusion was due to them also being under Warren Kendrick's wing apart from the fact they also recorded Kendrick's *Action Woman* and *Soul Searchin'* . No wonder the two outfits sounded similar. The confusion was aggravated by Eva's compilation, *Litter. - Rare Tracks*, which would have better been entitled 'The Best Of The Rest Of Warren Kendrick'. It features **Litter**'s *She's Not There* (short version), *On Our Minds*, *Little Red Book*, *Ungrateful Pig* and *Substitute*; Electras/Twas Brillig's *Dirty Old Man*, *You Love*, *This Week's Children* and *Soul Searchin'*; White Lightning's *William* and *Of Paupers And Poets*; Zoser's *Together* and *Dark Of The Morning* and Second Edition's *To Keep You*.

Denny Waite and Jim Kane had been in another Kendrick-produced group, The Victors, prior to **The Litter**. Five unreleased The Victors tracks have recently been aired on the Get Hip album *Electras vs. Scotsmen/Victors*, which was released in 1993, and repeated on *The Scotty Story* CD.

Before they called it a day **Litter** came together with other Minneapolis acts on the *Gathering At The Depot* compilation (Beta 580 47-14145), which features a live *Ungrateful Pig*. After that Tom Murray went on to Straight Up who issued one 45 *Fire/So Blind* (Straight Up I 001).

Fans of the band should look out for no less than four new CD's on Arf! Arf! - the definitive versions of *Distortions* and *$100 Fine*, plus the storming *The Litter - Live At The Mirage 1990*, which captures the band on top form, and a previously unreleased studio album from 1992, entitled, *Re-Emerge*. The Arf!Arf! *Distortions* CD adds much to the original LP cuts: the previously reissued *Confessions* and *Blues One*; two unreleased cuts - *Hey Joe* and *Harpsichord Sonata #1*; and five cuts recorded live at the Elecric Theatre on 18th June 1968. The bonus cuts on the Arf!Arf! *$100 Fine* CD comprise nineteen unreleased tracks - *Angelica* (with J.Frank Wilson) plus eighteen Larry Loofbourrow demos from 1965 through 1968.

The *Live At Mirage* CD is highly recommended to all **Litter** fans. From a 20-year reunion concert in Minneapolis on September 19th 1990, it features the classic 'B' line-up, though Kane guests on just three tracks, plus bassist Woody Woodrich. They run through much of the material from the first two albums plus an excellent cover of the Music Machine's *Talk Talk*. The years just roll back - if it weren't for the modern sound quality this could've been circa 1970.

Zippy Caplan's lost none of his dexterous zip; Denny Waite's vocals may have lost their adolescent timbre but are still in fine form, and Tom Murray's drumming is just awesome. Sounding like a classic car that's been lovingly preserved in a garage just waiting for the right time to be taken out again for a drive - all parts are still tight but well-oiled and as they warm up the throttle pedal goes down... and so the concert builds to a glorious climax - a stunningly powerful *Train Kept A-Rollin'* that can only be topped by the frenzied finale of *I'm A Man*. WOWWWEEE!

The *Re-Emerge* CD is all new recordings including a reworking of *Action Woman* plus sixteen new numbers by the latest line-up, and features guest appearances by Joey Molland (gtr, b.vcls, ex-Badfinger), James "Owl" Walsh (keyb'ds, ex-Gypsy), Larry Wiegand (bass gtr, ex-Crow) and Andy Bailey (keyb'ds).

Bill Strandlof who played the electrifying solo on *Action Woman* died of leukemia on March 4th, 1995.

For more information on the band, check out **The Litter**'s official website: http://www.thelitter-lightning.com.

2(-)	LEANIN' ON THE BAR	(Dharma D-805)	1976

NB: (1) reissued on Breeder (RPR 006-2C-566) 1986.

Ken Little was a Chicago singer and a friend of Harvey Mandel. In 1972, he appeared on Mandel's bluesy project *Get Off In Chicago* with two songs co-written with Norm Wagner, *High Test Fish Line* and *Springfield Station Theme*. The same year, Mandel co-produced **Little**'s *Solo* album. This is basically mainstream heavyish progressive rock with strong blues influences (Hubert Sumlin of Howlin' Wolf's band plays on one track and Sugarcane Harris on five). If that's your bag, it's not bad but don't be misled by dealers with limited descriptive abilities who describe

it as 'psychedelic'.

Ken Little returned in 1976 with *Leanin' On The Bar*, in a totally different style the music is a consistent mix of country and bar rock.

45:

1. Girl Give Me Love/Spoofin' (Tiger-Eye TE-101) 196?

This record was made by 8 or 9 year old kids from Jennings, Louisiana. The lyrics mostly consist of them screaming or singing *Girl Give Me Love*. This makes it an unique novelty and you'll find it on Eva's *Louisiana Punk Groups From The Sixties, Vol. 1* and *Sixties Arrchives, Vol. 3*.

5. (D) It's Only You/Is Love (Fontana 1623) 1968

NB: (3) Issued in a limited edition (approx. 500 copies) with picture sleeve.

The 45s this Chicago punk outfit produced will be of more interest than their album. Of particular note were their interpretation of Donovan's *Season Of The Witch* and two fine fuzz punkers *Great Train Robbery* and *I Can Only Give You Everything*, which was recorded by several other bands in this era. The best source of these 45s is the compilation *Chicago '60s Punk vs New Mexico '60s Pop*, which contains both sides of their first four 45s.

The personnel listed above omits to mention Lowell Shyette, an early guitarist in the band and chief songwriter (wrote both sides of the first single) during their earliest phase as a folk-rock band before the *I Can Only Give You Everything* 45.

Vocalist Mark Caplan went on to play for The Wizards From Kansas and Frank Biner later played for a Californian outfit called Kingsnake.

Line-up C also have a rock/soul effort *Ain't Too Proud To Beg*, from April 1967, on which they are assisted by a horn section of studio musicians, on the compilation *Early Chicago* (Happy Tiger HT-10107) in 1972.

Their material is also well represented on several other retrospective compilations, including: *Great Train Robbery* on *Highs In The Mid-Sixties, Vol. 4*, *Mayhem And Psychosis, Vol. 2* and *Off The Wall, Vol. 2*; *I Can Only Give You Everything* on *Pebbles, Vol. 2* and *Pebbles Box Set*; *Its Only You* on *Boulders, Vol. 11*; *I'm Ready* on *Off The Wall, Vol. 2*; *You Don't Love Me* on *Pebbles, Vol. 6* (CD) and *Garage Punk Unknowns, Vol. 5*. *The Great Train Robbery* and *You Dove Deep In My Soul*, a previously unreleased track have resurfaced on *Oh Yeah! The Best Of Dunwich Records, Vol. 1*; and *New Orleans* is on *Grab This And Dance*.

1. New Orleans/It Must Be Love (Studio City 1023) 1965

This Owatonna, Minnesota-based group formed out of the ashes of another Owatonna band The Henchmen, who included Marv Huntington and Gary Sorenson, and the Fairmont-based Reconstitued Lemons, whose leader had been Jim Bamholdt. Local dee-jay Bill Diehl took them under his wing and got them appearing on stage in Roman Style dress for what was reputed to have been a wild act. They financed a 45 on the Minneapolis-based Studio City label and their finest moment, *It Must Be Love*, was later captured on *Hipsville, Vol. 3*. It got lots of airplay around Southern Minnesota at the time. In May 1965 a rift developed between Barnholdt and the rest of the band. So he left to join a Minneapolis-based folk rock group called Id, whilst the three remaining members went on to play for the Rochester-based Furys.

Little John and Tony

TOP

45:

1 The Beginning Of The End / All I Ask (Volkano V-5001) 1965

A Detroit-area duo produced by Dennis Coffey. *The Beginning Of The End* is a fine tribute to Barry McGuire's *Eve Of Destruction* - apocalyptic theme, even the gravelly vocals, over the classic Dunhill folk-rock sound (dramatic Spectoresque production wrapped around Beau Brummeles' jangle).

It's been revitalised on the Misty Lane folk-flower-pop comp *Every Groovy Day*.

(Mich, Detroit)

Little Willie and The Adolesents

45s:

1. Get Out Of My Life/Stop It (Tener 1009) Nov. 1966
2. Looking For Love/Push Song (Tener 1013) 1967

A Florida trio although they started out in a basement in Buffalo, New York. None of them was called Willie but they used to set up a fluorescent green little metal man in front of the drums that they told people was Little Willie when they asked. The flip to their first 45 was by an outfit called The Starfires that one of the three band members was connected to. The 'A' side is a really nasty punky song with typically snotty vocals and some catchy but delightfully simple keyboards. You'll find it on *Back From The Grave, Vol. 3*.

Looking For Love also appears on the hellishly rare 1967 *Bee Jay Sampler* comp of local area acts which is also on the Tener label.

5. I Must Move/I Must Move (Piccadilly 236) 1967
6. Take The Good And The Bad/Hunose (Piccadilly 248) 1967

Came out of Salem, Oregon, forming in 1965. Steiner, O'Brien and Smith had all previously played in an outfit called The Che-vels. Managed by dance promoter and radio station operator Ed Dougherty they got plenty of good live bookings appearing on bills with all the top acts that came to Salem. They also appeared with The Knickerbockers at the Seattle Teen Fair and with The Rolling Stones in Portland, Oregon in July 1966. They appeared in candy-striped trousers and played a blend of Northwest rock and Merseybeat. *Yes You're Mine* and *Hunose* were both big regional hits. *Move Over And Let Me Fly* is an irresistable jerker with 'call and response' style vocals which ought to have been a big hit.

They broke up in late 1967, although Joe Smith carried on with four new members for a further six months.

Compilation coverage has included *Let's Go, Let's Go, Let's Go* on *Battle Of The Bands, Vol. 1* and *History Of Northwest Rock, Vol. 4*; *Move Over And Let Me Fly* on *Battle Of The Bands, Vol. 2, History Of Northwest Rock, Vol. 3* and *Highs In The Mid-Sixties, Vol. 16.*

NB: (1) was a U.K. only 45 as by Liverpool 5. (8) some promo copies with 'A' side on both sides of disc, and same catalogue no.

Originally from the U.K. their German manager arranged for them to tour Europe and Asia before they ended up in Los Angeles. After the tour ended they settled in Spokane, Washington and signed with RCA in 1965. Paul Handler became their new manager. When Dave Burgess left to get married in 1967 he was replaced by Freddie Dennis who

had played in several Spokane groups. They played a mixture of folk-rock, beat, R'n'B and ballads as well as punk. They could imitate the best U.S. bands (Remains, Standells) but also retained their Englishness. *Broken Dreams, Vol. 4* (Line OLLP 5395 AS) 198? includes *She's Mine* and *Piccadilly Line*. *New Directions*, which contains some infectious guitar work, is included on *Mindrocker, Vol. 9*. *Everything's Allright*, meanwhile, has resurfaced on *Hide & Seek Vol. 1*. They even had a very minor hit with *Any Way That You Want Me*.

Later in 1969 they changed keyboard players twice before finally quitting in 1970. Freddie Dennis later joined the reformed Kingsmen. Only Jim May returned to the UK, all the other four original members remained in Northern California.

One track from their privately pressed *Out Of Sight* EP entitled *Gotta Get A Move On* has also resurfaced on *The Technicolour Milkshake* comp.

A Philadelphia studio-only outfit, according to Mike Kuzmin in his Pa. book 'Sounds From The Woods', they also recorded as The Emblems and The Haircuts. No guesses as to influences and style - both albums unashamedly cashed in on the first wave of Beatlemania. The first includes four Beatles covers - *She Loves You, I Want To Hold Your Hand, I Saw Her Standing There* and *Please, Please Me*. The remaining tracks are good beat fodder mainly composed or co-composed by Straigis, including *Whenever I'm Feeling Low* previously aired on the Emblems' 1963 45.

1. Keep It To Yourself/The Mask (Boom 60,015) 1966

The above recording was produced by Feldman, Goftehrer and Goldstein of Strangeloves fame possibly placing this as a New York outfit. There must have been other 45s.

45s:

1. Bona Vista Twist / Kickoff (R.E.F. 110) 196?
2. One Cycle Venture / A Rovin' (R.E.F. 300) 196?
3. Love / Being Alone (R.E.F. 301) 1966

The first two 45s contains instrumentals and may predate the third by some way. A different outfit to that on Boom and thought to be from Pennsylvania - this has been confirmed by Mike Kuzmin's Pa. '60s book 'Sounds From The Woods' which places them in Dubois. *Love*, on *Pebbles Vol. 7*, illustrates the Anglophile influence on American garage bands.

1. UNRELEASED TEXAS GARAGE SOUNDS (COLLECTABLES COL 0715) 1998

Previously assumed to be the other Texas Livin' End, thanks and kudos goes to Collectables for straightening out the facts and history behind this particular bunch. They were formed by Wayland Huey in Abilene, Texas after his previous outfit The Coachmen split in 1964 after issuing just one 45, also included on the CD. Though **Livin' End** never got to release a 45 during their lifespan, they would last until 1968 and recorded many unreleased nuggets between 1965 (*Get Off My Cloud*, *Friends*, *All Alone*) and 1967 (covers of *Baby Please Don't Go* and The Doors' *Love Me Two Times*).

The CD contains a further twelve **Livin' End** tracks including some live performances from a '70s reunion and the full lowdown on this band's story. Kicking off with an original garage-fuzz-punker *Pine Street Boys*, one of the highlights of this collection, there's a smattering of the usual covers (*Roadrunner*, *Talkin' About You*, *Empty Heart*, *Makin' Time* - this last probably their best cover) - all are competent if uninspiring. It's the originals that are more interesting even though very derivative - *All Alone* borrows the *I'm A Man* riff; *Friends* is Dylan via The Byrds ala *Chimes Of Freedom*; *My Destination* borrows a Beatles riff but transforms it into a tough garage-punker with a *Psychotic Reaction*-style rave-up break - most excellent indeed.

The band have also appeared on a number of other compilations, including: *Makin' Time*, *Captain Soul*, *Talkin' About You*, *Empty Heart* and *Unknown Destination* on *Texas Flashbacks Vol.1: Dallas*; *All Alone*, and *Get Off Of My Cloud* on *Texas Punk Vol. 1*; *Roadrunner* and *Your Enemies* on *Texas Punk Vol. 3*; *All Alone*, *Get Off Of My Cloud*, *Roadrunner* and *Your Enemies* on *Acid Visions - The Complete Collection Vol. 2* (3CD); and *Makin' Time*, *Empty Heart* and *Captain Soul* on *Psychedelic Microdots Vol. 2* CD.

Barry Robertson is still active in the music business, playing with Slim Chance and The Survivors.

45:

1. Crystalize Your Mind/Now It's Over (MTA 140) 196?

An overlooked band from Fort Bragg, California. *Crystalize Your Mind* has resurfaced on *Sixties Rebellion, Vol. 3*, and is good garage with psychy lyrics, a menacing riff and relentless beat. Both sides also feature on the CD compilation named after the 'A' side, where the flip is found to be a superb slice of mellow Love influenced psych.

Adrian Lloyd

45:

1. Got A Little Woman/Lorna (Charger 112) 1965

An Englishman who moved to L.A. and cut this great menacing punker. **Lloyd** was also the man behind the pre-punk howler *I Don't Need You No More* by the mostly instrumental surf combo The Rumblers and his own surf combo Adrian and The Sunsets who cut the *Break Through* (Sunset (SE)-63-601) album in 1963. *Lorna* has resurfaced on Back *From The Grave, Vol. 8*. Both sides have resurfaced on *Sixties Rebellion, Vol. 3*.

3	WAVES	(A&M SP 3044)	1972
4	GEETA	(A&M SP 3046)	1973

NB: (1) also released in France (Decca 510004) 1970.

Primarily a jazzman, **Charles Lloyd** had one of the few jazz groups who won a rock following because of their "long hair and beads" image. He played the Fillmore several times and became friends with some groups, notably the Beach Boys (he plays on *Wild Honey* from 1968), The Band and Canned Heat (he can be found on their *Historical Figures* LP playing flute on his composition *I Don't Care What You Tell Me*). He is also credited on William Truckaway's album, The Doors' *Full Circle* and Harvey Mandel's *The Snake*.

Before 1968, his albums were essentially jazz, although they have titles like *Love-In*, *Nirvana*, *Forest Flower* or *Dream Weaver*. After that, **Lloyd** turned mystic and crossed the border between jazz and psyche with some interesting albums.

Among those more relevant to this book are the four cited above (there may be others, his discography is large).

In 1969, *Moon Man* was recorded with James Zitro, Michael Cohen, Ken Jenkins, Bob Jenkins, Ned Doheny "and friends" and offers a good mix of psyche (especially with the acid guitar parts), jazz and oriental influences, with titles like *Heavy Karma*, *Hejira* or *Moon Man*.

From 1971, with *Warm Waters*, he managed to assemble a formidable line-up: John Cipollina (ex Quicksilver), Dave Mason (Traffic), Woodrow Theus II, Jesse Ed Davis, Bill Wolff (Fusion), Billy Cowsill and the Beach Boys (Brian Wilson, Carl Wilson, Love and Jardine) plus James Zitro, Tom Trujillo and Ken Jenkins. The result is inevitably uneven, but some tracks like *Rusty Toy* or *New Anthem* are effective.

In 1972 *Waves* was recorded with the participation of Roger McGuinn (Byrds). The following year, his *Geeta* album was very mystic, featuring the Indian instruments of Ashish and Pranesh Khan (previously with Mickey Hart and Shanti). **Lloyd** was a disciple of G. Gurdjeff at the time.

Charles Lloyd kept on working with the Beach Boys in the '70s and formed Celebration with Mike Love (their

albums however are best avoided!). He returned to the jazz scene in the '80s and is still playing today.

Their two mediocre jazz/blues albums are now of minor interest to collectors. They were billed as Linda Tillery and The Loading Zone for the second RCA 45. Linda Tillery later played for Cesar 830 (a shot-lived San Francisco-based jazz fusion outfit from 1975) and had a solo career. Patrick O'Hara, the band's only ever-present member, later played with Boz Scaggs.

1(A) LOADSTONE (Barnaby Records 21235004) 1969

This album is of interest for *Flower Pot*, a long fifteen minute psychedelic suite which takes up the whole of side two. Complete with sound effects, phasing, screams, echo loops and bird noises, the track was recorded in one take, with the voices overdubbed later.

The group formed in Las Vegas, NV. Devers, Abernathy and Phillps were backing Bobby Darin at the time when he went on his hiatus to find himself, leaving them looking for a gig. Ryan, Douglas, Sterling and Cernuto were freelance musicians in Vegas looking for work. Thanks to a guitar player by the name of Mike Richards, who originally was in the group, they got together and formed a cover band to make some cash. The band worked a club in Vegas called 'The Pussycat A Go Go' where Andy Williams use to hang out. He signed the band to his label, Barnaby Records, because of the big following the band attracted to its live performances. Andy also got Dave Grusin to produce the album as well as play piano on one track, *Dayshine*. The album was recorded in a two week period in the Summer of 1969 and other than record promotion concerts and a few club gigs in LA, the band never toured.

The albums lack of sales caused the group to slowly dissolve to working lounge gigs in Vegas. When that was over the band members went on to other groups. Today, all the members are still working as musicians in one capacity ar another except for Douglas, who passed on in 1991.

The groups energy in live performance could never really be captured on record. The horn sound created by the Trumpet, Trombone and Sax with the funky rythm section was truly incredible.

Barnaby Records still owns the masters, with a few tracks never released. Dave Grusin is mostly known as a jazzman and soundtrack composer.

Locksley Hall was one of the better known psychedelic bands in the Pacific Northwest during their existence from 1967 thru' 1970. The album was recorded at the legendary Audio Recorders in Seattle with long time Northwest guitarist Ned Neltner (Mark Five, Gas Company, Junior Cadillac) producing and Sonics engineer Kearny Barton at the console. The album reminds us of every band who ever played the Fillmore West in the late sixties and blends together elements of It's A Beautiful Day, Jefferson Airplane and Big Brother and The Holding Co. Orginally from Las Vegas, where they were known as The Weeds they migrated to Portland, Oregon and changed their name when The Seeds' manager Lord Tim took them on. Band leader, Fred Cole later formed seventies band Zipper. Cole's vocals are very distinctive and your reaction to the album will largely be determined by how you respond to them. The opening cut *You Must Be A Witch* is reminiscent of Love at their most frantic. Other strong tracks on the album are the slower sensitive punk ballad *Underground Railroad*, *Don't Close The Door On Me* and the more commercial *Its Only A Reflection*. The album has been repressed, and pirated on CD. Fred Cole remains active on the music scene with the highly regarded cult act Dead Moon.

They also had two tracks featured on the *Angels From Hell* soundtrack LP (Tower 5128) - *Mr. Madison Avenue* and *Who's It Gonna Be*. The non-LP Shamley 45 is a disappointing 'downer'.

Compilation coverage has so far included: *You Must Be A Witch* on *Garage Monsters, Pebbles, Vol. 8*, *Nuggets, Vol. 12* and *We Have Come For Your Children* and *Baubles, Vol. 1*; *Mr. Madison Avenue* and *Who's It Gonna Be* on *Filling The Gap*; *Mr. Madison Avenue* on *Turds On A Bum Ride Vol. 2*; and *Who's It Gonna Be* on *Turds On A Bum Ride, Vol. 4*.

London recorded for quite a few San Antonio labels from 1965 onwards with and without The Rogues so the above discography is not complete. His best effort is usually considered to be his cover of Van Morrison's *Gloria* which can be heard on *Highs In The Mid-Sixties, Vol. 13: Texas, Part Three*. In fact his moody, bluesy voice sounds out of piace on this punk 45 which is unrecognisable from the original. London also wrote and produced records for other Texan bands in this era.

3	I'll Probably Understand It/When I'm Older/Keep Him	(Date 1535)	Oct. 1966

From Great Neck, New York, which is on the northern end of Long Island. All of the guys went to school together and subsequently formed a group. Noted NYC producer Al Harvey got them a deal with Columbia records in early 1966, which resulted in the three 45s on the subsidiary Date label. Many of their gigs were teen parties, and several were performances for rich and famous folks, taking the group from Boston to Washington D.C.

All three 45s were produced by Al Harvey and Steven Scott. Five of the six sides were written by Richard Weintraub and Jon Scholle. The overriding style is slick accomplished upbeat or frantic pop-punk with an attitude and edge that retains some garage cred but is also very commercial - similar to Paul Revere & The Raiders perhaps. The one slower effort is a midtempo baroque-popper with shades of Dylanesque folk-rock. All good stuff!

When Richard Weintraub got married the group split, with Jon Sholle and Johnny Miller merging with The Savages to form Today's Special. They then cut a few songs written by Johnny Miller and Richard Weintraub (who also sang background on some of the recordings but never really joined the band).

Jon Sholle went on to become a blue grass performer of some note with records such as *Catfish For Supper* and *Out Of The Frying Pan*. He later played with acts like Melissa Manchester and Meatloaf, performed with Bette Midler in the movie "The Rose" and is still doing his own thing, a combo of Bluesgrass and Jazz, regularly in NYC.

Richard Weintraub moved to Hong Kong where he played with a band called AWOL that did lots of acid rock and hard rock (Hendrix, Cream, The Who, Deep Purple, Etc).

Compilation coverage has so far included: *It Just Ain't Right* on *'60s Choice, Vol. 1* (LP) and *'60s Choice Vol's 1 & 2* (CD); *City I Was Born In* and *Tell It To The Preachers* on *Psychedelic Archives Vol. 2* (cass); and *Tell It To The Preachers* on *Victims Of Circumstances, Vol. 1*.

The name is misleading because New Haven, Connecticut was actually home to this band. They started life as a surf harmony group and had some 45s for Wonder Records which aren't relevant to this book. After going through a folk-rock phase they wound up on the Dyno Voice label and recorded this 'bubblegum' style 45, which was produced by top bubblegum producers Bo Gentry and Richie Cordell. You'll find the 'A' side on *Nuggets, Vol. 4* and it's fairly typical of that genre, although it met with no commercial success. The 'B' side is a sort of blues jam with an incoherent vocal track.

Formed in 1964 at Goddard College in Vermont, this band became part of a burgeoning Boston scene (well before the "Bosstown sound" hype). Contemporaries of, and often compared to, The Remains who were said to be Boston's answer to the Beatles, the **Lost** assumed the Stones' mantle. Musically however they were much more diverse. Whilst embracing the new Invasion sounds they did not discard their own heritage and influences - elements of rock & roll, folk and jazz were mixed into a dynamic stew by songwriters Ted Myers and Willie Alexander. Their unique strength however was having four vocalists in the band, each capable of taking the lead part. This added a new dimension to set them apart from others with an infusion of Byrds or Beach Boys influences into the melodies and finely structured vocal arrangements (coincidentally they supported the Beach Boys 1966 tour of the region).

The resultant Capitol 45s are great examples of New England's response to Olde England's "Invasion" - classy and timeless '60s beat-pop-rock nuggets. *Maybe More Than You* with Alexander's cutting put-down vocals to the fore, backed by the *Back Door Blues*' snappy rockin' beat. *Mean Motorcycle* continues in uptempo rockin' vein and backs the track that signposted Myers' future direction - the sublime *Violet Gown* with a haunting melody, ringing guitars and romantic lyrical imagery. This 45 was quickly followed by an alternate version of *Violet Gown* backed by the frenetic raver *No Reason Why* with screamin' guitars and screechin' harmonica.

No Reason Why is covered by Californian outfit Mondo Crescendo on the flip of their 1998 45 *A Boy And His Itch* 45 (Train Bridge records).

Back Door Blues has since resurfaced on *The '60s Choice, Vol. 2* and they also have one track, *Changes*, on the Arf Arf *Blitzkrieg* 32-Track Sampler CD.

The Lost CDs are highly recommended those who want to investigate this band's legacy. *The Early Recordings* CD contains twenty-six previously unreleased recordings from 1965-6, and fans should also check out the Stanton Park 45. **The Lost** *Lost Tapes* CD unearths seventeen gems from the original Capitol tapes, remixed by Ted Myers and Erik Lindgren. *The Family Circle-Family Tree* CD is a fascinating collection of **The Lost** and their offshoots:- nine tracks by **The Lost** - *Violet Gown*, *Maybe More Than You*, and seven unreleased/alternate tracks including *Mystic*, *Kaleidoscope* and *Everybody Knows*; eleven cuts by Chamaeleon Church (most of their 1968 MGM LP plus some alternate and unreleased tracks); *Back Door Blues* and *Happiness Child* by the Myers/Scheuren Ultimate Spinach; two more versions of *Everybody Knows* by the post-Lost Alexander/Mason

outfit the Bagatelle and a further 1978 version by Willie Alexander & The Boom-Boom Band. A follow-up double-CD compilation *Bosstown Sound-1968* (Big Beat CDWIK2 167)1996, by Alan Lorber, misleadingly includes four **Lost** tracks (repeating a couple from the *Family Circle* CD) and two 1966 Rockin' Ramrods tracks.

In 1967 **The Lost** were commissioned to provide the soundtrack to a children's sci-fi opera. The resultant albums worth of material can be heard on the Arf Arf CD coupled with the Flat Earth Society LP reissue - three lengthy tracks *Space Kids Part 1, Space Kids Part 2* and *Incidental Music To Space Kids*.

By 1967 the band were being pulled in different musical directions - with Alexanders, Powers and Mason pushing a move to jammin' jazz/funk climes. The split saw Alexander and Powers initially in the unrecorded Grass Menagerie, before Alexander joined Mason in the nine-piece funk-fusion Bagatelle. Powers joined prog-psychers Listening. Myers continued to write prodigiously and became a staff songwriter for Alan "Mr.Bosstown" Lorber. Pursuing the style of , he formed the psychy soft-rock Chamaeleon Church with Garrahan plus Tony Scheuren and drummer Chevy Chase - the latter of course has achieved fame as a comedian and film star personality.

After one under-rated LP and the haunting *Camillia Is Changing* 45, Myers and Scheuren were drafted into the post-Bruce-Douglas Ultimate Spinach for the third album, which also featured pre-Steely Dan and Doobie Brothers Jeff "Skunk" Baxter.

Kyle Garrahan went solo and released one 45 on Janus (note that he is not the Kyle who had releases on Paramount and Family around the same time) and moved to Europe where he spent much of the seventies living in France.

After Listening, Powers teamed up again with Alexander in Doug Yules' post-Lou-Reed Velvet Underground from 1970-1971. This line-up toured and appeared in the U.K. but did not release any new studio recordings. Willie Alexander commented that they've never been forgiven for nor allowed to forget this episode in certain cliques.

Alexander continues to record to this day and is regarded as a living legend in New England. After VU he went solo with the Kerouac 45 in the mid '70s - an updated version of this by his next outfit Willie and The Boom Boom Band is featured on the 1979 *Who Put The Bomp?* compilation. The Boom Boom Band issued two LPs on MCA 1978-'79. In the early 80s Willie Loco Alexander And The Confessions saw him reunited again with bassist Walter Powers. His band in 1999 is Willie Loco Alexander And The Persistence Of Memory Orchestra.

Ted Myers is A&R Manager for Rhino Records in L.A.; Kyle Garrahan is a jazz guitarist living in Astoria, NY ; Walter Powers a librarian at M.I.T. and resides in Wellsley, Ma.; Lee Mason runs an airline business in Florida and was involved in mercy flights to hurricane-torn Central America in early 1999.

For a few days in March 1999, **The Lost** reunited for the ultimate Boston Tea-Party at the Paradise Club, to complete a dream line-up with The Rising Storm and Barry Tashian's Remains. Original drummer Lee Mason was unable to attend due to ill health but his stool was superbly filled by Alexander's current POMO drummer Jim Doherty. Convening at Erik Lindgren's new Sounds Interesting studios in Middleborough, it was soon obvious to priliveged observers that the chemistry still worked and something special was brewing. After their final run-through all were treated to a preview of the *The Lost Lost Tapes*, which Ted Myers and Erik Lindgren had just remixed. Erik's reward would be to augment them on keyboards at the upcoming gig.

On Saturday March 20th, **The Lost** hit the stage after The Rising Storm had set the scene and spirit of the occasion, and MC Peter Wolf (J. Geils Band) had paid eloquent homage to **The Lost**'s influence on him. Their stage presence and rapport with the audience was immediate and generated much warmth and humorous repartee.

Kicking off their eleven-song set with *When I Call*, they strode through their repertoire with a vitality, tightness and confidence which belied the 30+ year gap since they'd played together and the mere day-and-a-half they'd had

to rebuild their act. All the Capitol 45 tracks bar *Mean Motorcycle* were revisited with Myers' beautiful *Violet Gown* saved for last, earning them a rapturous response and an encore of *Who Do You Love* featuring stunning vocals from a vibrant Willie Alexander. The only other cover was *A Certain Chick* (aka *A Certain Girl*), featuring "younger than springtime" Kyle Garrahan on lead vocals. A beaming Walter Powers took his turn on lead vocals for the catchy swingin' *(You Send Me Through) Changes*. Original agent "Uncle Fred" Taylor, called onto the stage after **The Lost**'s tribute to him - *(No) Money In My Pocket* - to accept the band's and fans' plaudits, described it as "a great trip".

Amen to that, it was truly memorable.... For pictures of the event check out http://web.mit.edu/waynej/www/lost.htm

A Chicago band whose sole stab for stardom was *One Girl Man*, a pounding garage rocker with abrasive vocals and some fine guitar. *Time To Dream*, on the flip, has a raga-esque feel, pulsing bass and relentless drums - damn fine stuff!

Both sides of the 45 have been included on *Pebbles, Vol. 7* (CD) and the 'A' side also appears on *Mindrocker, Vol. 2* and *The Essential Pebbles Collection, Vol. 1*.

1. Forever Lasting Plastic Words/Everybody's Here (Int. Artists 120) 1967

2. When Will You Come Through/Professor Black (Int. Anists 125) 1968

Originally known as The Misfits, this band came together in Houston in 1965. They changed their name to **Lost And Found** just prior to commencing a six month residency at Houston's Living Eye club. They became friendly with Roky Erickson, who introduced them to International Artists, who signed them for an album. The result was further evidence of Roky's influence. They covered *Don't FaIl Down* from The Elevators' first LP and imitated their jug sound on *Let Me Be*. The album also included a couple of instrumentals of note; *Zig Zag Blues* dedicated to the founder of Zig Zag Magazine and *Living Eye* dedicated to Houston's Living Eye Teen Club. Their first 45 was taken from the album but the second, a non-LP release, was much better. Both sides featured good fuzz guitar and the flip was very strange. This second 45 was intended to form part of a second LP which never emerged because the band disintegrated after a 30 day Texas tour with The Music Machine. Two tracks also cut for the intended LP: *Girl With A One Track Mind* and *25 M. P. H.* were subsequently included on a *Texas Archive Flashback* LP. The latter, a bedroom demo, was also included on *Epitaph For A Legend*, along with count-ins where the solo was supposed to go. You'll find both sides of their second 45 on *The International Artists Singles Collection* and the *Austin Landing* compilation. Their album, which was also available in 1979 as part of a boxed set of the first 12 International Artists LPs, is worth getting now it's been reissued. *There Would Be No Doubt*, one of its best tracks, also appeared on Radarscope's 1978 promotional EP.

1 I Won't Have To Worry/I Want To Be Her Man (Vaughn-Ltd. VA-725) 1966

Sultry garage from the South - Birmingham, Alabama to be precise. The 'A' side is a clumsy steal of The Byrds' *You Won't Have To Cry*, recredited to a J. Whitworth. The 'B' side sounds more like a J.W. original and is a fine, yearning garage-ballad that's finally been recognised, on Leaving It All Behind.

1. (A) PARADISE LOST (Rare Earth RS 518) 1970

Don't let the cover of this obscure Detroit album put you off - it depicts the band behind a balustrade on whose lower wall is graffiti on a predominantly ecological theme, but this is no hippie-rock, or back-to-nature concept album. This is serious progressive rock, soundwise somewhere between Uriah Heep and Rare Bird - busy keyboards, strong vocals, neoclassical movements, and some excellent heavy guitar. Not strictly within the main thrust of this book, this quintet merit an entry for including Ron Stults, formerly of revered heavy garage kings The Unrelated Segments. Craig Webb also had a spell in Frijid Pink.

Another bunch of **Lost Souls**, this time from the village of Darlington in the city of Pawtucket, Rhode Island. They were one of the best and most popular local bands of the era and their garage 45 is quite highly-rated and commands a price of $100+.

Randy Roy later entered the Navy, being replaced by Gary Graveline. Dennis Ptak and Mike MacTavish also left and Mike was replaced by Steve Lemos.

Frank Dilorenzo and Joe Gamba, who were the driving force behind the band, still live in the same area. Frank is now a CPA, still playing occasionally for his own enjoyment. 4. Machines/Milkweed Love (Capitol 2376) 1968
5. Midnight RangerNes, I Love You (Capitol 2556) 1969

This was one of the most interesting groups to emerge from America in this era. They moved to New York to record their two albums. **Lothar** was actually the name they gave to the theremin, which, together with two moog synthesisers, Ampex tape decks, keyboards and a linear controller characterised the group's sound.

Their debut album was reissued in the U.K. a few years ago and is consequently not difficult to obtain. On most tracks like *This May Be Goodbye* and *That's Another Story*, the theremin's influence is confined to short intros to fairly conventional two or three minute compositions. However, three exceptions to this are the weird *Machines*, the unusual *Sex And Violence* and final track *It Comes On Anyhow* - which is a foretaste of some of the psychedelic craziness which appeared on their follow-up album.

On *Space Hymn*, the theremin and other electronic gadgetry is generally used to better effect. The album is composed of a mixture of weird material and more commercial numbers, such as *Yes! I Love You*, *Heatwave*, and *Say I Do* (which were issued as singles). The lyrics are often full of the usual hippie cliches. For example, *What Grows On Your Head?* is, as one might expect, romanticising about the freedom and virtues of long hair, while *Midnight Ranger* sounds like the story of a ranger who has had one trip too many! Some of the other material is particularly weird, notably keyboard instrumental *Wedding Night For Those Who Love*, *Sdrawkcab* and *Today Is Only Yesterday's Tomorrow*. The title track, however, reaches new heights of craziness when the vocalist sets about hypnotising his audience! Certainly an interesting album, this is recommended. Apart from *Heatwave*, all the material was written by the band and you won't hear anything more unusual from this era than that title track.

Kim King went on to become a producer and sound engineer, notably working with Holy Moses and Colin Winski.

The rock critic Greil Marcus described them as "clear and sharp, relaxed without being fashionably lethargic, the vocals have feeling without pain".

Ortega would keep on working with Doug Sahm and Merrel Fankhauser.

The 'A' side credits the vocals to Arthur Lee and John Echols and this acid folk adventure extols the virtues of 'The Marlin', an obscure sixties dance. This seems to have been a very early American Four release or possibly even earlier, released on a Texas label, maybe a couple of years later when **Love** were famous. It can also be heard on *Texas Psychedelia From The Sixties*. The fIip side was credited to an outfit called The Hurricanes who also released it on another label. There is some speculation that they may also have been **Love** incognito. (5) and (6) Arthur Lee solo releases.

NB: (1) Arthur Lee solo.

Born in Memphis, Arthur Lee later moved to Los Angeles where he first saw The Byrds. The folk rock act represented a break with the usual rhythm and blues format previously played at the clubs, and had an enormous influence upon him. Lee had formed and disbanded a number of groups since moving to LA, including The VIP's and Arthur Lee and the Lags. After hearing The Byrds he formed The Grassroots which included former Byrds roadie, Maclean; Forssi (earlier with The Sufaris) and Memphis-born Echols. They began to play around the LA clubs, but Lee discovered that another band had got first rights to their name and it was changed to **Love**.

Love made their debut at the Brave New World in Spring 1965 and by the early summer of that year, Jac Holzman (head of Elektra records) discovered them playing at the Hollywood club, Bido Lito's. Elektra were looking for one of the new folk rock acts, and eventually signed them up. They quickly became a cult attraction and by 1966 had a residency at Bido Lito's.

Their debut album **Love** was impressive, containing the drug-orientated *Signed DC, Hey Joe* and *My Little Red Book*. *Signed DC* was dedicated to Don Conka, who would have been in the band but for his drug problem (ironically with most people presuming him dead he did turn up in a late eighties reformation line-up). The list of bands who subsequently recorded *Signed D. C.* included December's Children, Rising Storm, Axis Brotherhood, Jeff Dahl Group, Fallen Angels, Sidewinders and Dead Moon. Another of its finer moments was *Softly To Me*, a fine track with haunting vocals and clashing guitars, released briefly as a single.

Before the release of their follow-up LP *Da Capo*, Lee bought in Michael Stuart (formally with LA band The Sons Of Adam) on drums and Tjay Cantrelli on horns. 'Snoopy' Pfisterer was transferred from drums to keyboards. This

album contained their second hit single *7and 7 Is, The Castle* and *Stephanie Knows Who*. Whilst *Orange Skies* would set the style for their following album, the whole of side two was taken up by the highly ambitious but only partially successful twenty-minutes long *Revelation*. *7 and 7 Is* was perhaps their most influential track. It was later covered by Alice Cooper, Billy Bragg, Marshmallow Overcoat, Sidewinders, Fuzztones, Spiral Jetty, Barracudas and The Blues Inc. among others.

Pfisterer and Cantrelli had both departed before the band released the masteful *Forever Changes* as a five-piece. Both Bob Harris and Penny Valentine chose this as their favourite album of all time in Paul Gambaccini's book "Critics Choice: Top 200 Albums". Almost every track was a classic and *Alone Again Or* and *Andmoreagain* were further U.S. hit singles. *Alone Again Or* was later covered by The Damned and UFO. Many of the other songs flowed gently with muted guitar leads, soothing brass, sweeping string and often nihilistic lyrics. Lee chose haunting surrealistic lyrics, often making play on words. The drug influence which helped inspire this album was also to be the group's undoing. They scarcely left their former horror movie set/house near Hollywood, and when they did record another album it was too awful to release.

Lee broke the band up and formed a new one comprising Frank Fayad (bs), George Suranovitch (drms), and Jay Donnellan (gtr) (all from Nooney Rickett), although additional musicians were used on recordings. *Four Sail* was their last album for Elektra and subsequent albums were comparatively disappointing. They managed a tour of England in 1970, but after the failure of *False Start*, Lee split the group again and worked on his solo album. Later, he would try unsuccessfully to form another version of **Love**. Somehow Arthur Lee got mixed up with Robert Stigwood and the result was *Reel To Reel*, a disco-influenced album with a female backing group, The Blackberries and a horn section on many tracks. Best avoided!

It is unlikely, however, that the mellow blend of their first three albums will ever be repeated and **Love** are best left alone to be remembered as one of the very best of the LA rock bands. Material from their early years is thoughtfully compiled on Rhino's *Best of Love* (RNLP 800), which was repackaged in 1987. *Love Live* (Rhino RNDF 251) (1982) and (Line LLP 5152 AP) 1983 is a recording of a reunion concert at the Whiskey A Go Go in 1978. It includes gorgeous versions of *Orange Skies* and *Old Man* but the rest is pretty inept.

Several former **Love** members went on to play with other groups: Tjay Cantrelli joined Geronimo Black, Jay Donnellan (aka Jay Lewis) formed Morning with Jim Hobson, Gary Rowles formed Cottonwood and joined Richard Torrance's Eureka.

Live/Studio (MCA 27025) 1982 consisted of previously unreleased material live from the Fillmore East in 1970 and eight remastered tracks from the *Out Here* album. The live side is an energetic pedormance by line-up G and notable for its inclusion of the otherwise unavailable *Product Of The Times*. *Out There* (Big Beat WIKA 69) 1988 includes the best of **Love**'s *Out Here* and *False Start* albums.

In 1987 Lee reformed the band as a four piece, backed by Berton Averre (ex-The Knack) (lead gtr), Sherwood Akuna (bs) and Joe Blocker (drms), as part of the 'Psychedelic Summer of Love' package. Their short half hour sets featured mostly material from their Elektra period:- *7 And 7 Is, My Little Red Book* and *Andmoreagain*.

In 1992 and 1994 Lee again played to packed audiences, in one-off London gigs, which were captured for posterity on the *Once More Again* CD. In particular the 1992 set is memorable for the admirable backing by **The High Llamas**, who provided lush orchestral backing on tracks taken from the first three **Love** albums. Arthur Lee subsequently stole the show at Creation records 10th anniversary bash at the Royal Albert Hall.

George Suranovich died of a heart atack during 1990.

Bryan MacLean's profile has been revived of late with Sundazed's 1997 LP and CD collection *Ifyoubelievein* which is recommended to those who are captivated by the wistful romantic side of **Love** - e.g. *Orange Skies, Old Man* and *Alone Again Or*.

1994 saw the release of a tribute CD to Arthur Lee and Love *We're All Normal And We Want Our Freedom* (Alias

A-058) from modern alternative, underground and indie outfits including Hypnolovewheel, H.P.Zinker, Teenage Fanclub and TV Personalities. One interesting **Love** cover of recent years is a dynamic '90s guitar-thrash version of *Alone Again Or* by the Boo Radleys, from a Peel session and featured on their *Learning To Walk* retrospective.

As one would expect **Love** have also featured on several compilations including:- *Alone Again Or*, *Andmoreagain*, *Hey Joe*, *My Little Red Book*, *7 And 7 Is*, *She Comes In Colors*, *Signed D.C.* and *Singing Cowboy* on *Electrock The Sixties*; *My Little Red Book* and *7 And 7 Is* on *The Golden Archive Series Sampler*, *Nuggets, Vol. 2*; *My Little Red Book* on *Wild Thing*; *7 And 7 Is* on *Highs Of The Sixties*, *Nuggets, Vol. 9*; *And Somebody* on *California New Years*; *If You Wanna Be Free*, *Stand Out*, *Andmoreagain* and *Singing Cowboy* from a Fillmore West concert 23/11/70 on *California Easter*; a 1974 version of *Singing Cowboy* is on the RSO 10" sampler *Prime Cuts*; and a pre-**Love** *Lucy Baines by* The American Four on *California Acid Folk*.

Also of interest is the recent compilation, *Sixties Rebellion, Vol. 8*, which collects together various sixties garage covers of **Love** classics including the likes of Soul Benders, Flower Power, Five By Five, Noblemen and Haunted.

The Loved Ones

TOP

45:

1. Surprise, Surprise (For You)/Another Time Or Place (Ambassador TIF 212) 196?

Newark, New Jersey was home to this particular set of **Loved Ones**. The 'A' side is a typical punk put down song conducted at breakneck speed and featuring some snotty vocals and good guitar. Interested? Well, it has resurfaced on *Pebbles, Vol. 10* (CD), *Attack of The Jersey Teens* and *60's Choice, Vol. 1*.

The Loved Ones

45:

1. Country Club Life/Together Together (Brookmont 556) 196?

From New York. This excellent 45 lashes out at "rich swingers" on *Countly Club Life* in a slowish but powerful number with effective Eric Burdon style rasping vocals and a twee baroquish chorus - neat. The flip is a psych-rocker with sorta Iron Butterfly like guitar, but leans slightly from heavy to pop. *Together Together* got a further airing on *60's Choice, Vol. 2*.

Psychdelic Unknowns Vol. 3 (CD) also includes *More Than Love*, which sounds like it could be by the same **Loved Ones** as above - anyone able to confirm this?

A flower-power group from Los Angeles who were produced by Larry Goldberg (who'd also worked with Fire Escape, Mesmerizing Eye, Neighb'rhood Childr'n, Maze and The Other Half). *Swallow The Sun* is actually a cover version of The Peanut Butter Conspiracy's *Dark On You Now* with slightly modified lyrics. Typifying the freshness of LA rock in this period it's very listenable. Their album is a very minor collectable.

Walter Flannery was later in Charity.

Swallow The Sun is also on on *Highs In The Mid-Sixties, Vol. 3*, *Nuggets Vol.10:Folk Rock* and the *Crystallize Your Mind* CD.

Love Flowers

Probably from Texas hence the inclusion of *Peace And Love*, *Near Vanna* and *Who Are You* on *Acid Visions, Box Set 2* (CD). *Peace...* is a slow organ, Procol Harum influenced melodic tune with flower-power lyrics, and some fiery guitar towards the end, *Near Vanna* ('nirvana' geddit?) is similarly a slow-paced ballad, whilst *Who Are You* is a heavier early-Led Zep rocker...

The Love Ins

45:

1. Everything's There/That's All She Wrote (Curtis Bros 101) 196?

There had to be a band which took its name from this late sixties institution. *That's All She Wrote* (originally issued on the Curtis label) can now be heard on *The '60s Choice, Vol. 2*. It's a pretty good pop/punk effort too. If the titles sound familiar it's because this is The Hysterics from San Bernadino under a pseudonym; the same coupling was issued on Tonenham (500) as by The Hysterics.

For the most part this Plymouth, Wisconsin band played cover versions in competent harmony pop style. Two exceptions to this were *You Know How I Feel (And Why)*, a Dylan imitation, which got a further airing on *Highs In The Mid-Sixties, Vol. 10* and their cover of *Tobacco Road*, which was a heavier fuzzy effort most likely to be of interest to readers.

The core of this band were John Sebastian, who was born on 17th March 1944 in New York, and Zalman Yanovsky, who was born on 19th December 1944 in Toronto, Ontario, Canada. They'd first met as a number of guests invited to Cass Elliot's house to watch the Beatles' U.S. TV debut on the Ed Sullivan Show in February 1964. They played guitar together through the night and discussed the possibility of forming a rock group. At the time Sebastian was a Greenwich Village folkie and sometime member of the Even Dozen Jug Band and Yanovsky was guitarist with the Nova Scotia folk group, The Halifax Three. When this disbanded in June 1964 Yanovsky was briefly involved in the Mugwumps (with Denny Doherty, Cass Elliot and James Hendricks). This was a short-lived and unsuccessful venture, which soon disbanded, and, of course Doherty and Elliot went on to form one half of The Mamas and The Papas. With Yanovsky at a loose end again the seeds for a rock group with John Sebastian (along the lines they'd discussed earlier) were sewn in January 1965. The name **Lovin' Spoonful** was taken from a phrase in Mississippi John Hurt's *Coffee Blues* and Joe Butler (from Glen Cove, Long Island) and Steve Boone, who was born on 23rd September 1943 in North Carolina, were drafted in to be the other members.

They won a residency at the Night Owl in Greenwich Village and their producer Erik Jacobsen got them a deal with the newly formed Kama Sutra label. Playing their own brand ot folk-rock/good-time music they enjoyed immediate commercial success. Their first 45 made No. 9 in the U.S. and their debut album of the same name peaked at No. 32. Follow-up *You Didn't Have To Be So Nice* peaked at No. 10 and *Daydream*, their lazy, laid back celebration of love on a summer's day, was even bigger, reaching No. 2 in the U.S. and UK, becoming a million seller. Their second album of the same name made No. 10 in the U.S. and No. 8 in the UK. They also had four cuts included on the Elektra compilation *What's Shakin*, including one called *Good Time Music*, for them this is what music was all about.

Their next 45, *Did You Ever Have To Make Up Your Mind?* peaked at No. 2, but this was soon surpassed by what was arguably their finest moment, *Summer ln The City*. Notable tor its atmospheric streetnoise sound effects this topped the U.S. charts for three weeks and made No. 8 in the UK. It became their second and biggest million seller.

They went on to appear on the soundtrack of the cult movie *What's Up Tiger Lily* (No. 126 in the US) and their third album of the year *Hums Of The Lovin' Spoonful* peaked at No. 14. *Nashville Cats* would be their last U.S. Top Ten hit (peaking at No. 8) - the flip side also made it to No. 87. In the U.K. it climbed to No. 26. They followed this with the heavily orchestrated *Darlin' Be Home Soon*, which peaked at No. 15 in the U.S. and No. 44 in the UK. (It would be their last U.K. Hit.) In March 1967 *The Best Of The Lovin' Spoonful* climbed to No. 3 in the U.S. Album Charts in which it spent a year in all. Their follow-up, *You're A Big Boy Now*, their second soundtrack album, was a minor U.S. Album hit peaking at No. 160.

After just one further U.S. hit, *Six O'Clock*, Zal Yanovsky left the band, following media coverage of a marijuana bust in San Francisco when he was accused of incriminating others to avoid prosecution under threat of deportation (as he was slill technically a Canadian citizen) and the group were ostracised by their rock peers. He was replaced by Jerry Yester, who'd played in the Modern Folk Quartet. Although they enjoyed further minor 45 hits in the States with *She's Still A Mystery*, *Money* and *Never Going Back*, they rather lost their way and their next two albums *Everything Playing* and *The Best Of The Lovin' Spoonful, Vol. 2* could only manage No. 118 and 156 respectively. When John Sebastian left the group in October 1968 it soon crumbled. He went on to enjoy a reasonably successful solo career and made a memorable appearance at The Woodstock Festival, the following year, performing *Younger Generation*, which became a highlight of the movie, and *I Had A Dream*, which opened the *Woodstock* album. The following year

he appeared with Zal Yanovsky at the Isle of Wight Rock Festival in the U.K. (Yanovsky was there as part of Kris Kristofferson's band). He, too, made solo albums but none rose above cult success. In the 1980s he reformed the Modern Folk Quartet but became best known as a producer and string arranger. **The Lovin' Spoonful**'s original line-up did reform in October 1980 to appear in Paul Simon's movie *One Trick Pony*.

The band had two good years and are lovingly remembered by many for their zany image, wild sense of humour and their unique brand of goodtime music, which combined traditional folk and blues influences with the rock and roll of their era.

Zal Yanowsky's solo album, *Alive And Well In Argentina* (Buddah BDS-5019) 1968 and (Kama Sutra KSBS-2030) 1971 is worth checking out as a good example of weird, deranged and wonderful sixties extravaganza.

Compilation coverage has included: *She's Still A Mystery* is on *Nuggets Vol. 5*.

1(A) SONGS OF PROTEST AND ANTI-PROTEST (Surrey SS 1027) c1965/6

NB: Mono and stereo versions exist. There were also two different label colors: first red, then purple, red being the somewhat rarer one. Mint copies can fetch upwards to $250-300. (1) also issued in the UK as by **Bobby Jameson**, but entitled *Too Many Mornings*.

Bob Jameson was a folkie most likely based in California. In the US, this album was released under the pseudonym **Chris Lucey**, but in the U.K. it was released as *Too Many Mornings* as by Bob Jameson. Produced by ex-surfer Marshall Lieb and issued in the U.S. on the same budget label as The Leaves debut, no info is given on the cover other than the picture of a Byrd look-alike with his mouthharp. The album also includes an excellent version of *Girl From The East* similarly featured on the Leaves album.

The music is laidback folk/rock with echoes of Byrds, Tim Buckley, Steve Noonan and Lovin' Spoonful. Many of the songs feature charming guitar parts, dreamy arrangements, jazzy even Lee Underwood-ish backing. Some of the highlights are *I'll Remember Them* and *Girl From Vernon Mountain*, both of which are excellent introspective pieces. Most of the album is filled with a haunting atmosphere and all the tracks are originals.

Collectors may wish to note that the Mono copies differ considerably to the Stereo ones. On the stereo release (matrix 65-1064-SA/B) all the instruments, plus vocal are crammed on the left channel at an equal volume; whilst the same vocal performance is on the right with barely a hint of music. The Mono version (matrix 65-1064-A/B RE-1) has the instruments are at a proper level, along with the vocals on BOTH left and right. It's possible that this mono version is a "remaster/recut", but both "Red" and "Purple" label stereo copies both feature the 'left-sided' mix, so was this also subject to a re-cut?

3. Song No. Seven/Write If You Get Work (White Whale 245) 1967

Formed by a young Warren Zevon and his then girlfriend Tule Livingston (also credited as Violet Santangelo), this short-lived Californian male-female duo got a contract with White Whale after the Turtles took notice of their songwriting skills (they would later use their own version of on the 'B' side of *Happy Together*). They are best remembered for *Follow Me*, a nice harmony folk-pop song, which was a minor hit. Their second single was produced by Bones Howe (*If You Gotta Go* is a Dylan cover). The third, produced by Curt Boettcher, featured two Zevon originals, credited as "J.Glenn" for contractual reasons.

Zevon was later in The Brothers (a 1967 San Francisco-based act), played with Smokestack Lightnin and went on to achieve some success as an LA-based singer/songwriter, often working with Jackson Browne.

Follow Me was later covered by U.K. outfit The Californians (!) and can be heard on *Rubble, 11*. You can also find the original on *Nuggets, Vol. 4* and *Mindrocker, Vol. 6*.

Issued two albums of soft breathy folk with a psychedelic tinge. They achieve rather a primitive amateurish sound very much in the spirit of dope smoking and the glorification of the Southern Californian hippie lifestyle. The end result is a blend of quite effective laid back tunes alternating with light-hearted acoustic sing-along type celebrations. The best of the former style are reminiscent of the second West album. *Tendency To Be Free* from their second UNI LP can also be heard on *Baubles, Vol. 1* and *Turds On A Bum Ride, Vol. 2*. Hailing from Anapolis, Maryland, this quartet played their own brand of Bob Dylan - P.F. Sloan-influenced folk-rock. They benefited from a strong management-production team of Tom Traynor and Barry Seidel. Their first 45 is very much in that mould and you'll find the 'A' side on the *Signed D.C.* compilation. By 1966 and their second 45 (the 'A' side can be heard on *Pebbles, Vol. 12*) they'd developed a fuller, more mature sound. One side of *Washington D.C Garage Band Greats* is given over to the band. It includes their two 45s (a previously unreleased alternate take of *Hello Girl* and three previously unreleased tracks:- *Go Fight Alone, A Pebble In My Sand* and *Goodbye Babe*. Their finest moment? I guess that was *I'll Come Running*, a fine uptempo folk-punk number, full of energy, enthusiasm and pulsating organ. Drummer Richard 'Spider' Kumer later teamed up with Jack Bryant (who wrote *Hello Girl* for **The Mad Hatters**) in The Fallen Angels.

It features different recordings of the two cuts which appear on their album.

45s:

1. Amphetamine Gazelle/High All The Time (Capitol 2310) 1968
2. Copper Plates/Harfy Magnum (Capitol 2559) 1969

This unique band were fronted by Lawrence Hammond, who was born in Berkeley, but spent much of his childhood in Nebraska. Bluegrass music was his main musical influence. The band was formed by Hammond (harp, vcls) and a series of fellow medical students (Robinson (gtr), Manning (bs), and Dewey (drms)), who all attended Antioch College in Yellow Springs, Ohio. They were originally known as **The Mad River Blues Band** - Mad River being a small tributary of the Ohio. The band, minus Manning, then moved to Washington D.C. for a while. In this period they began to write their own material and secured gigs at very disreputable dives. They then returned to Yellow Springs where Manning rejoined the band and Rick Bochner was added on guitars. In the Spring of 1967 the band quit college, headed for San Francisco, and soon became based in Berkeley. Soon afterwards Sam Silver, a friend of Ed Denson, manager of Country Joe and the Fish, became their manager. Consequently, they secured a number of gigs with The Fish. The band were befriended by Lonnie Hewitt and in 1967 recorded their legendary *Wind Chimes* (EP) on his Wee label (10021). It's an interesting record, not easy to obtain, which contains an early version of *Amphetamine Gazelle* (simply called *Gazelle* on the EP), *Wind Chimes* and *Orange Fire*. The first two are on the first album. *Orange Fire* is a non-LP track.

By the end of 1967 they had played a number of Fillmore and Avalon gigs and were signed to Capitol along with The Quicksilver Messenger Service and The Steve Miller Band. Their debut album was issued in 1968. Extremely uncommercial it was particularly noteworthy for Lawrence Hammond's distinctive quavering vocals and some superb interweaving acid guitar work (particularly on *The War Goes On* and *Eastern Light*. It has later transpired that during its making the recording and playback speeds were not the same - so everything came out higher and faster than they had played it!

Prior to the recording of their second album, Manning left the band and they got a new manager, Harry Sobol. They also asked Jerry Corbitt (of The Youngbloods), an acquaintance from their Yellow Spring days, to produce it. The album was an amalgam of different styles - short country rock tracks like *Paradise Bar and Grill, Love's Not The Way To Treat A Friend* and *Cherokee Queen* appear alongside a couple of long acid influenced tracks, *Leave Me Stay* and *Academy Cemetery*. This album was greeted with more enthusiasm than their debut by the critics, but Capitol did nothing to promote it and did not release it in Britain.

Inevitably, then, **Mad River** split up in 1968. Bochner went to run a homestead in Canada. Dewey worked on Jerry Corbitt's first album and later had a spell with Country Joe and the Fish, Grootna, Eggs Over Easy and Bodacious D.F.. Robinson became a building contractor and Manning did occasional work for him and some session work.

Lawrence Hammond later formed The Whiplash Band, a bluegrass/country music outfit. Supported by this outfit (Alan Lane (bs), Janet Bryson (vcls), Al McShane (drms), and James Louis Parber (lead gtr)), Hammond recorded a country rock album *Coyote's Dream* (Takoma C 1047) in 1976. Fellow **Mad River** members, Dewey and Robinson also made guest appearances on the album.

As tor **Mad River** - their output is essential for any collector of psychedelia.

Compilation coverage has included: *Orange Fire* can also be found on Glimpses Vol.3; *California Easter* contains a live recording of *War Chimes* and *War Goes On* from Dr.Sunday's Medicine Show at Fairground Family park, San Jose on 10th August 1967.

45:

1	Cry Baby/I'm Gone	(Warner Bros 5846)	1966

From the 'North Country' area near San Diego this band were joined by Allen and Gaylord from The Lyrics. Just one 45 was released before they moved to New York in late 1967 where they became known as Love Special Delivery.

Cry Baby can be heard on *Psychedelic Unknowns Vol. 6*. *I'm Gone*, a fine example of garage punk with snotty vocals and lots of mouth harp, is on *Pebbles Vol. 9* (CD), *Mayhem And Psychosis Vol. 1* and *What A Way To Die*.

2	Look In My Face/Never Let Go	(Philips 40483)	1967
3	Municipal Water Maintenance Man/Let The Rain Be Me	(East Coast 1001)	1968

A Philadelphia outfit who have been much confused over the years with California's Magic Mushroom. Sonny Cassella was not only their producer and manager but played and sang on some of their tracks. In view of previous errors, the long-runing rumour that they have an unreleased LP in some dusty vault should be regarded as pure speculation, until someone can prove otherwise.

They've been well-compiled: the trippy-hippie-pop of *It's A Happening* is a fitting finale on Lenny Kaye's classic *Nuggets* set, later on Rhino's *Nuggets* 4-CD set; *Never More* on *Psychedelic Unknowns Vol. 7*; *Never Let Go* on *Boulders Vol. 2*; *Let The Rain Be Me*, an enchanting folk-rocker, is on *Filling The Gap* and *Fuzz, Flaykes And Shakes Vol. 1*.

The World United label was run by Harry Lookofsky, and his son Michael Brown also worked as engineer's assistant for the WU studio. Tom Finn met Michael Brown whilst recording the 45, and both would of course later play together in The Left Banke.

In 1968 Winkler and Volk left to form their own band, **Magic Reign**, relocating to Arlington, Va. Their bubblegum debut was followed by a strong late-60s fuzz-popper *Jefferson Street* (their location in Arlington)

ALBUM:

1. (A) MAGIC SAND (UNI 73094) 1970

This is quite a varied album which hasn't as yet attracted much interest from collectors. The stand out track is the psychedelic *Get Ready To Fly*. The title cut is a country-influenced instrumental jig and there's quite a lot of country banjo on *Down On My Knees* and *The Good Lord Willing*. The blues is an evident influence on *Thinking Out Loud* and *You'd Better Be Ready*. Worth a spin. You may be interested to know that *Get Ready To Fly* is the same song that was released by The Hooterville Trolley as *No Silver Bird*.

The Hooterville Trolley 45 lists an address in Mississippi on the label, which may be the home state of 'both' groups - especially as a another 45 produced by Tom Bee was by the Mississippi The Trademarks. Tom Bee could also be the same guy that led / produced Xit and Lincoln St. Exit and had earlier played in Fe Fi Four Plus 2, but that would imply that they were from Arizona or New Mexico.

As a further twist in this bands convoluted history, the same A. Klein and V. Gabrielle listed as **Magic Sand** personnel are also the main songwriters (along with a "Tom G") for Mud on Mudd on their self-titled album. Mud on Mudd were a septet (no personnel listed explicitly) and although the music isn't really psych, it is very good rock-soul. The album is split between Traffic, Sam and Dave, and Beatles covers; and a handfull of well-written originals. They also completely transform Porter Waggoner's country classic *Satisfied Mind* into a funky rocker (!).

The most interesting thing is that both albums came out on UNI, and the catalog numbers indicate that they were released very close to each other. Was this in fact the same band? A UNI-manufactured studio group? Perhaps

A.Klein and V.Gabrielle were staff writers?

3. And I'll Tell The World (About You)/I'd Like To Know (Columbia 4-43725) 1966
4. Double Good Feeling/Lady Fingers (Columbia 4-44061) 1967

An East Coast band who are best known for their pop rock rendition *Invitation To Cry* on Lenny Kaye's *Nuggets* compilation. They made three other reasonably good singles and an unreleased album, but although they seemed on the verge of success they never actually achieved much. Upon their demise, Jacobs went solo. Townley founded the Apostolic Studios in New York and was behind projects such as Family of Apostolic and Gospel. Bonner and Gordon were the force behind the group Barracuda, penning most of that group's output and later became a successful songwriting team, penning The Turtles' *She's My Girl, Me About You, You Know What I Mean, She'd Rather Be With Me* and *Happy Together* among others. They also wrote *Celebrate* for 3 Dog Night, *Fancy Dancin' Man* for The Righteous Bros. and *Cat In The Window* for Petula Clark! One of their **Magicians** compositions, *And I'll Tell The World About You* was also covered by Joe Walsh on the *Barnstorm*, whilst *Me About You* was covered by The Mojo Men, Gandalf and Orpheus amongst others. They also composed a classic pop-punker *Put The Clock Back On The Wall* which was done by the E-Types and later the Parrots.

Obviously a talented band, who deserved bigger success, (there was even a TV documentary on the band entitled *Four To Go*) they were also a good live act, and are remembered as one of the best bands to play at the Night Owl Cafe in Greenwich Village..

More recently *Invitation* has been re-aired on *Nuggets, Vol. 11* and *Lady Fingers* on *Psychotic Reactions. Lady Fingers*, one of their best psychedelic folk-rock songs, was originally intended for an album of their material which was sadly never released. More recently a CD retrospective *An Invitation To Cry : The Best Of The Magicians* contains their four 45s plus five unreleased offerings and comes with the a detailed history.

Gary Bonner is currently working with The Plantones, a traditional doo wop group with Kenny Vance.

5. (A) Green Plant/Nite Time Music (B.T. Puppy 548) 1969
6. (B) Wednesday Morning Dew/We Gotta Live On (PIP 8936) 1970

From Long Island, New York. The above album was very rare and contains a stunning version of Neil Young's *Down By The River*, which merges into *For What Its Worth*. Many other tracks, such as *Free* contain some pulsating guitar work, but there are some mellow ones too. A highly recommended album, now available officially on CD by Gear Fab, together with many bonus tracks.

Majic Ship evolved out of The Primitives, an outfit formed by Ray Rifice and Tommy Nikosey whilst at Saint Anselm's school in New York at the tender age of thirteen! By June 1965, they had learned to play their instruments somewhat, recruiting Mike Garrigan on vocals and the following year recording an acetate of *On The Edge* / *Mustang Sally* at a local studio. When original bass-player John Kharouf quit, Gus Riozzi was introduced, and they became The New Primitives, performing locally and adding keyboardist Jeff Bilotta in the process.

As the summer of '68 approached, the bands high school years were coming to an end, and Ray Rifice moved to Florida. Days before he moved, ex-50s singer turned manager, Johnny Mann saw the band perform at a local gig and offered them a deal. Fortuitously, the day after the gig Philip Polimeni was found as a replacement for the departing Ray and with a new name given to them by their management company **Majic Ship**, they recorded the *Night Time Music* 45.

Shortly after its release, *Night Time Music* was selected as WMCA's "Pick Of The Week" in Dec '68, and the soulful *Hummin'* was picked as it's follow-up, charting regionally, and allowing the band to tour around the East Coast. After a further two singles, including the excellent *Green Plant*, Jeff Bilotta quit... and the band, wishing to return to their rock roots, went back into the studio to record their debut album.

Like many bands of the era, their album was largely overlooked at the time, although it is in retrospect a definite 'classic', with the years spent gigging and recording 45s resulting in a well produced and 'rounded' album that flows with a graceful beauty absent in many chart acts. However also like many of their counterparts, their progress was brought to an untimely end when in 1971 their rented apartment in Staten Island, was burned down together with all their equipment. With no insurance, the band called it quits.

The Gear Fab retrospective, includes The Primitives acetate, all of **Majic Ship**'s 45 cuts, the entire album and one new cut *Blow Me Away*, recorded by the band in 1997. It also comes with detailed liner notes, from which this article has been compiled, and many rare photo's of the band. The package can only really be faulted in that the running order is a little dis-jointed, with the bonus tracks coming before the album cuts, and the band interview sections being too quiet. Still an essential reissue though!

Gear Fab's *Psychedelic Crown Jewels Vol. 1* CD also includes two great cuts - the captivating *Sioux City Blues* and *Life's Lonely Road* from their album, whilst *Green Plant* has also resurfaced on *Psychedelic Unknowns, Vol. 5* and *Life's Lonely Road* also appears on *Reverbaeration IV* (CD).

Subtitled "Evening Vibrations", this album was recorded Wednesday, August 17th, 1966 in San Francisco and its five tracks are named *Wednesday* (*Second, Sixth, Fourth, Fifth* and *Eighth*). Long meditative and instrumental ragas, with minimal instrumentations. The liner notes were written by Allen Ginsberg ("Malachi approach music in spirit of consciousness-meditation: altar, flowers, herb, incense, silence, communion with selves, hush and darkness and improvisation. Poe would have enjoyed his presence") and Michael Harner ("Malachi's music transcends the traditions of East and West and represents the new synthesis which is still being worked out by those participating in the psychedelic revolution").

Named after a California beach the band actually came from Chicago. *I'm Crying*, is a short but sweet R&B raver, with harmony vocals, and can also be found on *Pebbles, Vol. 7* (CD). Another track: *La Da Da*, is a rather weak rocker and has also been compiled on *Highs In The Mid-Sixties, Vol. 4*. According to the *Pebbles* CD liner notes, the band also recorded a number of acetates.

You can hear it on *The New England Teen Scene, Vol. 1* and *New England Teen Scene* CD. The flip, a grinding punker, has resurfaced on *Back From The Grave, Vol. 1* and a later more psychedelic version of *Cry* can be found on *Son Of The Gathering Of The Tribe*.

Produced by Neil Merryweather, **Mama Lion** was a group destined to show off the Joplinesque voice of Lynn Carey, a sculptural blonde beauty previously in Ivar Avenue Reunion. As often with the Merryweather outputs, the music is a rather loose mix of blues and rock. Their records are now mostly remembered for their sleeves, especially the first with Lynn Carey breastfeeding a lion cub.

The Mamas and Papas have been described as America's first hippies which is primarily why they're included here. The quartet had originally formed in New York City back in 1963. John Phillips, who was to become their main songwriter was born in Parris Island, South Carolina on 30 August 1941. By the age of 15 he was playing in jazz outfits and he was later a member of the folk outfit, The Journeymen. Holly Michelle Gillian Phillips, born in Long Beach, California on 4th June 1945, had abandoned a promising modelling career to sing alongside him in The Journeymen and married him back in 1962. The Journeymen, incidentally, had also included Scott McKenzie, who would later join the reformed **Mamas and Papas** in 1985. Cass Elliot, born on 19 September 1943 in Alexandria, Virginia, had earlier been in The Mugwumps with the fourth member of the quartet, Dennis Doherty, (who'd been born on 29 November 1941 in Halifax, Nova Scotia, Canada), and future Lovin' Spoonful member Zal Yanovsky. After perfecting their vocal style in the Virgin Isles they settled in Los Angeles in 1964 and signed to Lou Alder's Dunhill label. They preferred the name **The Mamas and The Papas** to The Magic Circle (the other possibility they were considering at the time), 'Mamas' being what Hell's Angels called their girls.

They soon developed a very distinctive vocal style which was well suited to their hippie image - their songs tended to be about peace, love and doing one's own thing.

Their first 45, *Go Where You Wanna Go* only appeared as a promotional release and was quickly replaced by *California Dreamin'* which had been written by John Phillips back in 1963. Capturing the warmth and security of life on the U.S. West Coast with the lyrics, they achieved exquisite vocal harmonies with Michelle's soft, sweet voice contrasting with Cass's harsher, high-pitched voice. Meanwhile the two males provided the background harmonies. The result was a Top Ten hit in the U.S. and a No. 23 in the UK. The song was also recorded by Barry McGuire on his first album. The follow-up *Monday Monday* did even better giving them their only U.S. No. 1 hit and achieving No. 3 in the UK. When they made a short tour in June 1966 to promote the single Gillian Gibson filled in for Michelle Phillips who had temporarily broken up with her husband John. The split did not last for long and once the couple were reconciled Gibson was ousted. Meanwhile *I Saw Here Again* maintained their chart success with another Top Ten hit in the US. It also reached No. 11 in Britain.

1966 ended with the release of their second album, which is generally considered to have been a marked improvement on their first. It provided them with another Top Ten U.S. hit, *Words Of Love*, which was also a minor No. 47 hit in the UK. 1967 was another good year for the band. They were undoubtedly one of the best acts at the Monterey Pop Festival, which John Phillips had actually organised. Their vocal harmonies reached near perfection at times. *Dedicated To The One I Love*, an old Shirelies song had given them a No. 2 hit on both sides of the Atlantic. Again it was characterised by simply delightful vocal harmonies. It was included on their third album, *Deliver*, which was by far their best to date, despite the fact that its recording was disrupted by Mama Cass's pregnancy. *Deliver* also included their autobiographical 45 *Creeque Alley* another Top Ten U.S. hit, it also achieved No. 9 in the UK, where it was their last hit. *Creeque Alley* was a real place, in St. Thomas in the Virgin Islands. The song was their first single in a more rock'n'roll format. It succinctly tells their story, of how from varied folk backgrounds these four unique talents gravitated to sunny California. The second half of the year was less successful for them commercially. Their next 45, *12.30*, could only manage No. 20 in the U.S. and missed out completely in the UK. What was interesting about it was that it was really two songs in one. John Philips had written the first part whilst the band were living in the East Village in New York, which was grim and dirty, and there was a clock across the road from his apartment with its hands stuck on 12.30. He wrote the first part of the song then and abandoned it. He completed it six months later when they were in California, which was so idyllic, springlike, fresh and free in comparison. So he contrasted the two songs by putting them together. For their next 45, they used *Glad To Be Unhappy* from the 1936 Rodgers and Hart musical 'On Your Toes', but both this and follow-up, *Dancing Bear*, marked a downwards trend commercially.

During the summer of 1967 John Phillips wrote *If You're Going To San Francisco* for Scott McKenzie. In the October they visited Britain to play at the Royal Albert Hall on 30 October and 1 November, although they pulled out of the concerts after Cass Elliot was arrested for stealing two blankets and keys from a Kensington hotel. The charges were later dismissed.

By now the band were passed their prime and they actually spit up during the recording of *The Papas and The Mamas* album but came back together to complete it. Overall it wasn't a bad effort but by 1968 their simple vocal harmonies were sounding rather dated- The rate of musical progression in the mid-sixties was very rapid indeed - with arrangements and instrumentation becoming even more elaborate and **The Mamas and Papas** found themselves one of countless bands whom progress had left behind. It spawned three further minor U.S. hits of which *Safe In My Garden* was perhaps the best. This was really John Phillips' anti-Vietnam song. A song about marijuana being safe in your garden and doing the normal things you would do rather than going to far off foreign countries to kill complete strangers. This was one of their more under-rated songs.

When they split in 1968 Michelle Phillips embarked on quite a successful acting career. Her film credits included 'Dillinger' and 'Valentine' and she was part of the TV cast of 'Knots Landing'. She was also married to actor Dennis Hopper for eight days in 1970. Mama Cass Elliot went on to launch a pretty successful solo career. She put out seven albums and several singles, of which *Dream A Little Dream Of Me* was the best known and most successful, until her death in London from heart failure in July 1974. She even teamed up with Dave Mason from Traffic for one album in 1971. John Phillips and Denny Doherty also embarked on solo careers but with less success. John Phillips' *Wolfking of L.A* (Dunhill DX 50077) is extremely mellow and better avoided.

The Mamas and Papas reformed briefly in the early 1970s to fulfil their contract with Dunhill making one final album, *People Like Us*. Step Outgave them another minor hit off the album but the inter-group dynamics weren't at all good and it wasn't a terribly successful reunion. All the other albums listed in the discography are compilations or repackages.

There was another (permanent) reunion in 1981. The initial line-up was John Phillips, Denny Doherty, McKenzie Phillips (John's daughter) and Spanky McFarlane (formally lead singer with the successful sixties group Spanky and Our Gang). Scott McKenzie was added to the line-up in 1985 and Denny Doherty left in 1987. They still tour regularly and recorded an album in 1988, but it wasn't released for legal reasons.

If you're into vocal harmonies **The Mamas and Papas** are a must for you. All their original albums are now available on CD and perhaps the best of the compilations is Connoisseur Collection's double LP, *Elliot, Phillips, Gilliam and Doherty*, which concentrates on John Phillips'songs rather than the many cover versions they also recorded.

Compilation appearances include: *California Dreamin'*, *Monday Monday*, *Look Through My Window* and *Creeque Alley* on *Dunhill Folk Rock Vol. 1*; *Strange Young Girls* and *No Salt On Her Tail* on *Penny Arcade - Dunhill Folk Rock Vol. 2*.

The 'A' side has been included on *High All The Time, Vol. 1*, *The Psychedelic Experience* and *A Lethal Dose Of Hard Psych*.

2 Midnight Sun/Baby Batter (Janus J-144) 1972

Born in Detroit in 1945, **Harvey "The Snake" Mandel** is an excellent guitar player who began his career in 1964 on the Chicago Blues scene, playing on records and performing with Charlie Musselwhite, Barry Goldberg (he played on his first five albums) and Neil Merryweather. Playing in a very recognizable fluid style and specialized in sustain and controlled feedback, **Mandel** began his solo career in 1968 with *Cristo Redentor*. Housed in a stunning sleeve signed by Alton Kelley (of Mouse & Kelley), this largely instrumental album was produced by Abe "Voco" Kesh and contains a good cover of *Wade In The Water* (also recorded by Clover).

Having relocated in Los Angeles, **Mandel** began to do some session work, notably with Graham Bond on his Pulsar albums produced by Wayne Talbert and with Jimmy Witherspoon.

After *Righteous*, **Mandel** teamed up with Russell DaShiell (Crowfoot) to release *Games Guitars Play*, which is probably his best album with strong guitars on *Dry Your Eyes* or *Leavin Trunk*. **Mandel** then replaced Henry Vestine in Canned Heat and played on *Future Blues* and *Historical Figures And Ancient Heads*. He also performed with them at Woodstock. **Mandel** then joined John Mayall for three albums (from *Back To The Roots* to *The Turning Point*).

He moved to Janus for whom he recorded four further albums, which are not as good as his Philips period but which still contain some interesting guitar parts (notably on *Shangrenade*). In 1972 he also produced and organized the bluesy project *Get Off In Chicago* with Ken Little and Freddy Fox. He then formed Pure Food and Drug Act with Sugarcane Harris, Paul Lagos and Larry Taylor. They released *Choice Cuts* in 1972 on Epic but the same line-up also worked on two Sugarcane Harris albums. **Mandel** was also briefly part of The Ventures and even recorded an album with them!

In 1973, **Harvey Mandel** produced both Ken Little's *Solo* album and a Freddy Roulette LP. He played on the *Music From Free Creek* project and on Dewey Terry's Big Chief. 1974 saw him playing with the Rolling Stones on *Black And Blue* (he was one of the possible substitutes for Mick Taylor). In the mid-70s, he vanished from the music scene but returned in the '90s and is still recording with Howard Wales (ex A.B. Shky and Barry Goldberg).

45:

1. Musical Man/Something In The Air (PS) (Poppy 90103) 1968

The Mandrake Memorial began life with an unknown New York City band called The Novae Police, featuring Kevin Lally and Randy Monaco. They played in the Village for a while, opening for bands like The Flying Police (featuring James Taylor), whilst Randy was also doing a lot of demo work, singing on the first demo of "Happy Together" which The Turtles later recorded.

Meanwhile, guitarist Craig Anderton was playing in a college band from the University of Pennsylvania called The Flowers of Evil, who played shows with Woody's Truck Stop (Todd Rundgren's first band). Keyboardist Michael Kac was also in Philadelphia's Cat's Cradle.

The Mandrake's came together through promoter Larry Schriver, who was working in conjunction with club owner Manny Rubin. Manny was looking for a house band for his club, The Trauma in Philadelphia. The band started playing the Philadelphia, New York, Boston and college circuits, even appearing with Pink Floyd on TV and through Manny obtained a deal with MGM subsidiary Poppy (their first two albums were issued by RCA in the UK).

Their debut album which was released in the fall of '68 sold over 100,000 copes and is composed of short commercial rock compositions, like *Bird Journey*, *Rainy May* and *Dark Lady* with Randy Monaco's pleasing, laid back vocals and Michael Kac's keyboards usually to the fore. The strongest track on the album is possibly the haunting *Strange*, but a consistent standard is maintained throughout.

The simple pop format is dropped on the *Medium* album which is the group's first real excursion into the world of psychedelia. By the time of it's release Michael Kac had left the band due to musical differences. Overall, it is less consistent but possibly more interesting than their earlier effort. Of particular interest is the opening track on side 2, the haunting *After Pascal*, which has an unusual psychedelic intro, and the fuzztone guitar work on *Smokescreen*.

Another track *Barnaby Plum* has an unusual psychedelic intro and a pleasant autoharp piece in the middle. However, some of the other music on the album is frankly tedious.

As a three piece, the band came to England to record an LP with Shel Talmy producing. However the resultant "intimate acoustic guitar" album was deemed too uncommercial and shelved. An acetate of the album still exists, and many of the songs were later re-recorded for *Puzzle*.

Their third and final album, *Puzzle*, was their most ambitious. It had a most interesting cover. The mysterious opening track *Earthfriend Prelude* sets the tenor for the remainder of the album, which is their rarest and something of a collectors' item. But other tracks like *Just A Blur* were more in the style of their first album, while Kyrie finds the group playing material, as does *A Children's Prayer* on side 2. *Volcano Prelude*, the opening track on side 2 commences with a slow orchestrated drum crescendo, while *Whisper Play* is possibly the strangest track on the album, based around the idea of quasi-religious music, superimposed with whispers. Overall, this amounted to an early concept album and, with a total playing time of almost 49 minutes, was excellent value when first released.

After *Puzzle* the group recorded a cover of Thunderclap Newman's *Something In The Air*, which was released as a 45 with picture sleeve, but this didn't "happen" and Kevin Lally left afterwards.

Craig Anderton went on to form Anomaly with musicians Charles Cohen and Jeff Kane. They backed Linda Cohen on her first two Poppy LP's released in 1971-72. Randy Monaco later played with The 1910 Fruitgum Co. but sadly died in the late '70s from cirrhosis.

Thanks to David L. Brown - whose sleeve notes from the Collectables reissues have been used to amend this entry, and to Lee Rand for info!

1	HOME SWEET HOME	(Enterprise)	1969 SC

A multi-talented man in the Memphis scene, **Terry Manning** was equally at ease with guitars and keyboards and had previously briefly been in the Bobby Fuller Four, Lawson and Four More and The Avengers. His only solo album contains lots of heavy guitar with various effects and a crazed version of *Savoy Truffle* with psyched vocals. **Manning** later became an engineer and producer for soul and rock acts (notably Isaac Hayes, ZZ Top, George Thorogood and Jason & The Scorchers).

Yes, this is the notorious **Charles Manson**. The recordings on this album were made prior to the Tate-Labianca murders. It contains 14 original songs in an acid hippie folk vein. The music mainly consists of **Manson** singing and playing guitar. On some tracks he's accompanied by sitar, tamboura, violin, strange percussion, electric guitar and voices. The sleevenotes to this now rare album, give no indication of who the other musicians were.

1. Love Me Again/? (Derrick # unknown) 1968
2. Fire/There's A Girl (Derrick 8568) 1968

This now rare and sought-after album was the work of a band from Tulsa in Northeastern Oklahoma. Although entirely embellished with cover versions collectors will pay hundreds of bucks for an original copy, the attraction being that many of the covers are as good, maybe even better than the originals. First off is *I'm So Glad* with some tasty fuzz guitar; next up is *Love Me Again* with more superb guitar work; this is evident too on Mars Bonfire's *Born To Be Wild* - every bit as good as The Steppenwolf version. There's a fine rendition of The Byrds' *I Feel A Whole Lot Better*, a very psychedelic treatment of Ingle-De Loach's *Fields Of Sun* with some excellent guitarwork and drumming and a fine Hendrix impersonation on *Fire*. Side 2 isn't quite as good but it includes a rehash of Mick Jagger's *Connection*, a very fuzzy cover of *Strange Brew* and impressive reworks of Donovan's *Season Of The Witch* and Eric Burtion's *Sky Pilot*. Certainly any collector of psychedelia should snap up the recent repress. It has an interesting back cover too!

Sonobeat pressed 100 copies of this Austin-based outfit's album which they tried to sell to United Artists. Musically they were very heavy with plenty of good guitar work but perhaps too much instrumentation. They won a good 'live' reputation but sadly broke up before Sonobeat concluded their negotiations with United Artists. Erik Johnson was a brilliant 16 year old guitarist who still has a considerable reputation as a guitarist in the 1980s with another Texan band Electromagnetics. His guitar work was also much in evidence on their second 45. The first was a pair of drum solos backed by studio electronics. The reissue of their album is obviously welcome because copies of the promotional-only release were very rare indeed.

A garage band from Boston. The 'A' side is a garage-style ballad, whilst the flip is a is a cool teenbeat garage shuffler with a guitar and organ riff. Mark Whitworth recalls:- "We were high school students in Canton, Massachusetts when we recorded our 45 at Ace Recording Studios ('Ace is the place ... to make recordings') in Boston. 1(-)	DEWEY MARTIN AND MEDECINE BALL	(Uni 73088)	1970
2(-)	ONE BUFFALO HEARD	(Piccadilly)	198?

2	Indian Child/I Do Believe	(Uni 55245)	1970
3	Caress Me Pretty Music/There Must Be A Reason	(RCA Victor 0489)	1971

NB: (1) promo-only credited to **Dewey Martin**.

The Canadian born **Dewey Martin** (ex-Buffalo Springfield) formed Medicine Ball in November 1969 upon leaving New Buffalo. Basically a country/soul aggregation, Kagen was ex-Sir Douglas Quintet; Darnell ex-Albert King's backing band and Bradstreet ex Dayton, Ohio band, Rock City Band. Line-up 'A' was probably responsible for their debut single, although it was credited just to **Dewey**. Issued as a promo only, it comprised the country favourite *Jambalaya (On The Bayou)* and **Martin**'s *Ala-Bam*.

As sessions for the album commenced during April-May 1970, ex-Danny Cox bass player Stephen Lefever helped out until Terry Gregg joined full-time. Darnell left towards the end of the sessions and ex-Blue Mountain Eagle member Randy Fuller helped finish it, as did Bruce Palmer, who appeared uncredited on his own compostion *Recital Palmer*.

Their album which was produced by **Dewey Martin** with the help of Dave Hassinger, was released in a superb gatefold sleeve of Native Indian sandpaints. It offered an energetic mix of psych, rock (an unusual version of *Yesterday*), country and raga. There's even a pedal steel fuzz solo on one track, *Race Me On Down*. The album also featured some excellent covers, particularly two Ron Davies' songs *Change* and *Silent Song Through The Land*. One track, *It Ain't Easy*, was also recorded by David Bowie.

The A-side to their second 45, *Indian Child* was used in the film "Angels Die Hard". **Medicine Ball** then moved to RCA, for whom they recorded material for a second album. Only a 45 was issued from these sessions before the group disbanded. Probably recorded by line-up 'C', plus additional musicians and female backing singers, *There Must Be A Reason* was a Joe Cocker and Chris Stainton song and the sound is not dissimilar to that group; ironic considering that former New Buffalo Springfield member Jim Price was a member of Mad Dogs and Englishmen.

Steel guitarist Jay Dee Maness has also been reported at various times as a member of **Medicine Ball**, but he only rehearsed with them on a couple of occasions and never played a gig with them. After Buddy Emmons left for session work, another steel player helped fulfil their live dates.

In early '71, Bradstreet rejoined Darnell (who had played with Doug Kershaw in the interim) and his songwriting partner John Alden (co-author of *I Do Believe*) in Starbuck. Martin produced Truk and later became a mechanic. In

the late '70s he also played sessions on a Hoyt Axton album. Buddy Emmons kept on recording hundreds of country sessions, Harvey Kegan rejoined Doug Sahm and Augie Meyer, and Steve Lefever became a session man, notably with Alexander Harvey. Darnell, Bradstreet and Alden are currently playing in country-rock outfit The Electric Range.

Paul Martin (real name Myerberg) started off in New York influenced by the vibrant folk scene happening during the early sixties. By the mid-sixties he had diverted his attention to the British groups and emerging folk-rock scene in the U.S. It was around this time that he started to record some demos, some of which were released as 45s in 1966/1967. They are included on this album along with some material recorded later after he became a recording engineer at Bell Sound from 1968 to 1970. Some the of the recordings are heavily influenced by The Left Banke, and have an overall different flavour than the 45 tracks.

After the appearence of the first rock bootleg, Dylan's *Little White Wonder* rock critic Greil Marcus wrote a tongue-in-cheek review in 'Rolling Stone Magazine' of a non-existant bootleg album featuring a band comprised of Lennon, Jagger and Dylan. The review actually fooled some readers into believing that this mythical LP actually existed and record stores across the U.S. were flooded with requests. On reaction, Reprise quickly had the **Masked Marauders** album recorded and it soon appeared on the "Deity" label (as the review had described).

Musically, it mixes some rock numbers with vocals a la Jagger or Dylan, another cover of Donovan's *Sesaon Of The Witch* and doo wop classics (*Duke Of Earl*, *The Book Of Love*) and it cannot not recommended. The musicians were probably members of The Cleanliness and Godliness Skiffle Band.

vocals and lots of excellent instrumentation it's easy to see why. One track, *Golden Sails*, sounds uncannily like Jethro Tull, but all eight cuts are originals, six of them Jim Galyon compositions, the other two co-written with Steve Arcese. A must for heavy rock fans but worth a twirl for most collectors. They lasted until the mid-70s and their legacy has been secured with the CD on Gear Fab.

Jim Galyon later released a poor privately pressed solo album in the early seventies.

Recording in Chicago, **Mason Profitt** was formed out of Sounds Unlimited which included at various times Tim Ayres, Art Nash and the Talbot brothers. Their first three albums were produced by Bill Traut, the manager of the Dunwich label/production company. With their long-haired outlaw look and clothes, **Mason Proffit** was essentially a folk and country rock group with vocal harmonies but some of their songs may interest readers, especially on the first album (also known as "Two Hangmen" becaus of its stunning cover) with *Voice Of Change* and *A Rectangle Picture* about a soldier sent to Vietnam:

> Janie is my lady, she walks my mind at night
> I'm lying in this rice field, I know that it ain't right
> Everything has turned around, I think I'll close my eyes
> To shut out those machine gun sounds that muffle all the cries
> Ever since they called me, my life ain't been the same
> An old rectangle picture in an oval picture frame.

Lead by John and Terry Talbot, **Mason Proffit** toured intensively and sometimes shared the bill with the Grateful Dead. After two more country rock albums for Warner in 1972 and 1973, **Mason Proffit** disbanded and The Talbot

Brothers turned to Christian music, recording several albums for Myhrr and Sparrow.

In 1999, Swedish acid rock band Spacious Mind covered *Walk On Down The Road* on their *The Mind Of A Brother* CD.

Girls In The Garage, Vol. 4 includes a song called *Ringo, I Love You*, which was written by Phil Spector, Anders and Poncia and released on Spector's Annette subsidiary circa '64. According to the compilers, Sonny Bono worked for Phil Spector in the early 60's, and had Cher sing back-up on records whenever they needed an extra voice. Sonny really wanted to record Cher as a solo, but either Spector didn't like Cher, or didn't think she was talented enough for a solo disc. As a joke, Spector gave this song to Sonny for Cher to record, the joke being that Cher's voice was so low, people would think it was a guy singing about being in love with Ringo. So Sonny recorded Cher singing *I Love You Ringo* under the name **Bonnie Jo Mason**. It wasn't a hit, but it was the beginning of Cher's singing career.

1	Need You/Rainbow	(Columbia 4-43977)	1966

In December 1965, after a few years playing together on the folk-circuit, **Mastin and Brewer** arrived in L.A.. Here they stayed with producer Barry Friedman and New Christy Minstrel, Randy Sparks, recording a three-song demo, comprising originals *Need You*, *Sideswiped* and *Bound To Fall*. The latter track was later covered by Stephen Stills's Manassas.

In early 1966, they formed a group with ex-Skip Battin Group drummer Billy Mundi and Tim Buckley sideman Jim Fielder. Rehearsing in the same house as Buffalo Springfield, they joined The Byrds and Buffalo Springfield on a tour of Southern California and also played at L.A.'s Whisky A Go Go and Ash Grove clubs.

In mid-1966 they changed name to the Elesian Senate and began work on an album. Mastin however, left during the sessions and the band subsequently fragmented. Mundi joined The Lamp of Childhood for a few months and then The Mothers of Invention, Fielder too joined The Mothers at the suggestion of Mundi, whilst Mastin moved to San Francisco to work in bars and later committed suicide.

Left without a band, Mike Brewer brought in his brother Keith to overdub his voice over Mastin's on the duo's lone single. The two brothers then began work on new material; Mike's *Truly Right*, written about Mastin was covered by The Nitty Gritty Dirt Band and the brothers' collaboration, *Love, Love* and Mike's *Truly Right* were later rerecorded by Brewer and Shipley on their debut album.

In the summer, Mike took up a songwriting post at Good Sam Music which ultimately led to the formation of Brewer and Shipley.

1	MAXIMILLIAN	(ABC ABCS 696)	1969

From New York, produced and arranged by Teddy Vann, this is an album which gets a mixed response from collectors. Some like it, claiming that it's Hendrix inspired psyche soul rock here, on tracks like *Rat Race* or *Kickin' 9 to 5*, deserve to be heard. Others hate it, citing awful vocals and weak material.

Featuring a trio plus anonymous drums and occasional organ and violin, the album came housed in a gatefold sleeve with pictures of the trio being crucified on flower crosses and various religious symbols. The liner notes explained that "Golgotha music was one of the few surviving vestiges of truth. Its prophets of love and truth such as BB King, Bob Dylan, Donovan, Aretha Franklin, Arlo Guthrie and Joan Baez sang the psalms of time. The crucifixion of the social heroes of the day, Martin Luther King, John and Robert Kennedy, has made even bigger demands on the importance and value of music, thus creating new prophets of love and truth".

It is rare and therefore sought-after by some collectors, though others advise to avoid it at all costs.

The long liner notes, written by Paul Welsh, state that their name came from the Maypole erected by the people of Merrymount in New England in the 17th Century to break most of the Puritan laws, stating that "Maypole intends to combine the techniques of literature in lyrics and structure with the feeling generated by our music to communicate the "real" to an unlimited audience".

From Fairfield, California, this band were previously known as Stone Henge, who in turn had evolved out of The Donnybrookes. Their album was produced by Larry Goldberg and Leo (De Gar) Kulka who operated out of Golden State Studios in San Francisco. The album starts out with the melodramatic *Armageddon* which comprises most of side one, the rest is taken up with the more melodic and laid back *I'm So Sad*. The second side begins with the rather lightweight goodtime *Happiness*, but *Whispering Shadows* opens with some great discordant guitar work which gives away to some good group harmonies and *Kissy Face* also features some great vocals, *Dejected Soul*, with its sleepy vocals and fine fuzz guitar work, is among the album's finer moments. The final track, *As For Now*, seems to return to the more melodic, laid back style of *I'm So Sad*. An album well worth tracking down. The Sundazed CD bonus cuts include two unreleased efforts from 1967 as by Stone Henge.

ALBUM:

1	OMEGA MAN	(Paula LPS-2220)	1970

An interesting, but overlooked, album of psych blues with fuzz guitar on tracks like *Blues 99*, *Junkie For Your Love*, *Hard Attack*, *Mojo Woman* and the title track. The album also contains a couple of lighter soul/funk tunes, notaly a cover of Timmy Thomas' *Why Can't We Live Together*.

NB: There are also four rare French EPs with picture sleeves on Barclay, Atlantic and Bang, including *Dansez Le Monkiss with The McCoys and The Strangeloves* (Atlantic 850 010) 1966. Their French label tried to promote their records to dance "Le Monkiss", one of the forgotten sixties dances!

The McCoys formed in 1962 while the Zehringer brothers, Dennis Kelly and Ronnie Brandon were all at high school in Union City, Indiana. They took their name from the Ventures 1960 rock instrumental 'B' side, The McCoy.

However, in those early days they were also known as Rick and The Raiders and The Rick Z Combo. One 45, *You Know That I Love You* was released under the last name. Early in 1965 Kelly and Brandon left to go to college and were replaced by Hobbs and Peterson.

In June 1965 they signed to New York's Bang Records, after opening for The Strangeloves at a gig in Dayton, Ohio. The label's owner was Bert Berns' and for their first recording they took one of his own songs, *Hang On Sloopy*, to No. 1 in the US, where it became a million seller and No. 5 in the UK. They followed this with a revival of Peggy Lee's 1958 hit *Fever* which made No. 7 in the U.S. and No. 44 in the U.K.. Their debut album *Hang On Sloopy* also made No. 44 in the U.S. Album Charts. Further minor hit singles followed in the US, although they enjoyed no further chart success in the UK.

The McCoys were essentially an R&B outfit but they did experiment with psychedelia a little, hence their main relevance here. Their first attempt at this *Don't Worry Mother, Your Son's Heart Is Pure* was disappointing in terms of sales and the band returned briefly to their previous R&B style. In 1968 in search ot more recording freedom they signed to Mercury Records and produced *Infinite McCoys* which was really their psychedelic album and the prime reason for their inclusion in this book. Their 45 *Jesse Brady* briefly entered the U.S. Charts at No. 98 but their next LP, *Human Ball* failed to chart.

In 1969 they became a regular attraction at Steve Paul's Scene Club in New York, Steve Paul became their manager and linked them with albino guitarist Johnny Winter who he also managed. By now Bobby Peterson had left the group, Rick Zehringer had changed his surname to Derringer and produced the LP *Johnny Winter And ...* on which the remaining **McCoys** were the backing group. It made No. 154 in the U.S. and No. 29 in the U.K.. This was effectively **The McCoys**'s last venture.

Anyone interested in investigating their work might like to check out some of the compilations of their work: One Way have issued a CD titled *The Psychedelic Years* (30642). *Hang On Sloopy* is a 22-track CD (with rarities) on Rock Artifacts in 1995. There's also a 'Best Of' CD compilation of their material, *Hang On Sloopy: The Best Of The McCoys* (Columbia Legacy CK 480951 2) 1995.

Their compilation appearances to date have been:- *Don't Worry Mother* on *Mindrocker, Vol. 3*, *Fever* and *Sorrow* on *Roots Of S. O. B., Vol. 2* and *Hang On Sloopy* on the *Battle Of The Bands* (CD) and *Frat Rock! The Greatest Rock N Roll Party Tunes Of All Time*.

The **MC5** met in school, forming back in 1964 in Detroit and by 1966 they were local favourites. Just 500 copies were pressed for their first 45, a driving version of Them's *I Can Only Give You Everything* which was backed by a group original, *I Just Don't Know*. The following year they formed an association with John Sinclair, a Detroit dee-jay, who soon became their manager and agent and was very influential indeed in setting the agenda for the rest of their career. A second 45 was recorded in January 1968 and came out on A2 Records in a picture-collage sleeve. Like their first effort this is now extremely rare, although it was bootlegged by Skydog in 1977 with the 'A' side misspelt *Bordeline* and catalogue numbers on the sleeve and cover which didn't correspond. The original sold out quickly and they were signed by Elektra in mid-1968. The resultant album *Kick Out The Jams* was probably one of the most significant high energy rock albums of all time and was also notable for the band's revolutionary political stance, which had been tailored under Sinclair's influence. Tracks like Ramblin' Rose, *Come Together, I Want You* and *Borderline* represented the loudest, most powerful music of their day. Original U.S. pressings contained an uncensored version of *Kick Out The Jams* containing the line *Kick Out The Jams, motherfuckers!*, which was later amended to *Kick Out The Jams, brothers and sisters!* The title track was issued as a 45 in the U.S. and the U.K. and a follow-up *Ramblin' Rose/Borderline* was only released in the UK, where their album was better received. Outside Michigan much reaction in America was unfavourable. The situation worsened when Hudson's, an Ann Arbor store refused to stock the albums on the grounds it was obscene. In response the band took out an advert in the 'Ann Arbor Argus' which ran.. 'kick in the door if the store won't sell you the (MC5) album ... fuck Hudsons!' and included the Elektra logo on the bottom right hand corner. This resulted in the store withdrawing all the label's product and the band finding themselves without a contract with immediate effect. However, they were quickly snapped up by Atlantic. Meanwhile AMG had repackaged the group's first single but replaced *One Of The Guys* with *I Just Don't Know*.

Their first effort for Atlantic, *Back In The USA* was another classic, but its sound was cleaner, less frantic and more controlled than their work hitherto. With their manager jailed on a cannabis charge the group were now coaxed away from their left wing political stance with *The Human Beihg Lawnmower* being the only acknowledgement of this on the new album. The album was well received by the critics and contained a number of tine hard rock tracks Iike *Tutti-Frutti, Looking At You, Call Me An Animal, The American Ruse* and *Shakin' Street*. Its sales, though, were relatively disappointing. So the follow-up *High Time* was an attempted compromise between the wild compromising style of *Kick Out The Jams* and the more controlled sound of *Back ln The USA*. As such it failed, although some individual songs like *Poison* and *Over and Over* stood out. It did not sell well and the band planned to move to Europe. They embarked on a European tour and played some successful dates. They recorded a couple more tracks which appeared on a Soundtrack album called *Gold*, only released on Mother Records in the U.K. in 1972 (Mother MO 4001). The album is now very rare but mostly comprised of naff material. During and after the European tour the band disintegrated marking the end of an all-too-short career.

Wayne Kramer later formed a group with Mitch Ryder (of Detroit Wheels fame) called Kramer's Kreemers, which also used the **MC5** name. This ended when the band's guitarist was busted and imprisoned for five years. Later Kramer projects included Wayne Kramer's Gang War (1980) and Air Raid (1982). He also played on The Deviants live LP *Human Garbage* recorded at a one-off reunion gig in 1984. The album included some songs, including *Rambin' Rose*, that Kramer had written in his days with the **MC5**. Since then he has played with U.S. bands Das Damen and G.G. Allin.

After the **MC5** split, Thompson, Smith and Davis formed Ascension, which didn't make it on to vinyl. Later Thompson worked for New Order, Motor City Bad Boys and in 1981 he was involved with Ron Asheton (once guitarist with The Stooges) and three members of Radio Birdman in an outfit called New Race.

Fred Smith and Michael Davis were both involved in the Scott Morgan Group, which later became Sonic's Rendezvous Band, although by then Davis had left to join Destroy All Monsters. Fred 'Sonic' Smith sadly died of a heart attack on November 4th 1994, although Sonic's Rendezvous have subsequently had a posthumous CD entitled *Sweet Nothing* (Mack Aborn Rhythmic Arts) 199?. There is also a website devoted to Sonic's Rendezvous: http://www.sonicsrendezvous.com.

MC5 material continues to appear on the market. 1983 saw the release of a ROIR cassette *Babes In The Woods* which includes the five pre-Elektra tracks, the uncensored version of *Kick Out The Jams*, four tracks from *Back In The USA*, five from *High Time* and a previously unreleased cut. *Gold*, from the film soundtrack. This cassette was reissued on LP and CD in 1990 in France by Danceteria Records.

Compilation coverage so far includes: *Looking At You, I Can Only Give You Everything, One Of The Guys, Borderline* and *I Just Don't Know* on *Michigan Nuggets*. The uncensored version of *Kick Out The Jams* on *Michigan Rocks Vol. 1*. *Come Together, Starship* and *Ramblin' Rose* (both from their first LP), the 45 version of *Kick Out The Jams*, and *Motor City Is Burning* also appear on *Electrock The Sixties*. Finally, *I Just Don't Know* and *Looking At You* appears on *Turds On A Bum Ride, Vol's 1 & 2* (CD).

MC5 have certainly never been identified with psychedelia. Their revelance here is as part of the garage band phenomena in their early days and, of course, their recordings, especially the first LP, were enormously influential on the punk rock revival which started in Britain in the late seventies.

Barry McGuire was born on 15th October 1937 in Oklahoma and first came to attention as the gruff lead vocalist with the New Christy Minstrels, who enjoyed some success in the early 1960s. Before going solo he released an album with another ex-new Christy Minstrels member, Barry Kane, *Here And Now* (Horizon 1608) circa 1964/65 as Barry and Barry. The bassist on this is Jimmy Bond who played on Tim Buckley's *Goodbye And Hello* album.

He met Lou Adler and P.F. Sloan at the Byrds' opening gig at Giro's in LA and in Autumn 1965 he recorded P.F. Sloan's *Eve Of Destruction*, which is rightly remembered as one of the protest songs of all time, rising to No. 1 in the U.S. and No. 3 in the UK. Its lyrics were chillingly pertinent in the days of the Cold War. This arguably was his finest moment, although his albums are worth investigation, especially *Barry McGuire And The Doctor*. Thereafter he discovered Christianity and proceeded to record several religious albums mostly on the Myrrh label. **McGuire**

also appeared in the seventies film 'The President's Analyst', which included him singing lead vocals on Clear Light's *She's Ready To Be Free*, which was originally the flip to *Black Roses*.

Compilation coverage has included: *Eve Of Destruction* on *Nuggets, Vol. 10*; *Eve Of Destruction, Child Of Our Times* and *Let Me Be* on *Dunhill Folk Rock, Vol. 1*; and *This Precious Time* and a version of *California Dreamin'* with **McGuire** on lead vocals on *Penny Arcade: Dunhill Folk Rock, Vol. 2*.

NB: (1) 'A' side credited to The Scotty McKay Quintet, 'B' side credited to Scotty McKay's Bolero Band.

This Dallas-based artist's real name was Max Lipscomb and back in 1958 he had briefly been a member of Gene Vincent's Blue Caps. He released numerous 45s throughout the 1960s and also sang vocals on The Gator Shades Blues Band 45, a Kenny And The Kasuals-related venture.

His most relevant release to this archive was his storming rendition of *The Train Kept A Rollin'*. This *was* strongly rumoured to have featured Jimmy Page on lead guitar, although it was actually Exotics guitarist Blair Smith, who was responsible for the blistering fretwork. Nevertheless, the track has subsequently been heavily compiled including: *Mindrocker, Vol. 4*, *Acid Visions*, *Acid Visions - The Complete Collection Vol. 1* (3CD), and *James Patrick Page: Session Man Vol. 2*.

The compilers of *Acid Visions* also suggest that **Scotty McKay** came from Fort Worth rather than from Dallas.

Born on 1st October 1944 in Arlington, Virginia, **Scott McKenzie** first came to public attention as a member of The Journeymen, which also included John Phillips. When Phillips relocated to California to start The Mamas and Papas, **McKenzie** remained in New York where he recorded a few ballads for Capitol. Later in 1967 he did relocate to LA to join the booming folk-rock movement. Indeed John Phillips produced his tirst 45 for Epic. However, it is for the next 45, *San Francisco (Be Sure To Wear Some Flowers In Your Hair)*, which John Phillips wrote, that **McKenzie** is best remembered. Arguably *the* hippie anthem, it became an international hit in 1967 when it appeared on Lou Adler's new Ode Records and inspired thousands of youngsters to head for San Francisco.

McKenzie was very closely associated with the flower power philosophy and, save for one disappointing country-rock album in 1970 which also spawned a 45, did not record when the Summer Of Love ended. *San*

Francisco (Be Sure To Wear Some Flowers In Your Hair) can also be heard on *Nuggets, Vol. 10*.

In the late sixties he worked hard to make young people aware of the dangers of drug taking and he is also a member of the reformed Mamas and Papas.

This seminal Ohio outfit was formed by Kent State University students. The original lineup 'A' above recorded several songs, but only three have subsequently been released: One unfinished track was issued under the title of *Maybe* as the flip to the Ohio Express' hit 45 *Beg Borrow Or Steal* and the remaining two (*And It's True* and *I Think Of You*) were released on the Ohio Express LP on Cameo! When Larry and Bobby were drafted, the band broke up circa mid-67 so Bobby Sepulveda first learned about their release when he heard the Ohio Express LP playing in his army barracks!

Joe Walsh briefly played in a couple other local bands. Amazingly, **The Measles** were not the most popular band in Kent, with The Counterpoints and the Turnkeys getting bigger followings. Joe was a very short-lived member of the Turnkeys, before hitting the road to success with the James Gang. Joe Vitale was also with The Echos and Chylds before teaming up with Joe Walsh again. After many personnel changes **The Measles** became Lacewing but later reverted to **The Measles** again. Buddy Bennett is the only member who stayed with the band.

Originally from Sweden, these guys relocated to the USA and were pretty high on psychedelics when they recorded these two LPs. Leader Mecki Bodemark was a former art student, who had also worked with several pop groups and as a studio musician. The other musicians on the first album had their musical roots in jazz and this was reflected in the music which was mostly experimental, jazzy and with lots of experimental keyboards. The vocals are ineffective and much of the material on their first album is rather disjointed.

Their second effort was a slight improvement with the title cut undoubtedly its finest moment. Other tracks of some note were *The Life Cycle* and *Help Me Somebody*, but I can't recommend either of these albums with much enthusiasm.

Melanie Safka was the perfect symbol of the flower-child folksinger of the Woodstock period, with her firm faith in good vibes and her long hair/long dress/bright smile look. *Candles In The Rain* can be found on the Woodstock movie and records and she was also at the Isle Of Wight festival in 1970. Typical of the hippie values, her records sound terribly naive now.

1(A)	MELTON, LEVY AND THE DEY BROTHERS	(CBS KC 31279)	1972

Barry Melton was the excellent guitarist of Country Joe and The Fish. Produced by Mike Bloomfield and Norman Dayron, this album is totally self-indulgent and shows the worst aspects of the west coast sound: weak vocals, loose compositions and non focused directions. Avoid!

1	BRIGHT SUN IS SHINING	(Vanguard VSD-6551)	1970
2	THE FISH	(United Artists UAS 29908)	1975

NB: (2) is a U.K. release.

When Country Joe and The Fish disintegrated, their guitarist, **Barry Melton**, went solo. His first album *Bright Sun Is Shining* is not recommended, the songs being poor. **Melton** then signed with CBS and formed Melton, Levy and The Dey Brothers, which again is best avoided. His first really interesting album is *The Fish*, recorded in Wales with members of Help Yourself and Man. After that, **Melton** kept on recording on various labels and in the '80s formed the Dinosaurs with other Bay Veterans:- Spencer Dryden (Jefferson Airplane), John Cipollina (Quicksilver), Merl Saunders (Jerry Garcia jamming friend) and Peter Albin (Big Brother).

Barry Melton still lives and perform in San Francisco. A recent CD *The Saloon Years* illustrates his work in the local clubs. Quite surprisingly, he is also known as a lawyer.

Based in Denton, Texas they recorded a demo at the WFAA-TV studio in 1966 of the Love song *My Flash On You*. It's been included on *Sixties Rebellion Vol. 8* (CD), *Psychedelic Microdots Vol. 2* and *Texas Flashbacks Vol. 1: Dallas* and is a *Hey Joe* styled guitar thrash. They were rumoured to have recorded for the Bismarck label but no vinyl has been discovered as yet.

An unknown combo, probably from California, whose 45 on Mod is worthy of note. *Things To Come* kicks off chiming fuzz intro then goes into jangley '64/'65 Beau Brummels mode. Just when expectations are starting to shrink, comes a shout of 'hey' and glorious ravey fuzz break. Then back to the beat-pop again and a short snarling fuzz coda to end. Strange, a split personality - check it out on *Psychedelic Crown Jewels Vol. 2*.

What Ever is a sultry beat ballad and both are published by Wickwire, whose label issued 45s by San Bernadino's Emperors and Dave Myers and The Disciples. One further 45 featuring one side by the **Menn** and one by Sunday, may or may not be connected - *Happy Happy Birthday* / *You Cheated* (Sidewalk 922) 1967.

1. (B) MUSIC FROM MERKIN MANOR (Windi WLP 1005 AB) 1973 - [More Info]

NB: (1) pirated on vinyl (Merkin MERK 1001) 1994, and reissued officially on CD (Gear Fab GF-109) 1997, with three bonus tracks.

Only 200 copies of this album were pressed so it's now a rare collectable. There's some good guitar work on a few of the tracks, most notably *Walkin*, *Todaze*, *Watching Man* and *The Right One*, but much of material is light-weight. Worth a listen if you ever get the opportunity but don't fork out megabucks for a copy.

The band were formed in 1967 in the small town of Orem, Utah by Rocky Baum and Ralph Hemingway. By 1969, they'd recruited a full-line-up and began playing local gigs. In 1970, with new guitar, drums and the addition of keyboardist Richard Leavitt, they cut two demos, *Maybe Someday* and *Cry On My Shoulder* at a Brigham Young University. Both of these have now resurfaced on the Gear Fab CD, and are arguably better than the later album cuts.

The following year the band sent out a number of live tapes, in the hope of getting a deal, and sure-enough found themselves recording the album at an LA studio, although they were only given four days to complete the task! After a short tour of Colorado, the album was finally released in February 1973, but a dispute over the song-writing credits caused Rocky Baum to be ousted, and by 1974 the band had gone their separate ways.

Today Al & Ralph are steelworkers, Robert plays in a band called Head First, Rocky is a chief organic chemist and Rod a business development manager.

NB: (3) could be by another group. There could also be a third Glenn single.

Created by Merrell Fankhauser in 1964 after he arrived in Lancaster and the Antelope Valley area, **Merrell and The Exiles** are probably more interesting historically than for purely musical reasons. Born in Louisville, Kentucky on the 23rd of December, 1943, Fankhauser had previously lived on the California Coast, in Pismo Beach. There he began playing surf music, even winning the Arroyo Grande Battle of the Bands in March 1962 and being part of the Sentinals and the Impacts (one instrumental LP *Wipe-Out* (Del-Fi 1234) 1963).

In Lancaster Fankauser met Jeff Cotton, John French and Larry Willey and they became **Merrell and The Exiles**. Their first recordings took place in a small studio of Palmdale, California, at Glenn Recording Studios, which were owned and directed by Glenn MacArthur. All the songs were recorded live on 2 track tape. In April 1964, *Please Be Mine* was No. 9 in the local Palmdale station KUTY charts! In all, two or three singles were recorded for Glenn Records and pressed in very limited quantities.

More **Merrell and The Exiles** sessions took place in Hollywood in 1966 at the Gary Paxton Studio and in 1967 at the Gold Star Studio with a changing line-up. Some of their songs (*Too Many Heartbreaks*, *Suzy Cryin*) were in fact released on the Fapardokly album, another Fankhauser creation. The other songs however, had to wait until the '80s before they were released in various forms.

Bill Dodd also played with Fankhauser in Fapardokly and H.M.S. Bounty. John French and Jeff Cotton left to join Captain Beefheart's Magic Band, another group from the High Desert area, but in 1970 Cotton returned with Merrell to form MU (also with Larry Willey). Greg Hampton also later played with Denny King.

The retrospective, *Early Years* album consists largely of surf and garage rock tracks. Aside from the few 45 tracks, the majority were previously unreleased. *Don't Call On Me* is notable for featuring the first guitar solo ever recorded by then fledgling guitarist Jeff Cotton. *Yes I Love You*, another cut on this album was originally intended for inclusion on the legendary Fapardokly album but wasn't used in the end. This album is primarily of archival interest, however.

This Los Angeles soft rock outfit contained some very talented musicians. Rhodes had played drums for The Palace Guard, an early to mid-sixties LA outfit, when he was just fifteen, Larson joined from The Turtles and Rinehart from the Gene Clarke Group. All three went on to either solo careers or, in Larson's case, session work.

Their albums was clearly influenced by British beat outfits like The Beatles and The Zombies but it did not suffer from this. *Time Will Show The Wiser*, in particular, was one of the lost pop masterpieces of the sixties with its backwards guitar intro, brilliant harmonies and catchy melody. Most of the later 45s weren't on the album but many are included on the Rhino compilation which is the most accessible source to their music.

Emit Rhodes continued into the seventies as a solo artist issuing four LPs and several 45s. If your bag is finely crafted pop then look no further.

Time Will Show The Wiser was also a keystone of Fairport convention's early repetoire, and you'll find a great version of the track on their eponymous debut album.

Neil Merryweather was a bassist, singer, producer and songwriter. Born in Toronto, Canada, he first recorded a 45, *I Don't Love You/I Can Tell* (Quality 1738) in 1965 with the Canadian garage band Just Us. The following year Just Us changed names to The Tripp and were a popular local attraction, but **Merryweather** left in the Summer 1967 to join Bruce Cockburn's group The Flying Circus. He stayed with this band until around March '68 when he put together the first **Merryweather** band with Dave Burt, Coffi Hall and Edward Roth (ex Just Us and The Tripp). Between 1968 and 1975, he created, produced and masterminded a large number of projects, often released on his label Family Productions and including: Ivar Avenue Reunion, Mama Lion, Vacuum Cleaner and Heavy Cruiser.

The five albums released under his own name are bluesy in nature, with the first ones being the best, notably *Neil Merryweather And The Boers* and *Word Of Mouth*. The former featured fellow Canadians Robin Boers (ex-Ugly Ducklings and GNU), John Richardson (ex-Lords of London and Nucleus) and J J Velker (keyboards) from 49th Parallel. The latter included guests Steve Miller, Howard Roberts and Charlie Musselwhite. Overall, however, the songs are repetitious and lack variety. His albums will probably only interest blues rock collectors and whilst they are not that easy to find, they are not expensive either.

The *Space Rangers* LP was recorded in Los Angeles and Burbank Ca. **Merryweather** also produced and directed the release, which contains covers of *Eight Miles High* and *Sunshine Superman*. Both this and the follow-up,

Kryptonite sounded very similar, with the latter being slightly more bluesy and a little more funky.

Neil Merryweather kept on recording throughout the late '70s and '80s, notably with the hard rock singer Lita Ford. In 1979 he played in Holland with Phoney & Hardcore and, in 1980, he teamed up again with Michael Willis to found Eyes (who released one album on RCA).

This group was from Salem, Ohio. Their manager moved from Salem to Lawton, Oklahoma and got the group on an extended tour through Oklahoma and Texas. The two records, which are fine 45s in garage-beat style, were recorded in Robin Hood Brians' studio in Tyler, Texas.

In addition to the two records, lead guitarist Al Catlos played in an earlier band called The Renegades who recorded a good instrumental 45. The group also backed a Canton, Ohio singer named Glen Jester on a record (credited as Glen Jester and The Mersey Men).

Probably their best effort *I Can Tell* has also resurfaced on *Boulders, Vol. 11*.

2	More Wrong Than Right / Two Lips	(Montel-Michelle 981)	1966
3	The Train / Young Lovers	(Mon-Art MM-992)	1967

A Baton Rouge, Louisiana combo whose debut was in surf-hot-rod mode. Their cover of The Five Americans' *The Train* is in dramatic 'big ballad' style but retains a garagey aura with cheesy keyboards and a neat fuzz solo - you can also find it on *Basementsville! U.S.A.*.

(Max Waller)

The Mesmerizing Eye

ALBUM:

1. PSYCHEDELIA - A MUSICAL LIGHTSHOW (Smash MGS 27090) 1967

Another, obscure studio band whose only recording known to the author was the above mentioned album. A sorta low budget cash-in on 'psychedelia', more wacky than weird sometimes with effects like bagpipes (!?) cropping up. Some tracks stand out, notably *Requiem For Suzy Creamcheese* (a popular subject then), *Rain Of Terror* and *Dear Mom, Send Money*, which predates Pink Floyd's *Money* with the same cashdesks sounds. It makes The Unfolding's album sound brilliant!

All the tracks on the album were written and produced by Hank Levine and Larry Goldberg, making it almost certainly some relation to the other phantom group Fire Escape. The remaining members are unknown, but the band were from Hollywood. Levine and Goldberg also produced The Other Half and Neighb'rood Childr'n.

This crew formed in Winona, in South-Eastern Minnesota near the border with Wisconsin, in 1963. They took their name from a C.B. radio called the Viking Messenger. Predating The Ferraris by a few months they were actually Winona's first rock'n'roll band and were quite a spectacle at the time as they wore olive green woolien blazers on stage. Early in 1965 they signed to the Minneapolis-based Soma Records. Just 1,000 copies of their 45 were pressed so it's now quite hard to find, although *I've Seen You Around* got another airing on *Root "66", Vol. 1*. Greg Bambenek left the band in June 1965 to attend college to train to become a shrink and John Cader replaced him on guitar for the twilight days of the band. Greg Jeresek started another band called The Messengers in Milwaukee, Wisconsin. They released an upbeat cover version of Wilson Pickett's *In The Midnight Hour* on 45 and an album on Motown (becoming the first white act to record on the label). Roy Berger later played in New World Congregation and went on to manage another Winona band, The Ferraris.

1. Tomorrow's Dead/She's Gone Forever (ABC 10907) 1967
2. Old Town/Now She's Crying (ABC 10957) 1967

This bunch hailed from around Chicago and shared the same publishers (Pamco Music) and producer (Johnny Pate) as that of The Trolls (aka Troll). These are two fine 45s - the first is pleasant garage-beat but both sides of the 2nd are excellent mid-tempo punkers with some startling fuzz - it's a wonder that they remain uncompiled (efforts are in hand though). (MW).

Ernie LeBeau himself writes: Thanks for listing my band from the '60s. I am quite busy performing and recording with my current band **Ernie LeBeau & The Beach Blasters**, and have a few records out including one called *Everybody's Shaggin'* which is sort of instrumental in bringing back a R&B style of music called Beach Music which was popular in the East from the '40s - 70s. I'm also in the process of releasing a remake of Sinatra's *It Had To Be You*. Producer Johnny Pate was also producer for The Impressions during their heyday with B.B. King on guitar, and was last heard of living in the U.K. working with old R&B acts.

NB: (1) as **Michael and The Medallions**. (2) as **Al Michael and The Medallions** and features a different version of *I Want To Talk To You*. (3) as **Swinging Medallions featuring Al Michael**.

I Wanna Talk To You is cool jangley beat - the Bragg 45 version is on Leaving It All Behind, the Apollo take is on Eva's *Louisiana Punk Groups From The 60s Vol. 2*. Their compilers still disagree as to which is the better version.

Confusion reigns as to their origins too: - Eva's placement in Lousiana is probably due to this Apollo label being distributed by Dover Records out of New Orleans; some have connected them to (or confused them with) frat-kings The Swingin' Medallions, of *Double Shot* fame, who were from Greenwood (some say Greenville) South Carolina; another says they're a different outfit from Birmingham, Alabama.

Can anyone resolve this?

4. Run And Hide/She Was The Girl (USA 889) 1967 -
5. Gotta Take It Easy/I Need Her Here (USA 897) 1968

NB: (1) recorded by the Milwaukee The Messengers, the other 45s presumably recorded by the Boston bunch. The label for (3) misspells the 'B' side as 'Lifs' - presumably intended to be 'Lies'!

Originally from Milwaukee, and known simply as The Messengers, they cut *Midnight Hour/Hard Hard Year* at Chicago's U.S.A. Studios in 1967. Almost immediately afterwards they signed to Motown records, becoming the first white group to do so. However, with the U.S.A. 866 45 doing pretty well, the record company needed someone to promote it, so they signed **Michael and The Messengers** from Boston and re-recorded *Midnight Hour* with a different flip side. It's unknown which outfit recorded the later USA 45s, but presumably they were the Boston outfit.

Their inclusion on Lenny Kaye's *Nuggets* won them some acclaim retrospectively. Subsequently the flip side to that 45 has resurfaced on *Vile Vinyl, Vol. 2*.

His first album is an excellent example of Californian psyche pop with inventive keyboards parts. One track, *Love* was also covered by The Novells, whilst the guitar player is Hamilton Wesley Watt, later part of Euphoria.

Lee Michaels' later albums were commercially successful and more pop oriented. On his second, he was assisted by Drake Levin (ex-Paul Revere and The Raiders), John Barbata (Turtles, Jefferson Airplane). Frank Davis also played drums with Cold Blood and Loading Zone but is not the same guy as the Travel Agency leader.

1(A) SATURN RINGS (ABC ABCS-684) 1969

Produced by Mike Deasy, this album benefited from an heavy Curt Boettcher involvement, as he wrote five of the eleven songs (*Lament Of The Astro Cowboy*, *Musty Dusty*, *Misty Mirage*). Musically it's a West-Coast psych folk album, with dreamy vocals, strange lyrics (*Song To Magic Frog*) and interesting instrumental parts. In particular, there is some eastern trappings with tabla and electric violin on *Fallen Angel* and the 8.05 min. *Lament Of The Astro Cowboy*.

Three of the songs *Would You Like To Go* (B. Jameson), *Song To A Magic Frog* (M. O'Malley) and *Musty Dusty* (C. Boettcher & T. Almer) were also included on the Usher and Boettcher produced Sagittarius *Present Tense* album. Strangely enough *Would You Like To Go* was here credited to Boettcher and Gordon Alexander (of Association fame). The similarities don't stop here, however, with another track *Spin, Spin, Spin* being the same song as the Ballroom 45. *Believe You* (Boettcher) also deserves a listen for its dreamy psyche-vibed melody.

The album comes housed in a nice "astral" picture sleeve designed by Dean Torrence (ex Jan and Dean) of Kittyhawk Graphics.

Lowell George was previously in the Factory and the Mothers Of Invention, Elliott Ingber in the Mothers Of Invention, Captain Beefheart and Fraternity Of Man, Bobby Notkoff in the Rockets.

From Phoenix, Arizona, this band landed regular gigs in '66 at The Fifth Estate (in Tempe, near Arizona State University), run by Jim Musil Jr. who became their manager. They also got a slot at nearby JD's, run by Jim Musil Sr.. Primarily a Stones cover band they opened for many national acts who played The Fifth Estate including the Doors, Leaves, Association, Music Machine, Count Five, Them, and (Young) Rascals. In the summer they released their own 45 and got to play The Hullabaloo in L.A. after manager Jim arranged a weekend band swap (they played with the Yellow Payges, whilst The Palace Guard played at the Fifth Estate).

Late in '66 Fresener was replaced by Ed Black and the band's impetus was flagging. In December they started work on their first psychedelic effort, *Ferris Wheel*. Flute and strings were added in early '67 and Mike Condello was brought in by McFadden to help out on piano and vocals, but the rest of the band had faded away by then. 100 copies of a one-sided blank demo were pressed by Jim Musil.

It was the end of the **Mile Ends** but the beginning of Superfine Dandelion.

The R&B infused *Candy Man* has resurfaced on *Sixties Rebellion Vol. 14*. The Stones-like and immensely catchy *Bottle Up And Go* is on *Ear Piercing Punk, The Best Of Pebbles Vol. 2* and *The Essential Pebbles Collection Vol. 2*.

Both sides of the debut 45 plus the unreleased *I Can Never Say* (a Pretty Things cover) and *Bring 'Em On In* (a Them cover) are gathered together on the Sundazed EP. These also appear on Sundazed's Superfine Dandelion CD (Sundazed SC 11057, 2000) with two versions of *Ferris Wheel*.

Their records were commercially successful and they managed to release six albums in four years, although the management of the group was quite erratic. *Them Change* is reputedle their best effort. **Miles** often used talented musicians like Jim McCarty (ex Mitch Ryder, pre Cactus) or Duane Hitchings (pre Cactus).

Buddy Miles also played with Jimi Hendrix on *Band Of Gypsies* and with Carlos Santana on a live album in 1972. He spent part of the late '70s in jail and subsequently tried to make a come back several times.

Curt Boettcher was a prodigious talent (sadly he died in 1987 at age 43) whose studio wizardry produced sounds and arrangements way ahead of any at the time and **The Millennium** album was the culmination of this period. He'd started out with the folk group The Goldebriars (two albums on Epic in 1964) then formed a vocal duo, Summer's Children, before getting into production which included The Association's first LP *And Then Along Comes* and their million-selling *Along Comes Mary* 45. From then till **Millennium** he was involved in a plethora of groups and studio projects:- Ballroom (with Sandy Salisbury and Lee Mallory), Your Gang and Friar Tuck (both with Mike Deasy), culminating in Sagitarius (with Gary Usher) which put out a lot of unreleased Ballroom material. In the seventies Curt would issue a solo LP and form California but it's for his creative outburst in the mid-late sixties and those heavenly multi-layered vocal arrangements that he will be remembered.

Millennium then, were put together as a vehicle for Boettcher's ideas with the intention to weld Fennelly and Stec's rock background with the avant garde pop of Mallory and Salisbury. Boettcher was to 'Lead the way'... and there was a kind of evangelical fervour about it, best heard on their first single *It's You*. Goldenrod who are thought to have acted as a backing group to Lee Mallory, formed the basis of the remaining personnel, originally becoming involved as part of the "Our Productions" house band led by Mike Deasy.

Boettcher wrote almost half of the tracks on their pleasant pop/rock album, with Jerry Scheff from Goldenrod contributing *Dandelion* to their repertoire.

Boettcher wrote almost half of the tracks on their pleasant pop/rock album, Salisbury, Fennelly, and Mallory providing most of the remainder, with Jerry Scheff from Goldenrod contributing *Dandelion* (not on the album) to their repertoire. The album took a year to record and was only the second album ever done on 16-track (Simon and Garfunkel's *Bookends* being the first). Columbia Engineer Roy Halee had pioneered the technique by jerryrigging two eight-track recorders with a third machine feeding the two.

Stylistically, the album is in the mould of Sagittarius, with the standout cut being the astonishing *Karmic Dream Sequence #1*. A true voyage into the infinite and six of the most magical minutes that Sixties music has to offer. Group member Sandy Salisbury describes the song: "This piece still evokes everything I felt in those days, from

ecstacy to amazement to downright fear. Though I never used drugs, I always felt somehow out of touch when I heard this song - still do. The only explanation for that feeling is that *Karmic Dream Sequence* somehow tells me that Life is far, far deeper and more fascinating than my limited human mind can comprehend - it makes me want to explore, to experience, to feel, no matter how scary it gets".

When it looked like **Millennium** might become a full-time band, the Goldenrod members departed due to session commitments, and Edgar, Rhodes and Keith Olsen all previously with The Music Machine came into the frame.

The Music Machine personnel had early ties with Curt Boettcher as Edgar had been the Goldebriars drummer, Olsen an old friend of Boettcher had played with Gale Garnett and Jimmie Rodgers, and briefly with The Wayfarers, at whose club in Charleston the Goldebriars often played. Olsen also married Goldebriar' Sheri Holmberg, whilst Sean Bonniwell was the Goldebriars tour manager, and migrated to LA with them adopting their all-in-black, dyed black beatlecut look lock, stock, and barrel for The Music Machine.

Though **Millennium** never toured, 'The Lee Mallory Group', which consisted basically of Goldenrod, Mallory, Salisbury, Rhodes, Fennelly and Stec debuted much of the *Begin* material at the Pasadena Icehouse on a couple of occasions in late 1967, as a dry run for the projected live **Millennium** shows.

After being dropped by Columbia, **The Millennium** stayed together as a songwriting/production team, with Boettcher, Olsen, Salisbury, and Mallory joining the relaunched Sagittarius.

The protracted sessions for Sagittarius' *Blue Marble* in fact included sessions for a solo album by Salisbury and various other projects which were recorded back to back, including tracks for "Midnight Cowboy" written by **Millennium** members (primarily Stec and Salisbury) and Harry Nilsson, which were scrapped when their publisher fell out with the film producers (an album by 'The Groop' *Sing Songs From Midnight Cowboy* includes covers of the songs). Nilsson of course sang Fred Neils *Everybody's Talking* as the theme, because Neil ironically refused to speed the song up.

Another project concurrent with Sagittarius' *Blue Marble* was an attempt to launch another offshoot named, "Big Shot" fronted by Fennelly and including former Goldebriar guitarist Murray Planta. This petered out fairly quickly.. Stec took up an offer from old friends The Blues Magoos to join full time. He later worked as a writer with Steven Stills/CSNY, and made a solo album with Jimmy Miller. Fennelly started Crabby Appleton, signing to Elektra and enjoying some success. He also later made a solo LP, *Lane Changer*, which was produced by Rod Argent and Chris White. Salisbury was a jobbing arranger before becoming a best selling childrens author.

As an aside readers might note that Mike Deasy of Your Gang recorded the creepy live tapes of Charles Manson at Spahn Ranch which did the rounds in Hollywood and cut a couple of studio sessions too. Oddly, the **Millennium** guys were part of Frank Zappa's clique rather than the folkrock crowd.

A child music prodigy, **Steve Miller** was born in Milwaukee, Wisconsin, but raised in Texas. Coming from a musical family - his mother was a singer and his father a country fiddler - **Miller** was learning to play guitar at the age of five. At twelve he played with Boz Scaggs in a local band The Marksmen. His music hero at this time was T-Bone Walker and **Miller** developed a strong interest in black music. Whilst Scaggs and he were both attending Wisconsin University, they formed a soul and Motown group - The Ardells. **Miller** then headed for Chicago where be became involved in the white blues scene. There he played in bands which featured Junior Wells, Muddy Waters

and Buddy Guy. Eventually, he met up with Barry Goldberg (of The Electric Flag) and formed a group called World War Three which recorded a single, *The Mother Song*. They were beginning work on an album when **Miller** quit because of managerial troubles. He headed for Texas and also spent a while at Copenhagen University, but in 1966, like Joplin and so many others, he was attracted by the exciting music developments taking place in San Francisco. There with Tim Davis (drms), Lonnie Turner (bs) and Curley Cooke (rhythm gtr) he formed the first **Steve Miller Band**. This line-up contributed three tracks to the *Soundtrack of Revolution*, a cult film at that time. They developed the raw, driving sound which characterised the early 'acid' bands, yet the blues remained a strong influence in their music. This was particularly evident on one of the tracks, *Mercury Blues* (which reappears in more sophisticated form on the band's 1975 *Fly Like An Eagle* album), whilst the instrumental *Superbyrd* and *Your Old Lady* captured that driving guitar and organ sound.

The band made a successful appearance at the Monterey festival and were soon offered a recording contract by Capitol. By now, old pal Boz Scaggs had replaced Curly Cooke in the band and organist Jim Peterman was included in the new fivesome. Surprisingly, **Miller** decided to go to London to record their excellent debut album *Children of the Future*. This was produced by Glyn Johns, who had helped engineer The Beatles' *Sergeant Pepper* album. His influence is evident throughout the album, which entirely lacked the 'live' atmosphere of so many of the early 'Frisco acid rock LP's, but attained an unequalled standard of production at that time among San Francisco bands,

Of particular significance is the early use of psychedelic sound effects throughout Side One, with Peterman's fine organ work to the fore. The band had temporarily dropped its driving, bluesy rock in favour of a series of beautiful 'acid' ballad type numbers such as *In My First Mind* and *Children of the Future*. The use of sound effects are particularly prominent in the side's closing track *The Beauty of Time Is That It Is Showing*. The material on side two is similar to what they were playing before they left San Francisco, with each track merging into the following one. *Junior Saw It Happen* and two bluesy numbers - the fast *Fanny Mae* and the slow *Key To The Highway* - are the stronger tracks in this side. Over all, the album was extremely varied.

The group was busted while in London and returned to San Francisco to work on the follow-up, *Sailor*. This was more consistent that their earlier effort and, possibly, the group's finest album. Opening track *Song For Our Ancestors* was an instrumental which commenced with the sound of a ship's horn. *Dear Mary* featured **Miller**'s high-pitched vocals which came to characterise their more sensitive numbers. However, the album's most popular tracks proved to be dance number *Living in the USA*, a song, as its title suggests, about American life, and the self-descriptive *Gangster Of Love*. Its most melodic was the beautiful *Quicksilver Girl*, which opens Side two, while *Overdrive* was a Stones-like R&B number.

Boz Scaggs and Jim Peterman left the band in 1968 with Ben Sidran (keyb'ds) and Glyn Johns (gtr, perc, vcls) coming in for the third album, *Brave New World*. Johns also co-produced the album with **Steve Miller**. The title track featured the sound effects of both a rain and a sandstorm, but overall the album lacked the imagination and consistency of the band's two earlier efforts. Most of the songs were up-tempo boogies, but two notable exceptions were the beautifully laid-back number *Seasons* and *Space Cowboy*, later to become something of a classic.

The band's fourth album *Your Saving Grace*, was also released in 1969. Ben Sidran and Nicky Hopkins assisted with its production. This was the last album the band recorded in San Francisco. *Just A Passing Fancy In A Midnite Dream* and *Don't Let Nobody Turn You Around* were up-tempo country-influenced numbers. Another track, *Feel So Glad*, featured Nicky Hopkins dynamic keyboard-playing. But it is really the slower tracks that stand out on this album - the title song, and two other sensitive numbers *Baby's House* and *Motherless Children*. Although more consistent than their previous effort, this album did not attain the heights of the first two albums and Lonnie Turner left the band, being replaced by Bobby Winkelman (ex-Frumious Bandersnatch). Ben Sidran also quit to go into producing and Nicky Hopkins joined The Quicksilver Messenger Service.

Miller left San Francisco with this new line-up and *Number Five* was recorded in Nashville, Tennessee and released in July 1970. Various Nashville sessionmen assisted on this album. However, at the turn of the sixties the music scene was beginning to change and this album shows the band struggling to keep apace with developments. The

opening track *Good Morning* is noteworthy for its psychedelic intro and unusual ending - a variation on the *Christmas Carol God Rest You Merry Gentlemen*. Inevitably, others like *Going To The Country* and the excellent *Hot Chilli* echoed the influence of the Nashville music scene. The other stand-out number on the album was *Jackson-Kent Blues* featuring **Miller** on echoplex guitars and culminating in an interesting ending. Two other slower numbers are of note, **Steve Miller**'s *Midnight Tango* and closing track *Never Kill Another Man*. The remaining material was dispensable, though, and overall this album was on a par with the previous two.

Further personnel changes took place, with Winkelman and Davis leaving, the latter to start a solo career. Their replacements Ross Vallery (bs) and Jack King (drms), (both of whom had earlier been with Frumious Bandersnatch) recorded the disappointing *Rock Love*, but Vallery then departed with Dick Thompson (keyb'ds), Roger Allen Clark (drms) and Gerald Johnson (bs), playing on their 1972 release *Recall The Beginning* and Ben Sidran returning to help in its production. By the end of the 1972 the band was at its lowest ebb, with possibly its best work to come.

The title track of their next album *The Joker* would become a U.S. No.1 elevating the band to new heights of popularity. After a three year recording lay off they returned with the excellent *Fly Like An Eagle* (Capitol 11497) and the similar but equally successful *Book Of Dreams* (Capitol 11630) (1977). Later the band acquired considerable popularity in the discos with the title track in their 1982 album *Abracadabra* (Capitol 12216).

The Mind-Expanders

ALBUM:

1. WHAT'S HAPPENING (Dot 25773) 1967 R1

NB: Released in both mono (Dot 3773) and stereo. The mono versions are rarer.

A 'psychedelic' cash-in album recorded at Regent Sound Studios, New York City, by faceless musicians. Using such exotic instruments as "Panther Combo Organ (wot?), ondoline, chromatic tom-toms, Hohner melodica, Chinese bell tree, harpsichord, autoharp, kazoos, 'electric guitar with squawk box' (wow!)... and two ashtrays", it sez. What they achieve is sometimes akin to cinema organ intermission muzak or laughably 'groovy' soundtrack sounds.

An O.K. version of *Pictures At An Exhibition* and *"Downtown" Trip* (a 'psych' version of Petula Clark's hit with fuzz guitar and traffic noises!) are amusing - titles like *Sensory Overload, Pulsation, Love Syndrome* and *Euphoria* add to the mirth. For stoned pensioners. (Max Waller)

1. (B) Help I'm Lost/Still In Love With You Baby (Jox 058) 1967

An excellent, but sadly too short-lived, psychedelic outfit from San Antonio, Texas. Perron, Cabaza and Holzhaus had all played with the band when they were earlier known as The Argyles. Bill Ash of The Stoics was also with the band for about eight months in 1967, although Chris Holzhaus played on their 45. The 'A' side was a psychedelic gem with swirling guitar/organ/violin crescendos and melodramatic vocals. Check it out on *Acid Dreams, The Acid Dreams Testament (CD), Flashback, Vol. 3* or *Highs In The Mid-Sixties Vol. 12: Texas, Part Three*. Towards the end of '67 the band became The Children.

Steve Perron co-wrote ZZ Top's hit *Francine* before his death in the early 1970s.

From Morgantown, West Virgina. Although some of their material is psychy rock-pop, much is '69 class-of-brass too. The *Electric Liturgy* is reportedly along the same lines as the Electric Prunes' *Mass In F Minor* although **Mind Garage** were not aware of *Mass In F Minor* and had been performing their *Electric Litergy* in churches for several years, before they released the above album.

Larry McClurg: "My own contributions were original, and I assumed the others were also. **Mind Garage** collaborated on the *Electric Liturgy* at the suggestion of Reverend Michael Paine and his wife Tori. The idea was to bring the contemporary music into the church while attracting the young people who might not otherwise ever visit a church. We started as "garage" musicians and were not into ministry. In fact we were very much a part of the 'street'. As I remember, Reverend Paine explained the church seemed too far away from real life... "you shouldn't leave your humanity at the door" when you enter church."

"I believe we made a difference. At the time of our recording there was no Christian rock music industry. We played *Electric Liturgy* as a real Mass, live in churches in New York, D.C., even in the Princeton University Chapel, N.J., and in numerous other cities. Communion was given. Reverend Paine presided, and traveled with us, and convinced churches to allow us inside. There were also guest ministers.... As far as I know we were the only rock band doing that. It was unique. I have always felt we were the first. If there were any others we were not aware of them. If that is not true, we were certainly instrumental in the creation of Christian rock and roll, and hopefully examples to some of the Christian Rock musicians who followed. We were called Communists, devils, and many other names by our detractors, which included many people in the church, but we were also very much appreciated by a large following."

Their heaviest and finest moment, *Asphalt Mother*, has been re-aired on *A Lethal Dose Of Hard Psych*.

You'll also find it on *Mindrocker, Vol. 8*. Rust was a subsidiary of Laurie Records.

Minnie and The Kneebones

Me and My Miniskirt, which has resurfaced on *Girls In The Garage, Vol. 4*, was written by Bill Martin and Phil Coulter, who wrote hits for The Troggs and other English groups. It was released on a small L.A. label in July 1966. To further confuse matters, there's a French EP by Karen Young and the Kneecaps which includes the same two titles on the 45. A fairly well - known Karen Young was recording in England around this time, and although her other stuff sounds nothing like this, I suspect a connection.

It's a blues - influenced offering with occasionally good guitar work but it rarely ascends above mediocrity. During 1969 Kellogg and Stephens departed for Blue Cheer and Gregg Thomas later played with The Fabulous Rhinestones.

1	Good Things Must End/Disillusion	(TMM no. #)	Aug. 1968

A Houston outfit whose *Disillusion*, doesn't quite gell and lives up to its name. Some great fuzz but after a great intro of crashin' chords that promises a ravin' fuzz-rocker it immediately drops down a coupla gears to a midtempo pace with tweeting *96 Tears* keyboards. Reprises of the intro break in again but the clumsy time changes can't recover the initial impetus. Good but it coulda been great. The flip is a more accomplished minor-mood garage ballad. Both sides sound more they're from '66 rather than '68.

Compilation appearances have included *Disillusion* on *Texas Flashbacks, Vol. 6*.

This band started out in Newport, Oregon and were originally known as The Blazers. Bud Garrison persuaded Mike Parker about the merits of the name change in 1964. They decided on **Mr. Lucky** (a popular TV character at the time) because Mike being tall with dark hair looked like him. They performed locally and attracted the attention of local dee-jay Tom Mix and Hal Branson (who managed a local club called The Chase at that time). Chase and Branson decided to form their own record company to promote the act and the result was *New Orleans*, which became a local hit in Portland. In late 1965 Garrison and Parker changed **The Gamblers** line-up merging with a Portland group The Rogues for whom Graziano, Gunter and Maitland had all previously played. By now the band had perfected a harsh garage/punk sound and were one of the major dance circuit attractions in the Northwest (having relocated to Portland, Oregon). On New Years Day, 1966, they shared the bill with Don and The Goodtimes at Portland's Oriental Theatre and Don and the lads were so impressed they helped get **Mr. Lucky and The Gamblers** a record deal with Jerry Dennon's Panorama label. Two regional hits resulted:- *Take A Look At Me* (a really catchy punker, written and produced by Bob Holden and Dan Galluci (of Don and The Goodtimes)) and *Alice Designs (LSD Signs)*, which was produced by Bob Holden and written by Tandyn Almer of *Along Comes Mary* fame. *Alice Designs*, is Union Gap style commercial upbeat pop, whilst it's brass-pop flip was also written by Bob Holden.

Early in 1967 Mike Parker left the band and Greg Perry joined on keyboards. Jim Dunlap (formerly of Gentleman Jim and The Horsemen) came in on vocals. However, in July 1967 the band split. Dunlop, Graziano, Maitiand and Perry all went on to form a new band, The Sound Vendor. Mike Parker joined a local blues band, Carl Wilson joined Merrillee Rush and the Turnabouts and Jeff Hawks became a member of Don and The Goodtimes. In the late eighties Norm Smith became the State Representative from Tigard, Oregon and Greg Perry later played for Johnny and The Distractions.

The superb *Take A Look At Me* has resurfaced on *Boulders, Vol. 3* and *Highs In The Mid-Sixties, Vol. 7*. *I Told You Once Before* (written by group member Alan Gunter) can be found on *Battle of The Bands, Vol. 1* and *History of Northwest Rock, Vol. 4*.

This garage rock quartet operated out of Wichita in Southern Kansas. Their sole vinyl offering is highly-rated and you can also find *She Took The Rain...* on *The Midwest vs. Canada, Vol. 2* and on Tom Tourville's *Midwest Garage Band Series: Kansas* CD.

The Moanin' Glories formed out of another Wichita act, The Candelles. Formed in 1965 by Ritchie Kunkle and Andy Gore, The Candelles underwent several personel changes and after Karl Berkebile and Marc Mourning joined in 1966, they changed names to **The Moanin' Glories**. Andy Gore:- "We actively toured throughout the Midwest U.S.A. and were later based in the Boston, Mass. area around 1970. We even toured Japan in late 1970 but then disbanded in early 1971".

After the group split, Kunkle and Mourning formed Crank and were active for several more years. Kunkle was on the verge of a career rebound in 1994 in Nashville when he sadly passed away. Mourning is active today in Christian Music, whilst Berkebile has a solo act in Dallas, Texas. Andy Gore is in business in Wichita, and has written a book about his experiences with the band during those heady days.

NB: (1, 2, 3, 4, 5) All have the same picture sleeve with different titles. (10) by Bob Mosley with both tracks taken from his solo album. *Gypsy Wedding* did however appear as a German 45 credited to **Moby Grape**: *Gipsy Wedding*/*Apocalypse* (PS) (Reprise REP 14114) 1971.

One of San Francisco's best loved bands, **Moby Grape** were formed in Marin County and soon attracted a large Bay Area following. Miller and Stevenson had previously played with Marsh Gas, an earlier Marin County outfit, and Lewis and Mosley with Joel Scott Hill and The Strangers. Newkirk had also played with Lewis in Peter and the Wolves. Lewis had also played in a surf band called The Cornells. Skip Spence, of course, had been the original drummer with Jefferson Airplane, but left the band because he wanted to play guitar. The band were soon offered a recording contract by Columbia and their classic first LP was issued in 1967. The album also contained a full colour poster of the band. However, the record company disasterously launched them in an unprecedented blaze of publicity and released the album's ten tracks as A or B sides of five singles simultaneously. There were some fine tracks on the album. Hard rockers like *Hey Grandma* and *Omaha* (complete with psychedelic intro) appear alongside laid back tracks like *Someday, 8:05* and *Sitting By The Window*. The group featured three lead guitarists and all sang. The end result was a structured album with diverse vocal harmonies and some fine interweaving acid guitar work. Sadly they were overexposed and both their album and singles sales were bitterly disappointing.

The next album *Wow* contained a number of short compositions with melodic guitar work, and the opening tracks on each side, *The Place and the Time* and *He*, both contained orchestral arrangements which was uncommon among San Franciscan bands at that time (although in England groups like The Beatles and The Moody Blues were using them regularly). *Three-Four* was a sensitive, beautiful song:-

'Cause I love you all
Even though my heart is far away
It's here I'll stay
Until my life is through
When I'm dead and gone

And my life has passed beyond your view
There inside of you
My life goes on and on...'
(from *Three-Four*)

Rose Coloured Eyes and *Bitter Wind* are equally memorable,whilst *Can't Be So Bad*, a faster rockier number, demonstrated their musical diversity. One track, featuring Lou Waxman and his orchestra and starring Arthur Godfrey on banjo and ukelele has to be played at 78 rpm! In The USA only, a free bonus album *Grape Jam* was issued with *Wow*, and this featured Mike Bloomfield and Al Kooper on keyboards. Commercially, *Wow* made little impact - the group could not recover from their earlier over-exposure. Towards the end of 1968 they split - but by 1969 they had reformed again as a foursome without Skip Spence. They released the competent *Moby Grape '69* and did a series of live gigs, but generated little interest outside of California. So 1970 saw them split for the second time and Mosley left for good to join the Marines. Later that year, the remaining three reformed, adding Bob Moore (bs) to produce *Truly Fine Citizen*. Inevitably they split again, later reforming as a five-piece band to produce an awful LP *20 Granite Creek*.

Mosley and Spence have also issued solo albums *Bob Mosley* (Warner Brothers MS 2068) 1972, *Wine And Roses* (Nightshift) 1987 and *Bob Mosley And Mosley Grape, Live At Indigo Ranch*, (SFS-04880) 1989 and Spence *Oar* (Columbia CS 9831) 1969. The latter was not released outside the USA, except for Holland (CBS S 63919) and originals are now rare collectors' items - you can however pick up the album on CD (Sony WK 75031) which includes five bonus tracks. Peter Lewis also issued a good solo album in 1995 *Peter Lewis* (Taxim TX-2008-2), with Stu Cook (Creedence), John McFee, Cornelius Bumpus and Keith Knudsen (all ex Doobie Brothers). Finally Jerry Miller has issued *Life Is Like That* (Messaround Records MRSCD004) 1995, a bluesy album with John Oxendine and Tiran Porter plus Merl Saunders and Michael Carabello.

Ultimately **Moby Grape** never attained their true potential on record, but their first two albums are recommended as offering a glimpse of their real ability. There are also a number of 'Best of'compilations around, including the excellent *Vintage - The Very Best Of* (Sony 53041) 1993, a double CD compilation of album tracks, live recordings and alternate takes. There's also an interesting bootleg CD, *Dark Magic*, with live cuts. Although the Peter and The Wolves tracks it contains are not by the pre-**Moby Grape** outfit, but another band with the same name.

Skip Spence sadly died on April 16th 1999.

Matthew Katz's *Then And Now Vol. 1* compilation CD includes *Om-Aha*, *Mr. Blues* and a 1983 recording *A Hard Road To Follow*. *Vol. 2* of the same series also includes *Hey Grandma*, a 1983 recording *Silver Wheels* and a 1988 recording *Lonsome Highway*.

2. Open Up Your Mind/? (The Mod 4 6833) 1968

The Mod VI

45:

1. What Can I Do/Show Me How You're Lovin's Gonna Be (Emerald 127) 196?

Unknown band from South Carolina. *What Can I Do* features some blistering fuzz guitar and an unusual 'circus' ending. On the flip, the fuzz is knocked down a notch, but there's a promising lead near the end.

Both sides have also resurfaced on *Sixties Rebellion, Vol. 4*.

45:

1	You Got Me Hummin'/Always By My Side	(Kay Mar # unknown)	196?

NB: (1) as Joy.

One of the better albums on the Justice label. Although they stray into cabaret/lounge territory with their choice of material (*It's Not Unusual, Walk On By, Goin' Out Of My Head*) and the soulful (*Love Is A Beautiful Thing, Ninety-Nine And A Half*), strong raucous vocals and an aggressive vitality shine through.

Their glorious swingin' fuzz-punker *Gonna Love You Every Day*, a faithfull version of *Gloria*, and savage assaults

on *Come On Up* and the Beau Brummels' *Just A Little*, are worth the price of admission alone. Apparently members went on to become Joy, with the 45 listed above.

(Max Waller)

Modds

45:

1. Leave My House/All The Time In The World (American National 3041) 196?

A true garage recording! *Leave My House* (which can also be heard on *Pebbles, Vol. 11*) is a really crude recording. This guy is really struggling to play some simple guitar riffs overloading his amp whilst someone bangs idly on a tambourine in the background. Rumoured to have been based in Memphis, Tennessee though one suspects that they probably just recorded there.

The Models

45:

1. Bend Me Shape Me/In A World Of Pretty Faces (MGM 13775) 1966

This all girl band seem to have recorded the original version of *Bend Me, Shape Me*, pre-dating The American Breed by about four months. Notable for some pretty psychedelic guitar effects, you'll also find it on *Girls In The Garage, Vol. 1* and *The Open Lid* (45). The band comprised some leggy Vogue models (hence the name) and may have had some connection with The Vogues who recorded two 45s a little later on the same label:- *Brighter Days/Lovers Of The World Unite* (MGM 13813) and *Lovers Of The World Unite/Brighter Days* (MGM 13831).

2	Night Time Girl/?	(Dunhill 4025)	1966

3 Don't You Wonder/? (Dunhill 4137) 1968

NB: there are other singles on Warner.

A seminal folk rock group from Los Angeles. Faryar had been in the Whiskeyhill Singers and Yester had been in the Inn Group. Both quit their respective bands and formed the **Modern Folk Quartet** with Hatelid (or Hatledid) and Diltz. *Night Time Girl* was produced by Jack Nitzsche and written by Al Kooper and Irwin Lewine. A pop raga with oriental instruments, it is quite interesting. Another 45, *Don't You Wonder* was composed by Hatelid and Bill Martin.

When the group broke up, Douglas Hatelid, who was then known as Chip Douglas, joined The Turtles and Gene Clark for a short spell, before becoming a producer (Monkees, Turtles etc.). He also played with Fred Neil. Henry Diltz became a photographer and Eddie Hoh a session drummer (Barry Goldberg, Lee Michaels, Kim Fowley etc.). Jerry Yester joined the Lovin' Spoonful, replacing Zal Yanowsky. He also cut two solo singles and two albums with his wife, Judy Henske, before becoming a renowned producer and engineer (notably for Tim Buckley and Tom Waits). Cyrus Faryar became a session musician, notably with Fred Neil and Stone Poneys, and was also the voice of the Cosmic Sounds. In 1972 he cut a solo album on Elektra before moving to Hawaii where he produced local acts.

Night Time Girl and *Don't You Wonder* had been compiled on *Penny Arcade, Dunhill Folk Rock, Vol. 2*.

1. Lost Again/Till The End Of The Day (Welhaven Recording Co.) 1965

Formed in 1964 in the Plainview area of Minnesota. They were originally known as The Impalas and their musical repertoire initially consisted of Beatles, Rolling Stones and Kinks covers. They recorded a Sue Petit/Steve Kath composition, *Lost Again* along with a cover of The Kinks', *'Till The End Of The Day* to which they added a frantic garage style climax, in the summer of 1965, but it didn't get beyond the acetate stage. In the fall of 1965, Bill White left to go to Mankato State University and Tom McNeil came in as a replacement. Dave Franzen, a talented lead guitar player was drafted in too. The group finally fell apart when Sue Petit left to become female vocalist with a R & B group, The Happy Go Luckies. Later still she joined a Miami, Florida band called The Faculty.

This outfit from Allenhurst, New Jersey were a popular attraction on the teen-club circuit of Monmouth County, New Jersey. Their cover version of The Stones' *Satisfaction*, which you could check out on *Back From The Grave, Vol. 2* has some surfish-styled guitar, the flip side was more in the Beach Boys genre. Their first 45 was more punkish, and you'll also find *Ritual* on *Hang It Out To Dry*.

3. Another Day/Round Randy (Tork 1095) 1966

Hailing from Eugene, Oregon, this outfit were originally known as The Centurians but they changed their name to The Moguls in December 1964. Their manager was convinced that after 'surf' music 'ski' music would be the next big thing. So he hired two go-go dancers in ski-bunny outfits and clad the group in ski pants, turtlenecks and ski boots. Their first 45 was a double-sided instrumental with snow sound effects. It won a local Battle Of The Bands competition and they got to record their next 45 free and it was produced by a member of Don and The Goodtimes. You'll also find *Ski Bum* on *Back From The Grave, Vol. 7*. It's quite a pounder. Also on the same compilation was *Another Day*. This came out on the Tork label named after the Tork Club where they were regulars. This was a faster number with lots of mouth harp - probably their finest moment. They later became known as Music Prism but only lasted for about a year under that moniker. Round Randy is also to be found, on *Ho-Dad Hootenanny*. (Max Waller/Darryl F. Riffero)

14	Everyday Love/There Goes My Mind	(GRT 10)	1969

NB: (11) as The Mojo. (12), (13) & (14) as Mojo. There's also a rare French EP with picture sleeve: *Off The Hook/Mama's Little Baby/Dance With Me/Loneliest Boy In Town* (Vogue INT 18050) 1966.

Although this band was based in San Francisco some members originated from Florida. Sly Stone had left the band (to form Sly and The Family Stone) by the time the band signed to Reprise and achieved some success with Steve Still's *Sit Down I Think I Love You*. Their diminuitive female vocalist Jan Errico had earlier achieved much popularity on the West Coast as drummer and lead vocalist for The Vejtables.

In late 1967 the band became known as **Mojo** because Jan Errico got tired of being known as a Mojo Man. They also changed labels to GRT so that they could record an album. Released in 1968 it was produced by Dave

Hassinger. It contained their second single *New York City*, which sumered from sounding too much like The Mamas and Papas, and overall contained a number of mildly psychedelic, post-Seargant Pepper pop rock songs. The band finally split in 1969 when they realised their era had ended.

There remains a lot of unissued material from both eras of **The Mojo Men**. From their time with Autumn fifteen tracks remained unissued although some of these later appeared on Eva's *Dance With Me* compilation and the superior Sundazed retrospective *Why Ain't Supposed To Be*. A further nineteen tracks were recorded but not released during their spell with Reprise. These include the long and experimental *What King Of Man*, which was reputed to be a letter-day venture into psychedelia by the band.

Compilation coverage has so far included: *Sit Down I Think I Love You* on *Nuggets* and *Nuggets, Vol. 5*; *Off The Hook* on *Sound Of The Sixties: San Francisco: Part 1*; *Dance With Me* on Eva's *Sound Of The Sixties*, *Sixties Archives, Vol. 1* and *We Have Come For Your Children*; *Dance With Me* and *She's My Baby* on *Nuggets, Vol. 7*. All three of their Autumn singles also figure on the *Autumn Single Box*. More recently much of their material has featured on Big Beat's *Nuggets From The Golden State* series:- the *Dance With Me* CD contains that track plus a demo and six unreleased cuts from 1965; *Someone To Love* features four 1966 cuts - *She's My Baby*, *Fire In My Heart* and the unreleased *Why Can't You Stay* and *Girl Won't You Go*.

The cover of the original pressing for this album is curious; it features a painting of a maid holding an apple pie, with a slice removed to reveal a vagina inside the apple pie. The second pressing is censured with the vagina being replaced by a barbed wire wall!

4	Everybody Thinks I'm Lonely/Now That I'm Here	(Variety Films 601)	1966?

Orange County in California was home to this teen-beat quartet whose ages ranged from 11 to 16. They started life as The Masters and were later known as The Laurels before they finally settled on **The Monacles** as their name. *I Can't Win*, a typical teen punk number written by Jim Newby, can also be heard on *Back From The Grave, Vol. 3*. Both sides of their first 45 also appear on *Sixties Rebellion Vol. 6* (CD) and *Everybody Thinks I'm Lonely* is on *The Bad Vibrations*.

NB: (1) as **Junior and His Mondos**. (2) 'B' side also seen as **The Way Of The Mondo** - confirmation anyone, please. (3) as **Florian Monday and His Mondos**. (4) as **Monday's Mondos**.

This was an early sixties, circa 1961, garage rock'n'roll outfit, from Woonsockett, Rhode Island, who, as you can see, recorded under at least three different names. On the Monday's Mondos 45 they sounded very much like The Kingsmen. Three of their songs have featured on compilations:- *Mondo* on *Garage Punk Unknowns, Vol. 6*; *Rip It Up* on *Hipsville, 29 B.C, Vol. 2* and their version of The Animals *I'm Crying* can be heard on *New England Teen Scene, Vol. 2*.

1. It's All Too Much/I Gotta Get Back To You (A&M 1107) 1969

It's All Too Much is heavy pop with a 'White Album' - period - Beatles feel, and a withering guitar break - unexpectedly good for this label. The flip reverts to laid - back folk - pop, more the A&M norm. (Max Waller)

Borderline inclusion because, although they hailed from Winnipeg, Canada, most of their material was recorded in Minneapolis. Produced by Randy Bachman (of Guess Who, Brave Belt and Bachman Turner Overdrive fame) they are mainly in the rock - pop mould with one above average outing *Good Good Man* which can be found on *A Heavy Dose Of Lyte Psych*, although in that quality pack it sounds pretty ordinary. NB: (5) also released in France with a picture sleeve (RCA 49952). There are also four French EPs with picture sleeves on RCA.

In 1966 Bob Rafelson (writer, director and producer) teamed up with Bert Schneider to produce for Screen Gems a new TV comedy series about the life of a mythical pop group using the Beatles' film *A Hard Days Night* as its framework. An ad was placed in LA's Daily Variety for 'four insane boys' between the ages of 17-21 and 437 hopefuls were auditioned. The chosen four were Davy Jones, a British child TV star who'd been born in Manchester on 30 December 1945 and had released a solo album and 45 in the US; Michael Nesmith, who'd been born in Houston, Texas on 30 December 1942, he was a member of LA's folk circuit and using the name Michael Blessing had released 45s on the Colpix label; Mickey Dolenz, who'd been born in LA on 8 March 1946 and was a child star of the American TV show 'Circus Boy'and Peter Tork, born in Washington D.C. on 13 February 1945, and also involved in the LA folk circuit as a member of the Au Go Go Singers. Among those rejected were Stephen Stills (allegedly because of bad teeth) and future Three Dog Night leader, Danny Hutton. Charles Manson too is often said to have been rejected, but he is also said to have been in jail at the time.

Once recruited the acting and grooming lessons began and the groups' development was very carefully managed. They were told what to sing, how to sing, weren't allowed to play their own instruments on recording sessions and the head of Screen-Gems Music, Don Kirshner, who was responsible for the musical supervision of the series, signed seasoned songwriters like Gerry Goffin, Carole King, Neil Diamond and Neil Sedaka to write their songs.

Over the next two to three years **The Monkees** were extremely successful in commercial terms - almost a match for The Beatles. Their debut 45 hit the No. 1 spot in the USA and later in 1967 made No. 23 in the UK. Their first album went gold in the USA where it topped the charts for 13 weeks. Their next 45 *I'm A Believer* also hit No. 1 in the USA and the U.K. and *Monkeemania* was now equalling Beatlemania. Their next LP *More Of The Monkees* also topped the U.S. charts for 18 months and later reached the zenith of the U.K. Charts too. Despite all this success and with the band gaining confidence as musicians following a successful U.S. tour **The Monkees** insisted that they should be permitted to play on their own records and write more of their own songs and eventually they won the day on this with Don Krishner resigning as Chief Executive of Screen Gems Music. He went on to manufacture another TV pop group, The Archies, who existed only in cartoon form. After **The Monkees**' next 45 *A Little Bit Me, A Little Bit You* had made No. 2 in the US, they played their instruments on their next LP **Headquarters** assisted by just three outsiders. It topped the U.S. Album Charts for just one week before being displaced by The Beatles' *Seargant Pepper*. It reached No. 2 in the U.K. where it was kept from the top by *Seargant Pepper*. They continued to enjoy further 45 chart success with *Alternate Title* (No. 2 in the UK), *Daydream Believer* (No. 3 in the U.S. and No. 1 1 in the UK), *Words* (the B side to *Daydream Believer* (No. 1 1 in the US) and *Valleri* (No. 3 in the U.S. and No. 12 in the UK).

The Monkees continued to press for more artistic freedom and on their next LP *The Birds, The Bees and The Monkees* each group member contributed individual tracks. This didn't seem to undermine the project's commercial success because it still made No. 3 in the U.S. Album Charts-and they were now enthusiastically working on a feature film *Head*. This was directed by Bob Rafelson assisted by Jack Nicolson for Columbia Pictures. Whilst all

this was going on there were signs of a downturn in their popularity. In June 1968 their TV series, which had run successfully since its inception was scrapped, and the following month their revival of The Coasters' D. W Washburn made only No. 19 in the U.S. Charts and No. 17 in the UK. The follow up *Porpoise Song* peaked at just 62 in the U.S. and didn't chart in the U.K. at all. *Head* was the most relevant of their projects in terms of this book but in box office terms it was a disaster. Far from the standard teen film they had expected Columbia found themselves presented with an imaginative, bizarre and disjointed mixture including scenes of the band committing suicide by jumping from a bridge and a concert intercut with Vietnam war atrocities. The album only managed No. 45 in the LP charts, despite its relatively disappointing commercial showing the album was by far the group's most creative and interesting venture. After this the band began to slowly disintegrate. Peter Tork bought out his contract at considerable cost ($160,000 to be precise) in December 1968 and later in March 1970 Mike Nesmith, having stayed on to fulfil his contractual obligations, left to start his own group, The First National Band. Whilst in 1969 the group had continued to enjoy some chart success as a trio, the *Changes* LP recorded by Dolenz and Jones (after the departure of the other two) in 1970 chalked up very disappointing sales. By June that year Dolenz and Jones had also decided to call it a day. There was a reformation in 1975 involving Jones and Dolenz (Tork and Nesmith weren't interested) who revived the band with Tommy Boyce and Bobby Hart, who'd written many of their early songs. They began a two year tour "The Golden Great Hits Of The Monkees Show - The Guys Who Wrote 'Em And The Guys Who Sang 'Em", signed a new deal with Capitol who issued an LP *Dolenz, Jones, Boyce And Hart*, whilst the compilation *The Monkees Greatest Hits* made No. 58 in the U.S. Charts. Since then there have been various (often successful) attempts to revive the band, most notably in 1986 when to celebrate the group's 20th anniversary MTV in the U.S. showed a 22.5 hour film 'Pleasant Valley Sunday' of every **Monkees** TV programme. This prompted Dolenz, Jones and Tork to reform the group in February of that year for a Summer tour and during a **Monkees** convention in August that year at Philadelphia they enjoyed no fewer than seven LPs in the U.S. Top 200 Album Charts.

The *Head* project did receive more acclaim in retrospect. In March 1977, in response to cult demand, the U.K. National Film Theatre imported a copy of the film and it ran for a season in London's Electric Cinema.

A reunion of the four original Monkees occurred during 1996. An album was recorded and released, followed by a tour.

You'll also find *Porpoise Song* on *Nuggets, Vol. 9* and *Pleasant Valley Sunday* and *Valleri* both appear on the *Nuggets*, (CD).

A U.S. band stranded in Europe. They consisted of five serving soldiers in the U.S. army in Frankfurt who formed a band and hit the German beer club halls. Far from singing twee songs about love and cars **The Monks** used a riffing style and lyrics concerned with war, death and hate. This highly unusual image got them lots of bookings, a tour with The Easybeats and, after they'd quit the army in early 1966, a record deal with Polydor. They got to appear on German pop TV shows like "Beat Club" to promote their records but they didn't sell, probably because the public didn't know how to react to a punkish band ahead of their time. Their album now commands a small fortune on the collectors' market but the various CD reissues are now a cheaper way to get to hear it.

A live track *Monks Chant* has also subsequently resurfaced on *Hide & Seek Again*, and *Complication* also appears on *Turds On A Bum Ride, Vol's 1 & 2* (CD).

Eddie Shaw has also published a book entitled 'Black Monk Time' and the band also have a website: http://www.the-monks.com. With continued interest in **The Monks**, the band have recently reformed for a couple of appearances at the New York 'Cavestomp' festival (5-7th November 1999), performing alongside luminaries such as The Chocolate Watchband and The Standells.

1. Psychedelic (That's Where It's At)/Boogie Man (Denco 926) 1966
2. The Spider And The Fly/The Other Side of Happiness (Chicory 407) 1966

This band operated out of Greeley, Colorado whose Chicory label apparently issued a number of mutated psychedelic punk singles circa 1966-67. Their *Spider And The Fly*, featured on *Mayhem And Psychosis, Vol. 1*, *Pebbles, Vol. 3* and the *Pebbles Box Set* is a re-creation of someone's nightmare. Falsetto shrieks of *Help Me, Help Me*, are superimposed upon a booming bass and mysterious organ, and echo effects. The end result is a most unusual single. Prior to this they'd recorded an earlier 45. The 'A' side *Psychedelic (That's Where It's At)* has some effective percussion and guitar backing which gives way to an instrumental freak-out. You'll also find it on *Highs In The*

Mid-Sixties, Vol. 18: Colorado.

The band actually formed in 1964 and Kevin Mcllhenny had actually died in early 1966 before they started recording. Their repertoire consisted of the popular hits of the day as well as their own, more demented originals and they used to drive around Boulder in a hearse!

In 1967 the band changed name to The Higher Elevation, backing Dave Diamond on his amazing "bubbly-fudge" *Diamond Mine* (a reworking of the instrumental track to their *Spider And The Fly*) before releasing three 45s on Liberty.

1. I Shall Call Her Mary/An Audience With Miss Pricilia Gray (Laurie 3438) 1968
2. Wake Up Jimmy/Tinsel and Ivy (Laurie 3453) 1968

Michael Brown, who had previously played with New York-based Left Banke, wrote nine of the ten tracks on the above album, by this New York band, arranged them and played all the keyboards. The album characterised by melodic vocal harmonies and either stringed or keyboard accompaniment had considerable commercial potential and it's surprising that **Montage** did not enjoy greater success. The album included a ghostly version of *Desiree*, which had earlier been an unsuccessful single for The Left Banke, and *I Shall Call Her Mary*, an absolute gem was also released as a 45. A second, equally strong 45, *Wake Up Jimmy* was also released. Later, after Brown had signed for Kama Sutra, he played on and wrote both cuts on Steve Martin's only solo single (he'd played with Marin in Left Banke), *Two By Two/Love Songs In The Night*. This was released on Buddah (219) in 1971. The two tracks later reappeared, along with three cuts from the **Montage** album and a few other items on the Soundtrack to *Hot Parts*, which starred Ultra Violet, famed for her movie work with Andy Warhol. Brown later formed Stories, which he left after their second album.

I Shall Call Her Mary has resurfaced on *Nuggets, Vol. 11* and you'll also find *Tinsel and Ivy* on *Illusions From The Cracking Void*.

Hailing from Miami in Florida this youthful five piece began life as The Impalas before changing name to the **Montells**. Between 1965 and 1968 they were arguably the premier garage outfit to play in Florida and South Georgia, at venues like the Surf Club in Daytona Beach, headlining over acts like the pre-Allman Brothers, Almond Joys. Unashamedly influenced by The Pretty Things and The Kinks, their drummer Jeff Allen regularly travelled to London to see the Pretty Things play and hung out with Viv Prince. Changing name again to H.M. Subjects they went on to record a good cover of The Pretties' *Don't Bring Me Down* which was a local hit, although they reverted back to The **Montells** moniker again later.

You Can't Make Me, which is one of the finest, primal R'n'B blasts, you could ever wish for, has also appeared on *Back From The Grave, Vol. 3*.

Jeff Allen later went on to play with Evil, and a compilation featuring both bands has just been released on Cordouroy. It features the 45 sides, both versions of *Don't Bring Me Down* (as by H.M.Subject) plus two tracks from May 1965, *Can't Explain* and *Watch Out For That Guy*.

A late '60s pop-rock supergroup from Los Angeles. David Marks had been with the Beach Boys; Matthew Moore was with Matthew Moore Plus Four and did solo work before joining the Mad Dogs; David Jackson came from Hearts and Flowers and was later with Dillard and Clark; Larry Brown had drummed with Davie Allen and The Arrows (and no doubt on many other combos behind film soundtracks and those Sidewalk/Tower releases produced by Mike Curb) and would later turn up in Gunhill Road.

Their albums are rated highly by some - not really psychedelic but with psychy touches and imagery, and more pop than rock - their sound has been compared to the Beatles and the Bee Gees from that period. Certainly well-crafted, dare one say, progressive-pop. Almost all material written by the band (predominantly Moore), the second album was produced and arranged by Moore and Brown. Worth investigating if this sounds appealing, especially as the LPs can still be found fairly easily and at reasonable prices.

1. Baby As Time Goes By / You're No Good (Bofuz BF-1115) 1966
2. Keep On Pushing / Devil's Season (Round 69) 1968/9

Formed in Summer '65 in New Orleans after the arrival of the Spencer brothers from Key West, Florida. The first 45 is a moody midtempo punker with strong raw vocals and screams from Genovese but a rather wimpy guitar break, where some biting fuzz would have been more suitable - hear it on *Highs In The Mid Sixties Vol.13*. *You're No Good* is a great Kinks-inspired punker with strong drumming, good yearning vocal style and a short frantic break - ideal for one of those 'desperate garage punker' compilations.

The band split up in 1967 but a year or so later got together again to record the TOTALLY AWESOME *Keep On Pushing*. Kicking off with some evil distortion, Genovese's vocals are in superb form for this aggressive testosterone-fuelled punker with vicious outbursts of distorted fuzz, driving beat, a psychotic break, and the climax-of-rage that has Genovese shouting incoherently. In my 'umble opinion this is an all-time top acid-punk classic and certainly No.1 on the shivers-down-the-spine and hairs-standing-on-the-neck scale, even beating out the Calico Wall's *Living Sickness* - yeah, it's THAT incredible! Check it out on Louisiana Punk From The Sixties Vol. 2, Sixties Archives Vol. 3 and *Straight From The Garage EP Vol. 3* and play it as loud as possible for full effect. *You're No Good* is also on *Let's Dig 'Em Up Vol. 2*.

From Denver, Colorado, this outfit started out as a fine punk band releasing four 45s for Tower. Amongst these are the frantic garage-punker *You'll Come Back*, plus excellent covers of *I'm All Right* and *Baby, Please Don't Go*. The flip to their fourth 45 was also a cover of The Guilloteens' folk-rocker.

The Moonrakers evolved out of surf act The Surfin' Classics, when vocalist/guitarist Doug Dolph was replaced by Denny Flannigan. As The Surfin' Classics, they'd performed a lot of Beach Boys/Ventures material, but their name change came about when they got matched in a Battle of The Bands with Colorado's Astronauts and needed a more 'with-it' name. Bob MacVittie thus renamed themselves after the book he was reading at the time, Ian Fleming's

novel "Moonraker".

The band obtained their deal with Tower through their manager Roger Christian, a well-known L.A. disc jockey. Christian (who co-wrote *Little Deuce Coupe* and *Don't Worry Baby* with Brian Wilson), had 'connections'... **The Moonrakers** thus got to open for many major groups in Denver, including The Dave Clark Five, the Righteous Brothers and Sonny and Cher. The even got to meet The Beatles and Bill Haley and The Comets when they played for 50,000 screaming fans at Red Rocks Amphitheatre, in the Foothills of the Rocky Mountains.

The band also helped promote a Denver concert with The Byrds around the time of *Mr. Tambourine Man* in the Ballroom at Lakeside Gardens Amusement Park, home of one of the greatest old-time rollercoasters in the world. Veeder Van Dorn:- "The Byrds parked their tour bus at the Moonraker's bass player's parents house for a few hours while they prepared for the Concert, but when they all arrived at the Amusement Park, Joel's hair was dyed orange and he was mumbling 'the colors are flowing.... can you see them... can you see them?' about all the rainbow colors flowing around the Concert Hall!"

With the onset of the psychedelic era came a dramatic charge of style in **The Moonrakers** music which is apparent on their album. Full of psychedelia with religious overtones, the cover shows the group below an altar and there is some good psychedelic guitar work plus great lyrics on *The Pot Starts To Boil*.

Veeder Van Dorn, also claims to be the first person to play an electric banjo in a rock band:- "I purchased a steel-rimmed Ode banjo at the Denver Folklore Center from the owner Harry Tufts, and installed a simple magnetic pickup under the wooden bridge. It was used on the Moonrakers' Tower release *Time And A Place*, which was selected by the radio stations in Colorado Springs, sixty miles south of Denver, as the A side instead of *Trip And Fall*, and went to No. 1 there".

During the recording of the album, Webber (ex-The Soul Survivors) and MacVittie left being replaced by Randy Walrath and Bob Sauner. Van Dorn also quit to join The Poor, where he got to know Bruce Palmer at a gig with Buffalo Springfield at Hollywood's 'Whiskey A-Go-Go'. Shortly afterwards, Van Dorn, MacVittie, Corbetta and Webber formed Sugarloaf, although Van Dorn left after a few months (he wrote one song *Things Gonna Change Some* on their debut album *Spaceship Earth*). He then formed Mescalero Space Kit with Sam Fuller and Kip Gilbert (both ex-Rainy Daze), and Mark Kincaid (ex-Electric Prunes). Van Dorn:- "Kip Gilbert's brother Tim, who'd had a songwriting hit with *Incense And Peppermints*, arranged a demo session with Saul Zantz at Fantasy Records in Berkeley. At the time Fantasy was having a huge success with Creedance Clearwater Revival. One of the original songs we recorded *Earth Ain't A Jail* was soon translated into *I'm Just A Singer In A Rock And Roll Band* by the Moody Blues...".

Joel Brandes later went on to manage Eric Burdon and War.

Compilation appearances have included:- *I'm Alright* on *Everywhere Interferences*; *You'll Come Back* on *Pebbles, Vol. 10*; and *Baby Please Don't Go* on *Psychotic Moose And The Soulsearchers, Mayhem And Psychosis, Vol. 3* (LP); *I Don't Believe, I'm All Right* and *Baby Please Don't Go* on *Highs In The Mid-Sixties, Vol. 18:- Colorado*.

Matthew Moore (Plus Four)

45s:

1. I've Been Lonely Before/I Know You Girl (GNP Crescendo GNP 343) 1965
2. Codyne (She's Real)/You've Never Loved Before (White Whale 223) 1965
3. Face In The Crowd/St. James Infirmary (Capitol 5668) 1966
4. White Silk Glove/Come On (Capital 5720) 1967

NB: (1) & (2) as **Matthew Moore Plus Four**. (3) & (4) Matthew Moore solo.

Excellent outfit featuring **Matthew Moore** prior to his formation of Moon. The GNP 45 kicks off with a vibrant beat - punker with strong vocals and wailing harp, whilst the flip is a brooding menacing affair. An accomplished first outing... and it gets better. Their version of *Codyne* is quite frankly, difficult to top - hear it on *Mindrocker 5* - with forceful vocals and powerful backing in a beat - punk setting. The flip is back to cool folk - beat but the standard remains very high. If this outfit has more unreleased material, it certainly merits a re-appraisal and retrospective collection.

45:

1. I Think I'll Just Go And Find Me A Flower/Yesterday Holds On (Capitol 2115) 1968

Infectious flower-pop produced by David Axelrod (Electric Prunes producer, Pride, solo concept albums). The flip is more in the Axelrod - Prunes 'Mass' mould - monastic chanting, muffled lines of twisting psychy guitar, oblique lyrics (albeit not in Latin) - unusual and strangely atmospheric. This was a rock quintet from Stillwater in Minnesota. You can also check out the 'A' side on *Root "66", Vol. 1* or *The Best Of Metrobeat*. It's completely unconnected to the Martha and The Vandellas song. In fact it was the only song the band had ready to record, so the record company put an instrumental version of it on the flip side. It was the first release on the Peak label. An unreleased stereo version has more recently appeared on the CD compilation, *Orange Sugar & Chocolate, Vol. 1*.

A previous 45 was released as by The Togas - *Hurry To Me/Baby, I'm In The Mood For You* (Challenge 59309) in August 1965 but is unfortunately inferior beat-folk-pop.

Compilation appearances have included:- *There She Goes* on *Mindrocker, Vol. 1*; *Would You Believe (Love Is Dead)* on *Boulders, Vol. 11* and *Psychedelic Archives, Vol. 7*; *Babe I'm In The Mood For You* on *Every Groovy Day*.

1	Who Can I Say You Are/You Came To Me	(Starshine 7201)	197?
2	After Me Again/A Feeling For You	(Starshine 7202)	1972

The highlight of this Youngstown, Ohio band's otherwise over-rated album is the seventeen-minute title track which is full of acid guitar work and incorporates the group's own arrangement of *When Johnny Comes Marching Home*. A free poster came with the album which has had a very limited reissue in the States in 1986.

Curiously, on the label of the first single it says both of these songs are "from the L.P. *The Last Supper*". This was a working title for the album.

Original drummer Paul Cassidy was replaced by Bob LaNave, and a new side was recorded containing the 17 min. *The Only Truth*.

Compilation coverage, appears to have been limted to *The Only Truth* on *Reverberation IV* (CD).

2. (B) STRUCK LIKE SILVER (Fantasy 9402) 1972

45:

1. Tell Me A Story/Easy Keeper (Vault 972) 1972

A fine Los Angeles-based group, originally known as The Morning and The Evening. The group was formed after Jay Lewis, also known as Jay Donnellan, had been fired from Love by Arthur Lee. Jim Hobson also appeared on Love's *Out Here*. When the band signed a recording contract with Vault they retained complete control of the writing, engineering, arranging and producing of their first album, which is an underrated folk-influenced gem. It has a crisp, yet often sleepy sound, which is at its best on *And I'm Gone* and *Sleepy Eyes*. The album closes with a ninety second country gem *Dirt Roads* (the only track writetn by Jim Kehn) which is worthy of comparison with the title track of Quicksilver's *Happy Trails*.

The line-up then changed, Bruce Wallace being replaced by the former Kaleidoscope member Stuart Brotman and Terry Johnson only playing on one track. Vault was bought by Fantasy and the follow-up *Struck Like Silver* continues in similar vein, though the drug-influenced sleepiness has made way for a more acoustic sound epitomised in *Only To Say Goodnight* and *Now I Lay Me Down*. *Understand My Ways* on Side two particularly highlights Jay Lewis' harmonious vocals and Jim Hobson's melodic piano work, whilst *Comin' In Love* features Chris Darrow (another ex-Kaleidoscope) on fiddle. *Jay's Movie Song* is a beautiful instrumental while *Now I Lay Me Down* and Hoyt Axton's *Never Been To Spain* merge more sensitive guitar work with artistic piano playing.

When the group broke up, Jim Hobson and Jay Lewis became session musicians and worked with Delaney Bramlett, Country Joe, Danny O'Keefe and Rabindra Danks.

After they split Grandmont formed The Bourbons with other Vandels but would team up with Enos again, when the latter formed the **Morning After** whilst at Dean Junior College in Franklin. *Things You Do*, a punk-pop gem, can be heard on *Psychotic Moose & The Soulsearchers* and *The New England Teen Scene Vol. 3*. More recently it has reappeared on the *New England Teen Scene* CD, whose detailed story of this band provided the member details above, alongside an unreleased version. The flip, by the way, is a ballad.

2. No More/Look At Me Now (Fairyland 1001) 1967
3. Go Away/Be A Friend (Fairyland 1003) 1967

This outfit came from Topeka, Kansas. Their Roulette album is well worth obtaining particularly for the superb opening cut *Crusader's Smile* although many of the other cuts like *Cherry Street* feature good guitar work. Their 45s were made prior to the album and are much more punkish. *Go Away* has a good catchy guitar riff.

They had a good live reputation and performed great cover versions of many of the punk classics of the era, which were full of fuzz and feedback.

Compilation coverage has so far included: *Sing Out* on *Psychedelic Crown Jewels Vol. 1* (CD); *No More* on *Monsters of The Midwest, Vol. 1* and *Pebbles, Vol. 14*; and *Go Away* on *Monsters Of The Mid-west II*. The standard of the material is inconsistent to say the least making a positive recommendation difficult but one cut *Jelly Gas Flame* is a superb piece of acid rock with layered vocals, sound effects and catchy guitar - a pity it isn't all this good. *I See The Light* and *Hey Little Girl* also catch the ear. Side Two wins out over Side One which is more in a hard rock vein. The album was produced by Abe "Voco" Kesh.

After the album's completion however Curt Boetcher wanted to go back to the Northwest to sing with the band which delighted Mike and Mardi but not Bob and Chuck who wanted to get back on their old gig circuit and preserve their autonomy. So they split and Mike and Mardi left and ultimately headed back to LA to pursue writing and recording careers.

Mother Earth originated in Texas, (Andrews, Rains and Arthur had earlier played with Wigs), but were one of a number of bands who were attracted by the San Franciscan music scene and it was there they made their home. They first came to attention nationally in the film *Revolution*, which featured them singing two tracks *Without Love* and *Stranger ln My Own Home Town* as well as the title number.

With their roots in the blues, Tracy Nelson's harsh voice was **Mother Earth**'s prime strength. **Powell St. John** too was a talented songwriter and friend of Janis Joplin. He also wrote some songs for The Thirteenth Floor Elevators and both his *Monkey Island* and *Living With The Animals (Down In Jungle Land)*, share common themes - the later commenting on the Texan thickheaded rednecks who would regularly chase the local artsy types and pound their heads for their drunken amusement.

The band ended their career in Nashville and their later albums were very much in a country vein.

Naftalin, who had joined from The Butterfield Blues Band went on to play with Electric Flag. Fiero played with the Sir Douglas Quintet. McMahon later played for Commander Cody.

A track from their first LP *Sorry Heidi Neldi, The Telephone Company's Cut Us Off* was also featured on the *Blues Package* compilation.

In those crazed early days of Beatlemania when anything that wasn't English didn't seem to matter, **The Motions** still held sway as a top band in the Cleveland area. They had the local scene sewn up in '64, playing Beatles rallies to thousands of screaming teens, and going on to open for every top act of the day. *Land Beyond The Moon*, their third of four releases, was a torrid chunk of reverb insanity and has resurfaced on *Hipsville 29 B.C., Vol. 1*. Formed in 1969 by Felix Pappalardi after the demise of Cream (he was their producer) and Leslie West (ex Vagrants), **Mountain** was one of the first successful hard rock acts, in the same style, not surprisingly, as Cream.

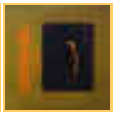
Although their apparent leader was the huge Leslie West, Pappalardi was in fact the bands musical director, producer and main songwriter. A respected musician, he began working in the mid-60s on the New York folk scene and played with Fred Neil, Tom Rush, Richard Farina and Richie Havens. He was also a producer and worked with The Youngbloods, Apple Pie Motherhood Band, Bo Grumpus, Hot Tuna, Devil's Anvil and Canada's Kensington Market.

One of their first appearances was the Woodstock Festival and two songs: *Blood Of The Sun* and Jack Bruce/Pete Brown's *Theme For an Imaginary Western* appeared on the *Woodstock* compilations.

Their first album *Climbing* was "made to be played loud" and sold well, *Mississippi Queen* also being released as a 45. It's probably their most interesting effort, the songs being well structured and penned by West, Laing, Pappalardi and his wife Gail Collins.

Mountain toured constantly and four more albums were released in two years, still in the same vein: loud guitar, bass a la Jack Bruce, plus heavy percussion and keyboards, with occasional "lighter" cuts. The vocals were shared between Pappalardi and West.



The group first broke up in 1972. West and Corky Laing attempted to revive Cream with Jack Bruce forming West, Bruce and Laing for three albums. In 1974, **Mountain** reformed without Steve Knight for two best avoided efforts. Leslie West then went solo and released two uninspired albums for Phantom in 1975: *Leslie West Band* and *The Great Fatsby*, the later with Mick Jagger.

Corky Laing later released *Makin' It On The Street* (Elektra 7E-1097) 1977 with Clapton and played with various Canadian hard rock groups. Pappalardi recorded two solo records in 1976 (*Pappalardi And Creation*) and 1979 (*Don't Worry Mum*). He was stabbed to death in 1980 by his second wife.

From time to time, **Mountain** have reformed and issued new albums (the last one in 1998).

1(A) SUNDANCE (Good Records G 101) 1971

NB. (1) has had a limited pirate repress and has been bootlegged on CD by Eva. The Gear Fab official reissue (GF-115), includes five bonus tracks.

This Chicago-based outfit were sued by Mountain for stealing the name. In actual fact they had the name first but never really recovered from the law suit which required them to state on their album cover that they were in no way connected with Mountain. If you like The Grateful Dead you should like this album because it's very similar in style. The title cut, in particular, includes some beautiful ringing guitar work but almost all the tracks are good and the album, which is now rare, is recommended listening.

Ed Mooney recalls that "Our plan, when we recorded, was to have a seamless transition between the last three songs - *I Know You Rider* - *Apache Canyon* - *Hexahedron*. That idea never made it on to the LP but we often did this for live shows, with the three songs often ending up being 45 minutes to an hour long, depending on the quality & quantity of substances we ingested!" Incidentally, the new Gear Fab CD features these final three tracks, run together as originally intended.

I Know You Rider has also resurfaced on *Reverberation IV* (CD).

A Jacksonville, Florida group who rose from the ashes of The Deep Six (aka Florida Deep Six) and The Boys. Their first two 45s were issued as Mouse and The Boys and Brass, with the brass portion provided by Moore and Crumpler. Their finest moment is the acid-punker *Xcedrin Headache #69*, which can be enjoyed once more on Psychedelic States: Florida Vol. 1 (CD). It's actually a rip-off of Ellie Greenwich's *I Want You To Be My Baby* but they add Vanilla Fudge harmonies, Creamy riffs, wah-wah and phasing. It works well - indeed it hit the #1 spot in Jacksonville in October 1968.

Maurice "Mouse" Samples later released two solo 45s as "M.O.U.S.E.".

This band played in Tyler, Texas between 1965-69. Their founder Ronnie Weiss and Dave Stanley and Jeff Howell had all previously played together in an outfit called Jerry Vee and The Catalinas. Weiss had also done studio work for Robin Hood Brians studio. Lead guitarist Bugs Henderson joined from an instrumental combo called The Sensors and played on some of The Cast of Thousand's 45s. Their first 45, a Dylan soundalike, actually made the Billboard charts climbing to No. 121. The follow-up was as good, if not better, but poorly marketed and failed to repeat their early chart success. A later 45 *Sometimes You Just Can't Win* (Fraternity 1005) did spend one week at No 125 and was also a regional hit in Tyler and Louisville, Kentucky.

The band also recorded a couple of 45s under pseudonyms:- *I've Got Her Love/As Far As The Sea* (Fraternity 983) 1967 was issued as Chris St. John and in the same year they issued *Psychotic Reaction/l3 O'Clock Theme For Psychotics* (HBR 500) 1967 with the singer Jimmy Rabbit as Positively Thirteenth O'Clock. Their two Bell 45s were produced by Dale Hawkins and the band were included on two of his 45s and his LP, *L.A., Memphis and Tyler, Texas* (Bell 6036).

The Eva compilation includes all of their 45s except *Satisfy/Good Times* and is also available on CD, but even better is the legitimate *Fraternity Years* CD (Big Beat CDWIKD 171) 1997, which includes 25 tracks, including 7 unreleased cuts and detailed analysis from Alec Palao and Robin Hood Brians.

A Public Execution can also be found on *Nuggets* 1972; *Maid Of Sugar, Maid Of Spice* on *Glimpses, Vol. 1* and *The Acid Dreams Testament* CD; both sides of the *I Satisfy* 45 can be heard on *Texas Punk From The Sixties* and *I Satisfy* was also included on *Psychedelic Unknowns, Vol. 4*.

The band split late in 1969. There was a very brief reformation in 1972 (line-up D) and Weiss, Stanley and Murray then went on to play together in another Texan band, Rio Grande.

Buddy 'Bugs' Henderson now has a pretty fair reputation in Texas as a "legendary blues guitarist." He currently records for a Colorado indie named Flat Canyon Records.

2. Hello L.A. (Bye Bye Birmingham)/Hey You, Hey Me (123 1705) 1968

A solid and bouncy version of *Birmingham* in a Paul Revere style (shame about the horns) with a meaner flip - raucous vocals, wicked guitar and NO horns - a definite improvement. *Hello L.A....* returns to bounce and brass but the rampant fuzz - rock flip rules again and is the pick of these tracks. The band hailed from New Port Richey, Florida and were known previously as The Intruders. (Max Waller)

NB: (5) released as by **The Morfomen**.

A five-piece pop outfit with a punky edge from Espanola, New Mexico. After the first two 45s the line-up underwent constant changes, apparently breaking up and reforming at frequent intervals - the end finally came officially in 1969 although Dave Rarick did record several songs in 1971 (featured on the Colectables CD) with a new band using the same name. Three original members - Rarick, Gavurnik and Valdez - are back together performing in the '90s as the Flashbacks, and contribute the final five tracks, and the title, to the retrospectve CD.

Run Girl Run, written by Dave Ranick, is compiled on *Pebbles Vol. 8*, *New Mexico Punk From The Sixties* and *Sixties Archive, Vol. 4*. *We Tried, Try It* - made famous by The Standells - can be found on *Diana's Rootin' Tootin' Wild Teenage Rock'n'Roll Party* and *Garage Music For Psych Heads, Vol. 1*. *What's Happened To Me?*, one of the

unreleased 1971 tracks with backwards guitar effects and lyrics about a bad trip, has also resurfaced on the *Psychedelic Crown Jewels Vol. 1* (CD). Both sides of the Goldust 45 appear on Collectables' *The Goldust Records Story* CD.

EP:

1. 99th Floor/What Are You Going To Do?/Need Me/Every Night A New Suprise (Moxie Mutt 1030) 1980

Hailing from Houston this was one of Texas' premier psychedelic bands. Their first 45 topped the Texan chart for five weeks and was selected for national distribution by Wand. It was not a national hit and nor were any of their subsequent efforts but all are now sought-after collectors' items. The album was also full of excellent psychedelic rockcuts like *Flashback, Scoun da Be, You Make Me Shake* and *Pluto-Sept 31st*. With Gibbons' Hendrix-like guitar work and freaky lyrics some of these are very trippy indeed. Others like *Eclipse* and *Reclipse* on the end of Side 2 were very experimental. The album remains rare although there were pirate repressings a few years back. The Eva compilation included all the album, the Moxie EP and their cover of The Beatles' *I Want To Hold Your Hand*. It does have a disadvantage though of poor sound quality.

The band lasted until 1970 when Moore and later Summers were drafted. Lanier Greig came in from Neal Ford and The Fanatics to fill the keyboard slot but by the end of 1970 the three remaining members had become the first ZZ Top line-up - Gibbons and Mitchell having enrolled at the University of Texas to avoid the draft. Gibbons' earlier bands had been Billy and The Ten Blue Flames, The Saints and The Coachmen.

Naturally the band has featured prominently on compilations, including:- *99th Floor, What Are You Going To Do?, Need Me* and *Every Night A New Suprise* on *Mindrocker, Vol. 4*; *99th Floor* on *Pebbles, Vol. 2* and *21 KILT Goldens, Vol. 2*; *Need Me* and *Every Night A New Suprise* on *Journey To Tyme, Vol. 1*; *I Want To Hold Your Hand* on *Endless Journey, Phase 1*, *Texas Flashbacks, Vol. 5* and *30 Seconds Before The Calico Wall*; *Need Me* on *We Have Come For Your Children* and *Crimson Witch* on *Reverberation IV* (CD).

2. You'd Better Move On/In The Deep Blue Sea (SSS International 733) 196?

A Chicago garage band. *Three For Love* was a cover of a Shadow of Knight's 'B' side. I can't confirm for sure that the second 45 is by the same band, it was produced by Huey P. Meaux so Texas is a more likely location.

Out of Pacudah, Kentucky, their fuzz-garage peak *I'm Gonna Stay* is a highlight of *Highs In The Mid Sixties Vol. 8: The South*. *Please Don't Go* gets aired on *Diggin' For Gold Vol. 7*. The *I Feel Happy* 45 is fine garage-beat backed by a charming but soppy garage-ballad.

5	Too Naked For Demetrius/On Our Way To Hana	(Mu 103/4)	1973

NB: (1) and (2) were solo Fankhauser singles before **Mu**.

Fankhauser formed this band after the demise of Fapardokly. Cotton and Willey had earlier played with Fankhauser in The Exiles.

Mu initially lived on a half acre estate in Canoga Park, California and were heavily into meditation and vegetarianism. Their debut album, recorded on a small Beverly Hills label, was both inventive and imaginative.

After Willey's departure the remaining trio moved to the island of Maui in Hawaii in 1974, where they recorded two singles for their own Mu label and, with the additional of Mary Lee, a second album, which was shelved when they split up. In 1981 Fankhauser remixed it, added two singles, and it was released in Italy.

Many other tapes of **Mu** exist and *Children Of The Rainbow* is an excellent album of material recorded live on Maui in 1974. It's full of well-structured, often mystical songs and also includes some tasty laid back guitar work from Fankhauser and Jeff Cotton (who later played with Captain Beefheart). It also features a brief interview of the band by Lew Irwin.

Fankhauser, one of the West Coast's most interesting musicians, went on to make three solo albums, including one in 1976 (Maui M 101) and Mary Lee continued to play in his band. Parker remained in Hawaii, where he purchased an orchid plantation and Wimer became a youth counsellor in Los Angeles.

Like all of Fankhauser's bands, **Mu** were interesting and worth investigation.

You can also find Merrel Fankhauser's *Pot* on *Reverberation IV* (CD).

Muffetts

45:

1	Lost/Heather Girl	(Counterpart C 2629/30)	1968

Late sixties garagey pop from Hurricane, West Virginia. Snaking leads and a simple fuzzy break bring an average number up a notch. The subdued flip is enhanced solely by a fluid wah-wah break - other than that it's pretty ordinary pop - rock.

The band had earlier recorded as The Mojos.

Lost can be found (ahem) on *Lost Gems From The 60s Vol. 1* (EP), *Acid Dreams Vol. 2* (LP) and Psychedelic Crown Jewels Vol. 3 (CD). The latter reveals how The Mojos became **The Muffets**, ended up in Ohio, and released two further 45s (whose details remain elusive) - the final one on Rondo in 1970 as "A.G.Pygmie and The Muffet Company" .

Formed by the former Big Three members Cass Elliott and Denny Doherty, the **Mugwumps** were a folk/rock group who were completely unsuccessful during their time together, circa 1964/65. The above records were released when their members later found fame. Mama Cass and Denny Doherty went on to form the Mamas and The Papas, James Hendricks (Cass' husband) the Lamp Of Chilhood and Zal Yanowsky the Lovin' Spoonful with John Sebastian.

For those wondering about their name, "Mugwump" is an Indian word meaning "a person who is neutral in a controversial issue"!

Unconnected to the Mugwumps, this was almost certainly a LA-based studio group and they played a sort of jug-punk music. They managed a pretty good cover of *Bald Headed Woman*, which can also be heard on *Highs In The Mid-Sixties, Vol. 20: LA, Part 4* and you can also find *Sunset Sally* on *Riot On Sunset Strip* and *Season Of The Witch* on *Freak Out USA*.

Murmaids

45:

1	Popsicles And Icicles / Huntington Flats	(Chattahoochee CH 628)	1965

Produced by Kim Fowley, the 'A side was written by David Gates (pre Bread) and is average female pop. The flip, credited to **The Murmaids Band**, was written by Fowley / Harris (probably one of the WCPAEB brothers) and is an early '60s instrumental track.

1(A)	ALMOST HOME	(MGM SE-7408)	1970

Produced by Vinny Testa (who also worked with Group Image), this New York band had quite an unique sound, veering from hard rock (on *Rock'n'Roll Band*) to almost avant-garde jazz with its use of saxophone, piano and flute (on *The First Born* and *Trilogy*). All their material was original, penned by Murphy and the album definitively has

its moments. It may interest some curious collectors, but be aware that they also used bagpipes on some tracks (not all of them luckily!).

J.F. Murphy with Salt (a renewed line-up) also released one live album on Elektra in 1972 but the continuous use of bagpipes with sax and guitars must be reserved to specially trained ears!

45:

1. Because You Love Me/Born Loser (Talisman 1823) 196?

A garage punk outfit from Tyler in Texas. The flip included some catchy guitar work. It can also be found on *Flashback, Vol. 3, Back From The Grave, Vol. 3, Get Primitive (The Best Of Pebbles)* and *The Acid Dreams Testament (CD)*.

This album of U.S. psychedelia, which is a very minor collectable, was also issued in Germany. Produced by Steve and Eric Nathanson who also produced Boffalongo and Omnibus, all the tracks are written by the Argese brothers, except a strange cover of Dylan's *Million Dollar Bash*. An interesting album if you like melodic psyche influenced by jazz. Its best track is *In My World*.

45:

1. Nam Myo Renge Kyo/Times Like This (Sentinel 4-501) 1969

This group's leader, Casey Cosby, apparently won the Frank Sinatra Award Competition at UCLA in 1967 and performed in both classical and jazz media prior to forming **The Music Emporium**. Padwin has previously played for several Midwest country rock groups. In Dora Wahl the band had one of rock's few woman drummers at the time. All songs on their album were written by the band. The album is one of different moods, from the quasi-religious chants of *Nam Myo Renge Kyo* and *Day Of Wrath* to gentle ballads, such as *Velvet Sunsets* and *Gentle Thursday*, which are both noteworthy for Carolyn Lee's soft, smooth vocals, to the haunting introduction of *Catatonic Variations*. Only 700 copies of the Psycho reissue were pressed (and it's only in mono and not with the original cover - the inner sleeve has been photographed) and it was deleted by 1984. The album is a significant collectors' item and originals change hands for quite a considerable sum.

Unfortunately the Psycho reissue lost something in the process (like one channel!) but a recent reissue on 'Sentinel' has corrected that.

Nam Myo Renge Kyo can also be heard on *Love Peace & Poetry Vol. 1*, *Gathering Of The Tribe* and *Acid Trip From The Psychedelic Sixties*.

NB: (5) and (10) were also released in France by Vogue with picture sleeves. There's also a French EP with picture sleeve: *Little Bit O'Soul/I See The Light/Let Yourslf Go/La La La* (Vogue INT 18140).

This pop/soul quintet hailed from Mansfield, Ohio and their records were produced by Jerry Kasenetz and Jeff Katz who founded the short-lived but commercially successful bubblegum movement. Jamie Lyons also enjoyed a brief solo career and played for Capital-City Rockets and Bob Avery later went on to Crazy Elephant, a top bubblegum group. They enjoyed commercial success with *Little Bit Of Soul* which can also be heard on the *Battle Of The Bands CD* and *Wild Thing* compilation. Their cover of Question Mark and The Mysterians' *96 Tears*, which appeared on their album, has also resurfaced on Eva's *Sound Of The Sixties* compilation. Other compilation appearances have been made:- *Road Runner* and *Sunshine Games* on *Mindrocker, Vol. 5* and *Stay By My Side* on *Everywhere Chainsaw Sound*.

They were previously known as the Chosen Few but with no release under that name - thank heavens, there are too many Chosen Few's as it is.

The flip is of greater interest here - late sixties pop-psych that can be heard on the *Growing Slowly Insane* CD and it's vinyl counterpart *Psychedelic Unknowns Vol. 11*. (Max Waller)

NB: The Warner Bros and Bell 45s are as the Bonniwell Music Machine. The Capitol 45 is taken from Sean's solo LP. (11) released in France with picture sleeve (Warner WV 5110). A rare French EP with picture sleeve also exists: *Talk, Talk*/*Come On In*/*The People In Me*/*Wrong* (Vogue INT 18121).

Centred around Bonniwell, who had earlier sung with sixties folk group The Wayfarers, this Los Angeles band developed out of a trio called the Ragamuffins, which had featured Bonniwell, Edgar and Olsen. Edgar had earlier drummed for The Goldebriars with Curt Boettcher, whilst Olsen who was an old friend of Boettcher, had played with Gale Garnett and Jimmie Rodgers, and also briefly with the Wayfarers, at whose club in Charleston the Goldebriars often played. He later married Goldbriar Sheri Holmberg.

Bonniwell disillusioned with straight folk, became the Goldebriars tour manager, and migrated to LA with them. Olsen meanwhile had run into another old friend, Doug Rhodes and Bonniwell grabbed them for his new band, **The Music Machine**, adopting The Goldebriars all-in-black, dyed black Beatlecut look in the process, lock, stock, and barrel.

The Music Machine's debut album contained the U.S. hit *Talk Talk* and a number of other strong original compositions, notably *Masculine Intuition*, *Wrong* and *Trouble*. Bonniwell's harsh voice was ideal for much of this material and for a while the group achieved some success. Their debut album also featured competent versions of *Hey Joe*, ? and The Mysterians' *96 Tears*, the Beatles' *Taxman* and Neil Diamond's *Cherry Cherry*.

The People In Me/*Masculine Intuition* 45 was also taken from their debut album and *Hey Joe* was subsequently issued as a 45. However, not everything was presumably going smoothly and the second album was issued after the band had split. Recorded in Muscle Shoals, Alabama and New Mexico it comprised three outtakes from the earlier album and some new material.

The band also made some other recordings, acetates of which have recently surfaced with the following tracks: Side One *Everything Is Everything*/*You'll Love Me Again*/*This Should Make You Happy*/*Black Snow*/*Mother Nature, Father Earth*/*Dark White*; Side Two *No Girl Gonna Cry*/*King Mixer*/*Advise And Consent*/*Tell Me What Ya Got*/*Citizen Fear*/*Point Of No Return*.

After the split Edgar, Rhodes and Olsen all reunited again with Boettcher in Millenium and appeared on the first Sagittarius album. Keith Olsen later became a studio engineer and producer

Bonniwell went on to record a solo album *Close*, a moody, rather introverted effort. After that he dropped out and got religious, resurfacing in the 1980s fronting Heaven Sent, a Christian band. In 1982 he re-recorded *Talk Talk*.

In 1984, Rhino issued a *Best Of* compilation, which comprised many of their best known cuts and some unissued masters. One interesting and rare spin off from the band was *Nothin's Too Good For My Car/So Long Ago* (OS95) which Bonniwell recorded with Paul Buff under the name Friendly Torpedos shortly before leaving Original Sound. It was released in 1968. Warner Bros 7188 also from 1968 was withdrawn soon after being issued and is now highly sought-after. The 'A' side appears on *Acid Dreams* and *The Acid Dreams Testament* (CD). Other compilation appearences have been both sides of their 3rd and 4th 45s, which appear on *Mindrocker Vol. 10*; *Double Yellow Line* can also be heard on *Garage Music For Psych Heads, Vol. 1* and *Nuggets, Vol. 2*, which also includes *The Eagle Never Hunts The Fly*. Their best known song, *Talk Talk*, can be heard on *The Battle Of The Bands* (CO), the *More Nuggets, Vol. 2* CD, *Nuggets, Vol. 1* and *Wild Thing* compilations. Finally *No Girl Gonna Cry* has resurfaced on *Turds On A Bum Ride, Vol's 1 & 2* (CD).

A 1997 pic sleeve 45 from those fine folks at Sundazed features two more unreleased tracks from 1966 - *Point Of No Return* and *King Mixer*. Hopefully many more corpses from the moody men in black are still to be exhumed.

Charlie Musselwhite grew up in Memphis where he learned to play blues guitar. After moving to Chicago and hearing Little Walter, he switched to harmonica and became one of the three best white players coming out of the Chicago blues scene, alongside Paul Butterfield and Corky Siegel (Siegel Schwall Band). His '60s albums may interest some readers because of the involvement of some of the finest musicians of this scene and for the excellent mix of blues harmonica with a powerful rhythm section and inventive guitar leads.

His first album *Stand Back* was produced by Sam Charters and features a great backing group with Harvey Mandel and Barry Goldberg, who also produced *Stone Blues*. Vanguard was putting the pressure on for some Butterfield-style records (and sales!) but **Musselwhite** stuck to his basics and moved to Cherry Red and Arhoolie.

Musselwhite also played on albums by John Hammond, Neil Merryweather and Barry Goldberg.

He is still touring and recording.

3. Wind Chime Laughter/Don't Look Back (Tomorrow T-912) 1967
4. Don't Let Me Sleep Too Long/I Happen To Love You (Buddah 150) 1969

Started out as a Summit, New Jersey prep-rock outfit, The Four Classics featuring Mansolino (vcls), Philp, Rosa and Kurt Gabrook (bs). By 1965 they'd become The King Bees, after adding Dave Palmer and Charlie Larkey, only to discover late that year than Danny Kortchmar's New York City group has got there first. They adopted the moniker of **Myddle Class**. Already a popular draw around the Summit/New Providence/Berkeley Heights area they were put in touch with New Jerseyans Gerry Goffin and Carole King. This famous tin-pan alley team not only provided material and co-wrote (with Palmer/Philp) but also provided the means for the band to appear on vinyl via their Tomorrow label.

The results are three high quality releases of garagey folk-rock ballads that have stood the test of time remarkably well. Of these the 2nd is regarded as their best. *I Happen To Love You*, a superb punk ballad later recorded by The Electric Prunes and Them, can be heard on *Mindrocker, Vol. 3*. *Don't Let Me Sleep Too Long* is on *Boulders, Vol. 3* - it was 'adapted' by the Blues Project as *Wake Me Shake Me* and covered by many others including Australia's Vacant Lot (*Ugly Things, Vol. 1*), Canada's Power of Becket (*Nlghtmares From The Underworld, Vol. 2*) and the Wrough Black Bag. Both sides of this 45 were also compiled on *A Journey To Tyme, Vol. 3*.

Still, success was elusive. A move to Buddah in 1969 resulted in a reissue of the 2nd 45 and the recording of an album which sadly was never released, although *Lovin' Season* did make it onto the 1970 *Rock And Roll With Buddah* sampler (and can now be heard on *Psychotic Reactions*). After this disappointment the band disintegrated. Fate dealt a further blow when Rick Philp was murdered by a college room-mate. The rest regrouped as the Quinames Band. Chadie Larkey would team up with rival King Bees' Danny Korchmar in The City and was married to Carole King for several years. Following their divorce, he committed suicide.

A sad demise for a band of undoubted talented - perhaps some adventurous spirit may see fit one day to put out the unreleased LP and 45s to redress the balance.

The band may also have helped Carole King record a 45 as Bachs Lunch, one side of which was written by Palmer/Philp.

5. C'mon Love/? (Harmony Park?) 1965/6

NB: (2) as Dave Myers and The Rhythm Kings.

According to Tim Warren's *Back From The Grave Vol. 8* sleeve-notes, Californian guitarist **Dave Myers** first started making music, at the age of 8, in 1951. He spent a few years playing the folkie circuit and one night during a show at a pad called Cafe Frankenstein, Dave strolled along and was exposed to the insane rattle emerging from the nearby Rendezvous Ballroom, where Dick Dale was cutting loose with his insane reverbed frenzy. He then formed the Surf-Tones in 1961. By spring 1962 they issued their first single, *Church Key/Passion* on the Impact label and a bunch of cuts on various 'battle of the bands' albums. In early 1963 their first album, *Hangin' Twenty*, was released on Del-Fi. 1964 saw their sharp Gear 45 and in 1965 *C'Mon Love* (with vocals) and a second album on *Carole (Greatest Racing Themes)* was released. The band kept at it up through 1969 before calling it quits. *C'Mon Love* has recently resurfaced on *Back From The Grave, Vol. 8*.

3	I Can't Wait For Love / Satisfaction Guaranteed	(Manhattan 817)	Jan 1968

These **Mysteries** aren't. They were an Orlando, Florida trio who issued three interesting poppy 45s between 1965 and 1968.

Their debut is very rare. *My True Love* is bouncy pop-beat and was included on a rare 1966 sampler LP - *12 Groovy Hits, 12 Florida Bands* (Tener 154). The second 45 is their best. *Please Agree* steams along at locomotive pace - catchy and well-produced pop with a unique sound and a few touches of fuzz. It ain't garage but deserves its inclusion on Psychedelic States: Florida Vol. 1. Its flip is slow harmonious pop.

I Can't Wait For Love kicks off their final 45 with some fine fuzzy guitar that promises so much but.... thereafter it's almost buried under a wash of sweet harmonies. The result is decent midtempo pop, but a big disappointment. Tom Bennett's *Satisfaction Guaranteed* is lightweight fluff with Everlys-style harmonies, sounding out-of-date for '68.

This band were one of the first generation San Francisco sound groups, with only The Charlatans pre-dating them. Formed in 1965, and originally known as The Terrazzo Brothers (minus West), they soon became known as **The Mystery Trend**. The name was apparently taken from the line in Dylan's *Like A Rolling Stone* where he sings 'the mystery tramp', although the band apparently thought his words were 'the mystery trend'. They played at the very first Bill Graham Benefit for The San Francisco Mime Troupe on November 6th, 1965. Later that month (27th Nov) they played a gig at Peter Voulkos' studio. Both were apparently very successful. They also played at some of the

early Fillmore gigs. However, their music, which consisted of two - three minute tightly structured songs, ran against the predominant tide of long, loose, free-flowing jams which were so popular in the city in this era. They were managed by Mike Daly.

The band signed to Verve in mid-1966, which was around the time Larry West left. Originally an album was projected and seven tracks were recorded, (*There It Happened Again, Carl Street, Words You Whisper, One Day For Two, Johnny Was A Good Boy, A House On The Hill* and *Carrots On A String*). In the event only a 45 appeared. This came out in March 1967. The 'A' side is a fast, frantic number (which was originally mastered too fast) which included some vintage 'Frisco guitar work. The 'B' side is an interesting slower number written by Bob Cuff. Cuff left the band in June 1967, later joining Serpent Power. He was replaced by John Gregory, who later played with Seatrain.

The band struggled on to 1968, but then fizzled out largely because they could not secure enough live gigs to survive. Nagle, who later became one of the United States' top ceramicists, put together a band called Marlow, before forming Fast Bucks in 1969. He also produced a solo album *Bad Rice* in 1970.

In 1979 Ron Nagle formed the duo Durocs with Scott Matthews. They made one album, *Dorocs* (Capitol ST 11981) 1979.

The Big Beat CD collects together twentyone tracks - all their known studio recordings plus five home-taped efforts. It confirms the hearsay over the years - that this band produced a varied selection of intelligent and artful pop.

Johnny Was A Good Boy has also resurfaced on *Turds On A Bum Ride, Vol. 4* (CD), *Psychedelic Unknowns, Vol. 5, Sound Of The Sixties:- San Francisco, Part 1, California Acid Folk* and *Nuggets* 4-CD box.

This **Mystics** later changed name to The Many Others recording one 45, *(TellMe Why) I'm Alone / Can I Get A Witness?* (Orchid 504) circa 1965, the 'A' side is reputedly a Byrds-influenced folk-rocker.

4. Running Through The Night/Psychedelic Journey Pt 2 (Solid Sound 158/9) 1967
5. Mystery Ship/You Won't Look Back (Solid Sound 321/2) 1967

Out of the Woodbury suburb of New York City, this band made some outstanding recordings. They started life combining their own compositions with Them, Searchers and Zombies originals. They went very much against the tide of most Long Island bands, who were heavily into soul. By early 1966 they were becoming more adventurous. For their 2nd 45, they covered a Them song, *Mystic Eyes*. Indeed, this slow punk ballad, was party responsible for their name their leader Joe Docko liked it so much. Their third 45 was their magnum opus. *Frustration* was a haze of dementia with superb guitar leads from Docko. They played 10 minute versions of it live and each was different. The flip, *Psychedelic Journey Pt 1* was a stunning psychedelic instrumental which once again contained some superb guitar playing from Docko. The song continued on the flip to their fourth 45, which featured fine discordant clashing guitars and a striking ending. After this Jim Thomas left and they continued as a trio for one final effort:- *Mystery Ship*, another punk ballad - a tale of death and the futility of life, backed by the more optimistic, *You Won't Look Back*. Possibly, this lacked the 'fullness' of sound of their previous two, now they were only a trio.

The band are well represented on compilations. You can find *Psychedelic Journey pts 1 & 2* on *Endless Journey, Phase 1*; *Frustration* on *Acid Dreams*; *Mystery Ship* and *Mystic Eyes* on *Finest Hours*; *Psychedelic Journey, Part 1* on *Son Of Gathering Of The Tribe*; *Mystery Ship* on *Glimpses 2*; *Runnin' Through The Night* on *Ear-Piercing Punk* and *Pebbles (CD), Vol. 2*; *You Won't Look Back* on *Boulders, Vol. 11* and finally *You Know It's True* on *Psychedelic Crown Jewels Vol. 1* (CD). The band also appear on Eva's *E-Types vs Mystic Tide* 1984 retrospective with the following tracks:- *Frustration, Psychedelic Journey (Pts 1 and 2), Running Through The Night, Search For A New Love,* and *You Won't Look Back*. All tracks were written by Joe Docko.

The recent Distortions retrospectives include all their 45s plus an early effort, *I Wouldn't Care*, a gentle Merseybeat-influenced song. The later CD release includes seven extra tracks. Forget all the compilations and get this excellent legitimate collection of their 45s.

An absolute 'must' for connoisseurs of psychedelia, they were at the forefront of experimentation and ahead of their time.

1(A) BAD RICE (Warner WS 1902) 1970

NB: (1) reissued by Edsel (ED204) in 1986.

Produced by Jack Nitzsche and Tom Donahue, this was the only solo album by the former Mystery Trend leader. Tracks like *Marijuana Hell* or *61 Clay* are full of excellent guitar solos and the backing group is outstanding: Sal Valentino (Beau Brummels, Stoneground), John Blakeley (Stoneground), George Rains (Mother Earth, Sir Douglas Quintet), Mickey Waller (Pilot, Silvermetre)...

On the liner notes for the Edsel reissue, **Nagle** explains that his memories of th 1969/70 period are mostly vague, due to experimenting with "the combo plate", a mixture of drugs and alcohol. The songs are about repressed teenagers killing their moms, gypsy faith healers, astrology...

Nagle later continued writing songs for Leo Kottke, The Tubes and Stoneground. Together with Scott Matthews he formed the Durocs who recorded one album for Capitol in 1979 and became a renowned producer (working with John Hiatt, Non Fiction). A multi-talented artist, **Nagle** is also known as one of the top american ceramicists and has also written the score for "The Exorcist", "The Sorcerer" and "Cat People".

ALBUM:

1. THE NATIONAL GALLERY (Philips PHS 600-266) 1968

Literally an 'art-rock' concept album from Cleveland, inspired by the works of artist Paul Klee (1879-1940) and complete with a glossy leaflet with lyrics and pictures of some of his paintings.

A fusion of harmonious folk, pop and avant garde with some psychy touches, culminating in its most memorable track *Long Hair Soulful* with stoned vocals and acid-etched guitar. This had been released in 1967 in an abridged form and credited to Bhagavad Gita, backed by an instrumental version of the same (Philips 40485, with PS). The instrumental take can be heard on *Beyond The Calico Wall* CD (not on the LP version).

The musicians themselves don't get a name-check, just a picture - three guys and a gal.

Composers Roger Karshner and Charles Mangione were involved with several other Cleveland area acts and Karshner was manager of one of the city's more successful '60s bands, The Outsiders.

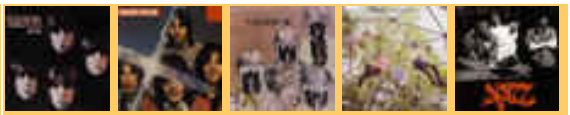
4	Please Leave Me Alone/Sad Man	(Golden State Recorders metal acetate)	1966

NB: (2) only one metal acetate is known to exist.

From Phoenix and Talent, Oregon, **The Navarros** began in 1960 playing in a Pacific North West style. Carter, Bolz and Morrison shared lead vocals, backing the others in turn for three-part harmonies. On the group's best known recording, *Moses*, all three sing and it is Morrison's high pitched scream that is heard on the chorus echo. The two voices heard at the end of the record are Morrison and Carter. The flip side, *Ikie*, features Bolz on lead vocal with Carter and Morrison providing harmony backup.

The group began its metamorphasis into the psychedelic-sounding Neighb'rhood Childr'n when Morrison was drafted and sent to Vietnam. His replacement, Tom Ryan influenced the group away from its original Pacific Northwest roots toward a mix of British Invasion/San Fransisco sounds. It was at this time that the line up of Bolz, Campbell, Carter (now married and using the name Hoffman), Gleim and Ryan changed their name to the Neighb'rhood Childr'n. After about a year, this lineup broke up with the departure of Campbell, Gleim and Ryan. Bolz and Hoffman then were joined by central California musicians W.A. Farrens on drums and Ron Rachsdorf on lead guitar to form the quartet that recorded most of the groups psychedelic album, although Campbell, Gleim and Ryan can be heard on some of the early work.

There is also one unreleased recording (two sides) recorded by the original band in Portland, Oregon shortly before Morrison's departure for the army. Both show the group beginning to move away from its earlier party-rock sound roots. *I'll Be Back*, a slow blues with some distinctive rhythm twists was written and sung by Morrison as his farewell. The flip, *Last Kiss Goodbye* is a medium tempo somewhat haunting three part harmony with Bolz singing



lead and Morrison and Carter in support.

The Corby label was based in Corvalis, Oregon.

Compilation appearances have included:- *Moses* on *Mondo Frat Dance Bash A Go Go*; *Tomorrow Is Another Day* on *Highs ln The Mid-Sixties, Vol. 16:- The Northwest, Part 3*; and both *Tomorrow Is Another Day* and *Sad Man* on *Good Things Are Happening*.

Nazz were not really Todd Rundgren's first band, both he and Van Osten had earlier played with Woody's Truck Stop, who were basically a white blues band and went on to record an album in the early seventies.

Essentially a British-influenced mod band, the Philadelphia-based **Nazz** were quickly signed by Screen Gems Columbia who were looking for a replacement for The Monkees. 1968 saw the release of their debut album and a

single *Open My Eyes*. Both were superb. The single was a high energy rocker with a compulsive beginning (which begged comparison to The Who's *I Can't Explain*), and beautifully blended harmonies. It received a lot of airplay in Britain, but inexplicably was not a hit. In the U.S. it was only a minor hit. It may well have been a much bigger hit, but many stations preferred to play its Rip side *Hello It's Me*, which was also a minor hit when re-issued as the 'A' side to *Crowded* in 1969.

The album was full of variety - aside from the stunning *Open My Eyes*, it contained a number of fine rock ballads such as *See What You Can Be, Hello Its Me, and If That's The Way You Feel* and other dynamic hard rock numbers such as *Back Of Your Mind, When I Get My Plane* and *She's Goin' Down* (the latter showing a distinct Hendrix influence). Despite its acclaim, in retrospect, as a superb album Nazz did not sell, either in the U.S. or the UK. Released at the height of the American West Coast's heyday, perhaps it cut across the general musical tide that year. However, it became a sought after collectors' item.

Nazz Nazz recorded in Los Angeles, was a more consistent album and arguably the band's best. It was originally planned as a double album, but relationships within the group, particularly between Rundgren and Mooney were beginning to deteriorate to such an extent that only a single album was possible. (Nazz III was later released after the band split and made up of left overs from the earlier recording sessions.) Opening track, *Forget About It* was a cohesive, melodic number. *Not Wrong Long* was the band's third U.S. single - the final one to be released in the UK. *Under The Ice* and *Rain Rider* were further examples of their heavier brand of rock. *Gonna Cry Today* and *Letters Don't Count* were melodic ballads, whilst *Meridian Leeward* was a rather strange number about a piloting human-eating pig. The final track, an eleven minute extravaganza entitled *A Beautiful Song*, married together all of **The Nazz**'s musical styles as well as many of the influences on them. The album was not released in the UK, although all three **Nazz** albums were reissued by Rhino in 1983, making original SGC copies of this and the third (US only) album much sought-after by collectors.

Nazz III is not as good as the first two albums. It lacked the consistency of their second one, but had its moments. It contains quite a good version of Paul Revere's *Kicks* and a number of rock ballads, such as *Only One Winner, Resolution, It's Not That Easy* and *You Are My Window*, on which Todd sang vocals, but lacks any killer cuts. Indeed, the best of the harder rock numbers *Christopher Columbus* was written by Van Osten rather than Rundgren.

When Todd Rundgren left in 1970 he was replaced by Rick Nielson and Tom Petersson who were later both members of Cheap Trick.

The Nazz are certainly well worth listening to but their greatest significance is as an early musical songwriting venture for Todd Rundgren. Rhino have issued a *Best Of Nazz* compilation which is a good starting point for their material. Fans of the band will also be interested in the *Sydney's Lunch Box* 45, which contains two studio outtakes by the band, and the *Nazz From Philadelphia* retrospective, which compiles unreleased and alternate versions of **Nazz** classics.

4(-)	LONG YEARS IN SPACE (dbl)	(Sundazed 5023)	1997

NB: (1) is a 12" metal acetate album. Some tracks appear on the Acta album, most don't. (2) is a one-sided 12" metal album acetate of Acta album tracks with different mixes. *Chocolate Angel* has a longer intro. (3) pirated in 1989 and also on CD. (4) is an essential retrospective collection, also issued on CD (SC 11041).

EP:

1	PROMO-ONLY	(Vegas Productions 863)	1967

NB: (1) issued with press kit by the group's booking agency. This 7" EP was not issued in a sleeve. It contained non-album cuts/versions of *Up, Down, Turned Around World, Maggie's Farm, That's What's Happening* and *Please, Please Leave Me Alone.*

45s:

1	Little Black Egg/Louie Louie	(Golden State Recorders)	1967
2	Maintain/Just No Way (as 'The Neighborhood')	(Acta 8l3)	1967
3	Please Leave Me Alone/Happy Child	(Acta 823)	1968
4	Behold The Lilies/I Want Action	(Acta 828)	1968
5	Women Think/On Our Way	(Dot 17238)	1969

NB: (1) is a One-sided 8" metal acetate. Only (3) is from the Acta album.

One of the many forgotten bands gigging in the 'Frisco area, **Neighb'rhood Childr'n**'s sole album on Acta is a psychedelic 'gem'. But, alas, after its release they simply vanished from the scene. Back in '68 with comparatively crude instrumentation available they created some very spacey sounds on tracks like *Long Years In Space*, while *Chocolate Angel* is something of a psychedelic jam. *Feeling Zero* appears to have been specially written to bring you down after another trip, while tracks like *Happy Child* and *Patterns* feature Dyan Hoffmann's crystal clear vocals. lndeed on *Long Years In Space* she complements the other vocalists to give the band a Jefferson Airplane-type sound. They even perform a re-creation of *Over The Rainbow* from Wizard of Oz.

Neighb'rhood Childr'n also recorded a couple of acetate albums in addition to the album on Acta. Much of this material has been compiled on the excellent *Long Years In Space* retrospective on Sundazed, and this together with the 'Acta' album is strongly recommended to connoisseurs of psychedelia.

The band evolved out of Oregon's Navarros, when their original drummer John Morrison was drafted. After about a year Campbell, Gleim and Ryan quit too and Bolz and Hoffman were then joined by central California musicians W.A. Farrens on drums and Ron Rachsdorf on lead guitar.

Collectors should note that a DJ 45, with *Dancing In The Street* on both sides (N.A.M.l. 2014) 1974, is actually by a different Neighborhood Children, and sounds similar to early Jackson brothers.

Changes Brought To Me, has also resurfaced on *Turds On A Bum Ride, Vol. 2.*

A folk, folk/jazz and blues singer, guitar player and songwriter, **Fred Neil** is a very important figure in the '60s music scene, although he's never reached a high level of public awareness.

Born in Florida in 1937, **Neil** came from the late '50s folk Village scene and began writing songs which have been popularized by many, many groups: *Other Side Of This Life* has been recorded by Jefferson Airplane, Lovin Spoonful, Eric Burdon, the Youngbloods and several other acts, *Blues On The Ceiling* by Tim Hardin, *Everybody's Talkin* by Harry Nillson, *Dolphins* by Tim Buckley...

Managed by Herb Cohen (Frank Zappa business associate), **Fred Neil** began recording in 1964 and his first songs can be found on live folk compilations (*Hootenanny Live At The Bitter End*, *World Of Folk Music*). After a rare first album (*Tears Down The Walls*) with Vince Martin, *Bleeker And MacDougal* was recorded with John Sebastian, Felix Pappalardi and Pete Childs and produced by Paul Rothchild (Tim Buckley, Doors etc.). It contains an excellent mix of folk and folk/blues and his classic songs *Blues On The Ceiling*, *Candy Man* and *Other Side Of This Life*. For an unknown reason, Elektra reissued this album in 1970 under the new title of *Little Bit Of Rain*.

In 1967, **Neil** left Elektra, signed a new contract with Capitol and released one of his best records, *Fred Neil* with *Sweet Cocaine*, *The Dolphins*, *I've Got A Secret* and the superb acid folk raga *Cynicrustpetefredjohn Raga*. Produced by Nick Venet, he is accompanied by Al Wilson (Canned Heat), Billy Mundi (Mothers Of Invention), Cyrus Faryar (Modern Folk Quartet, Cosmic Sounds) and Peter Childs. This album would be reissued under a new title after his song *Everybody's Talkin* was chosen for the theme of 'Midnight Cowboy' and became a huge hit sung by Nillson.

The next album *Sessions* is once again excellent and was recorded in October 1967 live in the studio: four acoustic guitars, one bass and Nick Venet producing.

Finally released in 1971 but probably recorded before, *Other Side Of This Life* is composed of one live side of his classics recorded with Monte Dunn at the Elephant Club in Woodstock, and one studio with Gram Parsons on one track (*You Don't Miss Your Water*).

Jefferson Airplane wrote two songs about **Neil**: *House At Pooneil Corner* and *Ballad Of You And Me And Pooneil*.

Refusing to play the game of promotion, interviews and tours, **Neil** never had much commercial success and retreated by the late sixties to Coconut Grove, Florida, where he has been engaged in dolphin research. The recent

CD reissues have helped to relaunch the interest on his music.

Beware of opportunistic dealers who describe this studio creation duo as psychedelic, they are more poppish really. The project consisted of Nashville Symphony Orchestra musicians and was headed by Gant and Saussy. They have their moments though, on tracks like *Are You Old Enough To Remember Dresden?* from their second album. Their debut 45 *Morning Girl* was a Top 20 hit and they enjoyed a couple more minor hits.

Gant later died on 6th March 1987, aged only 44.

1. I Dig Your Mind/Seeds Of Love (Take 6 1001) 196?

This outfit is thought to have been Californian, based in L.A. The 'A' side of their 45, is quite a good effort where the vocals blend with the organ backing and moderate echoes are used to good effect. The flip is apparently nothing more than an instrumental version of the 'A' side.

You can also find *I Dig Your Mind* on *Pebbles, Vol. 9* (CD), *Psychedelic Unknowns, Vol. 1*, *The Psychedelic Unknowns (EP)*, *The '60s Choice, Vol. 2*.

These three began playing together in 1966 and their efforts culminated in the above album in 1973. Musically it falls into the progressive genre, but much of it is disjointed and I can't recommend it. There are counterfeit copies which have circulated in recent years if you are interested. The album was recorded in Minneapolis, Minnesota.

3	Just Outside My Window / Let's Get With It	(South Bay SBM 104)	1967

NB: (3) also issued on Macy's 7-UP (104) 1967.

The second 45 is a superb stompin' fuzz - punker in a folk - rock vein, from the San Jose area, complete with a great rave-up outro in the Count Five *Psychotic Reaction* style for good measure. The 'B' side is lighter pop, but is still good harmony 'n' jangle folk - rock full of California sunshine vibes. Recorded at the now - legendary Golden State Recorders, this is a nugget of some pedigree. *Scratch Your Name* was written by Tom Talton - yes, he of We The People fame, confirmed by Alec Palao: "the bands manager was a friend of We The People's producer Tony Moon, hence their access to the song". Alec adds -"All their singles are worth getting, but tend to be mostly instrumentals".

Let's Get With It is to be found on *Acid Dreams Volume 3*.

After Buffalo Springfield disintegrated, Dewey Martin put together **New Buffalo Springfield**, with line-up 'A' including Gary Rowles (ex-Nooney Ricket and The Pure) in October 1968. The band made its debut in Hawaii in November 1968 and the following month played at San Francisco's Holiday Rock Festival alongside Canned Heat and Steppenwolf. Early in 1969 however, they were forced to shorten their name to **New Buffalo**, and shortly afterwards Apperson was replaced by ex-Randy Fuller Four leader Randy Fuller and Jim Price left to join Delaney & Bonnie.

Bob Jones then replaced Rowles, who later joined Love and a recording deal was obtained with Atco. Before they could fulfil this, however, Martin left for a solo deal with UNI in July, and the group added Joey Newman (ex-Don and The Goodtimes / Touch) to become Blue Mountain Eagle.

NB: (2) was originally released as (Centaur 1202) but after a threatened copyright lawsuit, it was reissued as (Sentaur 1202). This too falled foul of a copyright problem and subsequent singles came out as "Sentar"! The 'A' side to (4), *(The Ballad of the) Wingbat Marmaduke* is actually the same track as *Elf Song* from their *Colonization* album.

This Chicago band started out as The Patsmen in 1964 playing a British invasion sound. The travelled to California

in 1965 but returned to Chicago forming their own Centaur (later Sentar) label in 1966. In 1966 they sounded very punkish with a strong Animals - Them influence. Their first album, in particular is very much in this vein and originals are very rare and sought-after. Its reissue by Eva has made it more accessible. The second is more poppy but contains a fine cover of The Yardbirds' classic *Mister You're A Better Man Than I*. Later they signed to Mercury during 1967 and developed into a successful harmony ballad/soft rock act which continued recording well into the 1970s. Over the years they enjoyed much minor chart success and one Top Twenty hit, *Things I'd Like To Say*.

In 1967, Ray Graffia produced a single for The Prophets. In 1969, Graffia and Chic James left the **New Colony Six** and joined up with former member Craig Kemp to form the Raymond John Michael Band, which eventually released three singles. Patrick McBride later worked at Plynth Studios in the Chicago area. In 1975, the **New Colony Six** finally stopped rockin'.

Ray Graffia and Ronnie Rice re-formed **The New Colony Six** for a one-time reunion at Chicago's Park West in 1988. Subsequently Ray Graffia has also toured with a new line-up of the band at selected shows throughout the nineties. Ronnie Rice also now performs as a solo artist and still makes occasional appearances with **New Colony Six**. Anyone interested in Ronnie's solo material, should check out *Refried Rice ('61-'86)* on Sunlight Records (SU-5007) 1997.

Les Kummel and Chuck Jobes had earlier been in The Revelles, whilst Billy Herman had been in Aorta. Sadly Les Kummel died in an auto accident on 19th Dec, 1978.

In the '80s and '90s Ray Graffia has been busy running his company Arbortech, which deals with cleaning up environmental problems in industry, primarily focusing on wastewater. For more information check the following website: http://www.arbortech.com.

1. Tears/Why Did You Go? (Garland 2020) 1970

Salem, Oregon was home turf for this soft rock quintet whose ultra rare album has recently seen a pirate reissue. The opening cut *New Dawn* begins with an unusual spoken intro but is essentially a soft rock ballad; *I See A Day* has some good fuzz guitar and *Its Rainin'* couples this with sound effects; there's some upfront organ on *Hear Me Cryin'* and side one closes with *Dark Thoughts*, a more uptempo song with lots of fuzz guitar. Side two is disappointing by comparison and very samey with a country-style rhythm section that never excites,

There was at least one other New Dawn around with two 45s on Mainstream (including *Slave of Desire* on *The '60s Choice, Vol. 2*), one on RCA and another on Imperial.

You can also find *Dark Thoughts* on *Love Peace & Poetry Vol. 1*.

45:

1	Springtime Lady / Swalbr	(Nottingham Disc Co. 850)	1969

Formed in Virginia Beach, circa 1965, as the Directions. In early 1969 they recorded their sole 45 - a laid-back rock original backed by a Cream cover. An initial pressing of 500 copies was successful enough in the Petersburg charts to warrant a second helping.

Aliens, Psychos And Wild Things (CD) features two versions of *Springtime Lady* - the 45 version is above-par late 60s rock with a West Coast vibe in the vocal arrangements. The instrumental version is a different unreleased take, introduced as "Springtime Lady music track one", highlights the soothing quality of the twin-guitar workout where wah-wah snakes in and out of fluid runs and sustains. It's the final "bonus track" on the CD and a great way to wind down.

The New Fugitives

45:

1. She's My Baby/That's Queer (GLO 5241) 1966

The New Fugitives, from Meriden, Connecticut, were formed early 1965 by two high-school pals. Both sides of their 45 have recently resurfaced on *Back From The Grave, Vol. 8*. According to Tim Warren's liner notes, at the suggestion of The Rogues' label boss they hit Soyka Studios in the late Summer of 1966 and cut four tunes. RCA then offered to sign them if they dropped their lead singer, but they declined. Their manager worked out a deal with the studio owner to press up 300 copies of the above 7" but they had to add New to their name because some New York City lawyers representing a group named The Fugitives threatened to sue if they used that name. The group split up in mid-1967 when the guitarist was drafted and the rest went off to college.

This band featured Phil Keaggy from Ohio who was also in The Squires and, later, in Glass Harp. Previously known as Volume IV, the power-poppy *Come With Me* was also written by Phil and the band also made several acetates of original material.

Their second 45 was recorded after Phil Keaggy had left the band, and suffers from poor production.

2. Strollin'Sunday Mornin'/Only For Our Minds (Amaret 107) 1968
3. All Aboard/Sidehacker (Amaret 115) 1969

This hippie quartet is thought to have originally been based in Minneapolis although they relocated to San Francisco, as did so many bands in the late sixties. They also had a cut, *Why Now Girl?* included on the rare *San Francisco Pop Festival, Vol. 1* (Colstar 5001), which has since resurfaced on *Pebbles, Vol. 13*. Mike Curb discovered them in California and used them on the "Sidehackers" Soundtrack. Most of the album tracks are written by Curb collaborator Jerry Styner. Three tracks from the Amaret singles are included (*Ha Lese Cle Di Khana, Strollin' Sunday Mornin'* and *Sidehacker*). The best tracks are *Ha Lese...*, a killer garage/psych rocker written by C. Semenya, and *I Wanna Cry*, written by Fred Perry. Semenya and Perry were probably both members of the group. Larry Goldberg was also an associate producer on this album.

The New Life

45:

1	Canterbury Road/Up Grade	(Epic 10538)	1969	(-)

Probably the work of a different **New Life** to The New Life on Amaret, this 45 was the brainchild of Bob Goldstein, a showbiz/Broadway type who was involved in the Goldbriars management and also with Lou Christies management. *Canterbury Road* is a re-write of *There Is Nothing More To Say* from The Millennium *Begin* album with an additional songwriting credit for Lou Christie. The track was intended as part of a Broadway show / Rock opera based on Chaucer, but who is featured on the record is anyone's guess. It could be the Millennium and Lou Christie, a multi-tracked Sandy Salisbury (always a good sport with these things) or maybe the band on the Amaret records were involved after all.

A solo version of *Canterbury Road* often shows up on Lou Christie compilations.

1. It's All Over/Be My Girl (Barclay N 196713/4) 1967

Invasion-influenced reedy garage-beat that may have sounded dated by 1967 in Reading, Pennsylvania. It still has a certain charm and Barclay releases are becoming much harder to find. Both sides of the 45 are also featured on Arf!Arf!'s 1998 Barclay compilation CD *Eastern PA Rock - Part Two (1966-69)*.

The New Mix

TOP

ALBUM:

1. THE NEW MIX (United Artists UAS 6678) 1968

A fresh-sounding psychedelic rock/pop album. The opening cut, *While We Waited*, has a melodramatic intro and wailing guitar, but for the most part the album consists of pleasing vocal harmonies and nicely blended keyboards. The music is quite Beatle-ish at times, particularly on side two. Recommended.

All the material on this album was written by D. Brown and H. Steele but the group still remain enigmatic. No 45s can be found by this band on United Artists or elsewhere. It may explain why their album seems to have made little impact and remains obscure and unappreciated.

3	Had I Loved Her Less/Sailing Ship	(Warner Bros 5870)	1966

NB: (3) as **The New Order Featuring Roger Joyce**. There's also a French EP with picture sleeve: *You've Got Me High/Meet Your Match/Why Can't I/Pucci Girl* (Warner 113) 1966.

Combining U.S. and U.K. influences, New England's **New Order** belt out a healthy mix of raunchy Beatlesque beat with some Four Seasons-like harmonies on *You've Got Me High*, which can now be heard on *Psychotic Reations*. The flip is a slow moody ballad with a touch of Dylan about it but is more garage than folk-rock.

The 2nd 45 is the killer, a glorious slice of moody garagey pop with ringing guitar chords and a neat solo - sorta like the early Ides Of March in style - great 'teenbeat'. *Pucci Girl* is a decent beat ballad.

Their 3rd 45, however is very different from its predecessors, having crossed the tracks into big production pop

ballad territory - blue-eyed soul with a nod to the Four Seasons.

1. Give To Me Your Love/Thanks (World Pacific 77884) 1968

This would appear to be a one-off project between the demise of San Diego's Hard Times and the birth of T.I.M.E. A mellow workout with some laid-back guitar that presages the sounds that T.I.M.E. would treat us to. Bill Richardson and Larry Byrom would go on to form T.I.M.E. whilst Rudy split for a solo career. Thanks is purely an instrumental of the 'A' side. The 45 was produced by Mama Cass Elliot. (Max Waller)

1. Good Time Car/Terms Of You Love Me (Dot 16910 1966

Originally from Portland, Oregon, this outfit (like so many others) seems to have played a lot in San Francisco. Their album is one of the mega rarities of the psychedelic genre and has been pirated recently. Although clearly recorded on primitive equipment lending it a rather tinny sound, it is certainly an album to cherish. Its highlights are many and include the opening track, *Someone's Peeping*, with its nice vocal harmonies; *I Can See It*, a folk-rocker with effective echoed vocals and a psychedelic ending; *Wheel Of Fortune*, which has a very catchy chorus and ends with a psychedelic guitar jam; *I See You're Looking Fine*, another mildly psychedelic number with interesting echoed vocals and *Her Darkness In December*, arguably the most complex and psychedelic track on the album. All connoisseurs of psychedelia should get to hear this now it's more widely available.

The New Tweedy Brothers producer, Rick Keefer also worked with The Wallflowers.

Compilation coverage has been limited to: *Danny's Song* on *Love Peace & Poetry Vol. 1* and three cuts:- *What's Wrong With That, Someone Just Passed By* and *Darkness In December* on the bootleg compilation *California Halloween*.

It's rumoured that *I Need Love* was also put out on the Take 6 label but this remains unconfirmed. The first 45, at least, is for Sons Of Adam completists only - the material sounds like it's from some 3rd-rate musical show or exploitation movie.

7. Fields Of Joy/Ride, Ride My Lady (Columbia 45367) Mar. 1971
8. Roll Over/A Whiter Shade Of Pale (Columbia 45574) Feb. 1972

The story goes that three members of this act were classically trained at Juilliard Music Conservatory (arguably the most prestigious American music school) and that at some point they "realized" that they could make more money

being rock stars than classical musicians. The music on their first two albums is distinctive in that they used classical instruments (usually oboes and string quartets) in their rock songs and then might play a classical Bach piece using modern rock instruments. Their third album was a unique collaboration with Manos Hadjidakis, who is best known for composing the music for the movie "Never On Sunday". This album has a distinctive Greek flavor and is quite unique - very beautiful, relaxing. After their third album, they shortened their name to become **The New York Rock Ensemble**, switched record companies (from Atco to Columbia), and Brian Corrigan left.

The fourth album was less original, but was ironically their best selling album. I have a personal theory that this was related to a free or inexpensive sampler album, called *Different Strokes*, that Columbia distributed and which featured a cut from this album. In my humble opinion, their fourth and fifth albums were much less interesting and qualify only as average rock music.

Michael Kamen went on to have a successful career producing film scores, working with artists such as Pink Floyd, Roger Waters etc. In 1991 he won two Grammy's: "Best Pop Instrumental Performance" for the *Robin Hood: Prince Of Thieves* album conducting Greater Los Angeles Orchestra and "Best Song Written Specifically For A Motion Picture Or For Television" for *(Everything I Do) I Do It For You* from *Robin Hood: Prince Of Thieves*.

Despite their name, this outfit came out of Portland, Oregon, where they won some local "Battle Of The Bands" contests early in 1967 when they were known as My Sirs. Based around the three Hudson brothers they changed name to **The New Yorkers** when asked to do a promotional tour by the Chrysler company who required them to

use the name of one of the company's cars. Musically they were very influenced by The Beatles and they did enjoy some regional success with their early recordings.

Mr. Kirby, which is a fine psychedelic raga style punker, with lots of fuzz can be heard on *Hlstory Of Northwest Rock, Vol. 2*, *Psychedelic Unknowns, Vol. 4* and *Garagelands, Vol. 2*. You'll also find *Again* on *History Of Northwest Rock, Vol. 5* and *Mindrocker, Vol. 8*. 1 NEW ZEALAND TRADING COMPANY (Memphis 1001) 1970

A quintet of uncertain origin. The music is group-penned (except for an inventive cover of *Hey Jude*) in a soft psych-jazz vein, reminiscent of the *Wake Up, It's Tomorrow* era Strawberry Alarm Clock. The song *Jam And Anti-freeze* is particulary fine. There are also very nice harmonies on several cuts, most notably *Winnifred Jellicoe*, and one cut (*Ruo Moko*) which seems to be sung (as near as I can tell) in Portugese.

2. You Say/Night Crawlin' (Joel 1566) 1966
3. (I) Feel So Fine/Want Me (Acetate) 1966

Yet another band of this name, this time they were students at Carlton College in Northfield, 30 miles south of Minneapolis in Minnesota. This highly touted garage 45 came out on two different colour labels. Both pressings are hard to find, the one with the green label was the earlier of the two. You'll find the 'A' side on *Hipsville, Vol. 3* and the flip, a raw Stones-style recording has reappeared on *Pebbles, Vol. 17*.

Later in 1966 they travelled to the CBS Studios in Chicago for another recording session. Six songs in all were recorded:- *Dandelions* (a Marc Reigel original); *(I) Feel So Fine* (a cover ot Johnny Preston's classic); *Want Me* (a fuzz guitar original); *Chimes Of Freedom* (a Byrds cover); *Just Like Romeo and Juliet* (a Reflections song) and *Shoulder Of A Glint* (a Prince and The Paupers cover). Acetates of *(I) Feel So Fine/Want Me* were pressed up, but no actual records materialised from the session and the band disbanded in the fall of 1967.

Their drummer Bill Redeker later became a TV journalist for ABC News and 20/20.

The Night People

45:

1. We Got It/Erebian Borealis (Del-Nita 1002) 1967

This group from Parma, Ohio were responsible for a superb two-sided garage psych 45. The 'A' side features an early Theremin solo which is pretty unusual for a garage 45. It's been reissued on the *It's Finkin' Time* compilation. The flip side is a psychy instrumental. Both sides have also been reissued on the *Sixties Rebellion, Vol. 6* CD compilation.

After finishing as second runner-up in a local high school Battle of the Bands, **The Night Riders** were contacted by a correspondent for the Justice Records Company, whom they later recorded their sole album for in 1967. Typical Justice fare, the album includes cover versions of *Double Shot Of My Baby's Love, Twist & Shout, Night Train, Little Latin Lupe Lu* and *Louie Louie*, among others.

The band were from North Carolina, and were all sixteen (except 15 year old Mac Lewis) at the time of recording. The sole original on the album, a keyboard led instrumental entitled *Journey To The Stars* has subsequently resurfaced on *Oil Stains, Vol. 2* and *Relics, Vol. 2.*

* Little Phil & the Night Shadows. + As 'Square Root of 2'.

The Nightshadows, who were also known as **Little Phil And The Nightshadows**, were one of the Old South's few acid punk bands, and something of a rock anomaly. They started playing in the late fifties, and their 27 or so members apparently included Barry Bailey (later of The Atlanta Rhythm Section). The artistes listed above were those who recorded for their 1968 album which was pieced together from an assortment of tapes recorded on portable cassette machines. The band, who actually heralded from Georgia in the heart of Dixieland, never achieved the recognition they might have because of the Vietnam War, which prevented them touring for fear of losing their draft deferments.

Of particular note on their album is the psychedelic intro to *In The Air* and *The Hot Rod Song*. Another track *I Can't Believe* has a Spoonful-type beat and others like *Illusions* sounded rather a racket. Overall, the album is probably best forgotten. They have one cut *The Way It Used To Be* on *Pebbles, Vol. 5*. The most sought-after of their recordings is the original release of *The Square Root Of Two* on Spectrum Sounds. They recorded over a long period under various names and backed numerous other artistes so the 45s shown are highly selective and only cover their garage/psych period.

This outfit formed in Longview, Washington when a bunch of high school kids came together for fun on the crest of the wave of Beatlemania that swept across America in 1963/64. They recorded their sole 45, a garage-sounding recording, at Northwestern Studios in 1965. It was offered to major labels but rejected, so the group released it on their own label. You'll find the 'A' side on *Highs In The Mid-Sixties, Vol. 7* None of the band remained in the music business. Bob Kalal was last repotted to be a pharmacist in Longview where Dave Hooper also works. Carasco works in construction and lives in Portland, Oregon and Springer owns a bowling alley in Kalama.

Nineteen Eighty-Four

45:

1. Three's A Crowd/Amber Waves (Kapp 2003) 1969

As compilers often tell us, it's often the 'B' side of an apparently naff 45 that bears fruit. Here's one they've not found yet. The 'A' here is a typical '69 brassy belter - the flip is a sorta mid-tempo ballad in a folk-rock vein with harmonies - pleasant enough but punctuated by some heavyish acidic fuzz, harking back to '68 sounds. Interesting, if an acquired taste. (MW).

This 'bubblegum' outfit came from Linden, New Jersey. Their records were produced by Jerry Kasenetz and Jeff Katz, who masterminded the 'bubblegum' movement and were behind other key acts like The Music Explosion and Ohio Express. Essentially a 'singles' band they made an immediate impact with *Simon Says*, which has become a classic party song and, in addition to being a Top Ten hit in America, it also made No. 2 in the U.K. (although it was their only major hit here). They enjoyed other success in the US, particularly with *1-2-3 Red Light* and *Indian Giver*. Their *Hard Rode* album was by an entirely different line-up. There may come a time when collectors take an interest in their first four albums.

The flip side to their first 45 later re-emerged on *Psychedelic Unknowns, Vol. 7* and *Goody Goody Gumdrops* appeared back in 1968 on *Pop Explosion* (Buddah 643312).

Bruce Shay was their bass player on their second, third and fourth albums and Chuck Trois (ex-Soul Survivors) was also in the band at some point.

Mark Gutkowski sang the lead vocal on the first two 45's and plays organ, whilst his brother played rhythm guitar. One interesting thing about this group is that the following 45s, *Goody Goody Gumdrops* and *1-2-3 Red Light*, were entirely sung by members of the Philly-based doo-wop group, Billy and The Essentials, who had a few 45s out in the early and mid '60s.

The flip can be heard on *Relics, Vol. 1*. 1. I'm A Baby/You're Gone(?) (Fenton 2136) c1967

From Michigan, the flip of the above 45 cuts is speculative. *I'm A Baby* is passable garage, whilst *You're Gone* is the better track, with a repetive guitar refrain bubbling throughout the song. Both have subsequently resurfaced on *Michigan Mayhem Vol. 1* (CD) and *Michigan Mixture, Vol. 2.* (although the latter retitles *You're Gone* as *She's Gone*).

Just 500 copies of the 45 were pressed making it the rarest Rembrandt 45 but on the 'A' side, the band simply substituted 'Talking' for 'Walking' on the old Nancy Sinatra hit. However, its lack of originality did not prevent it getting some airplay. Rembrandt's owner, Ronnie Weiss, later changed their name to Nickel Bag - not the band who recorded on Kama Sutra - but they remained in oblivion.

NB: There's also a French EP with picture sleeve: *Buy Me For The Rain/Euphoria/Melissa/Candy Man* (Liberty LEP 2279) 1968.

The Nitty Gritty Dirt Band deserve to be included here for their first few albums, when they were "a sort of jug band without jug", a throwback to the mad music of Spike Jones, of the English Skiffle bands: zany, homemade music with the sort of comedy that popped up occasionally in the New Vaudeville Band, the Jim Kweskin Jug Band, Dr. West Medicine Show or the British Bonzo Dog Doo Dah Band.

Originating from the Californian Long Beach coffee houses, the first version of the group was formed by Jeff Hanna and Bruce Kunkel with John McEuen, Jackson Browne and various other local musicians. They began playing in Orange County and later moved to Hollywood's Troubadour and The Ash Grove. William McEuen, John's brother, became their mentor and manager and managed to get a recording deal with Liberty Records.

The first album brought them thir first hit, *Buy Me For The Rain*, written by Steve Noonan and Greg Copeland. Produced by Dallas Smith, a pre Beatles school producer, the album offers a pleasant mix of good time music, bluesy tunes (Rev Gary Davis' *Candy Man*) and two Jackson Browne songs: *Melissa* and *Holding*. Bruce Kunkel was the only member to write a track *Song To Jutta*. *Ricochet* in 1967 offered the same kind of music.

For the next album *Rare Junk*, Bruce Kunkel had left and was replaced by the former Kaleidoscope member, Chris Darrow. Two members of Hourglass, Sandlin and Hornsby, plus Bernie Leadon (then with Heart and Flowers) and Rodney Dillard (of the Dillards) guested and the sound was fuller and more "modern" than on their first album. The material was once again a combination of old tunes, plus some excellent songs composed by young songwriters: Jackson Browne (These *Days*), Tim Hardin (*Reason To Believe*) and Steve Gillette (*A Number And A Name*).

In 1968 they had a starring role in 'Paint Your Wagon' and became the first pop group to get a major role in a high budget Hollywood musical. Shortly afterwards several members decided to go into a different sound and the group split up. The **Nitty Gritty Dirt Band** would reform in 1970 and became a respected country rock group, recording the million-selling version of Jerry Jeff Walker's *Mr. Bojangles*.

In the late '70s, after several personal changes, their changed their name to The Dirt Band. Various versions of this group still record and tour from time to time.

Well, someone just had to make a record called *Love-In*. You'll find this likeable psychedelic ditty on *30 Seconds Before The Calico Wall* and *Boulders, Vol. 11*. Strangely, *Paper Man* appears on *Rubble, Vol. 15* where it's somehow surmised that the band were from the U.K. despite the 45 getting no U.K. release (huh?!). Certainly they were from the Tampa, Florida area where Elliott and Richardson had previously been in various outfits including the Raveons, Outsiders and Soul Trippers. Perhaps Rubble was confused by the Liberty/Roulette 45s since the styles and credits bear no relation - the Liberty 45 is **Noah's Ark** attempt at commercialism, with the addition of Rodney Justo (ex-Candymen). Both sides were written and produced by the Buie/Cobb team (pre Atlanta Rhythm Section) and It's typical '69 soul 'n' brass bombast.

Bobby Caldwell had earlier drummed for The Go-Mads, prior to forming **Noah's Ark** with Buddy Richardson and Ronny Elliot. Caldwell then was recruited by Johhny Winter and, later the UK/US outfit Captain Beyond. Caldwell also drummed on the New Englander's tracks found on the Tener Bee-Jay sampler LPs. When Caldwell left The Go-Mads, the remaining members became, Plant Life with one 45 *Flower Girl* (Date) c1967. This garnered some local airplay and the band used to play regularly at Winter Park Youth Center in Orlando. Some members of **Noah's Ark** would go on to form Duckbutter.

From Grandview Heights, a village just Northwest of Columbus, Ohio, these **Noblemen** inspired by local heroes The Dantes, were active between 1966-68. Their main claim to fame was their inclusion on the rare *Hillside '66* compilation, with a cover of The Who's *Under My Thumb*. Chris Calvin recalls: "Hillside Records was run by a guy called Larry McKenzie, who we used to hire amplifiers from for our gigs. The track was recorded about a month after we formed in the fall of '66 and we were all fifteen at the time. Larry had a good two-track Ampex or Scully machine and the track was recorded in Larry's house, with band members spread through his front room, dining room and kitchen. The *Hillside '66* record itself came with phone numbers under each band's name and was meant to be a demo for each band... it ended up being a snapshot of his customer base for 1966!"

Confusingly it turns up again, with the last verse repeated, as *I Can Hear The Rain Drops* by The Aces on *Thee Unheard Of*, supposedly a collection of Michigan acetates on the Punch label (a Hideout subsidiary). However, it turns out that the reason they were "unheard of" is that many of these acetates were modern forgeries, manufactured by a fraudster who duped the compiler.

The local radio station banned it because they thought the song was about sex and it sank without trace. The group soldiered on until 1968 when the draft and college led to their demise.

Nobody's Children

45:

1. Good Times/Somebody To Help Me (GPC 1944) June 1968

The 'A' side of this Dallas outfit's 45 can be found on *Highs In The Mid-Sixties Vol. 11: Texas, Part 1, Flashback, Vol. 6*, and *Get Primitive (The Best Of Pebbles)*. With its monster guitar riff, psychedelic fuzz and rampaging punk vocals this cut is rather special). Both sides of the 45 later figured on the *Acid Trip From The Psychedelic Sixties* compilation.

Nobody's Children

45:

1	Girl I Need You/Girl I Need You (instr)	(Kiderian 45112)	Nov. 1967

A mid-sixties garage band from Chicago. *Girl I Need You* is an uptempo blast, with plenty of fine fuzz guitar and harmony vocals. You can also find it on *Pebbles, Vol. 6* (CD) and *Let's Dig 'Em Up*, whilst the instrumental 'b' side version appears on *Buzz Buzz Buzzzzzz Vol. 1* (CD).

45:

1. Baby - I Tried/St. James Infirmary (Delta 2207) 1966

St. James Infirmary, a blues-influenced song written by G. Primrose, can also be heard on *New Mexico Punk From The Sixties* and *Sixties Archive Vol. 4* (CD).

3. I Can't Let Go/Don'tcha Feel Like Crying (Bullet 1000) 1967
4. I Can't Let Go/Don'tcha Feel Like Crying (Buddah 36) 1968

NB: (2) released under the monicker The Surf Boys.

Yet another outfit of this name, this time from Washington DC. The band were managed by Washington Radio station WPGC DJ Harv Moore, and the horns featured on *I Can't Let Go* were courtesy of another DC group called The Arabians. The flip, *Don'tcha Feel Like Crying* is perhaps more interesting, with some fuzz guitar.

Whilst under contract to United Artists they recorded a Christmas single under the monicker The Surf Boys. *Junco Partner (Worthless Cajun)* can be found on *Garage Punk Unknowns, Vol. 5*.

Jan Zukowski is currently playing with an outfit called The Nighthawks.

Nobody's Children

45:

1	Colours And Shapes / ?	(Deek 1021)	196?

Colours And Shapes is an awesome 'bad trip' punker with screeching fuzzed guitar and snarling vocalist, comparable to the brooding magnificence of The Unrelated Segments or The Chocolate Watchband. The lyrics come in clotted couplets of syllabic triplets, as if being extracted by forceps -

> "I see blue - you're all green.
> It's all lonely - nothin' seen.
> Outside world - too bad, square.
> It's too bad - you're still there.
> (chorus) I'm alive - I'm alive.
> You're so cold - growing old.
> There's no time - you're my mind"

Crank it up on *The Open Lid EP, Turds On A Bum Ride Vol.5* CD or *Mayhem And Psychosis Vol.1* CD. No idea yet whence they hailed - no one's lettin' on and the writer credits (Sterling, McKenzie, Spitale) is the only clue to hand.

Formed in 1967 in Bunkie, Louisiana by the above after the break-up of their previous group, The Barracudas. However, this was a short-lived outfit, who don't appear to have recorded. 2. Three O'Clock Merrian Webster/Situations (Orbit 1121) 1968

A different Houston outfit who started out as a folk-rock band but progressed into a bizarre psychedelic outfit. Their development is well documented on the compilation *Three O'Clock Merrian Webster Time* which includes the above 45s, two 1967 outtakes:- *My Little Red Book, New Generation* and a cut from a 1968 45 on Orbit (1126) called *Mainstream* by which time they had changed their name to The Smoke. In 1969 they relocated to California and recorded an LP for UNI.

Situations, quite an interesting garage punk number, can also be heard on *Flashback. Vol. 6* and *My Little Red Book* was included on *The Cicadelic Sixties, Vol. 2*. The six tracks featured on *Three O'Clock Merrian Webster Time* have also been recompiled on Collectables' 3-CD set - *Acid Visions, The Complete Collection Vol.3*, and five are repeated again on *The History Of Texas Garage Bands In The '60s Vol.2: The Orbit Records Story*.

45s:

1. Not For Me/How Many Times (N/K) 1966

A five-star garage combo from Mount Airy, North Carolina. *Thoughts...* can be heard on *Chosen Few, Vol. 1* and *Vile Vinyl, Vol. 1*. Its flip, a typically primal, grungy fuzztone scream about partying, has resurfaced on *Pebbles, Vol. 12* and *Teeange Shutdown, Vol. 10*. The excellent and thoroughly worthwhile retrospective LP on Crypt is a must for garage-heads everywhere.

Some members went onto an outfit called Blu-Erebus who released one 45 in September 1968. *Plastic Year*, "a prime example of four-star late '60s psychedelia" (Erik Lindgren), can be heard on *An Overdose Of Heavy Psych*.

Also a mystery outfit, Willow Green, put out a 45 - *Fields Of Peppermint* (a Deatherage-Evans composition), backed by an instrumental version of the same, on Whiz #619 circa 1968. Another **Nomads** offshoot?

45:

1. Down In The Basement/I Wish I Was A Punk (Vanguard 35073) 1968

This Berkeley-based band were one of the first wave of Bay Area rock bands. Sokolow came from a very musical family and owned a five string banjo by the time he'd reached High School. Mandell was an old High School friend of his, who earlier played with a band called The Dune Patrol in Santa Barbara. Joe Luke was the drummer in the original line-up, which played at the first Family Dog Longshoreman's Hall concert. With folk musician, O'Connor, on bass they started gigging at the Jabberwock where Berkeley's only other rock band at the time, Country Joe and the Fish, were the houseband. Through The Fish they met Chris Strachwitz who had earlier recorded their *Rag Baby EP* and he recorded them on a four track EP in 1966. This is now rare. The tracks were *Where Does Love Go, Down In The Basement* (which was later re-recorded for the album), *What Am I Doing Here?* (also on the album), and *I Got To Get Out Of This Dream*. By this time Oswald, who'd played with various blues and jazz outfits, had replaced Luke on drums.

The Notes later became the houseband at The New Orleans House (Berkeley), and built up a strong local following playing lots of benefits around The Bay Area. They got a manager, Dan Carey in 1967 (he'd earlier been a road manager for Junior Wells in Chicago), and then a contract with Vanguard for the above album. Ex-jazzman, Skip Rose came in to replace the original keyboard player, John Miller, who fell ill just before it was recorded. The album, which was cut in New York, reflects the diverse musical backgrounds of the band's members. Its most psychedelic cut was *Why Did You Put Me On?* which had a fine fuzztone solo and swirling organ. Their lightheartedness is best represented by *Follow Me Down (To The Und6rground), I Wlsh I Was A Punk* and *Mainliner*. Other notable tracks were *Where I'm At, Cantaloupe Island* and *What Am I Doing Here?*

Sadly, after O'Connor and Oswald left the band, Vanguard, fearing they would disintegrate, became unwilling to provide them with the necessary financial backing and eventually dropped them, Further personnel changes ensued before they left Berkeley for Taos in New Mexico and finally disintegrated. Fred Sokolow and Mark Mandell later formed Prince Bakaradi in Berkeley in 1970. In the late seventies, when Sokolow and Mandell were co-operating on a book about their sixties music experiences, they re-assembled the band with a new line-up recording one album, *Prince Bakaradi* (Apaloosa AP 006) 1980, using mostly material recorded back in 1970 and 1972. Prince Bakaradi was the villain of a fifties Sci-Fi series.

Sokolow also recorded a bluegrass album, *Bluegrass Banjo Inventions* (Kicking Mule) 1977. Skip Rose went on to play on a number of Charlie Musselwhite albums. Mandell now writes fiction and non-fiction full-time. Sokolow still plays music and writes guitar instruction books for many publishers.

1. (C) Yellow Canary/If I Needed Someone (Bedell 80405) 1967

While based in Iowa (members hailed from Storm Lake, Albert City, and Fort Dodge), **The Norious Noblemen**'s only 45 *Yellow Canary* (an original written by the entire band) b/w a cover of the Beatle's *If I Needed Someone* was recorded at the Lynn Recording Studio in Rochester, Minnesota in 1967. Only 500 copies were pressed and because a guy called Tom Bedell helped fund the 45 his name was put on as the record label name.

The band's live set list consisted of many of the "Top 40" songs of the era, ranging from the Rolling Stone's *Get Off Of My Cloud*, Sam The Sham and The Pharaohs' *Wooly Bully*, and the Beatle's *Ticket To Ride*, to more latter day fare such as covers of songs by Crow, Blood Sweat and Tears and Jimi Hendrix. Keyboardist Mike McCormick has stated that the band's "legacy was doing tunes that were either too hard or too weird for other bands of (the) time to do. Yet we had to remain popular and danceable... earlier we were more mainstream, but later we evolved into a more electic band". The band was locally reknown for playing everthing from *Harlem Shuffle* to the *Rocky And Bullwinkle* theme!

It should be noted that this is an entirely different to Iowa's other Noblemen.

1. Games/It You Only Had Time (Decca 32138) 1967
2. OtherGirls/John Knight's Body (I Wanna Get Out) (Decca 32194) 1967

This band were students at University of North Carolina in Chapel Hill. Their album, which was recorded in New York in December 1966, is definitely worth investigating and is a minor collectable. Its very Anglophile sound garnered it a U.K. release, although the band had split by April 1967.

Bassist Jim Opton told U-Spaces:- "We were a band that was making a pretty good living playing fraternity parties around the campus, and a few cellar clubs in Chapel Hill. My fraternity, Phi Mu Alpha, was sponsoring a charity concert for our scholarship fund, and we decided to go for broke that year and book a big name. We contacted William Morris Agency in New York, and booked Chad and Jeremy. We needed an opening act, so I booked my own band... got us real cheap. The deal was that Rob Heller, who was with the Morris Agency would come and hear us play. He signed us immedately after the concert. A week later he hooked us up with Elliot Mazur, who became our producer. Elliott also worked as a song peddler for E.B. Marks Music, who published the music. We got a recording contract with Decca, I don't know how, but Rob put that deal together with Elliott, and the next thing I know, we are in the studio with all kinds of famous people that had us in awe for the first 35 seconds or so. I do know that somebody thought we were kind of special, because the studio was absolutely closed to visitors while we were there, and we were not allowed to take home raw tape to play for anyone. We did a lot of things that were pretty advanced for our time. Listen carefully to *Morning Dew* for example. The strange vocal effects were done by feeding the vocals through a Leslie Tone Cabinet from a Hammond B3. Also, the bass lead is the first bass feedback lead I think I can remember in a rock song. I blew up the amp doing it!! Cost me $750 (a LOT of money I didn't have in 1966)!! But, it was a hell of a lick. The album was essentially recorded by five of us: Randy, Bill, Joe, Cam and me. Phil had departed for law school. I believe he is alive and well, and practicing law in Charlotte, N.C."

"Actually, there is one little piece or two of rock and roll history that goes with that album. It was the first ever recorded using the very new, and relatively unknown, Dolby NR System. It took up a good size room at the time. The engineer for the album, Fred Cretera, was also the engineer for Simon and Garfunkel."

Joe Mendyk had earlier played in Tri-Power, The Better Days and The Warlocks (with an excellent 45 on Decca). The 'A' side of their first 45, excellent harmony pop-punk, can be heard on *Echoes In Time. Vol. 2*, the flip is on the album. *Forgotten Man*, also from the album, has resurfaced on *Baubles, Vol. 1*.

From Dallas in Texas they started out in 1964 covering Astronauts' songs but developed into a tightly knit pop band issuing a folk rock 45 on Star which can be heard on *Texas Punk: Vol. 6*. Dennard later headed for LA joining The Ravers. Then, after a spell in The Low Numbers, he ended up in fellow Texan Gary Myrick's band.

The Distortions album is a compilation of the recorded output by this mid-to-late sixties Dallas band. The title track falls into the folk-rock vein which is also where some of their other material lands. It also contains some really cool tracks which were recorded specially for lip-syncing to on the fame 'Sumpin' Else' TV show. These include a fuzz-frat version of *Shake*, the Mersey sounding *Help*, a cool version of *Bus Stop* which quite possibly outdoes the original as well as the obligatory Byrds cover *Feel A Whole Lot Better*. There are a few other tracks from an unreleased 45 and some demos. But while they did some stellar versions of other band's songs, in the end, it's their originals from their 45, *William Junior/And It's Time* that really shine.

45:

1. Almost There/Sunshine Of Your Love (Mothers 1312) 1968/9

A LA-based outfit whose album is at present only a very minor collectable. Seriously arty pop it mixes soft melodies with searing acidic guitar - tracks like *Love* (a Lee Michaels cover) owe a heavy debt to the Vanilla Fudge school. With covers of *Sitting On The Dock Of The Bay* and Cream's *Sunshine Of Your Love* amongst freshly-scrubbed harmony pop, this group seemed to be in a quandry - "are we just another pop group or a serious rock band?" The resulting dichotomy won't convince fans of either genre, so the LP is disappointing and best described as patchy.

Love has also resurfaced on *Turds On A Bum Ride Vol's 1 & 2* (CD).

ALBUM:

1(A)	NO EXPLANATIONS	(Atco SD 33-274)	1969

Produced by Arthur Gorson (Phil Ochs, David Blue) and Jerry Schoenbaum (Blues Project), *No Explanations* is the sole album by **Len Novy**. Recorded in New York with some renowned session men, the material comprises covers of Ars Nova's *Round Once Again*, Eric Andersen's *Think About It*, Stevie Wonder's *You're The One For Me* and several originals penned by **Novy** often helped by Bonnie McCullough or Michael Thomas. Although the album suffers from often insipid arrangements by Paul Harris, it does contains three good tracks: *Tucson* (with some tasteful guitar parts), *Shy Ann* and *Rain And Snow* (both with Byard Ray's fiddle). The music is a mix of electrified folk and rock, graced by **Novy**' distinctive voice.

1	I Want/Like A Flying Bird	(Embassy 1968)	1967

Previously known as The Ban, from Lompoc, Califorina, they changed names when their lead guitarist Tony McGuire was drafted and David Zandanotti came aboard to play bass/vocals. Subsequently the group moved to Los Angeles, signed with Embassy (owned by comic Melton Burral) and changed their name to **The Now**.

Their 45 contains straight pop-rock on *I Want* backed by a pleasant harmony pop number in a baroque vein that may appeal to fans of The Left Banke.

Managed by Randy Guzman's parents, (hence his stage name Gordon), the band were shopped around to all of the L.A. labels and promotors. They'd played great gigs at the Sea Witch and Pandora's Box on the Sunset Strip, building up a stong following and generally playing the same circuit as the Seeds, Strawberry Alarm Clock, Yellow Pages etc... They also moved to San Bernardino east of L.A..

Finally they caught the attention of Matthew Katz in San Francisco. Katz' had just lost contractual control of

Jefferson Airplane and was looking for new groups to bolster his roster. **The Now** moved to San Francisco and were 'given' the name Tripsichord Music Box.

Another unconnected group called **Now** put out one 45 - *Deja Vu/Having A Hard Time* (Cotillion 44005). Origins unknown.

A psychedelic masterpiece from a Chicago-based band with a strong Anglophile influence which probably explains why both sides of the 45 were erroneously included on the U.K. compilation, *Chocolate Soup For Diabetics*. The'A' side has some fine organ and frantic guitar-work, the flip is an instrumental. Often described as 'psych', the 'A' side is actually decent pop with some good keyboard moves, the odd baroque touch and weird effects - all said, an interesting effort by this Pacific Northwest outfit. It's backed by a slightly slowed down version of The Hollies' hit with lotsa echo. (Max Waller).

Although this album was pressed in Canada and lists no home base for the group on the cover, it is known that they were based in Marin County. The album, which is pop rock with male and female vocals, sounds like a cross between Pablo Cruise and later-day It's A Beautiful Day - which is defined as "psychedelic" by some record dealers in Europe. The group was previously known as RJ Fox, who saw a double CD issue of their early seventies material issued in Summer 1994: *RJ Fox: Retrospective Dreams* (Black Bamboo).

Shelly Fox was previously in Cookin Mama and Stephen Barncard also worked with Chet Nichols and David Crosby. Kelly Bryan had earlier been in the short-lived Grootna, and later played on a couple of albums by Jesse Colin Young.

Born in Texas in 1940 **Ochs** was a journalist student in Ohio before he started singing in the early '60s. He arrived in Greenwich Village in 1962, began writing political folk songs and soon got a contract with Elektra. His first album established him as the first of the singing journalists, with songs about the Bay Of Pigs, the escalation in Vietnam, and also an inspired adaptation of Edgar Allan Poe's *The Bells*. Danny Kalb (pre Blues Project) played guitar and Bob Gibson helped to write some tunes.

The second album, *I Ain't Marchin Anymore*, was even more political, with *That Was The President* being about Kennedy Assassination and there are also two antiwar songs (the title track and *Draft Dodger Rag*). Both albums were produced by Paul Rothschild, the future Doors/Love producer. After a good live album, with *There But For Fortune* (a later hit for Joan Baez), **Ochs** moved to California and signed with A&M, Larry Marks producing his three next albums.

Pleasures Of The Harbor was his more ambitious project to date and marked an attempt to become a major songwriter/poet a la Dylan. Two tracks are oustanding: the long *The Crucifixion* about Kennedy's Death, with an electronic score arranged by Joseph Byrd (two years before his United States Of America project) and *Outside Of A Small Circle Of Friends* which could have been a hit if it wasn't for the censorship which chopped up the single.

Ochs then teamed up with Van Dyke Parks for *Tape From California*. His most successful album notale for the title track and the 13 minute *When In Rome*, a rewritten history of the USA. Ramblin Jack Elliott and Lincoln Mayorga backed him on some tracks.

Ochs then went to Chicago for the Democratic Convention in August 1968. He was involved in the violent riots, even spending a night in jail. He never recovered from this trauma and his next album *Rehearsals For Retirement* showed a gravestone with the inscription: "Phil Ochs (American). Born El Paso, Texas, 1940. Died Chicago, Illinois, 1968". Musically it was very sad and depressing, with songs like *The World Began In Eden But Ended In Los Angeles* and *I Kill Therefore I Am*. Bob Rafkin and Mayorga helped him on this project.

For his next album, **Ochs** bought a gold lam suit, posed a la Elvis Presley and titled the project *Greatest Hits*, with a subtitle: "50 Phil Ochs Fans Can't Be Wrong". Produced by Van Dyke Parks it featured a prestigious back-up group: two Byrds (Clarence White and Gene Parsons), Ry Cooder, James Burton, Tom Scott and Dick Rosmini. Unfortunately, the album is also one of his weakest, with the heavy arrangements being unsuitable.

The next album *Gunfight At Carnegie Hall* was released only in Canada and Japan and contains two rock medleys of Elvis Presley and Buddy Holly songs. **Phil Ochs** then began traveling to Chile, Australia (where he recorded a single) and Africa, notably Tanzania, Nigeria, South Africa and Kenya where he recorded a single in Swahili.

Back in the U.S.A. and after a period of depresion, he released a final single *Here's To The State Of Richard Nixon/Power And The Glory*. A tormented character, **Phil Ochs** killed himself in 1976.

Two albums with previously unreleased tracks subsequently been released: the essential double album *Chords Of Fame* with an extensive biography by Ed Sanders (of The Fugs), and a collection of early demos, *A Toast To Those Wwho Are Gone*, in 1986.

His brother, Michael Ochs, has founded the 'Michael Ochs Archives', one of the biggest collections of music related items: records, sleeeves, posters etc.

This is a very rare psychedelic/progressive collectors' item, from a Brentwood, Long Island, New York group and certainly the recent repressing/CD issue is well worth seeking out. The album is of a pretty consistently high standard. There's lots of heavy psychedelic guitar, upfront keyboards and very expressive vocals. The stand-out

tracks include *Society's Child*, *Church Yard* and *Angel Dust* (although this last one is partly marred by a rather boring drum solo).

Michael Tschudin's composition *You're Not There*, was a reworked version of a track that appears on Listening's album. Original copies were issued in a plain white cover some of which were emblazoned with a title sticker reflecting the album title above. Most were in plain covers and this title does not appear on the record label.

This is Brooklyn's Jagged Edge who were forced to change their name for this, their second 45. A double-sided

gem, *A Change Is Gonna Come* is a chiming folk-rocker with subtle fuzz in the background and momentarily brings to mind The Dovers. *Xanthia*, meanwhile, is a glorious Eastern raga-type concoction with mewling guitars, 'sitars' and suitably cool vocals - one for the connoisseur.

Art Steinman recalls - "We were all set to go into the studio with our version of *It Ain't Me Babe* by Dylan, when The Turtles released their version. Ours was quite similar to theirs so we scuttled the plans when they beat us to the punch. *A Change Is Gonna Come* was recorded as a substitute. It was a big hit for and written by Sam Cook, the famous R&B singer, who did such great singles as *Chain Gang*, *Another Saturday Night*, *Cupid* and many others. That's me playing surfer twelve string on the tune and singing harmony. The fuzz is Harley on bass through my Maestro fuzz box, one of the first ever made, I think".

"Drew Georgopolous, second guitar in Jagged Edge to my lead guitar, wrote *Xanthia*. I'm playing the psychedelic slide guitar on my Gretsch Tennesean with a Zippo lighter."

Xanthia can also be enjoyed on the *Brainshadows* (CD).

The acetate version of *Double Trouble* and *I Wanna Do It* have subsequently resurfaced on the great Sundazed We The People retrospective, *Mirror Of Our Minds*, together with a previously unreleased track, *Drivin' Me Out Of My Mind*.

Like many bands of the era, their destiny was shaped by the U.S. draft - when Dennis Mesimer was enlisted, Tommy Talton was recruited from The Chessmen. Soon afterwards Jim Robinson got his call up cards and with their band evaporating fast, Ron Dillman organised a jam session with Wayne Proctor and Randy Boyte from The Trademarks - who he also managed. Within the week We The People had cut their first session and the rest as they say is history...

This was one of the number of bubblegum acts put together by producers Jerry Kasenetz and Jeff Katz. From the start this was more of a 'project' rather than a single band. *Beg, Borrow Or Steal* was recorded by The Rare Breed. The outfit that first went on the road as **Ohio Express** was another Mansfield, Ohio group Sir Timothy and The Royals, led by Tim Corwin. They were involved in many of the earlier studio recordings and Corwin stayed on through later personnel shifts. Other early tracks were recorded by the Measles (who included Joe Walsh and were later known as Lacewing), before Levine took control of the project.

They are best remembered for their hits *Yummy, Yummy, Yummy* and *Chewy, Chewy*, which were typical of the bubblegum genre (heavy repetitive bass beat, simple lyrics and nasal vocals), but they also enjoyed several other minor hits. Two of their albums made the Top 200:- *Ohio Express* (which included *Yummy, Yummy, Yummy* climbing to No. 126 and *Chewy, Chewy* peaked at No. 191, but bubblegum music really aimed at the singles market. Their first seven 45s were sung and written by Joey Levine, who was on Buddah's staff, but Buddy Bengert was lead singer on *Pinch Me* and Graham Gouldman (later of 10cc fame) performed the vocals honours on *Sausalito (Is The Place To Go)*.

On their eponymous second album whilst the studio musicians performed songs like *Yummy Yummy Yummy* and *Down At Lulu's*, they left the rest of the material to the band pictured on the cover. Tucked away on this album are some very pleasant surprises. For fans of pop-psych with beautiful harmony vocals, *She's Not Coming Home* is simply exquisite and the breezy pop of *Winter Skies* may appeal too. *Into This Time* has a great psychedelic guitar ending, *First Grade Reader* showcases a harsher side to their music - it also features some fine guitar work. *Turn To Straw* is a superb slice of psychedelia and the jewel in the crown is garage-popster *The Time You Spent With Me* which contains some great psychedelic guitar passages.

Chewy, Chewy and *Firebird* also featured on the compilation *Pop Explosion* (Buddah 643 312), which came out in 1968. More recently *First Grade Reader* has resurfaced on *Turds On A Bum Ride, Vol. 2*.

Do check out some of their albums - you'll be pleasantly surprised.

The album's quite a collectors' item and Greg Shaw listed it in his Top 10 "Acid Punk" review in one of the Bomp issues of 1978 or 1979. The reissue contains all sixteen tracks from the original plus another fifteen the group had recorded in the same sessions. The reissue consisted of four 10" albums in a can (like the old metal boxes for magnetic tapes).

Later **Oho** became more organised and became a progressive band in 1975-76. Their never released *Vitamin Oho* album was finally put out in 1992 by Little Wing (LW 3023).

This Indiana outfit has received much compilation coverage with *Bleaker Street* included on *The Psychedelic Sixties, Vol. 1* and the flip side appearing on *Michigan Mayhem Vol. 1* (CD), *Garage Music For Psych Heads, Vol. 1, Mind Blowers* and *60's Choice Of Scarce Garage Recordings, Vol. 1*. The flip's a typical garage effort with some catchy organ and guitar work. A second recording, *I Saw What You Did*, under the name Madson, was also cut in Chicago and this can be heard on the *Colour Dreams* compilation - ha, but wait. *I Saw What You Did*, also appears on *Cicadelic Sixties, Vol. 2* though erroneously credited (on the LP sleeve only) to The Nomads - a bit of a mix-up. If you mix-up the letters of Madson you get Nomads - is this a private joke by *Colour Dreams'* compiler? No one seems to have heard of a Madson 45. (Max Waller)

I Can't Believe, a punchy fuzz-popper which hit the local top ten, can be heard on *I'm Trippin' Alone*.

Guernsey also produced a 45 by The Piece Kor in 1968. He was back performing with brother John in the early '70s in a band called Claude Jones.

On The Seventh Day

TOP

ALBUM:

1. ON THE SEVENTH DAY (Mercury SR-61248) 1970

This was a concept album rather than a band. It was written and produced by Alan Bernstein and Victor Millrose in New York. Leroy Glover was the arranger and conductor. There's a note on the album sleeve which says:- "It took God six days to create a perfect world. On the seventh day he rested. That was a big mistake for on the seventh day we took over." The album begins with a narrator reading these sentences and then gives way to a collage of sounds/documents and musical "Hair" - like songs. The bombing of Hiroshima, political speeches, black activists, civil rights, the Vietnam War, Chicago and Paris 1968 riots - all are mixed.

The album was released in two different sleeves (like the Asylum Choir Mercury album. One has a tree on the cover - the other features two naked kids (a boy and a girl). This second cover was immediately withdrawn and replaced with the tree cover, which is much more common.

Personnel:		
JOHN BELAND	gtr, vcls	A
KENNY HODGES	bs, vcls	A
THAD MAXWELL	drms	A

One Man's Family originated from guitarist Nigel Pickering and bassist Kenny Hodges, members of Spanky and Our Gang who were seeking to work together in a similar lineup after Spanky had left to go solo in 1969. John Beland (ex-Wheatstraw), auditioned and got the job as guitarist, vocalist. Also brought in was vocalist Sue Richards and Thad Maxwell as the band's drummer, fresh from a stint with the A&M band Tarantula with whom he had played guitar. Although no tapes of **One Man's Family** exist the group mixed five part harmonies singing a blend of pop and country as an early country-rock outfit. Their arrangement of *When Will I Be Loved* inspired Linda Ronstadt's version.

One Man's Family toured with The Byrds, Hollies and Steppenwolf, and had received rave reviews. While touring with the comedy troupe 2nd City and hanging out with John Prine and Steve Goodman they split mid-tour in Chicago. After the band split up, Thad Maxwell and John Beland returned to L.A where in December 1969 Beland was hired by Linda Ronstadt to help replace her backing group The Corvettes. Beland merged forces with three quarters of The Reasons, Eric White on bass, Gib Guilbeau on fiddle, vocals and guitar, and Stan Pratt on drums.

This outfit became Swampwater and in early 1970 Eric White became their road manager with Thad Maxwell joining to play bass. They recorded their debut album in 1970 and followed with a second in 1971, after backing Ronstadt for a year and a half they backed Arlo Guthrie before folding in 1972 while recording their third album.

Nigel Pickering reunited with Spanky McFarlane for a 1975 Spanky And Our Gang album. Eric White had worked with The Kentucky Colonels in the '60s with brothers Roland and Clarence White, including their 1973 European reunion tour. Gib Guilbeau and John Beland worked as backing musicains for a variety of pop and country artists, both recorded solo albums in the 1970's and teamed up in The Flying Burrito Brothers, Sierra and The Burrito Brothers. Beland currently leads the Flying Burrito Brothers.

This band came from the Lexington area of Kentucky. Their first 45 sounded very Byrds-influenced. The 'A' side to the second was excellent chiming soft psychedelia, whilst the flip was guitar-laden pop-punk.

Trifolia can be heard on *I Can Hear Raindrops*, a compilation of vulnerable and frail 'loser' garage-ballads. *Psychedelic Illusion*, a coy garagey hippie-psych ditty, that brings to mind the Venus Flytraps' *Have You Ever*, is on *The Psychedelic Experience Vol. 3*.

NB: (1) reissued in 1988 also issued on CD 199?.

A mellow rock album, with vocals reminiscent of The Doors' Jim Morrison. It's thought that they came from Ohio, but this hasn't yet been confirmed. **One St. Stephen** have however sometimes been confused with St. Steven, mainly due to incorrect sleeve notes on the *Filling The Gap* compilation. In fact the two tracks featured on this compilation were recorded by Front Page Review, prior to Steve Cataldo having a short stint in Ultimate Spinach. Subsequently the **One St. Stephen** reissues have also included these bonus tracks due to an incorrect assumption that the two artists were the same.

2. I See The Light/Tears In My Eyes (Paula 281) 1967

NB: (2) features the same recordings as (1), but with the track titles renamed.

Although this band were from Vancouver, Canada, we're temporarily including them in the U.S. section of the

archive to help avoid confusion with a different Louisiana act who issued a 45 on Apollo and two on Smash. This **One Way Street** only recorded one 45, which was originally issued on Tom Peacock's VanTown label and subsequently licensed to the U.S. Paula label, who reissued it with different track titles.

Presumably because of the Paula release, people have assumed that the band came from Louisiana and indeed you can find both tracks on Eva's *Louisiana Punk Groups From The Sixties, Vol. 2* and it's CD equivalent *Sixties Archives, Vol. 3*. In addition, *I See The Light* has resurfaced on *Psychedelic Unknowns, Vol. 7*, whilst *The History Of Vancouver Rock & Roll, Vol. 4* includes both tracks taken from the master tapes, with liner notes from band member Doug Fairbairn.

This was recorded by an Ohio teenquartet at the Sunrise Studios in Hamilton in the Summer of 1966. ALBUM:

1. THE ONES (Ashwood House AH-1105) 1966

This Boston-based quintet originally came from Lake George, NY and were known as one of the hottest outfits to come out of the city in the era. Success probably eluded them because they concentrated on covers of other artist's songs and didn't do originals. Their album, which is full of singles covers, is now a significant collectors' item and hasn't yet been repressed. For a taster of how they sounded *Didi-Wa-Didi* on *Pebbles, Vol. 13*, *Mister You're A Better Man Than I* on *Oil Stains*, and *I Can't Explain* on *Psychotic Reactions*.

Sam DeSantos took time out from **The Ones** to be the singer and keyboard player with the Missing Links who released a rare album on Fleetwood under the auspices of the ubiquitous Bobby Herne (Cobras, Outside In).

It's possible that there's more than one outfit here - some have placed the *Church Key* mob in San Luis Obispo, California, and the *I'll Be Gone* bunch in Sacramento, probably due to the label. A safe bet is they were Californian and liked to travel!

From Steubenville, Ohio and previously known as the Epiks. *Mess Around*, featured on *Victims Of Circumstances*, is a party-dance popper, like a hybrid of *Shake* and *Land Of 1,000 Dances*. The vocalist has a strange drawl to his voice and on the slow ballad flip with Animals - style keyboards, he sounds strangely slurred in his attempts to do a Scott Walker deep 'n' moody style. NB: (5) label listings seem to give this 45 as both People #1004 and #1007, with release date somewhere between '69 and '71.

A bright 'n' breezy pop outfit from Los Angeles, Slivinski, the organist, also wrote and arranged all eleven songs on the album which was produced by Norman Ratner, although Larry Younger was the group's leader. The album, which is quite highly orchestrated, is a typically polished LA production with pleasing vocal harmonies, but it cannot be described as psychedelic. Their second 45 and *Sweet Potato* are not on the album.

Mr. Peacock the bands third 45 was also featured in the movie, "The Love God", starring Don Knotts.

After their UNI contract expired, the band signed to MGM for one further 45, produced by Mike Curb.

In addition to the personnel listed above, Walter Slivinski's half-brother Ron Guzak was added at some point as second keyboardist. Ernie Hernandez (gtr) joined in 1970 and Larry Parker (bs, vcls) joined in 1974. **Orange Colored Sky** finally called it quits in the early '80s, but reformed in 1996 with Ernie Hernandez (gtr), Larry Younger (vcls), Larry Parker (bs, vcls), Ron Guzak (kyb'ds, vcls) and Andrea Carol-Libman (drms, vcls). Michael Chanslor replaced Ron Guzak in 1998 and Larry Younger left in December 1999. "Ghost World" stars Thora Birch and Steve Buscemi and will be released in Spring, 2001, by... here's some irony...MGM!"

NB: (1) also appears more commonly as a 'No label' pressing. Both albums have also been officially reissued as a double vinyl package.

Hailed from Baltimore, Maryland, where they formed in 1968. Both albums are full of guitar-oriented heavy rock gems and are recommended. The first is full of songs like *Love Me, Death Comes Slowly* and *Keep On Livin*, full of driving guitar and strong vocals. *Comfort Of You* features some nice jazzy piano playing but perhaps the finest track is the finale, *Revenge*, which features some superb Neil Young-influenced guitar playing. The second album is more of the same but slightly more aggressive vocally, particularly on the title track, and with more guitar exhibitionism on *Hungry Man*. *Dream* is a pleasant instrumental and *Whisky and Gin People* pays its dues to the blues. *The Games* provides a stunning finale much in the style of John Cipollina's Copperhead, but the first album seems marginally the better of the two. 45s:

1. Daylight/Mirror Images (Smash S-2227) 1969
2. Babylon/Precious Time (Smash S-2242) 1969

A flower-pop quintet from Baltimore (the above personnel have been deduced from songwriting credits). Their to date unheralded album is a fine example of this genre. There are very few weak cuts on it, but mostly bright and breezy pop with some delightful woodwind like *Shady Tree*. Not garage or psychedelic music, but it's typical late sixties melodic flower pop similar to albums like Orange Colored Sky. Most of the finer moments come on Side 1 on tracks like *Halls Of House*, *New Day Holiday*, *Reach For The Sky* and *8th Day In Heaven*, although *Smile For The Sun* on Side 2 is also a gem. Side 2 does included one throwaway cut, *And I Know What Love Is*, and ends with an experimental instrumental *Kama Kazie Woman*, which doesn't really come off.

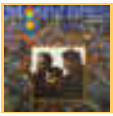
Frank Eventoff had earlier been in The Seventh Sons.

Organised Confusion

45:

1. Makes Me Sad/Tell Me Why (Golden-Records 104) 1968

Great garage - punkers from Baton Rouge, Louisiana. *Makes Me Sad* kicks off in the vein of *I Who Have Nothing* and by the end you're convinced he hasn't even got that. *Tell Me Why* is a moody mid-tempo fuzz - punker about a guy being stood up. I hope they put out some more 45s yet to come to our attention. (Max Waller)



Organised Confusion

45:

ALBUMS:

1. (A) ORIENT EXPRESS (Mainstream S/6117) 1969

NB. (1) repressed in the late eighties and on CD (Head 2796).

Originally from Europe this band moved to the States. Guy Duris was actually born on the Left Bank and later met Golesorkhi, who had been decorated by the Shah of Iran for his drumming and was interested in applying Eastern rhythms to Western music, in Iran. They met Bruno Giet, a Belgian pilot and guitarist, in Paris while travelling around Europe. Soon the three members headed for America and settled in New York's East Village initially but ended up in California where their albums were recorded. The first is Eastern-influenced psychedelia similar to Kaleidoscope. Particularly fine examples of their marriage of Eastern and Western music are *Train To Bombay* and *For A Moment*. They did not release any singles on Mainstream.

This act should not be confused with Liz Damon's Orient Express, who were from Hawaii and played cabaret

music. They issued one album *Liz Damon And The Orient Express* (Anthem) 1970, and two singles: *Loneliness Remembers/Quiet Sound* (Anthem 51005) 1970 and *All In All/Walking Backwards Down The Road* (Anthem 51006) 1970.

For A Moment and *Train To Bombay* also appear on *Turds On A Bum Ride Vol's 1 & 2* CD.

1	Ain't About To Lose My Cool/It Looks Like	(Down Home 106)	Mar. 1966

Recorded in Nashville by an obscure and raw-sounding Southern outfit *Ain't About To Lose My Cool* has some really aggressive vocals and upfront guitar. If you want to hear it, check out *Everywhere Chainsaw Sound* or *Highs In The Mid-Sixties, Vol. 8*.

Known as The Dukes, since the early '60s, they changed their name to **The Original Dukes** when they heard about another set of Dukes around Indianapolis, Indiana.

1	You'll Never Know/I'll Be Home	(Discotech 1001/1 002)	Mar. 1966

Formed by Yale University students in the fall of 1964. *You'll Never Know*, their rip off of *Empty Heart*, one of the classics of the punk era, can be heard on *Pebbles, Vol. 13* and *The Essential Pebbles Collection, Vol. 2* (CD). The flip is no slouch either and can also be sampled on *Sixties Rebellion Vol. 6* (CD).

The group played mostly college parties and private gigs, didn't play the local club scene. They did however travel up to the Boston area quite a bit, sharing some bills with The Remains, which led to some believing the group to be a Boston-based band.

Their 45 was recorded at the Music Box Record Shop in Hamden, CT in early 1966, with funds provided by three Yale pals as an "investment" in the group's potential. The four guys recorded the song in the back room of the store. A local harmonica playing whiz kid named Mark McHugh, a 15 year old, happened to be in the store, and saw the guys setting up. He heard them play their originals, and suggested adding some 'harp' to fill-out the sound. After running thru the songs a few times, Mark joined in for the session - but he was never a member of the group. He later joined Bone. Likewise, the guys had been trying to convince Steve Stack to join the group as their lead singer. He also was involved at the session, singing the lead vocal on both songs, but similarly was not a member of the group.

The 45 was issued in March, 1966 and received some local airplay, and notoriety in the boston area. They were invited to play a high profile gig at the legendary Boston club the Rat, and won the crowd over with their set. They signed a management deal with Music Productions, and moved to Cambridge for the summer of 1966 to gig. They returned to studies in the fall back at Yale, then back to Cambridge in the summer of 1967.

Two further songs exist as an unreleased acetate, although the titles are not yet confirmed. Richard Robinson would graduate from the group, move to New York City, where he became a scenester of importance, and started his career in the Music business by founding the underground rock mag called Creem.

ALBUM:

1. (A) P.J. ORION AND THE MAGNATES (Magnate XTV 122459) 1967

Reissued on (Eva 12023) 198?.

One of those gloriously rare garage LPs that *Oil Stains* supplies tasters of, in this case *We Gotta Get Out Of This Place* is the chosen extract. It contains nine covers in a somewhat pedestrian folk-rock garage style with vocals that occasionally stray into unknown keys - the strained and wavering 'harmonies'at the end of *Bells Of Rhymney* are worth the price of the reissue above! Good clean fun as witness the 'for best results, remove the needle and play at 78 r.p.m.' tag!

The Eva reissue, suggests that the band came from Ohio, but this is incorrect as the album was recorded by four students who were based at Groton boarding school in Massachusetts. The school was a very strict place - with no radios allowed, and so whenever the band played they had a captive audience. Three members of the band are all cousins (all except Jerry Milbank) and still play together occasionally. Their album was also recorded at Columbia Studios in New York. (Max Waller/Ari Embiricos).

Formed in 1965, this seminal San Francisco "avant-garde" band doesn't seem to have left behind any known recordings. All its members, however, went on to play with other groups or found fame for various reasons. When they disbanded in 1967, Terry Wilson joined The Charlatans and David Laflamme founded It's A Beautiful Day (after a brief stint with the first line-up of Dan Hicks and The Hot Licks). Jaime Leopold too joined Dan Hicks and The Hot Licks in 1968, whilst Jesse Barish, who was friends with Marty Balin became a song writer and went on to form Jesse, Wolff and Whings in 1971. Bobby Beausoleil also joined several local groups (inclusing The Magic Powerhouse Of Oz) before teaming up with Charles Manson and being associated with his murders.

The leader of the San Francisco 'Diggers', a legendary activist organization, Emmet Grogan later wrote his semi-romanced memories, "Ringolevio", which is recommanded reading about the San Francisco life in the mid-60s. He also worked with Rick Danko of The Band contributing lyrics for his *Rick Danko* album in 1976. Sadly Grogan died in the late '70s.

From Ann Arbor, Michigan. This outfit's 45 was picked up by Decca for national release. You'll also find *Good Day* on *Michigan Brand Nuggets*. Despite the catchy hand-clapped chorus it still sounds like a 'serious' rock outfit trying to go commercial - definitely not garage. For Blood, Sweat and Tears fans maybe.

45s:

1	Can't Find The Time/Lesley's World	(MGM K 13882)	1968
2	I've Never Seen Love Like This/Congress Alley	(MGM K 13947)	1968
3	Brown Arms In Houston/I Can Make The Sun Rise	(MGM K 14022)	1969
4	By The Size Of My Shoes/Joyful	(MGM K 14139)	1970
5	Big Green Pearl/Sweet Life	(Bell 45 128)	1971

NB: There have also been some reissue 45s: *Can't Find The Time / Brown Arms In Houston* (MGM Golden Circle MVG 529) and (Polydor Band Of Gold MVG 529); and *Can't Find The Time* (Rock 'n Mania RMGD-2424A).

From Worcester, Massachusetts, **Orpheus** were formed by ex-Villagers, Arnold and McKenes, Gulliksen from The Blue Echoes and Harry Sandler from The Mods. McKenes and Gulliksen had earlier worked together in a few folk groups, including The College Boys, who had one 45 *The Man* (Swan S-4166) 1963. Gulliksen: "This was a Kennedy tribute record; the group name was selected by Swan to remove commerciality from the record!".

Under the guidance of Alan Lorber, who produced all their albums, **Orpheus** became part of the "Boss-town Sound" movement but cultivated an almost singer-songwriter styled soft rock sound, with folkie elements, at variance with the overtly psychedelic sounds and image of most of their stablemates. Possibly a marginal case for inclusion here therefore and not recommended to either garage or psych fans, although some of their material could be classified as 'hippie-rock' at a stretch.

Check out their contributions to the double CD set *Bosstown Sound - 1968: The Music And The Time: Can't Find The Time To Tell You* (1967), *Walk Away Renee* (1968), *Brown Arms In Houston* (1969), *Tomorrow Man* (1971) - and decide for yourself.

They should be given credit for having a wider appeal and more output than most of their regional stablemates which saw them survive most of the hype and subsequent critical backlash. One of their songs, *Can't Find The Time*, was also covered by '60s instrumental band Groovin' Strings on their 1969 album *Groovin' Strings And Things*, and Rose Colored Glass, who had a Top 40 hit with the song. Other covers have included *Brown Arms In Houston* by the Plastic Cow on an album called *The Plastic Cow Goes Moog* (!?!?) and a very interesting cover of *Congress Alley* by a New York jazz funk group called "Congress Alley" on their album *Congress Alley*.

Eric G: "A few years after the group split up, Harry Sandler went to California where he did various things like being wardrobe manager for Sha Na Na, cue card boy on "Wheel of Fortune", etc. Later he got into personal management (no, he's not the Harry Sandler who manages John Mellencamp) and handled several fairly successful TV personalities. Harry hadn't heard of the Rose Colored Glass or of their version of *Can't Find The Time*. At a party, he struck up a conversation with a fellow there ... turned out that he was also an ex-drummer, hailing from Texas, that had also gone ex-pat to California. Harry asked if they had had any records, and the guy said yeah, his group was the Rose Colored Glass, and they had had a hit with *Can't Find The Time*. That blew Harry away - "hey! I was in Orpheus and that was OUR major hit!" The Texan, on the other hand, had never heard of Orpheus - he said

that their singer had brought in the song and suggested that they do it, and they went ahead without ever having heard the original. Small world, eh?"

Fans of the band might be interested to know that legendary studio drummer Bernard "Pretty" Purdie was used on some material on the early LPs but as was the industry standard at the time, he did not receive credit for the work.

Orpheus also performed the theme song for the MGM movie "Marlowe", starring James Garner, called *Little Sister*. Jack McKenes and Bruce Arnold can also be heard on a 45 by The Alan Lorber Orchestra, *Massachusetts* / *Congress Alley* (MGM K-13926SS).

Can't Find The Time was covered more recently by Hootie and The Blowfish and this version was included on the soundtrack for the 2000 Jim Carrey movie "Me, Myself and Irene". Eric's verdict - "It's not bad at all, certainly better than the one by The Rose Colored Glass back in the 70s".

I.F.O.C. - It's Four O'Clock - is a swaying hypnotic jangly folk-punker with a bathroom-echo sound. *This Stock...* is dreamy laid-back folk-punk, with a nod in The Byrds direction, and quite compelling after a few plays. The Wayne-Pav-led 45 covers Bo Diddley's *Mona* via the Stones' *Not Fade Away*, with raucous upfront vocals and a brief but brilliant guitar solo. The flip looks to the Animals for a rendition of Sam Cooke's *Bring It On Home To Me*. It's no wonder that both 45s are sought-after and amazing that they remain uncompiled.

Other band members included Roger Vail, from Macomb, Illinois, who had been in The Vectors (with a pre-Shadows Of Knight Joe Kelley) and went on to Osgood.

NB: (6) flip could possibly be *Jackie, Jackie*, which the band are known to have recorded.

From Gary, Indiana originally where they the mainstay act in the locale, this band later operated out of Chicago and played with a strong Anglophile influence. Led by Oscar Hamod, his Gibson Firebird guitar was fitted with a flat piece of sheet metal over the neck of his guitar, so people couldn't see what chords he was playing!

Drummer Johnny Toda was also the bands comedian and when they would perform *Top Eliminator* live, he would do the revved-up engine sound by mouth. He also used to sing Ian Whitcomb's *You Really Turn Me On*, copying the falsetto voice.

Their garage punk interpretation of *I Can't Explain*, with chopped rhythm and distorted guitar, can be heard on *Pebbles, Vol. 7* (CD) and *Mindrocker, Vol. 2*. *No Chance Baby* is on *Tougher Than Stains*, whose secretive compiler reveals only that it was issued on a 'semi-big label' (USA perhaps?); and *House Of The Rising Sun '69* is on *Let's Dig 'Em Up Vol. 2*.

NB: There's also a rare French EP with picture sleeve: *Mr Pharmacist/I've Come So Far/It's Too Hard/I Know* (Vogue INT 18112) 1968.

The above album was a competent effort, composed of original numbers aside from an interesting version of Arthur Lee's *Feathered Fish*. Holden's fine psychedelic guitar work stands out throughout and is at its best on *Morning Fire* plus the finale *What Can I Do For You?*. Another number, *Oz Lee Eaves Drops* had an interesting beat, whilst the band's best known track, *Mr. Pharmacist*, is a classic psych-punker and well worth checking out.

This group contained Randy Holden who, on **The Other Half**'s demise, replaced Leigh Stephens in the better known Blue Cheer. Craig Tarwater (gtr) and Mike Pon (bs), both ex-Sons Of Adam, were also members of the band, but did not feature on the album.

Carolyn White, who used to live with the band in Mill Valley, North California, recalls that they may have recorded a second album entitled *The Other Half And How To Get It* - Anyone have further info? Carolyn also tells us "Things came to an official end in L.A. when Jeff and Larry and Ron decided to move to Northern California, however I think Randy was the first to want to breakup. Hailing from Rhode Island, this band's recorded output has been well represented on compilations. *I Can't Stand This Love Goodbye*, which couples smooth harmonies with upbeat dance rhythms, can also be found on *Mindrocker*

Vol. 9, *Pebbles Vol. 10* (CD), *Pebbles, Vol. 8* and *Garage Monsters*. Lonely Street is a chiming pop-ballad, finally compiled in 2000 on Leaving It All Behind. The uncompiled *Morning* is a dreamy harmony ballad. The consistently high quality of their garage-pop output, blending Beatles and Byrds influences with mellow harmonies, surely indicates there's more to be heard. Ripe for a retrospective?

5. 1523 Blair/Smokestack Lightning (Gallant 101) 1967

One of the very best psychedelic/punk bands to come from Texas. They were based in San Antonio. Their two best known songs were *I'm In Pittsburgh (And Its Raining)*, a Jim Carsten composition with catchy drumming and some effective mouth organ, and *1523 Blair*, the zenith of their career. This has a superb psychedelic beginning which gives way to high speed guitar work culminating in a psychedelic haze. Not surprisingly their better work is well

represented on compilations:. *Texas Punk 1966, Vol. 2* includes the 'A' sides to their second, third and fourth 45s. You can also hear *I'm In Pittsburgh* on *Pebbles, Vol. 1* and *Flashback, Vol. 2*. Both sides of their final effort can be found on *Texas Punk From The Sixties* and *Texas Psychedelic Punk, Vol. II* for which metal acetates exist. The 'A' side was also included on *Acid Dreams, The Acid Dreams Testament (CD)* and *Mayhem and Psychosis, Vol. 2*. The flip, another stunning performance, can also be found on *Endless Journey, Phase 1* or *Texas Punk 1966, Vol. 2*. The latter also includes *Sweet Mary* and *The Birds* by the band. A previously unreleased mix of *Everyday* can be found on *Texas Punk (1964-68), Vol. 3* along with a previously unreleased outtake from 1966, entitled *My Love* and *What Price Victory*, a protest song about the Vietnam War. Another track featured on the comp, *Hard Lovin' Babe* with Linda Pierre King on vocals, is by a different **Outcasts**... Over 10 years on the band turned up singing *I'm In Pittsburgh* on the 'A' side to a 45 *I Feel So Bad/Undecided* (Grease FUN 2) credited to The Kicks which was supposed to be released as a new wave record in Europe! A few picture sleeve recordings did apparently get circulated.

For you curious completists, their 1st 45 comprises a rather lame beat ballad backed by a rockin' instrumental with no real hint as to what was to follow. It is however notable for being written and produced by Mike Post, who was in basic training at Lackland air force Base at the time. He went on to write music for many great TV series, including: "The Rockford Files" and "Hill Street Blues" etc. **The Outcasts**' manager at the time was Maj. John Carson who arranged for Mike and Jimmy Hawkins (Donna Reed Show, Beaver, Elvis movies actor also in training) to do a series of shows at local military bases with **The Outcasts** as a backup unit. Mike had worked as an arranger / band coach for Gary Lewis and the Playboys before this and put the show together. Exposure to Mike's professional attitude and working with him in the studio was an important factor in tightening the group into a working unit that went on to bigger and better things.

The CD compilation, *I'm In Pittsburgh And It's Raining*, contains all of their 1966-7 singles, unreleased material and later recordings when they were in Houston.

1. You'd Be Suprised/Set Me Free (Decca 32036) 1966
2. Today's The Day/I Didn't Have To Make Her Anymore (Cameo 477) 1967

An excellent Long Island, New York garage combo who stalled out as The Radiations in 1965. The same foursome became **The Outcasts** in 1966 and were expanded to a five piece with Chuck Thatcher on organ and vocals for their debut 45. Whilst the 'A' is pleasant beat-pop it's the plaintive tones, imaginative drumming and haunting keyboards that make the flip *Set Me Free* just a bit special. It's been featured on *Echoes In Time, Vol. 2*, *Acid Dreams Testament* (CD) and *Acid Dreams - The Complete Collection* (3LP).

Chuck Thatcher was replaced by Jimmy Williams and this line-up features on the *Standing Room Only* collection of live tracks from their '66-67 period and which recorded the 2nd 45. *I Didn't Have To Love Her Anymore* is a catchy and commercial minor-key folk-rock-punker with an irresistible beat - compiled on *Pebbles, Vol. 12*, *Mindrocker, Vol. 11* and *Joumey To Tyme, Vol. 2*.

Paul Brokan was the next keyboardist brought in until the demise of the group in 1968. *The Meet The Outcasts!* LP includes two Radiations tracks, the 45 tracks (a live *Today's The Day* and more excellent live material, plus several unreleased tracks. As with many of the bands of era the live stuff is predominantly fave covers, though they also include rather good versions of *Walk On By* and the *Good Rats' Groovy* in their repenoire. Do yourself a favour and pick up the Cicadelic LP's if you come across them.

Formed in San Diego, California, this pop-punk outfit would don Civil War uniforms in 1967, no doubt inspired by Paul Revere and The Raiders, and have three million - sellers as The Union Gap (later 'Gary Puckett and The Union Gap'). The Karate 45 is reasonable garage beat with strong vocals, but nothing to write home about.

Run Away is compiled on *Follow That Munster Vol. 2*.

2. BREAKING IN (Bluesway BLS 6030) 1969

As their name suggests this was a blues-rock outfit but a pretty good one. There's lots of fluid guitar playing on their second album and if blues-rock is your thing you should enjoy this. Even if it isn't you might still like it. Certainly *I've Got To Have Peace On My Mind* is very imaginative with interesting sound effects and extends far beyond the usual blues-rock format. Other highlights include an interesting reinterpretation of John D. Loudermilk's *Tobacco Road*, the instrumental *Death Dog Of Doom* and the catchy *Lost In The Blues*. It's only a very minor collectable at

present.

According to the accompanying notes, Herne was the guitarist on the 90th Congress 45. In the '60s Herne's outfits include The Exotics (on Coral), OJ and The Soulbeats and The Cobras. In 1970 he formed Atlantis. He died suddenly in May 1998 and some of his legacy is revealed in Aram Heller's zine 'Banjo Room Revisited #2'.

A rather ordinary pop outfit from Cleveland, Ohio. They enjoyed short term success, including a Top Ten hit with *Time Won't Let Me*, which can also be heard on *Nuggets, Vol. 3* and *Pride Of Cleveland Past*. It was the zenith of their career which then took a downward spiral. *Nuggets, Vol. 4* includes *Lost In My World*, originally the flip of their cover of The Isley Brothers' *Respectable*, which was rerecorded in 1970 when singer Sonny Geraci formed his new band Climax (indeed it is really the first Climax single) who, based in Los Angeles, enjoyed a Top Ten hit with *Precious and Few*. Geraci went on to become a pretty atrocious ballad singer. *Pebbles, Vol. 9* includes *I'm Not Trying To Hurt You*, one of their less well known recordings.

Tom King initially formed the Starfires, a rock'n'roll/soul band, recording numerous records on his uncle's Pama label. Seeking greater success with a major label after acquiring Sonny Geraci as vocalist, led to family friction resulting in and reflected by the band's new name. *Time Won't Let Me* secured a deal with Capitol via Roger Karschner, whose name crops up on many other '60s Cleveland recordings. He became their manager too.

The Outsiders CD retrospective on Collectables is a 25 track odyssey of recordings spanning 1965 through 1968 and is accompanied by a well researched and detailed booklet.

They developed a lot of local suppose and cut their first 45 at Tampa's H & H Avenue. *She's Coming On Stronger* is a pretty good pop/punk piece with some upfront drumming and they followed it with a ripping cover of Eddie Cochran's *Summertime Blues*. By now John Delise (previously of The Rovin' Flames and Those Five) had replaced Hardy Dial on vocals. In 1966 they were signed to the Laurie Records subsidiary label Providence who changed their name to The Soul Trippers because of the better-known Ohio Outsiders. Then in 1967 they changed name again to Noah's Ark releasing two 45s for New York's Decca label.

Buddy Richardson went on to form White Witch who released two albums on Capricorn 1973-4.

When The Empires split up in 1965 Robert started The Bryds and James joined vocalist/bassist Jim Korn and Bill Kirch-Meyers' band Beat Incorporated with two ex-Empires, drummer Bill Levak and guitarist Tom Nelson. Beat Incorporated soon became **The Outspoken Blues** and they recorded their only 45 in June 1966 with Jim Korn on vocals. When Jim Korn was drafted into the army, James took over full bass/vocal duties. The group grew to a seven - piece in 1967 when The Bryds split up and brother Bob joined and they adopted a more white-soul sound and recorded an unissued album for Mercury.

This is an early seventies privately-pressed rock album with some good guitar moments. It has become a significant collectors' item and was repressed in the late eighties. Recorded in Columbus, Ohio, it achieves a good standard throughout. The material was written, arranged and produced by the band themselves. There are some good rock numbers like *Daily News*, *Mellow Meadow*, *My Friends* and *Out On Our Own*, some nice vocal harmonies on *Share* and *All We Are Asking* is a more sensitive psychedelic folk number. Well worth a listen. Both 45s feature non-LP tracks, and they rock.

1. Foolish Woman/Mind Destruction (World United 1002) 1966

An historically significant outfit from Sacramento, California. They included Gary Yoder (later of Kak and for a while Blue Cheer) and gigged regularly as support to bands like The Grateful Dead. Jim Keylor was in some groups with Bob Segarini after Family Tree and in the embryonic Roxy. He was also involved in assembling Blue Cheer for their *Oh! Pleasant Hope* album and in 1978 started BSU studios whose products included Dead Kennedys, Suspects and True West. Patten also went on to play for Kak.

What of their music? The recent Big Beat retrospective shows a band that was pushing back the barriers of psychedelia in much the same way as The Yardbirds were, and who should have gone on to better and bigger things in their own right. It includes fourteen live tracks, plus four studio cuts including both sides of their exceptional 45. Also included are a detailed history of the band. Donnie Jupiter of the cult '70s psych/punk band **The Twinkeyz** recalls: "The first time I saw them I was blown away - they looked cooler than hell with their long hair, hippie beads and somewhat surly attitude. Their drummer, Paul Whaley, nailed his kit to the floor with screwdrivers and flailed away like a madman through the whole set. When they were finished playing his hands were bleeding." The Big Beat CD is probably the next best thing to having been there and comes highly recommended.

World United records was owned by fellow Sacramento-based band The New Breed who had set up the label when they were dropped by Mercury and both sides of their 45 can also be heard on *Endless Journey, Phase 1*, whilst *Mind Destruction* also figures on *Everything You've Always Wanted To Know...* CD and *Foolish Woman* is also on *The Pebbles Box Set*.

From Rochester, New York State. A remarkable top side kicks off like it's going to be Vanilla Fudge, before a heavy blast of fuzz and bombast. Midway a peal of thunder fades to return as a barrage of gun and fighting effects. A strange and disjointed trip, with some wicked guitar on the outro and vocals reminiscent of Don Gallucci's Touch. 4	My World/Sung At Harvest Time	(Union Jac 5632/3)	Feb. 1969
5	Come On Back To Beer / Your Own Way	(Paula 331)	June 1970

This Louisville, Kentucky band's album is now beginning to interest some collectors. Bright 'n' breezy pop very much in the same mould as Orange Coloured Sky is on the side one menu. Side two isn't quite as good but is more experimental. *Young Girl's Lament* is the stand-out cut on this side with powerful female vocals and fuzz guitar; *Come On 'Round* is marred by a tedious drum solo and *Good Nightsounds* gospel-influenced. Worth a spin if you come across a copy.

The group formed way back in 1965 and the original line-up included Steve McNicol, Jim McNicol and Chris Hubbs who split in 1967 to form The Rugbys. **The Oxfords** finally called it a day in 1972.

Influential on the Louisville, Kentucky scene, where they were the first group to adopt the British sound and look. While other groups were performing the British invasion songs, they looked more like the '50s rockers, and usually had people fronting for the musicians, rather than being a self-contained band, like **The Oxfords**.

In 1997, **The Oxfords** had a "reunion" gig in Louisville for a charity function. Jill DeMarco:- "After 25 years of not playing together, we actually did pretty well! Everyone looked much the same as they did way back when, believe it or not - full sets of hair and no potbellies. Only the acne was gone!"

"Today, Jay Petach is still in the music business as a producer in a studio in Cincinnatti, Ohio. He has made numerous commercials over the years and has even released an all-instrumental CD of songs played on the ocarina! (He was the multi-talented member of the group). Larry Holt sadly suffered a severe back injury and was out of commission for awhile, but he is back to playing bass around Louisville, Paul Hoerni continues to play drums around Louisville and works for UPS, whilst I'm the only one who hasn't stayed in music to any great degree. I moved to Chicago in 1973 and did some recording, music copyrighting, and jazz studies for six years. Then moved to Seattle in 1979 and played solo gigs up through the mid-80s, but it was not lucrative enough to survive. So, I found full-time work as a Technical Writer for the U.S. government (Federal Aviation Administration), and have been working at it ever since. I'm still in Seattle and do sing in the shower!"

Time And Place is on *Victims Of Circumstances Vol. 2*.

1	Prune Growing In June/Walking Down The Sunny Side	(Musicor MU 1274)	1967
2	Down From The Mountains / What Can You Say	(Mercury 73143)	1970

From upstate New York. *Prune...* is psychedelic pop with a twist. Ignoring the awful square sounding male - female vocals and stupidly hip lyrics, there's some strangely warped pop with phasing, acidic guitar and chiming keyboards that'll please Rubble-ites but not garage-psych fans. The flip is harmony - folk - pop.

By 1970 they had evolved into a five-piece, commune based band. The LP comes in a gatefold of pastoral serenity. Pasted-in leaves of photos and lyrics fail to give details of the band personnel and instrumentation, other than writer credits. Very laid-back and with pleasing harmonies, this is uplifting soft rock that incorporates boogie, folk and country influences. Likely to be labelled "hippie-rock" but that's not to denigrate it - it doesn't ramble and the varied selection shows that they can rock. The mood is of a summer evening relaxing on the porch, a drink in one hand, a smoke in the other, and a euphoric grin. Suddenly, getting "back to the country" has immense appeal!

Daniel "Ace" Allison sadly died of cancer recently.

An unknown outfit with a meritorious 45 in a restrained but haunting folk-psych style, like a softer Jefferson Airplane with cool male - female vocals that intertwine well. *Winter Rain* in particular has a persistent and hypnotic quality that demands repeated playing. ALBUM:

1. (A) RUFF MIX (Ozone OZ-1 000) 1975

NB: (1) has recently been reissued on vinyl.

A much-vaunted album which has become a minor collectors' item. A private-press by a Bellaire, Texas band and recorded in Houston, this commands a high price tag (in Europe anyway). It's actually quite good but not really psychedelic in the sixties sense. It certainly varies in style from heavy to soft, jazzy to funky and is of a high quality of musicianship but it has more in common with, say, Led Zeppelin (especially *Led Zepp III*). The stand-out track is the superb *Second Time Blues* - an anguished bluesy-rock ballad whose comparison to Led Zepp tour-de-force *Since I've Been Loving You* is I'm afraid, unavoidable, The main problem with the album, though, is that the songwriting lacks any real flair.

Incredibly, the band is still active, and Duane Massey has emailed us, recalling: "Richard Heath left the band shortly after *Ruff Mix* was released, and was tragically killed in an auto accident several years later while playing with Vince Vance and The Valients. Although there have been several personnel changes and two "dormant" periods, we are back performing on a limited basis in regional halls. Marty, Bill, and I still make up the nucleus of the band, with a guitarist, Bill Mojelsky, and a singer, Milton Coronado."

"I agree with your observation on the songwriting on *Ruff Mix*, as the material in that period of the band was restricted by my own vocal limitations. We added a vocalist in 1979 (the first of several) and my composing boundaries were greatly increased."

"The band also released a two-song EP with this line-up but never really marketed it, and only pressed 500 copies. Incidentally, *Ruff Mix* was limited to two pressings of 1000 copies each, but was bootlegged in Italy at some time in the 80's, I believe. The cover has "Made in Italy" printed on it. We are planning to release a CD with *Ruff Mix* and three or four other recordings before the end of the year on a limited basis. If you or anyone else would like any information, past or present, on the band contact me at kcm@prodigy.net."

1	Are You Ready/Staggolee	(Columbia 4-45158)	1970

An inter-racial Californian soul rock band formed in 1968. They were known initially as Bluesberry Jam, who included drummer Fito De La Barreda before he was recruited by Canned Heat to replace Frank Cook. Frank subsequently joined Bluesberry Jam, and together with Charlie Allen formed **Pacific Gas and Electric**.

They are best remembered for their hit *Are You Ready* and will interest fans of the Chambers Brothers or Sly and The Family Stone. Their sound was characterized by the powerful voice of Charlie Allen and the good guitar leads of Glenn Schwartz (later in All Saved Freak Band).

In 1970, they had to shorten their name to PG&E when the **Pacific Gas and Electric Company** complained. The line-up changed with their fourth album, which was coproduced by Delaney Bramlett (of Delaney and Bonnie). Their new guitarist, Ken Utterback, showed his skills on two good tracks: the ironically titled *Short Dogs and Englishmen* and *When The Sun Shines*. **PG&E** then slowly disappeared from the scene.

1. Ba Ba Yaga/Stop Shakin'Your Head (Studio City 1034) 1965

Rochester in South-East Minnesota was home turf to this outfit, which gradually came together during 1963-64. Steve Rossi took over on drums in August 1964 after Jay Thompson (who had once filled in for Gordy Scudamore on drums in The Mustangs) committed suicide. They travelled to Minneapolis during Easter 1965 to record the two original compositions which comprised their 45. The 'A' side veers towards folk-rock, and 500 copies of the 45 were pressed.

Chris Hollenbeck was a member of the band only briefly - he was killed in a car crash sometime after leaving the band. His main claim to fame was that his father was a distinguished surgeon who had removed LBJ's gall bladder. The band disintegrated after Kip Sullivan left to go to Pomona College in California in the Fall of 1965. They later reformed into The Downchilds and then The Downchild's Blues Band but these later incarnations produced no vinyl. The Sullivan brothers and Steve Rossi were later involved in a late eighties reformation of the band.

Compilation coverage has so far included: *Ba Ba Yaga* on *The Mid-west vs. Canada, Vol. 2* and *Teenage Shutdown 3: Things Been Bad*.

5. () The Letter/I Need You/Shovel Song/Time Goes On (PS) (Distortions DR 0031) 1997

This band came from Fort Myers in Florida and not Los Angeles as had previously been suggested. Turano and McKinney were eventually forced to quit the band as they travelled increasingly to play in New York City and they were replaced by various musicians, but the heart of the band remained Jack O'Neill, George Schule and Harry Bragg. It was during a spell at a bar called 'A Place In The Sun' on the Virgin Islands that they began painting their faces. In the same era they recorded an entire album of *Today's Hits*, featuring covers of songs like *The Letter, Brown Eyed Girl* and *Incense And Peppermints*, which was supposed to come out on Sidewalk or Tower as a budget album but never survived the acetate stage.

Thanks to Distortions all their 45 cuts and several previously unreleased cuts are now compiled on *Anxious Color*. Deservedly they also feature on a number of compilations, including:- *Anxious Color* on *Acid Dreams, Journey To Tyme, Vol. 1, Cicadelic Sixties, Vol. 1, Pebbles, Vol. 3* (CD) and *The Acid Dreams Testament* (CD); *Black Hearted Susan* on *Psychedelic Crwon Jewels Vol. 1* (CD); *I Think I'm Going Mad* on *Highs In The Mid-Sixties, Vol. 3*; *I Lost You In My Mind* on *Magic Cube* flexi disc and *Acid Trip From The Psychedelic Sixties*; and *Things We See* on *Journey To Tyme, Vol. 1*.

An influential band on the "next generation" of garage artists cover versions have included: *Anxious Color* by The Birdmen Of Alkatraz on their *From The Cage* LP; *Anxious Color* by the Mutts in 1984 on the Voxx comp *Battle Of The Garage III*; and *Don't Say She's Gone* by Italian garage-folk-rockers the Others on their 1997 *So Far Out* 10".

From Minneapolis in Minnesota came **The Paisleys**. The most interesting tracks on their album are *Rockin*, notable for its use of echoes and sound effects, and the haunting *Wind*, which is included on *Endless Journey, Phase 2*. Side two of the album consists entirely of the ambitious, though not entirely convincing *Musical Journey*. *Now*, another cut from their album, later resurfaced on the *Acid Trip From The Psychedelic Sixties* compilation.

There's also an Italian CD entitled *Beyond The Cosmic Mind* (Cosmic Mind Records 001) that is said to contain outtakes from the original album. However, the material is recorded some ten - twelve years later as is easily discovered when listening to the drumbeats (by a machine) and the track *Dear John*, about the murder of John Lennon. Still it's a pleasant collection of songs. (Vernon Joynson/Clark Faville)

6. Saturday's Child/Party Games (Parkway 111) 1966
7. Greed/Calliope (Parkway 124) 1966

NB: (1) as **Don Grady and The Palace Guard**.

This LA-based band is most significant for the inclusion of Emitt Rhodes. He joined the band when he was just fifteen, having already been in an outfit called The Emeralds. Musically they served up an amalgam of the British invasion sound and the burgeoning LA folk-rock style. They acquired considerable popularity as the houseband at the Hullabaloo Club, where they opened for several touring bands who visited LA. Their finest moment, *Falling Sugar*, can be heard on *Nuggets, Vol. 4*, along with *All Night Long* (also on *From The New World, Vol. 1*). Both are pleasant folk/pop renditions and it's surprising that they achieved no chart success and attracted little attention outside of Southern California. They certainly paid homage to the British invasion, often wearing uniforms and tall fur hats in an attempt to emulate the guards outside Buckingham Palace. Although most of their material was composed by Rhodes, they also played some Beatles' covers, like *Norwegian Wood* and *Its Only Love* in their live

act.

Don Grady (Agrati) had also been connected with the band briefly at the outset before departing to join The Yellow Balloon. Indeed, the band initially operated under the name Don Grady And The Palace Guard, recording a 45 for Orange Empire under this name. Upon the band's demise Emit Rhodes went on to form Merry-Go-Round, whose sound was signposted by the harmonious beat ballad *A Girl You Can Depend On* recently featured on *From The New World, Vol. 1*.

Falling Sugar can also be heard in its full glory on the *Nuggets* 4-CD box set. *Greed* is on *Fuzz, Flaykes And Shakes Vol. 1*.

From Metarie, Louisiana, this bunch were active between '65 - '69. *No Comin' Back* is a screaming psychedelic-punker with a great guitar break and plenty of fuzz. You'll find it on Eva's *Florida Punk Groups From The Sixties* along with *Gas Station Boogaloo Downtown*, a poppier rendition with a psychedelic feel about it. More recently, *No Comin' Back* has also re-emerged on *Sixties Archives, Vol. 4 (CD)*.

Sideshow, written by Ed Volker, is upbeat acid-rock-pop. The Jeff Miller composed flip is lighter, pop-psych. Both sides have an anglophile essence, especially lyric-wise, and would not be out of place on a *Rubble* volume.

Late sixties orchestrated 'psych' obscurities, so dubbed mainly due to some outbursts of heavy searing guitar on the 1st 45. Unfortunately brassy sounds are in evidence along with soulful vocals especially on *Never Hurt Again*. *Eye Girl* has a pleasant feel but they are not for the purists.

1(A) THE CYCLE IS COMPLETE (Verve Forecast FTS-3086) 1969

Canadian-born bass player **Bruce Palmer** started out in Toronto early '60s outfits the Sailor Boys and The Swinging Doors. During 1964 he joined Jack London and The Sparrows and appeared on the band's biggest hit. The following year he joined expatriate American Rick James's R&B band The Mynah Birds, which recorded an unreleased album for Motown in early 1966.

When James was busted for being AWOL, **Palmer** and group member Neil Young relocated to Los Angeles and formed Buffalo Springfield. **Palmer** was busted (not for the first time) for marijuana possession in January 1968 and abruptly left the band and returned to Toronto.

In May 1969, he briefly joined Crosby, Stills, Nash & Young, who were in need of bass player following their decision to go 'electric'. He subsequently appeared on the band's version of Graham Nash and Terry Reid's *Horses Through A Rainstorm* and an electric version of Stephen Stills's *Helplessly Hoping*, before being ousted in August.

After approaching Don Hall and Mike Curb from MGM, **Palmer** signed a solo contract with subsidiary label Verve Forecast. His lone album, featured contributions from old Toronto friends Rick James and Ed Roth, and instrumental support from Kaleidoscope members Paul Lagos, Fenrus Epp, Jeff Kaplan and Richard Aplanalp. Written, produced by **Palmer** the album consists of four long instrumental mystical ragas:

Alpha-Omega-Apocalypse, *Interlude*, *Oxo* and *Calm Before The Storm* (not the Phantom track).

While in L.A. **Palmer** also guested on former Buffalo Springfield cohort Dewey Martin's album, performing his own composition *Recital Palmer*. He subsequently returned to Toronto and briefly joined Luke and The Apostles but was soon replaced by former Paupers bass player Denny Gerrard.

In 1977, after several years of musical inactivity, during which time he had joined a Sikh sect, **Palmer** decided to return to performing and formed the band Village in commemoration of the Yorkville village scene which gave birth to many of Toronto's bands. Palmer recruited his old friend, guitarist Stan Endersby, who has played in local groups Just Us (with 3's a Crowd bass player Wayne Davis) and Rick James's group Heaven and Earth amongst others. Drummer Phil Strong and former Kensington Market singer Keith McKie completed the group's line-up. The group built up a solid local reputation but split in February 1978.

During 1982/83 **Palmer** joined Neil Young's Trans tour and then formed the short-lived Music with Endersby, ex-Heavy Wood singer Frank Wilks and drummer Dominic Siorda. The group's repertoire consisted of Wilks' compositions, old Buffalo Springfield favourites and many of Neil Young's best known songs. The group soon changed name to The Springfield Band.

In 1985, Palmer, Endersby and Wilks formed the tribute band Buffalo Springfield Revisited with local Toronto musicians Bob Fredrickson (guitar), Harlan Spector (keyboards) and Alan Posser (drums). The group spent the next two years touring the US, appearing at nightclubs, fairs and festivals. Towards the end of the year, Buffalo Springfield's drummer Dewey Martin replaced Posser. However, following a recording of Neil Young's old Buffalo Springfield song *Down To The Wire*, Dewey Martin dropped out of the band. **Palmer** kept the group active for another year before retiring from the business.

1. INTO OUTER SPACE (Gulfstream ?) 1969 R5

NB: (1) reissued on CD by Arf Arf.

Her truly eccentric album can be described as free-spirited bebop stuck in insterstellar overdrive. She came from Florida and sings about 'moon people' who abducted her Cadillac! The second pressing was on a different label and is the version the reissue was taken from. It originally appeared as a 'No label' issue.

Curiously, it turns out **Lucia Pamela** may also have been psychic! In the closing song on her album, the eccentric *In The Year 2000*, she proclaims "they will still be playing football in the year 2000". Not only are they still playing football, but Pamela's daughter, Georgia Frontiere, is at the top of the (U.S.) football world; the team she owns, the St. Louis Rams, won the Super Bowl in 2000!

Frontiere, also a show girl and psychic, apparently takes after her mother! It turns out **Lucia Pamela** was voted Miss St. Louis way back in 1926. She may have also recorded under the name Kathy Kent on both the Gulfstream and YG labels, and there is a rumored duet between Pamela and Walter Scott (ex-Bob Kuban and The In-Men)...

6. Hallelujah Rocket/Laughing Lady (A&M 970) 1968

This Los Angeles-based pop trio made the Top 20 with their debut recording *Sunshine Girl*, which had a light, summery feel which epitomised the Summer of peace and love. You'll also find it on *Nuggets, Vol. 3* and the *More Nuggets, Vol. 2 (CD)*. Comprised of aspiring actors for the most part rather than serious musicians they never got beyond the studio and this meant they never built up much of a following. Another of their lightweight pop efforts, *She Sleeps Alone* can be heard on *Nuggets, Vol. 4*. The band was master-minded by Jerry Riopelle, who wrote, arranged and produced their music and recorded solo albums in the 1970s. The group recorded an album that was never released.

Jerry Riopelle also worked with The Black Sheep.

Actor Stuart Margolin (later "Angel" in the Rockford Files) was apparently also a member.

Paraphernalia

45:

1. Never/Watch Out (St. George I. 7-202, 440 /1) 1968

From Lowell, Massachusetts. *Never* is a late sixties rock - prog ballad that's melodic but doesn't quite gel. *Watch Out* is a heavyish rocker with some inventive and intense guitar effects that can be sampled on *An Overdose Of Heavy Psych*. (Max Waller)

45:

1. Sunny Days (And Good Living)/Sea Of No Return (Time 501) c1969

A different outfit, reported to be from Michigan. This is very good anthemic pop - rock with a U.K. Nirvana feel thanks to some melodic piano runs and slightly drippy but phased vocals. However, it's not all soft 'n' sweetness - a superb guitar break erupts mid-song which reappears on the outro. This should appeal to fans of Rubble-type psych. The flip remains unheard as I've only managed to obtain the double 'A' side promo version of this 45. (Max Waller)

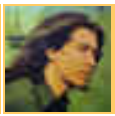
1(A) PARIS PILOT (HIP HIS 7004) 1968



HIP Records were a division of Stax Records aimed at the white "pop" market. They also released the Southwest F.O.B. album. **Paris Pilot**'s sole album was produced, arranged and engineered in Memphis by Don Nix (ex-Mar-Kays), who also co-wrote most of the songs and took the photographs on the sleeve! The four other members are not credited.

Musically interesting, it's a kind of lightweight Vanilla Fudge with a cover of *The Beat Goes On*, lots of heavy organ, guitar and drums and good vocals. *Don't Let It* was cowritten by Nix and Delaney Bramlett, and *Shades Of Doubt* by Don Preston and Joe Cooper, two members of Leon Russell's "Oklahoma Maffia".

Don Nix would later become a solo artist, a friend of Leon Russell and George Harrison and a successful producer (Beck, Bogart & Appice, Lonnie Mack, Albert King, Variations...).

This is an excellent, underrated local Bay Area hard rock/blues rock power trio. Their album is recently beginning to gain the recognition of some collectors in Europe. It's likely that Gary Wagner was connected to the Chosen Few, as he is credited as songwriter on their North Beach (1003) 45.

Arranger, songwriter, pianist, singer, producer, **Van Dyke Parks** was a central figure on the L.A. scene between 1965 and 1975. His song *High Coin* was covered by The Charlatans and The West Coast Pop Art Experimental Band. He is credited on records by The Beau Brummels, Harper's Bizarre, Randy Newman, Gentle Soul, Phil Ochs and Ry Cooder. He also spent eight months working with Brian Wilson on the successor to *Pet Sounds*.

Produced by Lenny Waronker, his first solo album, *Song Cycle*, was releasd in 1967 and is a landmark in pop experiment. It was a also a total financial disaster. Both music and lyrics are bristled with musical puns that allude to everything, from Debussy to the Beatles. You may like it if you appreciate the Neon Philarmonic, the Beach Boys and Left Banke. You may also find it pretentious and boring!

Apart from his studio work and his music for commercials, **Van Dyke Parks** has kept on recording solo albums from time to time. He is still active and released a live album in 1998.

Parliament was in fact another moniker for George Clinton and the musicians of Funkadelic. They played a powerful mix of psych and funk, maybe a bit more soulish than Funkadelic. After their first album, which is now rare and sought after, Clinton reused this name after 1974 for a long series of funk albums on Casablanca.

45:

1. Walking In The Forest Of My Mind/White Birds Return To Warm Seas (Music Factory MU 407) 1968

Paul Parrish's album was recorded at Tera Shirma Studios in Detroit and features slight 'loner' vibes. The very simple - but effective- drums and vocals are the most interesting aspects of the album, with *English Sparrows*, *Walking In The Forest (Of My Mind)*, *Dialogue Of Wind* and *Lover* being the most interesting tracks on side one, which also concludes with a laid back, melodic cover version of the Beatles' *You've Got To Hide Your Love Away*. The other three songs are filled with fragile vocals and folky guitars backed with nice, psych orchestrations. Most of side two is not of the same quality but on *Flowers In The Park* a sparkling magic atmosphere can be heard. Not bad!

The 45, which is taken from the album features orchestrated folk-pop on the 'A' side, with lots of phasing and fuzzy effects, like a psychedelic pop version of Bob Lind. Pure confection but enjoyable. The flip is more melodic Lind-esque folk-pop with harpsichord. Arranged and conducted by Mike Theodore and Dennis Coffey (aka Theo-Coff Invasion).

NB: This had a limited edition reissue of 300 copies in 1994, and has recently had an exact reissue with booklet, taken from the master tapes and issued by the band themselves. This reissue (JT 1001) also includes a bonus 7".

"Fohhoh Bohob" is a phrase common to many of the various, small tribal languages of Africa, which roughly translated means "Greetings of the mouth" - so now you know. This privately - pressed album contains nine songs penned by Tuttle and Bergman. On offer is pleasant but boring guitar folk in the Shadrack mould. The album was originally issued in a plain sleeve with paste-ons. Some copies came with a booklet. The reissue comes with an insert with all the song lyrics printed inside. Overall, though, an amateurish, non-essential item, from a New York band.

ALBUM:

1	KEEP ON KEEPIN' ON	(Epic BN 26501)	1970
2	BRENDA PATTERSON	(Playboy PB-109)	1973
3	LIKE GOOD WINE	(Discreet DS 22111)	1974

Brenda Patterson came from Arkansas where she was born circa 1949. A white singer with a very powerful "black" voice, she began singing in the Memphis clubs where she was noticed by Larry Cohn, a producer who also worked with Wayne Cochran. Cohn arranged for her to be signed to Epic and produced her first album with the help of Pat and Lolly Vegas, who wrote three songs and provided the backing group with the newly formed Redbone. The other songs were covers of Hank Snow (*I'm Movin' On*), Dylan (*This Wheel's On Fire*) and Al Kooper (*I Can't Keep From Crying Sometimes*), plus a traditional adapted by **Brenda Patterson**, *Ain't No Grave Can Hold My Body Down*. Although the album has its moments and may interest fans of singers a la Joplin, it suffers from the rather pedestrian backing of Redbone.

Next she married Sam Samudio (of Sam The Sham) and worked with Don Nix. Her next album was recorded in 1973. Well produced by Jim Dickinson, it's a great blues rock album, with the superb guitars of Ry Cooder and Wayne Perkins and her excellent vocals. It was unfortunately poorly distributed however.

Her next move was a total disaster, as she signed a deal with Snuff Garrett who tried to change her into a cabaret singer. The album on Discreet reflects this attempt and must be avoided at all costs. **Patterson** then worked with a country blues bar group, the Coon Elder Band (who recorded one decent album on Mercury). She still appears on some records produced by Jim Dickinson.

Their last effort tended to a heavy Cream / Blue Cheer sound, especially the excellent fuzz-crunchin' cover of the Steve Miller Band's *Dime-A-Dance Romance*. The flip is

Their first 45 is very catchy bubblegum/punk and almost certainly the work of a studio group. *Ride* was also released as *Love Tunnel*, which is what the lyrics were all about and was apparently suppressed because someone considered it pornographic! The same song was also released as *Take A Ride* by an outfit called River Deep on Bell (791). *Break My Mind* was a pop cover of John D.Loudermilk. The 45 was produced by a George Tobin, who also produced the Roads End 45 on Brahma. Ohio has been suggested as the band's locale but hasn't been confirmed.

From Miami, an overlooked act on the same label as Marcus. Their album sported a wonderful front cover and contained six self-penned compositions. NB: (6) also issued in Belgium in a picture sleeve (London 5 662) 1968. Both tracks were written/produced by Alan Brackett.

Evolving out of the remains of The Ashes, which has included Brackett, Merrill and Robinson, they recorded their first 45 for Vault before signing with the major-label Columbia in November 1966. Much of their material was written by Brackett and Merrill and produced by Gary Usher. It was well produced and often orchestrated. Their first album was a fine debut. The stand-out track was *Then Came Love*, a beautiful love song on which Sandy's gorgeous voice was supported by excellent orchestration. Also of note were the goodtime sounds of *You Took Too Much* and *Why Did l Get So High?* which sounds like an anti-drug song. The chorus lyrics to this one were:-

'Why did I get so high?'

Just to fall from the sky
Why did I get so high?
Just to see our love die
Oh, why did I get so high?'
(from *Why Did I Get So High?*)

The second LP was in similar vein, bursting with ravishing harmonies and psychedelic lyrics (e.g. "Everyone has a bomb / In their mind / And when it explodes / Blows your mind" from the transcendent *Living, Loving Life*). The single off the album, *Turn On A Friend* found its way on to the *Rock Machine Turns You On* compilation

However, the end of the flower-power era sounded the death bell for the band. Their third album dispensed with the folk-rock and psychedelia in favour of gospel-rock and gruff male vocals fronting horns and girlie choruses (the CD bonus tracks, however, do include a couple of glorious Barbara Robison vocal performances). After the album's failure, Al Brackett went into session and production work, Lance Fent played for Randy Meisner and Bill Wolff (who'd also played with Sound Machine) later joined Fusion. Sadly, Sandy Robison died a few years back.

Compilation coverage has so far included: *Its A Happening Thing* on *Nuggets, Vol. 10*; *Time Is After You* on *Mindrocker, Vol. 1*; and *Too Many Do*, from their second album, on *Psychedelic Dream* and *Angels From Hell* on *Turds On A Bum Ride Vol. 4* (CD).

In addition, Love Exchange's *Swallow The Sun*, featured on *Nuggets, Vol. 10* and *Highs In The Mid-Sixties, Vol. 3* is actually **Peanut Butter Conspiracy**'s *Dark On You Now* with slightly altered lyrics - **Peanut Butter Conspiracy** under a pseudonym or a faceless studio outfit? Drop me a line if you know.

This group focused on Tom Rapp, who had apparently once finished ahead of Bob Dylan in a local New York talent contest. Although the group's original line-up is listed above, after their first two albums it became much more flexible, consisting of whoever Tom Rapp could gather around him in the studio. The group's acid sound seems almost certain to have been drug-inspired and their music was always mystical, innovative and mysterious.

Their debut album was recorded on the avant-garde ESP label, and characterised by Rapp's gentle vocals and a woodwind musical accompaniment. *Morning Song* and *The Surrealist Waltz* were two of the stronger tracks, although a consistently high standard was maintained throughout. The album's lyrics were often inquisitive and philosophical; for example:

> 'Where have you been to?
> Where did you go?
> Did you follow the summer out
> When the winter pushed its face
> In the snow?
> Or have you come by again
> To die again?
> Try again another time.'
> (from *Another Time*)

Another track, *Shall Not Care* has a strange Eastern sound. The follow-up *Balaklava*, was in similar vein, and based around the concept of the charge of the Life Brigade at Balaklava in 1852. It also includes a beautiful version of the Leonard Cohen song *Suzanne*. All the other compositions are Rapp's, including the final track *Ring Thing*, which is possibly the strangest of all - taken as it is from the cornerstone verse of J.R.R. Tolkien's *Lord Of The Rings*.

Rapp abandoned his use of abstract themes for his remaining albums which were more conventional. He also signed for the better known Reprise label. Although possibly less interesting than those first two albums, the remaining four **Pearls Before Swine** LPs are still well worth hearing.

The *Use Of Ashes* album and part of the follow-up, *City Of Gold* were recorded in Nashville. The remainder and

Beautiful Lies You Could Live In were made in New York. In 1972, Tom Rapp started recording under his own name, although his first solo album was largely comprised of re-recordings of songs from his earlier albums.

Fans of the band and Tom Rapp will also be interested in a tribute album *For The Dead In Space*, including Fit And Limo, Bevis Frond, Mourning Cloak and even an exlusive track by Tom Rapp himself. More recently Tom Rapp has performed at Ptolemaic Terrascope's 'Terrastock III' and released a fine solo album, *A Journal Of The Plague Year*.

Roger Crissinger was later in One.

1	Tripsy / The Plum Song	(J-2 1300)	1967

1. Don't Come Running To Me/Don't Hide It (Prince P-6707-1/2) 1967

NB: Some copies came with a PS.

Great fuzzy garage-pop, not rough enough presumably to make it onto compilations so far, but given the band name, a natural for that classic series. The flip is straight bouncy pop fodder with some brass. Produced by Brian Ross (of Music Machine fame), both sides are composed by Cooper / Blackwell who played with Leon Russell and Delany Bramlett in The Shindogs. **The Pebbles** may well have been a pseudonym for that band.

A quintet from St.Petersburg, Florida. Originally the Satins, they lost their original bassist to Tommy Roe and The Roemans and by 1965 were known as **The Pebbles**. Recorded in Tampa in early '65, their sole 45 was released on manager Ralph P. Hitchcock's vanity label. *Endless Tears*, a Merseybeat style ballad, is included on Psychedelic Crown Jewels Vol. 3.

2	Girl In Chains/Silver Dawn	(Scepter 12182)	1967

NB: (2) as Pex's Bad Boys.

The 1st 45, released as by **Peck's Bad Boys**, is rare and sought-after for the frenzied *Crazy World* which can also be found on *Tougher Than Stains* and *Teenage Shutdown Vol. 11: Move It!*. Their second 45 however, as Pex's Bad Boys tends towards garagey pop with *Silver Dawn* winning out with its mesh of jangling guitars and waltzing rhythm.

ALBUM:

1 BIRTHDAY (Epic 26529) 1970

A strange psych/prog trio (bass, drums, organ), probably influenced by Vanilla Fudge, with a mix of originals and covers (*Little Red Rooster*, *Southern Woman*). The sleeve depicted the front of a naked girl their picture in a central frame.

4. It's Too Late/Think Twice (Buy-It 2556) 1966
5. It's Too Late/Think Twice (Atco 6567) 1968

From Michigan. *Think Twice* is a haunting garage ballad with an early sixties feel (shadowy guitars chiming) with an intro whistled a-la spaghetti Westerns! *It's Too Late* harks back to 1965 garage beat sounds - definitely 'out' in '68. It was featured on a 1968 radio sampler EP, *WLAV Memory Pack Vol. 1*.

Compilation coverage has so far included:- *Its Too Late* on *Psychedelic Patchwork, Vol. 1*, *Psychedelic Unknowns, Vol. 5* and *Every Groovy Day* ; and *Think Twice* on *Best of Michigan Rock Groups, Vol. 1*.

2. (B) THE AMERICAN REVOLUTION (Elektra EKS-74069) 1970 -
3. (C) THE POPE SMOKES DOPE (Apple SW-3391) 1972 191

This New York-based 'hippie' rock group may interest readers. They developed quite a cult following and continued to record albums into the eighties. The above three have become collectable. *I Like Marijuana* from their first album can also be heard on *Elecktrock The Sixties*. It was the highlight of a musically poor album, which has not stood the test of time well, but the songs which mostly dealt with dope and getting 'stoned' were popular with hippie audiences at the time.

He was a friend of John Lennon and Yoko Ono and they sometimes performed together. He's celebrated on Lennon's song *New York City* on the *Sometimes In New York City* album and they also produced his final album.

David Peel still resides on the lower east side and is today involved with Cures Not Wars and the Marijuana legalisation movements.

1 Frankie's Got It! / Today She Didn't Want To (FGI 1000) 1969

A one-off studio assemblage in Norfolk, Virginia dashed off this 45 as a promo for the *Frankie's Got It* record store. It's quite memorable - a novelty of sorts, affected-verging-on-manic lead vocals with background keening that gives it a ghoulish B-movie flavour. I guess it didn't make it onto the soundtrack for High Fidelity so you'll have to seek it out on *Pebbles Vol. 16* or *Aliens, Psychos And Wild Things* (CD).

Originally hailing from San Jose, this outfit appear to have spent most of their time in San Francisco. Line-up 'A' recorded a song about a guru *Swamii* which has become an acid punk classic due to its inclusion on *Pebbles, Vol. 3*.

The band later evolved into William Penn and His Pals (line-up B) and issued a 45 for Thunderbyrd in 1966.

Both sides of their classic Thunderbyrd release can now be heard on the *Pebbles Box* set and on *Sound Of The Sixties: San Francisco, Part 2*. *Blow My Mind* can also be heard on *Punk CIassics, Vol. 3*.

Californian band who made two slightly psychedelic albums. Larry Norman, later known for his Christian beliefs and records in that vein, was an early member and shares lead vocals on their first album. The group had a small hit with a cover of the Zombies *I Love You*. Besides that track, their first album contains some tracks with a slight psychedelic influence, notably *1000 Years B.C.*, *Nothing Can Stop the Elephants*, and *Ashes Of Me*. Side two of the album contains the sidelong *The Epic*, which changes shape several times and tells the tale of the maid Tori Kincaid.

By the second album Larry Norman had left the group, but it still contains several of his compositions. Like their first album, their sound is somewhat similar to Iron Butterfly, but quirkier, with lots of Hammond organ to the fore. Their vocal harmonies sometimes make you think of Vanilla Fudge, but the group make it all part of their own sound. *Both Sides Of People* covers many styles (there's even a country song!), and on this album there's more excellent guitar work than on their first. Side two is particularly excellent, with only three tracks, the first of which, *Lucky John*, contains some sitar, and some snakey fuzz. *She's A Dancer* contains great wah-wah and searing fuzz. Lastly *Pirate Bill* is another example of their humourous style, and somewhat reminiscent of parts of *The Epic*. By the third album, the group had been revamped, and had lost their lead vocalist as well as their lead guitarist. There was also added brass, so consequently their sound had changed a lot, and the reason for its inclusion here is minimal.

1(A)	PEPPER'S POW WOW	(Embryo SD 731)	1971

Jim Pepper was a Kaw and Creek Indian as well as a jazz and rock musician. In 1967 he formed Free Spirits with Larry Coryell and Chris Hills and pursued a jazz career. He also wrote *Witchi Tai To* which was covered by Chris Hills and Danny Weiss's Everything Is Everything, Harpers' Bizarre and Brewer and Shipley. *Witchi Tai To* was inspired by a religious Peyote chant from the Kaw tribe.

Released in 1971 and recorded at Apostolic Studios in New York, *Pepper's Pow Wow* is a strange mix of Indian songs (*Witchi Tai To, Slow and Fast War Dance, Squaw Song, Newly-Weds Song* have Kaw origins, *Rock Stomp Indian Style* and *Nommie-Nommie* are Creek inspired), folk (two Peter LaFarge songs), jazz, country and rock, with some excellent guitar solos by Coryell. The album was produced by Herbie Mann and Danny Weiss.

After releasing some jazz albums, **Pepper** died in the '90s.

This band formed in Marshalltown, Iowa in 1969 playing a form of hard-edged, drug-induced rock'n'roll. Their album was recorded in a basement studio in 1971 and just 50 copies were pressed on the Dragon label. In 1972 they recorded some rough cuts for what was to be their second album, *Meathook*. Sadly the band fell apart before the album was completed but two of these previously unreleased tracks, *Breakdown* and *Cat Black Claw*, can now be heard on the Rockadelic retrospective album - which is not a straightforward reissue of *Overdrive*, as it omits some of the original material. *Overdrive* features some pretty fine and varied guitar work. The opening cut, *Plea From The Soul*, has lots of fuzz and mouth harp; *Uncle Jerry* and *Rock n Roll Man* feature breckneck guitar work whilst by contrast *Whiskey Had My Woman* is slower and bluesy. Recommended.

A rare 45 of guitar-based pop/rock, which was recorded in Boston by Tom Foley. This act performed in the San Francisco area between 1969 and 1972 and were managed by Matthew Katz. In their time they got to open for the likes of The Grateful Dead, and Jefferson Airplane, and also performed on the same bill with Clover.

Both sides of the 45 can also be found on *California Halloween*. More recently Mark Quinn has recorded a solo CD and has put together a website: http://www.members.xoom.com/MarkQuinn

2. I TALK TO THE MOON (Ton Um Ton 1096-1) 1996

NB: (1) and (2) are numbered limited editions of 300. (1) also reissued on CD.

These two albums comprise unreleased material laid down in the Damon studios from 1969 into the early seventies, by a previously unknown outfit from Kansas City, Missouri. The sound here is predominantly gentle psychy hippie-rock but with the odd heavier moments as witness the excellent slow burnin' psychedelic workout *A Stumbling Dragon*. This track turns up again as the second half of the wistful *Genena* on the second album. *Chasing Now The Flying Time* also get's an airing on both albums. Other highlights - the siren effects on the rocky *Ride Me*, the phasing and bubbling sounds on *I'm Alive* have an almost 13th Floor Elevator aura, giving the first LP an edge over the second. It originally appeared as a 'No label' demo *Transparent Face* in 1969. It was actually the same group as **Trizo - 50** and some of the tracks on *A Psychedelic By...* were from the **Trizo - 50** album and not from *Transparent Face*.

Originally known as **Walpurgis**, *The Lost Album* is supposed to have been recorded by line-up 'A' in Los Angeles and predates the official *Divine Comedy* release. We have been told that the band were re-named by their manager as **Phantom**, and we know that the line-up which recorded *Divine Comedy* definitely came from Rochester, a small town about 30 miles from Detroit.

On both albums the vocalist sounds like Jim Morrison and indeed Capitol Records issued a statement that it *was* leading to legal action by Elektra.

What of the music? *Divine Comedy* is highly rated by many, it has a mystical sound and is recommended. *Tales From A Wizard* and *Welcome To Hell*, which are both rather melodramatic, are arguably the strongest tracks but a consistent standard is maintained throughout.

The *Divine Comedy* line-up made a second self-titled LP in 1978 under the name *Happy Dragon Band* (Fiddlers 11 57) 1978, This is more electronic.

The *Lost Album* contains previously unreleased material. Musically it's similar to their first effort though not as good.

NB: (1) reissued on CD (Collectables COL-0612) 1995.

A true teen combo, with members all ranging from between the ages of eleven and fourteen, **The Phantom Raiders**' 1967 album was released on Calvin Newton's Justice Records label. As opposed to many of the label's other acts, whom concentrated on mostly soul and R&B covers, the **Phantom Raiders**' leaned towards more pop/Top 40 material. As such, their lone album includes the band's versions of The Monkees' *I'm Not Your Stepping Stone* and *I'm A Believer*, the Beatles' *Day Tripper*, J. Frank Wilson's *Last Kiss*, Mitch Ryder & The Detoit Wheels' *Devil With A Blue Dress On/Good Golly Miss Molly*, and Them's *Gloria*, which the band seemingly improvised lyrics on. The album is also heavy on instrumentals, and features versions of *Stick Shift*, *Pipeline*, *Wipeout*, *Walk, Don't Run*, and *New Sound '67*, a group original.

From Portland, Oregon and on the same label as the United Travel Service, *Story*... is excellent catchy UK/Beatles-infused psych-rock, produced by Rick Keefer, best known to readers of this book for his collaboration with The New Tweedy Brothers. Check it out on *Psychedelic Crown Jewels Vol. 2* whose liners reveal (via Mike Markesich) that the band started as a three-piece with the Muller brothers in 1965. They were later known as Prime Mover having been augmented by Indonesian nationals, Soentpiet and Ashbaugh, who composed both sides of the Ridon 45.

Our Great Society is a moody off-the-wall psych gem that goes off on it's own amazin' freak-out trip and doesn't come back! Well overdue for a comp or reissue. The first 45 remains elusive but is said to be good psych too.

5. I Must Run/What's Happening (Ramco/ARA 1970) 1966

Phil Kelsey was born into a musical environment in Dallas, both his parents had jazz and gospel experience. His family later moved to Phoenix in Arizona where in his last two years of school he fronted The Four Gants, a fifties rock combo. Kelsey put together lineup A of **Phil And The Frantics** in 1963. Jim Musil discovered the band playing at their own Phoenix club, The Cave, and became their manager and producer. Phil renamed the club The Frantic Den and enlisted his mother's assistance to run it. Their early recordings were much influenced by the British invasion sound. The first 45 made no impact at all, the second was a local hit and the third a smash hit in Phoenix. Both sides, particularly the flip, featured haunting minor key melodies making this their best record so far. However, *I Must Run*, which was produced by Waylon Jennings and largely based on *I Must Move*, an early Zombies 'B' side, went one better charting in many parts of the country although it was not a national hit. You'll find it on *Acid Dreams Epitaph* CD, *Pebbles, Vol. 2* and the *Pebbles Box Set*. After its success they toured with Peter and Gordon and also played with other big name acts, but the band fell apart when Lambert and Powell left to join Beethoven Soul, a Californian band who had an album on Dot. Kelsey put together a new lineup (C) but their now dated British invasion sound could not survive the psychedelic era.

The Voxx compilation traces the band's musical development superbly and has excellent liner notes part of which have been summarised here. The first side concentrates largely on fast R & B rockers, the flip on their British invasion sound. All their 45s are included.

Upon the demise of **Phil And The Frantics** Phil Kelsey and Steve Dodge drifted between LA, Las Vegas and Phoenix. They changed their name to Phil Mark Five and then with the addition of Bobby Blood on trumpet to The Babies. An album was recorded after a deal with ABC - Dunhill in 1969. They toured with Three Dog Night, Blues Image and other popular bands of the time but, increasingly beset by drug problems and after three 45s had flopped, they then learnt that their album was shelved. Shortly afterwards, when Phil broke his leg, the band sacked him!

Back in LA Phil became an active session musician and songwoter. He worked with Earth Wind and Fire, Billy Preston and Brenton Wood among others. In 1979 he changed his name to Devin Payne and recorded an album, *Excuse Me*, which was scheduled for release on Casablanca but shelved when the company went bust in 1980. Later he produced a record for Blow-Up, a sixties-inspired new wave band.

Their other compilation appearances to date have been *Pain* on *Garage Music For Psych Heads, Vol. 1* and *Till You Get What You Want* on the *Pebbles Box Set*.

1. The Law Of Love/Do Fuga (Philo Spectrum PS 31180) 197?

An early seventies Los Angeles (or Louisiana) based group of Vietnam veterans produced this blues-rock album with some biting leads. There's also lots of keyboard dominance, including some instrumentals, but musically it's not terribly memorable. The album's produced by J. Gibson and arranged by Harold P. Johnson (who also seems to have been part of the multi-racial quintet, which included two blacks). All bar one track (*Baby I Care* was credited to Harold Johnson) were co-wriften by J. Gibson and Harold Johnson.

The 45 is often described as 'psych', presumably due to *Do Fuga*, a piece of backwards mayhem that appears to be just the 'A' side in reverse, and probably more interesting for that.

The front cover of the album uses the same picture as White Light's LP. This was because both albums were

pressed by Century records. If customers didn't have their own artwork, then the company had a selection of non-copyrighted cover art blanks from which they could choose. The odd art (resembling the contents of a fish aquarium under coloured lights) was picked up by both White Light and **Philosophers** coincidentally. Century also offered an outdoor scene showing an old mill wheel, which was used on many different records - the Victims Of Chance: *Goin' Home Blue* and Fifth Flight: *Into Smoke Tree Village*, to name two. Most of Century label's customers seem to have been schools / marching bands. (Clark Faville/Vernon Joynson)

Paul Bassett became a poster artist and together with Nick Ogilvie now lives in Portland, John Browne resides near Seattle and Steve Mork lives in Sacramento, California. NB: (2) was pressed on red vinyl and in stereo.

Phlegethon was the next musical venture for Hampers and Boughner after Grand Rapids, Michigan's mighty Soulbenders.

Aris: "Phlegethon was more of an "art-rock" band than garage, at least the last incarnation... it was the times. But some of the earlier stuff definitely borders on garage... particularly the organ and guitar sounds."

They disbanded a couple of months after the second release - "Actually the friction had begun before the recording session. I knew we were about to give it up... that's pretty much why I titled the tune *Last Voyage Home* even though the lyrics don't allude to that."

Aris is planning on releasing a CD of material in late 2000, featuring both bands. For more information and some cool band pictures go to: http://www.arisdisc.com/SoulB.htm

And just in case anyone was wondering..... Aris finally reveals: "I purposefully skipped #201 just to befuddle record collectors - I was one myself. It was just for grins, but it worked. A number of people have begged me to tell them about #201. he he...there wasn't one!"

From the Youngstown, Ohio area. **The Pied Pipers** had quite a following on the local scene, and were second only in the pecking order to the Human Beingz. They played at teen dances locally and recorded at Wam studios in Youngstown (long shut-down) who cut many local bands.

Led by Dennis Sessonsky, who co-wrote *Stay In My Life*, the group lasted until 1970, and had many personnel changes. The last version, when they were known as The Pipers, also included Dick Belley, who had played with the Human Beingz.

Sessonsky was a bizarre character to be sure. He later metamorphised into Dennis T. Menass and fronted Left End, the top Youngstown band throughout the '70s and early 80s. Left End also cut a few local singles and one album on Polydor.

The flip, to their second 45, *You Don't Know Like I Know*, was a Porter/Hayes Stax composition.

Compilation coverage to date has included: *Stay In My Life* and *You Don't Know Like I Know* on *Everywhere Interferences*; *Hey Joe* on *Highs In The Mid-Sixties, Vol. 9*; and *Stay In My Life* on *Midnight To Sixty-Six*.

45:

1. My World Has Stopped/Stop (Valley 1102) 196?

Michigan Mixture, Vol. 1 features both 45 cuts by this outfit. The first, *My World Has Stopped*, is a pleasant enough harmony pop effort. The second, *Stop*, is much faster and punkier with some good guitar moments.

1. Go Away/Money (Epidemic 2164) 196?

This band came from Albuquerque in New Mexico and drummer "Corky" Anderson had previously been with King Richard and The Knights. Their punkish 45 was clearly influenced by The Kinks. The 'A' side, written by S. Erickson and Bill Anderson, can also be heard on *Pebbles, Vol. 5* and *New Mexico Punk From the Sixties*.

The Plague

This Plague from Bismarck, New Delaware has a previously unreleased version of *Money* on *Hipsville, Vol. 2*.

The Plague

45:

1	Mr. White Collar Man/When I See That Girl Of Mine	(Wright W 6863)	1968

Poppy "garage" from Milwaukee, Wisconsin that sounds more like '65 or '66 and has too many sha-la-la's - it's nearer to teeny-pop sounds despite the moody keyboards. The 'B' side is a cover of the Kinks and has popped up on Leaving It All Behind.

2. I've Been Through It Before/Tears From My Eyes (Fenton 2070) 1966
3. That'll Never Do/Badlands (Quarantined ?) 1966

A Michigan, outfit who have a cut *I've Been Through It Before* on the *Chosen Few, Vol. 2*. It's a good melodic beat ballad with fuzz and their only strong track if truth be told - the rest are lightweight but dirgeful ballads. Still, you can check out the Merseybeat influenced on *Why Can't You Be True?* on *Destination Frantic!*.

The EP collects all tracks from thethree 45s except *Badlands*. It's hard to find nowadays - the original 45 s are nigh on impossible to obtain. Isn't it time some enterprising soul put out a legal compilation of Fenton's finest moments?

ALBUM:

1. (A) PLAIN JANE (Hobbit H.B. 5000) 1969

A pleasant and largely undiscovered dreamy rural rock album. Their dreamy organ sound, fragile harmonies and backwards fuzz guitar is best represented on tracks like *Who's Drivin' This Train, You Can't Make It Alone* and *Mrs. Que*. Others veer more towards pop, particularly the beautiful *Silence* and pleasant pop/rock of *Not The Same*. Certainly no lost gem, but its ten cuts all are originals and the album's worth checking out. (Max Waller/Clark Faville).

Planet of The Apes

ALBUM:

1	A MUSICAL TRIP	(TPI)	1974 R2

A Connecticut group mixing psych, pop and rock with lots of wah-wah guitar and some decent tracks (*People Sure Do Make Funny Noises* and *Hey Pet*). Due to their primitive facilities, this private pressing is quite noisy.

Plaster Casters Blues Band

ALBUM:

1	PLASTER CASTERS BLUES BAND	(Flying Dutchman)	1968 SC

From Moberly, Missouri. This band formed in 1962 as the Checkmates but changed name to **Plato and The Philosophers** in 1965 and lasted until 1970. The CD retrospective features the band's story, from which the personnel is confirmed, and features fourteen tracks: the It 45, and many unreleased goodies - two versions of *Thirteen O'Clock...*, *Wishes*, the proposed third 45 *Doomsday Nowhere City* / *I Knew*, and seven others from 1968 onwards, which include some excellent heavy acid-punkers. Other artists feature on the CD - Something Wild, Smoke (Houston's ex-Nomads) and the Fortunes.

Their first 45 was a routine garage effort. You'll also find the 'A' side on *Monsters Of The Midwest, Vol. 3*. *Vol. 2* of the same series includes the 'A' side of the Fairyland 45. It doesn't live up to its name but does feature some

arresting double lead guitar breaks and rather haunting harmonies. Tebow and half of the original line-up still gig occasionally!

NB: (10) as **P.O.E.**

This band originated from McAllen but were later based in Houston and played between 1965-70. Their music was a mixture of punk, folk-rock and rock'n'roll with their first two singles best described as garage-folk. By the time of their three 45s for "123" they had become more rock orientated. In 1970 they changed their name to **P.O.E.** making an LP and a 45 for UNI. A decent album in a heavy/psych vein, *Up Through The Spiral* is a concept LP based on the life of Edgar Cayce.

All of **The Playboys Of Edinburg** 45s listed above are non-LP.

The Williams brothers later recorded a 45, *When I Think Of You/Springtime* (JSM 101), as James and Michael which was also leased to London (257) for nationwide distribution.

Compilation coverage has so far included: *Wish You Had A Heart* on *(Texas) Flashback, Vol. 1*; *News Sure Travels Fast* on *Mindrocker, Vol. 7*; *Look At Me, Girl, News Sure Travels Fast* and *Wish You Had A Heart* on *Texas Punk, Vol. 5*.

1	Baby No More/I Gotta Be Goin'	(Rebic BNB-19653)	1965

Baton Rouge, Louisiana was home to this teen band who came up with the pretty frantic *I Gotta Be Goin'*, unfortunately the 'A' side is a rather lame garage ballad with two left feet!

The 45 was produced by Nick Benedetto with his brother and recorded at on August 14, 1965 at La Louisiane Studio in Lafayette La. Rebic was their label and the brothers also handled bookings for the band, getting them gigs all over the South, including Texas, Louisiana, Mississippi, Alabama and elsewhere. Nick remembers:- "We sometime travelled with them while holding down day jobs and raising families. It was quite a time. They opened for Johnny Rivers, and played on the stage between showings of the Beatles movie "Help". When Moyse left, Wayne Chapman took over the vocals and another musician was added".

For more information there is an excellent article about the band in 'Brown Paper Sack'. Write to Andrew Brown, Post Office Box 1622, Houston Texas 77251-1622.

Compilation appearances have included:- *I Gotta Be Goin'* on *Louisiana Punk Groups From The Sixties, Vol. 2* (LP) and *Sixties Archive Vol. 3* (CD); *Baby No More* on *Shutdown' 66*.

The first 45 is pleasant late '60s pop but it's the Tower 45 that's a real (ahem) pleasure - Sgt.Peppery pop backed by a haunting and heavily echoed 'baroque-psych' ballad. The latter can be heard by lucky owners of the *Growing Slowly Insane* compilation, which is a CD version of Billy Synth's *Psychedelic Unknowns Vol. 11*.

2. (D) Light Of Love/Shame (Mercury 72542) 1967
3. (D) Light Of Love/Good Kind Of Hurt (Mercury 72800) 1968

Out of Detroit, Michigan, this was a rather special all girl band in that it figured on bass a teenage Suzi Quatro. Suzi along with her friends and sisters used to attend Harper Woods clubs to watch local bands such as The Fugitives and Underdogs and one evening a comment to the clubs owner Dave Leone, that the current band playing "were crap" led to an invitation to do better. So it was that, towards the end of '64 Suzi and her friends put together **The Pleasure Seekers** and trundled through versions of *Loopy Lou*, *Louie Louie* and *Twist And Shout* at the club. Leone, subsequently offered them a one-off deal with his Hideout label, penning *What A Way To Die* - a crude homage to beer, whilst the band wrote the flip - an altogether more melodic folk-rocker.

The Pleasure Seekers soon found themselves playing gigs across the USA, from South Carolina through to New York, playing everying from Teen Hops to Strip Clubs. In New York, future New York Doll, Jerry Nolan even helped out on drums for a short while when Nancy Ball had to quit due to family pressure... In those days Rock'n'Roll was far from an acceptable 'career path'!

In 1967 the band signed to Mercury, and released a more pop/soul orientated 45 - they also flew out to Vietnam to play for the troops there, but with the music scene rapidly changing, and the emergence of the 'heavier' sound they decided to call it quits, with Suzi moving on to an outfit called Cradle.

The Pleasure Seekers 45s are rare and obviously sought-after, but both sides of the Hideout 45 can be found on the *What A Way To Die* compilation and the *What A Way To Die* track also features on *Michigan Mayhem Vol. 1*. *Never Thought You'd Leave Me* can also be heard on *Highs In The Mid-Sixties, Vol. 6:- Michigan, Part Two*.

Another **Pleasure Seekers**' 45, *If You Climb On The Tigers Back/(Theme from) Valley Of The Dolls* on Capitol (2050) from 1967 is almost definitely by a different outfit.

You can also check out *Don't Say Why* on *New England Teen Scene, Vol. 2*. These may be two different outfits - normally one would associate Valiant with LA acts so why does, this crop up on a New England compilation? There was certainly a **Plymouth Rockers** in LA in 1966 playing the Whisky A Go-Go, comprising the personnel listed and the Warner Bros 45 was produced by David Gates indicating L.A. again. Who knows - an itinerary troupe or just another compilation cock-up?

Who cares anyway - decent garagey folk/rock'n'roll beatsters is where they were at. *Don't Say Why* (an Addrissi brothers composition) is a great fuzzy pop-punker whilst the flip is excellent folky-beat-pop and sounds

remarkably like the early Association stuff - (L.A. again!). This 45 was produced by Don Dalton and D. Moore.

Turn-of-decade keyboard dominated rock from Camden, New Jersey that should appeal to prog rock fans. *Wondering* is rather fragmented by the time and mood changes. *Life Beyond The Clouds* has some solid riffin' interrupted by lighter passages that may work for some listeners. Their next 45, a folk-rock-pop Sloan-Barri cover backed by an uptempo version of the Beau Brummels' classic, proved popular enough to be picked up and released by Tower in November 1966. Formed in late 1968 by Messina and Furay (ex-Buffalo Springfield) and Grantham and Young (ex-Boyenzee Cryque), **Poco** was originally intended to be called Pogo (from the cartoon series). Their first album is a good combination of Beatles inspired harmonies and beat with country rock. Their sound was characterized by a mix of acoustic, electric and pedal steel guitars (Rusty Young even plays a fuzz solo on *Short Changed*) with good harmonies.

Sadly, after this promising start, Meisner left to be replaced by Timothy B.Schmit from Glad and *Poco*, their second album, was more country rock oriented and spoiled by an useless and extremely long instrumental track. Its stand-out cut was *You Better Think Twice*.

After that, Messina left to form Loggins & Messina with Kenny Loggins (ex-Second Helping and Gator Creek) and

was replaced by Paul Cotton (ex-Illinois Speed Press). **Poco** kept on recording reasonably successful albums during the seventies and early eighties, but, save for some Cotton and Young solos, their records are reserved to country rock fans and are often quite bland.

Unlikely, though, to interest psych fans.

They recorded beyond the time span of this archive. In addition to *U.S. Rock* (Anchor) 1976, which came with a poster insert and *Steamroller* (Peppermint) 1979, which had a lyric insert, there's also a late seventies test pressing *Live At Snug Harbor, Chittaqua, New York* (Cleveland Recording Company), which circulated without a cover and is rarely ever seen.

3	My Mind Goes High/Knowing You, Loving You	(York 404)	1967 -
3	Come Back Baby/Feelin' Down	(Decca 32318)	1968

Another interesting group, this time from Colorado. Not only did they include Nebraskan Randy Meisner, who as you probably all know was later in Poco and The Eagles, but Tom Shipley and Mike Brewer (of Brewer and Shipley fame) both wrote for the group.

Formed in late 1963 out of the ashes of The Soul Survivors, John Day left before the singles were recorded and returned to Denver. His replacement was Randy Naylor who was likewise replaced in late '67 by Veder Van Doren (ex-Moonrakers). The band also got to open for Buffalo Springfield in December 1966.

She's Got The Time (She's Got The Changes) is usually considered their best effort. Tom Shipley wrote it and evidenced by this they played a kinda folk-pop with lots of hooks and melodies, refined vocals and chiming guitars. *She's Got The Time* was also covered in the U.K. by a group called Afex. The song was popular around the Midwest and in search of fame and fortune the band relocated to Los Angeles, where they worked as The North Serrano Blues Band.

Of their other recordings, Mike Brewer wrote *Feelin' Down*, Allen Kemp wrote *How Many Tears*, Naylor composed *Love Is Real* and Meisner penned *Come Back Baby*.

Whilst in L.A., Jim Bell of the Ballroom was also involved with the band to the extent that Curt Boettcher produced

some material for them and was introduced to future Millenium member Joey Stec through them... Randy Naylor also co-wrote some songs with Boettcher during the Ballrooms period.

The band split in 1968 when Kemp and Shanahan went on to join Rick Nelson's Stone Canyon Band.

Curiously many unusual guitar riffs used by various incarnations of all these guys up to and including The Eagles were apparently inspired by their drummers Pat Shanahan's attempts to play various cliche Rock'n'Roll riffs!!

Compilation appearances have included:- *She's Got The Time (She's Got The Changes)* on *Highs In The Mid-Sixties, Vol. 18:- Colorado*; *Feelin' Down* on *Every Groovy Day*.

Obscurios, purportedly Californian, whose *I Will Be Free* can also be heard on *Psychedelic Unknowns, Vol. 8*. Another Poor Boys from Chicago had a 45 on Flame.

TOP

45:

1. Still Love You/Coco Loco (Coconut Tequila) (Sutter S 100) 196?

One of the few **Poor Boys** outfits around at the time, this bunch's brand of 'garage' is soulful and brassy with a thinly disguised remake of *Shake*, backed by another derivative brassy instrumental. Best avoided. (Max Waller)

1. She's The Best Girl In Town/Stop - Quit It (H.I.P. H 102) 1965

Catchy Brit Invasion influenced beat-pop with the 'B' side winning out on attitude, as well as for the harmonica break. (Max Waller)

Poor Richard

ALBUM:

1. PLACE OF THE SUN (Kazoo) 197? R1

A Michigan outfit whose relaxed folky/jamming album is hard to track down. Clark Faville feels that the opening cut sounds like it belongs on a Mighty Baby album.

The Poore Boys

45s:

1. Give/It's Love (Summer 181) 1967
2. Give/It's Love (Uptown 739) 1967

Conflicting reports place this band in Arizona or Minneapolis. *Give* is a low key garage ballad that tells a tragic tale whilst the flip is a decent garagey folk-rocker with a harp solo. (Max Waller)

Poother Unlimited

45:

1. Tastee Freeze (Not Going To WaitAny Longer)/Maggie (Cadet 5653) 1968

Fuzz-laden mayhem from the Midwest. Both sides of the 45 were written by Joel Schbofsky and produced by Bobby Whiteside, an important behind-the-scenes-figure in the Chicago rock set-up at this time. The 'A' side is pretty good and you can also check it out on *Mindrocker, Vol. 8.*

Hailed from Michigan and *Michigan Mixture, Vol. 1* showcases their 45 cuts:- *Once Upon A Time*, which has some pleasant woodwind and *Hello*, a keyboard-driven song, which has its moments.

One historically significant fact that has come to light is that the Magenda 45 represents the first released waxing of Marvin Lee Aday, known to the world as Meat Loaf. 5,000 copies were pressed in all so its not very rare - but no doubt there'll be a stampede for any copy that appears and its price will soar.

TOP

45:

1. Psychotic Reaction/13 O'Clock Theme (HBR 500) 1967

This was actually the work of Mouse and The Traps recording under a pseudonym with the singer Jimmy Rabbit and without Bugs Henderson or Doug Rhone on lead guitar. The 'A' side can be heard on *Pebbles, Vol. 1* and the *Pebbles Box Set*. The 45 also appeared on a French EP issued on Vogue (18099). The other two tracks were by an outfit called TV and The Tribe Men. Both sides also feature on Eva's Mouse and The Traps collection *A Public Execution* (Eva 12001) 1981. Incidentally, Jimmy Rabbit was actually known as a big-time AM DJ in Dallas; singing was only a side project for him.

The Possums

TOP

Hailed from Columbus, Ohio and *Highs In The Mid-Sixties, Vol. 9* includes their echoey version of *Stepping Stone*, which Boyce and Hart wrote for The Monkees. **The Possums** give the song quite an interesting interpretation.

The track originally featured on the highly valued and sought-after compilation *Hillside '66* (Hillside 2520961) along with another offering *She Don't Care About Time*. Other local bands featured were the Grim Reapers, New Breeds, Penetrations, Terry Davidson and the Barracudas, Brick Walls, Kings, Geers, Eggs, Noblemen, Margins and The

Deadlys. Nothing was spared technically - it sounds like they were playing in the bathroom - expect it to cost both arms and legs!

1. She's Loving Me/King In This World (JM 3824) 1966

This unknown band came from Scottsdale, Arizona. The bright 'n' breazy 'A' side, with it's neat staccato rhythm guitar/organ, catchy chorus and fine fuzz lead, has surprisingly, only resurfaced on *Sixties Rebellion, Vol. 3*.

This album, which was recorded at Audio Mixers Recording Company in Chicago, has its moments, most notably on the title cut, which starts with a sensitive instrumental introduction, which leads into some great hard rock midway and also features a memorable ending. The rest of the material ranges from country rock to harder rock and rock'n'roll and is worth a spin.

They evolved out of a garage band called Down From Nothing.

1. BIFF! BANG! POWDER (Distortions DR 1015) 1996

NB: (1) is a twenty-seven track CD compilation which includes side projects by Ray Columbus and Art Collection.

Hailing from San Mateo on the San Francisco peninsula, **Powder** evolved out of The Art Collection, who teamed up with visiting New Zealand singer Ray Columbus for the demonic garage fuzz thrash, *Kick Me* - which is joined on the album by the then unreleased and far more commercial *Snap Crackle And Pop*. Both songs were taped at the start of 1967. The next five tracks on the album were taped after Columbus' departure, when the band's live set confused audiences who were used to the blossoming psychedelia of the time. By early 1968 the band had evolved into the altogether more satisfactory **Powder**, whose entire recorded legacy (16 tracks) appear on the CD mentioned above (mostly from an aborted album taped at Hollywood's Gold Star studios). The final four tracks wrap up the story with some post-**Powder** recordings from 1969 by Thomas and Richard Frost.

A strange one indeed from Fort Worth, Texas. Whilst *She Is The Color Of* is a whimsical pop ballad, the topside is difficult to bag - it could be described as early MOR-ish Iron Butterfly with its quasi-religious keyboard doodlings ala Doug lngle. Add to that deep manly vocals ala Ingle (again) or Sean Bonniwell, religious lyrics and occasional fuzzy guitar and well it's touted as 'psych' by specialist dealers - make up your own mind!

Both songs were written by songwriter Bernie Schwartz.

readers, though I certainly wouldn't recommend it to garage or psych purists. They did not record any 45s for this label.

45s:

1. Good Lovin'/(l Can't Get No) Satisfaction (MTA 113) 1966
2. Cool Jerk/You Blow My Mind (MTA 118) 1967

The above is thought to be a studio-only outfit. The album featured Hugh McCracken, a session guitarist, who later did work for Paul Simon (1975), Henry Gross (1976), Paul McCartney (1971) and Gary Wright (1970-71), to name but a few.

A regular on the Connecticut sixties scene he was in several groups and released two 45s on Congress as Hugh McCracken and The Funatics in 1965 and 1966.

The album consists of instrumental covers of some of the 'hip' sounds of the times - *Paper Back Writer, The Midnight Hour, Cool Jerk, Bang Bang, Got My Mojo Working, The Tracks Of My Tears* and *Satisfaction* - almost entirely devoid of fuzz. A sorta Duane Eddy goes garage! Not recommended.

You Blow My Mind is a passable garage punk instrumental and has recently been compiled on the *Everything You've Always Wanted To Know....* CD.

3. Stay Out Of My World/Pain And Sorrow (Moonglow 5006) 1965

NB. A French EP on Barclay (70890) features the four tracks from the first two 45s.

A raw LA punk band from the Hollywood area. They are best known for their version of Bo Diddley's *Who Do You Love?* which later resurfaced on *Acid Dreams Epitaph* CD, *Pebbles, Vol. 1, Straight From The Garage (EP), Vol. 5* (also known as *Punk CIassics, Vol. 5*) and the *Pebbles Box* set. **The Preachers** gave it gritty treatment with snarling vocals and a wild chorus.

The group's personnel appears to have been fluid. According to *Pebbles*, three of these guys went onto the final line-up of The Vejtables (after Jan Errico and Ned Hollis had left) to record the excellent *Shadows/Feel The Music* psypunk 45 and five other unreleased tracks. Richard Fortunato was certainly one of these three since he co-wrote both 45 tracks. He'd later turn up in the post-Bees W.C. Fields Memorial Electric String Band, ESB and Fields and was almost certainly in The Bees too.

John English also went on to produce some 'solo' releases, still backed in many cases by **The Preachers**, e.g. as John English III and The Lemondrops.

A different outfit from Birmingham, Alabama who released their 45s on a label run by the Righteous Brothers. Mike Markesich reports that their strongest track is *Inspiration*, a Dylan-inspired rant, and that *Hallowed Ground* is "a big production number, supposedly used in a movie soundtrack (but you can't believe everything you read on labels!)".

This outfit from San Gabriel, California predate the psychedelic era, but may be of interest to readers in view of the inclusion of *Farmer John* - their most famous song - on *Nuggets*.

More recently *Farmer John* has resurfaced on the *We Have Come For Your Children* compilation. *Get On This Plane* along with *Farmer John* were also featured on the original *East Side Revue* double compilation album on clear wax (Rampart 3303). *Get On This Plane* has also resurfaced on *The Psychedelic Experience* (both vinyl and CD) and *Boulders, Vol. 2*.

This 'outfit' was persistent - it was later released on three other labels, all as by

Produced by Gordon Shryock, *Bluze* is a (non surprisingly) bluesy pop album with consistent covers of *Ninety-Nine & a Half Won't Do* and *Farther Up The Road* plus some original songs. Quite pleasant but nothing essential.

Partly recorded in England, his 1974 album sounds very similar to Eric Clapton's production, his musicians (Radle, Oldaker...) playing with both.

Don Preston had earlier played in Don Preston and The South and would go on to play with Leon Russell, Joe Cocker and George Harrison. He released at least another solo album, Sacre Blues (Rag Baby, 1981).

Don Preston was a member of the "Oklahoma Maffia", the group of musicians who came from this Southern State and who followed in Leon Russell's footsteps to Los Angeles in the mid '60s. He's not however the same Don Preston who was a member of Frank Zappa's Mothers Of Invention.

Known mostly as a gifted guitar player, Preston was also a singer - songwriter and his *Shadow Of A Doubt* was covered by Paris Pilot. Their sole album was produced by Gordon Shryock, and contains mainly bluesy pop numbers with some good guitar parts. All the songs were penned by Preston except for *Got Me In The Middle*, one of the poppiest tracks, which was written by Joey Cooper and R. West. Two members of Colours, Carl Radle and Chuck Blackwell also guest on this forgotten album.

Don Preston went on to have a solo career, whilst Bobby Cochran later played in various Californian outfits (Bobby and The Midnights, Sierra etc.).

Primarily remembered (and cursed by many) for hijacking The Electric Prunes and turning them into a faceless concept band with *Mass In F Minor* and *Release of An Oath*, David Axelrod was to continue in this vein for a couple more years with a trilogy of LPs before this release. An acoustic sound is to the fore and a decidedly Spanish feel, it's rather stretching the term psychedelic but for those who enjoyed the feel (and pretentiousness) of *Mass* it could be of interest. 4(B)	Jewelry Lady/I'm Looking At You	(Tee Pee 35/6)	1967

Led by the talented Doug Yankus, this Appleton, Wisconsin outfit formed in 1966. Doug's previous groups included Ritchie Dino and The Dukes (Ritchie Dino was a stage-name Yankus adopted), The Versatones and The Strangers From Digil. 'Digil' was the name given to the basement room in the Yankus household that was used for music, parties and band practice.

Chuck Posniak was previously in The Memories. He left **PPOD** in mid-1967. His elder brother Al Posniak had started the Target and Tee Pee labels after leaving the Golden Catalinas.

Their 45s mix beat, folk-rock, and multi-part harmonies with a quirky aura. *On Look At Me* the harmonies are unsettling and deliberately off-key. The melodic and jangley *Destination Nowhere* is a stand-out despite the Four Seasons-style falsettos. *Patch Of Brick* is a haunting and sombre ballad with interesting time changes, marred by an annoying glitch on the master tape, whose passage of hiss seems worse on the CD than on the original 45. The *Sunshine Flames* and *Jewelry Lady* 45s are probably their strongest, comprising upbeat Byrdsian folk-rock.

PPOD folded in 1968. Doug Yankus formed Soup with Dave Faas and Doug Griffith. They released one 45 and a sought-after LP, that have been reissued on the above CD with the **Private Property Of Digil** 45s. They lasted till the mid-70s.

Doug Yankus later formed Soft Touch and the Doug Yankus Band. He has appeared on recordings by John Hiatt, Ry Cooder, Roseanne Cash, Tracy Nelson, and Mother Earth amongst others. He passed away in 1982 due to complications arising from diabetes. The *Soup* CD is dedicated to his memory with proceeds going to the Diabetic Foundation.

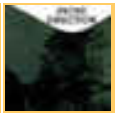
PAUL VENTURINI	organ, vcls	A

ALBUM:

1(A)	PRIVILEGE	(T. NECK TNS 3003)	1973



Venturini and Leonetti had previously been in the Soul Survivors and, according to the liner notes, **Privilege** was

formed to mix the influence of Hendrix with the Isley Brothers and The Soul Survivors. The resulting album has its moments, especially because of its good guitar parts with loads of effects (fuzz, wah wah etc.). Tracks like *Purple Dog* and *Traitor* also have effective vocals with a good rhythm.

T. Neck was a subsidiary label of Buddah.

Formed in Norfolk, Va. in 1964, the **Psychos**' debut 45 didn't appear until their final year. Bacon and James had appeared on other local acts recordings by then, notably on *Workin' For My Baby* - a local hit for Lenis Guess in the summer of '66. *Black River #3* is a slow folk-rocker with wailin' harp, waltzing rhythm and pastoral vibe. It can be heard on *Aliens, Psychos And Wild Things* (CD) which documents the Tidewater '60s scene in Virginia and, in addition to all the info above, notes that this band mastered a somewhat unique skill - skateboarding whilst playing!

The flip is an upbeat organ-dominated number that sounds more like '65 than '68.

1	Looking In My Window/Rainy Day	(MGM 14040)	1968

NB: (1) 'A' side is a non LP track.

This band's album, which reflected the psychedelic era in some of its music, is beginning to interest some collectors. Another example of the Bosstown sound produced by Alan Lorber (Ultimate Spinach, Chamaeleon Church) and recorded in New York on August 26/27th, 1968, this pleasant sorta psych-prog album is of note since **Puff** were formed out of the ashes of The Rockin' Ramrods: Vin Campisi and Henderson, as well as Ronn Campisi (who wrote all the songs but doesn't play on the album), were all previously in this group.

Housed in an awful sleeve (photographed at Phil's Thrift Shop Fur Annex!), the album contains well structured songs with good vocals and harmonies and occasional guitar leads (especially on *Dead Thoughts Of Alfred*). A light jazz influence is evident, with baroque-jazz pointillist piano lines on *Trees* and echoplexed flute textures on the trance-like *I Sure Need You*.

The Big Beat compilation *The Best Of The Rockin' Ramrods* includes the entire **Puff** album plus the non-album 45 - eleven tracks in all.

In 1982, Jim Mandell would release on Elektra a solo album la Billy Joel *No More Illusions*. Ronn Campisi is now a publications designer; Vin Campisi works in record distribution; Bob Henderson became a recording engineer; Jim Mandell a L.A. studio musician; and David Allen Ryan later played with Sha Na Na.

45:

1	Just Like You/Slumberland Blues	(J & S 00002)	1970

Schuller was clearly the creative force in this Fitchburg, Massachusetts band. He either wrote or co-wrote with Belliveau every track on their album. This very rare album contains some tasty guitar on *I Don't Know Who To Blame* and thundering organ on *What's Right For Me*.

They were not a garage or psych band as such but were influenced by Cream, Procol Harum and other late sixties bands. It's a unique record in that it is an unabashed portrait of the band's music.

The value of the record may have dropped considerably due to a sizeable warehouse find some ten years ago. In the 'States this album is considered to be in the SC rather than R2 category.

Recently, Gear Fab unearthed the master tapes and have reissued the album with notes from John Schuller, who reveals that the band was formed in 1969 as Mask until it was found that another band had registered the name. He points out the initial LP jackets came with "3 In 1 Records" printed on the spine. The title was to be *Three In One* but the label lost the original artwork, dropped Kelly's last name and retitled the LP after the single that had been released. Worst of all, the band learnt that the label was putting out the LP using the rough session mixes (which they expected to mix and redo some bass and vocal parts) but were unable to stop its release. The Gear Fab CD adds three bonus cuts - two 1970 demos and a live *What's Right For Me* from February 1971 featuring bassist Gary

Ianuzzi.

Schuller reports that all three original members remain active on the music scene: he has his own band, produces/engineers local Massachusetts acts and has worked with members of Boston and Heart; "Ducky" Tredeau is an in-demand pedal steel session player, working and touring with many well-known acts including Terence Trent D'Arby and J.Geils' Peter Wolfe; Ed Kelly remains the choice drummer for area bands' projects and gigs.

From New Haven, Connecticut, **The Pulse** evolved out of The Bram Rigg Set and The Shags, and were originally known as **The Pulse Of Burritt Bradley**. 1. (A) TRIBUTE TO JIMI HENDRIX (Stereo Gold Award MER 340) 1971

NB: The above release is a U.K. one. The album was also issued in Germany (on Sonic) and in Canada (on Summit).

A mysterious record not issued in America but possibly of American origin as Clark Faville feels the group sound remarkably similar to the Chicago-area band The Exkursions, which may or may not be a coincidence. The bulk of the tracks on this album were also issued on another German-only album Jeff Cooper and The Stoned Wings, so it's

possible the personnel listings on both albums are ficticious. One track, *Palamatoon*, also appears on Funky Junction's LP *Tribute To Deep Purple* (Stereo Gold MER 373) 1973, featuring UK band Thin Lizzy, Dave Lennox and Benny White. Can anybody confirm if the two versions are the same??

According to the sleeve notes, to *Tribute To Jimi Hendrix*, leader and Hendrix acolyte Alex Boggs hailed from St. Louis, Missouri and is joined by two sidemen from New Orleans. Lashings of heavy guitar psych featuring decent, though sometimes leaden, covers of some Jimi classics. Whether this could "possibly fill the void left by Jimi" was optimistic beyond doubt - a worthy tribute but lacking something in the *Fire* department by trying to be too faithfull and reverent, right down to the vocal mannerisms. It should still have appeal for staunch Hendrix fans, completists and air guitarists.

You can also find one track *Acid Test* on *Turds On A Bum Ride, Vol. 6.*

Both sides of the MGM 45 are upbeat bombastic pop with liberal doses of strident guitar and fuzz - infuriatingly infectious after a few spins. From New York, their album was a "Super K" production by Kasenetz-Katz. with a psychedelic side and a bubblegum side. Among its better tracks are *4th Dimension* and *Seance*, and overall it's worth hearing.

One of the tracks, *The Seance* started when Jeff Katz came into the studio whist the engineer was trying to get a volume and E-Q level. As usual, the band were goofin-off - playing disonant jibberish to irritate and annoy the

engineer, but Jeff thought that THAT SOUND was' just what he was looking for ' to finish the album...

One track from the album, *Mysterious Martha* has been compiled on *Psychosis From The 13th Dimension*.

Question Mark (Rudy Martinez) was born in 1945 and raised in Saginaw, Michigan. The band of Mexican/Americans were initially based in Corpus Christi, hence their inclusion here, although they were based for much of their career in Flint, Michigan, where they issued *96 Tears* on their own label before it was picked up by Neil Bogart for release on Cameo. A relentless 'punk' two note organ sound ran throughout the record which quickly became a classic of its genre making No. 1 in the U.S. and No. 37 in the UK. They enjoyed some subsequent chart success but were never quite able to recapture the magic of *96 Tears* or shake off the 'one hit wonder' tag, although it wasn't quite true. Robert Martinez and Larry Borjas were also original members of the band but they were in the U.S. Army when the first album was recorded.

Splitting in 1968, Martinez has made various attempted reformations. A 45 was issued in 1973 and new demos were recorded with Kim Fowley in 1978. They also played a reunion concert at the Dallas Arcadia in early 1985 and have continued to perform into the nineties. The Michigan band Inflight included ex-members of **The Mysterians**.

Mel Schaefer would later form Grand Funk Railroad.

The band have also appeared on a few compilations. *Make You Mine* was included on *Pebbles, Vol. 8*, *Smokes* on *The Sound Of The Sixties*; *Do Something To Me* on *Michigan Brand Nuggets* and *Mindrocker, Vol. 11*; *96 Tears* on *Mayhem & Psychosis Vol.3*, *Girl (You Captivate Me)* on *Songs We Taught The Fuzztones*; *Can't Get Enough Of You Baby* on *Michigan Nuggets* (a '70s 2-LP set now reissued on CD), and *Hang In* on *Everything You Ever Wanted To Know...* CD. They were also included on the much earlier compilation *The Stars Of Hitsville* (Wyncote 9187).

Quicksilver were another of the finest San Francisco bands. Like The Grateful Dead their music was instrumentally orientated. It was led by the twin guitars of Gary Duncan and John Cipollina in true virtuoso style. Their main musical influence has been Bo Diddley. Prior to forming the band each of the members had played either independently as folk singers or as part of a band. They appeared on the Soundtrack to the film *Revolution* although by the time the album was released Murray had left the band to go to Hawaii and study the sitar. Dino Valenti was also to have been included in the group but inconveniently he was busted and indisposed somewhere in a Californian jail. Incidentally, Elmore and Duncan had both earlier played together in an unsuccessful group - The Brogues.

Quicksilver contributed two tracks to *Revolution*. *Codine* was recorded by many other Bay Area groups, including The Charlatans. This was arguably the finest version of the song, with Duncan's vocals very much to the fore. Their second song, *Babe, I'm Gonna Leave You* provided a promising glimpse of the fine guitar work to come. The group soon developed a cult following in the Bay Area and were always in demand for 'live' gigs. Wary, perhaps, of the fate of some of their contemporaries, they seemed in no hurry to win a recording contract. Indeed, they were one of the last important San Francisco bands to sign up. Eventually Capitol made them the right offer and their two debut albums can be regarded as the purest examples of the San Francisco Sound in this era.

The first album contained some fine material. The outstanding track is probably the melodic Bo Diddley derivative *Gold And Silver*, one of the most melodic guitar suites ever, featuring some gorgeous ringing guitar work. Most of side two was taken up with the long, ambitious composition *The Fool* which again featured adventurous guitar work from Duncan and Cipollina. Other tracks such as *Light Your Windows* and *Dino's Song* featured mellow vocal harmonies. The drug influence in their music was clear too.

Some of **Quicksilver**'s albums have astonishing covers. *Happy Trails* is possibly the best of all. Many critics also regarded the album as one of the best rock, let alone, psychedelic rock, albums ever made. A 'live' recording side one is composed entirely of the *Who Do You Love? Suite*, a guitar master-piece. However, this is overshadowed by Cipollina's decisive, culling work on some of the songs on side two, particularly *Mona*.

Meanwhile, Dino Valenti, who wrote the classic hippie anthem *Get Together*, had been released from jail and started gigging and writing songs, eventually recording a solo album for Epic in October 1968. In January 1969 Valenti persuaded Duncan to leave the group and accompany him to New York to form a band called The Outlaws. But they failed to find the personnel they wanted and returned to rejoin the band a year later.

With Duncan gone, Elmore, Frieberg and Cipollina were left in limbo for a while until pianist Nicky Hopkins, having left Jeff Beck, joined the band. As a foursome they recorded *Shady Grove*. But without Duncan their distinctive twin guitar sound had gone. The album was disappointing in comparison to their two earlier gems,

although it still contained some fine songs. The virtuoso keyboard playing of Nicky Hopkins on tracks like *Joseph's Coat* and *Edward the Mad Shirt Grinder* was particularly noteworthy. Also of interest were the sleepy slow acid-influenced compositions like *Flute Song* and *Flashing Lonesome*. The sentiments of the title track - *Let's Quit The Pressures of City Living For Greener Pastures* - were an essential part of the hippie philosophy.

'I used to walk on the city streets
Now I wander far and wide
I never found my happiness
Till I moved to the countryside...'

and later in the same song:

'It you've been watching the city streets
They don't seem to get much greener
But I know where we're going to
Our heads will feel much cleaner...'
(from *Shady Grove*)

With both Valenti and Duncan in the band, they got back on the road as a sextet and started work on their fourth album *Just For Love*. However, Nicky Hopkins left the band in July 1970 before its release to join The Rolling Stones and do session work. This album, and part of the next, was recorded in Hawaii. The group was dominated more and more by Valenti's laid-back vocals - you either love them or hate them. Unfortunately, the diminished influence of Duncan and Cipollina meant the demise of their celebrated acid rock guitar sound. This cost **Quicksilver** many of their previously diehard fans. Nevertheless, in its own way *Just For Love* was a fine album. The opening and closing track *Wolf Run*, was a successful attempt to re-create the sounds of the jungle, whilst *Just For Love* also in two parts, following and preceding *Wolf Run*, demonstrated Valenti's vocal dexterity. Among the tracks sandwiched between these were two classics. The drug song *Fresh Air*:-

'Have another hit of Californian sunshine...'

was also performed by the band in the *Last Days Of The Fillmore* Soundtrack. But over-shadowing it was the mellow *Gone Again* (an early insight into the laid back West Coast music of the seventies?):

The follow-up album *What About Me?* marked the arrival of Jose Reyes (congas, vcls) and was also Cipollina's last with the band. The title track poses the question of how the U.S. Establishment could come to terms with the growing rebellion of American youth:

'I feel like a stranger
In the land where I was born
And I live just like an outlaw
I'm always on the run
And though you may be stronger now
My time will come along
You keep adding to my numbers
As you shoot my people down ...'
(from *What About Me?*)

It also contained two beautiful love songs *Baby, Baby* and *Long Haired Lady* which, together with *All In My Mind*, captured Valenti's vocals at their best. As Valenti's influence increased, Cipollina's, unfortunately, diminished, with the rather lame instrumental *Local Colour* his only credit on this album. This probably influenced his departure in October 1970. In the fall of 1971, however, he started a new group, Copperhead, which recalled the kind of sound associated with the early **Quicksilver** - rock and roll with intricate instrumentals and a trace of harshness. This included Jim Murray and Nicky Hopkins for a while. Copperhead successfully captured this sound on their 1973 Columbia album, particularly on tracks like *Roller Derby Star*, *Kibitzer*, *Spin Spin*, *Wang Dang Do* and the excellent *Making A Monster*.

September 1971 brought further disaster for **Quicksilver** when David Frieberg was convicted for marijuana possession for the third time, fined $200 and gaoled for two months. He did not rejoin the band after his release, but did session work, playing on Mickey Hart's solo album *Rolling Thunder* before ending up with Jefferson Airplane. When Frieberg became involuntarily indisposed the band was halfway through a new album. Mark Ryan, (ex-Country Joe and the Fish) was brought in to replace Frieberg on bass and Chuck Steaks was introduced on organ.

This line-up recorded the band's next two efforts, *Quicksilver* and *Comin' Thru*, which showed it to be a mere shadow of its former self. Three years later, in 1975, Duncan, Cipollina, Frieberg, Elmore and Valenti got together for an unsuccessful reunion album *Solid Silver*. Nonetheless, **Quicksilver**'s acid guitar sound on those first two albums was the finest to come out of San Francisco and their next three albums also contained some fine material.

John Cipollina went on to play in numerous other Bay Area bands. Born a chronic asthmatic, he also sumered from emphesema in later life and tragically died after being admitted to hospital during 1989. David Frieberg went on to play for Jefferson Starship.

Compilation appearances have included:- *Got My Mojo Working* and *The Fool* on *California Christmas* and *Smokestack Lightning, Pride Of Man* and *Gold and Silver* on *California New Years*.

From Apollo, Pa. this band were previously known as The Fenways and released numerous 45s between 1964 and 1966 including some with other acts (Tawny Sims, the Vogues) and under assumed names (Townsmen, Four Chaps). Certainly no teenage garage combo, they mob look like a bunch of seasoned session men cobbled together and told to try and look and sound 'groovy'!

Technically competent they at times lacked that certain passion. Covers include *(Just Like) Romeo And Juliet*No Fair At All (Association) *Let It Out* (*Let It All Hang Out*)(Hombres), *Get Out Of My Life Woman* and *Little Wing* (Hendrix). The latter track is probably one of their best if you ignore the vocals - a mellow version with fine non-distorted guitar. Their second album is the stronger of the two. *The Minstrel* has good effects and a certain charm, *Sweet Little Smoke* is quite a successful sensitive ballad, the title track is a good slice of pop-psych and *You*

Turn Me On is a reasonable attempt at the same. *Ain't Nobody Gonna Love You* and *Suburban Life* raise the tempo, but the reprise to *Get Out Of My Life Woman* is simply awful.

Sonny Di Nunzio went on to Sebastian.

45:

1. Why Did You Rob Us, Tank?/Sewer Rat Love Chant (Liberty F-55930) Nov. 1966

The 'A' side of this 45 was composed by Krikorian, Olson, Scott, Shapazian and Van Maaoh, and the 'B' side by John Kates. The 45 was produced by Dallas Smith and both sides are chiming psychedelic Eastern-influenced folk-rock at its best. Thanks for recommendations from these shores *Sewer Rat Love Chant* can now be heard on *Beyond The Calico Wall, Vol. 1* (CD) as one of the 'bonus cuts' and it informs us that they hailed from Fresno, 'lettuce capital of California'!

Paul Sanoian writes: Just though I'd let you know that, as a native of Fresno, I can tell you that Krikorian, of **Raik's Progress**, later become better known as Tonio K. Also, little or no lettuce is grown in Fresno. Fresno is, however, a major agricultural area, producing grapes and other fruit, cotton and other types of vegetable stuff. Anyway, thanks for the site.

1. LIVE, CHRISTMAS NIGHT (Whazoo USR 3046) 1971 R2/R3

NB: (1) had a limited numbered reissue of 300 in 1991.

A local New York area band. Their album contained lots of heavy bar-band covers of Stones numbers and is worth checking out, if that's your bag.

3. Hear You Cry/Substitute (A.P.I. 337) 1967
4. Hear You Cry/Substitute (London 111) 1967

A Hollywood, Ca. based outfit. Both sides of their first 45 resurfaced on *Boulders, Vol. 2* and you can also check out *ESP* on *Highs In The Mid-Slxtles, Vol. 20* and *Mayhem And Psychosis, Vol. 2*. *ESP* was a rework of The Pretty Things' *LSD* whilst *Outta My Life* mimics *I Can Only Give You Everything*. The *ESP* 45 was produced by Brian Ross of Original Sound/Music Machine/Friendly Torpedos fame.

Hear You Cry later resurfaced on *Turds On A Bum Ride, Vol. 3 (CD)*.

It's thought that this outfit may in fact be an embryonic Big Brother Featuring Ernie Joseph.

1. (A) RAIN (Project 3 PR 5072 SD) 1972

For those into early seventies U.K. progressive rock ala Yes, Genesis etc., this may interest you. Shades of light and dark, jazzy signatures, oodles of keyboards, the odd guitar solo and harmony vocals. Not many American bands embraced the prog-rock genre - this outfit occasionally bask in it though they tend towards lighter moods rather than heavy pomposity. Their origins are unknown as is any connection to other **Rain**'s, e.g. those from New York and Kansas. (Max Waller)

NB: (1) has been reissued on CD (Lyrical Sound Device CW 5003).

A short-lived Los Angeles-based project. Their album has a great cover. The contents incorporate several different styles. All the music is written by W. David Mohr and much of it is heavy with lots of fuzz guitar reminiscent of Iron Butterfly. It ranges from heavy soul (*I Just Want To Make Love To You*); hippie pop (*Leaf Clover*); a sorta West Coast sound which seems in places distinctly similar to Fever Tree's *San Francisco Girls* (well spotted,

Max!); pretentious pop with lots of keyboards (*Midnight Candle*); gimmickry with lots of sound effects (*Does Your Head Need Straightening?*) to the very plesant *After The Storm*, which has some delighfful soothing piano.

45s:

1. There's A War On/Better Way (Mr G 817) 1968
2. The Last Platoon/Great White Whale (Mr G 821) 1969

Both albums are excellent soft rock with touches of psychedelia, particularly the first one, which is beginning to become a minor collectable.

Rainbow Promise

ALBUM:

1. RAINBOW PROMISE (New Wine - Wine Press LPS 259-01) 1972 R3

NB: This was reissued as Steve Powell and Rainbow Promise (Wine Skin) 1975 R2.

This is religious rock very much in the same mould as Agape. The front cover quotes from the book of Revelations and depicts Christ surrounded by seven candlesticks. There are some naff country tracks on this extremely rare album which does have some good tracks. What might interest readers is the fuzzy guitar work on *Someone You Need* and the more melodic guitarwork on *Get Ready* and *I've Got The Rebirth*. The band were from Springfield, Missouri.

Raindear Army

45:

1	Subterranean Sunset/?	(Ledger 18811)	1968

From Peoria, Illinois. *Subterranean Sunset* is a strange and disjointed slab of psychedelic rock that kicks off with a bubbling caudron of keyboards and fuzz, veers off into strident hard-rock territory before fragmanting with a trippy break and floating flute interludes. A joint is a pre-requisite here.

The Rainmakers

45:

1. Jeanie Green Bean/My Home Town Girl (Cross-Winds CW 101) 1965
2. Sinner Man/The Treasure Of Your Love (Bonjo B 3152) c1966

The first 45 on a Lake Elsinore, California label contains catchy garagey folk-beat, especially the moody flip with its finger ringing break, credited to Tim Elmer and Dale Harris. *Sinner Man* and Barry DeVorzon's *Treasure...* are covered in a tough folk-rock vein with almost raucous vocals. All in all, two worthy platters of the genre by an obscure New Jersey band (far from the label's locale) about whom we should know more. (Max Waller)

3	Don't Be Afraid / I Won't Turn Away Now	(Discotheque 875)	196?

Lower-profile Michigan garage out of Portage. *Tell Her No* is not the Zombies classic but a bittersweet garage-ballad with sultry vocals punctuated by the odd blast of rasping fuzz. The flip is more overtly Searchers-influenced jangley garage-beat sounds with keening harmonies. A true nugget.

The other 45s remain unheard and none of this unheralded band's material has appeared on compilations to date.

5. Blood Of Oblivion/Stop Sign (UNI 55026) 1967
6. Make Me Laugh/My Door Is Always Open (White Whale 279) 1968

A great pop-punk-psychedelic outfit from Denver, Colorado. Only the first 45 appears on their album which is recommended. They first formed in 1965 when they specialised in playing beat and R&B and they were a regular attraction at local frat parties. Almost unbelievably they were unearthed by Phil Spector who signed them to a management contract and a giant publicity campaign was planned but never really materialised.

A year or so later *That Acapulco Gold* appeared on the local IP label and Frank Slay, a local producer, bought the rights and released it on his Chicory label. However, it was quickly leased to UNI and became the band's best known song making the No. 70 spot. Although they never again equalled this commercial success they continued to make some excellent 45s. One of the best, a beautifully crafted piece of pop-psych can be heard on *Highs In The Mid-Sixties, Vol. 18:- Colorado*. Originally released as *Fe Fi Fo Fum* it was almost immediately withdrawn and reissued with a different title *Blood Of Oblivion* even securing a U.K. release (Polydor 56737). You'll also find

Make Me Laugh on *Psychedelic Unknowns, Vol. 7, Absurd Bird* on *Kicks & Chicks, Vol. 1* and *In My Mind Lives A Forest* on *Psychedellc Archives, Vol. 6* and *Acid & Flowers* CD.

Tim Gilbert, the main songwriter, also released a solo 45 *Early October/lf We Stick Together* (UNI 55045) 1967 - folkie fare which has been compared to Tim Buckley. He would go into songwriting and his compositions (with J. Carter) would appear on Hardwater (fellow Coloradans The Astronauts in disguise), Yankee Dollar, Horses and Strawberry Alarm Clock LPs.

Their album includes the first 45 and Discount City, a sorta bluesy honky tonk, which was the 'A' side of their first 45. Aside from an almost four minute medley of *Shake, Knock On Wood* and *Respect*, other notable songs include a pretty good cover of Stephen Stills' *For What Its Worth*, a fuzzy *Taxman*-like song called *Weathermen* and an Eastern-style slice of psychedelia, *Snow And Ice And Burning Sand*. However, the album's finest moment was *In My Mind Lives A Forest* (the flip to their 1st 45) - an exquisite slice of pop-psychedelia. Recommended.

2. (B) IN APRIL CAME THE DAWNING OF THE RED SONS (Atlantic SD 7261) 1973

Mike Pinera was of Blues Image and Iron Butterfly fame and Mitch Mitchell was the ex-Jimi Hendrix Experience drummer.

Their finest album, recorded in Florida, was mainstream rock which veered towards hard rock and jazz rock in places. There's a good guitar solo from April Lawton on *She's A Woman* and also a brass section.

After the first album Pinera departed for The New Cactus Band and later formed Thee Image. The second album, recorded by new line-up (B), is much better. It was recorded in New York. Highlights include *The Land/Rainy Sunday Evening*, an imaginative melancholic song in a progressive style with great string orchestration; *I Can Only Love You*, a fast tempo song with horns and a great guitar solo by Lawton and *Stars And Stripes Forever*, which has a carnival-like orchestration. There are also a couple of hard rockers and some fine fifties style material like Rhinoceros.

1. S.O.S./Tell Her (Valiant 756) 1966

This previously unknown artist wrote *S.O.S.*, a classic teen protest song, which was his musical comment on the series of Sunset Strip riots of November 1966, and then faded back into obscurity.

These are the work of an Alabama outfit. *Confusion* is poppy psychedelia complete with sounds effects, the flip is straight pop. *The Vacuum* starts off as a reasonably normal 'pop' tune, before the vacuum cleaner 'solo' and war siren/bugle kicks in leading to a freak-out style ending. This track is also one of the more 'normal' entries on the hilarious *Only In America* CD comp.

NB: (3) reissued on CD (Edsel EDCD 548) 1998.

After Pearls Before Swine, **Tom Rapp** started recording under his own name, although his first solo album was largely comprised of re-recordings of songs from his earlier albums (hence its title). Produced by Peter Edminston, the second was recorded in Nashville with all the local musicians and is clearly disappointing, although it contains new songs and uses another Breughel The Elder painting on its sleeve.

His third solo album, *Sunforest* marked a return to form, containing some good tracks.

Fans **Tom Rapp** will also be interested in a tribute album *For The Dead In Space*, including Fit And Limo, Bevis Frond, Mourning Cloak and even an exlusive track by **Tom Rapp** himself. More recently **Tom Rapp** has performed at Ptolemaic Terrascope's 'Terrastock III' and released a fine solo album, *A Journal Of The Plague Year* (Woronzow) 1999.

45:

1. Beg, Borrow And Steal/Jeri's Theme (Attack AR-1401) 1966

Still somewhat of a mystery group, this New York or New Jersey band, discovered by producers Jeffrey Katz and Jerry Kasenetz - later to be acknowledged as two of the originator's of "bubblegum" music - was presented as an Ohio group since it was beleived at the time easier to break a record out of the Midwest. After recording the instantly likeable *Louie Louie* ripoff *Beg, Borrow and Steal*, the band supposedly grew reluctant in giving any more control to Katz and Kasenetz, and were shortly thereafter dismissed by the producers - but not before leaving behind at least nine additional songs, all included on the Collectables release.

Aside from *Beg, Borrow and Steal* (reportedly, Katz and Kasenetz would later take a true Ohio group, Sir Timothy and the Royals, and re-release the exact same single under the band's new moniker, The Ohio Express), the CD includes a cover of The Grodes' *I Won't Be There*, the garage-y *Where Are You Going To*, and two Monkees-ish songs: *Bad Girl* and *City Girl*.

Beg, Borrow and Steal has been comped on Rhino Record's 1998 *Nuggets* CD box set.

1	I Need You / In The Night	(Cool As A Moose 012)	c1965
2	I Talk To The Sun / Don't Blow Your Cool	(Cool As A Moose Fr-3250)	1965

From Gainesville, Florida - this outfit started out in 1962 as The Playboys, changing their name to **The Rare Breed** in 1965. *I Talk To The Sun*, a melodic garage-power-popper with swirling keyboards and prominent bass, can be heard on the *Destination Frantic* (CD) and Psychedelic States: Florida Vol. 1. The band later signed with Mainstream Records, but nothing ever came of the deal.

Carter moved to West Palm Beach and joined The Eighth Day. Jimmy Garcia went on to become an attorney in Houston, while McDaniel became an occupational therapist at Auburn University.

The correct title of *I Talk To The Sun* is actually *I Talked To The Sun*, the title was messed up on the label! The band also backed soul singers Gene Middleton (on D&B) and Linda Lyndell (on Volt), who did the original version of *What A Man*, the song made famous three decades later by Salt 'N' Pepa/En Vogue.

The fourth was a completely over the top version of The Electric Prunes' hit, *I Had Too Much To Dream Last Night*, full of tape manipulation and sound effects. It's really bizarre. Out of Ann Arbor, this was one of Michigan's top sixties bands. Essentially an R&B outfit, they often covered popular songs and *Respect* was actually a minor U.S. hit in late 1966 after it was leased to Cameo Parkway for nationwide distribution. They signed to the Crewe label for an album, which may become a minor collectors' item before long.

The flip *Out In The Streets* was the same song as *Sing* minus the vocal track.

Compilation coverage has so far included: *Feelin' Lost* on *Cicadelic Sixties, Vol. 11* and *A Joumey To Tyme, Vol. 2*; *Feelin' Lost, Sing* and *Leavin' Here* on *Mindrocker, Vol. 11*; *Little Girls Cry* on *Michigan Mayhem Vol. 1* CD and *Highs In The Mid-Sixties, Vol. 5*; *Respect* on *Turds On A Bum Ride Vol. 4* (CD) and *Michigan Rocks Vol. 1*; *I Need You* on *Boulders, Vol. 2*; *Sing, Handbags And Gladrags, Respect, Leavin' Here* and *Guitar Army* on *Michigan Brand Nuggets* (LP/CD). In addition *Highs In The Mid-Sixties, Vol. 5* includes their rarest recording, a promo 45 for Danby's Men's Shop. An alternate take of *I Need You* is also included on *Michigan Mayhem Vol. 1* CD, whilst the regular version is also on *Michigan Nuggets* CD. Their cover of the Kink's *I Need You* (a different song to the previous one mentioned) is on the *Nuggets* 4-CD box set. Finally the CD comp *Let Em Have It Vol.1* features *Look What You're Doin' (To Me Baby)*, the unreleased track *Poor Dog* and *Gloria*, from a rare Fan Club LP.

The Rats

TOP

45:

1. Rats Revenge (Part One)/(Part Two) (Black Cat 502) 1963

This was actually the work of an Akron, Ohio group called The Decades who'd released a spacey instrumental 45 *Come On Pretty Baby/Strange Worlds* earlier in 1963. *Rats Revenge* is an awful, crudely recorded garage punker which can also be heard in its entirety on *Back From The Grave, Vol. 1*.

1. Psychedelic Movement/She's Forever On My Mind (Mobie 3430) 1968

A good heavy acid rocker from Rockford, Illinois, that's really messed up by some truly awful trilling female vocals. Otherwise this would be a classic. The flip too isn't bad but for the vocals again (male this time). Some MOR group going psychy? A shame.

Psychedelic Movement can also be heard on *Brainshadows Vol. 2*.

2. Calamity Jane/Now She's Gone (Rust 5123) 1968

NB: (1) credited to The Ravens

From Tampa Florida. Their second 45 features bright 'n' breezy pop with garagey moves, but is spoilt by brass (what else?). A bit of fuzz and an RKO-radio-blip start keeps it interestin' but overall below par. The flip is an introspective lovelorn ballad with pleasant keyboard doodling.

Some members would later form Manitoba who released a couple of 45s on RCA in the early seventies. (Max Waller)

Raven

ALBUM:

1. BACK TO OHIO BLUES (Owl) 196? R4

NB: Reissued on Rockadelic (RRLP 15.5) 1994.

Another **Raven**, probably from Ohio, whose highly-rated and ultra-rare album had a reissue by Rockadelic in 1994. It consists of five hard rock tracks with some blues leanings and slight psychedelic overtones. The title cut is a powerful blues-rock jam that took up most of side two. No personnel details unfortunately.

Originating from New York, Raven recorded a good and rare live blues rock album in 1967. After an undistinct album for CBS, they broke up. Gary Mallaber (or Mallabar) would later join the Steve Miller Band and also have a successful career in the Californian studios, whilst James Calire would play with America.

1. Just Like I Want Her/? (Crockett 5030) 1968

The above killer organ/fuzz track was by a Waynesboro, Tennessee band and recorded in June 1968 at the Kecoata Studio in Wayne County, Tennessee. The 'A' side has resurfaced on *Back From The Grave, Vol. 8*, where Tim Warren tells us that the band originally formed in 1965 and played around mid-Southern Tennessee and Northern Alabama for a few years, until their wild, fast-living lead singer was killed in an auto accident. They then reformed with three new members, including Caldwell Davis Jr. who had previously led The Missing Lynx who'd issued the killer two-sider *Hang Around/Louie, Go Home* in early 1968. College and Vietnam signalled **The Ravenz** demise not too long after the release of the above single.

A Richfield, Minnesota group who formed in the early 60s as the Knights. Around 1964 they became **The Rave-Ons** and embraced the Invasion sounds. They released three quality 45s, mainly original compositions, before breaking up in 1967. Members went on to Jokers Wild, South 40 and T.C. Atlantic. Dick and Larry Wiegand would achieve success with Crow, releasing four LPs and a pile of 45s. Larry remains an in-demand bassist - in 1996 he worked worked with the reformed Canoise on their *Plugged In* CD.

Whenever, *Love Pill* and *I Want You To Love Me* feature on the mid '60s Bud-Jet label Minneapolis sampler LPs *Top Teen Bands, Vol. 1*, *Vol. 2* and *Vol. 3* respectively. *Baby Don't Love Me* is on *Root "66" Vol. 1* and an unreleased 1965 Lonnie Knight composition *I'll Come Back To You* has resurfaced on *Project Blue Vol. 5*.

It has been confirmed by Lonnie Knight that they are NOT the Rave-Ons who feature on several Columbine label LPs including *The Now Sounds Of Today* (CRH-14) 197?. This was a Hollywood label who specialized in song-poem music and employed the services of mainly local area acts. Any information about the Columbine Rave-Ons would be appreciated.

NB: (2) Misprinted as by Paymarks.

From Bremerton, Washington, they played a pretty standard sort of R&B with lots of raw guitar and organ. They were originally known as The Orbits and changed name to The Galaxies in 1962, but this had to be changed again in 1964 when they learnt of the better-known and similarly named Tacoma-based band. Their first record was a re-make of Cannonball Adderley's *Work Song* which you can hear on *Highs In The Mid-Sixties, Vol. 16*. Basically the jazz standard was reworked and sounded like a *Louie, Louie* style instrumental. Their finest moment, though, was probably *Louise*, a pretty standard R&B howl, which has been captured on *The History of Northwest Rock, Vol. 5* and *Highs In The Mid-Sixties, Vol. 14*.

The band ended when Huff and Selvidge were drafted in 1966 but Spotts went on to form The Icemen and was later in The Wailers and Crome Syrcus. Greg Pettit also went on to play in Superband.

Can anyone confirm if Gail Davies is the same vocalist who had a country music career during the seventies to date?

The **Raymond John Michael Band** (RJM), named by its founder Ray Graffia, Jr. was formed in 1969 when Graffia left the New Colony Six. They recorded three singles (or more?) on the Ivanhoe and London labels, and disbanded in 1971. In addition to Graffia the band included two of further original New Colony Six members, Craig Kemp and Chic James. **RJM**'s sound was heavier than the NC6, yet retained the harmonious sound of the former group. *Let There Be Love* was written by the Bee Gees, and *Rich Kid Blues* was penned by Terry Reid. Unreleased **RJM** tracks includes such songs as *Gwendolyn*, *Bobby And Georgia*, *I Confess* (a new version of the NC6 classic!), *I Can't Believe That We're Alone*, *I Never Dreamed*, *People In Search Of* and *Splendid Friends/Dining In Film*. This ultra-rarity is strictly speaking outside the time-span of this book but sounds like it's from the early seventies. The group came from New Orleans and the album was recorded in their living room, with nothing remixed or overdubbed. The high energy album with psychedelic tinges had a limited reissue (500 copies) in 1994. The reissue contains an insert with some information on the group.

They also recorded a second album, which has never been released and the master tapes are apparently burned. A single did appear from these sessions but I don't have the details. (Clark Faville)

This 45 was duly reissued on Diamond D-236. *Gotta Find Her* can also be heard on *Psychedelic Unknowns, Vol. 3* and is a bouncy ditty but really not in the psych or garage genres. The flip is a slow crooner ballad!! (MW).

3(A)	Do That Thing / 1-A	(Cameo C-446)	1966

From the Suffolk area of Virginia. Their debut has a pre-Invasion flavour, coupling a cool saxy frat-jerker with a slow last-dance ballad. They updated their sound considerably for the follow-up which was picked up by Cameo Parkway. *Do That Thing* is a natural progression from *She's A Queen*, still retaining a frat flavour but incorporating beat and dance elements and relegating the sax to a background role.

Of most appeal here is *1-A*, a moribund folk-rocker with swirling keyboards on the theme of the Vietnam war, destruction and death - reaired on *Aliens, Psychos And Wild Things* (CD).

Latterly the band included bassist Steve Hicks who'd move on to the Hustlers, a Sandston, Va. outfit who changed their name to Short Cross around the turn of the decade.

Perhaps it's got something to do with the air in Minneapolis that makes people sing with such a raw growl as can be heard in The Trashmen's *Surfin' Bird* and The Novas' *The Crusher*. Basically we're talking an amalgam of psychedelia and punk, with *Excitation* similar in style to The Music Machine and *Miles Beyond* having some neat chops and changes. There were rumours of a retrospective album of their material but I can't confirm that it appeared.

Based in Temple north of Austin in Texas, this group was managed by a Waco businessman Carl Sachs who tried hard to promote their 45, but due to a small pressing and limited distribution it never took off. If the 'A' side was an unmemorable ballad, the flip was a 13th Floor Elevators-influenced rocker, which can also be heard on *(Texas) Flashback, Vol. 1*, *Acid Visions The Complete Collection Vol. 1* (3-CD), *Austin Landing Vol. 2* and *I Was A Teenage Caveman*. The band split in the Autumn of 1967 when Schwertner left to fill the vocal spot in the newly formed Lavender Hill Express. Later still he was reunited with Dolan and Inman in Plymouth Rock. ALBUM:

1. (A) 1968 A.D. BREAKTHROUGH (Fredlo 6830) 1968

The Rebs were a high-school sextet from Bellevue, Iowa. They played local "sock hops" and teen dances, alongside acts such as Grandma's Rockers, without intending to turn "professional". Band member Ken Keil recalls: "We had fun. We weren't good, but we had guts. None of us went on to professional musicianship, but some of us, including myself, still play."

Just 200 copies of this album were pressed and it was impossible to locate until around 50 copies were found a few years back. Evidently songwriting wasn't one of the band's strengths, as their album consists of generally inferior cover versions of many of the popular songs of the era - sometimes little changed from the original, whilst some bear the band's own interpretation. The vocalist is powerful and particularly suited to ballads - so the magnum opus is arguably the cover of The Classics IV hit *Spooky*, but among the other songs to get **The Rebs** treatment were *My Back Pages*, *Lady Madonna*, *Mony Mony*, *Dream Dream*, *Sugar And Spice* and *Chains* and there's an almost laughable version of Eddie Cochran's *Summertime Blues*.

Although not an essential part of any garage or psychedelic collection, it is well worth a few spins, and will shortly be reissued by the band on CD.

What became of the band? Well, Ken Keil is now a physician living in West Monroe, Louisiana; Glen Kilburg works as a building contractor and is based in Seattle, Washington; Craig DeGear lives in the Milwaukee area and is a school counsellor; Jerry Till is a business man in Dubuque, Iowa; John Herrig also lives in Dubuque, Iowa and is a real estate agent; Steve Norpel resides in Bellevue, Iowa and Gerald Hyler, who was an unoffical part-time member is a school teacher in Correctionville, Louisiana.

Red Crayola were established in Houston in September 1966. line-up 'A' was very much embryonic. They began playing straight rock numbers like *Hey Joe* but by December 1966 they had developed the improvised music style - the Freeform Freak-out - that they are best remembered for. All interested parties were invited to perform in their shows and in effect a companion group (known as The Familiar Ugly) was established. When International Artists invited Thompson, Barthelme and Cunningham to record their debut album in March 1967 The Familiar Ugly were featured in the Freeform Freak-outs between each track. Quite aside from the Freak-outs the album included some very strange material - formless and improvised the psychedelia of tracks like *Hurricane Fighter Plane* (which Roky Erickson played organ on), *Transparent Radiation* (which Roky played harmonica on) and *Pink Stainless Tail* was very different to that of other texan bands of the era. On stage, too, the **Red Crayola** were very much an acquired taste. Lacking natural rhythms and structure their music was practically impossible to dance to. They were once paid ten dollars (to split three ways) and asked to leave a gig at the New Orleans House after 20 minutes! They were, however, invited to play at the Berkeley Folk Festival in the summer of 1967. Once again their performance did not go down well and the band fell apart with Thompson spending time in New York and Los Angeles. One of their live performances was released in the nineties as *Coconut Hotel*, but it isn't recommended unless you're into avant garde/ambient noises.

In 1968 Thompson and Steve Cunningham returned to Texas and along with a new drummer Tommy Smith, who had briefly played with Bubble Puppy, began recording their second album, which consisted of numerous one and

two minute tracks of simple but experimental acoustic weirdness. They were now spelling Krayola with a k. Surprisingly perhaps, this album was even less successful than their first and the band became dormant for many years. They did apparently record a double album with guitarist John Fahey but the tapes were lost.

Mayo Thompson has continued to enjoy an active solo career. He fronted a temporary group called Saddlesore and recorded a solo album. He met Jesse Chamberlain in New York in the winter of 1974/75 and later reformed **Red Krayola** with Jesse as a two-piece. This line-up gigged in London in 1978. The band were signed by Radar who reissued (1) and (2) and put out (3), an album of new wave material. On (3) the two-piece was assisted by Lora Logic and Pere Ubu. Indeed Thompson went on to join Pere Ubu until they temporarily dissolved. Thompson has also worked as or with Art and Language who straddle his other projects, indeed Art and Language assisted on their fourth album Black Snakes which is full of Thompson's dramatic vocals and included Allen Ravenstine (of Pere Ubu) on sax and synthesizer.

Compilation appearances have been confined to *Hurricane Fighter Plane* on *Austin Landing* and *Born Bad, Vol. 4* plus five cuts on the *Epitaph For A Legend* compilation. Two - *Nickle Niceness* and *Vile Vile Gross* - were previously unissued. The other three were different recordings of *Hurricane Fighter Plane, Pink Stainless Tail* and *Transparent Radiation*. They do also have *Hurricane Fighter Plane* on a 7" f lexi-disc (Radar SFI.347) issued in 1978. The other three cuts are by the 13th Floor Elevators. They also have one cut *Pink Stainless Tail* on a 7" promotional release (Radar SAM-88) that came out the same year. Copies were given away at a 1978 reunion concert along with the magazine 'Howdy From Texas The Lone Star State'.

Jesse Chamberlain is also a member of Necessaries and Steve Cunningham later played for Malachi.

The first album best tracks are probably *Games, Dadaeleus' Unfinished Dream* and *Collections Of Yesterday And Now*.

On Man's Poison is a bit bluesier and the guitars are more prominent. Cuts like *The Seeker* (not the Who song), *Cold In The Night* and *Walter Why Knott* are the best moments of a record which may interest some.

This eight-piece outfit formed in Lawrence, Kansas in the mid-sixties and continued giging into the 1970s. They were originally known as The Limits. Considered to have been one of the best acts to have graced the Midwest, their music ranged from fuzz-rock to horn-rock. A good example of the former was *Open Up* which you'll also find on *Monsters Of The Midwest, Vol. 1* or *Boulders, Vol. 3*. A recent compilation CD *Midwest Garage Band Series: Kansas* from 1993 also includes both sides of their Atco 45 plus a live *But It's Allright* from 1967.

NB: (1) released in France with a PS (America AM 17023).

After the commercial and artistic failure of Glad, Tom Phillips, Ron Floegel and George Hullin formed **Redwing** with Andrew Samuels. They gigged extensively in the Bay Area, opening for acts such as Steppenwolf, Santana and Creedence Clearwater Revival. On John Fogerty's recommendation, they signed a contract with Fantasy and their first album was released at the beginning of 1971.

With their three guitars and an efficient drummer, **Redwing** was one of the better Bay Area guitar bands and their two first albums both contain some interesting tracks: *California Blues* or *Shorty Go Home* on the debut and *Walking The Dog*, *Soul Theft* and two Chuck Berry covers, *Bye Bye Johnny* and *Oh Carol* on *What This Country Needs*. Both were produced by Russ Gary.

With the third album, their style became more influenced by country-rock and the group finally disappeared in 1975.

1	When You Brought Me You / Why Can't Time Stand Still (Dimac 1001)	196?

Cool garagey sounds from the Mississippi Delta. *When You Brought Me You* is a catchy soulful pop number with raw heartfelt vocals and atmospheric keyboards. *Why Can't Time Stand Still* is a haunting beat ballad.

Sid Herring of The Gants occasionally deputised on vocals. The band lasted into the '70s and '80s and got together again in 1999 for a celebratory gig in Clarksdale, MS. with the Curb Service Band featuring ex-Gants Johnny Jennings and John Freeman.

4. Russian Spy And I/Bald-Headed Woman (Dot 16970) 1966

NB: (3) also released in the UK (CBS 202247) 1966.

One of a few **Regents** around at the time, this bunch were based in L.A. The Reprise 45 is ok, a folk-rock ditty backed by catchy beat-pop with harmonica. Their subsequent efforts are definitely meritorious - kickin' off with a swingin' version of Eddie Cochran's classic, backed by a handclappin' brassy version of a popular song covered by the likes of the Sinners, Kim and Grim, Starlets, and Kaleidoscope.

Next up, a great cover of *Words*, also recorded by The Monkees and the Boston Tea Party. This deep-throated version adds a quick burst of fuzz and a touch of Eastern promise, whilst the flip is good rockin' beat-pop. *Russian Spy...* is solid pop-beat with a touch of humour - also a hint of novelty in the Russian-dance-meets-Dick Dale guitar-break that sounds way better than this lame description can convey, believe me. *Bald...* is a raucous party blast too.

Two more 45s - *Me And You/Playmates* (Blue Cat 110) 1965 and *That's What I Call A Good Time/??* (Kayo 101)

196? may or may not be connected to this group.

Compilation coverage has so far included: *Words* features on *Killer Cuts*; *Worryin' Kind* on *Acid Dreams Vol. 3*; and *Russian Spy And I* is on *Psychedelic Unknowns Vol. 9.*

45:

1	My Soap Won't Float/The Sinking Violet	(G&G #305)	June 1967

Formed originally as "The". Wayne Pursell had been one of the founding members of The Shadows Of Knight and formed this act whilst at the University Of Illinois in Urbana, Illinois. Wayne:- "Instead of just saying 'The' people would say 'the The' or they would spell the letters. This didn't have the right ring to it so I changed the name to something less clever and more commercial, **The Regiment**. The band wore old WWI army uniforms and easily became the most popular local band at the university inside two years. This became a problem, because I had quit the previous band to study at the Univ. and found that I was working every day with the band and had no time to study. So, I had to quit **The Regiment**, too".

All the band members originally came from Chicago, (with the exception of a lead guitar player from Fall's Church, West Virginia) and Joe Ream had earlier played in The Rip Tides. Before Wayne quit in late 1966, he wrote *My Soap Won't Float*, which the band later recorded and released in the summer of '67.

My Soap Won't Float is definitely worth checking out, with its way out lyrics:- "chrome-plated candy bars and plastic covered tangerines", acid 'raga' guitar and twisted garage-psych keyboard lines. You can also find it on *Pebbles, Vol. 22* (LP), *Pebbles, Vol. 10* (CD), *Acid Dreams Epitaph* CD and the *Pebbles Box Set.*

ALBUM:

1. (A) RELATIVELY CLEAN RIVERS (Pacific PC 17601) 1976 R3

NB: This album, which contained a photo insert, was issued in two different covers. One has lyrics printed on the inner gatefold, one does not.

Former Beat Of The Earth leader Phil Pearlman assembled this band in the early seventies and eventually recorded this magnificent rural rock album in 1975. The *Relatively Clean Rivers* album stands with the very best albums of the era, possessing a purely American sound and walking confidently past the shadow of its previous incarnation. Amazingly well produced for a private press, the recording and the cover are stunning, and musically and lyrically it is entirely profound - especially when the subject concerns religion:

> Could I believe if I had nothing to gain
> Would I walk away to paradise
> Or keep on playin' the game?

Armin Steiner had a great line about the album: "...maintains a crystallised trans-ethnic flow which may help to re-define the knitted-brow term 'psychedelic' in the years to come... and as far as my map stretches, this is the real thing." Or it could be said: if all records by all bands were this fully realised, music would replace politics and religion as the focal study to the human experience. (Clark Faville)

1. Painted Air/In The Morning (Askel 112) 1967

Formed in San Angelo, Texas as a foursome of fourteen year olds in 1964 called The Boys, they had changed their name to **The Remaining Few** and stabilised into line-up 'A' by 1966, They were the house band at San Angelo's top

13th Hour club for two years. Their 45 was produced by Ron Newdoll and only 300 copies were pressed. The 'A' side was brilliant garage psychedelia, commencing with a screeching intro which gradually slows down in tempo. The lyrics are sung to minimum instrumentation with each verse sandwiched by further screeching guitar work. You can also hear it on *Acid Dreams, Highs In The Mid-Sixties Vol. 12 Texas, Part Three* or *The Acid Dreams Testament* (CD).

Both sides of their 45 can also be found on the CD comp *Your Mind Works In Reverse*. *In The Morning* turns out to be a moody garage ballad with a melody reminiscent of Gerry and The Pacemakers' *Ferry Cross The Mersey*.

They spent some time in San Francisco before disbanding in 1970.

A highly regarded Massachusetts punk band, who were originally known as Barry and The Remains. They had quite a reputation in the Boston area in the late sixties, and opened for The Beatles last tour in the Summer of 1966. They have a cut on Lenny Kaye's *Nuggets, Don't Look Back*, and also recorded four unissued singles for Spoonfed. *Talking 'Bout You* also appeared on *New England Teen Scene, Vol. 2*.

The Sundazed *A Session With* retrospective is an albums worth of demos they recorded for Capitol in May 1966. The demos had earlier been released by Eva as *Live In Boston* but the only thing 'live' about it is that the tracks were recorded live in the studio in one take. The Eva version included fake applause and isn't recommended - get the Sundazed issue instead... Strong covers and one stellar original, *Why Do I Cry*, prove once again that **The Remains** were one of the very best. It also contains a never-before-heard version of *Walkin' The Dog* plus five more alternate/rehearsal tracks.

Briggs and Tashian were later part of an embryonic Flying Burrito Brothers line-up and Barry was also connected with Chirco who released one rather rare LP *The Visitation* on Crested Butte. He's still an active musician on the folk circuit and has published a book 'Ticket To Ride' - his diary of The Beatles last U.S. tour on which **The Remains** were a support act.

Although Billy Vera wrote *Don't Look Back* **The Remains** made it their own. The song was also recorded by The Instincts, to be found on *New England Teen Scene Vol.III* and by The Rising Storm on their *Calm Before* LP also featured on *Endless journey - Phase 1*. A couple of **The Remains**' original tunes have also been covered, including *I Can't Get Away From You* - in 1967 by Don Craine's New Downliners Sect (hear it on *Voyage Through The Sugarcube*) and The Cynics on their 1986 LP *Blue Train Station*. *Why Do I Cry* was also covered by Australia's Vyt and The World (*Ugly Things Vol.2*).

In 1998 Barry, Billy, Vern and original pre-Beatles-Tour drummer Chip Damiani were invited to Spain, where they still enjoy a fanatical following, for a reunion event. This was followed by the Cavestomp '98 event nearer to home in NYC in November, and turned out to be a warm-up for a historic homecoming at the Paradise Club in Boston on 20th March 1999. Headlining with a reformed Lost and The Rising Storm, this was the ultimate Boston tea-party.

The Remains were in smokin' form, tight and rockin', with Barry's vocals in fine fettle. The band seemed to get as much of a buzz as the 600+ sell-out crowd, whose age-range attested to their timeless appeal. They included several covers (*My Girl Sloopy*, *Lonely Weekend*, *Walkin' The Dog*, *My Babe* and for an encore *I'm A Man*) but most importantly many of their best originals (which Barry pointed out they'd not performed live very often) - *Why Do I Cry*, a wonderful *Thank You*, a stunning *Ain't That Her*, and *All Good Things*. Of course Billy Vera's *Don't Look Back* was reserved for the climax of a truly memorable gig for all concerned.

....and there may be more to come.....

This folk-oriented band was based in Hollywood, Los Angeles. They recorded for Flick City Records who only issued three albums, were connected to cult figure Kim Fowley and whose records were distributed by MGM. The album is mediocre.

Aside from the above-mentioned album, they recorded three singles. *I Don't Walk There No More* (*Highs In The Mid-Sixties, Vol. 3*) is notable for some catchy guitar work and growling vocals.

A cool five piece from Acton, Massachusetts who were originally known as The Avanties. A very blues-influenced outfit they developed a strong local following in Eastern Massachusetts. Their parents loaned them the money to press and record the 45 in a small basement studio in Newton, Massachusetts. Their bluesy ode to a local femme fatale *Black Mona Lisa* can also be heard on *Back From The Grave, Vol. 7*, whilst the flip - a re-spelt cover of Chuck Berry's old nugget and can be found on *Teenage Shutdown Vol. 11*.

Paul Revere formed his first band in Boise, Idaho in 1958 soon after getting kicked out of school. He originally called them The Downbeats but later **Paul Revere and The Raiders**. Whilst he owned a drive-in restaurant he befriended an 18 year old bakery delivery man Mark Lindsay whom he eventually recruited to his band on vocals. In the Spring of 1959 Paul headed for LA with a taped arrangement of an instrumental called Beatnik Sticks by his band. He was turned down by several companies but eventually got a contract from a guy who owned a pressing plant and put out recordings he liked on his own Gardena label. Later in April 1961 Gardena released an instrumental that made it into the national charts. However, the following year Paul was drafted and the group fell apart.

When he returned from service Paul decided to change his base to Portland, Oregon. Mark Lindsey joined him there but the other band members couldn't so he set about forming a new line-up (B). Eventually they got a manager Roger Hart who eventually got them signed to Columbia as its first rock act. They soon moved to LA and became regulars on the show 'Where The Action Is', which put them in the public eye. Just prior to their move to California they had also begun wearing the uniforms they became famous for, for the first time. They also hired the services of former Beatles publicity agent Derek Taylor and their albums were benefiting from first class production by the likes of Terry Melcher (the Byrds' producer) and Bruce Johnson (of The Beach Boys). From 1966 when they burst into the national charts with *Just Like Me* and *Kicks* (one of the first anti-drug songs) until well into the seventies

they enjoyed considerable chart success. In later years they underwent several personnel changes. Although they began in the garage tradition, their exposure following their signing to 'Where The Action Is' killed off their underground appeal pointing them in a pop direction.

Raiders' members Drake Levin, Mike Smith and Phil Volk all later played in Brotherhood and Friendsound. Pierre Ouelette went on to Don & The Goodtimes and Aesop & The Fables, whilst Charlie Coe had earlier played in Jack Eely & The Courtmen. Lindsay and Alliso also recorded two singles as The Unknowns.

Raiders' compilation appearances have included - *Hungry* on *Born Bad (Songs The Cramps Taught Us), Vol. 2*; *Just Like Me* and *Over You* on *Nuggets, Vol. 8. Hungry* and *Just Like Me* on *Frat Rock! The Greatest Rock'N'Roll Party Tunes Of All Times* (CD); *Steppin' Out.* on *Nuggets, Vol. 12*; *Kicks* and *Night Train* on *The History Of Northwest Rock, Vol. 2*; *Kicks* on *Wild Thing*; *Beatnik Sticks* (1960) on *Welcome To The Beat Generation*; *Like Charleston* (1961) on *Out Of Sight!* - a 1968 compilation on the budget Design label; *Shake It Up Pt. 1* (1962) on *History Of Northwest Rock 7* (Cass); *Louie Louie* (1963) on *The Best Of Louie Louie Vol. 2*; *Steppin' Out* and *Just Like Me* (1965) on the *Nuggets* 4-CD boxset; and *SS 396* (1966) on *Mexican Rock & Roll Rumble*.

Paul Revere & The Raiders are still going strong as we head into the millenium. For more information, check their official website: http://www.paulrevereraiders.com or Mark Lindsay's site: http://www.marklindsay.com.

Like Me is pleasantly jangly folk-pop ala Beau Brummels whilst the flip is a haunting moody folk-rock dirge with a melodic structure loosely modelled on *House Of The Rising Sun*. If the later 45s are up to this standard they are well worth acquiring. The third 45 was apparently released as by Stan Gorman and The Revolvers. They hailed from Tyler, Texas.

Assembled by Doors/Love producer Paul Rothschild, this Los Angeles outfit was largely composed of ex-members of well known bands and is hence regarded as one of the first 'supergroups'. In fact they evolved out of Elektra Records Project Supergroup, formed between November '67 and February '68. Danny Weis and Jerry Penrod were from the Iron Butterfly, Michael Fonfara the Electric Flag, Billy Mundi the Mothers Of Invention, and Doug Hastings the Daily Flash and (briefly) the Buffalo Springfield.

As a result of this pedigree and some strong early live performances, expectations amongst the LA cognoscenti were high and Elektra quickly financed the band to the tune of $80,000 (big money in 1968). Recorded in live takes, their debut album garnered favourable reviews in the music press at the time, but tends to get slagged off today as a fairly nondescript blend of blues/jazz/funk/gospel-tinged late '60s rock. One short catchy instrumental *Apricot Brandy* was a minor hit single, later used by the BBC as a Radio One programme-link. After this debut however, things started to go downhill.

Jerry Penrod left soon after to be briefly replaced by Danny Weis's brother, Steve, and finally by Peter Hodgson. In fact Hodgson had been the original bass player, but was only with the initial line-up briefly.

Their second album met with a muted commercial and critical response and Mundi, Gerber, and Hastings soon quit (Gerber releasing a solo album in 1971 on Shelter records.)

The revised lineup released a followup album in a similar vein (and to similar indifference) and the band decided to leave Elektra (against Jac Holzman's wishes). The band split in October 1971, but reformed with slightly different personnel in July 1972 as Blackstone and moved to Canada. Fonfara, Finley, Hodgson, and Leishman were all Canadians and in the '60s had played together in a Toronto band, Jon and Lee and the Checkmates. In 1972, they released an album *On The Line* (produced by Paul Rothschild) on a Canadian label (GRT 92301025). Hodgson rejoined after having had spels with David Clayton-Thomas and Jackson Browne. Leishman and Edwards came in from The Duke Edwards Cycle, whilst Crooks had played on Dr John's autumn 1969 tour alongside ex-member Doug Hastings. He later played with White Cloud and Loudon Wainwright III.

After a number of personnel changes Blackstone became the Blackstone Rangers and ended up backing Lou Reed in the mid-70's, with Michael Fonfara becoming Reed's right-hand man for a number of years.

Weis left in late 1970 and replaced Buzzy Feiten in The Rascals. Hastings left in June 1969 and joined Pam Polland. He later did sessions with David Ackles, Danny O'Keefe and Bill Cowsill. Tomlinson came in from Montreal bands Milkwood and Damage. He later played with Bearfoot.

Weis and Tomlinson later played with Rick James before his Motown deal and Weis also led Bette Midler's 'Rose' band.

This very home-made record, recorded 1970-71 is an acquired taste, to be sure. Side one is all covers, including *Mr. Spaceman*, *Victoria*, *Time Of The Season* and others, all very strangely interpreted. Side two is all originals where the band's true dementia is revealed on tracks like *When I Feed My Prize Hog*, *Nice Spot In The Dark* and *Avon Girl*. Not for all, but definitely all for some of you weirdos. File next to Underground Failure as a point of reference. They hailed from Kendall Park, New Jersey and the album wasn't issued with a cover.

This Chicago-based artist released several 45s during a career which spanned at least from 1962-78. They were mostly pop or country singles but *Pebbles, Vol. 22* includes one of his recordings, *I Want You To Be My Girl*, which may interest readers being a cover of the Frankie Lymon and The Teenagers' hit done garage style. Our friends in Chicago will also no doubt remember him primarily in his other role as a member of the excellent New Colony Six.

1	JOURNEY TO BLISS	(Impulse A-9166)	1968
2	SPIRIT OF 1976	(Impulse A-9182)	1969

Born in Connecticut in 1932 as Emilio Joseph Raddochia, **Emil Richards** was one of the best vibes and percussion players operating in the Hollywood studios. Apart from his countless rock and pop sessions (notably with The Factory, Russ Giguere and Ry Cooder), he also recorded some albums with his group, the Microtonal Blues Band (Ray Neapolitan on bass, Joe Porcaro on drums, Dave Mackay on piano, Dennis Budimir and Tommy Tedesco on guitars, Mark Stevens on percussion). A disciple of the Maharishi Yogi, and a master of weird and exotic instruments, **Emil Richards** was primarily a jazz player fascinated by indian music and odd rhythms. The two albums mentioned above may interest some curious readers, especially *Journey To Bliss*, subtitled a "Meditation Suite in Six Movements" with cuts like *Mantra*, *Bliss*, *Maharimba* and the eighteen minutes title track. Really innovative and faithful to its title, this album was produced by Bob Thiele, who also worked with Salvation, Eden's Children and John Coltrane. **Richards** is one of these jazz players who were interested by Indian music and crossed over to the rock scene. He can be compared to Bill Plummer, Charles Lloyd or Gabor Szabo (they all played together on some albums).

45:

1. Candy Man/The Devil's Got My Woman (Columbia 4-43534) 1966

This California band, which formed in LA in April 1965, has assumed legendary status because many of its personnel went on to far greater things. For example, Gary Marker recorded a 45 with Sound Machine and an album with Fusion; Ed Cassidy was a founder member of Spirit; Kevin Kelly later joined The Byrds for a while and Cooder and Taj Mahal both had very successfully solo careers.

Although their version of *Candy Man*, on the 'A' side of their 45 is good, it's the flip which is the killer cut, featuring the now familiar slide guitar of Cooder and Taj Mahal on lead.

The band also recorded an album for Columbia, which was not released at the time, although it has subsequently been pirated twice, and posthumously released by Sony on CD. Produced by Terry Melcher, who was also responsible for one Columbia's hottest acts, The Byrds, their recordings are a melting pot of rock / folk / electric blues and old-style country blue-grass.

Presumably, when Columbia pulled the plugs, the band split up.

Compilation coverage has also included: *Candy Man* and *The Devil's Got My Woman* on *Mindrocker, Vol. 7*.

Another **Rising Sons**, from Macomb, Illinois issued at least one 45 - *Have Some Patience Girl* / *Hold On I'm Coming* (Max 6719), circa 1967. Can anyone provide further details?

Also relevant are:- *Alive Again At Andover* (Arf! Arf! 007) 1983, a limited edition of 1000, capturing their 1983 reunion; and *Second Wind* (Arf! Arf! AA-083) 2000, which gathers together new studio and live material.

45:

1 FROZEN LAUGHTER (Stanton Park STP-021) 1993

NB: (1) is a double single set featuring two new songs, the Arthur Lee tune *Signed D.C.* and *Trying To Fool*, plus two bands doing covers of previous **Rising Storm** tracks.

Recorded whilst the aforementioned were attending Phillips Academy, Andover, Massachusetts, the *Calm Before...* album was an ultra rare collectors' item prior to its reissue. It's easy to see why. The album contains fine versions of

hard-rockers *Don't Look Back*, *In The Midnight Hour* and *Baby Please Don't Go*, along side Arthur Lee's *A Message To Pretty* and a number of self-penned compositions, such as the driving *I'm Comin Home* and slow, sensitive numbers like *Frozen Laughter* and *The Rain Falls Down*. This is an album of variation and contrast and the recent Stanton Park/Arf! Arf! reissues are recommended.

Alive Again At Andover was a reunion concert recording and is surprisingly good. Brought back together for the 15th Reunion of Andovers' Class of '67 ten of their gymnasium gig numbers are captured plus a version of *Baby Please Don't Go* from their first reunion stint at the Flowermarket Cafe, Boston in October '81. The original line-up is intact bar Todd Cohen whose place is filled by the ubiquitous Andy Paley. Unlike other reunion LPs which cash in on past glories this one stands up well on its own and, although these guys had done nothing in the music sphere since graduation, the spirit and fun of those heady days is reincarnated.

In 1999, the original sextet again minus Todd Cohen, but with Aram Heller (Mr. Stanton Park) bounding into the bassist role, had the chance to appear on the same bill as Boston legends The Lost and The Remains. The latter were one of the **'Storm**'s inspirations of course, as their cover of *Don't Look Back* testifies. Naturally they grabbed the opportunity with aplomb, indeed they played for free.

Despite some pre-gig nerves they proved to be the perfect openers of this historic event on Saturday 20th March at the Paradise Club in Beantown and they set the tone for what turned out to be a magical and memorable evening. Opening with their own *I'm Coming Home*, the half-hour set comprised many of the upbeat numbers from their LP. The Rockin' Ramrods' *Bright Lit Blue Skies*, *Signed T.T.* and *Baby Please Don't Go* went down very well - another original *She Loved Me* with its Charlie Rockwell Hammond organ solo and great vocal arrangements was outstanding. It was a performance full of fun, vibrance and enthusiasm which quickly infected and was appreciated by the audience. Having played their part, the buoyant members joined the 600+ throng with as much eagerness to await the appearances of The Lost and The Remains.

The *Second Wind* CD gathers together new studio material (primarily from 1992 and 1998 sessions) with live renditions of *Midnight Hour* and *Baby Please Don't Go*. Other covers are *Signed D.C.* and John Lee Hooker's *Don't Look Back*. The remainder are originals, split between strong rockers and the **Storm**'s trademark haunting, melancholy folk-rockers.

The band also have made the following compilation appearances: *Baby Please Don't Go, Don't Look Back* and *Message To Pretty* on *Endless Journey, Phase 1*; *Message To Pretty* on *Sixties Rebellion Vol. 8* (CD) and *Frozen Laughter* on *Magic Cube*.

A quintet whose members hailed from LaSalle, Peru, Oglesby and Tonica, Illinois. In 1968 they contributed two tracks, along with five other local acts, to the sampler LP *A Psychedelic Six-Pack Of Sound*.

The liners note that the band formed in 1965 and appeared at the Illinois State Fair in 1967, placing 9th out of 90. Certainly they provide some of the best moments on this LP, thanks to the songwriting skills of Phil Clark, although psychedelic they are not.

Little Girls is a fine '66-sounding pop-punker with a short fuzzy solo, and a solid swingin' beat that brings to mind early Creedence. *The Girl Made Good* is a classy minor-mooder reminiscent of The Cyrkle or The Critters.

Phil Clark remembers: "It was a stark recording setting. On a cold winter evening we set up in a 'storage room studio' located in the back of a meager storefront musical instrument shop in the town of Streator, IL. Our two songs were recorded in single takes after a ten minute warm-up using three microphones and a single track. We were in and out in less than an hour, as was the other band that was leaving as we came in. John Prey had electronics training and built what was at the time a very advanced flourescent strobe light system for our performances. We wore flourescent capes and did covers of popular psychedelic songs, Kinks and Yardbirds etc. After taking a few decades off to raise a family and teach in the public schools, I'm now writing songs again."

1	Things/Hour Girl	(Decca 32218)	1967

A pop-psych 45 worthy of your attention. *Things* is an uptempo outing with some neat backwards guitar whilst *Hour Girl* is a mellow folk-psych ballad. Both sides, were written by Peter Kerezman and *Things* can also be heard on *Fuzz Flaykes & Shakes, Vol. 1*. The band had come together in NYC. Pete Feller lived in Rockland County, a northern suburb; Tom Fitzpatrick was from the Boston area, attending Columbia University; Jimmy Cahn was in New Rochelle NY in Westchester County, another northern suburb; Bob Azzarello was from Northport, Long Island, suburb east of NYC, attending New York University; Peter Kerezman grew up on 161 St. and Broadway in Upper Manhattan, a few blocks from the George Washington bridge.

Peter Kerezman recalls:- "We played a lotta frat parties and some dances around Columbia University, some bars and clubs in the suburbs, and rich kid private parties. Our biggest gig was the Clairol Caravan, summer of 1967. A total of thirty-three, I think it was, free concerts w/fashion show in various parks of the five boroughs, sponsored by Clairol, Inc. If you look at a fiche (or a copy if you got one) of Time magazine for June 30, 1967, you can see a Clairol Caravan photo on page 21. Jimmy Cahn's on the right, dancing with amateur fashion model Patsy Sabline. I'm the guy with the eyepatch (car wreck) all the way on the left, bangin' on a D-21. Still got that guitar but I lost the eyepatch."

"The Decca-supplied producer was Milt Gabler, and our former manager Bob Prescott brought in his own guy, Steve Hammer to 'help out'. The record did not do very well for us, to put it mildly (less than 1,000 copies sold). I did quite a few demo sessions on bass for other folks, but nothing else was released. Me, Jimmy and Bob stuck together for quite a while but didn't achieve much due to lack of focus. I'm now the owner of a small bicycle shop in a rural community deep in southernmost Texas, still playing bass and guitar in the clubs occasionally".

This pop outfit's second 45 may be of interest. Although *Why* is a very melodic folk ditty with music box chimes, the flip, *Comin' On Back To Me* is a stomping fuzz-popper with neat hooks and excellent guitar. Produced by Terry Knight, you can also hear it on *Turds On A Bum Ride, Vol. 5* (CD).

This one spans quite a bit of territory, musically speaking. It starts off in the garage zone with some of their tracks from 1967, but most will be standing in line for the long psych freak-out of *Let Them All Excite You*, that's easily on par with any of those West Coast jam bands of the time. The album features tracks (most of them previously unreleased) from 1967-1971 by this Trenton, New Jersey band. Overall, this record leans more to the later sixties stylings, some of the material like *Understanding Is Hard To Come By* is quite bluesy.

Four of the cuts on this album - *Let Them All Excite You*, *Understanding Is Hard To Come By*, *Dolly Nighttime* and *Lo* - were previously recorded on a Hagens studio one-sided acetate album. Two others - *Holding For Me* and *Now* were from a 1967 Capitol New York City Studios acetate.

On their 1970 LP they come across as a club/covers band with occasional Vanilla Fudge mannerisms in their heavyish treatments. They tackle the Zombies' *She's Not There* (one of their better offerings and a minor hit), Buffalo Springfield's *Mr.Soul* and *Rock'n'Roll Woman* (credit points for good taste if not the results), Sly Stone's *Dance To The Music*, *Love-itis* (tough Rnb pop also done by The Sonics). Despite occasional heavy or fuzz guitar noises it's a patchy album - on the down side they deliver a funky brassed-up version of garageband fave *I Can Only Give You Everything* and an uptempo lounge-style *Taste Of Honey*.

1(B)	THE ROAD RUNNERS	(Beat Rocket BR 104)	1998

1	I'll Make It Up To You / Take Me	(Miramar 116)	Aug. 1965
2	I'll Make It Up To You / Take Me	(Reprise 0418)	Sep. 1965
3	Tell Her You Love Her / Goodbye (Yellow Wax)	(Morocco 001/2)	Jan. 1966
4	Pretty Me / Baby Please Don't Go	(Morocco 121)	Mar 1966
5	Pretty Me / Sleepy Friend	(Morocco 122)	Apr. 1966

This band hailed from Fresno, California. *Goodbye*, an average folk-punk effort, can be heard on *Highs In The Mid-Sixties, Vol. 1* and *'60s Punk EP Vol. 3*. The debut 45 is a catchy beat-folk-rocker notable for crisp upfront percussion, backed with a melodic beat ballad with some barely audible fuzz.

Beat Rocket's retrospective album contains one side of (7) studio tracks (3 unreleased) plus 7 live tracks preserved by the band's #1 fan Neil Hopper. The studio material is predominantly Invasion-inspired folk-rock, with a strong Searchers/Beau Brummels influence, occasionally topped off with fuzz. The live material includes their own

Goodbye and *I'll Make It Up To You*, and shows off the band in meaner and rockier mood - especially on a great version of the Animals' *Don't Bring Me Down*, a rockin' *Train Kept A Rollin'*, and a bluesy take of *Baby Please Don't Go*.

Samuelian's story and Hoppers' photos, tied up neatly by Jud Cost's notes, round off a fine package.

1. When I Look At You / Why (Brahma 621661/2) 1966

From New York, this band described their music as a cross between "the Rascals, Vagrants, and Animals... a real bluesy sound". Strangely the 'A' side to their 45 is a slow smoochy affair, whilst the flip contains harmonious garage pop with guitars buried in the mix. The Brahma label was owned by George Tobin, the bands manager.

Why has since resurfaced on *A Journey To Tyme, Vol. 4* and *Psychedelic Unknowns, Vol. 7*.

Formed by Adams and Prust in 1966 at the University of Southwestern Louisiana in Lafayette, they were initally known as the Pete and The Playmates, later the Batmen, before settling on the **Roamin' Togas** and a stable line-up in 1967.

In 1968 the band were whisked off to Bakersfield, California to record an LP. Just one 45 resulted and that wasn't even released under the band's name, but as by the Black Box. The band folded in 1969 after most of their equipment was wrecked in a road accident.

Bar The Door has been aired again on EVA's *Louisiana Punk Groups From The Sixties Vol. 1*, *Sixties Archives Vol. 3* (CD) and *Teenage Shutdown Vol. 3*.

These three brothers and cousin Craig produced some enjoyable music in their time. A dynamic amalgam of harmony-pop and folk-rock with garagey pretensions, they were Milwaukee's answer to The Monkees or Paul Revere and The Raiders and, like the aforementioned points of reference, a borderline inclusion here. Purists may look down at these mid-sixties 'pop' outfits but don't forget that the golden age of garage and psychedelia was a

memorable epoch for pop too (so there!) - just tune into any 'golden oldies' station. The Robbs would become Cherokee in the early seventies. (Max Waller)

1. ANTELOPE FREEWAY (Impulse AS-9207) 1970

Howard Roberts was an established jazz guitarist who released this interesting album in 1970. Produced by Bill Szymczyk and Ed Michel, it is a good example of "psychedelic instrumental jazz". Mostly instrumental and "Made Loud to be played Loud", it contains lots of excellent guitar parts using different effects (Energy Bow, Ring Modulator...) mixed with various instruments. The result is interesting, mixing jazz, psychedelic and free form music. Best tracks: *Five Gallons Of Astral Flash Could Keep You Up For Thirteen Weeks*, *Dark Ominous Clouds*, *That's America Fer Ya* and *De Blooz*.

The sleeve mentions special thanks to the Firesign Theater, John and& Terence Boylan (from Appletree Theater), BB King, Jimmy Haskell, Leon Russell and the James Gang.

From San Francisco, this was a typical hippie outfit. **Don Robertson** wrote all their highly meditative and mystic tracks: *Dawn*, *Where*, *Why*, *Gateless Gate*, *When*, *Belief*, with strong oriental and religious influences and use of various noises (birds, bells etc.). Their album was released on Limelight, a subsidiary of Mercury which specialized in experimental albums: Beaver and Krause, Fifty Foot Hose, Mecki Mark Men. **Don Robertson** kept on recording meditatition records and logically became a pioneer of the "New Age" movement in the '80s.

Reportedly from Madison, Wisconsin. Both sides of the third 45 can also be heard on *The Garage Zone, Vol. 2*. *I Wanna Do It* is a bouncy effervescent cover of a Feldman, Goldstein, Gottehrer (Strangeloves) track. *That's Tuff* is an echoey uptempo beat ballad with hints of *Land Of 1,000 Dances*. *l Wanna Do It* also gets an airing on *Pebbles, Vol. 1* (CD).

ALBUM:

1(A)	THE ROCKETS	(White Whale WWS 7116)	1968

NB: (1) has been reissued on CD.

The Rockets are in fact the first version of Crazy Horse, the "classic" backing-group of Neil Young. From California, they managed to get a record deal in 1968 with White Whale, the Turtles label. Produced by Barry Goldberg (who knew Notkoff from the recording of the Elecric Flag's *The Trip*), their only album is a now minor collectable . All the tracks on the first side were composed by Danny Whitten (except a Talbot /Molina song) and the second side was written entirely by the Whitsell brothers.

A mix of rock and west-coast vibes, the best tracks are probably *Hole In My Pocket* (later used by Goldberg for one of his solo albums), *Pills Blues* and *Let Me Go*. The vocals are not always outstanding but the guitar and electric violin parts are good. The lyrics of *Pills Blues* are quite explicit about their habits...

In 1969, Whitten, Talbot and Molina met Neil Young, began playing with him and became Crazy Horse. *Everybody Know This Is Nowhere*, the first album they recorded with Young contains the superb *Running Dry (Requiem for the Rockets)* with Notkoff's haunting violin. *Crazy Horse*, their first "solo"album, with Cooder, Lofgren and Nitzsche, is excellent too. Whitten died of an heroin overdose in 1972 and the following Crazy Horse albums are best avoided.

Not to be confused with the other Rockets!

9. Flowers In My Mind/Mary, Mary (Plymouth 2965/6) 1966

NB: (5) and (6) as The GTO'S.

This Boston band started out playing instrumentals, backing Freddie Cannon early in their careers. Indeed, he went on to produce their first 45, an instrumental *Jungle Call*. They became the house band at the Surf Ballroom on Nantasket Beach on Boston's South Shore for a while. Later they progressed through influences ranging from The Beatles, punk, folk-rock, psychedelia and soft rock. One of their cuts *She Lied* pursued a popular theme of American garage bands in this era - the lying and cheating of their girlfriends.

Bright Lit Blue Skies and *Mr. Wind* were written by Ron Campisi and covered by The Rising Storm on their LP.

The group figured on early tours with The Stones and The Kingsmen and made an appearance in a rock'n'roll exploitation movie, *East Is East*. They also appeared on another 45: *Baby, Baby, Go Go/East ls East* (Claridge 308) 1966 backing Casey Paxton.

They later became Puff and released an eponymous soft psychedelic LP on MGM (SE-4622) in 1969.

Compilation coverage has so far included *She Lied* on *Pebbles, Vol. 8*; *I Wanna Be Your Man, Bright Lit Blue Skies* and *Mr. Wind* on *Bay State Rock, Vol. 1*; *Bright Lit Blue Skies* and *Can't You See*, misleadingly on the *Bosstown Sound-1968* (2CD set) - both tracks are from 1966 and **The Rockin' Ramrods** predated the Bosstown hype. An

unreleased track, *Merry Go Round* can also be found on *The New England Teen Scene Vol. 3*.

Florida faves in the Sanford/Orlando area from 1964 to 1969, a couple of members were later in an outfit called Yak. Their debut *Go Away* is a chiming and charming folk-rocker, perhaps influenced by the Byrds' debut LP and especially *Here Without You*.

With street and storm effects, stately head-swirling organ, evocative lyrics and haunted vocals, *Urban Meadows* is both impressive and intensely addictive. Comparisons to Procol Harum's *Whiter Shade Of Pale* are inevitable but, given a vote, this'd get mine every time. *Down*, a cantering power-poppin' punker has a U.K. mod/freakbeat flavour. It's no wonder that the Tener 45 is much sought-after.

Go Away and *Urban Meadows* grace *Psychedelic Crown Jewels Vol. 2*, whilst *Down* is on Yeah Yeah Yeah.

Because We're Young, a superb brooding R&B punker based around a solid *I'm A Man* riff, features moody sax interwoven with some cool but raw guitarwork, builds slowly in intensity without crossing into rave-up territory, and is one of the choice cuts on *The Cicadelic '60s Vol.7*, *Yeah Yeah Yeah* CD, and *The Bad Vibrations* comps. *My Only Love is* one of those reverb'n'jangle lovelorn garage ballads that have started to find favour on compilations. **The Rocks** are thought to have come from Alabama but this is unconfirmed. Songwriter credits of Walter Sims (*Because...*) and Randy Duck/Johnny Harbin may help establish this, if they were band members.

Woody Richardson's predominantly gospel and country label recorded in Nashville and featured some other garage bands, also showcased on the *Cicadelic '60s Vol.7* CD, the Shadows and the Shandells Inc.. According to the liner notes these 45s were pressed in limited quantities (about 500) and were not distributed or sold by the label but by the bands themselves at gigs.

There's another 45 by **The Rocks** on White Cliffs 239 circa 1966 featuring *Who Do You Love*, flip title unknown. The same band?

A classy punk band from Lafayette, Louisiana. Their debut, *Put You Down*, is revisited on *Teenage Shutdown Vol. 7*. *I Don't Need You*, a typical punk screamer, is on *Highs In The Mid-Sixties Vol. 8*.

They changed their name to The Dry Gins for one 45, produced by the Greek Fountains' Cyril Vetter. *You're Through* is re-aired on *The Essential Pebbles Collection Vol.1*, *She's A Drag* was dug up for *Back From The Grave Vol. 8*.

NB: (1) released as The R./Rogues.

From Tacoma, Washington, this band were actually called The Royal Rogues, but their 45 is credited to the R./Rogues - so I guess they ran out of letters at the label paste-up (that's an attempted joke, not history!). You'll also find *The Sound* on *Boulders, Vol. 9*. (George Gell)

The Rogues

45:

1. Summertime/Anything You Say (Action 6.6400) 1966

Omaha in Eastern Nebraska was home to this band. The 'A' side was a much recorded ballad, but it's the flip which may interest readers. A typical post British invasion, pre-punk recording, pressed in Minneapolis, you could check it out on *Monsters Of The Midwest, Vol. 2*.

This outfit ranks amongst the best on the '60s Mexican-American scene in East Los Angeles, frequently referred to

as the East Side Sound (other top dogs being Cannibal and The Headhunters, Thee Midnighters and The Premiers). **The Romancers** were led by prolific songwriter Max Uballez who composed nearly all of their material and plenty for other East Side bands - including *Get On This Plane* (Premiers), *Nau Ninny Nau* (Cannibal and The Headhunters), *Beaver Shot* (Atlantics).

Their finest moment is *Love's The Thing*, a tremendous pumped-up punker with strong raw vocals and raging guitars that races to a breath-taking halt. Count Five's producer Irwin Zucker liked it so much that he struck a deal with **Romancers** producer Eddie Davis, resulting in the 45 being put out again as by the Smoke Rings, first on Prospect and then on Dot. It's been reaired on *Boulders Vol. 1* (*Smoke Rings*), *The '60s Choice Vol. 1* and *The East Side Sound* CD - pump up the volume on this one.

She Took My Oldsmobile is another fine punker featured on *The Chosen Few Vol. 2*, *It's Finking Time*, *Victims Of Circumstances Vol. 2*, and *The East Side Sound* (both the Telstar LP and Bacchus Archives CD).

Ballads were also part of their repertoire - *My Heart Cries* and *That's Why I Love You* feature on the 1970 double LP retrospective *East Side Revue*, on the Rampart label.

A Californian comedian, whose inclusion here is deserved partly because of the subjects of his sketches:- drug busts, banana smoking (!), the Vietnam war, religion, riots and all the other counterculture subjects. He also deserves an entry because his albums use a lot of music between or during his talks.

Produced by David Briggs (then the home producer of Tetragrammaton and in charge of Summerhill, Quatrain etc.), the two albums mentioned above reveal some surprisingly good versions of *Shake*, *Mojo Workout* and *Land Of 1000 Dances* treated in a very energetic way.

3. Think It Over/You Won Your Victory (My 2913) 1967

All togged up in their togas this Little Rock, Arkansas 5-piece certinly cut a dash - the drummer must've had lotsa female admirers or a large bass drum! *I'll Find A Way* is a decent Searchers/Byrds inspired garage ballad but the flip is the showpiece here - a bouncy midtempo piece with evocative keyboard and a very short neat guitar solo but all underpinned by the earliest example of 'phasing' discovered to date, and it all comes off superbly - hats off to Little Rock.

Their remaining 45s are relatively disappointing after this: The second is a pleasant Zombies-inspired minor-mooder backed by a party mover with funky strutting. The third is a crooning lounge ballad and the flip is a brassy James Brown style number a-la *Ninety Nine And A Half*.

This band is probably most notable for the involvement of Wailers' axeman Rich Dangel, although despite their Northwest connections, they were in fact based in L.A.. Their first 45 was weakish British Invasion-inspired beat but both sides of the second are worth a listen and you'll find them on *Highs In The Mid-Sixties, Vol. 14: The Northwest*. We're talking Mersey-influenced rock here.

Billy Webb had earlier played with the Bobby Fuller Four, whilst that group was still back in El Paso in the early '60s. He later moved to Los Angeles, as did Richie Dangel (from Tacoma) circa mid 1964. When the pair met up they formed **The Rooks** in Los Angeles, whilst Dangel's ties with the Tacoma WA scene got the group their first release on Etiquette.

8. Goin' Down In Hollywood/? (Playboy 50012) 1972

Born in September 1940, **Rose** grew up in Washington D.C. and was part of the quasi-folk singing movement of the late sixties, which was heavily influenced by Bob Dylan. Prior to launching his solo career on Columbia **Rose** was a member of The Big Three along with Mama Cass Elliot.

His debut album made quite an impression, being a powerful singer his gritty voice was well suited to his bluesy themes. His songs too were full of drama and contrast and his best known song *Morning Dew* was covered by several other artists in the era. The album also contained an arrangement of a traditional song called *Hey Joe*, which was shortly covered and made internationally famous by Jimi Hendrix. Typical of his style too was *Come Away Melinda*, also on his debut album, which was taken to a wider audience by its inclusion on the compilation, *The Rock Machine Turns You On*.

He later moved to Britain and teamed up briefly in an unsuccessful duo with Tim Hardin. A marginal case for inclusion here but that first album is well worth a listen.

Some relevant covers of *Morning Dew* include: Id (Pre-Euphoria's Id) - 1965, on *New England Teen Scene* CD; The Grateful Dead - 1967, *Grateful Dead* LP; Frantic - 1968, *Frantic* LP; Group Therapy - 1968, *People Get Ready For* LP; Nova Local - 1968, *Nova 1* LP; Sons Of May - 1968 45; Sweet Smoke - 1968 45, *Texas Flashbacks 3* and *Highs In The Midsixties Vol. 23*; Tongue - 1969 *Keep On Truckin'* LP; Damnation Of Adam Blessing - 1969 45 and *The Damnation Of Adam Blessing* LP; Sound Foundation - 1969 45; Spectrums - 1960s, *Wailin' In West Covina* 1998 retrospective album; also covered by U.K. outfits Episode Six, The End and Jeff Beck.

1. (A) ROSE GARDEN (Atco SD33-255) 1968 176

45s:

1. Next Plane To London/Flower Town (Atco 6510) 1967 17
2. Here's Today/If My World Falls Through (Atco 6564) 1968

A lightweight pop outfit, four members came from California, one West Virginia, and the band were based in the Los Angeles area. Their best known song *Next Plane To London*, with Diana De Rose on lead vocal made No. 17 in the U.S. charts. It was written by Kenny Gist Jnr. (aka Kenny O'Dell).

The album, which is certainly not psychedelic although I've seen it described as such, contains a cover of Bob Dylan's *She Belongs To Me* and two nice Gene Clark compositions *Till Today* and *Long Time*. One of its better cuts is *February Sunshine*, a bright'n'breezy piece of flower-pop, which had been a minor hit for The Giant Sunflower. Their second 45 was non-LP.

The Rose Garden's roots were in a teen act formed by Bruce Bowdin, John Noreen and Jim Groshong in around '64. They chose an "anglophile" name, The Blokes, to reflect their repertoire of Beatles covers and by 1965 had recruited 15 year old Bill Fleming on bass. Bill remembers: "The guys had been heavily influenced by the Byrds about this time. We literally had every Byrds tune from their first three albums in our repertoire. John was an

accomplished 12-string guitar player."

Sometime in late ' 66 or early ' 67 Jim Groshong met Diana De Rose, somewhere in Hollywood and she asked him to join the band that she was in at the time. Instead Diana ended up joining **The Blokes**. Bill: "With her came a fellow named David (can't remember his full name) who fancied himself as a manager. He got us alot of non-paying gigs in Hollywood and eventually through him we met Kim Fowley. We hung out at his place, but none of us ever lived there that I was aware of. The guys still lived at home with their parents. It is possible that Diana may have stayed there for brief periods of time."

"Dunhill Records, who I think was run by Lou Adler at the time, had recorded *February Sunshine* with a band called Giant Sunflower - Everything was flower power at that time - but the band was not under contract. When the song started to climb they need a band to go with it, so we became Giant Sunflower, but that only lasted for about a month. We felt that we would probably get sued and really preferred to make it on our own, so we left that arrangement."

"Through David the manager we then met Charles Greene and Brian Stone. They had "discovered" Sonny & Cher and had produced some early songs for Buffalo Springfield. Their promotional man was Pat Pipolo, and Kenny Gist, Jr. (Kenny O'Dell) was a relative of his - that's how we got to record *Next Plane To London*."

With *Next Plane To London* riding high in the charts, **Rose Garden** began the promotional circuit... They had aleady played many of the local clubs such as Gazzarri's on the Strip (with The First Edition that later sent Kenny Rogers on his way to fame), Bito Lito's, The Cheetah (with Eric Burdon) - described by Bill as "a weird truly psychedelic place that was on a pier on Santa Monica Beach".

"We did most of the teen TV shows: American Bandstand was the only national show, but there were many local and syndicated shows: 9th Street West (with Canned Heat), Groovy, and The Woody Woodbury Show (with Bobby Vee). These were all Los Angeles shows, and usually local shows in many of the towns where we toured."

"We were booked on many package tours and played several dates with Tommy James and The Shondells, Neil Diamond, The Box Tops, The Association, Chuck Berry, Little Richard, Glen Campbell, Ohio Express, Billy Joe Royal, Jay and The Techniques, Canned Heat, and Stone Poneys at various times. New Year's Eve 1967 in Fort Worth was particulary memorable with both Chuck Berry and Little Richard being on the same bill. Most of these tours went through the South, Southeast and Midwest states, probably because our agent was based in Texas..."

When the second single didn't make it, and with friction between Diana and the other band members reaching critical mass, the band broke up in late ' 68. They later reformed in 1969 without Diana and Bruce (he had married and moved to Texas), with Bill Fleming's brother Ed joining as drummer. But after a few local gigs they split for good.

John Noreen went on to be a respected studio musician in Nashville, playing steel guitar for virtually everybody there. He also toured with Highway 101 (a country act) in the 80's, was a member of John Davidson's nightclub band in the '70s, and was in a band called Rotondi. Bruce Bowdin settled in Texas. Jim Groshong played solo in small clubs in Southern California and Bill Fleming has been a Police Officer in the Los Angeles area (NOT LAPD!) since 1973.

Bill: "We were approached about a big '60s revival three day festival to be held in Southern California about ten years ago. Bruce was in Texas, but agreed to participate; Jim, John and I got together, but then John had a commitment to finish a tour with Highway 101. Jim and I thought that John's 12 string was too important to our sound, so that ended that."

45s:

1	Like A Rolling Stone/Turn Me On	(Cadet ?)	1968
2	Paper Castle/Teach Me How To Fly	(Cadet ?)	1968

From Chicago, this inter-racial four-man two-woman group specialized in slow-motion and strung-out covers, especially of the Rolling Stones (*Lady Jane*, *Ruby Tuesday*) and Dylan. The result sounds a bit like Vanilla Fudge, with organ and sound effects. Their third album, *Peace At Last*, is one of the very few examples of psychedelic Christmas songs. Imagine *Silent Night* with distorted guitars!

Their black singer, Minnie Ripperton, later went solo and recorded some well-received soul albums. She died in the '80s.

Cadet was the "rock oriented" sub-label of Chess.

NB: (3) is a connected 45 - the 'A' side is by "The Forvus featuring Brooke Chamberlain with the Rovin' Flames", whilst the flip is "Brooke Chamberlain with the Forvus and the Rovin' Flames and Harvey Swadnungle"!!

A Tampa, Florida, band whose best known song *How Many Times*, also featured on *Pebbles Vol. 8*, is a typical punk protest song bemoaning girlfriends and society. Composed by Uncapher and Delise it would later be covered by the new psychedelic outfit Plan 9 on their *Frustration* album.

The Rovin' Flames 45s are uncommonly elusive but you can check out *I Can't* on *Hang It Out To Dry*. *Love Song No.6* also appeared on the very rare Bee Jay *Video Soundtrack* sampler LP (Tener 1014) in 1968.

They also backed The Forvus, featuring Brooke Chamberlain, on their sole 45.

John Delise was also in The Soul Trippers and Those Five. Other members may have been involved with the Outsiders and Noah's Ark but this is unconfirmed.

Came out of Chicago - the compilation *Early Chicago* (Happy Tiger HT-1 01 7) contains their recording from February 1967 of a nice laid back John Sebastian song, *I Didn't Want To Have To Do It*. All five members were later in Illinois Speed Press (which was really the same band) and David, Bartoli and Pappalardo all had brief spells as back-up musicians for H.P. Lovecraft. Kal David had earlier fronted The Exceptions. *My Generation* is featured on *The Dunwich Records Story* and *Oh Yeah! The Best Of Dunwich Records* (CD) which also includes *She*. Avoid the first 45 - it's insipid soul - Four Seasons inspired stuff. Their subsequent covers are competent but not that inspiring sad to say.

Girl and *I Didn't Want To Have To Do It* have both resurfaced on *If You're Ready! The Best Of Dunwich Records, Vol. 2*.

Formed when Segarini and De Cocq left Family Tree, **Roxy**'s album is very disappointing. Although the musicianship is competent, the songs are not inspired, the lyrics quite dumb and Segarini vocals not really good.

All the songs were written by Segarini except "I got my friends" by Randy Bishop and the album was produced by John Haeny.

After this failure, Bishop and Segarini formed The Wackers.

This act started life as support band for vocalist Dick Hodge in the Omaha-Council Bluffs area of Iowa in 1961. The following year they progressed to becoming the houseband at the Milrose Ballroom, just outside of Omaha. At this time they were a surfing band. Over the next few years their music and line-up underwent considerable changes. Bradd Star left the group to go to college and was sadly later killed in a water skiing accident. In early 1965 they headed for Chicago and recorded *Suicide*, which had a frantic guitar break and some atypical harmonica playing and is now a garage classic, which can be heard on the *Back From The Grave, Vol. 3* and *Midwest vs Canada* compilations. The flip was a tasteless number complete with sound effects of nails being driven in and dirt thrown out on the grave. Originally titled *One Pine Box* a printing error at the pressing plant titled it *One Pink Box*!

They changed name to The Unlimited for a second 45. The 'A' side of this can also be heard on the *Midwest vs The Rest*. With a thundering beat backed up by slashing guitar, screaming vogals and pounding organ it's worth hearing. When this failed to make any impact they changed name again to Bobby and Dave for a folk-rock number with a funky soul routine on the flip.

Their retrospective album contains their three 45s, eight reasonable cover versions and an interview with band leader

Bob Everhart.

This novelty-pop sextet came from Ocala, Florida. Classic 'one-hit wonders' their gimmicky tribute to Charles Schulz's famous cartoon character sold over three million copies worldwide. It made No. 2 in the U.S. and No. 8 in

the UK, where it was released on Stateside. What followed was largely predictable and relatively unsuccessful although *Return Of The Red Baron* made No. 15 in the U.S. and No. 37 in the UK. Their debut album made No. 44 in the U.S. Album charts and their third effort made no. 46. As their popularity declined their final effort could only managed the 189 spot. The various sixties revivals have tended to leave them untouched but you'll find *Baby, Let's Wait* on *Nuggets, Vol. 4* and *Leaving Me* on *Mindrocker, Vol. 10*. These R&B tinged pop songs from their first 45 were perhaps their best efforts before they were labelled with the corny Snoopy tag. *Baby Let's Wait* was reissued in 1968 and made No. 35 in the U.S. charts.

John Wyker later played in the '70s Elektra band Sailcat who had a hit with *Motorcycle Mama*. A **The Rubber Band** song *Let Love Come Between Us* was also a big hit for James and Bobby Purify, the soul duo from Pensacola, Florida.

In 1972, Frank Zappa decided to renew his explorations of the '50s/early '60s music, which he had already begun with his *Ruben And The Jets* album in 1968. This time it was "for real" and he assembled a group to re-use the name. It's an interesting complement for Zappa fans, as Sherwood, Camarena, Duran and De Guevara all played with Zappa at various times and the two covers were designed by Cal Schenkel.

The music is really enjoyable and, if its roots are clearly in the doo-wop and rock and roll styles, the pedigrees of the musicians ensure the listener to hear some excellent guitar parts, good vocals and funny lyrics (*Low Ridin Cruiser*, *Cruisin Down Broadway*, *All Nite Long*).

Zappa produced and arranged the first album, Denny Randell the second.

A Louisville, Kentucky band whose early blues rocker *Walking The Streets Tonight* can also be heard on *Highs In The Mid-Sixties, Vol. 8*. The song was penned by Doug Sahm. The group formed in 1965 when Steve and Jim McNicol and Chris Hubbs left The Oxfords and continued until 1970.

In 1969 they signed to Amazon and recorded an album in Nashville, which is quite good. The best tracks, *King and Queen Of The World* and *Wendegahl The Warlock* are dominated by heavy organ work and veer towards the progressive genre. Three 45s were also released on the same label, although they were all taken from the album. (Although curiously *Stay With Me* isn't listed on the sleeve). One of their 45s *You, I* is a frantic and catchy 'heavy' rock number with some raucous distorted guitar - a sorta uptempo poppy Blue Cheer (?!). It even climbed to No 24 in the Billboard charts.

After they split in 1970, Jim McNicol formed Lazarus who recorded an interesting album (Amazon 1001) in Nashville the same year. Lazarus' second effort *Fool's Paradise* (Bearsville BR 2135) 1973, however, is best avoided. Steve and Jim later teamed up with their younger two brothers to form, you'll never guess, the McNicol Brothers. The younger McNicol then formed a band with a younger Hubbs, called The Weads, no doubt to compete with their elders. They had one 45 on the Trump label.

Steve McNichol reformed **The Rugbys** around 1988 with three original members, with a good reputation for performing carbon copy covers in the Louisville area.

A surprisingly obscure Michigan band considering that *The End* is a really superb organ-guitar led psychedelic punker with great vocals. You can check it out on *Glimpses, Vol. 1*, *Mayhem And Psychosis, Vol. 2* (LP), *Garage Monsters* and *Mayhem And Psychosis Vol.1* (CD). Their cover of the Blues Magoos' *Take My Love...* has also been shoved on *Follow That Munster Vol. 2*.

This was essentially an instrumental rock group from Norwalk, California, whose album is now a minor collectors' item and who charted with *Boss*, a surf instrumental. However the flip of this, *Don't Need You No More*, is a putdown song with vocals and musically and lyrically a precursor of the garage punk sound of the mid-sixties which is why I've included the band here. Check it out on *Highs In The Mid-Sixties, Vol. 20*.

Boss has also resurfaced on *Born Bad, Vol. 4*. It provided the riff for The Cramps' *Garbageman*.

From Omaha, **The Rumbles** were undoubtedly Nebraska's top sixties band. They started out as Rich Clayton and The Rumbles, a surfing band. Their debut release was actually a double-sided surf instrumental. By the time of their third 45 they were calling themselves The Fabulous Rumbles. *Echoing Past* was another instrumental. From 1969 onwards they operated under the name Rumbles Ltd. LP (3) collects all their 45s from 1964-70.

Three of their cuts:- *Fourteen Years*, *Hey Lenora* and *Push Push* can now be heard on the cassette compilation *Monsters Of The Midwest, Vol. 1*. Other compiled cuts include *I'll Be Gone* on *The Soma Records Story Vol. 3*, *The Echoing Past* on *The Soma Records Story Vol. 2*, *Fourteen Years* on *Tymes Gone By* and *It's My Turn To Cry* on *Psychedelic Unknowns Vol. 9*.

They reformed in 1980 (line-up B) releasing a 45 and two albums.

1. Hold Me Now/Without Her (Gemcor 5002) 1965

A LA-based mid-sixties punk band. The 'A' side of their 45 resurfaced on *Pebbles, Vol. 8* (CD), *Boulders, Vol. 1*, *Highs In The Mid-Sixties, Vol. 1* and *The Cicadelic '60s Vol. 8* (CD). The flip can be heard on the *Cicadelic Sixties, Vol. 2* and *Nuggets, Vol. 4*; whilst both tracks also appear on the *Nuggets* 4-CD box set. The 'A' side is very punkish, the flip more flower-folkish and very LA-sounding.

1. Oh Why/Such A Night (Hyland 3018) 196?
2. I Couldn't Care Less/I Can't Take You Back (Manel 100) 196?

An obscure Owosso, Michigan group who had two 45s including *I Couldn't Care A Less*, which is a little monotonous but has a catchy guitar riff, and can now be heard again on *Highs In The Mid-Sixties, Vol. 5*. It's flip, *I Can't Take You Back* has also been compiled on *No No No*.

The Runaways

45:

1. 18th Floor GirI/Your Foolish Ways (Alamo Audio 105) 1966

The intro. to this San Antonio outfit's garage-inspired 45 is rather unusual, with pounding drums, booming bass and slide guitar building to a crescendo - before switching to a typical 'gitl-put-down' type punker, with some rock 'n' roll guitar. The 'A' side is included on *Flashback, Vol. 2*.

The Runaways

1. I'm A Runaway/It Can't Be Long (Cle Town C 101) 1965

NB: Several other singles and one LP released, but not relevent here.

Merrilee Rush from Seattle, Washington, is best known for the top 10 U.S. hit *Angel Of The Morning*. She was also responsible for creating an underground classic, *Reach Out*.

An intense gothic re-working of the Holland-Dozier-Holland song made famous by the Four Tops, it's slow, tense and has a pervading atmosphere of fear and evil. The sound is not unlike early Procol Harum, and culminates in an

amazing guitar solo in the style of Robin Trower. The arrangement is even more astounding when you consider how out of character it is compared with the country flavoured material she recorded before and after this record. The song reached No. 79 in the U.S. Charts and stayed just outside the top 40 in Australia.

Merrilee Rush and Neil Rush had earlier been in The Statics and Pete Sack hit the skins in The Trolley. Mike Robbins and Vern Kjellberg also played in The Liberty Party.

Originating from Merrimack County (Portsmouth), **Tom Rush** came out of the flourishing Boston and Cambridge

folk scene. Influenced by Eric Von Schmidt, his first three albums are excellent examples of blues/folk, **Rush**'s rich and clear voice being backed up only by Fritz Richmond from the Jim Kweskin Jug Band. **Rush** then got signed to Elektra and his first album for his new label was more of the same, but with a stronger backing, notably John Sebastian and Felix Pappalardi.

The big breakthrough occurred with his next album *Take A Little Walk With Me*, produced by Mark Abramson, with a side of rock and blues songs with Al Kooper (also credited as Roosevelt Gook on piano), Harvey Brooks, Langhorne and Gregg, basically the same group used on Dylan's *Highway 61 Revisited*. The versions of *Who Do You Love* or *Love's Made A Fool Of You* are excellent and **Tom Rush** was also present on the album *What's Shaking* with Paul Butterfield Blues Band, Al Kooper, Lovin' Spoonful and Eric Clapton.

Produced by Arthur Gorson, 1968's *The Circle Game* was his first fully arranged album but some of Paul Harris' orchestrations now sound a bit dated. The best moments were his long version of *Urge For Going* plus two songs by the then unknown Joni Michell. **Rush** also helped the career of James Taylor and Jackson Browne by singing their *Something In The Way She Moves* and *Shadow Dream Song*. Interested readers should try to get the *Classic Rush* album which compiles the three Elektra albums. **Tom Rush** then moved to CBS and started working with Trevor Veitch, the gifted Canadian guitarist of Three's A Crowd and Warren Bernhardt (ex Jeremy and The Satyrs/Tim Hardin). *Tom Rush* contains several good songs with fine electric guitars, notably *Drop Down Mama* and Fred Neil's *Wild Child*, but also some slow country rock numbers.

The three subsequent CBS albums were increasingly mellow and **Rush**'s contract wasn't renewed and his career halted. He returned in 1982/1984 with two albums on a small label and apparently disappeared again, to return again only recently. Since 1998, **Tom Rush** has been on tour and CBS/Legacy have just released a double CD anthology, *No Regrets*.

Mitch Ryder and The Detroit Wheels blended the motown-soul sound with over-revved Midwestern rock & roll. **Mitch Ryder**'s (born William Levise) gutsy soul shouting and superhuman screams were some of the most electrifying sounds to charge AM radio in the mid-sixties, landing somewhere between The Rascals' Felix Cavaliere and Wilson Pickett. **The Wheels** sported two strong lead guitarists in Joe Cubert and Jim McCarty (later in Cactus and Detroit), and they were pushed along by one of the great unsung rock drummers of all time, John ("Johnny Bee") Badanjek.

It was producer Bob Crewe who signed the band to his New Voice label, releasing a string of high-octane rave-ups in *Jenny Take A Ride* (#10), *Little Latin Lupe Lu* (#17), *Devil With A Blue Dress On - Good Golly Miss Molly* (#4), *Sock It To Me Baby!* (#6), and *Too Many Fish In The Sea* (#24). In spite of all the hits and visibility, **Mitch Ryder and The Detroit Wheels** were victims of the era, making loads of money for Crewe and New Voice, but ending up broke. Around 1969 **Ryder** retreated to Detroit, where he formed the band Detroit: recording one fine album *Detroit*, (Paramount PAS-6010) 1971) before fading out of the public's gaze. The echoes of **Ryder**'s music lingered on in the Motor City madness of the MC5 and the guitar sound of Alice Cooper, whilst **Ryder** himself has become an influential cult figure for a generation or two or rock bands and fans alike.

More recently **Ryder** has hit fine form with some outstanding tunes on his Mellencamp produced album in '83 called *Never Kick A Sleeping Dog*. Of these, Prince's *When You Were Mine* is noteworthy, as is a classic duet with Marianne Faithfull, *Thrill's A Thrill* plus a tremendous cover of Solomon Burke's *Cry To Me*... **Mitch Ryder** has also had a number of releases on the German Line record label since 79 and is still touring to this day.

Compilation appearances have included:- *Long Hard Road* on *Michigan Rocks Vol. 1*.

This band came from Fairfax, California. Their privately-pressed album was released originally in a primitive black and white cover design. The cover was redesigned for the later Uni reissue, which came in a colour sleeve.

The album of Eastern music sung in English and Hindi is one of the hardest to find on the label. Peter Van Gelder had earlier been a member of The Great Society who had journeyed to India to soak up the "dreamy and vaporous"

atmosphere and, apparently, learn to play the sitar properly. The private press is a significant collectable from the Bay Area scene and is recommended to anyone appreciating Eastern sounds of a traditional nature. (Clark Faville)

Sagittarius were a studio group created by producer, Gary Usher (who had earlier produced albums by The Byrds, Gene Clarke, Chad & Jeremy, The Millennium and The Peanut Butter Conspiracy). Curt Boettcher helped with the arrangements and Terry Melcher was also involved in the projects. Both albums were of particular interest for their high degree of orchestration and polish. In this respect, they were ahead of their times.

Glen Campbell and Bruce Johnston (later of The Beach Boys) were involved in the first single, *My World Fell Down*, which came from a bunch of John Carter demos intended for Chad & Jeremy, who refused to cut the vocal... Usher made the backing track a bit freakier (i.e. adding more stops and starts, using The Firesign Theatre) and recorded it himself. Glen Campbell sings lead on the recording with Bruce Johnston and Terry Melcher providing backing. It's possible that Chuck Girard and some other Beach Boys etc. are in there too, although only Bruce and Glen are on the contract card for the session. *My World Fell Down* received considerable airplay in New York, although it failed to make the Top 40. It can also be found on the original *Nuggets* compilation, and it's expanded *Nuggets* 4-CD counterpart.

Their second 45 *Hotel Indiscreet* was arranged by Boettcher for outrageous multipart vocals and also features the writers Jim Griffin, (later in Bread), Michael Z. Gordon and The Firesign Theatre... Another couple of tracks on the first album feature these kind of combinations, featuring the nascent Millennium and such unlikely figures as Angelo Badalamente (of "Twin Peaks" fame) as players and writers... the remainder being basically a combination of unused Ballroom tracks, and new songs which were worked up for the Millennium and consequently bumped up to "Grandiose Stereo" mixes. The singles are entirely and radically different versions to the album ones... with the first two minus the 'sound collages' in their album form.

The second album was recorded on Usher's own Together label and contained some beautiful love songs such as *Will You Ever See Me, I Still Can See Your Face* and *I See In You*. More coherent in theme though not as immediate as the first, ecology and religion/philosopphy are to the fore, as they were in Ushers next project, Celestium, which carried the sound and themes of *Blue Marble* into a more somber, almost Krautrock vein.. kind of like Gary Usher meets Bowie's *Low*!

The non-LP 'star' tracks *Virgo, Libra* and *Pisces* are weird 'n' wonderful instrumental freakouts full of Eastern promise. *Pisces* can be heard on the *Everything You Always Wanted To Know....* CD.

This Michigan outfit got to record the Fenton 45 by virtue of coming second in a 1966 'Battle Of The Bands'

competition. They also got a free set of instruments. *This Mornin*, a half decent rocking reinterpretation of a P.F. Sloan composition which would have benefited from better vocals, can be heard on *Highs In The Mid-Sixties, Vol. 19*. A previously unreleased recording by the band, *Send Her To Me*, has also resurfaced on *Thee Unheard Of* compilation, although it's poorly recorded and of little merit.

They were also known as Ron Shannon and The Saharas.

This unexceptional hard rock guitar driven album saw a reissue on the Breeder label, which specialises in reissuing rare psychedelic records, in the 1980s. The guitar's OK but the material is very unimaginative with *Lone Soul Road* probably the pick of a poor bunch. More an album for hard rock fans than garage or psych enthusiasts. Came together in 1968 in Texas. Their 45 that year was released under the name Endle St. Cloud In The Rain. Black joined from The Lost And Found, D.F. Potter had been with East Side Kids and Melinger with The Iguanas. Their album's two strongest tracks:- *Come Through* and *Professor Black* had first appeared on a Lost And Found 45 which Black presumably persuaded them to re-record. Ranging from acid-rock to country with each track linked by piano pieces the album is worth checking out. The second 45 credited simply to Endle was taken from it. Their first 45, a non-LP release, is one of the more sought-after International Artists singles and both sides also appeared on *The International Artists Singles Collection*. After this project **Endle St. Cloud** teamed up with D.F. Potter, James Harrell and others to form Potter St. Cloud who issued an album on Mediarts in 1971. *Tell Me One More Time* can also be heard on the *Austin Landing* compilation.

This Hollywood-based quintet were a popular attraction around LA's bars and clubs for some years. Their album attracts some interest among collectors of psychedelia. Offbeat hippie-psych - 'canyon music' might be an apt description recalling the post 'flower power' scene exhorted by Kim Fowley as the next 'in-thing'. Indeed Kim Fowley produced the album. Unfortunately it didn't catch on. The album came in a wonderfully colourful cover.

There has also been a rumour of a live album on Flick City, from 1970, but this hasn't been confirmed.

Born in Maine in 1941, **Buffy Sainte-Marie** is a Cree Indian folksinger/songwriter who was involved in the folk revival of the early '60s and the various movements for the rights of the Native Americans. An excellent writer, her songs have been covered by several groups, especially *Codine* (Charlatans, Quicksilver Messenger Service, Wizards Of Kansas), *Until It's Time For You To Go, Now That The Buffalo's Gone* or the anti-war *Universal Soldier* (Donovan).

Her first few albums may interest some readers, as she played guitar, piano and mouth bow, was backed by good musicians (Bruce Langhorne, Eric Weissberg, Monte Dunn) and even experimented with electronic scores (on *Illuminations*). Her voice, a powerful soprano with a heavy vibrato, is however quite disconcerting.

She also played on the soundtrack of Nicholas Roeg's *Performance* with Mick Jagger, Randy Newman, Jack Nitzsche and Ry Cooder (Warner BS 2654) 1970.

After 1972, **Buffy Saint-Marie** turned country, trying to change her image and subsequently her records are out of the scope of this book.

I'm unable to confirm whether this was ever completed. They were a big-beat club band with soulful intentions and of no interest to garage purists. These recordings are the work of a Steve Cataldo (ex-Front Page Review) and the album certainly is rather interesting and highly-rated by many. The U.K. See For Miles reissue label tried to buy the rights to this album but MCA deny all knowledge of the tapes!

The two sides of the album are titled "The Bastich" and "Over The Hills", which is why the latter is often referred to as the title in dealers' lists. The bonus cuts erroneously added to the reissue of the One St. Stephen album are actually by Steve Cataldo's previous outfit Front Page Review.

The album was recorded on 2-Track, in a bar called "Red Barn" in 1971, which was temporarily turned into a studio. The mini moog used was serial no. 1023, (according to A.R. Moog, this was the 23rd Moog to be manufactured)... Originally from Texas, Roger Salloom and Robin Sinclair moved to Chicago to take a part on the local Blues scene. The first album, which is a very minor collectors' item, was recorded in there in 1968. The killer cut is a drug song called *She Kicked Me Out Of The House Last Night (After This One)*. It features freaked-out vocals, a full organ sound and some good psychedelic guitar work. Salloom wrote seven of the eight tracks, the last one *Griffin* being authored by Robin Sinclair, a powerful female singer.

Recorded in Nashville and produced by Charlie McCoy, Wayne Moss and Norman Dayron (Michael Bloomfield manager), their second album, *Salloom-Sinclair* is more country-rock than psychedelic and includes both sides of the 45 listed.

When the group disbanded, Roger Salloom went back to Texas where he formed Roger Salloom and the Vest Pocket Players, releasing an album on a local label. In 1983, he recorded *Would You Like To Meet Someone* on Yellow Plum Records.

1	Think Twice/Love Comes In Funny Packages	(ABC-1 1025)	1968

This San Francisco band was formed when former harpoon sharpener and garbage collector at the University of Washington Seattle, Al Linde, met Joe Tate, a cesspool driver and former student at the School of Mining and Minerology. Joe later met the group's drummer, Teddy Stewart, outside a bar in Sausalito. The other two members joined later. The band were featured in a series of three concerts in Golden Gate Park and eventually ABC offered them a recording contract.

The first LP, released by United Artists in the UK, reflects the spontaneity of their music. Its front cover shows the converted bus they moved around in! The songs on the album are all originals ranging from hard rock songs like *She Said Yeah* and *Cinderellato* good time songs like *The Village Shuck, What Does An Indian Look Like?* and the psychedelic *Think Twice*. Their second LP was more experimental. There's some keyboard wizardry from Art Resnick on *Handles Of Care* and *What'll I Do*, the latter was the album's most psychedelic track; *Salvation Jam* was an experimental instrumental, whilst *Come On Over Here* veered towards country music.

Art Resnick recalls:- "I was the last to join the band in the spring of '68. That summer in San Francisco was, as you know, the apex of the times and everything that the hippy generation represented (and more) was happening in the streets of Haight Ashbury. I had hitched a ride from Minnesota to SF and got dropped off on some corner near H.A. where I stepped into a phone booth to call the one phone number I had on a piece of paper. This had been given to me by my ex-University of Iowa buddy, David Sanborn. He was supposed to be hanging out there and maybe playing around town. It was the number of Teddy, the drummer of the New Salvation Army Banned. When I called, this guy (turned out to be Al the lead singer) picked up the phone and I asked for David. In the background there was

a very loud rock band playing so after shouting the name David Sanborn a few times he finally said David had been there but was out of town with Paul Butterfield and who was I?"

"I told him I was a keyboardist from Minneapolis who had just arrived and David was the only person I knew. He said that they were a band on the scene and their keyboard player had, 'that morning', packed up his gear and moved back to Minnesota where he came from! Weird. Anyway, he invited me over and it turns out they occupied a house right on Fredrick & Haight, within walking distance. When I arrived I was escorted in through a hallway into a room that was filled with posters and blacklight with two guys, each talking in one of my ears at the same time. Thus began my sojourn with the band. The rest is a somewhat risque history of Sex, Drugs, and Rock and Roll, and, oh yeah, ripoffs in New York's Filmore East... There's some really funny stories about that, like getting busted by the NYC police right on stage in the middle of a set, for non-payment of the hotel room (which is when our management team decided to take off with our advance from ABC Impulse). Anyway that's another story."

"The band started out as The New Salvation Army Banned and the name change was made because the record company was afraid of being sued by Col Hartog of the Salvation Army, SF chapter. It was changed when we signed our contract (which ABC later broke, although they did have good reason)."

"All of our gigs that summer in SF were notable since we were on the second echelon right beneath Big Brother and The Holding Co., Jefferson Airplane, The Doors, etc. We played gigs being the warmup act (or following) all of the great bands. One time when we played for The Doors at the Wintergardens when they came out and sat down on the stage in front of a TV and watched themselves on the 'Tonight' Show with Johnny Carson (I think, could be wrong about that - but it was some major network show) before a fully packed house of thousands. We also played the Avalon Ballroom with Chuck Berry, Janice Joplin, The Doors, and hosts of others."

"We also played, as part of a promo tour for our first album (which was incidentally produced by the way by Bob Theile - the producer of John Coltrane on all his ABC Impulse recordings) the Fillmore East and the Village Gate which was billed as from the Golden Gate to the Village Gate...."

"What destroyed the band was the fact that our managers left us high and dry in NYC, without a penny, absconding with our advance money (I think it was $10000 if I'm not mistaken). Also, and probably the biggest reason for our gradual demise, is that members of the band acted so incredibly wild at the main offices of ABC In in NYC when going there to meet all the top execs. It was totally insane! Wilder than any rock movie I've ever seen."

"The most exciting gig I can remember was the gig we played in front of over 10,000 fans at the Malibu Rock Festival. They were mostly high on acid and other psychedelic mixures, and there we were on stage, outside in the sunny California afternoon, just following Canned Heat.... Seems like a dream now, but the feelings never die."

Teddy Stewart is thought to become a postman in San Francisco. Art Resnick went on to record 12 albums, some solo, and some with rather well known jazz artists such as Benny Golson, Nat Adderly, Freddy Hubbard, Bobby Shew, etc. He was not the same guy as in Third Rail. For more information on his solo work, check his website: http://rezmo.net/

More Than It Seems also from their first LP resurfaced on *Baubles, Vol. 1*.

Sam The Sham, christened Samudio Domingo, was a Texan-Mexican who was born in Dallas. He formed this outfit with the Pharaohs, (who were also of Tex-Mex origin and musical inspiration), in Memphis, Tennessee in the early sixties. Their early recordings included *Haunted House*, a cover version of Gene Simmons' novelty rock hit. *Wooly Bully*, a real sixties rocker was then leased to MGM in 1965 by Stan Kesler's Pen Records in Memphis. It gave the band a U.S. No. 1 and also reached No. 11 in the UK. The band relocated to Dallas and for a time were very successful indeed.

Eventually the hits dried up and they disbanded in 1970. *Ten Of The Pentacles* had essentially been a solo effort from Samudio and in the '70s he embarked on a solo career.

Wooly Bully is one of the Soundtrack songs to the 1979 MCA film 'More American Gratfiti'. Earlier in 1965 the band nad performed *Monkey See Monkey Do* in the Soundtrack to the 1965 MGM production 'When The Boys Meet The Girls', which was a weird re-make of the Gershwin brothers' musical 'Girl Crazy'.

Readers may also be interested in a hits compilation *Pharaohization* that has appeared on Rhino.

Sam Samudio had previously been the leader of Sam The Sham and The Pharaohs. His only solo album is an excellent mix of blues, rock and soul, with an exceptional backing group: Jim Dickinson, Duane Allman, Charlie Freeman etc. Recorded in Miami and produced by Tom Dowd, the songs are five originals plus five covers (Boz Scaggs, John Lee Hooker, Doc Pomus, Randy Newman and Otis Rush).

The album is particularly noteworthy for the really long thanks section, totally different from the usual "Thanks to my dear producer": he thanks the people who rejected him because of the color of his skin and texture of his hair, the

people who broke his nose, the ones who mistreated him as a child, his friends the prostitutes...

Sam Samudio then apparently disappeared from the music scene, only to come back in 1982 on the soundtrack of *The Border* with Ry Cooder. He married the Memphis singer Brenda Patterson.

1. Open Your Eyes/Can't Find A Way (Capri 522) 1967

Both sides of this Texan outfit's 45 appear on *The Finest Hours Of U.S. '60s Punk*, a 1984 compilation. *Open Your Eyes*, was strongly influenced by The Seeds' *Pushin' Too Hard* containing similar fuzztone guitar and the same vocal style. The flip was a garage-style teen balled, rather appealing with quietly piercing keyboards.

Born in Mexico in 1947, Carlos Santana came to San Francisco in the '60s and formed the Santana Blues Band, soon known as **Santana**. Greg Rolie, ex-William Penn Fyve, was their organist and the group began playing their mix of blues and latin rock at the Fillmore West in 1968.

In the beginning of 1969, their personnel changed. The young Mike Shrieve, ex-Glass Menagerie became their drummer and three afro-cuban percussion players reinforced the group. One of them, Marcus Malone, was soon sent to jail and would'nt return until 1973.

A popular act, lead by Carlos' characteristic guitar sound, **Santana** played Woodstock in August 1969 and soon after their first album *Santana* was released and sold very well. The band also played at Altamont.

In October 1970, *Abraxas* was published and soon reached No. 1 in the charts. Containing *Oye Come Va*, *Samba Pa Ti* and their cover of Peter Green's *Black Magic Woman*. The Marti Klarwein sleeve obviously helped the success of this album.

For the third album, a new guitarist, Neil Schon, was added. Soon after that David Brown was arrested in a drug bust and Chepito Arias sent to hospital with serious health problems. Carlos Santana later turned mystic and became "Devadip", a disciple of the guru Sri Chimmoy. His next albums fall out of the scope of this book.

Neil Schon and Greg Rolie would soon leave to form Journey with Vallory and Tickner, both ex-Faun. Carlos' brother, Jorge, also had his latin rock group, Malo and later went solo.

1. Mummies Curse/Cats Meow (Goldband 1188) 1969

The sleevenotes to this album state that the band, who came from the South, have one of the greatest original interpretations of the new dimension of psychedelic sound! In fact, they were from Louisiana and this album surely deserves a place in any chamber of the worst records ever made. The opening cut, *Satan's First Theme*, is so bad it's laughable. The vocals are practically spoken, 'Satan' punctuates these with a laugh that is so unconvincing it's pitiful and in response to the vocalist's assertion 'I'm The Devil', there's a chorus retoning 'he's the bugger man'. Not psychedelic, not garage, simply garbage and the subsequent tracks are only marginally better.

Freddy Fender may have had some involvement with this album, but best avoided, unless you have a perverse curiosity to hear how bad that opening cut is. *Mummies Curse* is not on the album.

A Portsmouth, Virginia quartet called Dean and The Mustangs started out in 1962/3 performing instrumentals. With the British Invasion in full swing in 1964 they drafted in Eaton to replace a guitarist and became **The Satellites**. Shortly after they cut two tracks at a local studio and this pairing kicks off the Tidewater '60s scene compilation *Aliens, Psychos And Wild Things* (CD). *When Will You Stay* is a robust punker based on the Kinks' *I Need You* riff. *The Next Boy* is a midtempo garagey ballad that infuses a Zombies mood with Searchers chordings and a hint of the emerging Dylan-derived folk-rock sounds in the chorus.

The Satellites time was up in 1966 when Dean Kohler was drafted but he'd be back again with two further 45s, one solo and the other as The Electrical Banana - also featured on the *Aliens, Psychos And Wild Things* compilation.

2. Deck Five/Christmas Sounds (Dunwich 144) 1966

Popular in their hometown of Chicago and almost unknown elsewhere, the band were previously known as Dalek/Engam: The Blackstones, and as such also recorded a version of *You Don't Know Better*.

Deck Five, which is featured on *Mindrocker, Vol. 2*, is a rip-off of Dave Brubeck's 1961 hit *Take Five* and even includes a melody line from *We Three Kings Of Orient Are*. Nonetheless, it contains some nice three part harmonies and some pleasing organ. You'll also find their otherwise unreleased recording of The Everly Brothers' song *Man With Money* on the Sundazed retrospective and *Early Chicago* compilation. This recording dates from an August 1966 session which also produced their first 45. Both *Man With Money* and *Tomorrow Is Her Name*,have also resurfaced on *The Dunwich Story*, whilst *Born On Saturday, You Don't Know Better, Tomorrow Is Her Name* and *Deck Five* have also resurfaced on *If You're Ready! The Best Of Dunwich Records, Vol. 2* and *Man With Money, Leave That Baby Alone* plus a radio spot can all be heard on the CD compilation *Oh Yeah! The Best Of Dunwich Records*.

The 'A' side of their last single, *Leave That Baby*, was also written by Randy Newman.

Jeff Boyan went on to join H.P. Lovecraft and relocated with them to California. He later played for Hezikah. Dave Carter also later played with The Cryan' Shames. (Vernon Joynson/Kip Brown/Max Waller)

1	The River Of Styx / In The Midnight Hour	(Creative Productions acetate)	1967

Forming out of a band called The Vandals which included Allan Parillo, Mike Nowicki, and Bob Cianci, **Saturday's Garbage** were formed at Bloomfield High School, Bloomfield, New Jersey in September 1967. They took their name from their favourite post-**Vandal** rehearsal activity - kicking over people's garbage cans, and played the usual round of church dances, school dances, a few private parties, swim club parties, and the occasional teen dance club (eg Clay Cole's Disk-O-Teen and the Monkey Club).

Bob Cianci: "Our best gig was the end of season teen dance at Green Pond, N.J. community center, August 1968. We had just experienced a couple of bad gigs, and the kids there loved us. Girls screamed, and the guys dug the Cream and Hendrix stuff. Bloomfield, New Jersey was and probably still is a real greaser town; lots of blue-collar types, and they never liked us at all. We had the longest hair, wore Mod clothes, and played hard rock. We got hassled all the time for our appearance."

"We were never the most happening band around, because we played very little commercial material. We were true punks in that we did what we wanted: Rolling Stones, Yardbirds, Them, Animals, and later, Steppenwolf, Cream, Hendrix, Doors, Rascals, Vanilla Fudge, and toward the end, we began experimenting with jazzy stuff like Spirit."

In November 1967, the band recorded two tracks *River Of Styx* - a strange number with Farfisa organ, a heavy drum beat and tortuous vocals; and a version of *In The Midnight Hour*. Bob: "The lyrics to *River Of Styx* were supplied by a guy named Ted Dunn who wanted to manage us. We wrote the two-chord riff, went into a studio and cut it, with *In The Midnight Hour* on the B-side. We only had one hour of studio time booked, but we did it. Ted had these big plans to pull us out of school and send us on tour but our parents said "no way!" and after our record was turned down by a few major labels, we never saw him again."

The band broke up in January 1969 after two members were busted for bringing marijuana to school. Bob: "Our parents called it quits for us. I had tried grass at a couple of gigs, and when my father found out, he dragged me to the barber for a very short haircut, one of the most humiliating experiences of my life. I still have never forgiven him for it."

"It's too bad it ended so suddenly. We were always good, but we were getting very good by the end. We copped the song *Gramophone Man* by Spirit note for note, and that's not an easy tune, with its extended jazzy thing in the middle. Gerry was a very accomplished keyboard player, and we had no trouble with it. I had been into jazz for

years by then."

"Today, I'm still a working drummer, and am proud to say, playing better than ever. I used to smash my drums up like Keith Moon, but have curtailed that activity. Mike played in band called Black Rose that had a single out on RCA records around 1974-75. He used a Gibson Melody Maker and used to throw it around a lot onstage-just short of smashing it. Gerry moved to California and may still be playing. He later switched to guitar, and became a very fine guitarist also. Just a natural talent for music. Jim gave up the bass and Allan hasn't been heard from in years."

"Mike, Allan, and I put together a new band in the summer of 1971 while I was in college, called Suicide. We played some old Elvis, Jeff Beck/Rod Stewart, and some other cover stuff, but it went no farther than the garage and I went back to college in September. I'd love to play with those guys again for fun someday."

Compilation coverage has so far included: *River Of Styx* on *Mindrocker, Vol. 8* and *Attack Of The Jersey Teens*.

Bernie Krause from Beaver and Krause also assisted on moog.

Savage Grace 2 opens with *Mother's Son*, a Hendrix inspired song and is more hard rock inspired than psychedelic. Both albums contain fine musicianship from John Seanor and Ron Koss, who later combined their talents on the album *Seanor And Koss* (Reprise 2091) 1972, in particular.

Larry Zack later became a session drummer and played with Warren Zevon and Jackson Browne.

1. Thing In 'E'/Fox Is Sick (Mercury 72778) 1968

One of the West Coasts 'forgotten' bands. Their album was a competent effort with tracks like *Every Little Song* and *Talking To You* containing some promising early psychedelic guitar work. John Palmer wrote (or co-wrote) all but one

of the tracks on the album. Its closing cut *Expectations* features some fine Eastern-influenced electric guitar jamming. The 45 was taken from the album. Recommended by none other than Bevis Frond!

From Richmond, California the band was formed from members of two local outfits Button Willow (Hammon, Lage) and Whatever's Right (Myer, Harper) plus John Palmer. Randy Hammon, cousin of Oxford Circle/Blue Cheer drummer Paul Whaley, had been in the Boys with John Palmer, who'd then moved on to the Plague, Chico punk-legends the Boys Blue (of *Coming Down To You* fame) and Lincoln's Promise.

The Randy Hammon/Alec Palao produced CD reissue contains the entire album plus three rehearsals:- *Thing In E*, *Tahitian Melody* and *River Deep, Mountain High* - and a comprehensive history of the band.

1	A MAN AND HIS DOG	(Warner WS 1756)	1968

Produced in San Francisco by Erik Jacobsen (Lovin Spoonful, Norman Greenbaum, Sopwith Camel), this is a rare album of Californian good time music, recorded with the help of two Charlatans (Hicks and Olsen), Richard Greene (Jim Kweskin Jug Band, Seatrain) and Mark Naftalin (Butterfield Blues Band, Quicksilver).

ALBUMS:

1	WARREN SCHATZ	(CBS S 64681)	1971
2	WARREN SCHATZ	(Love Records ?)	1973?

NB: (1) Dutch pressing, (2) also issued in Poland by Muza (XL 0937).

A litle known but significant singer/songwriter/producer/engineer on the New York '66-'71 scene. Born in Brooklyn on November 3rd, 1945, **Schatz** originally performed as Ritchie Dean and had a hit with *Goodbye Girl*. He then organized a succession of groups for live dates and recordings and formed The Pendants, The Petrified Forest, The Warmest Spring, The Shapes Of Things and The Whispers. At the same time he was beginning to handle recording sessions as an engineer (Unspoken Word) and producer (Yesterday's Children). In the early '70's he began singing under his own name and toured in Japan.

His CBS album was recorded in New York, Los Angeles and San Francisco. **Schatz** wrote all the material and produced it with sessionmen (Jerry Cole, Hugh McCracken, Al Gorgoni, Pretty Purdie). Marred by too many female background vocals, it's better avoided. **Schatz** then went to Finland to record his second album, which is much better. This notably contains a fantastic version of David Crosby's *Long Time Gone* with lots of electric guitars. Strangely however, this record was also pressed in Poland!

The Scholars

45:

1	I Need Your Lovin'/Please Please	(Ruby Ray A-OK-1)	1967

I Need Your Lovin' has resurfaced on the *Pennsylvania Unknowns* and Sick And Tired compilations. What we do know is that they hailed from the Port Richmond area of Philadelphia and that they were a quintet attending Drexel and Temple Universities when their 45 came out in February 1967. Another cut left over from this session that never got beyond the acetate stage was *I'm Gonna Make It*, which can now be heard on the *Crude PA* compilation. It combines the garage sound with group harmonies and has consequently been referred to as 'garage doo-wop'!

The Schoolboys

ALBUM:

1	BEATLE MANIA	(Palace 778)	1964 SC

As the title shows, this was another attempt to cash-in on the Beatles success in America. The album was issued with two different covers: a rare pink one and a more common white one.

2	Questions I Can't Answer/It Isn't Right	(Tide 2002)	1964
3	Baby Bye Bye-Oh/Something's Wrong	(Warner 5651)	1965
4	Her Name Is Melody/I Go To Sleep	(Warner 5867)	1966

NB: (1) as Don Atello, (4) as Adrian Pride.

Born in October 1945 in Hollywood, **Bernard Schwartz** took guitar lessons from the session musician Ray Pohlman in 1962 and through him met Sharon Sheeley, writer of hits for Ricky Nelson and other singers. He started writing with her and with Dale Bobbitt for various labels. In 1963, as Don Atello, he released his first single on Tide Records and a second one in 1964, this time as **Bernie Schwartz**.

Through Sharon Sheeley, he met Phil Everly and did a single for Warner on which Everly sang harmony and wrote the 'B' side, Sheeley co-writing the 'A' side with Jackie DeShannon. A second single was released using the same session musicians (Billy Preston, Jim Gordon, James Burton and the Everly Brothers) but this time under the name Adrian Pride. The 'B' side was a Ray Davies (Kinks) song.

Pursuying his songwriter career, **Bernie Schwartz** had his songs recorded by the Yellow Payges, Power and The East Side Kids in 1967.

In 1968, he formed Comfortable Chair but the group broke up after some concerts and one album produced by Krieger and Densmore from the Doors.

When **Schwartz** got his draft notice, he filed as a conscientious objector and was required to work at Goodwill. Sharon Sheeley called him up to tell him she had a new writing deal with CoBurt (Pierre Cosette and Burt Sugarman). **Schwartz** did three demos for them which ended up on his only album, *The Wheel*, which featured Euphoria's Wesley Watt and Bill Lincoln, in addition to Comfortable Chair member Gene Garfin. Produced by **Schwartz** and Euphoric Productions, the album contains ten tracks, including a cover of Euphoria's *Sunshine Woman* which ends with one minute of fuzz and feedback guitars! The album also features good covers of Neil Young's *Round And Round*, Randy Newman's *Think It's Gonna Rain Today*, Fred Neil's *Candy Man* (with "frantic" guitar parts), former Stone Poneys' Kenny Edwards *Follow Me* and Gene Garfin's *Lost My Wings*. A really interesting album, especially if you like Euphoria.

Another **Schwartz** song was chosen for the soundtrack of "The Magic Garden Of Stanley Sweetheart" (MGM

1ST-20ST, 1970) which starred a young and unknown Don Johnson.

Schwartz later graduated from UCLA and went on to finnish a masters degree program. He now teaches psychology, does seminars and writes books (the most recent is "Are You A New-Rotic?")

NB: (1) reissued (375 copies only) on OR (014) in 1996. (2) was a Bob Lucas solo album.

More progressive than psychedelic, the first album is worth seeking out but the best tracks are the folky ones with soft female vocals like *Junior, All This Waiting, Path Of Light* and *White Teeth*. When the violin's in evidence they sound a little like the U.K. band Curved Air. The more upbeat cuts, like the title track and *Prematurely (Fly Me Away)*, just don't come off so well. The album was recorded at Jack Gilfoy Studios in Bloomington, Indiana, which is where the band were from. The bands personnel fluctuated wildly over the years, and some members also backed Tina Lane on a couple of 45s. Sophiea and Anderson later played in MX 80.

1. MONTGOMERY'S CHAPEL (Century) 1969 R5

NB: (1) reissued on Rapture(delic) (RR 6.8) 1994 and also on CD (Flash) 1998.

An ultra, rarity by a from Wisconsin band who relocated to Sacramento, California. It has been reported that less than ten copies were pressed, although it's more likely that a few hundred copies were made at the time. Many of the tracks feature lovely female vocals, although part of side two is more acoustic and folky with male vocals. Unless you're into singer/songwriting acoustic folk these are not as good. At its best the album is superb. A mystical atmosphere is created by the floating, melodic psychedelia of songs like *When He Calls*, *So Many Things Have Got Me Down* and *The New In You*. Just listen and drift away.

The band were formed by Kulberg and Blumenfeld in Marin County, California, after they quit New York's much loved Blues Project. John Gregory had previously played with Mystery Trend. However, it was Greene's virtuoso violin playing (he'd earlier been with Jim Kweskin's Jug Band) which dominated their debut album. Their next two efforts were recorded in London with ex-Beatle producer George Martin. By now, however, only Greene, Kulberg and writer Roberts survived from the original line-up. For *Marblehead Messenger* the remaining line-up was Larry Atamanuik (drms), Lloyd Baskin (keyb'ds,vcls) and Peter Rowan (vcls,gtr). This album was again dominated by Greene's excellent violin playing, particularly on the closing track *Despair Tire* and on the title track - a plea for pacifism:

> 'Take a message to the island
> Take a message to the shores
> Take a message cross the nation -
> Put an end to war.....'
> (from *Marblehead Messenger*)

It also contained a number of other fine rock ballads, notably *The State Of Georgia's Mind*, *Protestant Preacher*, *London Song* and *Mississippi Moon*.

Perhaps it was its lack of stability which prevented the group from attaining the success one might have expected from the quality of its line-up. At any rate after one further album for Warner Brothers, which included many session musicians, they passed on without much publicity or acclaim.

1	Room Nobody Lives In/She's A Lady	(Reprise)	1969

A gifted songwriter, singer, harmonica and guitar player, **John B.Sebastian** began his career in the early '60s recording with Fred Neil , Tom Rush, the Mugwumps, Jesse Colin Young, Judy Collins and Eric Andersen. In 1965 he formed the Lovin' Spoonful and, when the group disbanded in 1968, he started a solo career and signed with two record labels, MGM and Reprise. The following legal battle didn't help to promote his records. He also worked with Mama Cass and wrote Broadway musicals.

In 1969, **Sebastian** was invited to the Woodstock festival and his song *I Had A Dream* is featured in the movie and on the record. Produced by Paul Rothschild, his first album was recorded with the help of Crosby, Stills and Nash, Buzzy Linhart, Harvey Brooks, Danny Weiss, Bruce Langhorne and Paul Harris but is very deceptive. **Sebastian** was obviously having a good time but the material is weak and the playing uninspired. The sleeve shows several pictures taken at Woodstock. The following album was live and also issued by MGM, which finally had to withdraw its records. Recorded with Mac Rebennack (Dr. John), *The Four Of Us* contains two good bluesy tracks but is very self-indulgent and better avoided.

Very active in the studios, **Sebastian** can also be found on records by Ohio Knox, The Doors (he plays the stunning harmonica on *Roadhouse Blues* but was credited as Gary Pugliese), Rita Coolidge and Aztec Two Step. **John Sebastian** recorded two other albums in 1974 and 1975 and after that kept a low profile, as his solo career never obtained the success he had with the Lovin' Spoonful. He came back in the '90s to play jug band music with Fritz Richmond, the former Jim Kweskin Jug Band member. He is still touring today.

From Massachusetts, circa 1967. *Pusher's Route*, composed and sang by Donald B. Thayer, is outstanding lo-fi garage-folk-psych with one larynx-wrenching scream and occasional fuzz and reverb effects. Paul Tringuk Jr's similarly composed/sung *Please...* is by contrast a sad garage ballad.

Paul and Donny later worked together in another Massachusetts band, Pretty Poison with Louis Santoro, and Jimmy D'Angelo. They had some local success for a few years before breaking up. Paul Tringuk also helped back his cousin, Kevan Michaels on two albums *Transatlantic Connection* and *How Long Can You Rock*, before retiring from the music biz. Donny Thayer moved to L.A. and went into acting.

Pusher's Route can also be followed on *The Psychedelic Experience Vol. 3* CD.

This Los Angeles-based group was the inspiration of Sky Saxon (real name Richard Marsh) who formed them in 1965. Earlier out its included Sky Saxon and the Soul Rockers and the Amoeba. They were extremely popular locally and their records sold quite well. Their debut single *Can't Seem To Make You Mine* made little impression as did *(You're) Pushin' Too Hard* when it was first issued. Their music was raw and often simple, but Saxon's growling vocals, and their pummeling repetitive rhythms gave them a unique sound. When the debut album was issued a local DJ gave *Pushin' Too Hard* extended airplay and it was reissued climbing to No. 36 in the Billboard Hot 100. Their second album was also issued in the U.K. by Vocalion. It opened with the vibrant *Mr. Farmer* which became their next single, and featured rampant rockers like *Rollin' Machine* and *Tripmaker* and a few gentler numbers. **The Seeds** were now hugely popular in LA and appointed a new manager Tim Hudson who was apparently largely responsible for their nationwide success by pushing their flower power aspect at the right time. In fact, much of their music was punky and only the *Future* album can really be called 'psychedelic'. This was an 'over the top' production and the sleeve contained (apart from the record) cut out and paste drawings of flowers!

Rick Andridge recalls that their next album, *A Full Spoon Of Seedy Blues* was never meant to be a **Seeds** album which is why they went by **The Sky Saxon Blues Band** monicker. They never played any of those blues songs at any concert and Sky has said he recorded it to try and break their contract with GNP. Rick: "I did it because I learned to love the blues. I still believe to this day that it is one of the best albums we ever did. Really great for a group of white guys."

The Seeds name returned for the *Raw and Alive* album and two of the new tracks, on this credible blend of old and new - *Satisfy You/900 Million People Daily Making Love*, were issued as a 45 in a full colour art sleeve. It flopped but has now become the band's most collectable item. Sadly after one further 45, written by Kim Fowley, the band fell apart.

The band's demise came with the collapse of the flower power culture in 1969, although Sky Saxon has continued to record spasmodically since. He re-appeared for two disappointing singles using the same name 'The Seeds' in 1971 - *Bad Part Of Town* and *Love In A Summer Basket*. Slightly later a privately pressed heavy rock single, *Shuckin' and Jivin'* (Productions Unlimited 22) surfaced. He has also been connected with Ya Ho Wa 13 and recorded an album with them for Psycho Records in 1982. This was previously issued on an eight track tape. Only 300 copies of the Psycho issue were pressed and it is now deleted.

All of **The Seeds**' albums have subsequently been issued in Germany, by Line Records, including their 1977 compilation *Fallin'Off The Edge* (GNP 2107), which featured rare and previously unissued material.

Other items of interest to **Seeds** collectors will be Eva's 1983 compilation *New Fruit From Old Seeds/Bad Part Of*

Town and *Stary Ride* Sky Saxon (Psycho 29) 1984, a mini LP. There's also a 1981 release *Purple Electricity* recorded live at the Cavern Club in 1986. The backing band includes members of Red Kross and The Primates.

Evil Hoodoo (Bam-Caruso KI R 1 082) 1988 is another compilation. It contains all their best known tracks, but also includes the rare *Chocolate River*, previously only on a posthumous compilation, and the Country and Western epic *Fallin' Off The Edge Of My Mind*. *Travel With Your Mind* (GNPD 2218-2) is a CD compilation with many rare cuts/mixes and 1996 also saw the release of *Flower Punk* a 3 CD set.

Their compilation appearances have included *Pushin' Too Hard* on Lenny Kaye's *Nuggets*; *Bad Part Of Town* on *Psychedelic Patchwork, Vol. 1* and *Psychedelic Unknowns, Vol. 5*; *I Can't Seem To Make You Mine* on *Nuggets* (CD) and *Nuggets, Vol. 2*; *Mr Farmer* on *More Nuggets* (CD); *Pushin' Too Hard* on *Highs Of The Sixties, Nuggets, Nuggets, Vol. 1, Tough Rock, Wild Thing, Nuggets* (CD), *Best Of '60s Psychedelic Rock* (CD) and *Battle Of The Bands* (CD)); *A Thousand Shadows* on *Mindrocker, Vol. 1*; *Try To Understand* on *Nuggets, Vol. 6*; *The Wind Blows Your Hair* on *Nuggets, Vol. 9* and *Its Only A Passing Phase*; *Wild Blood* on *Microdelia*; and *A Faded Picture* on *Filling The Gap*.

45s:

1	Who Do You Love?/Turn On Your Love Light	(Reprise 1117)	1972

Brand New Morning is an excellent solo album in which **Seger** plays all the instrumental parts (piano and acoustic guitars). A very intimate atmosphere and an interesting production, totally different from his previous or subsequent work, it hasn't been reissued.

After *Brand New Morning* **Seger** joined Teegarden and Van Winkle and recorded *Smokin O.P.'s* with them and Mike Bruce on the new Palladium label managed by Punch Andrews.

Smokin O.P.'s is an excellent blues and rock album, with covers of Tim Hardin, Bo Diddley and Steve Stills. There's also a new recording of *Heavy Music*, the Bob Seger and The Last Heard song.

In 1974, **Seger** formed the Silver Bullet Band with Drew Abbott (ex Third Power), and went on to sell millions of singles and albums of classic and well structured U.S. rock. These are however totally out of scope of this book.

Born in Dearborn, near Ann Arbor, Michigan on May 6th, 1945, Bob Seger began his career with a school band, the Decibels in 1961. In 1963 he joined the Town Criers and later the Omens lead by Doug Brown, the most popular Ann Arbor group. Backed by the Omens, he released a 45 as The Beach Bums and finally formed **Bob Seger and The Last Heard**.

Their debut 45 was released in May 1966 on the local HideOut label (owned by Punch Andrews) and sold locally more than 50,000 copies. With fuzz, acid organ and heavy percussions, *East Side Story* and *Persecution Smith* are excellent and soon Cameo decided to distribute the first two singles nationally.

Sock It To Me, Santa was a James Brown inspired Xmas song and the 'B' side of the Beach Bums single was reused for the flip. The fifth 45, *Heavy Music*, began to sell really well and was even pressed in France.

Cameo however suddenly went bankrupt, provoking the end of the Last Heard, one of the first and best Detroit rock groups, with Seger's powerful vocals, good songwriting and excellent guitars and rhythm section. Bob Seger then signed with Capitol and formed the Bob Seger System with Honaker and Perrine, who also issued a solo album for HideOut.

After the demise of Bob Seger and The Last Heard, Seger, Honaker and Perrine formed the **Bob Seger System**. Their first 45 was released in January 1968 and was an excellent anti-war song backed with a fantastic tune about the prisons' death rows, with a memorable riff. It was a local success in Michigan but their second single sold nationally and reached No. 17 in the national charts.

Their debut album *Ramblin' Gamblin' Man* is a good example of Detroit Sound psychedelia and is highly recommanded. Its follow-up, *Noah* saw the permanent inclusion of Bob Schultz on keyboards (he had already guested on the first album) and the influential arrival of a singer/songwriter, Tom Neme. More psychedelic (the long *Cats*) and less structured, the album is somewhat disappointing and its sales were poor, prompting Neme and Schultz to leave the group. Tom Neme would come back in 1979 with the Barooga Bandits. Even today Bob Seger still refuses to reissue *Noah*.

Dave Watson then joined the group and the last **Bob Seger System** album marked a return to a powerful rock with excellent guitars and great vocal parts on *Lucifer*, *Teachin' Blues* and *River Deep, Mountain High*. All three albums were produced by Seger and Punch Andrews, the former HideOut label owner, who went on to work with Seger on all the subsequent output.

Bob Seger then disbanded his group and went to spend a year at the Michigan University. He would return to the music scene at the end of 1971.

In 1970 British pop singer James Royal covered *Noah*. In the '90s *Lucifer* was covered by Jeff Tarlton on his *Sinner* EP.

Compilation coverage has included: *Rock & Roll* on *Michigan Rocks Vol. 1*.

From San Francisco, **The Serfs** were a quite popular live act on the Bay Area scene between 1968 and 1969. Produced by Tom Wilson, their album is an interesting blend of psyche-blues with some jazz influences. The best moments are the covers (Miles Davis' *All Blue*, Spencer Davis Group's *I'm A Man* and Dylan's *Like A Rolling Stone*), as their original compositions tend to use too much brass.

Their leader, Mike Finnegan, had previously released a single on Parkway. He would later work with Dave Mason and release several albums, alone or with Wood and Dudek & Kruger.

(1) also issued on CD together with David and Tina Meltzer's *Poet Song* (Akarma AK 053/054). A second album was also recorded but not released until 1998 *Green Morning* ().

A San Francisco band lead by poet David Meltzer. He formed the band with his wife Tina in 1966. Ed Denton (then manager of Country Joe And The Fish) recommended them to Vanguard after hearing their first gig, a benefit for the Telegraph Group Neighbourhood Centre on 27th November 1966. Stenson and Ellis had earlier played with The Grass Roots. The album is notable for some tasty mellow guitar work on tracks such as *Gently Gently* and *Open House*, whilst Tina's beautiful vocals are to the fore on *Flying Away*, a beautiful mellow song. However, the group are probably best remembered for the album's closing track *Endless Tunnel*, an ambitious amalgam of Western and Eastern musical styles. Now a mini collectors' item this album is recommended.

A second album, *Green Morning*, was recorded but shelved until its release in 1998.

After the demise of **Serpent Power**, the Meltzer's made a further album, *Poet Song*, which is also worth obtaining.

Bob Cuff later joined the band from Mystery Trend. Moscoso later played for The Cleveland Wrecking Co. and eventually became a carpenter in Marin County.

NB: (1) Just 200 copies were pressed originally, but it has been reissued (Project Aquarius PA 001) in 1995 as a limited numbered edition of 275.

The tracks comprising this Virginia album date from 1970 thru' 1976. It varies from very soft female-vocal 'folk-psych' to melodic keyboard dominated proggy-rock with flowing guitar. Nothing heavy at all about this quartet. File in the 'hippie-rock' genre because of its gently drifting feel and odes to nature (*The Snail and Robin*), not necessarily as a put-down.

Their album was recorded as a project for an electronic music course at Virginia Commonwealth College. A second album called *Dreams* was recorded but not released. This was a more progressive effort.

The band soldiered on until the early 80's, playing their farewell gig at a college for the deaf!

45:

1(B)	People Grow On You/The Day Before Love	(Gama 45-676)	Apr. 1968

NB: (1) credited to "The 7th Seal".

The quintet, attending college in Bridgewater, Virginia were previously known as The English Muffins. Their album, a limited edition of 400, is taken from tapes for an unreleased Justice LP recorded in Winston-Salem, NC in 1967. Whilst many on the Justice label suffer from a dearth of originals and a similar selection of cover material, several originals are included here, which occupy minor-mood introspective garage-ballad territory. *Well I Know* is a fine example and their reworking of *It's My Pride*, from their English Muffins repertoire, is very Zombiesque in the vocal arrangements. *Proud Reflections* is a moody jangler. The dark horse and arguably the best track is *Make Your Bed*, a low-key folk-punker that ends surprisingly in a crescendo of drums and feedback.

Of the covers, *Till The End Of The Day* and *Mister You're A Better Man Than I* are above-par with searing lead guitar. Soulful aspirations are aired in *Midnight Hour* and the Rascals' *Come On Up*, whereas blues reign in the near five-minute finale *I've Got A Mind To Give Up Livin'*.

Numerous photos and an insert with the band's history complete a welcome release, certainly one of the most interesting and rewarding from the Justice stable.

By April 1968 and the Gama 45, Schroeder was the sole survivor of the LP line-up. Organist Bob Altic had been an early member of the English Muffins; he was replaced soon after the 45 by Richard Price. *People Grow On You* is great psych with whispering vox at the beginning and end (sans music) and nice guitar work. The flip, composed by Steve Hale, is a ballad - OK but nothing exceptional.

It attracted the attention of International Artists who released their next two efforts under slightly different names. The first of these - a psych/pop 45 - is usually considered their finest moment. Check It out on *Highs In The Mid-Sixties, Vol. 23:- Texas, Part Five*. The following is still to be untangled: Previously this was thought to be one band from Corona, NY who released another unconfirmed 45 (*Nowhere Man* / *Malaguena*) and whose members were in the Go-Betweens. More recently however Mike Markesich traced the band to Akron, Ohio but this **Shades** apparently released only the 45s on Encore and Frances.

Until this conflicting info is finally resolved, enjoy *I Need You* (moody fuzz'n'farfisa with jangley shades of the Leaves' *Hey Joe*) and *With My Love* (a mean stompin' punker with echoes of Them's *Gloria*) - both are on Psychedelic Crown Jewels Vol. 3. The latter was previously compiled on *Yeah Yeah Yeah* and *It's A Hard Life*.

Late sixties New York freak-attack one might think from the tracks featured on *Turds On A Bum Ride, Vol. 3* (*Shadow Mann* and *You Gotta Be Me*). However, the 45 shows the other side - insipid orchestrated studio cash-in pop. Both sides were written by Art Wayne and arranged by Paul Harris.

Shadow Mann is actually Shadow Morton, Phil Spector's only real rival, who produced The Shangri-Las amongst others. The album is a more than uneven affair but I'm told it has its moments.

From the Boston suburbs of Woburn and Winchester, they took their name from the U.K. Shadows, of whom lead guitarist Bill Trainor was (and still is) a big fan. The first 45 was never actually issued and the band did not get copies, even though they ended up suing Fleetwood Recording. Some copies were pressed, however and a few are in the hands of collectors. Bill Trainor had to join the service before the second record was recorded, which accounts for the lightweight sound. After he returned from service the band lasted for a few more years, recording several demos of cool late '60s pop rock. The early lineup also made many unreleased recordings of rock instrumental standards.

Both sides of the first 45 can also be heard on the *New England Teen Scene* compilation and *Vol. 2* of the same series includes *I'm Beggin' You.*

There's also a French EP *Oh Yea* (with the typo!) /*It Always Happens That Way*/*Gloria*/*Dark Side* (Atco 113) and a French single, *Gospel Zone*/*Bad Little Woman* (Atco 28). These four French releases have picture sleeves with photographs of the group.

A garage band from Chicago, formed in 1964 by Warren Rodgers, Norm Gotsch and Wayne Pursell, who went to Prospect High School in Mt. Prospect, Illinois. They took their name after the UK act The Shadows, adding the "Knight" reference from their high school mascot and recruited Jim Sohns. Strongly influenced by the Brit-Invasion sounds, they even started a teen-club The Cellar, named in honour of The Cavern Club.

The original line-up was discovered playing a showpiece concert at the Cellar Club in Chicago's Arlington Heights which was being staged to attract talent spotters from record companies. Bill Traut and George Badonsky of Dunwich Records bit the bait and the band was signed up and went on to give this hitherto obscure label its major national success.

Before the release of their debut 45, however, Wayne Pursell was replaced by Joe Kelley (ex-The Vectors) in September 1965, and in December, Norm Gotsch was also replaced by Jerry McGeorge.

Their restrained version of Van Morrison's classic song with Them, *Gloria*, was chosen for their debut 45 because it was the band's showstopper. It made No. 10 in the charts, giving them their only Top 20 hit. Tom Schiffour's machine-gun drumming over the final choruses perhaps gave it a distinctive edge. By contrast the flip, *Dark Side* was a haunting melodic piece, in contrast to the bands other material... it turns out that this track was written by Wayne Pursell, but copyrighted in Warren Roger and Jim Sohns names, after Wayne had left the band. Shortly after the 45s release, Warren Rogers and Jerry McGeorge swapped bass/lead guitar roles.

The Shadows Of Knight's debut album, recorded during March/April 1966, was flushed with cover versions of classics like *I Got My Mojo Working*, *Hoochie Coochie Man* and *Oh Yeah*. The album climbed to No. 46 in the U.S. Album Charts and provided their second single, *Oh Yeah*, a Bo Diddley cover. **The Shadows Of Knight**'s version

climbed to a tremendous climax of blasting fuzz guitars and just made it to the lower reaches of the U.S. Top 40. Their third 45, *Bad Little Woman*, a reinterpretation of a very obscure British R&B single by The Wheels was another guitar extravaganza and coupled with its rather weird-sounding 'B' side *Gospel Zone*, which was dominated by wildly overechoed percussion, some regard this as their finest hour. In commercial terms, however, it was less successful peaking at No. 91.

The band's second album, *Back Door Men* was a mixture of cover versions and originals. It provided more examples of their Bo Diddley-inspired sound and of Joe Kelly's superb guitar work. However, the band were now beset again by personnel problems with Dave Wolinski, (of The Males), who'd played keyboards on some tracks on the second album joining to replace Warren Rogers, who was kicked out of the band after a gig and subsequently drafted into the U.S. Army. This line-up cut a raw version of *I Got My Mojo Working* in December 1966, which was later included on the 1972 compilation *Early Chicago* (Happy Tiger (HT 101 7). It also resurfaced on Voxx's 1990 release *The Dunwich Records Story* along with a radio promo by the band. Two more 45s were recorded, *Willie Jean* and *Someone Like Me*, but neither enjoyed any commercial success. Indeed the last one didn't feature the group at all, as the band had disbanded in July 1967, but was the work of Jim Sohns and a group of session musicians. Of the departing members, Wolfinski and Shiffour formed Bango Flying Circus and Jerry McGeorge joined H.P. Lovecraft. This concluded their first musical phase during which they played punkish and rhythm blues numbers.

Next Jim Sohns (who'd had the band's name copywrighted in his name) put together an entirely new line-up (D) which recorded the album for Super K and lasted through until mid-1970. During this 'bubblegum' phase they enjoyed another minor hit with the Kasenetz-Katz produced *Shake*, which was also very big regionally. When they fell apart Sohns got together line-up (E) which played heavy metal music. Indeed Sohns kept the band together gigging on the local circuit with various personnel for most of the seventies. With the dawning of the 'punk' era of the late seventies came a new interest in mid-sixties garage bands of the first 'punk' era. Passport were keen to sign them in 1977 but only if they reverted back to their sixties image and style, which they refused to do.

Compilation appearances to date have included:- *I'm Gonna Make You Mine* on *Turds On A Bum Ride, Vol's 1 & 2* (CD); *Gloria* on *Highs Of The Sixties*; *Gloria* and *I'm Gonna Make You Mine* on *Nuggets, Vol. 2*; *Oh Yeah* on Lenny Kaye's *Nuggets* and on Rhino's *Nuggets, Vol. 6*; *Potato Chip* (which was originally issued on a 5" cardboard record and given away with Fairmont Potato Chips in 1967 as part of a potato chip promotion campaign) on *Pebbles, Vol. 1* and *Pebbles Box* set; *Shake* on the *Battle Of The Bands* (CD) and *Pop Explosion*; *Someone Like Me* on *Mindrocker, Vol. 2*; *Bad Little Woman* on *Songs We Taught The Fuzztones*; *Oh Yeah* (LP version), *Uncle Wiggley's Airship* (unreleased) and *Potato Chip* on *Oh Yeah! The Best Of Dunwich Records* (CD); *I've Got My Mojo Working* and a radio spot (potato chip ad.) on *The Dunwich Records Story*; *I've Got My Mojo Working, I'm Gonna Make You Mine* and *Bad Little Woman* on *If You're Ready! The Best Of Dunwich Records, Vol. 2* (CD) and *Taurus* on *Turds On A Bum Ride Vol. 4* (CD).

The Sundazed *Raw 'N' Alive At The Cellar Club 1966* is an amazing slab of raw R&B, and shows why this band are so revered, but there are several other retrospectives, and their material is well worth investigating.

Of the original line-up, Joe Kelly departed to form his own blues band, which also included Tom Schiffour; Jerry McGeorge joined H.P. Lovecraft and Dave Wolinski firstly went on to the Bangor Flying Circus and later Rufus. He has also worked with Quincy Jones and Michael Jackson. Wayne Pursell started a band called "The" which later became The Regiment.

A Boston based band whose superb *Search Your Soul*, originally released on the Sol label in the fall of '69, was written and sung by Brian Chase. It's a superb garage disc with lots of fine guitar, fuzz and echo. The 45 was produced by Ray Fournier, who was also responsible for engineering much of the music for the Cambridge-based Polaris label.

The original name of the band was "The Shadows" - but fearing a lawsuit from the better known British act, was soon changed. John "Shorty" Hill:- "The band had been together for about five years when *Search Your Soul* was recorded (we stayed together through high school, and then a bit beyond). We broke up shortly after that. Brian, John Lowell and I then formed Lord Timothy, and as such we played together throughout northern New England for several more years. Brian and John also later played together in Owl".

"After Lord Timothy I played the New England club scene with various rock bands - American Stone, Sugarbear and The Full Moon Travelling Band. In 1976 I formed Shorty Hill and The Longhaulers, which built quite a following playing small combo swing music. I'm still actively playing guitar - now with A Little On The Side (check out http://www.alittleontheside.com)."

Search Your Soul can also now be heard on *An Overdose of Heavy Psych* CD and *New England Teen Scene, Vol. 3*.

1	Love Is A Beautiful Thing/I'll Make You Pay	(USA 883)	1967

2 Dennis Dupree From Danville/You Don't Know (It's A Gass 6831) 1968

The Shady Daze were formed in the Summer of 1966, out of the remnants of the Travel-Aires (Gore and Owen) and the Silhouettes (Drziewicki, Jordan and Rupp). Kurt Gore had earlier played in the Roustabouts in 1965, prior to joining the Travel-Aires with Gregg Owen in 1965-66.

Best known for their original fuzz punker *I'll Make You Pay* (co-written by Drziewicki, Jordan and Rupp), the **'Daze** were more adept at playing the top 40 fare of the day, citing the Young Rascals as particular favorites. In fact, it was a 'Rascals cover that comprised the A-side of the band's first single, *Love Is A Beautiful Thing* b/w the aforementioned *I'll Make You Pay*. Though the 'B' side is now rightly considered a classic of the garage punk era, the A-side did manage to chart in '67 in such locales as Green Bay, Wisconsin and St. Joseph, Michigan. During this time, the **Shady Daze** were regularly booked at the Blue Village in Westmont, IL, a club (owned by the band's manager, Robert Chappelow) that advertised itself as "The Home Of The Shady Daze".

Kurt Gore:- "We (The Shady Daze) were friends with other contemporary Chicago groups including Saturdays Children, The Cryan' Shames, The Mauds and The Shadows of Knight. In fact, for a while The Cryan' Shames also rehearsed at The Blue Village and taught us how to play their hit *It Could Be We're In Love*."

During its three year existence, the **Shady Daze** played alongside the Music Explosion, Buffalo Springfield and The Doors, among others, as well as appeared on the Chicago TV programs "Kiddie A-Go-Go" and "Swinging Majority", where the band appeared live while lip-synching *I'll Make You Pay*. Before disbanding in 1969, the group released their second and final single on the It's A Gass label (also owned by Chappelow), *Dennis Dupree From Danville* b/w *You Don't Know Like I Know*.

Kurt Gore, Bill Jordan, Gregg Owen, Glen Rupp and Greg Biela all went on to play in later line-ups of The American Breed. Kurt Gore also played with Bonnie Kolac in 1970.

Sundazed has released an EP containing both of the band's singles, and *I'll Make You Pay* has been comped on the *Mindrocker Vol. 2* LP and the *Pebbles Vol. 6* CD. *Dennis Dupree* is a cover of a Cryan' Shames ditty.

From Milwaukee, Wisconsin this band were originally known as The Shags. On December 30th 1965 they appeared at the Milwaukee Auditorium amongst a dozen local outfits for the Milwaukee Sentinel Rock'n'Roll Revue. Captured on the lo-fi compilation LP of that name (Century 23214, 1966) is their version of the Stones' *Get Off Of My Cloud*. Their *Stop And Listen*, was an above average punk song with a catchy guitar riff and lyrics that were indicative of the times:-

From Fremont, New Hampshire and completely uncommercial, **The Shaggs** are quite unlike any other group. Their father, Austin Wiggin, rented time in a recording studio so the girls could sing their songs and paid for the pressing of 2,000 copies of their debut album.

The instrumental backing on their album is fractured, the guitars sound out of tune, the harmonies warped and the lyrics innocent and childlike. However, it's precisely the amateurishness of their records that give them their curiosity value. Musically, they are so bad as to be a novelty item, which is probably why it was so sought-after by collectors prior to its reissue in 1982.

A live version of *My Pal Foot Foot* has subsequently resurfaced on *Only In America* CD.

NB. Reissued on Resurrection (CX 1295) in the mid-eighties.

Despite the year this LP could have come from '65-'66. One of those mega-rare releases that serious collectors will kill for, it fits into the 'prep-rock' niche, though this is not yet another Phillips Academy outfit but a five-piece from the campus of Notre Dame University, South Bend, Indiana. The liner notes tell us that it was recorded on March 14th, 1967 at the International Recording Studio in one 20 hour session. "Engineers Perry Johnson and Verner Ruualds amazed. Probably recording history". 'Fraid not chaps but a nice try!! 10 predictable covers and two originals in a soft melodic folk-rock style - no fuzz 'n' farfisa ravers here - though they do get more frantic on *My Generation* and *Let's Spend The Night Together*.

Probably successful businessmen, professionals or brain surgeons now, the quintet may curl up with embarrassment when reminded of this platter but they'll surely scour the attic for lost copies when they hear what collectors will pay for an original! And, with this entry, they've a place in history too. (MW).

6. Breathe In My Ear/Easy Street (Kayden 408) Jun. 1967
7. As Long As I Have You/Tell Me (Cameo 470) Jul. 1967

Formed in late 1963 by Tommy Violante with a few high school friends: Carl Augusto, Rich Ventura, and Jeff Cannata. This initial line-up never played professionally, although the **Shags** quickly began to gig including an appearance at Frankie's Restaurant in Orange at a wedding, with Tommy, Carl, Jeff, and Mike Goodwin on bass.

In '64 they were known as The Deltons and absorbed Beatles influences. By '65 they had reverted to **The Shags** monicker and over the next couple of years had a number of hits locally in New Haven, Connecticut. These included: *Wait And See* (1965), *By My Side*, (1966) and *I Call Your Name* (1966). Though most of their material is pop-beat, but *Breathe In My Ear* is a tougher punker with some ear-splitting guitar and pounding keyboards.

In 1967 Tommy Violante and Carl Augusto formed The Pulse, along with members of The Bram Rigg Set.

Today Violante still performs with the "Key West Trio" (www.keywesttrio.com), a Jimmy Buffett cover band that also does Beach Boys and a few 50s and '60s covers, doing gigs mainly in the Northeast area. The excellent Gear Fab label may be compiling a retrospective of **The Shags** material in the not too distant future... watch this space!!

Compilation coverage to date has included: *Hide Away* on *Mindrocker, Vol. 3*; *Don't Press Your Luck* on *The New England Teen Scene*; *Hey Little Girl* on *Sixties Rebellion Vol. 6* (CD); and *Breathe In My Ear* on *Fuzz Flaykes And Shakes, Vol. 1*.

1. Louis Louis/Summertime News (Concert 1-78-65) 1965

New Ulm in Southern Minnesota was home to the makers of this raw garage 45, the 'A' side being one of several covers of The Kingsmens' legendary song. The flip side was actually a cover of Eddie Cochran's *Summertime Blues* but the Concert label, which was one guy working out of a basement, managed to misspell it as *Summertime News*. The Kingsmen's song was misspelt too! Eventually Bruce Melzer left to join the Navy and was replaced by Jim Hughes. They soldiered on for about a year until John Volinkaty moved up to Minneapolis at which point John Ginkel became drummer in another New Ulm band, The Depressions. Tom Ginkel became a school teacher in 1970 and formed a weekend band called Clover, who went on to record a 45 and an album.

A sextet from Peoria, Illinois. Both 45s came with pic sleeves which are very pricey in good condition 30+ years on. The band's music was in tune with their image - clean-cut harmony beat ballads with a romantic air no rebellious stances here, these guys were definitely on the pull.

This Huntington, Alabama band's rare 45 came out on Woody Richardson's gospel/country label and was probably recorded in Nashville. *Just Cry*, with squeaky-thin fuzz sound and *Psychotic Reaction* style break, can be heard on *Basementsville! U.S.A.*. Both sides are aired on *Cicadelic '60s Vol. 7* CD, which notes that the label left the distribution to the artists and only pressed up small quantities (about 500). The CD features two other garage bands that cropped up on this label - The Rocks and the Shadows.

A band from Brooklyn/Queens, NY. who specialized in subdued beat-pop and garagey ballads. *No Way Out* is a

harmonious midtempo charmer, *Treat Me...* is coy bouncy pop. *Please Stay*, comped on *Shutdown '66*, is a minor-mood garage ballad with a nod to the Zombies' school of wistfulness.

Shades Of Blue is aired on *Teenage Shutdown Vol. 5: Nobody To Love*. The liners note that they were unusual in doing without a lead guitarist and that their accordian-like strains came from a Cordovox (a small keyboard-like organ).

1(A) ANANDA SHANKAR (Reprise RS 6398) 1970

NB: (1) reissued on vinyl and CD (WEA/Reprise 936247 2631 / 2632) 1998.

Although Ananda Shankar came from India, this album was recorded in L.A. and the involvement of several respected L.A. rock/session musicians justifies its inclusion here - apart from the musical content, which should appeal to sitar-lovers and fans of East-West fusions. Notable cohorts include: Drake Levin formerly of Paul Revere and The Raiders, Brotherhood and Friendsound; Mark Tulin of The Electric Prunes; seasoned sessioneers Mike Botts (later in Bread) and Jerry Scheff (numerous Curt Boettcher-related groups including Ballroom, Millennium and Goldenrod). The Associate Producer is James Lowe - possibly THE James (Jim) Lowe who went into studio engineering and production work after leaving the Electric Prunes.

As to the music - all are instrumentals apart from *Raghupati* and the Stones' *Jumpin' Jack Flash*. The only other rock cover is the Doors' *Light My Fire* and these are the most Western and least interesting - the sitar merely meanders along the vocal melody line. **Shankar** states on the LP notes that only *Sagar* (the Ocean), a beautiful soothing piece, is played in classical style - the sitar is otherwise used as "a medium of expression". The tracks composed with Lewinson are the strongest. Oriental curlicues over a subtle Western backing (Latin American in the case of *Mamata*) that flow easily, coming across as neither tacky nor exploitative - a bridge between the classical sitar music of Ravi Shankar and Western 'rock with sitar' LPs, e.g. the Folkswingers and Lord Sitar. Levinson's occasional keyboard and electronic effects create a unique blend which works surprisingly well. Highlights are: the delicate melancholy of *Snow Flower*, which can be tasted on *Journey To A Higher Key Vol. 1*; the aforementioned *Sagar*; and *Metamorphosis*, where a Zodiac Cosmic Sounds style evolves into a swirling raga freakout.

Two other tracks have been compiled. *Renunciation* and *Cyrus* are on *Electric Psychedelic Sitar Headswirlers Vol. 4* and *Vol. 5* respectively. Both add flute to the mix and the latter a cooing female vocal with the melody and feel of a French '60s film soundtrack. Neither are on this album, despite what the comp liner notes state, so where are they from?

1. If I Could See/I Know You Cried (Nowsound 1001) 1968
2. No Deposit No Return/Ride Baby Ride (Smash 2252) 1969

Formed in 1965 by a bunch of high school pals playing for fun. They played a lot in the Houston area and by 1966 their line-up had stabilised to 'A' above, but a little later Dave Franklin joined from local group, The Upper Level. On a gig at the Safari-A-Go-Go in Baytown they met The Runaways' manager Jack Sims, who became their manager too. Early in 1968 they cut their first 45 at the ACA studios in Houston. 500 copies were pressed. Both songs were written by Mike Claxton and, after he'd finished recording them, he and Sims added the explosion at the end of the flip side from a sound effects LP they found in the studio. In particular *I Know You Cried* was a rip roaring psychedelic number.

Like many of their compatriots they had a number of run-ins with southem rednecks. They rented a house in Houston, inherited from Fever Tree for a while, and once played an all night jam with The Doors when they were in Houston for a show. While they were playing a show in early '69 a talent scout for Mercury spotted them and they went to Los Angeles in May that year to record a second 45. It didn't make much impression and it may have been a tax write-off for Smash. When two of the band joined the revived Fever Tree early in 1970 the rest called it a day.

They also recorded a couple of other cuts, which have resurfaced on comps, including *Bless Me Woman*, a slow number with haunting vocals and a different version of *Ride Baby Ride*.

Three of the band's original members apparently still play together and Voxx did have plans to release an album of their material.

Compilation coverage has included: *I Know You Cried* on *(Texas) Flashback, Vol. 1*; *I Know You Cried* and *Bless Me Woman* on *Acid Visions, Vol. 2*; *I Know You Cried, Bless Me Woman, I'll Be Gone* and *Ride Baby Ride* (unissued version) on *Acid Visions - Complete Collection, Vol. 1* (3 CD); *Ganada* on the *'69 Love-In* CD;There are also live versions of *I'll Be Gone* and *Ride Baby Ride* are on *There Goes The Neighborhood*.

A Los Angeles studio group and the house-band for TV's 'Shindig' show, with an interesting background of mixing rock 'n' roll with country music. The roots of the group go back to the Palomino Club, a country music hotspot in North Hollywood that had first opened in 1949, and by 1960 featured Gene Davis a country and rockabilly performer heading the houseband. Throughout the early '60s the Gene Davis band had a steady flow of members

including drummers Mel Taylor (later with The Ventures), Jan Curtis Skugstadt, Archie Francis: guitarists Jimmy Snyder, Jerry Inman, Bobby Durham, Glen Campbell and even James Burton who although not a member used to sit in informally when not touring with Rick Nelson. Other members included piano players Clyde Griffin, Leon Russell and Glen D. Hardin (ex-Crickets), bassists Norm Raleigh, Delaney Bramlett and the mainstay from 1960 to 1969, pedal steel guitarist and later bandleader Red Rhodes.

By late 1964 Jack Good organised his new show 'Shindig', Leon Russell was chosen to lead the group for the show which included James Burton, drummer Jim Gordon and Delaney Bramlett on bass.

Originally known as The Shindiggers, by 1965 **The Shindogs** had quickly evolved into the main line-up of Glen D. Hardin (piano), Delaney Bramlett (guitar, vocals, bass), James Burton (lead guitar), Joey Cooper (guitar, vocals) and Chuck Blackwell an old Oklahoma bandmate of Leon Russell's on drums. Leon Russell led the show's orchestra and would sometimes take a spot with **The Shindogs** to sing and play piano. **The Shindogs** line-up, was also augmented by members of the other Shindig band, the Ray Pohlman Band which included guitarist Jerry Cole (ex-Champs) and Larry Knechtel on bass. While horn players like Jim Horn were called into the studio group when the need arose, others like Glen Campbell and Billy Preston became semi-regulars on the show. Both Bramlett and Russell had solo singles issued in 1965.

When 'Shindig' was cancelled in late 1965, the last show was aired in January 1966 and the group subsequently split. Most members went on to greater things:- Leon Russell to Asylum Choir and a solo career; Cooper and Preston to Mad Dogs, both had solo releases; Delany Bramlett briefly returned to the Palomino Club with Red Rhodes Detours in 1966 into 1967, married Bonnie, and is best remembered as Delaney & Bonnie. The original version of their group, Friends, included J.J. Cale on lead guitar in 1967.

While Chuck Blackwell joined the Taj Mahal Band (1966-1970), both Cooper and Blackwell played with Russell's tour band in the '70s. The highly-regarded guitarist James Burton who'd recorded with Dale Hawkins in the '50s, and throughout the '60s and '70s backed Ricky Nelson, Gram Parsons, and Delaney & Bonnie before a long stint in Elvis Presley's show band.

Whether All the famed **Shindogs** played on the sessions is debatable, indeed the final 45 may have well been a studio group attempt to cash in on the group's fading fame.

The first 45 comprises bright'n' breezy Invasion pop, where the Beatles meet the Searchers. The second Russell-produced 45 is also good harmony-beat. The final 45 as The Pebbles was produced by Brian Ross (of Music Machine, Friendly Torpedoes etc.) drops the Invasion influences and turns to US garage sounds for *Don't Come Running To Me*, a slick fuzz-popper.

Founded by leader Spencer Perskin, a classically trained violinist, in July 1967, they have proved one of Texas's most durable outfits. Earlier, in 1966, Perskin had spent some time in San Francisco where he had briefly played in a band which included folkie Penny Nichols. He returned to Austin to form **Shiva's Headband** much influenced by his experiences in San Francisco. Their debut 45 sold well locally and is now a collectors' item. This different version of *Kaleidoscoptic* to that later included on their first album can also be heard on *Flashback, Vol. 3*. Their follow-up attracted wider attention and that year they relocated to San Francisco and signed for Capitol. They hated San Francisco but remained there to record *Take Me To The Mountains*, a fine LP which included new versions of their first two 45s. The second Armadillo 45 was initially issued in a plain label. Later the re-recorded versions of the two songs were issued using the same record number. Perskin's violin is prominent throughout their first LP, particularly on the beautiful *Song For Peace* and standout track *Kaleidoscoptic*. During their spell in California they played a few gigs at the Avalon. They were also the resident band at the New Orleans Club in Berkeley for a while. It was during this time that Spencer Perskin played on Mother Earth's debut album *Living With The Animals* and also turned down the opportunity of joining the band. Shawn Siegal had similarly refused a spot in The Thingies prior to joining *Shiva's Headband* in 1968.

Having made little money from their Capitol deal, the band returned to Texas. As only 1,000 copies of their second LP, *Comin' To A Head* were pressed on the small Armadillo label it has become a rare collectors' item. Different versions of two of the album's tracks, *Country Boy/Such A Joy* were issued as a 45 in a picture sleeve. They spent a while in Las Vegas in a vain attempt to set up a string of music clubs before returning to Texas to issue a 45 *Don't Blame Me/Extension*, which appeared in a picture sleeve in 1976 and the rather patchy *Psychedelic Yesterday* the following year. The band maintained a good live reputation throughout its career and was still gigging in 1985 when *In The Primo Of Life* was released. Their first LP, *Take Me To The Mountains*, is recommended listening.

Their excellent *Song For Peace* can also be heard on the vinyl version of *The Psychedelic Experience, Vol. 1*.

From Sandston, Virginia, this band evolved out of the Hustlers, whose members included, at various stages, ex-Reactors Steve Hicks and ex-Outlaws Butch Owens alongside core members Velpo Robertson, Gray McCalley and Ben Luck. The latter left to join the Barracudas, of *A Plane View* LP fame.

Their rare album can best be described as heavy psychedelic blues, at its purest on *Suicide Blues*. There's plenty of good guitar work throughout, *Wastin' Time*, *Just Don't Care*, *Till We Reach The Sun* and *Hobo Love Song* all have their share, whilst *Ellen* is a slow bluesy ballad. The album lacks sufficient originality to make it special but if this musical genre is where you're at you shouldn't be disappointed.

2	Just Can't Quit / She Don't Need No Other	(King 6331)	Oct 1970

NB: (2) as Miami.

From Sanford, Florida, *Black Lightening Light* is a pretty devastating piece of mindblowin' psychedelia. The flip is a haunting laid back ballad. Both sides of the 45 can be heard on Eva's *Florida Punk Groups From The Sixties* and it's recommended listening. The *Acid Dreams Testament* (CD) and *Sixties Archive Vol. 4* (CD) also includes their version of *Black Lightening Light*.

Wayne Ceynowa recalls: "*Black Lightening Light*, was for the most part, a group collaboration. It came together one stormy Florida evening while the band was rehearsing in the back of a Sanford music store, Music Unlimited (MU). The song was actually titled *Black Lightning Light*, but those in charge of the MU label design changed the song

title's spelling. This was not discovered until after the pressing. The "B" side, *Goodbye To You*, was written by me. Unfortunately, I didn't get credit due to another similar label layout error".

"Both songs were recorded along with two further tracks in Nashville, Tennessee in one evening during the summer of 1968. They were used as demos to present to record labels in hope of securing a contract and the band members were between the ages of 15-17 at the time. The MU label was our own and the 45 was the labels one and only release. The record number being made up."

"The band members did continue through our remaining high school years. We changed keyboardist a couple of times, finally settling on Teofilo Bautista."

"In late July, or early August 1970, we landed a contract with King Records (James Brown's label) and recorded thirteen songs for an album. The company insisted on changing our name to Miami (because we were from Florida) and a single was released (*Just Can't Quit*/*She Don't Need No Other*). The 45 was mentioned in Billboard magazine. I was even told we charted the top 100. Unfortunately, the album was never released and the band eventually disbanded in early 1971."

"In late 1971, myself, together with our drummer and bass player, reformed and have continued playing music (clubs, parties, etc.) to this day. We just can't seem to get it out of our systems!"

This was an entirely different outfit who came from the Detroit suburb of Oak Park, Michigan. They played together for about three years, between '65 to '67 and opened for The Dave Clark Five and Sam The Sham & The Pharaohs in Detroit 1966. *We Gotta Go* was a enough of a local hit, to encourage DJ Scott Regan to get them to re-record the track with different lyrics as *Burger Song*, as a kind of promotion for his show.

Without You is a strong competent garage-style offering, the flip is a Byrds' song.

Originally known as The Bostonians (or possibly New Bostonians), the band changed names to **The Shyres** because of the local, but more famous Improper Bostonians. Billie Cox remembers: "Joseph Healy started the band with, his cousin Bobby. I joined the band as a bassist and songwriter/arranger and wrote *Where Is Love*. The flip side, *My Girl* was an original by Joe Healy. The band didn't last too long after this, we did some Catholic Youth Organisation gigs and then went our separate ways. I haven't seen these folks since then but I think only I stayed in the biz, mostly doing theater work as a composer, sound designer and director".

The band was mostly located in a suburb of Boston, Massachusetts called Allston, a small area, it's sometimes thought of as a part of Brighton. The recording was made in Framingham, another town near Boston, where the Cori label was based. Incidentally, Cori also issued some collectable 45s by the likes of The Balladeers, Royals, Mauve, Sole Survivors and C.C. and The Chasers.

Where Is Love was later covered by Rhode Island '80s psych band Plan Nine.

Compilation coverage has included: *Where Is Love?* on *New England Teen Scene, Vol. 2*; and *New England Teen Scene* CD.

Apparently from the Milwaukee area though they recorded in Chicago. Inclusion here may be marginal since the material is harmony pop a-la Association but with odd forays into psychedelia, as in the case of *Strawberry Tuesday*, featured on the *Brain Shadows* CD compilation. Not unlike U.K. pop-psych. The flip is airy baroque flower-pop. Brian Balestrieri would still be around as a solo artist in the late seventies.

Samuel Charters produced most of their Vanguard albums which are considered to be their best output. Recorded in New York, their second album, *Say Siegel Schwall* is quite consistent, with its long *I.S.P.I. 45s:

1. Oscillations/Whirly Bird (Kapp 923) 1968
2. Confusion/You And I (Kapp 956) Dec. 1968

This New York duo began as a 5-piece band called The Overland Stage Electric Band which gradually dwindled to two as a result of the other members' dislike of Simeon's increasing preoccupation with electronic sounds. The pair immediately changed their name to **Silver Apples** after a W.B.Yeats poem they liked. Simeon kept adding to his collection of electronic paraphernalia - dubbed the "simeon" - until it included over a dozen oscillators, six of them being tuned to bass-notes which were played by his feet (as only six notes were available, this accounts for the monotony of the basslines).

Their first gig was in front of 30,000 people at an all-day concert in Central Park along with the Mothers of Invention, The Fugs, Steve Miller Band and others. The resultant glowing press-notices ("...absolutely mind shattering music...") helped land them a recording contract with Kapp Records.

They were one of the very first groups along with The United States Of America and Fifty Foot Hose to experiment with electronic music. The result was two interesting, but totally uncommercial albums. The music sounds partly drug-induced and is often discordant. In many ways it is possibly more acceptable now, in the wake of artists like Ultravox and Orchestral Manoeuvres In The Dark, than it was in 1968. Whilst their music was undoubtedly innovative, their lyrics were sometimes irritatingly repetitive. Both albums are worth hearing, however, with the second probably the stronger of the two. The intro to the second's opening track You and I successfully recreates the sound of an airplane taking off.

An obviously influential band, they were the subject of a tribute album by contemporary experimental psych acts, *A Tribute To* in 1997. Simeon, has also "reformed" the band, recording a 45, two albums Beacon and Decatur as well as performing a few gigs. At one gig on Sept 14th 1997 in London, a various artists CD sampler was given away to the audience, which includes a **Silver Apples** track.

More recently *The Garden* - a CD of sessions dating from 1968/69 has surfaced.

1. Come On Plane/Look Out World (UNI 55271) 1971

This band's *Look Out World*, typified the wave of protest sounds in 1965-66 in America. The vocalist growls about the threats to his freedom - his girl that's left him and an unsympathetic world. Musically, the recording predates the influence of psychedelics, comprising raucous vocals superimposed upon a 'my baby left me' guitar moan. It was much later covered by The Margin Of Insanity on their EP.

What's so strange about this 45 however is that it was issued in 1971 and this outfit has somehow been linked to 10cc (?!!).

The album is basically heavy rock with splatterings of psychedelia. It included three Elton John/Bernie Taupin compositions: *Country Comfort*, *Now They've Found Me* and *Sixty Years On*.

Leigh Stephens also had a solo career and in 1972 would form Pilot with Waller. Pete Sears would later play with Rod Stewart but also with Stoneground and Jefferson Starship. He also played with John Cipollina and Hot Tuna.

2	JOHN SIMON'S ALBUM	(Warner WS 1849)	1971

John Simon is mostly remembered for his production work with the first albums by The Band, Blood, Sweat and Tears and Leonard Cohen. However, he also released two albums under his own name. The first is an interesting soundtrack for *Last Summer*, with the six minute *The Subtle Evanescence Of Now* played on sitar by Colin Walcott and two tracks performed by two former Modern Folk Quintet members: *Safari Mary* by Henry Diltz and the excellent uptempo *Drivin' Daisy* by Cyrus Faryar. Other cuts include songs by Aunt Mary's Transcendental Slip And Lurch Band, Bad Kharma Dan and The Bicycle Brothers and The Electric Meatball but here, the names are far better than the music played by their faceless studio mucisians.

In 1971, **John Simon** issued his first and last, solo album, which is better avoided. The musicians are excellent (Danko, Manuel and Hudson of The Band, John Hall of Kangaroo, Leon Russell, Faryar, Harvey Brooks) but the material is incredibly weak and directionless.

ALBUM:

1. Unreleased acetate title unknown on Gold Star.

45s:

1. You Don't Love Me/I Like The Look Of You (Mercury 72388) 1965
2. A Change/Goin' Out Of My Mind (Mercury 72453) 1965

A Californian beat-pop outfit who produced a couple of decent punkers in *You Don't Love Me* and *Goin' Out Of My Mind*. The latter is notable for catchy riffs and a guitar sounding like a dying seagull(?!), whilst the former is a DC5-type stomper with fuzz. Both Nick Venet and Mike Curb had a hand in the two 45s - it's a shame the LP never got past the acetate stage. (MW)-

Formed in 1965 in Southern California around Pasadena, they gigged around LA and Las Vegas. The LP was recorded live at P.J.'s in Hollywood, famous as the venue for the Standells' debut LP. Unsurprisingly there are further comparisons - this is definitely not psych but 'big-beat' club sounds. With covers of *Midnight Hour*, *Big Boss Man*, *Good Loving* and *Stand By Me*, you get the gist? The originals, penned by Bill Eidson, fall mainly into the beat-ballad category with the notable exception of *You Said To Me* - a catchy uptempo beat - folk-rocker. Dealers who describe this as garage or psych should be fed into the nearest CD player!

The band were still going a decade or more later. Their cover of the Stones' *Jumpin' Jack Flash*, featured on *Kicks & Chicks Vol. 1*, is from their 1978 album *Live At P.J.'s Vol. 3* (West One 028).

There's also a rare French EP: *She's About A Mover*/*We'll Take Our Last Walk Tonight*/*The Tracker*/*Blue Norther* with a picture sleeve (London REU 10171).

Doug Sahm was born on 6 November 1941 in San Antonio, Texas. After some solo recordings in his youth, he formed The Sir Douglas Quintet in 1964 when he met producer Huey P. Meaux. Their first 45, *Sugar Bee*, flopped but the follow-up, *She's About A Mover*, which was an attempt to imitate the British beat groups of the era and featured an insistent organ riff from Doug Meyer, reached No. 13 in the U.S. Charts in the Summer of 1965. It later peaked at No. 15 in the UK. It remained their most successful song and had a raw harshness that was typically Texan. You'll also find *She's About A Mover* on the *Wild Thing* and *21 KILT Goldens, Vol. 2* compilations.

The Rains Came gave the band a minor U.S. hit in the Spring of 1966 but the novelty of the band soon wore off and their debut album, *The Best Of The Sir Douglas Quintet* (which was not in fact a 'best of') attracted little interest when it was released. By 1966 Sahm had gotten' into the drug scene and after getting busted in Texas he broke up the band (line-up 'A') and moved to San Francisco. The *Honky Blues* album was recorded by line-up B with the help of session musicians as *The Sir Douglas Quintet + 2*, although the following year he reformed the original Quintet with a modified line-up (C) and got the band a new recording deal with Mercury's Smash label. In the Spring of 1969 they enjoyed a Top 30 hit with *Mendocino* and an album of the same name was issued too. (Mendocino is a picturesque Northern California coastal town). Raw and unsophisticated it included some strong songs in addition to the title track, most notably *At The Crossroads*, which was later covered by Mott The Hoople. The album helped establish the band as an important part of the San Francisco Sound and they also had a good reputation as a 'live' band. *Dynamite Woman*, which peaked at No. 82 in the Autumn of 1969, was their final U.S. hit and, with their fourth and fifth albums largely unnoticed Sahm broke up the band in late 1972. By then he'd formed his own band which included several **Sir Douglas Quintet** personnel. **The Sir Douglas Quintet** also played and recorded without Sahm using the name El Quintet between January 1971 and August 1972. They recorded two albums for United Artists (*Future Tense* and *El Ouintet 2*), although the second was never formally released.

Among the members of the **Quintet**, Augie Meyers created the Texas Re-cord label for his own solo records during the seventies, Jim Stallings was also known as J.J. Light and Wayne Talbert was also recording under his name. Harvey Kagan joined Dewey Martin's Medecine Ball.

In 1970, Doug Sahm produced the album of Louie and The Lovers. It's also worth mentioning that, during the

seventies, Doug Sahm tried constantly to help Roky Erickson, by producing his demos, recording his songs (*You're Gonna Miss Me* is on *Border Wave* and playing live with him (some taped surfaced on *The Reunion Of The Cosmic Brothers* with Freddie Fender (Crazy Cajun, CC-LP-1013) 1980.

At the start of the 1980s Sahm reformed the **Sir Douglas Quintet** with John Perez and Augie Meyer from the original line-up and two newcomers Alvin Crow and Speedy Sparks (line-up D). They released an album called *Border Wave* on Tacoma in 1981 and at least five other albums of **Sir Douglas Quintet** material were released on Tacoma during the 1980s.

Doug Sahm died of a heart attack in Austin in November 1999.

From Seattle, Washington, **Sir Raleigh** was also known as Sir Walter Raleigh and Dewey Martin, but his real monicker was Walter Dwayne Midkiff, and he later became the drummer for Buffalo Springfield. Together with line-up 'A' of the Coupons he recorded a string of singles and his finest moment is usually considered to be his version of the Steve Venet/Tommy Boyce composition *Tomorrow's Gonna Be Another Day*. This sort of-grungy pre-punk typified the Northwest in this era and this particular recording predated The Monkees' version by over a year. You'll also find it on *Highs In The Mid-Sixties, Vol. 14*. The flip *Whitcomb Street* was an instrumental - perhaps it was a tribute to influential Northwest pop/rock figure lan Whitcomb.

Sir Raleigh sacked his original backing band, after the recording of their final 45, but prior to it's release. "Sneaky" Pete Kleinow went on to the Flying Burrito Bros. and Lyall Smith had previous been in The Stingrays (from Olympia, Washington).

White Cliffs Of Dover can also be found on *History Of Northwest Rock Vol. 1*.

1	Come Back Again/We're Gonna Love	(Soma 1454)	1965
2	Not The Spirit Of India/One Last Chance	(Nauseating Butterfly 2207)	1966

This Indianapolis band developed a large local following - indeed they once opened for The Byrds at the Indianapolis Coliseum in July 1966. Their stage shows were wild! *We're Gonna Love* a real grungy garage number with lots of fuzz. *One Last Chance* is a slow melodic folk-rock ballad, whilst *Not The Spirit Of India*, is an Eastern-style piece of psychedelia.

The band had evolved out of an outfit called The Pickups back in 1963 and Ron Matelic and John Medvescek later went on to Anonymous.

Compilation coverage has included: *We're Gonna Love* on *Back From The Grave, Vol. 3*; *One Last Chance* on *Hoosier Hotshots*; *Not The Spirit Of India* on *Sixties Rebellion Vol. 15* (CD); *We're Gonna Love* on *The Soma Records Story Vol. 1*; and *Come Back Again* on *The Soma Records Story Vol. 2*. The Sundazed EP couples their two 45s with notes from Jud Cost and quotes from Ron Matelic.

45s:

1. Inspiration In My Head/In Retrospect (Scepter 12289) 1970
2. Fields/Freedom (Scepter 12324) 1971

Jerry Dobb and Scott Julian formed the Marc 5 in 1966 in Colonia, New Jersey. Later known as the Sonix, they decided to change musical direction in 1968 and new personnel were secured to form **Six Feet Under**. The first drummer didn't last long, his seat being taken by Hector Torres. By 1970, seeking a recording contract, another shake-up resulted in the exit of Torres and the acquisition of a young female vocalist to strengthen that department.

The CD retrospective comprises nineteen tracks - eight studio, five home recordings plus live and radio spots. It showcases the width of the bands hippie-acid-psych repertoire, sounding like Ill Wind one minute and Iron Butterfly the next. An excellent and welcome release with a fascinating history and track-by-track breakdown from Jerry Dobbs. And as Jerry points out, ironically it was only ousted drummer Torres who found real success and fame. After returning home to Sayerville, he'd bounce back after teaming up with a promising youngster called Jon Bon Jovi...

Six Feet Under Theme, an unreleased '68 effort, resurfaced on *30 Seconds Before The Calico Wall* (CD) and their unreleased cover of Iron Butterfly's *In-A-Gadda-Da-Vida* on *Beyond The Calico Wall* CD. Their first 45 occupies similar territory - heavy acid-rock with hippie undertones.

NB: (1) some copies came with *I'll Be Good* crossed out and replaced with *Good To You* - the same track as on (2).

Also known as the Six Pents, the nucleus of this Texas group: Rock Romano, Mike Cemo, Paul Guillet and John Bonno had previously played together in a high school R'n'R band. Most of their 45s were recorded at Andrus studios in Houston and in particular, *She Lied*, has some fine vocals, and a Beatles/Invasion influence.

The band later signed a contract Bobby Shad of Mainstream Records, and became The Sixpentz. When they then discovered the similarly named Sixpence they opted for the more distinctive The Fun And Games Commission.

Compilation appearances have inclued: *She Lied* on *Flashback, Vol. 2, The Houston Nowsounds Groove-In* and *Acid Visions: The Complete Collection Vol. 1* (3-CD).

Sam Irwin later formed Phoenix and now plays in Duck Soup out of Austin Texas. Rock Romano went on to form Doctor Rockit and the Sisters of Mercy. He and the Sisters split and he continued to front Doctor Rockit. He also played guitar and bass with The Sheetrockers and even played bass with Duck Soup for a while. He now has a recording studio in Houston. Carson Graham played drums for several other groups and Paul Guillet retired from the professional music scene.

7(D/C)	Incense And Pepermints/The Birdman Of Alkatrash	(All-American 373-AA/373-A)	1967

NB: (1) as by The Sixpence, 'B' side title is a mis-spelling of HEY Joe. (6) is a second press of (5) with *Fortune Teller* replacing *(Gotta Get The) First Plane Home*. (7)'A' side of 7 also has a 'p' missing from 'Peppermints'.

From Glendale, California this band is best known for being the early incarnation of the Strawberry Alarm Clock, arguably one of the most famous, colourful, and doubtless the most commercially successful U.S. flower-power psychedelic-pop band.

Some band members were earlier in a sixties surf outfit called the Irridescents who released a 45 back in 1963. The adaptable and durable Ed King would find success again in the '70s with Lynyrd Skynyrd. *Incense...* vocalist Gary Munford was a member of label-mates Indescribably Delicious, leading to speculations ever since as to their identity, which have finally been clarified with another Akarma reissue - see the Indescribably Delicious entry.

Thee Sixpence's line-up was pretty fluid - Ed King joined after the first 45. Following *Heart Full Of Rain* the group recorded *Incense And Peppermints*, but before it was released, their name was changed by management to the Strawberry Alarm Clock. The group played Santa Barbara quite a bit, leading to speculation that they were based their, but all but Lee Freeman came from Glendale.

Step By Step gathers together all their All-American 45s above and adds one bonus track, *The World's On Fire*, an awesome rambling garage-psych workout from Strawberry Alarm Clock's debut album. Indeed this album is essential listening for garage, psych and Strawberry Alarm Clock fans and is unreservedly recommended. It bristles with raw fuzzy garage and psych gems which, with the obvious exception of *Incense And Peppermints*, barely hint at the subsequent transformation into Strawberry Alarm Clock and their wider-appealing kaftan-and-beads psychedelic pop. Covers include faithfully raucous versions of Love's *Can't Explain* and *My Flash On You* and the oft-visited *Hey Joe* and *Fortune Teller*. *Heart Full Of Rain* was later covered by label-mates Big Brother.

Many of their tracks had previously been compiled: - *In The Building*, with its hypnotic drum fill, on *Psychedelic Disaster Whirl* and *Filling The Gap*; *Heart Full Of Rain* also on *Filling The Gap*; *My Flash On You* on *Sixties Rebellion Vol.8* (CD), *Psychedelic Unknowns Vol. 1*, *Boulders Punk EP Vol.2* and *I Was A Teenage Caveman*; *Fortune Teller* on *Psychedelic Unknowns Vol. 4*; *Long Days Care* on *Diggin' For Gold Vol.7*; Finally *Fortune Teller* can also be found on *Psychedelic Unknowns, Vol. 4*.

Imitation Situation was written by local scenemakers Scott and Vivian Holtzmann with Rob Landes of Fever Tree. Fever Tree put out their own version on their 1968 debut LP but you can can also hear **The Sixpentz**' version on *Mindrocker, Vol. 13*. The 2nd 45 is pretty sugary pop.

Led by S.J. Serio, who had earlier recorded two songs *Funny Woman/London Girl*, which remained unreleased until their inclusion on *Texas Punk, 1966: Vol. 10*, they formed in early 1966 in Beaumont. All of the band were students at Kelley High School. Only Sam Giglio, who joined a little later in June 1966, had a musical training. Late in the Summer of 1966 the band entered the studio to record *The Darkest Hour-Part 1* and *Night Time* (later to be released as the group's fifth single). *The Darkest Hour-Part 2* was an instrumental version recorded at the same time to fill up some remaining tape and studio time. *The Darkest Hour (Part 1)I/(Part2)* was released and made the local Beaumont chans in September 1966. The band also played live at many school and civic dances, their material was largely British. Most of their gigs were confined to Southeast Texas and centred on Port Arthur and Orange as well as Beaumont. An instrumental DJ Al Caldwell, who worked for KAYC, a local top 40 radio station in Beaumont, helped arrange their second 45. It climbed to No. 4 in the local charts. Their next effort, a frantic raver, *Breakdown/The Cryin' Man* did not meet with the same success and a little later their competent version of *Night Time*, recorded in their first studio session, was issued backed by *The Darkest Hour (Part 2)*. In late 1967 Messina left the band to be replaced by Gary Mouton and early in 1968 when Mike Daieo quit W.C. Langton, a second drummer, joined. They disintegrated after one final competent upbeat 45.

All five 45 tracks, with the exception of *The Cryin' Man* are featured on *Texas Punk, 1966: Vol. 10*. In addition *Ooh-Poo-Pah-Doo* and *Get Out Of My Life Woman* can be heard in *Flashback, Vol's 6* and *2* respectively. *Highs In The Mid-Sixties, Vol. 17: Texas, Part Four* features *Ooh-Poo-Pah-Doo* and *The Darkest Hour*.

5. Bit O'Honey/East Side Tenement House (PS) (Scratch 7823) 1967

NB: (1) as by Jerry Waugh and The Skeptics.

Bartlesville, in Northeast Oklahoma, was home to this band who played a raw guitar-driven pop/punk hybrid with considerable commercial potential. Primarily based around a group of brothers named Shevill (?) they were signed to Kampus by Rodney Lay, the leader and founder of Rodney and The Blazers.

Fortunately some of their finer moments have been captured on posthumous compilations:- *Apple Candy* on *Monsters Of The Midwest, Vol. 2*; *Ride Child* on *Psychedellc Unknowns, Vol. 4*; *Turn It On* on *Highs In The Mid-Sixties, Vol. 8: The South*; *Bit O'Honey* on *Monsters Of The Midwest, Vol. 4.*

Another, presumably different, **Skeptics** have a track called *Wondering* on *Yeah Yeah Yeah*.

NB: (1) reissued on CD by Collectables (COL-CD-0602) 1995.

From Colonial Heights, just outside of Richmond, Virginia. This bands album is a rare and sought-after collectable. The album is garagey frat-rock of the soulful sort - covers include *Harlem Shuffle*, *99.5*, *Double Shot*, *Turn On Your Lovelight*, *Respectable*, *Gimme Some Lovin'* and *I'm So Lonesome I Could Cry* - you get the picture? *I'm Calling You Baby* is the most uptempo offering here - a jerky and infectious ditty but overall not recommended for garage fans. *I'm Calling You Baby* was also included on the *Good Roots* aka *All Cops In Delerium*.

NB: (1) as by the Unbelievables.

Originally a Milwaukee rock'n'roll combo called The Bonnevilles, they got the British Invasion bug and adopted the name, and hairstyle of, **Skunks**. Their debut 45 was recorded during a brief period in California but was released as by the Unbelievables, possibly because they caught the whiff of other Skunks around at the same time (one such had a 45 in 1965 - *Youthquake* / *A Girl Like You*, on Mercury).

The album is a patchwork of disparate styles - from pop covers and crooners to folk-rockers (the Byrds-like I Need No One). They do venture into garage and psych territory so the highlights, from our viewpoint, are a cover of Jefferson Airplane's *Somebody To Love* (with psychedelic guitar work), *When I Need Her* (good punk-psych) and *The Journey* (chiming folk-rock tinged with psychedelia which appears on *Echoes In Time Vol. 1*).

Other tracks have been compiled - *Listen To The News Today* can be heard on *Boulders Vol. 9*; *Don't Ask Why* is on

The Quill Records Story CD and *Acid Dreams Vol. 3*; *Small Town Girl* appeared on a 1968 compilation EP *W-RIT* (W-Rit Radio 1340) alongside fellow Wisconsin acts Tony's Tygers and The Robbs.

Larry Ostricki went on to form the Larry Lynne Band.

This outfit sound uncannily like The Beatles. The album must be one of the most blatant (and best) Beatle imitations around from the *Let It Be* period. It's full of variety and every track's a fine example of their versatility. It was recorded at Sigma Sound Studios in Philadelphia, Pennsylvania, although the label seems to have been based in Los Angeles. Richard Billay wrote all the songs and they are well worth hearing. The 45 tracks are from the LP.

The album was produced by John Madara and Tom Sellers.

Originally from Los Angeles but based in New York initially, **Sloan** was undoubtedly a talented songwriter. He was just 15 when he recorded his first 45 as Flip Sloan. The following year he issued another as Phil Sloan and he also belonged to an outfit called The Storytellers whose 45 *When Two People* for Ramark was later picked up by Dimension.

In 1963 he moved to LA, teamed up with Steve Barri (real name Steve Lipkin) and began a successful songwriting partnership. The first group they wrote for was Round Robin and their second effort *Kick That Little Foot Sally Ann* made No. 61 in the U.S. Charts. Among the better known people they wrote for were Jan and Dean, Bruce (Johnston) and Terry (Melcher) and **Sloan** later wrote the classic protest song *Eve Of Destruction* for Barry McGuire. They also released their own recordings under pseudonyms like Philip and Steven, The Trash Cleaners, Willie and The Wheels and The Imaginations. Then, when Lou Adler formed Dunhill Records in 1965, they wrote much of the early folk rock material for the label. Sloan also embarked on a solo career which was less successful in commercial terms than one might have expected. Only *Sins Of A Family* sold well climbing to No. 87 in the U.S. and No. 37 in UK, but his first two solo albums, which were full of protest songs with commercial hook lines and simple acoustic backing, were well received. He also sang lead vocals on the first three Grassroots' singles which he wrote with Steve Barri. His final 45 in 1968 was full of echoes and sitars - rather interesting but after this he returned to New York. He was never as influential thereafter and his later albums were disappointing but he was a very significant member of the sixties folk-rock boom both as a performer and songwriter. His finest moment commercially *Sins Of A Family* is captured on *Nuggets, Vol. 10*.

NB: (1) as Sly.

Born in Dallas in 1944, Sylvester "Sly" Stewart began singing gospel in his local church. In the '50s, the Stewart family moved to San Francisco and Sylvester and his younger brother Fred learned solfege and trumpet in a local college. They formed their first groups and Sly was also a DJ. Another DJ, Tom Donahue recruited him to work for his new label and he soon became an engineer and producer for Autumn, working with the Mojo Men, Bobby Freeman, the Beau Brummels and the Great Society.

In 1966 Stewart changed his name to Sly Stone and formed the Stoners with his brother and a trumpetist, Cynthia Robinson. The Stoners soon became **Sly And The Family Stone**, with the adjunction of Greg Errico on drums, Jerry Martini on sax, Larry Graham, another expatriated Texan on bass and finally Rosemary "Rosie" Stewart, his young sister on keyboards.

Sly and The Family Stone started gigging around San Francisco and their mix of soul and psychedelic rock immediately won them a local following. After a debut 45 for a local label, they signed to Epic and their first album was released in October 1967. Its sales were not very high but *Dance To The Music* was issued as a single and soon charted. After this first commercial success, the Family Stone kept on recording well-received albums, still mixing dancing rock and soul tracks with psychedelic sounds (especially on the guitars and distorted keyboards) and intelligent lyrics. Sly wrote about civil rights, groupies, counter-culture movements and the riots, always with punch and good humor. His unusual band (a sexually and racially integrated group of multi instrumentalists) provided perfect backing with inventive rhythms.

Sly And The Family Stone appeared at Woodstock (*Dance To The Music* and *I Want To Take You Higher* were included on the records and movie) and were an important part of the San Francisco Sound, often playing live and one of the very few groups to attract black fans. Most of the other record labels tried to launch their own psych soul groups (ABC had Bagatelle, United Artists - War and Kent - Pacific Gas and Electric for instance) but few were able to reach the commercial and artistic success of the Family Stone.

In 1970, Rose Stone recorded a good 45 on Atlantic as Little Sister, *You're the One, pt 1/2* 1971, which was

produced by Sly Stone. Unfortunately, drug problems hit the group in 1971 and Sly began cancelling shows, sometimes at the very last minute, or even forgetting to be on stage. Greg Errico and Larry Graham left in 1972, to be replaced by Andy Newmark and Rusty Allen and their subsequent records are not as good.

In 1974, Sly Stone went bankrupt and began doing sessions to get some money (he can be found on records by Elvin Bishop, New Riders Of The Purple Sage and even REO Speedwagon). He also tried unsucessfully to get rid of his drug addiction. He tried to make a comeback in 1979 with *Back On The Right Track* (Warner) and in 1984 came *Clean*. After the Family Stone, Larry Graham went solo and formed Larry Graham Central Station with Freddie Stone. He tried to carry on in the same direction but his records are not as inventive and dropped most of the psychedelic aspects.

Greg Errico joined Santana in 1971, did sessions and worked with Bill Kreutzmann and Mickey Hart from the Grateful Dead on several of their drum recordings. Jerry Martini and Andy Newmark both became session men.

TOP

ALBUM:

1. (-) THE SMACK (Audio House no #) 1968

NB: (1) had a limited reissue of 300 in 1994 (TE 91004). Also reissued on CD.

It seems the four-piece (whose identity still remains anonymous) was born at the yearly six-week "Midwestern Band and Art" camp in Lawrence, Kansas. In July 1967, hundreds of teenagers attended this event. Many of them were into folk-rock as well as classical music. In July 1968, many of the same teenagers who'd attended the 1967 camp attended the 1968 camp too. **Smack** was formed at the 1968 camp and since there was only less than five of the six weeks to go after their formation they practised cover versions, mostly of Cream and Jimi Hendrix songs. They played dances and gigs at the camp and their fellow students got together a sign-up list for those who wanted a **Smack** album for posterity. So a few days after the camp they went into a local studio and recorded nine cuts - four Hendrix covers: *Purple Haze, Fire, Manic Depression* and *Foxey Lady* (their spelling!); three Cream covers: *Sunshine Of Your Love, I'm So Glad* and *Swalbr*; a re-hash of The Kinks' *Set Me Free* and Buffalo Springfield's *For What It's Worth*. The vocals (which sound flat) were then dubbed over the music. The studio struck a deal with RCA to have 100-150 albums pressed. They were sent to the students who signed the purchase sheet - hence the rarity.. Worth a spin? Definitely, a few wrong notes were hit, the vocals are flat in places and some of the songs a bit slow, but some of the Hendrix covers, particularly the finale (and their tour de force) *Foxey Lady*, are great. Given the rarity of the original releases, the 1994 limited reissue is particularly welcome and will have taken copies into a few more homes.

Most of the songs on their first album were cover versions and they are also well remembered for their version of *The Weight* in the Soundtrack to *Easy Rider*. Almost all of the material on *Minus - Plus* was written by well known sessionman Alan Parker and their keyboardist Larry Moss. *Baby It's You* got to No 5 in the U.S. Charts and *Take A Look Around* and *What Am I Gonna Do* were both minor hits peaking at No's 43 and 73 respectively. 1. THE VISIT (dbl) (Kent KST-551) Sept. 1970

NB: (1) "reissued" on CD (Virgo CD1518) 1996. Also legitimately reissued on RD Records, digitially remastered from the original 1/2" tapes, as a triple vinyl LP set *Stop For A Visit Down Electric Avenue*. The Box Set also contins selections from his *Stop* (1971) and *Electric Avenue* (1972) albums. Along with the three LP's, the box set includes a re-issue of "The Visit" poster, a band history along with several private personal photos. Gear Fab will also be releasing the *Visit* album on CD, officially, with bonus material later in 1999.

Another minor collectable recorded in California, that may interest readers. It's not really a solo album at all. **Smith** is backed by eight other musicians. Much of the music is instrumental, achieving a mystical and 'psychedelic' atmosphere, although there are a few more mainstream tracks and some nice bluesy guitar work in places. Interesting and a must for fans of psychedelia.

In addition to the recent official Box set, **Smith** has finished a new album, *The Visit, Destiny 2000, From Bob Smith* which was due to be released on his own Southern Rose label.

RD records are also promising to release Bob's 1968 album, *The Lid*.

Don Preston was a member of Frank Zappa's Mothers Of Invention and Darrell Dragon later had a novelty hit with, of all things, Captain and Teneal!! **Bob Smith** continues performing on the club circuit, and is due to start recording *The Visit, Destny 2000* in the nex month, Bob: "It will celebrate the 30th anniversery of *The Visit* release with sixty minutes of new songs to issue in the Millenium".

Bob would also appreciate it if the Virgo chaps could contact him about royalties....

Originally known as The Nomads and based in Houston, Texas, this band issued two 45s under that name. They became known as **Smoke** at the end of 1968. They later moved on to San Francisco where they gigged mainly at biker venues.

Lead by John Orvis, who composed all their material, their music can best be described as "psychedelic boogie", with the nineteen minute *M.C. Boogie* on the first album and nine minute *Greased Lightnin* on the second. Loads of energy, jiving vocals, good guitar solos and powerful organ parts. The second album was produced by Jimmie Haskell, one of the best producers/arrangers operating in the Californian studios in the '60s. Beyer remained in

California to play for Smith and Canned Heat and then in fellow Texan Gary Myrick's band. Phil Parker went on to play with the bluesman Shakey Jake Harris

Compilation coverage has so far included: *Choose It (Part 1)* on *Sound Of The Sixties: SFO Part 1*; *Mainstream* and *Church House Blues* are on *Three O'Clock Merrian Webster Time*, which also contains their recordings as The Nomads; *Mainstream* on *Acid Visions - The Complete Collection Vol. 3* CD and *The History Of Texas Garage Bands In The '60s Vol. 2* CD.

ALBUM:

1(A)	THE SMOKE	(Sidewalk 5912)	1968

NB: (1) also released as Tower ST-5912.

This West Coast band's excellent *Sidewalk* album was co-produced by Michael Lloyd, who wrote most of the songs, and Kim Fowley. An album of mild psychedelia it contains a fair degree of orchestration and was probably influenced by The Beatles' *Sergeant Pepper* LP, released the previous Summer. Some tracks, like *Fogbound* and *Umbrella*, had considerable commercial potential, others, like *Song Thru' Perception* are notable for their crispy, clear vocals and *October Country* for some beautiful string arrangements.

The Smoke formed when Michael Lloyd met Steve and Stan through some mutual friends. They played with a few other guys as The Laughing Wind, Max Frost and The Troopers, and worked together on Michael's project as Rubber Band. Michael Lloyd had previously been working - scoring some motion pictures and producing records - with a young business executive named Mike Curb. They had met four years previously when Michael was looking for some songs for a group he was recording. Michael started to work for Mike's company (Sidewalk Productions) about 1967. Mike liked the concept and songs for **The Smoke** album and agreed to sign the group and release the album on his Sidewalk label.

Towards the end of the project, Michael Lloyd's old friend Jimmy Greenspoon became interested in joining the band. They had been playing together for many years in outfits such as The New Dimensions. Jimmy didn't participate in the recording, but he did appear in the pictures and album cover art! While waiting for **The Smoke** to be released, Jimmy had and took a wonderful opportunity to become a founding member of Three Dog Night.

After recording **The Smoke** album (and briefly travelling on the road with The West Coast Pop Art Experimental Band), Stan studied composition at the California Institute of the Arts and classical guitar at California State University Northridge. He played with Delbert and Glen (legendary R&B pioneer Delbert McClinton, who taught John Lennon how to play harmonica). In 1971, he was a founding member of Oingo Boingo, at the time, a surrealistic musical theatre group. He's gone on to write books on pioneer guitarists Django Reinhardt and Charlie Christian as well as clarinetist Benny Goodman for the *Jazz Master* series. He's also written six solo guitar books for Warner Brothers Publications. In the late seventies he toured with Vicki Carr and Dory Previn as guitarist and arranger. Recently, he was orchestral supervisor for Rod Stewart's 1993-94 World Tour and the Page/Plant

1994-95 World Tour. In 1966 he was musical supervisor and conductor for Heart's concert video "The Road Home".

Drummer Steve Braim continued to write music and poetry, and was a performance artist in 1970-71 at Fresno State College. He's currently an upscale architect and builder in Los Angeles and plays accordion and writes poetry.

In the fall of 1969 Mike Curb became President of MGM Records and Michael Lloyd (then 20 years old) Vice-President of A&R. Over the years he produced records and wrote for many television shows and motion pictures. His credits include Lou Rawls, The Osmonds, The Burrito Brothers, Shaun Cassidy, Belinda Carlisle, The New Seekers, Eric Carmen, Stryper, kids songs on TV and video, the music from "Dirty Dancing", The Bellamy Brothers, Debby Boone, the late George Burns, Barry Manilow etc. and he became one of the most successful American record producers. His recordings have earnt over 100 gold abd platinum awards, several Grammys, Academy Awards, Dove Awards, Golden Globes and American Music Awards.

NB: (1), (2), (3) as **Little Joe and The Ramrods**.

Two Norfolk, Nebraska bands, **Little Joe and The Ramrods** and **The Strollers** (no recordings), combined forces in 1965 to form the group that would eventually become known as **The Smoke Ring**. Originally retaining the **Little Joe and The Ramrods** moniker, line-up 'A' would move from the traditional "guitar-organ-bass-drum" garage band format to a larger horn-oriented band in 1967, then adopted the **Smoke Ring** name in 1968. It was also in 1968 that McClure and Semrad - formerly of the University Of Nebraska band J. Harrison and The Bumbles (Fremont, Nebraska's first rock band) - replaced Asmus and Schrad. Though not part of the line-up ('B') that recorded the first Buddah single, McClure and Semrad joined in time for the band to release the second Buddah single and make an appearance on "American Bandstand". Besides "Bandstand", where the group performed *No Not Much*, a cover of a Four Lad's tune that sold over 800,000 records for **The Smoke Ring**, the band also made television appearances on George Klein's local Memphis WHBQ-TV show, as well as appearances on regional rock shows in Cleveland, Boston and Los Angeles. In 1969, the band trekked to Sam Phillips' Sun Recording Studio in Memphis to record an album whose masters, according to Mike Semrad, "have never been found" (third generation copies, however, are still in the band's possession).

Appearing Tonite! - The Smoke Ring is a cassette only release featuring both released and unreleased material. It was released in 1995 by Ace Brothers Records and limited to 1000 copies.

No Not Much was also released as part of Buddah's *Dial-A-Hit* compilation (Buddah 5039) 1969. More recently, the track has also appeared on the *Complete Buddah Chart Singles, Volume II* CD (Buddah 75517-49517-2, 1996).

2. Love's The Thing/She Gives Me Love (Dot 16975) 1966

Love's The Thing, also on *Boulders Vol. 1*, is a superb rockin' punker with strong raucous vocals and clangorous guitars, that builds to a rave-up climax and a final breath-taking vocal 'whoop'. A true classic - play at full volume - it's guaranteed to cure head colds! The flip is a melodic pop ballad.

The band is actually East L.A.'s Romancers and these re-release 45s, under a new name, resulted from a deal between the band's producer Eddie Davis and Count Five's Irwin Zucker, who thought *Love's The Thing* ought to be a hit. And so it shoulda been.

A minor San Francisco outfit whose bluesy-rock may be of interest here but who don't really fall into the psychedelic or garage genres despite the inclusion of *Look What You've Done* on *Psychedelic Unknowns, Vol. 7*, which is a powerful garagey ballad with a short but searing guitar solo.

All their records were produced by Bones Howe and four of their six singles are not on their only album, which was recorded with the help of other Californian musicians, including Warren Zevon and Mike Deasy. Their song *Well Tuesday* was used in the motion picture 'Dreams Of Glass'.

Their only album was privately pressed and sank without a trace. 1,000 copies were pressed. Their fiery basement-thud approach to the hits of the day is well documented on the record, which features versions of *Get Ready, A White Shade Of Pale, House Of The Rising Sun* and others like you've never heard them before, plus a sizzling original *Hot Blooded Mama*.

1	Snail's Love Theme / When I Met You	(Perfection #360)	1966

From Smyrna/Marietta in Georgia this mob were just 11 -13 year olds when they started playing in 1964. They recorded their sole vinyl offering in 1966, inviting some of the neighbourhood teens into the studios and tempting them with free food. The result was far from a love theme more a horrible noise - one of the worst records I've ever heard. Should you want to you'll also find it on *Back From The Grave, Vol. 7*, whilst *When I Met You* is on *It's A Hard Life*.

1. You Don't Want Me/You're All Mine (Cuppy C 103) 196?
2. Polka Dotted Eyes/The Voice (East Coast C- 1022/3) 196?

From the Folcroft/Collingdale area of Pennsylvania, their first 45 features a superb slice of Bo-Diddley via the Rolling Stones fuzz-garage ala *Not Fade Away*. The flip is also a catchy garage-beat with a cool break. The 'A' side of their second 45 *Polka Dotted Eyes*, is a mid-slow punker with Animals/Them influences and can also be found on *Psychedelic Unknowns, Vol. 6* and *Crude Pa.*

The band were later known as Underground Balloon Corps and then The Balloon Corps.

2. It's Just Not Funny Anymore/I'm Nothing As Of This (Delta 2141) 1966

The Sneakers

45:

1. Whatcha Gonna Do/I'm Goin' Back (Hot Line 119) 1964/5

This band hailed from New Orleans. Both tracks on their sole 45 are heavily influenced by early Merseybeat sounds and, with a wonderfully sparse production, ooze with period charm. Not strictly garage but a good example of the U.S. response to 'the invasion' before the advent of the fuzz-pedal. (Max Waller)

The Sneekers

45:

1. Soul Sneeker/Sneeker Talk (Columbia 4 43438) 1965

Lively rockin' frat-dance beat 45. Both sides written by J. Savage and T. Heck. No idea as to their origins, though Mike Kuzmin's excellent Pennsylvania discography 'Sounds From The Woods' wonders whether they might be a Philadelphia outfit. (Max Waller)

Alva Snelling

45:

1. Clock On The Wall/? (Golden-Records 102) 1967

From Baton Rouge, Louisiana, this artists *Clock On The Wall* shouldn't be confused with the E-Types or Sounds Like Us songs.

The lyrics to *Clock On The Wall* foretell the threat of a nuclear holocaust. A metronomic garage-punker, it's an interesting song which can now be heard on *Beyond The Calico Wall*. According to the compilation's sleevenotes **Snelling**, who works as a clinical social worker, is still active in the Louisiana music scene as a member of The Frenge. His previous combo (The Luv - Rackers) recorded a new version of *Clock On The Wall* on a 1986 45 and in

1967 he had another 45, a cover of Arthur Alexander's *Anna* under the Alva Starr monicker. (Max Waller)

1. Where Has My Old Friend Billy Jones Gone/Caterpillar (Epic 5 10425) 1968

From Cleveland, Ohio, this band were originally known as the Muther's Oats. The awful folk-ballad 'A' side can be ignored here. The flip however is an incredibly strange slab of psych-pop which is somewhere between The Beatles' *I Am The Walrus* and Sweetwater's *My Crystal Spider*. Truely a relic of the era. Both 45 cuts also appear on their eponymous album, of which *Catapillar* and *Song Of The Sirens* are the standout tracks. The band's female singer was recruited by the record producers to change their sound.

Will Ryan later recorded as Willio And Phillio in the '70s and '80s. *Song Of The Sirens* has recently resurfaced on *Psychosis From The Thirteenth Dimension* CDR.

2. Together/Love And Laughter DEMO (Signet no #) 1971

A Texan group from Waco who produced one acid-inspired 45, the 2nd being a demo by a much later incarnation. The 'A' side of the first sounds like a cross between The 13th Floor Elevators and The Seeds. The flip is a weird instrumental. Both sides can be heard on Eva's *Texas Punk Groups From The Sixties* compilation and the 'A' side can also be found on both *The Garage Zone, Vol. 2* and *Fuzz, Flaykes And Shakes Vol. 1*. Sammy Piazza also played with The Chessmen and was later with Hot Tuna.

Formed in high school in 1965 this Massachusetts band, from Fitchburg and Leominster, released just one 45 in 1966. They survived into the mid-80s, performing in the central New England area. Reunited for the Dance Under The Stars benefit for the American Cancer Society in 1996, they continue to gather for an annual bash.

Love Her So is a moody garage-ballad that reaches a dramatic conclusion punctuated by some growling guitar chords. The vocals are too 'clean' and somewhat at odds with the music - they sound more like an accomplished vocal group. Still this is a 45 whose particular charm grows after several spins.

Love Her So can also be found on Psychedelic Crown Jewels Vol. 3.

Solid Ground

45:

1. Sad Now/She Played With Love (Apro 1) 1966

From Arizona, a superb folk-rock garage-psych outing by an otherwise unknown outfit. *Sad Now* is a melodic garage folk-rock ballad with yearning vocals that suddenly erupts with a wonderful burst of warped off-the-wall guitar that returns to leave one stunned at the end. *She Played With Love* is cool Byrds garage jangle.

You can also find *Sad Now* on *High All The Time Vol. 2* (Max Waller)

Some Other Animal

45:

1. Alone On the Highway / I Don't Need Anybody (Cypher 103) 196?

Although the location of this band is unknown, they are thought to have come from New York or Massachusetts. The 45 was produced by Don Oriolo, and both sideswere written by M.Papa (with D. Mullins for the 'A' side). The flip is a bluesy ballad, whilst the 'A' side is similar to Steppenwolf with a heavy sound and good vocals.

45:

1. Shadows/I'm Going Back To New York City (Uptown 727) 1966

This was probably a Mike Curb studio group, although it might have been a backing band because both lan Whitcomb and Mae West used them in this capacity in 1966. A little later that year they put out their sole platter - a powerful and rather folk-flavoured punk disc which had quite a lot of commercial potential. You can hear *I'm Going Back To New York City* on *Highs In The Mid-Sixties, Vol. 3*.

1. Trippin' Out/She's Kinda Weird (Psychedelic 1691) 1967

NB: (1) reisued in green wax / PS by Sundazed (S 136) 1998.

The 'A' side of this outfit's 45, which relates to the influx of hallucinogenics onto the high school campuses of America and some of their virtues and perils, has resurfaced on *Pebbles, Vol. 7*. It's quite a compulsive number with an effective harmonica intro and good fuzz guitar which culminates into a psychedelic haze. The flip can be heard

on *Boulders, Vol. 2*.

Originally known as The Hustlers, **Something Wild** came from Santa Maria, California and played between 1965 and early 1967. They also recorded an earlier acetate *Hole In My Soul*/*The Blues*, which was recorded at Stars International Studios in Hollywood early in 1966. *Hole In Her Soul* has subsequently resurfaced, along with *Trippin' Out* and *She's Kinda Weird* on *Thirteen O'Clock Flight To Psychedelphia* (CD).

Bill Evans is still active on the local music scene, penning Rickenbacker 12-string electric material with Byrdsy licks and simple arrangements with local musicians.

Karl Gebhardt (Kal-X-Blue) had previously been in a The Gremlins. Billy Payne went on to play with Little Feat.

This Los Angeles band evolved out of a San Francisco group called Tsong. Rob Lewine had previously been with Illinois Speed Press. Their album was produced by Curt Boettcher. It's a simple rock offering with some pop influences, vocal harmonies and lots of guitar passages, though not outstanding ones. The better tracks include *Medecine Man*, a jazz-inspired song marred by a long drum solo, the psychedelically - tinged *I'm Not Home* and *Banana High Neon*. Mickey Rooney Jr. later went solo and Shelly Silverman went on to session work.

Tacoma, Washington was their home town and they were one of the finest punk bands to come from the Northwest in this era. *The Witch* was an enormous hit in the Pacific Northwest, indeed **The Sonics** were immensely popular there. Their follow-up *Psycho* was also a local hit. Most of their material was original and written by Gerry Roslie, although they also did cover versions of tracks like *I'm A Man*. Arguably they were left behind in the San Francisco-based rock renaissance of 1967.

Their third album, which was produced by Jerry Dennon, was called *Introducing* because it was their first on a major label. This album was later re-released in the late seventies under the title *The Sonics' Original Northwest Punk*. The last 45 recorded by the original line-up was *Any Way The Wind Blows*. After this members departed to go to college or join other bands - with Rob Lind being the last original to leave in 1968.

Jim Brady came in on lead vocals in 1967, from The Mercy Boys and by 1968 was leading the band. From *Love-itis* onwards they perfected a new sound adding strings and horns but it didn't go down with their fans and they slowly faded out of the limelight.

Jerry Roslie, reformed the band in 1979 with a new line-up to record (6) for Bomp.

Doug Heath and Ron Foos formed The City Zu and Danny Hoeerer went on to play for Tower Of Power. Rob Lind now lives in LA where he is involved in the film industry. Gerry Roslie still records and writes songs today.

As one would expect the band are featured on a number of compilations, including:- *The Witch* and *Psycho* on

The History Of Northwest Rock, Vol. 1; *Any Way The Wind Blows* and *You've Got Your Head On Backwards* on *Vol. 2* of the same series; *High Time* on *Vol. 3* and *Like No Other Man* on *Vol. 4*; *Santa Claus* on *Back From The Grave, Vol. 4*; *Any Way The Wind Blows* on *Baubles, Vol. 1*; *Cinderella* on *A Journey To Tyme, Vol. 3*; *Boss Hoss* and *He's Waitin'* on *Nuggets, Vol. 8*; *Like No Other Man* on *Battle Of The Bands, Vol. 1*; *High Time* on *Vol. 2* of the same series; *The Witch, Shot Down* and *The Hustler* on *Northwest Collection, Vol. 1*; *Strychnine* on *Born Bad (Songs The Cramps Taught Us), Nuggets, Vol. 2* and *Songs We Taught The Cramps*; *Louie Louie* on *The Best Of Louie Louie*; *The Witch* and *Psycho* on the *Nuggets* 4-CD box set; and finally the instrumaental rarity *Goodhard Rock* appears on *Turds On A Bum Ride Vol. 6* (CD). The compilers of the last compilation sumise that this track is "probably" an outtake from material recorded for their third album.

They also contributed four tracks alongside The Wailers and The Galaxies to an early compilation *Merry Christmas* (Etiquette ETALB 025) 1965. The four tracks were:- *Santa Claus, Don't Believe In Christmas, The Village Idiot* and *Its Christmas*.

2	You're A Better Man Than I/Saturday's Son	(Decca 31995)	1966
3	Feathered Fish/Baby Show The World	(Alamo 5473)	1966

One of the best of the LA garage bands. All three of their 45s can be heard on the Moxie *Sons Of Adam* retrospective, whilst Captain Trip's *Early Works '64 - '66* CD includes both Decca 45s and three previously unreleased cuts, *Without Love, I Told You Once Before* and a cover of the Zombies' *You Make Me Feel Good*. Their 45s were produced by Gary Usher.

Sometime in 1966, Randy Holden quit, and was replaced by Craig Tarwater who Joe Kooken and Michael Stuart spotted backing Jackie Deshannon at a club in San Jose, California.

Towards the end of 1967 they evolved into New Wing releasing two 45s for Pentacle. Stuart and Holden later played for The Other Half, Michael Stuart was in Love and Tarwater later played with the The Other Half, Daily Flash, Frank Zappa, Buddy Miles and Love's Arthur Lee.

Joe Kooken later changed his name to Jack Ttanna and went into a restaurant venture with Lee Michaels in Marina Del Ray, California. Craig Tarwater now lives in Walla Walla, Washington and operates a mail order business called Video School of Guitar as well as his local music store, Blue Mt. Music Inc. For more information on the Video School of Guitar check his website: http://www.videoguitar.com.

Sons of Adam also played a song in the Sidney Poitier/ Anne Bancroft movie 'The Slender Thread' in the scene where Anne Bancroft goes to a gogo club with her husband. **The Sons of Adam** are identified in the film credits but the name of the track is not known.

Compilation coverage to date has included: *Feathered Fish* on *Sixties Rebellion Vol. 8* (CD) and *Pebbles, Vol. 2*; *Baby Show The World* on *Turds On A Bum Ride, Vol. 1*; *Better Man Than I* on *Turds On A Bum Ride, Vol. 4* (CD) and both *Take My Hand* and *Tomorrow's Gonna Be Another Day* on *Turds On A Bum Ride, Vol. 5* (CD).

One of San Francisco's most durable 'second division' bands **The Sons Of Champlin** were clearly a product of the city's drug culture. They formed in the Autumn of 1965 out of the ashes of The Masterbeats (who had included Champlin, Haggerty and Caine) / Opposite Six with Bill Bowen from Electric Train. After a debut gig at Marin College they soon built up a strong 'live' reputation. They recorded a number of tracks for Verve but only one 45 was ever released and after a brief spell with Mercury they signed to Capitol in 1969.

Their debut double LP *Loosen Up - Naturally* successfully captures their live sound. By this time Myers had left the band to join the army. Essentially a loose jazz and drug influenced band, commercial success eluded them because they showed little interest in producing tight structured songs. For example, one whole side of their debut album consisted of one fourteen minute jam entitled *Freedom*. Later in '69 they changed their name to The Sons and included trumpets on their second LP. Like so many Bay area bands they split up in 1970, only to reform before the year was through, minus Caine. This format issued their third LP which is worth a listen. However, further splits began to emerge and since their album sold badly Capitol dropped the band. After issuing *Minus Stems* and *Seeds* on their own label they changed name to Yogi Phlegm for a while but entered a dormant spell on the recording front. They did, however, appear on the penultimate night of the closure of The Fillmore West on 3rd July 1971. They re-emerged with an album on Columbia in 1973 and thereafter playing a sort of funky style soul recorded albums on their own World and Goldmine labels. Some of the Goldmine ones were picked up by Ariola for World-wide release.

Bill Champlin went on to record solo albums in 1978 and 1982, before joining Chicago later that year. In 2000 he sang on *Who Said* a track on Los Angeles based guitarist Marino's album. Tim Caine played with Good Dog Banned after he left **The Sons Of Champlin**.

The Big Beat CD, part of Alec Palao's 'Nuggets From The Golden State' series, collects twenty tracks from their 1966 Trident recordings - only the debut 45 was released at the time. This pre-Capitol period displays their initial

pop influences - smooth harmony-pop, folk-rock, R&B and soul are prevalent but there's some good punky fuzz-pop too. The collection highlights their attention to, and competence in, harmonies and background vocal arrangements. The songs are nearly all originals. Just three covers appear apart from *Sing Me A Rainbow* - The Beau Brummels' *Don't Talk To Strangers*, Mann/Weils' *Shades Of Grey* and Paul Simon's *I Wish You Could Be Here*, later covered by the Cyrkle.

1	TILL THE WHOLE WORLD KNOWS	(Zondervan)	1968

2. Black Nor Blue/Do You Need Me? (PS) (Acropolis 6612) 1966

Previously known as The Statesmen, this five piece hailed from Greeley near Denver in Colorado. They recorded for the obscure Acropolis label, which only had three releases and was owned by a Kansas Universe student who it was later discovered was an older brother of one of the band. Both their 45s came in picture sleeves. The first one *I Don't Know*, released in early 1966, made quite an impression locally and resulted in them getting quite a lot of touring engagements around the Midwest. Essentially it was in the folk-rock mould, whilst the second has a more 'garage' edge.

One of the former members is now dead and another became a jazz musician.

Compilation coverage has so far included: *I Don't Know* on *Highs In The Mid-Sixties, Vol. 18: Colorado*; *Please, Don't Be Mad* on *Monsters Of The Midwest, Vol. 2*; *Do You Need Me?* on *Monsters Of The Midwest, Vol. 3*; *Please Don't Be Mad* on *Tymes Gone By*; and *Black Nor Blue* on both *Teenage Shutdown Vol. 8* and *Psychedelic Unknowns Vol. 9*.

2	Postcard From Jamaica/Little Orphan Annie (PS)	(Kama Sutra 224)	1967 88
3	Saga Of The Low Down Let Me Down/Great Morpheum	(Kama Sutra 236)	1967

NB: There's one rare French EP with PS: *Hello Hello/Treadin'/Postcard From Jamaica/Little Orphan Annie* (Kama Sutra 617 109).

Formed in San Francisco in 1965. Although Kama Sutra tried to portray them as a 'good time' band they also gained the reputation as a good live act which placed emphasis on guitar work. However, the good time image was epitomised by tracks like *Hello, Hello* (a hit for them), *Cellophane Woman* and *Walk In The Park* on their first LP. This album was later reissued in 1973 as *Hello Hello*.

Their final album was a vast improvement on their earlier work. Many of the tracks, notably *Sleazy Street* and *Coke, Suede and Waterbeds* had a distinctly jazzy influence, whilst *Orange Peel* had some stand-out flute playing and *Dancin' Wizard* was a slower, Eastern-influenced number. The strongest track, however, was probably *Fazon*- the opening cut - which typified the soothing, laid back sound which **The Sopwith Camel** had performed prior to their demise.

Rod Albin, who had been in their pre-album line-up had earlier played for Liberty Hill Aristocrats. He left before the album to join Roadhog and Kasten also departed to Joy Of Cooking. Norman Mayell went on to play for Norman Greenbaum and Blue Cheer. William Sievers later recorded as William Truckaway.

Hello Hello is included on *Incense And Oldies* a budget sixties pop compilation which is nowhere near as good as the title suggests.

Out of Colorado Springs in Colorado, this outfit had a good local live reputation but never made it on to vinyl at the time. *Highs In The Mid-Sixties, Vol. 18:- Colorado* includes a previously unreleased acetate by the band *Have It All Your Way*, which is competent but nothing special.

3	Seven And Seven Is/Petals	(Mala 596)	1968

In 1967 **The Soulbenders** made it to the grand final of a nationwide battle of the bands competition held in Braintree, Mass. which was recorded for posterity on *Battle Of The Bands - Ridge Arena*, issued as both a 2-LP and 3-LP set on the Normandy label. Bands who placed outside the top three only got one track a-piece preserved on vinyl but **The Soulbenders**' rendition of *House Of The Rising Sun* is one of the highlights, from our biased viewpoint. The Gents from Utah won top honours and have six tracks preserved, second and third (Action Brass and Tony's Tygers) have two tracks apiece.

Members would go on to form Phlegethon, who released two 45s on the Pre-Heat label. A third world loan is required to obtain any of their original vinyl! Luckily Aris is planning on releasing a CD of material sometime later in 2000, featuring both bands. For more information and some cool band pictures go to: http://www.arisdisc.com/SoulB.htm

1. Seven And Seven Is/Can't Go On (Rickshaw 101) 196?

This Louisiana outfit were clearly fans of Arthur Lee's Love. Their version of *Seven And Seven Is* is certainly different from Love's, much more aggressive and punkish. The flip side is Lee's *Signed D. C.*, which the band have put to different lyrics and claimed the credit for. Actually it's pretty stunning stuff, very laid back and trippy with some lovely flute. Both sides of this 45 can also be heard on *Sixties Rebellion Vol. 8* (CD) and *Louisiana Punk Groups From The Sixties, Vol. 1*.

1. I Can't See You/Big Boss Man (Dater DT-1301) 1966

From Reading, Pennsylvania, this band were originally known as The Starlites with two 45s on Barclay. At the suggestion of their producer they changed name to **The Soul Generation** for their 3rd 45 and recorded a different version of *I Can't See You* (which has been The Starlites' 2nd 45 and a local hit). This later version, notable for its piercing organ 'wall of sound', can also be heard on the *Crude PA* compilation. After this they changed name again to Beatin' Path recording the classic *Original Nothing People* 45.

NB: (4) was put out by the Southern Star Meat Co. and the 45 was redeemable via coupons in packets of their Southern Star Weiners.

Probably because of their monicker, this excellent Louisville, Kentucky outfit has been criminally overlooked - we'll try to set the record straight. Although the first 45 features the depressing brassy ballad *Don't You Go*, flip it over for a wild'n'raucous frat dance number with strangely distorted vocals, scorching guitar and a drum solo, later covered by Us Four and The Dawnbreakers. Changes were in the wind and the second line-up came to force in 1966. Despite the tendency for vocals with a soulful tinge they would produce some sounds worthy of your attention. *Stronger Than Dirt* is a moody punk version with fuzz and backward guitar effects, whilst the flip *60 Miles High* is a midtempo folk-punker with a laid-back but rough-edged feel. *Love Me When I'm Down* is a tough belter with commercial potential but still it retains garagey sensibilities with raw guitar interludes. Frank Bugbee's *I Belong To Nobody* is a softer melodic pop ballad which signalled the end of their peak (so far as this book is concerned), although it was a regional hit that year, and led to them touring with the "Dick Clark Caravan of Stars". Bugbee would later depart with Maxwell and Settle to form the Elysian Field and he was subsequently in a studio outfit Friendly Room.

Although **Soul Inc.** had temporarily petered out by the end of the decade, some members are still going strong performing and recording to this day as the **Shufflin' Grandads**! 1. What Cha Gonna Do/I've Been Dreaming (Showco no #) 1967
2. Get Out Of My Life Woman/Knock On Wood (Showco 001) 1967

From Philadelphia, this outfit took its inspiration from white soul. Chuck Trois formed his own group and went on to play for Amazing Maze, Great Train Robbery and 1910 Fruitgum Co.

Their second album was recorded partly in Alabama in the Fame Studios and coproduced by Rick Hall. There have been rumours that Duane Allman played on it but Rick Hall denied them. The other tracks were produced by the Philly Soul specialists Gamble and Huff. Housed in a nice cover, it's quite patchy and the horn arrangements defintely belong to soul music. Their third album was totally soul oriented.

Venturini and Leonetti went on to form Privilege in 1973. Charles Ingui is still touring and recording.

From Pittsburgh, Pennsylvania, their *Shakin' With Linda* was a fine dance number and was also reputedly a 'cold turkey' report.

Shakin' With Linda can also be found on *Pebbles Vol. 7* and *The Essential Pebbles Collection Vol.2* 2-CD.

2. Hung Up On Losing/Snow Man (Dot 16830) 1966

These 45s were the work of a different outfit from Denver. Bob Webber went on to join The Moonrakers, Kemp and Shanahan headed for LA in 1966 where together with Randy Meisner and Randy Naylor they became The Poor releasing at least two 45s on York Records. Naylor later got into country and western and Meisner joined The Eagles. Kemp and Shanahan went on to become part of Rick Nelson's Stone Canyon Band.

The Soul Trippers

45:

1. King Bee/Girl Of Mine (Providence 415) 1965

From Tampa, Florida, **The Soul Trippers** were previously known as The Outsiders, but when they changed labels to Laurie subsiduary Providence, they were persuaded to change names in order to avoid confusion with the better known Outsiders from Ohio .

King Bee got a further airing on *Mindrocker, Vol. 5*.

45:

1. I'll Be On My Way/Make A New Light (CEI 129) 196?
2. J.J. Come Back To Me/? (Ken-Del) 196?

A little known band from Delaware whose *J.J. (Come Back To Me)* was included on *Garage Punk Unknowns, Vol. 8.* The first-listed 45 aboveis by the same act, and was issued on an Ohio label.

45s:

1	7 And 7 Is / Can't Go On	(Rickshaw 101)	1967

Thought to be from New Orleans, this group were definitely Love acolytes. A pretty good version of *7 And 7* Is is backed by a rework of *Signed D.C.*, cheekily credited to themselves. Check out both sides on *Louisiana Punk Groups From The Sixties Vol. 1*, *Sixties Archives Vol. 3* CD or Sixties Rebellion Vol.8, of which the latter is devoted to Love covers.

The Souncations

45:

1. Respect/Exit (Head 1001) 196?

The flip to this, a pretty impressive punk ballad, can also be found on *Highs In The Mid-Slxties, Vol. 17:- Texas, Part Four*. The band came from Dallas in Texas.

1. (My) Baby's Gone/Hey Hey (Zounds 1004) July 1967
2. I Can't Explain/Greasy Heart (PS) (United Audio 904111) April 1969

From Salem, Ohio. *(My) Baby's Gone* has an unusual fuzztone intro but then degenerates into a routine, if rather meaty, punker. Check it out on *Garage Monsters*, *Pebbles, Vol. 8* or *Vol. 5* of the corresponding CD series. The flip is on *Off The Wall, Vol. 2*, *Teenage Shutdown Vol. 10* and *Highs In The Mid-Sixties, Vol. 9*. It's a pounding frat rocker with a continuous Strangeloves' style beat throughout. The best thing about this quintet's second effort was the picture sleeve it came in picturing the band in paisley-style mod outfits. The vinyl consisted of disappointing covers of The Who's *I Can't Explain* and Jefferson Airplane's *Greasy Heart*.

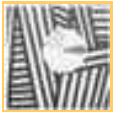
1. Gotta Ease My Mind/Spanish Flash (Canterbury C 511) 1967



A Los Angeles combo who included ex-Rising Sons member Gary Marker. Their sole 45 has a cool jazzy vibe that permeates throughout, making them sound not too dissimilar to Ed Cassidy's Spirit in their more laid-back jazzy moments. Neither garage nor psych, just a cool West Coast breeze.

Gary Marker recalls working with **Sound Machine** on and off for about a year, but was surprised to learn that anything had been released... Gary Marker has also confirmed that Ed Cassidy (also with the Rising Sons) was a member of this band at one point. Bill Wolff later joined the Peanut Butter Conspiracy for their second LP, *The Great Conspiracy*.

Both Bill Wolff and Gary Marker also played in Fusion.

From the LaSalle/Peru area of Illinois, a band whose sound doesn't live up to their name. They don't appear to have released any 45s but contributed two cuts to the 1968 Illinios sampler *A Psychedelic Six-Pack Of Sound*. *I Don't Need You* and *I Can't See You* are fragile folk-rockers which look back to the 1965 sound of the Searchers and Beau Brummels. Charming perhaps, furious? -no way!

I Don't Need You has also since appeared on *Project Blue Vol. 3*.

45:

1. The Angry Desert/Working Up A Steam (Era 3100) 1963

A psychedelic outfit out of Los Angeles. The 'A' side later resurfaced on *Psychedelic Unknowns, Vol. 1* and *30 Seconds Before The Calico Wall* (CD). It's a well-produced slice of psychedelia with some fine fuzztone guitar, a hypnotic two note organ sound and crystal clear vocals which implore the audience to 'escape into a dream...'

45:

1. Take A Look At Yourself/? (Romat 1001) 1967

An obscure combo recorded this 45 in Greenville, North Carolina. *Take A Look At Yourself* is typical garage

1	I See The Light / ?	(Trail TSRC-1706)	Dec 1967

NB: There may be another 45: *Face The New Day* / *People Say* (Action 101) 196?

An unknown Tennessee outfit. Their cover of *I See The Light* can be heard again on Sick And Tired. This isn't the Five Americans' hit but a slick punky popper (didn't the Music Explosion cover this too?) written by E. Chiprut, who hit paydirt with the bubblegum smash *Simon Says*.

1	Mister Sun/In Paradise	(Liquid Stereo LS-25)	c1967
2	It's Snowing / She Knows	(Ridon 857)	1968

Portland, Oregon's **Sound Vendor** was formed in 1967 when Mr.Lucky and The Gamblers fragmented - all five had been in that outfit. Maitland and Gunter had orignally been in the Stingrays, the Rogues with Graziano before merging with the Gamblers. Jim Dunlap was previously with Gentleman Jim and The Horsemen.

Mister Sun is a wonderfully weird and brash anglophile psychedelic ditty. Imagine a cross between psych-era Who and The Move and stick a minute of glorious effects on the end - modern psych-popsters Kula Shaker ought to have had a crack at this.

The flip is laid-back and a square affair by comparison.

Despite the title, most of the material featured is in no way psychedelic or even garagey - this bunch's *True* is a very pedestrian sax-led lounge instrumental, whilst *What Would You Say* is tame beat-pop.

45:

1. Little Brother/A Girl As Sweet As You (Dunwich 157) 1967

A different outfit which formed in Indiana in 1966 but relocated up to Chicago the same year. Their music and stage act were strongly Anglophile - they regularly smashed their instruments! However, the flip to their Dunwich 45 was in the Harpers Bizarre style, and this can be heard on *Mindrocker, Vol. 2*. An excellent unreleased version of Blues Magoos' *Gotta Get Away* has lately appeared on the CD compilation *Oh Yeah! The Best Of Dunwich Records*, as well as *A Girl As Sweet As You*. *Gotta Get Away* was part of a session arranged at Philadelphia's Cameo-Parkway Studios by Columbia-Screen Gems intended as a audition for 'The Monkees', by line-up 'A'. Several months laterTerry Talbot replaced Brandt when he was injured in a motorcycle accident and John Talbot came in for Mahlke who quit for college. Steve Foster switched to bass in this line-up (B), which recorded the Dunwich 45. They evolved into Mason Proffit in 1969 and proceeded to release half a dozen albums and a similar number of 45s in the 1970s.

The Sundazed retrospective EP contains material they recorded prior to signing to Dunwich, of which only *She* was previously released. Another unreleased cut *You're Gonna Lose That Girl* has also resurfaced on *If You're Ready! The Best Of Dunwich Records, Vol. 2*.

Sponsored and released by the Crown Lamp Co. out of Greensburg, Pennsylvania, I guess this was one mind excursion that they recommended you experience with all the lights ON! 45:

1	Big Boss Man/Veronica	(Target T 1005)	1969

A local Appleton, Wisconsin band, formed after the demise of the Private Property Of Digil in 1968. Notable for including Jim Peterman (ex-Steve Miller Band). Their first album was a privately pressed affair issued in a plain cover with a yellow insert sheet, which was, in some cases, glued to the front cover. One side has five studio tracks, the other a long live jam.

Their later album entitled *The Album Soup* was Recorded at Brunswick Recording Studio and engineered by Bruce Swedien. All the tracks were composed by Doug Yankus and the album is an excellent mix of psyche, blues and hard-rock, with some jazz and country rock influences. The best tracks are *Dance Magic Woman, Black Cadillac* and *Many Dancers Dance Inside Your Head*. Three of the ten tracks are over six minutes, leaving plenty of time for Doug Yankus to show off his guitar skills.

The 45 includes a rockin' late sixties version of *Big Boss Man* with some nimble guitar licks, while the flip is a yearning romantic paean.

Contrary to some collectors beliefs, Doug Yankus did not later play in the Nashville-based band White Duck, whose line-up included songwriter John Hiatt, but he did played on Hiatt's first solo album, *Hangin' Around The Observatory* (1974), and later on *Slug Line* (1979). After **Soup** split Doug went on to form Soft Touch and the Doug Yankus Band. He also appeared on recordings by Ry Cooder, Roseanne Cash, Tracy Nelson, and Mother Earth amongst others. He passed away in 1982 due to complications arising from diabetes. The Gear Fab CD is dedicated to his memory with proceeds going to the Diabetic Foundation.

Beware of a recent counterfeit version of *The Soup Album*, and go for the legit Gear Fab CD version instead, which includes a number of pre-**Soup** tracks by Private Property Of Digil and comes with detailed liner notes.

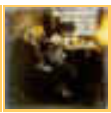
A Detroit, Michigan act. Marc Chover recalls: "We were one of the earliest psychedelic bands. However, our producer (Fred "Saxon") wouldn't record our psychedelia because he thought it was on the way out. This was around the time of Jimi Hendrix *Are You Experienced* release in the U.S...".

"For the record we may have appeared on the same bill with The Spikedrivers a couple of times, however, we were all close friends and played many of the same venues. Ted, Sid Brown, and I all taught music at Fava studios."

Psychedelic Used Car Lot Blues has since resurfaced on *Michigan Brand Nuggets*, but it's more novelty than psychedelic! The band later moved to California where they split. Today, Marc Chover is still writing / playing and is an independent manufacturer's sales rep in the Pro Audio business. Lenny Somberg, who formed the band with Marc sadly died in the early '70s, whilst Marty Somberg has a graphics firm in Ann Arbor, Michigan. Jim Wiejecha later changed his surname to Surell and was Paul Anka's staff music copyist for many years - he currently works at Warner Bros. as a copyist.



Marc Chover has just released his first solo CD entitled *Geezerphoelia* by his virtual band Sleazy Geezer:- "It includes one tune I wrote with Ted when we were partners in The Horny Toads (never recorded) from 1969 to 1971. Marty Somberg did the graphic design and Jim Surell wrote the horn arrangements. My web site is not up yet and I haven't had time to set up distribution. Will let you know when I do."

It's worth noting that Larry Miller, who was an early member of **Southbound Freeway** was primarily a DJ in Detroit, with WDTM, a Fine Arts/Classical station. His "Promenade" show based on thematic programming of folk, cabaret, spoken word and miscellaneous stuff, is regarded as a precursor of '60s FM format. Miller later created the all night show on KMPX in San Francisco in Feb of 67, as an electrified extension of Promenade.(*)

There was also an unconnected Canadian act by this name who had a two 45s released in the US: *Roll With It/Don't Go Cryin'* (Atco 6690) from 1969.

ALBUM:

1(A)	SOUTHERN COMFORT	(CBS CS1011)	1970

NB: (1) also released in Holland (CBS S64125) 1970.

Not to be confused with the British Ian Matthews's Southern Comfort, nor Martin Stone's Southern Comfort, this group was created by San Francisco musicians working with Mike Bloomfield and Nick Gravenites (who produced their only album). Musically, it tries to explore the ways opened by The Electric Flag: a combination of soul, blues and Bay Area sound, with a brass section and some good guitar parts. All the songs are original except for a cover of the Beatles' *Get Back* and Arthur Conley's *Love Got Me*.

Bob Jones was previously in We Five, John Wilmeth played bass with The Fourth Way, Steve Funk was in Wayne Nitro and the Whispering Shadows and also with the Debonairs. Ron Stallings was in Mother Earth and with The Mystic Knights Of The Sea.

NB: (4) and (5) are non-LP.

This Dallas outfit was originally called Theze Few and included England Dan and John Ford Coley, who went on to achieve considerable success as a duo. In 1967 they played a gig in Dallas with visiting L.A outfit, the West Coast Pop Art Experimental Band. Impressed by the latter's tune, *Smell Of Incense*, they decided to record it, shortening it for AM radio consumption and adding superbly-executed five-part harmonies. The result was a hit single which reached No. 56 in the Billboard chart.

Their pleasant soft rock album was recorded at Robin Hood Brians studios in Tyler, Texas on October 25/27th, 1968, and has some psychedelic influences as well as a risque (for 1968) cover shot of four naked women enclosed in a plexiglass box (calling Dr. Freud!).

And Another Thing is an interesting extended track, much in the *In-A-Gadda-Da-Vida* mould, with echoing drums rolling back and forth across the stereo mix over a bass ostinato. There are also good versions of Buffalo Springfield's *Rock 'N' Roll Woman* and Chuck Berry's *Nadine* as well as a few harbingers of England Dan and John Ford Coley's somewhat bland future sound.

Southwest F.O.B were apparently a killer live act to the extent that they reportedly blew Led Zeppelin off stage in August, 1969 (a gig which culminated in Zeke setting his cymbals on fire and throwing his drumkit all over the stage). They generally opened with a set of soul covers then, after a costume change, did a set of Cream-like hard rock and finished with a set of original material. They were also known for their attire (powder blue double-breasted suits with high collars) which were designed by their guitarist, Ovid.

After Woolbridge and Bates left the band, ennui set in and sessions for a proposed second album were aborted (in Coley's words, "Everyone was pretty disorganized; people were drunk and passed out." Soon after, Seals and Coley left and the remaining quartet settled into playing a Southern blues styled music but the group fell apart a year later when Zeke got married and pulled out of a tour.

On the Big Beat release *And Another Thing* was edited down to just over two minutes. This release also substitutes the weaker album cuts with the singles and three otherwise unreleased tracks *You're Looking So Fine*, *Monday's World*, and *I'm Coming*. These seem to date from late in the group's career. Curiously the Sundazed CD omits these three tracks but includes all the rest of their output including *Mercy, Mercy, Mercy* from the Soul Explosion album, and both sides of the Theze Few single.

The Smell Of Incense has also resurfaced on *Psychedelic Microdots Of The Sixties, Vol. 1* (CD). The non-album flip, *Green Skies*, has resurfaced on, Psychedelic Microdots Of The Sixties Vol. 2.

The "F.O.B." apparently stood for "Freight On Board".

2(B)	READY TO RIDE	(Blue Thumb BTS-8813)	1970
3(B)	WHAT A STRANGE PLACE TO LAND	(Blue Thumb BTS-26)	1971

A Californian group, probably from Los Angeles, although Moon Martin was originally from Texas. Their first album was released on the small Venture label and produced by Dugg Brown. It contains a good mix of Beatles influenced vocals with rock and country material. The second side is the strongest and contains the highlight of the album, Jim Pulte's *New Orleans (Mardi Gras)* with an eerie harpsichord. Three songs were penned by W. Hutchinson, two by L. Ware and V. Basemore and three by Dugg Brown (one being cowritten by Basemore). There's also one Dylan cover (*You Been On My Mind*) and some original cuts.

The second and third album saw the replacement of the Phil Hope by Fontaine Brown. Their material was now mostly original and more blues, country/rock and rock oriented. Produced by Tommy LiPuma, *Ready To Ride* was partly recorded live at the Fillmore West and its best tracks are probably *Heat Down In The Alley*, with some good guitar parts.

Their final album was produced by Skip Taylor, the producer and manager of Canned Heat. It's probably their blusier effort but their material wasn't strong enough to distinguish them from their competitors.

When the group disbanded, John "Moon" Martin went on to play with Linda Ronstadt and became a renowned singer and songwriter in the late '70s, notably working with Willy DeVille and Robert Palmer. He came back, with a very limited success, in 1996.

Jim Pulte recorded two interesting solo albums in 1972 for United Artists: *Out The Window*, with Jesse Ed Davis, Ben Sidran and Dr. John and *Shimmy She Roll, Shimmy She Shake*, with Jim Pons, Tom Dewey, Bobby Notkoff and David Lindley. He apparently stopped recording after that.

Bullock and Fraser had earlier played with Whistler, Chaucer, Detroit and Greenhill, a well-known sixties Texas outfit. The Country Max 45 is a great drug influenced item and at its best their album featured some superb twin guitar work but sadly it wasn't all of a high standard. All the 45 cuts were from the album.

This Chicago vocal-harmony group are often compared to the Mamas and Papas because of musical (both groups had a similar soaring, optimistic folk-pop sound) and physical (Spanky slightly resembled Mama Cass) resemblances. However, the Gang were more middle of the road in sound and more muted in their hippy sensibilities.

The group began playing Chicago's folk clubs in 1966 as a trio of McFarlane, Pickering, and Bach, but shortly after signing to Mecury were joined by Hale and Seiter. After an unsuccesful cover of the Beatles' *And Your Bird Can Sing*, they made the U.S. Top 10 with the lovely *Sunday Will Never Be The Same*. Over the following couple of

years, they were regular visitors to the pop-charts with their brand of lightweight but tuneful pop.

After leaving **Spanky and Our Gang** Oz Bach later formed Wings (with one album on Dunhill), before forming Tarantula. Malcolm Hale died of cirrhosis during the making of their third album and the group's fortunes began to wane about this time. A politically-conscious single, *Give A Damn*, was accorded an airplay ban on a number of stations, their chart-fortunes plummeted, and the band broke up at the end of 1969. Nigel Pickering and Kenny Hodges formed the short lived One Man's Family in late 1969.

In 1971 Lefty Baker died. In 1975, McFarlane and Pickering reformed the group with guest musicians and released the country-styled album *Change* (Epic 33580). After the demise of this chapter of the band in 1980, Spanky appropriately took Mama Cass's place in the reformed Mamas and Papas as 'Mama Spanky''.

Kenny Hodges and Nigel Pickering now both live in Jacksonville and St. Augustine, Florida and Spanky lives in Sacramento. Oz Bach sadly died recently. A reunion concert took place in St. Augustine on March 14, 1999.

This was a very popular combo in West Texas between 1957 and 1972. Forming in Levelland in 1957 line-up 'A' did

some recording at Norman Petty's studios in 1958 but nothing made it on to vinyl. They broke up for a while but later reformed with line-up 'B' and an unknown bassist. They underwent several further personnel changes. When Charlie Hatchet relocated to Lubbock to start a new outfit The Raiders he took Gary Blakey with him too and a new line-up (C) resulted. For a while in 1965 (line-up D) they used two drummers, although Lucky Floyd was also used as a vocalist too.

Their first 45 really predates this book. *U.T.* stood for untitled and was recorded in a garage in Clovis, New Mexico. Later in 1962 they signed for Hickory and Larry Parks, a drummer for Roy Orbison became their producer. They enjoyed some success with the resulting singles, particularly *The Hip*.

When Louie Holt and Gary P. Nunn left the band, Bobby Smith and Lucky Floyd headed to California changing the band's name to The Pearly Gate. This was around 1968. In fact they were scheduled to play a benefit for Robert F. Kennedy at the Americana Hotel the night he was shot. The band were involved with Al Perkins at this time and did a TV show called 'Judge For The Defense'. They later returned to Austin reverting back to **The Sparkles** and around 1970/71 Steve Weissberg, who had played lead guitar for John Denver, was in the band.

In 1972 Lucky Floyd was invited back to California to join Red Wilder And Blue. **The Sparkles** disintegrated soon afterwards. An early sixties line-up played some reunion gigs in West Texas early in 1985.

The band frequently crop up on compilations. Check out any of these below:- *The U.T.* on *Highs In The Mid-Sixties, Vol. 17 Texas, Part Four*. *No Friend Of Mine* on *Songs We Taught The Fuzztones*, *Nuggets* (4-CD), *Ear-Piercing Punk, 60's Punk EP, Vol. 1*, *Pebbles, Vol. 1* (CD) and *The Acid Dreams Testament* (CD). *Hipsville 29 B. C.* (*I Need Help*) on *Hipsville 29BC*) and *Mayhem and Psychosis*. *I Want To Be Free* on *Turds On A Bum Ride Vol's 1 & 2* (CD).

Their excellent *No Friend Of Mine* (credited to 'Roy Junior') was covered in 1967 in Pittsburg's legendary Swamp Rats and has been revitalised by The Fuzztones (*Leave Your Mind At Home* LP 1984) and The Cynics (*Blue Train Station* LP, 1988).

Another Justice label rarity exhumed for collectors to pick over the bones. You'll either love it or cringe to it. The usual bag of soul, R&B and ballads also covered by several of the other local acts on this North Carolina label, they range from quite good (*House of The Rising Sun*) to downright sloppy and embarrassing (*Try Me*, *Midnight Hour*). The empty gym sound of the recording doesn't help nor some very weak vocals - the band deciding to give everyone bar Tony Myers the chance to perform lead - their inadequacies are evident on the soul numbers and ballads. *Wipe-Out* comes as a welcome relief for that reason and is the most spirited rendition with clean ringing guitar.

The non-LP *Hulu Hoop*, featured on *The Big Itch Vol. 6*, was recorded at Arthur Smith Studios in Charlotte, North Carolina - the same venue used by the Voxmen.

Yes, this **Spiders** was actually Washington DC's legends Link Wray and The Wraymen putting out a Beatles influenced 45 under a suitable pseudonym. Check out *Baby Doll* on *Everywhere Chainsaw Sound Vol. 1*. Issue 3 of Bob Embrey's fanzine "D.C. Monuments" is devoted to Link Wray, the man who made the world 'Rumble'.

2	High Time/Baby Won't You Let Me Tell You How I Lost My Mind	(Reprise 0535)	1966
3	Strange Mysterious Sounds/Break Out The Wine	(Reprise 0558)	1967

Four groovy guys and a gal made up this outfit who hailed from Detroit (*), Michigan. Their material is in the soft psychedelic folk-rock mould - very hip, very San Francisco and they were produced by the Koppelman-Rubin team on *Break Out The Wine* and Jerry Ragaway on the other Reprise tracks.

The band were also featured prominently on WDTM-FM's folk/eclectic show, "Promenade", hosted by Larry Miller, who is to be given some credence as one of the founders of '60s FM format (Miller created the San Fracisco KMPX all night show in Feb '67, as an "electrified extension" of thematic "Promenade").

The Spikedrivers were semi-regulars at the Chessmate Coffee House in Detroit, a mostly folk venue that also hosted bands like Southbound Freeway, Siegel-Schwall Blues Band and Blues Magoos).

You'll also find *Baby Won't You Tell Me...* on the *Mindblowers* compilation.

Lucas and Keelan (possibly with some or all of the other members) also recorded at least one 45 as Misty Wizards entitled *It's Love*, which has been compiled on *A Heavy Dose of Lyte Psych* CD. Ted Lucas later made at least one solo album.

(Vernon Joynson/Paul L. Madarasz)

(*) **The Spikedrivers** actually formed in San Francisco around 1964 although all members were Detroiters, except for Keelan who came to Detroit via Miami/Cocoanut Grove Florida. BTW if anyone has tapes of Larry Miller's show, we'd love to hear from you!!

From Bremerton, Washington, this band were basically folk-rockers with some psychedelic pretensions. You can check out *That's The Time* on *The History Of Northwest Rock Vol. 6*, a 1984 cassette-only release. Their finest moment however, was probably *Little Lies*, an uplifting slice of folkie-harmony-pop with a San Francisco hippy vibe. The flip, *Til The End Of Time*, is a chiming melodious ballad with ringing Hispanic guitar runs. This 45 was produced by Gil Bateman.

Hearing **Spirit**'s records now, it seems surprising that they did not achieve greater success back in the late sixties. Certainly they have stood the test of time well.

Evolving out of an earlier Los Angeles band, The Red Roosters, **Spirit** were formed in 1967. They were one of the first bands to successfully combine rock and jazz, undoubtedly due to the jazz roots of their personnel. Drummer Ed Cassidy had been a modern jazz player in the fifties with the like of Gerry Mulligan, Cannonball Adderley and Theolonious Monk. He married in the late sixties a lady whose son was Randy California. Randy was playing in a high school band, The Red Roosters. Jay Ferguson and Mark Andes also played in this band, Eventually Ed Cassidy joined his stepson and the other ex-Red Roosters, with the addition of jazz-influenced keyboard player, John Locke, to form Spirits Rebellious in early 1967, the name taken from the book of the same name by Kahlih Gibran.

Between the time of The Red Roosters and the formation of **Spirit**, Randy California spent some time in New York, as part of a band called The Blue Flames, whose leader was Jimi Hendrix. Hendrix of course, was to be spotted by ex-Animal Chas Chandler, who bought him to Britain and, as his manager, produced a string of hits. Meanwhile, Mark Andes had been playing in an earlier version of what would later become another fairly successful LA rock/blues group, Canned Heat.

Spirit got a residency at The Ash Grove Club in Los Angeles, where Cassidy had earlier played with The Rising Sons. The same year they recorded a demo tape, comprised of such tunes as *Elijah Rock*, *Hey Joe*, *Darlin'* and others which they sent, without much success, to several record companies.

They were on the point of folding when Lou Adler signed them to his Ode Records label, which had a distribution deal with CBS. Their debut album contained a number of fine tracks which displayed their flair for combining jazz and rock. *Fresh Garbage*, *Elijah* and *Gramophone Man* consisted of vocal numbers sandwiching piano pieces, while their first single, *Mechanical Way* issued in 1968, was particularly interesting, but too uncommercial to become a hit.

Their second LP *The Family That Plays Together* was released in December 1968 and even better than their debut. One track, the more commercial rock number *I Got A Line On You* was issued as a single with *She Smiled* on the flip, and became a smash hit in the States. This marked a surge in their popularity, which progressed with each album they made. The album was also notable for three particularly melodic Jay Ferguson compositions, *Silky Sam*, *The Drunkard* and *Dream Within A Dream*.

Prior to the issue of their third LP *Clear*, they had worked on an abortive movie project with French film producer, Jacques Demy. Although the soundtrack album never materialised two tracks from the film, *Ice* and *Clear* were released on their third LP. A single *Dark Eyed Woman* was released from this album, but did not chart.

A further single *1984* was issued prior to their next album. This initially attracted considerable airplay but, shortly

after its albums release, radio stations were urged not to play it as it was 'too politically orientated'. Consequently, it did not chart and has become one of their most collectable items, although the 'A' side is also featured on their *Greatest Hits* album.

Also around this time there was considerable friction between California and Ferguson about the direction of the band. The former favoured a loose improvisational format; the latter, a more commercial rock approach. Lou Adler also switched the Ode label from Columbia to A&M and, as part of the deal, gave **Spirit** to Epic. Despite all this, their fourth LP, *The Twelve Dreams Of Dr. Sardonicus*, is generally considered their finest work. Far more commercial than their earlier albums, it contains a number of finely-structured rock songs like *Nature's Way*, *Animal Zoo*, *Mr. Skin* and *Morning Will Come*. Side two also contained some less structured but more ambitious numbers, such as *When I Touch You* and *Life Has Just Begun*, together with a jazzy instrumental, *Space Child*. However, the band split after the recording of this album, which was subsequently pieced together by producer David Briggs. The album did not sell at all at first, but gradually became more successful and went gold four years after the band had split. Ironically, had it sold better, the band might have stayed together longer.

A series of singles were issued from the album - *Animal Zoo*, *Nature's Way* and *Mr. Skin* - all flopped. The first of these singles has become extremely collectable, as few were pressed and the flip has never appeared on any of their albums.

Andes and Ferguson went on to form Jo Jo Gunne, while California convalesced after a riding accident. The remaining members, Locke and Cassidy, continued, adding twins Al and Christian Stachely (The Staehely Brothers). The line-up produced the disappointing *Feedback* after which the two original members left. The band was later revived more successfully by Cassidy and California in 1974, and has subsequently produced a string of successful albums, which are less relevant to this book.

Returning to 1972, for a while though - California back in LA, having recovered from his riding accident, formed a new band and released a Hendrix style album called *Kaptain Kopter and the (Fabulous) Twirlybirds*. This group included Larry Knight (bs) and Tim McGovern (drms) when they played live. However, Noel Redding played on the album under the pseudonym Cliff McTorius and Ed Cassidy also played on a couple of cuts. This outfit also recorded an extremely rare non-LP 45, *Walkin' The Dog*/*Live For The Day* (Epic 5-10927), which was only issued as a promo for radio stations. They also recorded the *Potatoland* album, which was not released until 1981 by Rhino (RNSP 303). Epic refused to release it at the time.

Tragically Randy California died on January 2nd 1997 after he and his son were hit by a freak wave in Hawaii and both were sadly drowned.

The Psychedelic Dream compilation features *Topanga Windows* and *Dream Within A Dream*. The band's music has aged well and is well worth listening to.

Very much a hippy outfit, their album was produced by Peter K.Siegel and Susan Leonard and all the selections were written by M. Metelica, T. Howes and A. Hinx.

Their rarely seen album contains some good guitar, organ and bass parts but the vocals (especially the female vocalists) are the weakest aspect. Lyrically there's a christian influence on some tracks: *Blind Leading The Blind* and *The Meek Shall Inherit The Earth*, whilst the sleeve shows what looks like a rural community, all posing in front of a building covered with snow.

This album is well worth searching out. Sadly it's very rare at present although there has been a recent limited reissue. This band were from Tampa, Florida and their catchy punk single *Rich With Nothin'* is featured on *Acid Dreams Epitaph* CD, *Pebbles, Vol. 1*, *Psychedelic Unknowns Vol. 1*, *I Was A Teenage Caveman*, *Pebbles Box* set and *The Complete Acid Dreams* (3-LP).

Formed by Dan Eliassen and Jim O'Brock in 1962, they were initally known as The Kingsmen. When *Louie Louie* became a hit for the more well known Kingsmen, they changed names to The Allusions, playing high school dances and teen centres. However they did not record.

In 1966 they changed name again to **The Split Ends** to reflect the changing times. Jim: "We started writing more and recorded *Rich With Nothing* and *Endless Sea*. The 45 was a moderate local (Tampa Bay area) success and we began playing larger venues and traveling across Florida. In 1967 we opened for a Dick Clark tour and were picked up to finish the tour: 'Happening '67'. The next year we were invited to Los Angeles to play on Dick Clarks nationwide band contest T.V. show: 'Happening '68'. We lost, but while in L.A. we played a couple of local gigs with Steppenwolf and Iron Butterfly".

"In 1969 we changed name again to B.O.O.T., an acronym for 'Blues Of Our Time', and released two albums in the early seventies".

1	Walking Around Town/Corinna	(Folkways F45001)	1964

NB: 91) as Two Time Mark.

In the '60s blues/folk movement, **Mark Spoelstra** was known was having done alternative service time as a conscientious objector long before the Vietnam war. A talented white blues/folk singer and 12 string guitar player, he is typical of these folkies who had many skills but somehow failed when the folk became electrified under Dylan's influence. **Spoelstra** moved to New York in the early '60s and began singing in the Greenwich folk scene with Bob Dylan and was finally booked by Gerde's Folk House. He took an active part in the bourgeoning Urban Blues Scene and recorded two tracks on the seminal *Blues Project* album, an Elektra project aiming at presenting these new musicians (others were Geoff Muldaur, Eric Von Schmidt, Danny Kalb, John B.Sebastian and Bob Landy (better known as Dylan!).

Spoelstra then secured a recording deal with Folkways and released two albums of folk/blues, which are too traditional too retain attention. After that, he got signed to Elektra for two records which are supposedly his best work but we have been unable to hear them. **Spoelstra** then moved to California and signed a management contract with Jim Guercio (Buckinghams, Chicago). Produced by Guercio, the 1969 CBS album benefited from the help of Roy Blumenfeld (Blues Project/Seatrain), Harvey Brooks (Electric Flag) and various L.A. sessionmen (Knechtel, Jim Gordon, Mike Deasy, James Burton), but the result is not really convincing. **Spoelstra** also appeared on the soundtrack of another Guercio project, *Electra Glide In Blue*.

In 1971 he got signed to Fantasy and *This House* was produced by Doug Clifford of Creedence, with the help of Steve Miller (Lynn County), Stu Cook and Duck Dunn (Booker T and The MGs). The album offers a pleasant but lightweight choce of original electrified bluesy folk numbers, the best one being *Dirty Movie Show*.

Spoelstra then apparently vanished from the music scene.

Weird'n'wonderful sounds emanated from Urbana, Illinois in 1968 and 1969 thanks to this previously unheralded assemblage. Whether any made it onto vinyl at the time is still unconfirmed - a likely outlet would have been Roger Francisco's own RoFran label and publishing house which released some 45s, including one by his earlier outfit The Prodigies.

The reissue contains a mixed bag of cerebral sounds - electronic collages interspersed or combined with jazzy vibes, acid rock, and dreamy folk rock. Some highlights:- *Walk In, Walk Out* opens with an electonic barrage before turning to more standard fuzz-pysch with (for a change) good use of brass; the astounding *E-Thing* could be a soundtrack to 'Apocalypse Now' - a backdrop of whining pulsing helicopter-like effects onto which is etched a heavy acid jam; *Rit Yellow Of The Sun* builds to a delicious hispano-flavoured guitar freakout then degenerates into fuzz and electronic mayhem.

This should appeal especially to fans of experimental or electonic psych by the likes of Fifty Foot Hose and the United States Of America.

In 1965 people were into happiness and hair, so when Barry McGuire's *Eve Of Destruction* came out, it was regarded as something of a party-pooper and generated a lot of debate over its 'message' and mood. Apart from ensuring that this backlash against the protest folk-rock (sic) scene improved its sales somewhat, other groups responded with reply-songs' piss-takes, etc. The Jayhawkers' *Dawn Of Instruction* could be put into the latter category whilst this outfit's debut *The Dawn Of Correction* is in the former. *Better Days Are Yet To Come* continues this optimistic viewpoint whilst *Have Courage, Be Careful* touches on fighting abroad without either condoning or condemning it. All done in a tame folk-rock-pop mode including the chunky uptempo *Mary Jane* featured on *Everywhere Chainsaw Sound* which, despite the title, has no druggie connotations.

Session guitarist Vinnie Bell was responsible for inventing the electric sitar, on the back of which he released an album.

The band were possibly Philadelphia based, whilst Madara and White went on to produce 45s by the Wreck-A-Mended.

ALBUM:

1	COME AND STICK YOUR HEAD IN...	(Flying Dutchman FDS-102)	1969

Produced by Jules Chaikin and recorded in Los Angeles, the self-set goal of this album was according to the liner notes, to fuse jazz a la John Coltrane or Eric Dolphy with rock in the style of the Mothers Of Invention. With two drummers, two guitars (including fuzztone on some tracks) and a horn section, it's in fact an average Californian instrumental jazz album with psych touches. Notable for being recorded by familiar studio aces: Mike Deasy (Ceyleyb People, Friar Tuck), John Guerin (Hammer), Jim Gordon, Larry Knechtel, Tom Scott, Mike Melvoin, Jim Horn and Dennis Budimir. Except for a cover of Tim Hardin's *Don't Make Promises*, all the tracks were composed by the percussionist Gary Coleman and Jules Chaikin.

1. Up In My Mind / Pictures Of Lily (Feure # Unkn) 1968

A very obscure combo about whom nothing is known (although Georgia has been mentioned as possibly their base). The 'A' side is pretty good with lots of fuzz and wah wah. You can check it out on *Beyond The Calico Wall* or

Pebbles (CD), Vol. 2. The flip is a cover of The Who's hit given Litter-esque treatment.

Seattle, Washington was their home and they evolved out of The Dynamics (the Afdem brothers and Harry Wilson had all been members). Their most successful 45 was *That's All I Really Need*, a soft rocker. Upon their demise Jeff Afdem formed a jazz group called The Springfield Flute, who recorded an LP for Seattle's First American Records,

but it flopped. You'll also find *That's All I Really Need* on *The History Of Northwest Rock, Vol. 1*, their cover of the old Shirelies' hit *Will You Love Me Tomorrow* on *Vol. 2* of the same series and *100 Or Two* on *Vol. 3* and also on *Battle Of The Bands, Vol. 2*.

The above album and clear wax 45 comprise the recordings of an Ann Arbor, Michigan outfit who lasted from 1969 through 1970. There's no mention of any original vinyl released at the time. Musically a mix of free-form, heavy acid-rock and cosmic noise - disturbing but often enthralling, cerebral rather than psychedelic, and a treat for the musically adventurous. (Max Waller)

NB. There was a limited repressing in the mid-eighties.

A quite appalling album which some books and dealers erroneously describe as 'psychedelic'. Beware, it's crap, full of badly redone thirty second rehashes of rock'n'roll classics. Apparently originals change hands for quiet a lot of money. God help the people buying them. Things do improve a little on side 2 which includes three tracks which are half decent:- *Why Girl No 2*, *Mind Odyssey*, and *Modern Error*, but then concludes with a pitiful cover version of *River Deep Mountain High*.

The band came from Missouri and also provided the musical backdrop to a spoken word religious album by Father Pat Berkery.

A Miami quintet who had some local success with their self-released debut. *Bitter End*, a bouncy garage-pop ditty penned by Jim Oliver, can be heard on *Every Groovy Day*. They continued as a foursome after Torano left. In 1969, after releasing a second 45 as **The Squiremen** and restored to five with guitarist Jack Vino, they became The Heroes Of Cranberry Farm and released at least seven 45s over the next two years.

Who In The World is a wonderful piece of piano-led melodrama where soft harmonious verses alternate with hard fuzz work-outs. Be sure to check this out on Psychedelic States: Florida Vol. 1.

Phil Keaggy later played in Volume IV, who later became New Hudson Exit, and went on to front Glass Harp before becoming a Christian music star.

The Squires also recorded several acetate recordings that feature Phil Keaggy's early attempts to write Beatles-style garage-pop. (George Gell/Max Waller)

The Squires

An unknown outfit, possibly from the San Francisco Bay Area, whose only legacy is two unreleased tracks recorded in November 1966 - *Anyhow Anwhere* and *It Must Be Love*. They're described as "killer punk" and 'jangly folk-pop" respectively by Alec Palao, who unearthed them on Big Beat's CD compilation *The Scorpio Records Story*.

SRC were part of the wave of Detroit-based heavy rock groups which emerged in the late sixties, and included bands like The Amboy Dukes and The MC5.

Originally from Birmingham, they started out as the Tremelos and later The Fugitives and issued four 45s (two on D-Town and two on Westchester) and an LP, *The Fugitives At Dave's Hideout* (Hideout HLP-1001) 1965. Three of their tracks are on the sixties compilation, *Friday At The Cage A Go Go* (Westchester 1005) 1965. *Friday At The Cage A Go Go* has recently been reissued under its alternate title *Long Hot Summer* on Hide The Sausage (HTS-001) 1989. As The Fugitives they have cuts on *Oil Stains* (*Said Goodbye*) and *Glimpses 3* (*On Trial*). The Fugitives tracks on *Mindrocker, Vol. 7* and *Back From The Grave, 3* are by a different band.

SRC's debut album contained one stand-out track, *Black Sheep*, on which Glen Quackenbush's organ playing gave the band a similar sound to The Doors' *Light My Fire*. The track received considerable airplay from John Peel in England. However, the band failed to capture the interest of the American public at large and disbanded after two further good LP's.

As **SRC** they have *Badazz Shuffle* on *Echoes In Time, Vol. 2*, *Get The Picture* on both *Boulders 2* and *Sixties Archive Vol. 7* (CD); *I'm So Glad* on *Turds On A Bum Ride Vol. 4* (CD) and *Michigan Rocks Vol. 1*. *Marionette* from their first LP can also be heard on *Illusions From The Crackling Void*. As **Scot Richard Case** you can find their competent, snarly version of *Get The Picture* on *Michigan Mayhem Vol. 1*.

They also recorded a 45 in 1972 as Blue Scepter (*Out In The Night/Gypsy Eyes*) (Rare Earth 5040) - the 'B' side is on *Echoes In Time, Vol. 1*.

1. (B) ABOVE ALL (Charisma RS 303) 1969 R6 [More Info]

NB: (1) was counterfeited in Europe circa 1988. More recently there's been a legitimate reissue on Void records and

CD issue on Gear Fab (GF-111) 1998.

A local Californian release and one of the rarest and probably the most significant American private press hard rock album of the era. **Stack** was 'discovered' in the mid-eighties and since then only a half-dozen original copies have ever turned up. *Above All* is a heavy blaster with echoes of U.K. freakbeat / psych creeping around in the shadows - **Stack** had an unusually super-distorted guitar sound, the result of using special custom made amps from a private factory in Los Angeles called Quilter. There's also one cover version - a wild garage R&B of Leiber and Stoller's *Poison Ivy*, and the remaining tracks are sixties style hard rock.

Stack were a figurehead group in a busy hard rock scene exploding out of the Los Angeles area in the late sixties. Formed out a surf act called The Vandells and another local act called Wabash Spencer, they went on to gig with such notables as Buffalo Springfield, Three Dog Night, Iron Butterfly, Illinois Speed Press and Frank Zappa. They were also often supported by Alice Cooper! However, fame and fortune eluded the band, not for lack of talent but because of a 'bum' deal from their record company. Signed for an eight year contract they were subsequently written off as a tax-loss, which left them contractually bound, no money and nowhere to go but obscurity.

Thankfully, the Void and Gear Fab reissues have made the album available to a wider audience for the first time, which should help **Stack** gain the attention they justly deserved. The Gear Fab CD also comes with extensive liner notes. (Clark Faville/Vernon Joynson)

The **Staehely Brothers** were in Spirit for the *Feedback* album. Afterwards they went solo and recorded this decent hard rock album. John Locke from Spirit also played on it and wrote some songs, and Ed Cassidy also plays, but uncredited (he may be "Stoop Hairy"). An underrated album several tracks deserve to be heard: *Captain Zombie Meet Unfellini*, *Rockin In The Bush*, *Future Shock*... The album was produced by Alex Kazanegras and came housed in a superb sleeve with drawings of skeletons.

In 1982, Al Staehely released a solo album *Stahaley's Comet* (Ranger Records). He also went on to play with John Cipollina and Nick Gravenites in the early '80s under the names Thunder & Lightning and the Gravenites-Cipollina Band. He is now an attorney in Houston, Texas.

7. Gettin' On's Gaffing Rough/The Necromancer (Capitol 2521) 1969

More of a folk-rock band that a psychedelic band **Stained Glass** were formed in 1966. With a line-up that included Tom Bryant on guitar, **Stained Glass** started out playing Beatles cover versions in San Jose. Originally recording for RCA they issued a series of singles. The first two, which were a mixture of folk and Merseybeat, met with some local success. The best was *We Got A Long Way To Go*, a driving rock song with immediate appeal, which was a big hit in San Jose during April 1967.

They moved to Capitol in the Spring of 1968 for whom they recorded three singles in addition to the two above-mentioned albums. Both albums were quite highly-rated, but failed to make much impact and the band disbanded in November 1969, although McPherson went on the play with Copperhead.

Some of the RCA singles are featured on *Mindrocker, Vol. 9*. In addition *A Scene In Between* can be found on *Psychedelic Unknowns, Vol. 7* and *Fuzz Flaykes And Shakes, Vol. 1*. Either of their albums are worth a listen if you can acquire them cheaply. The first was reissued by MGM in Greece.

Formed in Los Angeles in 1963, **The Standells** were manipulated by ace producer Ed Cobb into an archetypal punk band. He wrote most of their material and ensured that their lyrics articulated the resentments of America's youth against their parents and society. They are perhaps best known for the classic punk rock single *Dirty Water*, their first single for Tower, which Cobb had written about the Charles river in Boston.

Prior to their association with Cobb, the band had recorded a 45 on Linda in 1964 as Larry Tamblyn and The Standells, three singles and an album for Liberty and a 45 for MGM who also included two tracks from their first album on the Soundtrack to *Get Yourself A College Girl* (MGM SE 4273) in 1965. In this period they were a twist type discotheque group.

Later in 1965, they met Cobb when he produced two singles for them *The Boy Next Door* and *Don't Say Goodbye*. Cobb was sufficiently impressed with them to have them signed to Tower and *Dirty Water*, released in November 1965, which apparently the band hated, became a smash hit. The album was also strong, providing another hit single, *Sometimes Good Guys Don't Wear White*, which was issued in June 1966. It was full of other strong tracks like *Medication, There Is A Storm Comin'* and some good covers such as *Hey Joe* and *19th Nervous Breakdown*.

The Standells never equalled this success again. The *Why Pick On Me* album sold quite well and included a track *Have You Ever Spent The Night In Jail?* which was apparently written from Cobb's experience whilst in Texas,

The Hot Ones! is best avoided, consisting as it does of cover versions of other artists' classic hits like *Sunny Aftemoon, Wild Thing* and *Eleanor Rigby*. It flopped badly when it was released in November 1966.

Later, in 1967, they attracted more attention when *Try It* was banned because it was alleged to have disgusting lyrics. This was a real injustice 'cos a cover version of the song by Ohio Express in 1968 wasn't. Yet, despite this, the release of their next single *Don't Tell Me What To Do* with their name spelt backwards as a publicity-seeking gimmick and the inclusion of two tracks, *Riot On Sunset Strip* and *Get Away From Her*, on the soundtrack to *Riot On Sunset Strip*, they never quite achieved their early promise.

In their latter days they co-opted old friend Joey Stec of Millennium, first as a co-writer, later as a full member. The band were keen to write and perform their own material, but their association with Cobb ended in 1968 and they split up later that year.

Prior to replacing Gary 'Walker' Leeds in **The Standells**, Dodd was "resting" from being an original Mouseketeer/Blues Magoo. He later recorded an unsuccessful solo album, *The First Evolution Of Dick Dodd* (Tower ST 5142) in April 1968. Larry Tamblyn, who was the brother of Russ Tamblyn, made three singles for Faro

prior to his association with the band and an instrumental *Summer Clothes Pts 1 & 2* (Sunburst) after its demise in 1968. Gary Leeds left the band prior to the release of the *Dirty Water* album and had a brief spell with The Walker Brothers. Dick Dodd later played for Joshua and Dave Burke joined Indian Puddin' and Pipe. Dewey Martin also substituted for Dick Dodd for four months, whilst Dave Burke was previously bassist with The Tropics, from Tampa. Finally, Lowell George (from The Factory) replaced Larry Tamblyn when he left.

They've understandably figured on several compilations, including:- *Someday You'll Cry* on *Highs In The Mid-Sixties, Vol. 1*; *Big Boss Man* on *Mindrocker, Vol. 5* and there's an unnamed bonus track on *What A Way To Die* which sounds like it dates from very early in their career. Other appearances to date have been:- *Dirty Water* on *The Battle Of The Bands* (CD), the *Golden Archive Series Sampler*, Lenny Kaye's *Nuggets*, the *Nuggets* (CD), Rhino's *Nuggets, Vol. 1, Tough Rock* and *Wild Thing*; *Sometimes Good Guys Don't Wear Whlte* on *Highs Of The Sixties, Nuggets, Vol. 2, More Nuggets, Vol. 2* (CD) and *Nuggets, Vol. 2, Try It!* on *Born Bad, Vol. 4*; *Why Pick On Me?* on *The Golden Archive Series Sampler* and the *Nuggets* (CD); *Someday You'll Cry* on *Pebbles, Vol. 9* (CD); and *Dirty Water, Sometimes Good Guys...* and *Why Pick On Me* on Rhino's *Nuggets* 4-CD box-set.

In November 1999, **The Standells** reformed for a live gig at the 'Cavestomp '99!' festival in New York. Other bands appearing include The Chocolate Watchband and The Monks!!

6	Something You've Got/The Hardest Way	(Yardbird 4006)	Jun. 1966

NB: (2) reissued in 1997.

Hailing from the Los Angeles area they started off as an early sixties beat band doing cover versions and their album, a live LP of cover versions (*Around And Around*, *Walkin' The Dog*. *Farmer John*, *Peter Gunn*, *Hold Me*, *Justin*, *Money*, *No Reply*, *Great Balls Of Fire*, *Apache* and *Stand By Me*) was in this mode. Thereafter they became very punkish, performing mainly original compositions written by their bassist Freddy Fields. *I Never Loved Her*, in particular stands out as a classic garage number, with a twist in the tail to its lyrics, and one of the all time great riffs. Other tracks also have merit too, with *Cry For Freedom* being notable as an early Vietnam protest.

Their final 45 features an OK version of the Chris Kenner song but tucked away on the flip is *The Hardest Way*, a stunning low-key moody droning pop-punker from Freddy Fields with dynamic drumming, lashings of choppy guitars and mean fuzz.

Sonny Lathrop, was later rhythm guitarist in a slick club band called Mickey And The Invaders in 1967 and later

went on to form Sweet Marie.

G.I. 4003 is known to exist, but does not contain material by **The Starfires**.

Compilation coverage has included: *I Never Loved Her* on *Pebbles, Vol. 8* (LP & CD) *The Essential Pebbles Collection Vol.1* (2-CD) and *Psychedelic Unknowns, Vol. 2*; *Linda* on *Highs In The Mid-Sixties, Vol. 1*, *Psychedelic Unknowns, Vol. 3* and *Mondo Frat Dance Bash A Go Go*; *There's Still Time* on *Acid And Flowers* and *Basementsville! U.S.A.*; and *Cry For Freedom* on *Pebbles, Vol. 9* (CD).

In the 1980s *I Never Loved Her* was covered by Austria's Vogues on *A Doll Spits Cubes* and The Cynics on *Twelve Flights Up*.

1. Walking Around/That's How It Feels (Century Records Test Pressing 22355) 1965
2. Walking Around/That's How It Feels (Decima 2001) 1965

Steve Ellis was born in Pipestone, Minnesota on 23rd December 1944. He was a great lover of music, cars and motorbikes. By the age of 12 he'd learnt to play guitar, at 14 he'd joined his first local band The Squires. Later, he briefly played with another local band, The Sabres, before forming **The Starfires** in 1963. They were named after a car and Steve was in every respect the leader of the band, he even did all their bookings. They soon established themselves as a very popular live act in the Midwest. In 1964 Ron Butler switched to organ and Butch Jergins came in on bass. Later Barry Hanson replaced Jim Brandenburg on rhythm guitar and Bill Storie replaced Butch Jergins on bass. By mid-1965 Ron Butler had left the group and the remaining four players went to Sears Recording Studio in Omaha, Nebraska to cut a demo disc using two Steve Ellis original compositions *Walk Around/That's How It*

Feels. The pressing is now rare. The songs weren't punk, but veered towards folk rock. Ellis headed out to California with the demo and tried to attract the attention of a major label, but he returned empty-handed. Despite this setback the band never gave up, they re-recorded the 45 in Dodge City, Kansas and it was issued on the Decima label. This was a far superior version. Butch Hatting left the band soon after the 45 was released and a new line-up (E) was put together. In the Summer of 1967 this line-up travelled to the IGL Recording Studio in Milford, Iowa to begin recording several new Steve Ellis compositions. Five were recorded - *On My Mind, Her Face, Looking Thru Me*, *Pride Of A Man* and *Baby's Gone* - plus *Since I Fell For You*, a cover of a Skyliners' song released in 1963. Then tragedy struck, before the other five songs could be completed, Steve was killed in a freak motorcycle accident on 31 August and 1967, when his rear tyre blew, He was just 22. The *Storybook* album was pieced together after his death. It consisted of the six finished songs cut at IGL Studios, the two songs from the previous 45 and narration from a friend of his Tom Rambler and is now very rare. **The Starfires** soldiered on for a while without Steve before calling it a day. *Pride Of A Man* was also included on the rare *Roof Garden Jamboree* compilation released in 1967 and more recently seven tracks from the IGL sessions have been compiled on *The IGL Rock Story Part Two* (CD).

From Levittown, Long Island, New York. This outfit's album is a superb and very under-rated progressive album with long organ tracks, fuzz, pleasant piano interludes and some effective female vocals in places. NB: (1) released as Just Us.

British guitarist/R&B fanatic Dave Starky moved to Houston in late 1964 and with the help of some local boys soon started up **The Dave Starky Five**. In 1965, they caught the eye of a shady local record guy called Ray Rush, who took them into the ACA-Goldstar Studios to record the above two originals, both excellent garage pounders. Before the record could be released, however, Starky flew the coop and returned to England. The band more or less broke

up at this point, but Rush wanted to release the record, cooking up a crazy promo scheme with a local radio station in a "rename the recording group" contest. The winner was chosen to be Just Us and that's how the record was released in January 1966. The original singer and bass player got some other guys and got back together at this point, but they hated the new name, so they went back to calling themselves **The Dave Starky Five**. Unfortunately, they never regained their momentum. *Hey Everybody* has turned up on *Back From The Grave, Vol. 8* (the sleeve-notes to which have provided the information for this entry).

NB: (1) reissued on CD (Collectables COL-CD-0611) 1995.

A quartet of students from South Stokes High School, North Carolina who have a great deal of talent to offer - so said Calvin Newton on the original liner notes to this rare album. A smattering of Invasion covers (Beatles, Animals) plus some clubby ballads and instruments (the obligatory *Wipe Out*). Undoubtedly competent, but the band doesn't really swing, snap or bite and the vocals tend to be flat (in sound rather than key). Perhaps just doing covers meant they weren't able or willing to assert their own identity, creativity, or let loose. Like some others on this Justice series, they sound stuck somewhere around 1964 to 1965 too - no sign of a fuzztone. The reissue satisfies curiosity but not the palate.

The identical fuzz-pop track turns up again behind soulful songstress Amanda Ambrose on B.T. Puppy 539. And there's an earlier version of it - a cool jazzy instrumental with melodious sax by Shenny "Goofy" Brown on B.T. Puppy 531. Four different and all pretty good, versions. (Max Waller)

Originally from San Francisco, **Leigh Stephens** had previously been in Blue Cheer and Silver Metre. He moved to England in 1969 and recorded two interesting albums, the first being the better of the two. *Red Weather* is a good mix of psych and prog with effects on the guitars and voices. NB: (1) was almost certainly promo-only, and contains embryonic versions of two tracks that showed up on the first album - but these are very different and very psychedelic, backwards guitar solo, sound like a brief glimpse of Sparrow turning into **Steppenwolf**. (3) also issued in a picture sleeve in France (Stateside FSS 622) 1969, and in the U.K. with picture sleeve (Stateside Dunhill SS 8027) 1969. (8) contains the version of *Twisted* that appears on the *Live* album, but without the audience overdubbed. Yes, the **Steppenwolf** *Live* album is a fake "live", like most live records from the era. It does sound live in the studio, though. (11) issued in a picture sleeve with amazing band shot and banner "As featured in the soundtrack of the motion picture Easy Rider". (14) was probably a replacement for (13), The 'A' side is an album version (from *For Ladies Only*) but the 'B' side of (13) is a studio freakout! Clocking in at (8:46) it's also one of the longest 45 sides from the era. Obviously not intended for the album, the track is instrumental, composed mostly of feedback from the bass guitar and creepy organ sounds. The credits are Jerry Edmonton, George Biondo and Goldie McJohn, who were obviously buzzed at the time. (2) and (3) released in France with PS (RCA 49915 and Stateside RCFSS622).

Steppenwolf evolved out of the Canadian band Jack London and The Sparrows, who made an album (1965) in Canada and backed a female singer on another album - Jerry Edmonton, Dennis (Mars Bonfire) Edmonton, Nick St. Nicholas and Goldie McJohn all come from this band and Nicholas had earlier played in Hardtimes. They subsequently dumped their singer / heart-throb Jack London and drafted John Kay, with whom they made several 45s, which were later compiled on an American album *John Kay and The Sparrow* (Columbia CS 9758) (1968 or 1969 - has 360º label).

After hitting the road across the U.S.A. (mostly New York and California), they settled in the Bay Area (Mill Valley) and spent their last months as The Sparrow. Dumping Mars Bonfire, the other four went to Los Angeles and drafted Michael Monarch (who was the just 17 years old!) and formed **Steppenwolf**, taking the name from the Herman Hesse novel. Somewhere along in here Nick St. Nicholas left to form T.I.M.E. with Larry Byrom (who later joined **Steppenwolf** for their *Monster* album) and in the interim Rushton Moreve filled in on the first album.

Their music now leaned towards hard rock, and tended to reflect the political and drug influences of the times. Their debut LP contained the rock classic *Born To Be Wild*. A timeless song, still regularly played at parties, this was a massive U.S. and minor U.K. hit. Later featured in sixties cult film 'Easy Rider' it would also become the bikers' anthem. This film also featured *The Pusher*, another highly popular song from their first album.

John Morgan was drafted in for their second LP, which contained another massive U.S. hit *Magic Carpet Ride* (a title with trippy connotations) and now everything the band produced was becoming a best-seller.

The Monster was probably their finest album. Essentially an anti-Vietnam war, anti-US establishment song, it traces America's development from colonisation through to its involvement in Vietnam. Along the way, the spirit of freedom and justice had been sacrificed by the country's leaders who had become corrupted by power and allowed the nation's cities to become jungles, and who were now fighting a war the nation could not afford. In short, its leaders had created a Monster, and the song's chorus was a rallying cry to the nation's youth to fight.

> 'America where are you now?
> Don't you care about your sons and daughters?
> Don't you know we need you now,
> We can't fight alone against the monster'.
> (From *The Monster*)

This theme is apparent throughout the album. *Draft Register* is another anti-war song, *What Would You Do (If I Did That To You)* confronts colour prejudice; *Power Play* and *From Here To There Eventually* (both incidentally containing fine guitar work) represented a further challenge to authority.

The harshness of the band's heavy sound is well captured on their *Live* album, released in 1970. But by now Monarch and Morgan had left the band. They were replaced by Nick St Nicholas (bs) and Larry Bryom (gtr) and later George Biondo relieved St Nicholas, whilst Kent Henry replaced Byrom. Henry, had previously played in local Los Angeles band Genesis.

The group finally disbanded in 1972, after nine hit albums. Indeed it has been estimated that between 1968-1972 they grossed $50,000,000. Kay made two solo albums and Edmonton and St John returned to Canada and set up their own band, Manbeast. None of these projects were commercially successful and in 1974 the group reformed to release a further string of bestselling albums. After disbanding again in 1977, they later reemerged in 1982 as John Kay And Steppenwolf back in Canada.

Steppenwolf was probably so mercurial due to John Kay's obvious domination of the group. Great groups usually have strong leadership though, and nearly every incarnation of **Steppenwolf** was excellent. Their artistic pinnacle was undoubtedly *Steppenwolf 7*, one of the most instrumentally awesome and lyrically majestic albums. On this Jerry Edmonton established himself as one of rock's greatest drummers. Tracks like *Renegade* (Kay's auto-biography of his escape from East Germany, chillingly told with a stunning instrumental section in the middle) and *Foggy Mental Breakdown* (so influential in composition that scores of Italian progressive bands used it as a blueprint for years) and made clear that **Steppenwolf** was one of America's best.

Magic Carpet Ride can also be found on *Nuggets, Vol. 9, Best Of '60s Psychedelic Rock* (CD) and *Wild Thing* and *Nuggets, Vol. 6* includes *Sookie Sookie*.

These 45s were the work of a mid-sixties Californian outfit, thought to have come from Sacramento or San Jose. *I Only Want To Dance With You* can also be heard on *Sounds Of The Sixties: SFO Part 1*. This was an enthusiastic popish garage effort with powerful drumming. The follow-up *So Tough* was an adequate cover of a Casuals' song.

5. (C) Come In The Morning/Necessary Person (August 102) 1968
6. (D) Have You Ever Seen Me?/Necessary Person (August 102) 1968

NB: (5) withdrawn.

Formed in 1965 as The Syndicate in the Minneapolis suburb of Robbinsdale, Minnesota, they changed their name to

The Stillroven in early 1966 when rhythm guitarist Dan Kane replaced Mark Moorhead from The Syndicate's earlier line-up.

The Falcon promo, *She's My Woman/(I'm Not Your) Stepping Stone*, only had a limited pressing of 50 copies, and like many of their singles is very sought-after. The superb *Little Picture Playhouse/Cast Thy Burden Upon The Stone* 45 features pure Anglophile pop on the 'A' side with its quaint theatrical metaphors and piano-based arrangement. The track was originally recorded by U.K. outfit Simon Dupree and The Big Sound and together with the flip, where John Howarth's electric sitar playing adds that hallucinogenic flavour, is arguably their creative zenith.

Following this 45, their manager Peter May moved to Tucson, Arizona, although he still continued his manager / producer role from a distance. More damaging was the departure of talented vocalist Phil Larkin and Dave Berget (although he later rejoined the band). In June 1968, they cut a fourth single, *Come In The Morning/Necessary Person*. The 'A' side was a Moby Grape cover, but May decided shortly after its release to pull the 'A' side and replace it with a more convincing rendition of The Small Faces' *Tell Me Have You Ever Seen Me*. By now Dave Berget had rejoined to provide the lead vocal on the song. Only 100 copies of *Come In The Morning* are thought to have left the factory, making it another highly collectable 45. The flip of both versions of this 45 was a pleasant Mike O'Gara original.

The *Cast Thy Burden Upon The Stillroven* retrospective features:- *And My Baby's Gone*, an obscure early Moody Blues track; *Have You Got A Penny*, a nice pop number; *Cheating*, a raw Animals' cover; *Little Games*, a failed 1967 Yardbirds' single and concludes with a slice of improvised psychedelia aptly named *Freakout*.

They also provided a track on *Money Music* (August 100), a rare 1967 compilation which itself had a limited pressing. In late 1968, they recorded an entire album for A&M Records which was never released... Sundazed have also promised to unearth that too!

The Stillroven have also been readily compiled. Their version of *Hey Joe*, which features superb guitar work by John Howarth and is reckoned to be one of the best, has resurfaced along with *Cast Thy Burden Upon The Stone* on *Garage Music For Psych Heads, Vol. 1*; their excellent cover of the Small Faces' *Have You Ever Seen Me?* can be heard on *Changes*, although that compilation is itself becoming hopelessly rare and *(I'm Not Your) Steppin' Stone* re-emerged on *Root "66", Vol. 1*. Embracing garage, psych, folk-rock and pop this versatile outfit merit a retrospective collection. Two of their finest moments, *Hey Joe* and *Sunny Day* are also compiled on *Psychedelic Microdots, Vol. 3*(CD).

This band came out of San Antonio, Texas, and just 150 copies of this garage gem were pressed on their own label. Bill Ash went on to play briefly with The Mind's Eye although he didn't play on their 45. Curiously, The Mind's Eye became The Children, who also recorded a version of **The Stoics** *Enough Of What I Need*.

Produced by Michael Lloyd (WCPAEB, Smoke...), designed by Cal Schenkel (Zappa) and dedicated to Jack Kerouac, **Simon Stokes**' first album is an excellent psyche blues album a la Captain Beefheart. *Big City Blues*, *Voodoo Woman*, *Ride On Angel* and *Which Way* are fast blues/rock numbers with the growling voice of **Stokes** and the inventive guitar of Butch Senneville (ex-Quatrain). Almost all of the songs were composed by **Stokes** and Randall Keith and five tracks also appeared on the soundtrack of "Outlaw Riders", a bikers movie.

In 1973 **Stokes** was back with Senneville for a new album *The Incredible Simon Stokes And The Blackwhip Thrill Band* produced by David Briggs. Its sleeve designed by Pacific Eye and Ear shows mad monks whipping girls and S&M scenes. Weird! The songs have strange lyrics too (*The Boa Constrictor Ate My Wife Last Night*, *The Wolf Pack Rides The Night*, *The Devil Just Called My Name*, *She's Got The Voodoo*) and there's a new version of *Ride On Angel*. John Locke of Spirit plays keyboards on this album too.

The final LP contains a new version of *Big City Blues* but is not as interesting.

Prior to forming the Nighthawks, **Stokes** released some solo 45s and was in Perpetual Motion Workshop, who released one sought-after 45. Robert Ledger was previously in Armageddon and Harry Garfield had been in Gary Lewis and The Playboys.

Thought to have been Californian, this band was responsible for one of the rarer and stranger Mainstream releases, which incorporates many diverse influences. Sometimes it don't always gell but certainly makes interesting listening. All the cuts are originals, written either by Jonathan Caine or a guy called Murphy, who presumably had some connection with the band, since some tracks are co-written by Caine and Murphy. The material is wide-ranging from the accessible psychpop of *Sara Wells*, laid back, melodic opening cut *What Went Wrong* and uptempo *Inside-Out Man* to the highly experimental *People I Once Knew*, which starts with spoken lyrics over melodic piano and later descends into lots of fuzz and organ work. *The Mister Grey* 45, which is also on the album, is interesting too. Recommended for fans of psych and/or progressive rock but not for garage purists.

Produced by Rick Jarrard (Loading Zone, Jefferson Airplane, Harry Nillson), it was recorded in Hollywood and is worth searching for.

In her 1969 rock encyclopedia, Lilian Roxon mentioned that "they played a combination of rock, folk, country rock, pop, country that just covers everything and even has its own name: mod country". A gifted singer and songwriter, Steve Young shortly afterwards went solo and recorded a long series of critically acclaimed albums in the country rock style, his most well known song being *Seven Bridges Road*. Don Beck went on to join Dillard and Clark, whilst Denny Conway became a session man.

Lewiston, Idaho was home to the Speer brothers and they started pre-teen groups in the early '60s, first as the Three Dimensions and later the Knights Of Sound. Renamed **Stone Garden** in 1967, they were influenced by the Doors,

Hendrix, Cream, Beatles and Creedence.

In 1969 local support led to their first recording forays resulting in their now-rare 45 and several unreleased tracks recorded by Rick Keefer at Ripcord Studios in Vancouver, Washington. All are aired on the LP, which consists predominantly of heavy acid-rock with Cream influences to the fore.

4	Carnival Bear/Up To My Neck In High Muddy	(Capitol ?)	1968

An interesting Californian folk/rock outfit. Originally a duo of Linda Rondstadt and Bob Kimmel known as The Kimmel Brothers, they soon adopted the **Stone Poneys** monicker and recruited Ken Edwards. Both Ken and Bob were already respected songwriters and studio musicians.

Their first album was produced by Nick Venet (Mad River, Leaves, Euphoria) and is really good. The material is strong (*Wild About My Lovin', Train And The River, Sweet Summer Blue And Gold*) and the music and vocals extremely consistent. All the songs were written by Edwards and Kimmel, except for Tom Campbell's *2.10 Train* and *Orion*, and *Little Bit Of Rain* by Fred Neil. It is worth noting that all the backing musicians and Venet also worked with Fred Neil on his two albums recorded in 1967.

After two other albums, the trio disbanded although *Stone Poneys And Friends* was basically the original group in the studio with session players. When *Different Drum* became a hit, Linda went on the road with Bobby Kimmel (gtr), Shep Cooke (bs) and other sidemen. By that time, the group was defunct but Ronstadt needed the money and to support the single, they played a four-month tour as 'Linda Ronstadt and the Stone Poneys'.

This group was dropped as soon as the tour finished and by November 1968 the **Stone Poneys**, were John Forsha (gtr), John Ware (drms), John Keski (bs), Herb Steiner (steel gtr) and Bill Martin (piano). Herb Steiner recalls: "In 1968, Linda Ronstadt hired me for the **Stone Poneys** band as a dobroist/mandolinist. When she found out I could play a little steel guitar (mostly non-pedal), she encouraged me. Michael Nesmith was a friendly acquaintance of mine, and graciously loaned me a steel guitar until I could purchase one of my own. In the year I played with her we had several band incarnations, but the one that toured most was myself on steel, John Forsha on guitar, John London on bass, Johnny Ware on drums and Bill Martin on piano. My first gig after the **Stone Poney**'s was to move to Connecticut and join the Wildweeds, whose band leader, Al Anderson, went on to the NRBQ."

Kenny Edwards went on to the Los Angeles band Bryndle alongside, Peter Bernstein, Wendy Waldman, Andrew Gold and Karla Bonoff. They played their first show at McCabes in Santa Monica in 1969 and in 1970 recorded what should have been their debut album for A&M Records with newcomer producer Chuck Plotkin. Only a single, *Woke Up This Morning*, was ever released and was a regional hit in Northern California before disappearing. Bryndle soon disbanded with, Andrew Gold and Kenny Edwards then forming the Rangers with Peter Bernstein

(bassist of Bryndle and son of composer Elmer Bernstein) and Gene Garfin on drums (ex Comfortable Chair). They made demo after demo, but never got a deal. In 1973 Andrew Gold joined Linda Ronstadt's band, then Kenny followed suit in time for her *Heart Like A Wheel* album. Kenny Edwards also kept on working in the Californian studios, notably with Bernie Schwartz and Warren Zevon.

John London (real name John Kuehne) and John Ware went on to join the Corvettes, who also featured Bernie Leadon and Chris Darrow and cut two 1969 singles for the Dot label. The Corvettes became Linda's backing band in 1969 but folded in December '69 when Leadon joined the Flying Burrito Brothers. London and Ware both joined Michael Nesmith's 1st National Band in late 1969, London had previously played with Nesmith in 1966, before relocating to L.A. in 1966. He sadly passed away in 2000. Ex-**Stone Poney**'s Shep Cooke and Bob Kimmel later formed the Floating House Band, a studio project for their 1972 album, although the duo did play at McCabes alongside Bryndle. Andrew Gold also assisted on the album.

Cyrus Faryar was also in Modern Folk Quartet and Billy Mundi in Lamp Of Childhood.

ALBUM:

1. STONED CIRCUS (Rockadelic RRLP 12.5) 1994

A fine hippie quintet with male-female vocals in the Jefferson Airplane mould. They recorded their only album on 4th September 1970 at Cavern Sound Studios, Missouri and were originally from Independence (Harry Truman's birthplace), but it remained unissued until 1994. This is the same studio where The Wizards From Kansas and Burlington Express layed down their first tracks. The album contains an excellent cover version of the traditional *Babe I'm Gonna Leave You*.

Prior to their first LP this band recorded an album that was never issued. Warner Bros reputedly have the tapes. They became the touring band for Warner Bros. Medicine Ball Caravan, a multi-circus group which toured Canada and the USA and journeyed to London between the summer of 1970 and February 1971. During this time they produced demos for Columbia which later emerged in Italy on Blue Velvet records. Reputedly pretty good despite their indifferent sound quality, they include several tracks not included on later albums. For reasons better known to them the label called the album *Stoneground-On Stage* (Blue Velvet FCP 001) although none of the tracks are live.

After their tour they settled in their native San Francisco, where they rapidly established a reputation as a fine live band. Their debut album was notable for fine guitar work by Barnes and used several vocalists to good effect. The follow-up was a double LP consisting of one studio side and three live sides from a San Francisco radio FM broadcast. After one further album with the full size band internal friction lead to the departure of all of the original members except Barnes and Sampson. They even split up all together for a while but Barnes returned in 1973 with a new line-up.

An historically important band in the tapestry of West Coast rock (for example, Sal Valentino had earlier been with Beau Brummels and later formed Valentino which included Blakely and Phillips; Lydia Phillips had earlier played with Indian Puddin' And Pipe; Pete Sears joined from Copperhead and later played for Jefferson Starship, Silver Metre and Price, Godula and Lerois were all previously in Together) they were also featured on the closing days of the Fillmore LP. They were still recording albums, too, in the early eighties.

Very much a hippie outfit, they may be of interest to readers.

An extremely rare, privately pressed hard rock album with some psychedelic trappings. This type of album is far more likely to interest hard rock enthusiasts than connoisseurs of psychedelia and is a very marginal case for inclusion. *Solitude* and *Atlantis* are probably the most relevant tracks to this book.

The central figure in this band was Iggy Pop whose real name was James Jewel Osterburg. He was born on 21 April 1947 at Muskegan, Ann Arbor in Michigan. His first band was The lguanas whom he drummed and sang for. They released a cover of Bo Diddley's *Mona*. He met Ron Asheton and James Williamson whilst he was with The Iguanas, whom he soon left to join the Prime Movers, who for a very short while also featured Ron Asheton on bass. It was around this time that he adopted the name Iggy Pop (Iggy after The Iguanas and Pop after Jim Popp, a local junkie). His stay with The Prime Movers was a brief one and he spent most of 1966 in Chicago before returning to Michigan to form The Psychedelic Stooges (line-up (A)) in 1967. At the end of the year bassist Dave Alexander joined the band. They gigged regularly around the Michigan area and having shortened their name to simply **The Stooges** caught the eye of an Elektra employee who was in Detroit to sign The MC5. **The Stooges** were snapped up too and advanced $25,000 to record their debut album which made No. 106 in the U.S. Album Charts. Produced by John Cale, it was recorded over four days and issued in a sleeve reminiscent of The Doors first album. The orange labelled original Elektra releases are the most sought-after. Full of banal, three chord rock'n'roll the album was classic punk-rock and in retrospect years ahead of its time. Their debut 45, taken from the album, is extremely rare. Rarer still is an Italian issue which coupled *I Wanna Be Your Dog* with another cut from the album *Ann* which appeared on Vendette (VRN 34101) in a full colour picture sleeve. Equally rare is a French picture sleeve release which coupled 1969 with *Real Cool Time*.

Early in 1970 Steve Mackay and Bill Cheatham joined the band and they set about recording *Fun House*, which was produced by Don Galluci (ex-Don and The Goodtimes) whose production credits had included The Kingsmen's *Louie, Louie*. Many regarded the album as superb but the month it was released Dave Alexander went missing and later the band quit in August 1971 after a freeway accident. They had been disintegrating anyway amid drug-related problems that plagued many bands in this era. Their second 45 is also extremely rare, consisting of two cuts from *Fun House*. Rarer still is a French release with a stage shot of Iggy but there was also a mega-rare Japanese picture sleeve issue of their 45. *Down On The Street* can also be found on an Elektra various artists sampler, *Garden Of Delights*, which came out in 1971. After the split Iggy moved down to Florida where he improved his golf and took a job cutting lawns and it was a chance meeting with David Bowie in a New York bar which led to the band's reformation, at Bowie's instigation, for a final fling. Line-up F was signed to his management company Mainman and flown over to England to record a two album deal with CBS. However, Tony De Fries (Bowie's manager) considered most of their initial output too violent to be associated with Bowie and most of it was scrapped at his insistence. Eventually the album was released but it was disappointing overall. It did however, make No. 182 in the Album Charts. *Search And Destroy*, one of the few surviving tracks from their first session, also found its way onto a very rare 45 with *Shake Appeal* (which was a modified version of *Tight Pants* also from the first session). The second projected album never materialised because of differences of opinion between management and the band. De Fries then proceeded to sack Williamson because of the latter's drug problem and after a U.S. tour which ended in violence at two gigs in Detroit **The Stooges** split from Mainman and later disbanded. One of the shows, recorded on cassette, was later issued as *Metallic K 0.* (Skydog SGl 5 008) in France in 1976. A live version of *1969* (a song from their first album), recorded at the 1970 Cincinatti Pop Festival, later appeared on the 1977 *Michigan Rocks* compilation, and two further tracks from this performance appeared on a bootleg single, *TV Eye/l Feel Alright*.

The Stooges were an important influence on the 'punk-rock' phenomena of the late sixties and in 1977 their first three albums were reissued in the U.K. and *Metallic KO*. got a U.S. release. The French label New Rose's Fan Club subsidiary released six tracks that Iggy and The Stooges had recorded as studio demos after the failure of *Raw Power*. 1977 also saw the release of Bomp (BLP 4001) in the U.S. and Radar (RAD 2) in the U.K. of the *Kill City* album, which had actually been recorded back in 1975 when journalist Bob Edwards and songwriter Jimmy Webb pooled their resources to bring lggy Pop, James Williamson and Scott Thurston together to record it. Also of note is *Rubber Legs* (Fan Club FC 037) issued in France in 1987 along with a free 45. The album was a collection of previously unreleased studio material.

After their split back in 1973 Iggy Pop enjoyed a reasonably successful solo career, Williamson became a recording engineer in LA and Ron Asheton formed a short-lived U.S. band called The New Order before joining Destroy All Monsters with various MC5 members.

Compilation appearances have included: *I Wanna Be Your Dog, 1969, 1970, No Fun* and *T V. Eye* on *Electrock The Sixties*; and *1969* on *Michigan Rocks Vol. 1*.

From Charlotte in North Carolina. Apart from their original *Just A Toy* we have more competent beat and Brit Invasion covers that don't quite take off. Slightly more inspiring than label-mates The Starliters, this outfit do engage in some charming garagey folk-rock with a decent version of The Byrds' *It Won't Be Long*. They tackle *C.C. Rider*

You can also checkout *Night Time* on Lenny Kaye's *Nuggets* compilation, whilst the *Nuggets* 4-CD set includes both *Night Time* and *I Want Candy*.

The Strangeloves also recorded under the name The Merry Dragons and Sheep. Under the latter monicker they also enjoyed a No. 58 U.S. hit with *Hide And Seek* in 1966, whilst a later effort *I Feel Good* made No. 130. They're also rumoured to have recorded a 45 as The Beach-Nuts.

Other production credits by the trio included The Angels' *My Boyfriend's Back* (which had been a No. 1 for this New Jersey-based female pop trio back in 1963. Richard Gottehrer later became a partner in Sire Records, which the band helped to form, producing The Go-Go's first two albums and Blondie's debut. Jerry Goldstein's production credits included The Druids Of Stonehenge, Eric Burdon and War and Tim Buckley's *Greetings From L.A.*. His Far Out Productions company were based in L.A. from 1969.

This Glendale, California-based band was originally known as the Irridescents, a surf combo with one 45 in 1963, and later as Thee Sixpence who issued several 45s under this name. The name change came with the release of the 45 *Incense And Peppermints* because of other similarly-named groups. This was picked up by UNI and the rest is history as they say. **Strawberry Alarm Clock** were very much a product of their era and their commercial brand of psychedelia was more acceptable to the general public than that of the more interesting underground bands. Like The Seeds they were very much geared to the flower power scene, and both bands were featured in a cult movie of that era, *Psych-Out*. One advantage they possessed over The Seeds was their catchy name, although later with the demise of flower power, this would prove to be more of a disadvantage. Efforts the band made to tailor themselves a 'psychedelic' image are evident from the apparel they wore on the front cover of their best album *Incense and Peppermints*, which was released on Pye (28106) in the UK. Aside from the ultra-commercial title track, this contained a number of prominently instrumental quasi-psychedelic jams, with Mark Weitz's organ usually to the fore.

Further albums and more hits followed before **The Strawberry Alarm Clock** became a victim of the changing times. Ed King later played with Lynryd Skynyrd. A 1981 line-up was reported gigging around California. A good introduction to the band is the 1987 compilation *Strawberries Mean Love*.

Compilaton coverage has so far included: *In The Building* on *Psychedelic Disaster Whirl*, *Incense And Peppermints* on *Best Of '60s Psychedelic Rock* (CD); *Incense And Peppermints* on *Nuggets, Vol. 9*; *Tomorrow* on *Nuggets, Vol. 5*; *Nightmare Of Percussion* on *Baubles, Vol. 1*; *In Relation* (as by 'Strawberry Sac') on *Mindblowing Encounters Of The Purple Kind*; *Incense And Peppermints* on *Nuggets* 4-CD box set; a '70s re-recording of *Incense*.. appears on *Psychotic Reactions* (a compilation LP on U.K. budget label Topline, not the Planet X comp); and *Black Butter* on *Electic Psychedelic Sitar Headshrinkers Vol. 3* CD.

1. She Cools My Mind/I'm Feeling Lovey (B-W 635) 1968

A garage band from Wooster, Ohio. *She Cools My Mind* has a certain amount of urgency about it and a couple of effective urgent touches. It's since resurfaced on *Pebbles, Vol. 16*.

5. When You Walk In The Room/Do It Now (Columbia 4-44143) 1967

The first two 45s by this pop outfit were on Albuquerque-based labels. From their covers they were fans of Invasion beat a-la Searchers - both *Sorrow* and *Say You Love Me* are done competently in this style. Their chunky version of The Standells' *There's A Storm Comin'* is more pop than garage whilst the Lindy Blaskey composed flip is reminiscent of early Yardbirds/Animals. Probably of more interest to beat rather than garage enthusiasts but none the less enjoyable.

A wonderful example of the garage-ballad genre, *Come Back To Me* is choc full of heartbreak but manages to include some glorious tortured guitar. The flip is much more upbeat and the fuzzed-guitar much more to the fore. Although the 45 is a Kaybank pressing outta Minneapolis, the band were local heroes in Birmingham, Alabama and struck out northeast into Georgia and the Carolinas.

At long last *Come Back To Me* can be more widely appreciated via Psychedelic Crown Jewels Vol. 3.

Indeed electric violinist Greg Block, who contributed much to their album was later in It's A Beautiful Day and drummer John Maggi was earlier with Turnquist Remedy. This album features some nice lead guitar work and is definately worth a spin. It was produced by James Golden.

1	Flapjacks/Angel Lady	(Lavender 2017)	1972

This Chico, California band spent much of their time recording and playing in Oregon, where both of their records were recorded. Robert Seals recalls that 1,000 copies of the album were pressed, but the 45 is so rare that he's never owned one. The group play a rootsy, West Coast style country rock influenced by The Grateful Dead on tracks like *Home Is Where Your Head Is*, *Too Many Religions* and *Forty Shades Of Blue*. It was produced by Jay Webster.

Robert recently reformed the band and they are recording and touring under the new monicker Bob Seals and The Highway Patrol and have finished a new demo tape. The 45 contains two non-album cuts.

1. Curiosity/Realistic Patterns (RCA Victor 47-9512) 1968

A mystery one-off guaranteed to catch the eye of psych collectors scanning lists of obscurities in the hope of digging up an 'undiscovered' nugget. The trouble is that, too often, the wackier the group name or titles the more likely it is to be banal exploitation studio-pop from the mind of the trendy 'hip' producer. This sounds like a group but it's melodic pop, though *Realistic Patterns* is pleasantly laid-back with some psychy touches - judge for yourself on the *Justafixation* compilation.

From Grenada, Mississippi, this act recorded an album from 1967, which finally saw the light of day in 1995. There are some good songs included, especially *My Last Impression*, which is very much in the garage-psych vein. Indeed the band's title is misleading as the songs aren't really bluesy at all. The material, which was all written by Bill Crowder, spans garage, psychedelia and more melodic rock and is well worth seeking out. *My Last Impression* can also be heard on the vinyl version of *The Psychedelic Experience*, whose liner notes state that some of the band members had recorded a 45 way back in 1959 as the Sundowners.

After they left The Moonrakers, Jerry Corbetta and Bob Webber formed **Sugarloaf** with two original Moonrakers Bob MacVittie and Veeder Van Dorn plus Denver musician Bob Raymond. After a few months, Veeder Van Dorn left, for Mescalero Space Kit, although his song *Things Gonna Change Some* was recorded for **Sugarloaf**'s debut LP. Their first album sold very well, reaching No. 24 in the national charts and their single, *Green-Eyed Lady* written by Jerry Corbetta, reached No. 3.

Produced by Frank Slay (Strawberry Alarm Clock) and J.C Philipps and engineered by Paul Buff (Buff Organization), their debut album contains five interesting long tracks full of organ and guitars and a good cover of the Yardbirds' *Train Kept A Rollin* (aka *Stroll On*). Van Dorn from The Moonrakers co-wrote *Things Gonna Change Some*, the other cuts being penned by Corbetta, Webber and Raymond, sometimes helped by Myron Pollock and J.C. Phillips.

For the second album, *Spaceship Earth*, the group was reinforced by Robert Yeazel (ex-Beast, another group from the Denver area). The selections are shorter and some are good, especially *Tongue In Cheek* but it didn't repeat the success of their debut.

Sugarloaf recorded two other albums in 1973 and 1975 on Brut and Claridge but they are very deceiving and must be avoided, being too commercially orientated.

A largely unknown album which has its moments in terms of heavy fuzz psychedelic guitar work, particularly on side one, where *Hey Sun* is one of the stand-out tracks. Side two is relatively disappointing in comparison, but overall an album worth investigation. All the songs (except for Micky Newbury's *Down On Saturday*) were written by Sonny Hahn and Doug Miller, who performed them with the help of several session men. The album was recorded at Soundview Environmental Studios.

This five-piece originally came from Dartmouth, Massachusetts. The album is worth around $1200! and had a limited vinyl reissue during the nineties. It has been compared to Rising Storm and All Of Thus.

Certainly their speciality is pleasant garage ballads. There's a cover of The Spencer Davis Group's hit *Gimme Some Lovin'*, but the remaining material is self-penned. The stand-out cut is *The Leaves Are Turning Brown* with some really cheesy organ and an earnest vocal performance. Also a little different from the rest is the catchy guitar and drum work on *I Love You*.

From Detroit and unrelated to the L.A. outfit of *A Pindaric Ode* fame. Their two albums were produced by Andrew Oldham and are reputedly more prog and gospel rock than psych oriented. The first features organ dominated rock with softer numbers like *It's Just A Dream* and *You And I* amongst its better offerings. The *Benediction* album is an improvement, with a strong religious content and a fine sleeve by Matti Klarwein (Abraxas, Miles Davis etc.).

Get Funkey, from their second album, can be heard on *Michigan Rock, Vol. 2*.

Richard Kosinski would later form the Big Wha Koo with Danny Douma from the Hello People.

Perry Botkin later worked with Thorinshield.

1	A Pindaric Ode/Whatcha Gonna Do (When The Dance Is Over)	(Valhalla 671)	1967

This group of Mexican-Americans came from Los Angeles. Their *A Pindaric Ode* is one of numerous examples of the influence of acid on garage bands. The almost-spoken lyrics relate their disorientation and disinterest for coming to terms with the real world and the song's got a pretty unusual ending too. They are unconnected to the Detroit outfit. Nebraska's Dynamic Impacts also used the name Sundae Funnies for a 45, *Get Out Of My Life Woman/Tell Me* (Dads 603) in 1968. There's yet another unknown Sunday Funnies on Mercury and a Tennessee mob covering *Poison Ivy* on the Orchid of Memphis label. For non-US readers, 'Sunday Funnies' are comic strip magazines included as supplements in some Stateside Sunday papers, hence the popular moniker.

Compilation coverage has so far included: *A Pindaric Ode* on *Pebbles, Vol. 7*; *A Pindaric Ode* and *Whatcha Gonna Do..* on *The East Side Sound* CD; and *Whatcha Gonna Do..* on *East Side Revue*.

This is the first record by Teegarden and "Van Winkle" Knape, produced in Leon Russell's L.A. studio by J.J. Cale who also composed the flip. Leon Russell got them signed to World Pacific.

Who Do You Love is a cool 'live' version. The flip is great laid-back garage that takes a few plays to appreciate - understated fuzz and simple *96 Tears*-style keyboards underpinned by a cantering beat that's different'n'classy.

After their single, Teegarden and Knape (whose idol was Garth Hudson from the Hawks, pre-Band) landed a job playing behind a singer guitarist named Denny White in Nevada and at the charmingly named Pussycat-A-Go-Go in Lake Tahoe. Once White left, they were sometimes reinforced by a black singer called Tommy Tex.

They finally returned to Tulsa, were spotted by a Detroit student and became Teegarden and Van Winkle.

"Listen carefully and you will hear the roar of a rocket launched, the monotonous din of radio signals from afar, the haunting and beautiful bass runs signifying the endless eternity of space itself". Yes well, it's good but won't put anyone into orbit. The flip is end-of-decade pop-rock and drags on like the sleeve-notes!

It would easily find a home on the *Rubbles* series. A different mix of the song later appeared on Rare Earth's first album *Dreams/Answers*, which came out on Verve. *Well One* is a chunky 'intermission' instrumental with a funky feel but some searing guitar and backward vocals. An odd one to be sure.

1. THE HISTORY OF TEXAS GARAGE BANDS VOL. 6: PSYCHEDELIC FLOWER POWER WITH SUNSET LOVE (Collectables COL-CD-0665) 1995

Fourteen unreleased tracks recorded in Odessa, Texas in 1968 for a proposed album on the AOK label, that never materialised. Quaint folkie-flower-pop with male-female harmonising influenced by the likes of Mamas and Papas and soft West Coast sounds ala Ashes / Peanut Butter Conspiracy... there is a very occasional psychy touch but nothing to get too heady about. No details of the group are given, just a track-by-track synopsis. The liner notes comparing this to The Zombies' *Odessey And Oracle* is pushing it way too far, especially since they misspelt it as "Oddysey...". (Max Waller)

1. Niki Hoeky/Dreams Selection (Bumpshop 1102) 1970

A Detroit area 45 circa 1971. *Niki Hoeky* features lashings of waspish fuzz and wah-wah against a catchy boogie-rock backdrop. Even the brass in the backing doesn't spoil it all. *Dreams Selection* is in mellow prog/psych mode, like a soft Uriah Heep, with trilling keyboards and more waspish fuzz. A shame this appears to be their sole 45. (Max Waller)

This Los Angeles-based harmony pop group's music was characterised by happy harmonies. They enjoyed some minor chart successes and two of their more successful vinyl ventures *Back On The Streets Again* and *Happy* can be heard on *Nuggets, Vol. 10* and *11* respectively.

Produced by Joe Saraceno and arranged by George Tipton, their third album offered 14 tracks including covers of Chet Powers's *Let's Get Together* and Hoyt Axton's *Willie Jean* and *On A Beautiful Day*, a song penned by Gene

Stashuk before he formed The Unspoken Word. Larry Sims and Maury Manseau wrote most of their original material.

They won't be of interest to garage and psych fans though.

Doug Mark had earlier recorded one 45 with The Grains Of Sand, whilst Merle Brigante and Larry Sims went on to form Loggins and Messina's rhythm section.

4	CrazyTown (Move On Little Children)/Janie's Tomb	(Mainstream 673)	1967

This outfit was based in Phoenix, Arizona between 1966-68 and were earlier known as The Mile Ends. Their first 45 contains the fine psychedelic punk of *The Other Sidewalk*, and the flip features sitars and has a mellow trippy feel, with the vocalist wishing that he'd never come down... get to hear both sides on the *Psychedelic Moods - Part Two* (CD).

After such an interesting start, they went on to chart regionally with their *People In The Street* 45, but their later album had a strong country influence and is largely dispensable.

Most of the band later went onto greater things - Black and McFadden joined Goose Creek Symphony and later worked for Linda Ronstadt. Anderson later joined Beans one of the band who evolved into The Tubes.

From the Pacific Northwest the origins of this band lie in The Viceroys (who also included Jim Valley before he joined Paul Revere and The Raiders). They operated mainly around the Seattle-Tacoma area of Washington state and were later known as The American Eagle. However, with the onset of the psychedelic era Columbia decided to market them as **The Surprise Package** and as their management were based in San Diego, they often played in California.

The album is rarely seen and worthwhile only for the extended freaky title track which is not unlike *In-A-Gadda-Da-Vida* in structure. *Out Of My Mind*, a nice slice of psychedelia produced by Terry Melcher, can also be heard on *Mindrocker, Vol. 7*or *Nuggets, Vol. 8*- Its flip is a tough Pacific Northwest guitar instrumental, but

the other Columbia 45s are rather bland pop fayre.

Rob Lowery had previously been in The Rock Collection who were The Galaxies renamed around 1967. Mike Rogers also produced a 45 for The Bumps.

6. Brown Sugar/Brown Sugar (Seque 107) 1972

Originally known as The Fantastic Dee Jays, (lineup 'A'), this was Pittsburgh's top punk band. They specialised in doing really wild covers of some of the classic songs of the era. Most of their finest moments can be heard on Eva's *Swamp Rats/Unrelated Segments* album which includes their covers of *Louie, Louie, Hey Joe, Psycho, No Friend Of Mine, It's Not Easy, In The Midnight Hour, Here There And Everywhere* and a previously unreleased version of *Till The End Of The Day*. *Burghers, Vol. 1* also included *Ain't No Friend Of Mine* and *Its Not Easy*. *Ain't No Friend Of Mine* can also be heard on *Basement Walls*; *Hey Joe* on *Cicadelic Sixties, Vol. 11*; *Psycho* resurfaced on *Back From The Grave, Vol. 1* and *Louie, Louie* can also be found on *The Acid Dreams Testament* (CD).

A picture of the classic line-up 'B' circa 1966 can be seen in Crypt's *Back From The Grave Vol. 1* - the on-stage shot was taken at manager Terry Lee's "Night Train" club in Elizabeth, P.A. By the early seventies only Bob Hocko would be left and they became Galactus, whose LP was a lacklustre trudge through Stones' covers and beer-hall rock fayre.

In 1979 Bob Hocko put out the above LP which has one side of 1966-7 tracks (six of 'em) and one side of five 1970s tracks (three Stones' covers, one Kinks' and one original).

1(A) SWAMPGAS (Buddah BDS 5102) 1971

A superb and little known album, produced by the group members and Artie Kornfeld (Wind In The Willows, Artie Kornfeld Tree...) and engineered by Shelly Yakus at A&R Studios, NYC. A psychic chiropractor, Charlie Tuna, is also credited on the album!

Consisting of eight long tracks, all but one are composed by Baird Hersey. A mixture of some fast numbers (*Patato Strut, Don't*), some melancolic ballads, two complex tracks (*Eulogy*, *Trapped In The City*) and a raga with sitar (*Egg Shell*). Baird Hersey was obviously influenced by Hendrix, but goes further than his influences and the

guitars (electric and acoustic) are especially interesting. Kim Ornitz's voice sounds a bit like Henry Tree's vocalist.

Baird Hersey released at least two solo albums: *Lookin' For That Groove* in 1978, consisting of jazz rock (Novus/Arista) and *ODO OP8 FX* in 1980 (Bent), which was very experimental, with tape loops.

Artie Kornfeld had previously played with The Changin' Times.

45:

1. Eight Day Blues / Funny Things (Stop S-101-A/B) 1967

Sweet Cherry hailed from Trenton, Michigan, one of the 'down-river' suburbs a few miles from Detroit. Their sole single was recorded, while they were still in high school, in a local 2-track studio as a demo disk. It was cut 'live' with no overdubs or studio sweetening, other than a bit of reverb on the vocals. The recording was self financed and 500 copies were pressed up by the band - many were given away at their live shows at local schools and dance clubs, although a large number were destroyed by 'sailing' them frisbee style off a mountain in Kentucky following a road trip... Surviving copies are consequently rare!

The story goes that the band used such a primitive PA system that they were never able to hear the vocalist, Carli, (whose girlfriend incidentally was a dancing regular on a Windsor, Canada teen show called "Swingin' Time") until they heard the playback of the 7". Subsequently they decided to become a strictly instrumental band, playing all original compositions and extended jams, with Carli on sax instead of vocals.

Without the constraints of the pop-song format, they became well respected as musicians and praised for their originality, but opportunities to play live dwindled and following school graduation (1968/69) the group quietly disintegrated.

Their two cuts:- *Eight Day Blues* and *Funny Things Floating* can be found on *Michigan Mayhem Vol. 1* CD and *Michigan Mixture, Vol. 1*. The second of these is very garagey with some good guitar work in places. (Steve Geer)

ALBUM:

1. ARE YOU EXPERIENCED? (Custom 1115) 1967

Nothing is known about this band, although the album sounds similar to Animated Egg or Underground but better. The title track is featured on the Psycho Record's compilation *Endless Journey*, *Phase 3* and is an interesting and different interpretation of the Hendrix classic.

A San Antonio outfit, Tom Swift and The Electric Grandmothers, who had a 45 on Sound Tex in 1964, could well be the forebears of this bunch.

1(A)	COMING DOWN	(HI SHL-32064)	1969	25

Recorded in Memphis, Tennessee this LP has been described as 'psych' in some quarters but turns out to be engaging late-60s guitar-dominated power-rock, with light'n'heavy moods and some ripping solos. Certainly not for garage or psych fans, but recommended to admirers of early Joe-Walsh-period James Gang.

1	Do You Have To Ask?/Comin' On Back Home	(SPQR 1101)	1966

Formed in 1964 in the Churchland area of Portsmouth, Va. this versatile band were well-respected amongst their rivals on the Tidewater scene. Richardson had a wide range of styles. His soulful quality, sounding like a cross between Eric Burdon and Mick Jagger, can be heard on the so-cool punker *Do You Have To Ask*. Underpinned by a tight but swingin' rhythm section and a simple but effective piercing guitar refrain and pizzicato solo, it's both unique and unforgettable. First compiled on *What A Way To Die*, two versions are featured on *Aliens, Psychos And Wild Things* (CD) where it is accompanied the flip, a reedy pop-punker.

The band came to an unfortunate end with the death of Gary Richardson in July 1968.

An eight man frat-rock outfit from Greenwood, South Carolina, who enjoyed some limited chart success and whose album has become a minor collectable and made No. 88 in the U.S. Album Charts back in 1966. They had numerous 45s, in addition to those listed, on 1-2-3, Apollo etc. and also recorded as Al Michael and The Swingin' Medallions. Several further 45s by the Pieces Of Eight (on Action, A&M and Mala) are rumoured also to be **The Swingin' Medallions**.

From Memphis, Tennessee and originally known as The Yo Yo's, they added the "Swingin'" prefix for the final 45 to avoid clashing with the NYC Yo-Yo's, since that bunch's hyphen was not a notable difference. They shared management with Sam The Sham and are also unconnected to The Yo Yo's on *Pebbles, Vol. 14*. *Leaning On You* was written by Joe South, recorded at Muscle Shouls in Alabama and engineered by Rick Hall who also worked with Otis Redding.

The band also played in New York and Atlanta.

Bob Geissler and Kent Liming had earlier played with The Laughing Kind.

An act of this name had at least three 45s on RCA in the seventies, but Bob Geissler informs us that they were the work of a different band. The Speidels also had a couple of 45s under their own name.

Syndicate

45s:

1. My Baby's Barefoot/Love Will Take Away (Dore 743) 1965
2. Egyptian Thing/She Haunts You (Dot 16807) 1965

A really raw and frantic punk band from Southern Los Angeles. They formed in 1964 and had consolidated into a five piece by January 1965. The 'A' sides of both their 45s can be heard on *Back From The Grave, Vol. 7* and *Egyptian Thing* also resurfaced on *Chosen Few, Vol. 2*. *My Baby's Barefoot* is characterised by slashing guitar and the vocalist's ravings about a mean woman. Their second, *Egyptian Thing*, is another frantic punk assault on the senses. Not surprisingly, they were a popular live attraction and, aside from the usual high school and college dances in the area, appeared at Ciro's and the Sea Witch in Hollywood, the Marina Palace in Seal Beach and The Cinnamon Cinder in Long Beach. After signing to Dot Records they were to have recorded an album of originals *Five The Hard Way* but the project ran into problems and they split in mid-1966.

Other compilation appearances include: *She Haunts You* on *No No No* CD.

This garage rock quintet formed in San Jose in 1965 and are best known for their Top Ten hit *Little Girl*. By 1968 they were aiming at underground audiences and, although they achieved no further commercial success, they remained a popular live attraction. Their album (*Little Girl*) made No. 148 in the U.S. Album Charts and has become quite a significant minor collectable.

The *Syndicate Of Sound* retrospective LP features two unreleased cuts, the last three 45s and other selected 45 and LP cuts.

Compilation coverage has so far included: *Little Girl* on *Nuggets, Vol. 12*, the *Nuggets (CD)*, *The Sound Of The Sixties*; *Wild Thing*; *Nuggets* 4-CD set. Big Beat's *The Hush Records Story* includes nine tracks by the band, many unreleased. A live rendition of *Louie Louie* from 1966 appears on the flexi 45 that came with 'Cream Puff War #2'. The San Jose *Todaze Yesterday* CD includes three tracks by the 1996 line-up - *Shakin' All Over*, *My Lonely Sad Eyes* and *Off The Hook*.

4	1969	(Skye SK-9)	1969
5	BLOWIN SOME OLD SMOKE	(Buddah BDS-20-SK)	1970

NB: (4) is a best of his Skye period.

Born in Hungary in 1936, jazz guitarist **Gabor Szabo** arrived in the U.S.A. in 1956 with Louis Kabok (The Advancement) and began playing on records by Chico Hamilton. A very gifted guitarist with a specific touch and sound, he became influenced by indian mysticism and began a solo career in 1966. Recordings albums on ABC, mixing jazz, rock, indian music (with sitar) and pop, his records sold well and he was one of the few jazz musicians to influence the rock and psych market. Insect Trust recorded his *Walkin On Nails*, A.B. Shky wrote the track *Gazebo* about him, Dr. John cited him on *The Lonesome Guitar Strangler* and The Eden's Children quoted him on their liner notes. He also played San Francisco's Fillmore on the same bill as Hendrix.

Gabor Szabo recorded intensively, notably on ABC with the famous producer Bob Thiele (John Coltrane, Free Spirits, Salvation) and on Skye with Gary McFarland. The musicians who usually played with him included Louis Kabok, Jim Keltner, Bill Plummer (of Cosmic Brotherhood), Hal Gordon and Jim Stewart. Their material was mostly instrumental and ranged from versions of Beatles, Stones, Sonny & Cher and Donovan to Manuel de Falla's *Fire Dance*, plus originals penned by **Szabo**. Live recordings from the period are also extremely interesting.

Readers should however avoid the two ABC records with the California Dreamers, these are an awful experience aimed at the adult market and are completely marred by insipid choir vocals.

Szabo returned to the jazz style after 1970. He died in 1982.

9. * The Countess/i Can't Love You Anymore (Sire 4101) 1969

* Recorded as Eric Marshall and The Chimes.

This band recorded in Minneapolis, Minnesota between the mid-sixties and early seventies and, aside from the above-mentioned album, issued several 45s including the one for Sire as Eric Marshall and The Chimes. They also had a cut on the *Money Music* compilation (*Faces*). Drummer, Rod Eaton, later played with The Underbeats, an early version of *Gypsy*.

The live album, which was reissued on the French Eva label in 1983, contains some fine drivin' renderings of such sixties classics as *Lovelight, Mona, Baby Please Don't Go, Shake, I'm So Glad* and *Smokestack Lightning*, as well as fine covers of more sensitive numbers like *Spanish Harlem* and *I Love You So, Little Girl*.

Naturally some of their material has resurfaced on recent compilations. You'll find *Faces* on the *Finest Hour Of U.S. '60s Punk* (which includes *Mona* too), *Pebbles, Vol. 3* and the *Pebbles Box Set*; and *Love Is Just* can be heard on *Changes*.

With the possible exception of this latter track, their post-66 output is disappointing given that *Faces* is rightly regarded as one of THE best examples of psypunk. Be warned that the version of *Faces* on the Parrot 45 is an orchestrated mellow version and, sad to say, sucks!

Jay Schwarz writes: Some of this band's material was produced and written by Harley Toberman, who also recorded with Blue Sandelwood Soap.

45s:

1. Make It Alright/Take Me Along (Liberty 56020) 1968
2. What Would Life Be Without It/Tripping Into Sunshine (Liberty 56060) 1968

A competent quasi-psychedelic band from the San Francisco Bay Area. They evolved out of Hardtimes which had included Bryom and Richardson. The opening track to their debut album, *Tripping Into Sunshine*, starts with a typical psychedelic introduction, although the remainder of Side 1 is comprised of rather mundane rock material. However, the standard improves on Side 2, particularly with *I Really Love You* and the closing track *Take Me Along*. Three of their 45 tracks are taken from this album.

The two opening tracks on their second LP released as LBS 83232 in the UK, were featured on the *Gutbucket* sampler helping to give the band international exposure, which they failed to exploit. Their blues influence is evident on tracks like *Lazy Day Blues*, while *See Me As I Am*, *Trust In Men Everywhere* and *Flowers* are examples of their attempts to get to grips with the predominant psychedelic influences of the time. The group made considerable use of phasing techniques, Their second album was the better of the two. The 'A' side to the second 45 is not on the album - it's a catchy pop-rock ditty with some tasty guitar.

Both Byrom and St. Nicholas later played with Steppenwolf.

After a drug bust and some time spent at the Huntsville jail, he finally moved to Los Angeles in 1967, teamed up again with Rebennack and became a producer for Pulsar, a small Mercury subsidiary managed by Irving Garr.

This short-lived label released the obscure Unusual We LP and two Graham Bond albums.

While in Los Angeles, **Talbert** issued at least two solo albums, which are reputedly a mix of psyche, rock and R&B. **Talbert** also worked with the Sir Douglas Quintet on *Honkey Blues* with Kim Fowley on *I'm Bad* and with the James Cotton Blues Band. He finally returned to Texas and apparently vanished from the music scene.

Richmond "Steve" Talbott, born in Maryland and raised in the San Francisco Bay Area, has been on the local Berkeley music scene since 1959. He spent the '60s working as a brakeman, playing in bar bands and building and repairing steel string guitars.

Gettin' Plenty, an excellent mix of west-coast rock, boogie, country and blues, was recorded in 1969 and 1971 and finally released in 1973 on Jefferson Airplane's label, Grunt, due to the friendship of Jorma Kaukonen. Tracks like *Guru*, *Junco Partner* or *Golden Slipper* contain excellent guitar parts and the result can be easily compared to Mike Wilhelm's solo output.

Greg Dewey was formerly with Mad River and later played with Anna Rizzo and Vic Smith in Grootna. Naomi Eisenberg would become one of the Dan Hicks' Lickettes and Fred Weiss would later join Goose Creek Symphony.

Richmond Talbott also played with Hot Tuna on *Burgers*.

Overall an interesting album which ranges from hard rock, guitar orientated jazz-rock, tinges of psychedelia and lots of drums.

45s:

1	One More Heartache/A Trip To The Zoo	(Mainstream 682)	1968
2	Like People/?	(Mainstream 690)	1968

From Newport, Rhode Island. Although their first album contains some impressive swirling organ work and occasional fuzztone guitar, its material, which is largely written by the band, lacks originality. The first 45 is taken from this LP. The second album is more imaginative. Tavares departed prior to its recording and the band became a foursome. It includes a version of The Moody Blues' *Another Morning* and the Moodies seem to have been an impoftant influence on the band. Although the album contains material of some commercial potential, with the self-penned *Can't You See* perhaps the strongest track and is clearly an improvement on their first effort, it still talls short of the grade. The second 45 is from this LP.

Tangerine Zoo evolved out of The Ebb Tides, and Wayne Gagnon later played in an outfit called Wadsworth Mansion.

Pebbles, Vol. 21 includes a version of one of their better tracks *Nature's Children* as by The Kidds, a previous incarnation of this outfit.

1	Love Is For Peace/Billy The Birdman	(A&M 1158)	1969

Produced by Chad Stuart (of Chad & Jeremy), **Tarantua** were a Californian group strongly influenced by Zappa and jazz. Tracks like *Electric Guru*, *Red Herring*, *Love Is For Peace*, *Peach, Fuzz And Peppermints* have lots of acid organ, fuzz guitar and strange vocals and lyrics, plus various noises and onomatopeas. The single tracks are from the album.

Oz Bach had previously been in Spanky and Our Gang and then in Wings, another californian group a la Mama and Papas who released an album for Dunhill. Thad Maxwell went on to play with country rock formations (Swampwater, Sierra) and Arlo Guthrie.

and the flip's a much wilder punker with some fine harmonica and guitar riffs.

Compiation coverage has so far included: *Love, Love, Love* and *Baby* on Eva's *Florida Punk Groups From The Sixties* and *Sixties Archive Vol. 4* (CD); and *I Can't Explain This Feeling* on *The Lost Generation*.

1. Funny Paper Sam/It's High Time (Age Of Aquarius 1549) 1971
2. She Made Me That Way/Bizzaro Ben (Age Of Aquarius 1548) 1971

NB: (1) and (2) released early 1971 as a double gatefold.

The album was recorded live at the Nitty Gritty, Madison, Wisconsin on 18 March 1972. It's becoming sought-after by collectors. The songs are all originals and the band sound competent musicians. The music on side one for the most part is R & B/bar blues, certainly not for garage or psychedelic purists. Side two is more interesting - *Angry With My Friend* has some experimental guitarwork, *Master Of The Arts* is a good track and *Guitar*, as its title suggests, features some pretty frantic and melodramatic guitarwork. Certainly side two has its moments.

The CD reissue comprises the 45 tracks and the live LP and provides a detailed history of the band. **The Tayles** were formed in 1966 after two members of Jeremy Wilson's previous outfit (the Canterbury's) were killed in a car crash. This determined the name of the successor band - geddit?

The Tayles split in 1972 with members going onto the Shakers or the Beans, but they reunited as **The Tayles** in 1976. The name was finally retired in the late '70s and, as the Shakers again, they continued power-poppin' into the 90s.

Bob Schmidtke passed away in 1984 and the band have dedicated the CD to his memory.

NB: (1) reissued in France in 1972 with a PS (Jubilee 2C006-93296).

Produced by Al Gorgoni and Chip Taylor, and designed to look like a bootleg, this album comprises the first recordings by **James Taylor** in 1967 whilst he was working the folk rock circuit with Kortchmar and O'Brien from the King Bees. Only seven tracks are included with *Night Owl*, *Rainy Day Man* (covered by Tom Rush on his *Circle Game* album) and two takes of the catchy *Knocking Round The Zoo*, complete with false starts and studio dialogue. Musically it can be compared to the Lovin' Spoonful or early Youngbloods. Kortchmar and O'Brien went on to form City and **Taylor** signed a contract with Apple before his successful singer/songwriter career in the '70s.

Euphoria was a short-lived subsidiary of Jubilee and also released the album by Sum Pear.

45:

1	Come And Have Some Tea With Me/Flowers	(Smash 2176)	1968

Tea was another word for marijuana, so with a name like **The Tea Company**, it is clear what to expect from their sole album. It is an interesting effort, with the title track and ten-minute cut, *Flowers* outstanding. The latter sounds

Beatles-influenced psychedelia, with high-pitched guitar notes superimposed upon a typical psychedelic backing. It sounds rather like an extended version of the ending to *Strawberry Fields Forever*. Aside from a slowed-down version of The Supremes' hit *You Keep Me Hanging On*, all the compositions are originals and some are full of the usual hippie cliches and social commentary, for example, *Love Could Make The World Go Round* and *Make Love Not War*. Their sole 45 contained shorter versions of two cuts from their album, one of these, a drastically edited and remixed *Flowers* has surfaced on *A Heavy Dose of Lyte Psych* CD.

The group came from Massachusetts and evolved out of The Naturals. Frankie Carr's All Natural Band later turned up in 1977 with a same-titled LP on the Tribute label.

The freaky hubbly-bubbly instrumental *Don't Make Waves* has also turned up on *Buzz Buzz Buzzzzzz Vol. 1* (CD).

2	Armful Of Teddy Bear / Who Are You (PS)	(004 NPS-101)	Aug 1966

A quartet from Pueblo, Colorado - home of The Trolls. Their best effort is considered to be *Sweet, Sweet Sadie* - a catchy pop-punker produced by Norman Petty. Somewhere between Paul Revere and Raiders and Sir Doug's *She's About A Mover*, it's featured on *Monsters Of The Midwest, Vol. 3* and *Victims Of Circumstances, Vol. 2*. The flip is a lame pre-beat teen ballad. *Armful...* is a tame pop ballad distinguished only by its carnival theme and evocative merry-go-round keyboard sounds, but the flip is a surprisingly tight'n'bouncy novelty-cum-punker.

- JIM BRACKETT drums

45s:

1. Weatherman/Read All About It (Scorpio 409) 1966
2. Rat Race/People Through My Glasses (Onyx 2201) 1968

Originally thought to be from Sacramento, California, the band were actually headquartered in the Bay Area town of Alameda. They won the State Fair Battle of the Bands in 1966, thereby getting the opportunity to cut *Weatherman*. The 45, which is most notable for some fuzzy instrumental and a good vocal, got a lot of airplay in northern California in late 66 and the band consequently toured heavily in that area, with gigs with Grateful Dead, Music Machine, Mojo Men, The Seeds etc.

The Second 45 didn't come out until early 68, by which time the group had split - only the Salazar brothers feature on the flip *People Through My Glasses*. Two unissued killers, *Taxi Driver* and *No Time For Tears* are also to be featured on an upcoming *Nugget from The Golden State* volume, however and today Rick Salazar's son Arion is the bass player in Third Eye Blind.

Compilation coverage has so far included: all four sides on *The Scorpio Records Story* although the version of *People Thru My Glasses* appears here in remixed form, whilst the 45 version graces *The Psychedelic Experience Vol. 3*; *Weatherman* and *Read All About It* on *Sounds Of The Sixties: SFO Part 2*; *Weatherman* on *The Psychedelic Sixties*; and *Weatherman* on *60's Choice, Vol. 2*. It's most notable for some fuzzy instrumental and a good vocalist. Scorpio was a subsidiary label of Fantasy records.

2. Haight And Ashbury/I Ain't Nothin' (Chance 669) 1967

An interesting San Jose-based group which existed for too short a time. *Suzy Creamcheese* is a superb slice of mayhem and dementia and has rightly become an acid punk classic on account of its inclusion on several compilations:- *Acid Dreams, The Acid Dreams Testament (CD), Pebbles, Vol. 3, Mayhem And Psychosis, Vol. 1* and the *Pebbles Box* set. Its flip can also be heard on *Sixties Rebellion Vol. 6* (CD), *Filling The Gap* and *Victims Of Circumstances*. *Haight And Ashbury* has also been compiled on *A Heavy Dose of Lyte Psych* CD, *Boulders, Vol. 2* and *Moxie Punk, Vol. 2*. NB: There are also two Musicor acetates in existence *We Can't Go On This Way/Games* and *Sunnyside Up/Willie Dum Dum*. Both *Games* and *Willie Dum Dum* appear to be unissued songs.

Originally from Beverly, Massachusetts, they were later based in nearby Boston. They first attracted attention when *Once Upon A Time* was transferred from the Coristine to Musicor label. It gave them their second local Top Ten hit

but national success always eluded them. Their leader Teddy Dewart had left the band by the time of their album and their earlier garage sound was surrendered for a bubblegum style. Their album is not recommended but many of their 45s have resurfaced on compilations:- The *Lovelight* and *Once Upon A Time* are also on *Bay State Rock, Vol. 1* and they have four tracks:- *Once Upon A Time; (Bye Bye) Out The Window, Smokey Fire* and *We Can't Go On This Way* on *Mindrocker, Vol. 10*. The last one can also be heard on *Nuggets, Vol. 4* and is a rather pretty pop song. They also contributed two song on a Various Artists collection, *The Gene Pitney Show* (Musicor 2101).

Their producer Bruce Patch went on to establish Spoonfed Records who reissued some of Boston's classic albums like The Remains' Epic LP. (Vernon Joynson/Hitomi I)

From Tulsa, Oklahoma, this duo of drummer/organist began playing in the mid-60s with a locally famous Elvis manque named Gene Crose, who figures in the career of practically all the members of the Oklahoma Maffia, including Leon Russell and J.J.Cale. When they quit Crose after Teegarden was fired, they formed a band called Skip and The Blue Tones. After a while, Knape hooked up with a regional outfit called Rodney and The Blazers lead by Rodney Lay (later with Roy Clark). Eventually, Knape and Teegarden ended up in the L.A. home of Leon Russell and released a single as the Sunday Servants, produced by J.J. Cale.

The pair finally returned to Tulsa, complemented by local musicians including Tommy Tripplehorn (who would later join the Leon Russell influenced Gary Lewis and The Playboys) and Carl Day. They began playing around town as LSD and C (for Love, Skip, Dave and Carl!) when they were spotted by a Detroit college student and Bob Kennedy campaign worker named Jim Cassily, who was on his way to California. After the Kennedy assasination, Cassily moved back to Detroit and persuaded Teegarden and Knape to take up residence with him. Cassily, who was to produce all their albums, had a lot of enthusiasm and devised a plan for the two to record their debut album live at a local Detroit club. He also renamed Knape "Van Winkle". Released on the independant Plum Records label, the disc quickly attracted the attention of Atlantic Records executive Jerry Schoenbaum, who offered them a contract. They sold about 10,000 copies of *An Evening At Home* and Atco gave them the green light for a second album, *But Anyhow*, recorded in March 1969 in GM Studios in Detroit. This features some original cuts, Donovan's *Season Of The Witch* plus R&B covers of *Bright Lights, Big City*, *She Caught The Katie*, *Annie Had A Baby*, before ending with *All About My Ole Bitch*.

They sold about 20,000 copies but their Atco contact wasn't renewed. Teegarden and Knape failed to get a contract with another label and their career was on the downhill slide. Then came along Leon Russell who had put together the Mad Dogs And Englishmen with all the Tulsa Maffia. He called them and they ended up on stage, but they refused to go on the tour and appear in the Mad Dogs movie.

The pair stayed in Detroit instead and recorded the initial version of *God, Love And Rock 'n' Roll* on a Revox. With

their own money, they pressed 500 45s and finally got a contract with a local label, Westbound, who had just signed a distribution deal with Janus Records. Westbound did a lot of promotion with this single and *God, Love And Rock 'n' Roll* became a national hit. Unfortunately, the album *Teegarden And Van Winkle* wasn't ready and arrived to late to cash on the 45s success. It's a good album, however, with creative arrangements of *Eleanor Rigby* and Merle Haggard's *Okie From Muskogee*.

Among the people who became interested in the duo was fellow Detroiter Bob Seger. They formed a trio and finally took on Mike "Monk" Bruce, a killer guitarist (also from Tulsa). The four men cut an album who was finally distributed as Bob Seger's *Smokin O.P's*, released on Punch Andrews' label Palladium.

At the same time *On Our Way* was released and is arguably their best record, probably because of Bruce's guitar parts. Tracy Nelson of Mother Earth guests on some tracks recorded in Nashville, the other being recorded in Toronto and Detroit. It contains good covers of Greg Allman's *Midnight Rider*, Mose Allison's *If You Live* and Don Nix's *Going Down* plus eight original songs.

Experimental Groundwork, their final record, is supposed to have been recorded under hypnosis! Cassily found an hypnotist, Damon Reinhold, and came up with the idea of using him to hypnotize the band in the studio, inviting the press to watch. That allowed the group to get a lot of national promotion in Newsweek, Time etc.. but when the story came out, once again, the record wasn't done. When it was finally released, no one cared anymore and the duo had broken up. *Experimental Groundwork* is in fact an excellent rock 'n' roll album with various covers and originals. Both sides begin with an induction and end with a band dehypnotization and the sleeve mentions that "You are advised to read the booklet included before playing the record". The said booklet is a must read, the writer (Gemini III !) explaining that hypnosis is a little like smoking grass and that, in case the record player malfunctions, you will merely fall asleep and wake up soon...

After 1973, Knape put together a big band with horns and female backing vocals and stayed around Detroit before moving to California in the late '70s to work with Eric Burdon and Doug Kershaw. Teegarden headed back to Tulsa and finally joined Bob Seger's Silver Bullet Band at the height of his visibility.

Teegarden and Van Winkle reunited in 1997, did some concerts in Tulsa and recorded a new album, *Radioactive*.

God, Love And Rock And Roll was later included on *Michigan Rocks, Vol. 2*.

After three albums with **Ten Wheel Drive**, Genya Ravan went solo to record four solo albums under her name on CBS, Dunhill, and 20th Century between 1972 and 1979 plus one as "Goldie Zelkowitz" (Janus 3060, 1974). 2. Take Me To Your Heart/You Made Me (United Artists 50271) 1968

More a pop than garage combo, nevertheless *Keep Your Cool* may appeal to some. It's a catchy laid back strutter with 'cool' spoken vocals, *Green Onions* keyboard moves and an arrogance reminiscent of 006's *Like What, Me Worry*. From Alabama, they featured lead singer Terry Woodford who'd previously cut several solo releases. In high school, Terry played in the Mystics, who included legendary Muscle Shoals player David Hood on bass. Supposedly they also recorded. Terry hooked up with **The Chain Reaction** right out of high school, and recorded at Fame Studios with producer Rick Hall.

Keep Your Cool was covered in 1985 by Plan 9 on their *Keep Your Cool And Read The Rules* album.

2	Tobacco Road/Can't You See	(Castalia 268)	1968

A mid-sixties outfit from Phoenix, Arizona. Featured on *A Fistful Of Fuzz*, *Bawling* is notable for some frantic buzzin' fuzz though the track leans more towards 'heavier' rock than garage punk. Their version of *Tobacco Road* is also in a heavy acid-rock vein, this time coupled with a gentler rock ballad.

Jr. Ellis also played on some unreleased tracks by another Phoenix outfit The Grapes Of Wrath, which can be heard on the latter's retrospective CD on Gear Fab.

All four albums are now minor collectors' items with *Bring Your Love Special Delivery* the most likely to interest readers of this book.

Thee Muffins

ALBUM:

1	POP UP	(Fan Club # unknown)	1966

A very obscure outfit probably from Lake George, New York (though Tennessee has also been cited). The LP, though exceedingly rare, is disappointing soulful beat-ballad music in the same mould as Skip and The Creation. Predominantly covers including *Surprise Surprise*, *Don't Let The Sun Catch You Crying*, *Do You Love Me?*, *I Feel Good*, *Crying Over You*, *Oo Poo Pah Doo* and *Not Fade Away* - the latter can also be heard on *Oil Stains*. Only two tracks are notable, the Hank Williams cover *Caliga* and an instrumental version of Mel Torme's *I'm Comin' Home*. The LP has not been reissued or pirated yet and given the prices it fetches, can't be recommended to garage fans.

Walter Rossi (of Charlee / Influence) is rumoured to have played on their album.

1. Not The One For Me/Why Ain't Love Fair? (Main-iac 00l/2) 1966

There's also a rumour that this is a joke on Nugget-diggers by the ubiquitous Erik Lindgren and cohorts but who really cares - the music's great! Other 'fake obscurities' attributed to his fertile creativity include The Katz Kradle and Huntsmen releases on the Shur Shot label.

This band hailed from Circleville, a rural-industrial town about 20 miles south of Columbus, Ohio. *Paperback Minds* is a typical period put-down of 'the plastic people'. It features some nice Hammond organ work and it's now accessible on *Highs In The Mid-Sixties, Vol. 21: Ohio, Part 2*.

Brink, Rhoads and Simison are still in Circleville. Rhoads and Simison play in a classic rock covers band called Majic, which also includes another member of a local '60s band, the Blues Sanctum (who didn't record).

2	What Am I Gonna Do With You?/Maybe Baby	(Chase 4000)	196?

NB: (2) as by The Singing Bodies.

The band was a result of two New Orleans DJs teaming up with The Pirates to disrupt a Herman's Hermits concert in the Municipal Auditorium. Courtney and Kirby had their bodies painted gold and were dressed in baggies!

Diagnosis-Neurosis is an amalgam of comedy, punk and Vietnam protest about the onset of paranoid schizophrenia. By the second 45 they were cured and delivered a faithful version of Buddy Holly's *Maybe Baby*.

1(A)	It's A Long Way Down/Merry-Go-Round Of Life	(Casino 2305)	1966
2(B)	Mass Confusion/Rainy Sunday Morning	(Sonobeat 104)	1968

Passing through Austin in Texas en route from Topeka in Kansas to California this band were offered a one-off recording deal by Sonobeat. The result was an English-influenced hard rocker, *Mass Confusion* which can also be

found on *Monsters Of The Midwest, Vol. 2* and *Vile Vinyl, Vol. 2.*

Bob Cole tells us that a guy called Ernie had played organ on the earlier 45, but quit before the band left Topeka. He later became a successful corporate lawyer. Cole also confirms that The Things did not contain two former members of **The Thingies**. John Dalton and Bob Cole were the only two **Thingies** to return to Topeka, but neither of them played professionally again. John still lives in Topeka. The other four are scattered from Florida to Texas (two), to Nevada, and they still keep in touch.

The Thingies Have Arrived CD gathers both 45s plus four unreleased cuts - *English Eyes* and three versions of *I'm Going Ahead*. Larry Miller had previously been in the TR4 and their 45:- *Peter Rabbit* / *Surfin' TR* (Exclusive 1007) 1963, is also included on the CD. The remainder of the album features fellow Topekans the Morning Dew and The Exotics, from Dallas.

Other compilation coverage has so far included: *It's A Long Way Down* and *Merry-Go-Round Of Life* on *The Monsters Of The Midwest, Vol. 1* (cassette); *It's A Long Way Down* on *Sixties Rebellion Vol. 7* (CD); *Mass Confusion* and *Rainy Sunday Morning* on *High All The Time, Vol. 1*; and *It's A Long Way Down* on Tom Tourville's *Midwest Garage Band Series: Kansas* (CD).

The Things

Personnel:

- DAVID HOFFMAN
- GREG JONES
- FLOYD 'CHILLI' CHILDERS
- DAVE TURNER

A Houston-based sixties outfit who didn't make it onto vinyl at the time. They originally called themselves String 'N Things and although the "strings" referred to their guitars, people imagined the name referred to a pop group with violins, so they shortened their name to **The Things**. *Mindrocker, Vol. 4* (also issued as *Acid Visions*) included two of their recordings:- *I Don't Believe It* and *In Your Soul*, which both contained fine fuzztone guitar and Farfisa organ work which characterized many late sixties Texan punk bands. *Acid Visions, Vol. 2* includes two other unissued cuts:- *Loveless Lover* and *Another Girl Like You* which were cut at Andrus Studios on 12 July 1967. All four cuts, have also more recently, appeared on the 3-CD set *Acid Visions - The Complete Collection, Vol. 1.*

NB: (1) Contains previously unreleased recordings from 1966/7 including their first 45. (2) is a coloured vinyl release which contains the first single and many previously unreleased tracks, recorded between 1965 and 1967. It has also been released on CD (SC 11017) with extra tracks.

45s:

1. (A) Sweetgina/Speak Of The Devil (Starfire 103) 1966
2. (C) Come Alive/Dancer (Warner Bros 7164) 1968
3. (C) Hello/Good Day (Warner Bros 7228) 1968

A Los Angeles outfit who had some fine moments. The group recorded a wealth of material in 1966/7, mostly in the typical L.A. acid punk vein and of a really outstanding quality. Some of these recordings were released on *Things To Come* LP, issued apparently as a tax loss scam, as only 50 copies were pressed. Originals currently sell for $1500+, but thankfully the recent Sundazed retrospective means this excellent L.A. group's work is now accessible by all.

Their first 45 *Sweetgina*, is a quite excellent bouncy organ/fuzz rework of *Gloria*. Specialists should note that the version of *Speak Of The Devil* included on the album is longer than on the 45 release. *Speak Of The Devil* is a superb slice of brooding menacing punk with ranting growling vocals, atmospheric vibes and feedback.

The chief songwriter behind the group was Steve Runolfsson who the other members unwisely booted out in mid-1967. *Come Alive*, their 2nd 45, is notable for excellent percussion and Eastern psychy guitar moves whilst the flip *Dancer* is a heavy cruncher straight out of The Blue Cheer/Cream school. Slightly mellower but passable heavy sounds feature on the David Crosby-produced *Hello* 45.

Garofalo later played for Californian solo artist John Stewart and Kunkel went on to do session work and played for Crosby, Stills, Nash and Young.

Compilation coverage so far includes: *Sweetgina* and *Speak Of The Devil* on *Chosen Few Vol's 1 & 2* CD; *Sweetgina* on *Boulders, Vol. 9* and *I Was A Teenage Caveman*; *Come Alive* on *Slowly Growing Insane* (CD) and *Psychedelic Unknowns Vol. 11* (CD); and *Dancer* a track which was first compiled on a 1969 LP *First Vibration* has more recently resurfaced on *The Garage Zone, Vol. 3* and *Lysergic Soap Vol. 1*.

The flip, a folk-punk song with some appealing guitar work, later resurfaced on *Pebbles, Vol. 21*. Both sides have also reappeared on *If You're Ready! The Best Of Dunwich Records, Vol. 2* (CD).

NB: (1) contains *Five Years Ahead Of My Time, Lose Your Mind, I Can't Understand Your Problem* and *Dawn Of Tomorrow*. The latter three are previously unreleased. The EP was released on yellow vinyl. (2) gathers all their 1967 recordings - essentially adding two versions of *My Rainbow Life* (one previously unheard) to the 7" EP tracks.

45:

1(A)	I'm Five Years Ahead Of My Time/My Rainbow Life	(Roulette 4742)	1967

A New York outfit. Their name, chosen by lead singer Jeffrey Moon and extracted from the 'The Tibetan Book of the Dead', reters to a "return to reality". The inclusion of *I'm Five Years Ahead Of My Time* on *Pebbles, Vol. 3* has made it something of a classic among collectors of psychedelic punk. Deservedly so in view of its haunting intro. and fine fuzztone guitar work. Subsequently it has resurfaced on other compilations:- *Born Bad (The Songs The Cramps Taught Us), Songs We Taught The Cramps* and *Get Primitive (The Best Of Pebbles)*. Rusty Evans of The Deep/Freak Scene wrote the 45 for **The Third Bardo** along with songwriter Victoria Pike, who was married to **The Third Bardo**'s producer Teddy Randazzo (of Roulette Records) at the time. The excellent flip side of the 45 can also be heard on *Vile Vinyl, Vol. 2* and *Magic Carpet Ride* whilst another version of it appears on Freak Scene's *Psychedelic Psoul* LP. If that wasn't enough, David Walters (author of the excellent "Children of Nuggets" book)

has pointed out that the version of *My Rainbow Life* on *Glimpses Vol. 4* is an acetate version, 20 seconds shorter than the final single and with a different mix! Both sides of the 45 can also be now heard on *Psychedelic Microdots, Vol. 3* (CD).

In the early seventies, their lead singer Neufeld released an album under another pseudonym, Chris Moon. In the 1980s The Nomads did a fine cover version of *I'm Five Years Ahead Of My Time* and Kenne Highland's Majestic Gizmos reworked it into *He's Five Beers Ahead Of Your Time* (!) on the LP of that name.

In 1999, Rusty Evans has helped re-record *I'm Five Years Ahead Of My Time*, *My Rainbow Life* and a number of other tracks with his son's band **Kaos**. Although currently unreleased, the new recordings are great, capturing the spirit of the originals. Rusty may also be writing some new material for **The Third Bardo** themselves, who played live again on May 16th 1999 with a line-up of Jeff Moon aka Neufeld, Damian Kelly and Ricky GoldClang from the original band. As for former drummer Bruce Ginsburg his whereabouts are unknown - somewhere in California, whilst Richie Seslowe sadly died of a drug overdose in the eighties.

2	Everybody Needs Somebody (To Love) / You're Gonna Lose The Only Love You Ever Had	(Dawn 312)	1967

From The Bronx, NYC, this band issued just two singles for the Dawn label. *Gone, Gone, Gone* is a rather routine 'my baby left me' number, but the other side *Don't Play With Me* despite the predictable poor production, is rather interesting. It starts out slow and moody, with sneering punk vocals, but later some deceptive changes of pace.

Compilation appearances have included: *Gone, Gone, Gone* and *Don't Play With Me* on *Pebbles, Vol. 11*; *Don't Play With Me* on *Off The Wall, Vol. 2*, *The Cicadelic '60s Vol. 4* CD and *Teenage Shutdown Vol. 7: Get A Move On!!!*.

The first band to describe themselves as 'psychedelic' the **13th Floor Elevators** formed in the Winter of 1965, playing their first gig at the Jade Room in Austin on 13th (?) December, which garnered a mention in Jim Langdon's column in the Austin Chronicle.

Sutherland, Walton and Thurman had all previously played in a Kerrville band - The Lingsmen, who became the **13th Floor Elevators** when Max Rainey, their original vocalist, left and Roky Erickson, the lead guitarist of The Spades (another Austin act), was drafted in as a replacement. Their original line-up was completed by Tommy Hall, a local student, who played jug and along with his wife Clementine wrote much of the band's early material. It seems Clementine was responsible for their name too. Most American buildings have no thirteenth floor and the band were saying, if you want to reach the thirteenth floor and achieve a new level of consciousness, ride with them.

Their first 45, released in the Winter of 1965, was *You're Gonna Miss Me*, which Roky had written when he was still with The Spades. It was originally issued on the Contact label and a Jan 1966 article in the Austin Chronicle states that a local radio station refused to play the record (they claimed that the band and supporters were calling incessantly for it to be played).

The band also quickly established a strong 'live' reputation playing at venues like the New Orleans Club and the Jade Room in Austin and La Maison in Houston. Significantly they were the first band to advertise themselves as 'psychedelic', predating The Grateful Dead by about two weeks, and first hand reports of these early gigs, indicate that they were an awesome live act. Indeed, there are even rumours of en masse "flash-outs" brought on by the fervant, pulsating rhythms and feverish foot-stomping by the crowd.

Texas was a highly conservative state in the late 1960s and, not surprisingly, a band like **The 13th Floor Elevators** with their long hair and penchant for drugs (particularly acid) had a number of brushes with the law. They were eventually busted in early 1966 and all placed on probation. Tensions were increasing within the band, too, and these led to Benny Thurman's departure and his replacement by Ronnie Leatherman.

The band's career received new impetus when Lelan Rogers signed them to his new International Artists label. Rogers had just returned to Texas from LA, where he'd been working for A & M Records. He reissued their debut 45 on his label (with a different recording of the flip side *Tried To Hide*) and it made No. 55 in the National Charts. Their first album, recorded in Dallas, followed shortly after. Taking a sort of Kinks or Stones styled R & B they added their own highly individual style on what was a classic vinyl offering. Prominent throughout was Tommy Hall's jug playing, which helped to give the group a unique and distinctive sound. The songs were also laced in psychedelic mysticism which was central to their music and the album is often regarded by "heads" as some of the finest psychedelic music to be committed to disc, being particularly notable for how it expands and stretches out under the influence of psychedelic drugs.

In particular, *Roller Coaster*, oozed the feelings of a psychedelic trip, and revelled in the new purpose to man's life that could result from the psychedelic experience. It's also claimed, that the track is about (or inspired by) Alfred Korzybski, the father of semantics - who was one of Hall's main influences. Korzybski wrote "Science and Sanity An Introduction to General Semantics and Non-Aristotelian Systems" and one of his concepts was "unsanity" which is referred to in the songs lyrics, and in the liner notes to the *Psychedelic Sounds...* album. Other tracks such as *Reverberation* dealt with how a person, who organised their knowledge in the right way could overcome problems of doubt (and avoid bum trips); *Don't Fall Down* dealt with the care that had to be taken to maintain this chemically-altered state; *Splash 1*,

which was written by Clementine Hall and Roky and later covered by The Clique, describes the meeting of two minds which have undergone the psychedelic experience and *You Don't Know* explained the differences between persons of old and new states of mind. Perhaps the best track of all was *Fire Engine*, written by Tommy, Stacey and Roky, which began with an unusual siren introduction, and superficially portrayed what it would be like to ride on a fire engine for fun rather than to fight an horrific fire - at a deeper level, the song is said to have a D.M.T. influence, with Roky twisting the words "empty place" into "Let me take you to D.M.T. place on my fire engine"... DMT being the short-term psychedelic Di Methyl Tryptamine.

Like so many bands in this era **The 13th Floor Elevators** headed for California in August of 1966 and stayed there in San Francisco for the remainder of '66. They played at the Avalon ballroom four times and once at the Fillmore West. Their first album was released during their stay in California and this, plus the fact they gigged a lot at the Avalon ballroom, led many people to believe them to be a San Franciscan band. In fact, they actually put on an all Texan show at the Avalon during their Californian stay with Big Brother and The Holding Company (Janis Joplin was from Austin, Texas and at one time nearly joined **The 13th Floor Elevators**) and the Sir Douglas Quintet. The band's time in California helped to forge important links between America's West Coast and the hitherto relatively isolated Texas psychedelic scene. **The Elevators** would return to California two more times in late 1967 and in 1968.

They returned to Texas late in 1966 and immediately ran into disagreements with their record company about what their next single should be. International Artists wanted to target *I'm Gonna Love You Too* at the Top 40 market, but Tommy keen to uphold the band's quest as psychedelic leaders held out for *Reverberation* and got his way with this and subsequent 45 releases. Though none of them ever made the national charts again.

Early in 1967 another split developed in the band. This was partly about the use of drugs as police pressure on the band grew. All were heavily into acid except John Ike Walton - indeed, Roky was reputed to have taken it over 300 times. So when Walton and Ronnie Leatherman left the band because of management disagreements, Walton was already viewed by the band as an establishment figure. After the split Tommy, Roky and Stacey retreated to Kerrville, a small hill town in the countryside, where they spent the Summer of 1967. They recruited two new members, Danny Thomas, a drummer, and Danny Galindo, a bass player and started work on their second album, *Easter Everywhere*, which entered the shops in the Autumn of 1967. It contained their own interpretation of Bob Dylan's *Its All Over Now, Baby Blue*. *She Lives*, a Tommy/Roky composition was also issued as a 45. Musically the album was more controlled and less frenzied than their first album but there are a lot of collectors who consider this to be their best LP. It suffered from under-promotion and Lelan Roger's policy of underpublicising the band to create a mystique around them had by this stage become counter-productive. Sadly, too, the group was beginning to crumble with Roky becoming increasingly unreliable and frequently missing gigs. The record company tried unsuccessfully to put him into a 'rest' hospital, but late in 1968 he was busted again. To avoid being dumped in Huntsville (the Texas State Prison), he claimed to be a Martian and the authorities committed him to Rusk State Hospital for the criminally insane early in 1969. Stacey got busted again and was not so lucky - he ended up in Huntsville.

Taking advantage of the band's problems the record company issued their third album, which failed to capture the band at anything like its best. It was not a 'live' album at all - the tracks were studio outtakes, with faked applause added. It did, however, contain five songs not featured on their studio albums - Bo Diddley's *Before You Accuse Me* (the flip to their 3rd single); Buddy Holly's *I'm Gonna Love You Too*; Soloman Burke's *Everybody Needs Somebody To Love* and two original compositions, *You Gotta Take That Girl* and *You Can't Hurt Me Anymore*.

When Tommy Hall headed for California the band, already minus Roky and Stacey, literally fell apart leaving behind them an incomplete album tentatively titled, *The Beauty And The Beast*. It was released after their demise by the record company late in 1968. They changed its name to *Bull Of The Woods*. Its finest moments included, *Never Another*, one of the best and most demented tracks ever recorded (the only one on the album written by their usual songwriting duo of Roky and Tommy) and *May The Circle Remain Unbroken*, a haunting Roky composition issued immediately after *Easter Everywhere* which had also appeared on one of their later 45s. Nearly all the remaining material was written by Stacey Sutherland often in conjunction with Tommy Hall. Stacey's songs are for the most part rather stark but *Street Song* and *Rose And The Thorn* both feature some fine guitar work.

Roky spent three years in Rusk State Hospital and it took a court case to get him out! In 1972 he attempted to reform

the band with John Ike Walton using other musicians but it fell apart after two gigs, Thurman later played for Plum Nelly, Galindo was in Rubayyat and Duke Davis, who was also associated with the band was in Gritz, but Erickson's subsequent solo career and the mystique surrounding the band has led to continuing interest in their recordings which prior to the reissue of their first two albums, in 1978, meant copies were changing hands for quite a few dollars.

In recent years a plethora of the band's material has appeared. *Fire In My Bones* and *Elevator Tracks* both comprise alternate takes (mostly from their first LP) and several live tracks of variable quality. *I've Seen Your Face Before* is a live recording with rather confusing liner notes dating from 1966 or 1967. It features *She Lives* and *Levitation* from their *Easter Everywhere* album, the rest of the material is from their first LP. *The Original Sound Of ..* and *Demos Everywhere* both contain the same material despite their different titles, although the former contains track information that isn't present on the latter and is better sound quality. Side one contains alternate mixes of tracks from their first album, side two is thought to be an audience bootleg, although it claims to be a radio broadcast.

Compilation appearances have included:- *You're Gonna Miss Me* on Lenny Kaye's *Nuggets* and *Twenty-One KILT Goldens, Vol. 2*; The 45 version of *Tried To Hide* on *Mind Blowers, Vol. 1*, *Austin Landing, Vol. 1* and *The International Artists Singles Collection*; live '67 recordings of *You're Gonna Miss Me* and *She Lives In A Time Of Her Own*, without Roky on *Acid Visions - The Complete Collection, Vol. 1* (3-CD set); A live track from a 1972 reunion *Maxine* on *Austin Landing, Vol. 2*; A loose jam based around *Levitation* entitled *Elevator Jam* on *Sixties Rebellion Vol's 1 & 2* (CD); The live version of *The Word* on *Turds On A Bum Ride, Vol. 4* and finally, *Epitaph For A Legend*, a double compilation LP first issued in 1980, contains an excerpt from *Fire Engine*, a radio ad for the *Bull Of The Woods* LP, the previously unissued *Wait For My Love* and Roky and Clementine Hall performing previously unissued versions of *Splash 1* and the Powell St. John composition *Right Track Now*.

ALBUM:

1(A) THIRTY DAYS OUT (Reprise RS 6450) 1971

Produced by Larry Marks (Lee Michaels, Phil Ochs) and recorded in New York and L.A., judging by their album this was a rather undistinguished band. It offers eight tracks penned by Micaleff and Malken and which mix competent guitars with early '70s style vocals. Influenced by Free on some tracks (*Doing The Best That I Can* or *Survival*, a rip-off of Clover's *Shotgun*). The most interesting element is perhaps the keyboards which are played by two ace sessionmen, Knechtel and Dickinson. The lyrics have often a Christian content

The band thank the Hole Hog Juice Band from Greenfield, Massachussets on the sleeve, so maybe, that could be their hometown.

In fact the album is maybe mainly notable for a weird packaging idea, as it came wrapped in a poster of a

steamliner. Once the shrink wrap was opened, the hidden black and white sleeve with pictures of the group became visible.

2. In The Morning When I'm Real/Porcelain Mirrors (Vanguard 35087) 1969

From Jacksonville, Florida, they previously recorded a 45 as The Tiffany System. Produced by Steve Alaimo, their album, which is of the 'progressive' genre, is a very minor collectable, though it has its moments; from the extended moody cover of *Codine*, the evocative but doomy dirge *Cries Of Treason*; the Byrdsy folk-rock of *A Different Kind Of Head*; and the almost excellent psychy freakout of *A Nickel's Worth Of Benny's Help*. An LP that has some rewards for the patient listener.

Afterward the album, they teamed up with Greg and Duane Allman, recording the tapes which were finally released as Greg and Duane Allman by Steve Alaimo on his Bold label.

Trucks stayed with the Allman to form The Allman Brothers, Boyer created Cowboy with Tommy Talton (ex We The People) and David Brown would join Santana and Boz Scaggs.

45:

1. Methyl Ethyl/The Name Of The Game (Cameo Parkway C-490) 1967

Despite the intriguing name and title, *Methyl Ethyl* is tame novelty pop. However, the flip is rather better snotty garage-pop wherein this Pennsylvanian outfit let their guitarist step on the fuzz pedal and evoke a short screeching solo. The band were earlier known as **The Chimps** and released an uncredited cash-in/exploito album *Monkey Business* (Wyncote W-9199) with a couple of Monkees covers and some good garage noises.

They later changed their name to Edison Electric Band, recording an album for Cotillion.

2. JUPITER (Korona) 1976 SC

ALBUMS:

1. CORKY'S DEBT TO HIS FATHER (Texas Revolution 2270) 1969
2. CORRECTED SLOGANS (Music Language 1848) 1976

NB. (1) reissued by Glass (GLALP 015) 1986 in the UK, (2) reissued by Recommended in the U.K. in 1982.

Thompson was arguably the main creative force behind The Red Krayola who produced the weirdest music for International Artists in the late sixties. Upon their demise he worked with Saddlesore and recorded *Corky's Debt...*, which like Red Crayola is also a little strange. It was made with the help of friends including most members of Fun And Games. He eventually turned up to do sessions with the Art Of Language organisation in 1976. This resulted in demos which are compiled on *Corrected Slogans*, an album of simple songs, operatic vocals and complex lyrics.

In 1979 he reformed Red Krayola, with drummer Jesse Chamberlain, who he had earlier met in New York in the winter of 1974/75 and had gigged with intermittently since. Aided by Lora Logic and Pere Ubu they recorded *Soldier Talk* (Radar RAD 18) 1979, which united the garage music of the sixties with fragmented, modernistic arrangements and *Kangaroo* (Rough Trade) 1980, an album of avant-garde theatre music, which reunited Red Crayola and Art Of Language followed. He also played with Pere Ubu from 1980 onwards.

A previously unreleased recording, *Woof*, from the *Corky's Debt...* sessions, has also resurfaced on the EP *Meat Pie Toecloth Scraper* which was issued with Ptolemaic Terrascope magazine (#20) in 1996.

2	Family Of Man/Lonely Mountain Again	(Philips 40521)	1968

NB: Some copies of (1) came in an art sleeve which advertised the album.

This obscure Los Angeles trio had its roots in the folk movement but at times played lip service to some of the psychedelic trappings of the era. The first 45 was on the album which is full of rather ordinary songs. but pleasant, songs. Produced by the famous L.A. sax player Steve Douglas and arranged by Perry Botkin Jr, all their songs were written by Bobby Ray and James Smith.

Bobby Ray may be the same guy who played bass on Donovan's May 1966 sessions in L.A., including *Season Of The Witch*, *The Trip* and two unreleased pieces: *Super Lungs* (different version) and *Breezes of Patchulie*.

Lonely Mountain Again has also resurfaced on *High All The Time Vol. 2*.

ALBUM:

1(A)	PASS ON THIS SIDE	(ESP ESP-63019)	1974

Including Paul Thornton who had previously been in The Godz, this album has nothing in common with his earlier avant garde work. It is in fact largely inspired by Dylan circa 1966 and The Byrds (Roger McGuinn even gets a "Special Thanx"). The material was written by Fradkin and Thornton and features some good tracks with 12 string guitar: *Walkin Guitar Blues*, *Oh Woman*, *God Bless California* (with Paul and Linda McCartney!), *Sometimes* or *Jimi* (a rip-off of *Hey Joe* dedicated to Hendrix).

Another New Yorker, David Peel, guests on one track, a version of his *To Err Is Human*. This is strongly "influenced" by Dylan's *Maggie's Farm*, with lyrics like "I'm just a human being that don't give a damn". The album was recorded in New York between 1970 and 1974 and produced by Fradkin.

This band was formed in Seattle, Washington when Blessing and Letterman recruited Wolfe from local band The Nomads in 1963. They attracted sufficient interest to get a one-off deal with Seafair-Bolo Records. *Movin ' On* got a lot of local airplay and became a local hit. Then in 1965 Jim Valley's brother Steve joined the band on lead guitar and they signed to Jerry Dennon's Panorama label. Their two resulting 45s attracted considerable airplay. Just when the future looked rosy tragedy struck. The band's vehicle crashed en route to a performance in Richland, Washington. Blessing and Evans were killed, Valley was injured but recovered. Wolfe, Letterman and Valley reformed the band as The American Dream adding Mike Holiday (ex-Paul Revere and The Raiders) and songwriter Danny O'Keefe. After this short-lived venture Wolfe and Letterman formed The Time Machine. *I Should Know* later resurfaced on *Highs In The Mid-Sixties, Vol. 14*.

NB: (1) reissued in 1998 on CD (LIZARD LR 0705-2).

45:

1. Country Life/I Love A Woman (United Artists 50536) 1969

A Hendrix-influenced heavy psychedelic trio from Philadelphia, they even managed a pretty decent cover of *Red House* on the album, which is now a minor collectable. The 45 is off the album (two of its worst tracks), the title cut is an instrumental. Its finest moments are the opening cut, *White Lance And Strange*, and the finale, *Open Up Your Eyes*, which are both brimming with heavy psychedelic guitar work.

45:

1. And I Need You/Don't Run (Charm 6092/3) 1972

They were previously known as The Unsettled Society which came from Pennellville, New York, although the sleeve notes of *Sixties Rebellion* claim that they were from Pennsylvania. The 'A' side, a slow progressive number, has resurfaced on *Sixties Rebellion, Vol. 15: The Apple Glass Syndrom*. The flip is mellow and laid-back rock par excellence.

45:

1	Motion Tree / Captain Midnight	(All-American?, unconfirmed)	196?

An obscure late '60s Californian act whose album, which was apparently unreleased at the time, is available again. It's predominantly soft psychy rock-pop with occasional good guitar, a few effects and period charm. Stand-outs are the upfront *Motion Tree* and *Lucky Lady*. All songs were composed by Jack Lutz.

8 ?	Cindy, Oh Cindy / Before It's Too Late	(Ivanhoe 50,000)	c1966

A very rare album which changes hands for quite a lot of money. A cut from the album *Just Let Me Know* later emerged on the *Oil Stains* compilation. It's a pretty ordinary pre-punk beat offering.

3. Cindy, Oh, Cindy/? (Ivanhoe 50000) 196?

ALBUMS:

1. (A) COLLECTOR'S ITEM (Agency Recording Studios) 1972 R4
2. (B) THUNDERDUK (Rockadelic RRLP 23) 1995 R1

NB: (1) was a 12" metal acetate. (2) reissues seven of the eight tracks on the original acetate plus two previously unissued tracks from 1974.

A highly uncommercial Cleveland, Ohio rock group. Their recordings are rather hit and miss affairs. All nine cuts on the Rockadelic album are originals. The finer moments include, the driving guitar on opener *Why Don't You Love Me?,* the fine jamming guitar work on *Time And Again* and, by contrast, the mellow slow-paced *Something To Look At* with its dominant percussion work.

The recordings on the Rockadelic album span the 1972 - 74 period when their desire to play original music and their on stage antics made them one of the top drawers in the Cleveland Club scene in the early seventies. Bob Turchek was later replaced on drums by ex-Catscradle drummer Rick Fischer. Most of the material on the Rockadelic album was played by the band on two Agency Studio live broadcasts carried by local station WNCR.

Thundering Heard

45:

1. Sunny Street Love/Daisy's Prism (Liquid Stereo LS 26) 1968

Light 'n' airy psych-rock from alternatively quoted as from Seattle and Lake Oswego, Oregon. Both sides trip along, merrily with *Daisy's Prism* being the better of the two. Get to hear both cuts on *Psychedelic Moods - Part Two* (CD) or the flip on *High All The Time, Vol. 2*. (Max Waller)

- JOHN MIESEN organ A

ALBUM:

1. (A) THUNDERTREE (Roulette SR-42038) 1970

A Minneapolis band whose album transgresses psychedelia and progressivism. It's now becoming a minor collectable and is very hard to find. The medley on side two is full of variety and interest but the highlights are the opening cut, *Head Embers*, which has lots of good guitar work and the mildly psychedelic, *At The Top Of The Stairs*. There are a few awful tracks, but there are lots of ideas on this album and if you're into psychedelic guitar and keyboards this is one for you.

The band evolved out of The Good Idea. When that band had split in 1969, John Miesen landed a deal with Roulette on the basis on an unreleased The Good Idea track, *12:25*, which was used for one side of the **Thundertree** album.

Bill Hallquist later recorded two solo albums. The first under the name of Billy, *Persephone* (Orion 20510) 1972, although he's more often referred to as Persephone Billy, due to a typographical error on the sleeve. On this he was helped out by, amongst others, Rick liaBraaten (also ex-**Thundertree**). The album, which is pretty rare and sought-after, consists of pleasant, dreamy folk-rock and comes in a striking black and white cover. After second, *Travelin'* (Mill City) 1976, Bill Hallquist did some session work including Kevin Odegard's *Silver Lining* album. (Kevin, in turn played on one of the songs on Dylan's *Blood On The Tracks*). Bill:- "In 1976 Kevin and I played together in The K.O. Band. Our drummer later became a member of Prince and The Revolution (Bobby Z), and guitar player (Jeff Dayton) currently plays with Glen Campbell. After that I played with a folk trio Macavity with Tim Sparks (Rio Nido), followed by a bar band Cimarron. Later, I wrote/produced radio jingles before becoming Director of Marketing at K-tel here in the U.S. I am still active musically as a songwriter and as a member of Perfectly Loud. The K.O. band is doing a reunion gig Sept. 1, 2000 at a club here in Mpls./St. Paul".

ALBUM:

1. (A) THURSDAYS CHILDREN (Voxx 200.052) 1989

NB: There's also a CD with The Children, *Stoned Sixties*, on Collectables (COL-CD-0600).

45s:

1. You'll Never Be My Girl/Try, Girl (Paradise 1022) 1966
2. Air-Conditioned Man/Dominoes (Int. Artists 110) 1966
3. Help, Murder, Police/You Can Forget About That (Int. Artists 115) 1967
4. No More Rock And Roll/Before I Die (Rampart Street RSRS 0608) 1968

Originally known as The Druids when they formed in Houston, Texas in 1964 they changed their name to **Thursdays Children** during 1965. The first 45 was quite an accessible punk, whilst their second and third were more British-influenced.

After one final and disappointing rock and roll 45, drugs and the draft had accounted for many of the band and they regrouped as The Pointing Hand Group. Charles Helpinstill also recorded a solo 45, *To Touch The Rainbow/lndian River* (Akashie 1001) and he later formed The Helpinstill Factory Band.

The retrospective album includes material spanning their career from 1965-69 with 45s, unissued and live material. It's the best source to their recorded output. They also had a previously unreleased cut on *Epitaph For A Legend*.

Compilation appearances include: *You'll Never Be My Girl* on *Pebbles, Vol. 5*, *Pebbles Box* set and *Acid Visions, Vol. 2*. *Air-Conditioned Man* on *Highs In The Mid-Sixties, Vol. 12:- Texas, Part Two* and *Pebbles Box* set. *Help, Murder, Police* and *You Can Forget About That* on *The International Artists Singles Collection*. *Help, Murder, Police* can also be found on *Garage Punk Unknowns, Vol. 7*, *Moxie's '60s Punk Classics (EP), Vol. 4* and together with *Try Girl* and *You'll Never Be My Girl* on *Acid Visions - The Complete Collection, Vol. 1* (3-CD set).

2	Somehow/Shame Shame	(A2 201)	1967
3	Time Of The Season/I Found A Love	(A2 202)	196?

Hailing from Ann Arbor, Michigan, they started out as The Hitch-Hikers. Though regarded as one of the area's more popular 'garage' acts their vinyl output was rather disappointing for garage collectors as it's pretty straight poppish fayre, as witness their cover of Neil Diamond's *Love To Love*. Their cover of The Zombies *Time Of The Season* is pretty decent however and *Somehow*, is undoubtedly their finest moment - an intensely dramatic ballad with searing fuzz interludes.

Compilation appearances have included:- *Love To Love* on *Mindrocker, Vol. 5*; *Very Last Day*, *Somehow* and *Time Of The Season* on *Sixties Archives Vol. 7* CD; and *Somehow* on *Fuzz, Flaykes And Shakes Vol. 1*.

A local Lawrence, Kansas bar band whose album is now rare. A marginal case for inclusion here, it is a varied album with a jazz, country and, even at times, blues flavour. A few tracks have loud fuzz leads and the album also makes occasional excursions into Buffalo Springfield twisted folk-rock territory. Pleasant and rather mellow.

A short-lived quartet from upstate New York, which lasted from early '65 until August 1966 when college and the draft led to the band's demise. Both 45s were recorded at a Buffalo studio in October 1965. *Close That Door*, a pretty typical garage punker can also be heard on *Back From The Grave, Vol. 5* and you could check out *Tiger Girl* on *Scum Of The Earth, Part 1* or *Follow That Munster, Vol. 2*. Bizarre bunch with at least six 45s on Ascot, Autumn and Warner Bros, the last of which they recorded as The Other Tikis!!

2	Glitter And Gold/She Belongs To Me	(Rampro 115)	1966

NB: (2) recorded as The Talismen.

According to Tim Warren's sleeve-notes for *Back From The Grave, Vol. 8*. (which compiles *We're On The Move*), this quartet was formed at the University of Wisconsin, in Madison, in the fall of 1965. After about six months they headed to James Kirchstein's Cuca Studios in Sauk City and laid down two originals for their 45. The band lasted thru' the rest of the school year but was history by fall 1966. Bass player Bill Scherek (who wrote the 45) then put together The Talismen and cut a cool version of *Glitter and Gold* on Rampro. He stayed in the music business through the '70s and '80s and was involved with many national artists. In 1995 Bill relocated to Australia.

Sadly, the band fell apart after appearing regularly at The Embers Club.

It was in fact by another Long Beach outfit, The Town Cryers, but miscredited on the label to **Time Of Your Life**. The 'B' side, an interesting spacey number, will be of interest to the readers of this book, with some good purring organ work and spacey sound effects.

Bands of this ilk are often touted as 'psychedelic' by dealers presumably to boost collectors' interest and asking prices. Pleasant flowery folk-rock-pop with occasional sound effects it may be, mind-expanding it ain't. Just a slightly hipper version of the Fifth Dimension in many cases and (I) include the likes of Forum, Split Level and Yankee Dollar here too. If you like trendy but slightly fabricated MOR sixties pop, then great. Enjoy it - I ain't knockin' it, just the dealers who hype it as something it isn't.

Born Herbert Khaury on 12th April 1930 in New York City 'Tiny Tim' was a novelty singer and ukulele player who associated himself with the late sixties hippie movement. Before he became famous he was a well known eccentric around Greenwich Village and **'Tiny Tim'** was one of several pseudonyms he used. He achieved some success with his falsetto renditions of his favourite twenties tunes, none more so than with *Tip- Toe Thru' The Tulips With Me*, (which had originally stayed at No. 1 for 10 weeks when originally issued by Nick Lucas back in 1929). His first album also made No. 7 in the U.S. Album Charts and he was back in the public eye again in 1969 when he married 'Miss Vicki' on the Tonight Show (they later divorced in 1977). Many of us would put down his music but as a 'character' of the era he deserves a mention.

Tiny Tim died of a heart attack, at the age of 64, in November 1996.

Two of his tracks appeared on the EP accompanying 'Ptolemaic Terrascope' issue 18, *Devil May Care* and a live 1968 version of *Tiptoe Thru' The Tulips*.

NB: (1) as 'Dale Allen and the Rebel Rousers'.

From Duluth, Minnesota and initally known as of (Dale Allen &) The Rebel Rousers they became **The Titans** in 1963 and would see out the '60s with a few personnel changes.

Predominantly a rock'n'roll, instrumental and surf oriented band rather than post-Invasion garage, plenty of their efforts have been compiled of late to check out: *The Noplace Special* on *The Soma Records Story Vol. 1, Summer Place* on *Vol. 2* of the same series, *Tchaikovsky Rides Again* and *Reveille Rock On Vol. 3. Reveille Rock* turns up again on *Wail On The Beach!*; an unreleased 1965 track *Skokiaan* on *Free Flight (Unreleased Dove 1964-69)*; *To Covet The Turf* on *The Best Of Metrobeat.*

The *Fun Seekers* 45 is bouncy beat-pop with a sunny disposition backed by a weepy Paul Anka teen-ballad.

ALBUM:

1. (A) TOAD HALL (Liberty LST-7580) 1968

The *Toad Hall* album is typical but mediocre pop with the occasional track that catches the ear. There's some reasonable fuzz guitar work on *Elegy On A Brick Wall* and some Byrds-influenced guitar playing on *Storybook Love*. Some of the pop, notably *On The Beach* and *A Thousand Years* is quite melodic, but the rest is eminently dispensable including an awful cover version of Bobby Hebb's *Sunny*. Tommy Marcus wrote most of the material but not surprisingly it's yet to capture the interest of many collectors.

The band seem to have gotten their initial break after being taped as house band for New York's Cafe Wha.

45:

1	Leaving It All Behind/Babe, While The Wind Blows (Decca 31847) Goodbye	Nov 1965

An outfit from San Mateo, California given the Gary Usher treatment of Byrdsy folk-punk on *Leaving* - quite excellent but sounds like you've heard it somewhere else and is not surprisingly rather like the L.A. Teens. The flip has a more Dylanesque quality and is also cool. This may not be their only waxing - another **Toads** share a 45 on an L.A. label with The Golden Boys - *Backaruda / Modernistic* (Brent 7050) 1966.

Leaving It All Behind has now appeared on, and lends its name to, a moody folk-punker compilation (Leaving It All Behind) on Misty Lane.

Jon Sholle went on to become a blue grass performer of some note with records such as *Catfish For Supper* and *Out Of The Frying Pan*. Only the second 45 above has been heard to-date but it justifies an entry. The band have yet to appear on any compilation and their origins are unknown - Paula/Jewel/Ronn records were based in Shreveport, Louisiana if that helps. Anyways, *Walkin' Man* is catchy pop-beat with raucous vocals. *Summertime Blues* is converted to a mid-sixties garage-rocker with great vocals, fuzzed guitar and a smokin' break - definitely one of the best versions. Tombstones

1	I Want You / ?	(Grave 1001)	1966

Originally out of Greenville, South Carolina, they cut a pounding punk number *I Want You* for Grave Records in 1966. Well worth a spin, you'll also find it on *Back From The Grave, Vol. 7*. They were really tough rock'n'rollers with a good live act centred round a real tombstone they'd ripped off and used to set up on stage. When their

leader, a very able vocalist/lead guitarist was drafted in 1967 they re-grouped and entered the National Battle Of The Bands up in Braintree, Massachusetts. The double/triple LP-set of that event captures them covering The Doors' *Light My Fire*.

This band were part of San Francisco's music scene prior to the San Francisco-based rock revolution and the hippie movement. Theirs was the first rock 45 to appear on the Fantasy label. The 'A' side, a pretty good instrumental rocker, can also be heard on *Pebbles, Vol. 21* and *Diggin' Out* but it really predates the era of this book.

Tongue and Groove were a popular act in the San Francisco area, formed by Mike Ferguson after he left The Charlatans. Produced by Abe "Voco" Kesh (Savage Resurrection, Lynn County, Morning Glory) and Milan Melvin (Blue Cheer), the first album is an excellent west-coast blues/rock album. Graced by the vocals of Lynne Hughes, the former Red Dog Saloon barmaid who worked with The Charlatans on their unreleased Kama Sutra album, the band revisit several songs from The Charlatans repertoire including: *Devil, The Shadow Knows, Sidetrack* and a Dan Hicks song *Fallin' Apart*. Another Charlatan, Richard Olsen plays bass on the record. The other songs are electrified versions of traditional blues by Mance Lipscomb or Brownie McGhee. The gatefold sleeve was designed by Ferguson and is a superb psychedelic drawing.

The second album is not as interesting, its best moments being covers of Nick Gravenites *Gypsy Good Time*" and Doug Sahm's *It didn't Even Bring Me Down*.

Lynn Hughes later joined Stoneground.

This fascinating outfit, origins unknown (possibly California?), put out one LP that encompasses a variety of influences and styles from frat-rock, British Invasion-style beat, folk-rock, Everly Bros style harmonies to garage fuzz-rockers. Highlights of this eclectic platter for garage fans are: the frat-fuzzer *Black Coffee*; garage punkers *Blue Blooded Lady* and *'Cause You Don't Love Me* (the same songs as by The Odds And Ends on *Boulders, Vol. 2* and *Garage Punk Unknowns, Vol. 3*); a good cover of The Beau Brummels' *Still In Love With You Baby*, and the cool beat-ballad *She's Gone* with its Jaggeresque intonations.

Note for completists: The Merry-Go-Round Song on the 4th 45 above is just an alternate title for the LP cut *Sound Of Summer*, which was also issued on 45 under the *Sound Of Summer* title. Other 45 tracks are to be found on the LP but its unknown how *Didn't It Rain, Pts. 1 & 2* differ from the LP track.

2	She's Gone / Rainy Day Fairy Tales (+ pic insert)	(Phalanx 1014/1015)	1966

The short-lived Phalanx label from Portage, Michigan has become a minor treasure trove for obscure and sometimes superb garage punkers and ballads by the Ethics, Pastels, Troyes, Blues Inc., Olivers and Rainmakers to name a few. This outfit's debut *Alone* is a soppy ballad with echoes of *Unchained Melody* and featuring soft sax solos. Its flip is much better - subdued garage-beat borrowing heavily from *Baby Let Me Take You Home*.

The follow-up *She's Gone*, found on *When The Time Run Out*, kicks off with an encouraging burst of fuzz but thereafter is pretty average garage fare.

Another **Toronados** 45 from 1966 - *Hey Baby* / *Next Stop Kansas City* (Date 1519) isn't confirmed (or thought to be) the same band. Its comprises a pair of confident upbeat poppers, featuring a Four Seasons style rendition of Bruce Channel's *Hey Baby*.

Starting out as a surf band in San Bernadino, California in the early sixties they later progressed into a garage band. They recorded numerous 45s on Bill Bellman's local labels (Rock-It and Bellman). Two of the above were big 'local' hits and were leased to larger labels (Colpix and Original Sound). *Stolen Moments* (featured on *Garage Punk Unknowns, Vol. 4*) got to No. 26 on KFXM in early 1965 and *Harmonics Man* (featured on *Garage Punk Unknowns, Vol. 2*) made the charts again in 1967.

Other Torquays were around to confuse the collector: from Memphis (one 45 on ARA) and Detroit (a 45 on the Hideout subsidiary Punch and another on Gypsy).

45:

1. (B) Stormy Monday Blues/Day To Day Man (Mainline # unknown) 1969
2. (B) Light My Fire/Round Trip (Mainline # unknown) 1969

A local St. Louis, Missouri band. Only 100 copies of their album were pressed and the above two non-LP 45s were often given away free with it. We're talking an ultra rarity of the highest order here. There are a couple of throwaway country tracks (*Happy Face* and *Got To Keep Travelling On*) and the finale, *Gettin' Off*, is marred by a tedious drum solo but the rest is for the most part mindblowing psychedelia. The best of these are *Catfish*, with some bluesy psychedelic guitar work, and two social commentary songs, *Get A Gun* and *Let's Keep The Children On The Streets*, a song about the riots of the sixties.

Ray Schulte had earlier played in Bob Kuban and The In Men in 1962, before helping to form The Guise and, with his brother Jerry, an act called The Sheratons. Tiring of the pop and R&B scene, **Touch** were formed in mid-67, to create a more powerful fusion of psychedelic blues, and they quickly picked up support slots for acts such as Steppenwolf, Cream and Iron Butterfly, also playing at a Free festival with Big Brother & The Holding Co. and The Allman Bros in '68.

Shortly after their album was recorded, Paulette headed west to join a commune, and Ovid quit. A new line-up recorded two further 45s, which feature some good fuzzy guitar work and in particular their version of *Light My Fire*, which is slower and fuzzier than The Doors', comes off well.

One final session in 1970, with Royal on electric harpsichord and lead vocals and David Surkamp (later of Pavlov's Dog) on rhythm guitar, resulted in three songs, that have recently been included on the Gear Fab reissue. In particular *The Magic Inside You* is noteworthy for some particularly fine lyrics, echoing the changing times. Incongruously, the band then landed the job as back up band for Tony Orlando & Dawn, who were riding high on a wave of commercial success from hits such as *Tie A Yellow Ribbon*.

Today, Royal and Ray Schulte are still performing in the St. Louis area as The Essence.

The recent Gear Fab reissue is highly recommended for fans of the progressive and psychedelic genres - appreciation grows with repeated listening.

Light My Fire has also turned up on *Project Blue Vol. 2*.

Galluci, Hawks and Newman had all previously been in Don And The Goodtimes, a popular club band from Portland, Oregon. Prior to that Galluci, who later became a house producer for Elektra, was with The Kingsmen and Newman with The Liberty Party. Their album was a really exploratory effort with touches of psychedelia (*Down At Circes Place*), jazz, avant-garde and progressive rock. The 45 was taken from the LP. The vocals on the album sound rather like Tim Buckley in his *Starsailor* period - amazin! It was produced by Gene Shiveley, who also produced the Elyse Weinberg album on which Gallucci and Joey Newman appeared.

Renaissance also put out a sampler CD - *Buried Treasures* - containing three further **Touch** tracks: a 1968 demo of *The Spiritual Death Of Howard Greer, We Finally Met Today* from an unreleased 45, and *The Second Coming Of Suzanne* from 1973.

Hawks and Hauser were later in Stepson who made an album in 1974 along with Newman, who had been in Blue Mountain Eagle in the interim. Newman later played with Shawn Cassidy.

A pleasant enough progressive instrumental album with lots of strings and keyboards which is now a minor collectable. The band were from New York. Tom Constanten is better known for his involvement with Grateful Dead and Gary 'Chicken' Hirsh was previously with Country Joe and The Fish.

Constanten went on to compose soundtracks and recorded with Jorma Kaukonen in the '90s. Paul Dresher worked with Steve Reich and Terry Riley and relesaed several albums on very small labels.

1. Walk Out In The Rain/Give Me Leeway (Sound Machine 10051) c 1969

Michigan was a haven for hard'n'heavy guitar rock outfits in the '68-'71 period as demonstrated on several compilations including the *Michigan Mixture* series. Whether such outfits fly the 'garage' or 'psychedelic' freak flags is open to contention but there is no doubt that some excellent post-Hendrix sounds abounded from the region. This bunch hailed from Kalamazoo and while *Walk Out* may be too poppy for Michigan fanatics, the flip is punctuated by some fine fluid acid-tinged guitar. (MW).

1. She Said Yeah/Watch Me (Sully 928) 1966

Originally from Mynot in North Dakota, where a serviceman saw their act and offered to move them to Texas to possibly record with Ray Ruff who owned a management company and the Amarillo-based Sully Records. En route to Amarillo they stopped off in Oklahoma City, where they recorded *Watch Me* which they saved for the 'B' side of their 1966 45, *She Said Yeah*. The first pressings were released as The Stones. The 'A' side was a hard rocker and included a long drum solo from the band's 15 year old drummer. Both sides of the 45 can also be heard on *Psychedelic Unknowns, Vol. 3*. However, after a few months gigging at small teen gigs around West Texas they became disheartened and returned to Mynot.

Just six months later Thibert persuaded them to return to Texas again, this time to Fort Worth. They spiced up their act and changed their name to the Try-Cerz when another group called The Tracers threatened legal action. Later still they became Sweet Smoke.

All except Randy had earlier played with Nation Rocking Shadows (of *Anesthesia* fame) and the **Trademarks** were formed in October 1964, after Ron Skinner was ousted from the 'Shadows.

Don't Say You Love Me is Beatlesque beat, with little hint at the shape of things to come, but you can find it, along with the previously unreleased rocker *Everything'll Be All Right* on the awesome We The People double CD retrospective, *Mirror Of Our Minds* (Sundazed SC 11056) 1998.

NB: There's also a French EP with PS: *Mind Excursion/Little Susan's Dreamin'/I Believe In Her/It's Not Gonna Take Too Long* (Kama Sutra 614 104).

Coming from Providence, Rhode Island, Anders and Poncia released a single on a local label as the Vidals in 1960 and then moved to New York, where they signed to a national label. Their second single, *Mr. Lonely*, made the charts but its follow-ups failed. The duo were then signed as contract writers for Hill & Range and penned some hits

and played for the Ronettes, The Crystals, Darlene Love and other Phil Spector productions. After a brief stint with Red Bird Records, they became **The Tradewinds** and signed with Kama Sutra as writers, producers and singers. **The Tradewinds** were a pop duo who occasionally became caught up in some of the psychedelic trappings of their era, most notably on *Mind Excursion*, which can also be found on *Nuggets, Vol. 5*.

Mind Excursion and *New York Is A Lonely Town* were also featured on the 1970 Buddah sampler LP, *Incense And Oldies*.

They also recorded as The Innocence and even worked on an Elvis Presley film score. In 1968 they formed Map City Productions with Frank Mell and used this label to produce and release some East Coast groups, including Yesterday Children, the Blue Jays and Mardi Gras.

In 1969, they had a further self-titled album as *Anders And Poncia* (Warner WS 1776). This was produced by Richard Perry, but despite some excellent guitar from Ry Cooder, isn't very good overall.

In 1972, Peter Anders released a solo album, *Peter Anders* (Family Productions FPS 2705). A competent Californian folk rock album, it's notable for featuring Hamilton Wesley Watt, ex-Euphoria, on guitars. Poncia went on to produce several albums for Ringo Starr and Melissa Manchester and also wrote Kiss' *I Was Made For Loving You Baby*!

It has a certain charm and punk energy and you'll find it on *Glimpses, Vol. 4* or *Pebbles, Vol. 21*. Not connected to either Houston's Traits or the outfit from Pelham, New York as far as we know.

The Traits

From Pelham, New York, their *High On A Cloud* is a classic garage tracks, built around a repetitive Seeds like riff. According to the liner notes to *Pebbles Vol. 5* (CD), *High On A Cloud* was originally released on a *Battle Of The Bands* album (Ren-vell) circa 1966.

The track can also be found on *Relics* and *Garage Punk Unknowns, Vol. 7* and in the 1980s, The Pandoras also covered this track to great effect.

NB: (1) has been pirated on CD by Eva, issued offically on CD by San Francisco Sound and by Akarma on both CD and LP. Two original pressings exist on Janus records, both with identical covers: (i) Tan label, Janus logo, no mention of "San Francisco Sound" on label (R3). (ii) Tan label, Janus logo, large "San Francisco Sound" logo at bottom of label (R3). (ii) was reissued in the eighties, this has a white label with black print and is considered a counterfeit (SC). Something very curious about the two legit Janus pressings: If you turn the volume up very high on either pressing, you can hear transcription noise, and edits between tracks, suggesting that it was not mastered from the original tapes. If the master tapes to this album were not available, the Janus issue would have to have been mastered from a test pressing or a demo disc... and, in fact, such a disc is known to exist. This extremely rare (R6) version has a plain cover with two stickers on it, both with San Francisco Sound and Tripsichord Music Box on them. The front sticker is lime green and larger than the hot-orange back sticker but both have the same cool psych graphics. Inside the album has red/black San Francisco Sound label # T 4A(or 3B)).

45s:

1	Times And Seasons/Sunday The Third	(San Francisco Sound 115)	1970
2	We Have Passed Away/Fly Baby	(San Francisco Sound 127)	1971

NB: (2) Contains album tracks, although *Fly Baby* is radically edited due to its length.

Tripsichord Music Box (name shortened to 'Tripsichord' circa 1970) were one of the Bay Area's most enigmatic, and yet amazing bands. While their contributions to the *Fifth Pipedream - Volume 1* compilation (*It's Not Good, You're The Woman* and *Family Song*) and their early non-LP 45 were both remarkable, their self-titled album (recorded in 1969) proves conclusively that they alone carried the torch during that year that was once shared by Quicksilver Messenger Service, Frumious Bandersnatch and Moby Grape. The *Tripsichord* album is essentially what the world was hoping *Shady Grove* would be! The record is an embarrassing wealth of riches both musically and in it's dark and menacing lyrical imagery. The dual guitar interplay on this under-rated gem is as good as anything by the three groups mentioned and has stood the test of time well. Aside from the rather "normal" sounding *Short Order Steward*, every track is killer and required listening for all fans of sixties music. Many of the tracks have a skewed religious angle, rather than a loving one:

> In my shallow depth perception I could easily lose my cool
> For the world says 'take advantage! Make your neighbour work for you!'
> You've got the money - you can surely buy a ticket on the last ride
> I'm just trying to get to heaven, but I guess I cannot go
> I've no money so I can't afford a ticket on the last ride
> - from On The Last Ride.

...or an obsession with death:

> The life that I lived and the image I reflected
> Still remains in the eyes of those who I protected
> And now I rest eternally...
> The dim light shines from the black door where I have just passed through...
> - from Black Door.

Probably the most stunning track is *The Narrow Gate* which not only has creepy lyrics "Lovely, lovely living souls, blowing warmth from purple heat... now I'm cold", but a stunning instrumental track loaded with unusual percussion in the background. *Fly Baby* is the great Quicksilver Messenger Service track that they never did... one

of the greatest albums of the era!

Tripsichord (Music Box) started life as The Ban before changing names to Now. The group was managed by Randy Guzman's parents, so he took the name Gordon, for business reasons. The Guzman's had shopped the group around to all of the L.A. labels and promotors, playing great gigs at the Sea Witch and Pandora's Box on the Sunset Strip, and had built up a stong following playing the same circuit as the Seeds, Strawberry Alarm Clock, Yellow Payges etc. They were finally brought to the attention of Matthew Katz in San Francisco. Katz' had just lost contractual control of the Jefferson Airplane and was looking for new groups to bolster his stable of Rock groups.

The Now moved to San Francisco and were given the name **Tripsichord Music Box**. They played mostly in Seattle, Washington, at the San Francisco Sound Ballroom, run by Matthew Katz' San Francisco Sounds/After You Productions. In December 1967, they were the first group in 'Frisco to record on 8-track equipment (prior to that most S.F. bands were going to L.A. to record). From those sessions came the cuts that ended up on the *Fifth Pipedream* album (*You're The Woman, It's Not Good* and *Family Song*).

When Katz lost the group Moby Grape, he had **Tripsichord** play a number of shows as the now imfamous "fake grape". Gregg McKinney (Oliver's brother) recalls: "They did the free show in Encanto Park, Phoenix, AZ, where our 93 year old grandmother came to the "love-in" to see her grand son play. For the record, the guys did not like ripping off other peoples fans and would rather have kept playing their own music.... Oliver ended up playing guitar on stage, something her truly hated!"

In 1969, Oliver McKinney and his family moved to Pensacola, Florida where he played for 15 or 16 years in assorted rock/country/bar bands in and around North West Florida. He now is a commercial artist and plays cello in a church orchestra.

Dave Zandonatti and Ron McNeeley (who may have been a member of **Tripsichord** in the (B) or (C) line-ups) also appear on a rare various artists 2 LP set, **The Sons Of Mosiah**: *Live In Washington, D.C.* (dbl) (Lab Productions) 1970. **The Sons...** were a local Utah band... who, given about 25 minutes, play acoustic versions of both sides of the first **Tripsichord Music Box** 45 plus three other original tracks. In between the tracks, they explain to the audience how the lyrics relate to the Mormon religion! The emcee of the show introduces the pair as "former members of Moby Grape".

Rather ironically, and as a final twist, **Tripsichord** drummer Randy Gordon has been behind the drumstool for the *real* Moby Grape in recent years.

Compilation coverage has included: *Sunday The Third* and *Times And Seasons* from their non LP 45, on *Filling The Gap*; Matthew Katz's *Then And Now Vol. 1* includes *You're The Woman* and *Fly Baby*, whilst *Vol. 2* includes *Family Song* and *On The Last Ride*.

3. Keep It Up/Vietnam (Joed 119) 1965
4. Better Come Get Her/Monicia Baker (Pacemaker 238) 1966

Formed in Rosenberg/Needville, Texas in the mid 1950s, all bar Don Drachenberg met at Lamar Consolidated High School in Rosenberg. The 'A' side to the above 45 resurfaced on *Vile Vinyl, Vol. 1*, but they also made other recordings including *Garner St. Park* with which they had a local hit in the Houston area with around 1964.

After B.J. Thomas quit the band, Drachenberg took over vocal duties and **The Triumphs** continued right the way through to 1983, with John Perry taking over bass duties and Doug Griffith's joining in the early eighties.

In 1993 **The Triumphs** had a successful re-union, and they're still performing to this day - indeed they have a gig on New Years eve 1999 at Fort Bend County Fair grounds if you're in the area! B.J. Thomas too is also still performing as a solo act.

Sadly Denny Zatyka passed away in 1997.

There was also a different Triumphs from Houston in the early seventies with 45s on Master and Wand who'd formerly been The Inside Trax.

2	Question / What Did I Do	(Barclay 14249/50)	1964

This Hamburg, Pennsylvania bunch changed their name from this all too used moniker to The Razor's Edge. They subsequently found that their new name had also been bagged so after one further 45 they became Pat Farrell & the Believers.

Arf Arf have unearthed this bands output - both 45s can now be found on *Eastern Pa Rock - Part One*, and five unreleased cuts are unearthed on the Pat Farrell & The Believers CD.

Other Triumphs of interest include the Milwaukee bunch whose *Surfside Date* (I.F.F. 151) graces *Back From The Grave, Vol. 2* and an uncompiled Chicago garage outfit with two 45s on the Cha Cha label.

Chuck Trois and The National Bank

1 CHUCK TROIS AND THE NATIONAL BANK (A&M SP 42??) c1970

They were sometimes known as The Peppermint Trolley, but shouldn't be confused with the Acta Recording act of the same name.

Peter Sack went on to play with Merrilee Rush.

6. I Got To Have You/Don't Come Around (USA 905) 1968 129
7. Satin City News/Professor Potts Pornographic Projector (Smash S-2208) 1969 -

This group of psychedelic rockers, halling from Chicago in Illinois, released one very interesting album in 1968. This included the powerful *Werewolf* and *Witchbreath* and a number of other psychedelic numbers such as *Satin City News* and *Everybody's Child*, alongside the lighthearted *Professor Potts Pornographic Projector* and *Have You Seen The Queen?*. The album had a splattering of slower numbers, too, notably *A Winter's Song* and *I've Only Myself To Blame*. The album is recommended but originals are not easily obtained, as it's now a mini-collectors' item.

The band were later known as **Troll**. Prior to their album they recorded a string of singles (in a pop-beat style) and enjoyed a couple of minor hits. *Don't Come Around* has since resurfaced on *Mindrocker, Vol. 2*, you'll also find *Everyday And Every Night* on *Psychedelic Unknowns, Vol. 3*, *The Essential Pebbles Collection Vol. 1* (CD) and *Pebbles, Vol. 7* (CD). A recording of *I Got To Have You* from February 1968 has also been included on the *Early Chicago* compilation. Of the uncompiled 45 material, *I There Was A Time* is a decent frantic fuzzy popper and *Baby What You Ain't Got* is a heavy'n'intense fuzz-fest.

1. That's The Way Love Is/Into My Arms (Rum 1010) 1966
2. Stupid Girl/I Don't Recall (PS) (Warrior 173) 1966

A different band from Pueblo, Colorado. The 'A' side of their first 45 was erroneously included on the Texan compilation *(Texas) Flashback, Vol. 1*. Some copies of the follow-up came in a picture sleeve. The 'A' side was a Rolling Stones cover, the flip written by R. Gonzales.

Later *That's The Way Love Is* appeared on *Monsters Of The Midwest, III* whose sleeve-notes say the band later became White Lightnin' and issued a 45 on Sandoz and then Jade with a 45 on Jade. However, according to the sleevenotes of *Highs In The Mid-Sixties, Vol. 18*, which features both sides of the Warrier 45, they became Baby Magic! Can anyone set the record straight!?

2. Everywhere I Go/Baby Doesn't Live Here Anymore (Kapp 714) 1965
3. Leave My Girl Alone/You're The Queen (Kapp 750) 1966

Either from Greenfield, Massachusetts or Brattelboro, Vermont, their first 45 features good rockin' versions of Rufus Thomas and Eddie Cochran classics. By their third 45 they'd smoothed out some of the rough edges to put down a slick garagey folk-rocker ballad in The Knaves' *The Girl I Threw Away* mould.

Somethin' Else can be heard on *Psychedelic Unknowns Vol. 9*.

8	Tired Of Waiting/Talkin' Bout Love	(Malaco 2003)	1969

NB: (7) shown as by Chipper.

A revered St. Petersburg/Tampa, Florida outfit, also known as Chipper, whose members would go on to outfits including White Witch and Bacchus. Their finest moment is probably the stunning *As Time's Gone* first featured on *Mind Blowers, Vol. 1*, covered by The Fuzztones on their *Lysergic Emanations* LP and so featured again on *Songs We Taught The Fuzztones*. A dangerous punker punctuated by a strange 'whoop' it's one of Florida's finest contributions to the genre. Their raucous belter *You Better Move* can also be found on *Riot City* and *I Was A Teenage Caveman*, but they were obviously a diverse act, as their next 45, *For A Long Time* verges on Byrds/Beatles influenced folk rock. An early effort *I Want More* is also featured on the *Pebbles Box Set*.

By their last 45 they'd moved into the seriously heavy school of post-Cream/Vanilla Fudge sounds to deliver a rather pedestrian version of The Kinks' hit backed by a melodramatic fuzz-rocker.

Dave Burke left **The Tropics** to join The Standells.

You can also find *For A Long Time* on *Destination Frantic!* CD.

William Truckaway was in fact William Sievers, former member of the Sopwith Camel. His only solo album was produced in 1971 by Erik Jacobsen and sounds very similar to the Norman Greenbaum albums, the main musicians being the same.

The lyrics of *Hard, Cold City Life* are particularly noteworthy:

> "I came to San Francisco
> Got into the music scene
> There hippie girls and acid swirls
> Filled my head with dreams
> I used to think that love was free
> But that's just what it seems"

The music is mainly mid-tempo with good melodies and some unusual moog interventions.

Norman Mayell was with Sievers in Sopwith Camel, Richard Greene was in Seatrain. Terry Dolan and David Hayes would later form Terry and The Pirates with John Cipollina.

Basically an Iowa merger of Billy Janey and the band, Truth, who were originally from Cedar Rapids. This is essentially a driving hard rock outfit whose guitar work on their first album often has some psychedelic trappings. A marginal case for inclusion here, their other two albums fall outside this book's time frame. If you like killer guitar work treat yourself to a copy of their first album which is now rare. The guitar work on tracks like *Remember* is stunning.

More recently Steve Bock appeared on a record in the '80s with southern California band, Nowhere Fast. Guitarist Billy Janey (who now goes by the name Billy Lee Janey) has also released at least four solo Blues Rock CD's during the late '80s - '90s.

1. Hurtin' Kind/Mine Forever (Tema 817) 1966
2. Hurtin' Kind/Mine Forever (Mar no #) 1966
3. Debbie/? (Tema 125) 1966

NB: (2) is a bootleg miscredited as The Talula Babies.

Hurtin' Kind is a superb hand stamped double-sided single, strongly influenced by The Kinks. Although they actually came from Cleveland, Ohio, both sides of the single were included on Eva's *Florida Punk Groups From The Sixties*. *Mine Forever* (from the Mar release) can also be heard on *Valley Of The Son Of Gathering Of The Tribe* (from the Tema release) and *Hurtin' Kind* (from the Mar release) can be found on *Open Up Your Door*. Both sides are worth checking out but the 'A' side in particular has a fine guitar break and a good organ sound. *Debbie* can also be heard on *Pride Of Cleveland Past*.

The group also recorded as The Baskerville Hounds, re-recording versions of both *Hurtin' Kind* and *Debbie*.

It should also be pointed out that their first 45 was bootlegged at the time, and miscredited as The Talula Babes... three decades on and it's still appearing miscredited on bootlegs, with the both sides resurfacing on Eva's *Sixties Archives, Vol. 4* (CD) and *Florida Punk Groups From The Sixties*, and the flip making an additional appearance on *Valley Of The Son Of The Gathering Of The Tribe*.

Turks

- (A) IOWA BY THE SEA (Pentagram PE 10004) 1970

The best thing about this album is the surrealistic cover. Only *All Gone Blues Act II* is worthy of the psychedelic tag some dealers try to give this album which for the most part is pretty bland country-rock. The finale *Reno, Nevada* is also worth a listen. Maggi later played with String Cheese.

NB: (11) and (12) also issued in France with PS by London. There are also four French EPs with PS on Polydor and London.

They formed at Westchester High School in Los Angeles in 1961. Their key founder members were Mark Volman, a native of LA (he'd been born there on 19 April 1947 and Howard Kaylan (real name Howard Kaplan), a New Yorker, he'd been born there back in June 1947. They were originally known as The Nightriders, then The Crossfires, until in 1965 their name change to **The Turtles** was a condition of their contract with White Whale. In their early days they were very much part of the LA folk-rock boom. Their first 45 was a Dylan song and the next two were P.F. Sloan compositions. All three achieved considerable commercial success. Their first album, which climbed to No. 98 in the U.S. Charts, contained two other Dylan compositions:- *Love Minus Zero* and *Like A Rolling Stone*, in addition to the title track and P.F. Sloan's *Eve Of Destruction*. They had a few good originals, too:- *Wanderin' Kind* was a good folk-rocker and *Let The Cold Wind Blow*, a protest song. Their second album, too, was a similar blend of originals and Dylan and P.F. Sloan compositions.

As 1967 came they underwent some personnel changes and Bonner and Gordon, formerly with The Magicians became their new songwriters. Inevitably there was a change of style and initially a more commercial pop sound. With *Happy Together*, a classic love song, they enjoyed a No. 1 U.S. hit (and it also made 12 in the UK). They issued an album of the same name which was in many respects a compromise between commercialism and their own progress. It made No. 25 in the U.S. Album Charts. They followed the 45 success of *Happy Together* with *She'd Rather Be With Me*, a bouncy pop song with pleasant harmonies which made No. 3 in the U.S. and No. 4 in the UK. Their next single *Guide For A Married Man* was written for a Walter Matthau film but withdrawn after just one week and replaced by *You Know What I Mean* which peaked at No. 12 in the US.

Golden Hits, which contained most of their 45 releases and two previously unissued tracks, *Is It Any Wonder?* and *So Goes Love*, became what would be their best selling U.S. Album peaking at No. 7.

They're also rumoured to have released an excellent pop-punk 45 in December 1967, under the pseudonym of The Odyssey. A year later they recorded a Christmas single with Linda Ronstadt as Christmas Spirit.

From 1968 their music became more experimental, although when White Whale became impatient for another big hit Volman and Kaylan came up with the brilliant *Elenore*, which was a big transatlantic hit peaking at No. 6 in the U.S. and No. 7 in the UK. Their *Battle Of The Bands* and *Turtle Soup* albums are both worth investigation. They enjoyed further minor hits, of which *Lady O*, a Judy Sill composition, was the last 45 released with their approval. Many of these later 45s were included on their *More Golden Hits* album along with two previously unissued tracks:- *We Ain't Going To The Party* and *Cat In The Window*, The first of these was intended for an album, *Shell Shock*, they were working on which was never released. Now heavily immersed in the flower-power movement they were recording numerous deranged tapes which White Whale wouldn't release. The record company continued to release their own choice of material but none of it met with much success commercially and, in September 1970, the band disintegrated.

Volman and Kaylan both later joined The Mothers Of Invention, then in 1972 they worked as a duo first as Phlorescent Leech and Eddie and later as simply Flo and Eddie. Much of **The Turtles'** material has stood the test of time quite well, and whilst they were most successful as a folk-rock/harmony outfit **The Turtles** main significance for this book was as part of the flower-power movement, even though that movement was ultimately to prove their downfall.

Compilation appearances have included *Elenore* and *Happy Together* on *The Golden Archive Series Sampler* and

Can I Get To Know You Better?, *She's My Girl*and *It Ain't Me Babe* on *Nuggets, Vol. 3*, *9* and *10* respectively.

45s:

1. Dirty Old Man/You Love (Scotty 6621) 1967
2. Dirty Old Man/This Weeks Children (Date 2-1550) 1967

This was a continuation of The Electras, the top '60s band from Ely up in Northeast Minnesota. Indeed, they had first recorded their best known song, *Dirty Old Man*, when they were The Electras. Both these 45s are now quite rare and sought-after but fortunately you'll also find *Dirty Old Man* on *Changes*, which is itself becoming rare, *Acid Dreams Vol. 2* and *Moxie's '60s Punk EP, Vol. 2*. It also turned up on Eva's *Litter' Rare Tracks'* LP along with other Electras tracks due to the mistaken assumption that this was a Litter offshoot - not so, see The Electras entry.

1. FANTASTIC (GREATEST HITS BY EILRAHC ELDDEWT) (No label) 197? R3/R4

A rare, but really inept and stupid (intentionally!) local Bay Area album from circa 1974. The incredibly beautiful psychedelic gatefold sleeve belies the fact that the contents are largely sound snippets and crickets chirping in the night - the very epitome of a record whose impossible rarity is fully justified. Four young Orlando teens started out in 1963 as The Emotions, playing youth clubs and school hops. Two years later, still only 16/17 years of age, they changed their name to **The Twelfth Night** and put out their own 45 on a label set up for them by friend Bob Benzing.

The following year they acquired a manager and another name change to Covington Tower. Maguire joined the USAF at this point and was replaced by Steve Jay (bassist for Weird Al Yankovic for over twenty years). Covington Tower lasted until 1969.

Grim Reaper, a charming lo-fi fuzzer with a frantic solo, is on *The Chosen Few Vol. 2* and Psychedelic States: Florida Vol. 1 (CD).

Pressed on blue vinyl and recorded by a bunch of crazy Californians based in Sebastopol, this will interest some readers. 1(A) THUNDER ON A CLEAR DAY (Vault 122) 1968

NB: (1) reissued on CD by Afterglow in 1995, and again by Sundazed with extra tracks: both Caz 45s, the final Vault 45 and three unreleased cuts *Country*, *Hall Of The Mountain King* and *Enchanted Park* (Sundazed SC 11063) 1999.

1 TWENTIETH CENTURY ZOO (PS) (Sundazed SEP 145) 1999

45s:

1	You Don't Remember/Clean Old Man	(Caz L- 103)	Nov 1967
2	Love In Your Face/Tossing And Turning	(Caz L-104)	April 1968
3	Rainbow/Bullfrog	(Vault 948)	1969
4	Only Thing That's Wrong/Stallion Of Fate	(Vault 961)	1970

NB: A few copies of (1) came with a picture sleeve, which now command high prices.

Recorded in Los Angeles, this is a fair album. It's predominantly bluesy with a splattering of sound effects. The 'A' side to their first 45 was re-recorded when they signed to Vault in 1969. The 45 version of *You Don't Remember* has also resurfaced on *An Overdose Of Heavy Psych* CD and *Psychedellc Disaster Whirl*. *Only Thing That's Wrong* (also non-LP) is a country rocker which can also be heard on *Mindrocker, Vol. 13*. The same compilation features the abridged (45 version) of *Bullfrog*.

Thought to be a Los Angeles band they were actually from Phoenix, Arizona and were known until late 1967 as the Bittersweets, releasing three locally successful and now sought-after 45s before they added Ladd (from the Laser Beats) to the line-up and changed their name. Bennett was drafted late 1967 and replaced by Randy Wells from another local band Sounds Incorporated.

The Sundazed EP features three of the four Caz 45 tracks - *Clean Old Man* is missing for reasons unknown. Still, a welcome reissue and a chance to sample their earlier rampant fuzz-heavy-garage sounds that were somewhat diluted by the time of the album. The Sundazed CD is recommended.

Hailed from Waco in Texas. The 'A' side of this 45 is a strong song with effective vocals, superb fuzz guitar, great lyrics, and catchy chorus... "Well my mind is so messed up, nothing can bring me down, Nothing is strong enough, to save me now...".

It later appeared on *Psychedelic Experience, Vol. 1* (CD), *Flashback, Vol. 2*, *Austin Landing, Vol. 2* and *Basement Walls*. Highly recommended.

Invasion-influenced garage rock'n'rollers outta Plattsburgh, NY. Their cover of Cliff Richard's early hit *Move It* can be found on *It's Finkin' Time* and *Teenage Shutdown Vol. 11*, whilst *Teenage Shutdown Vol. 2* features the flip.

Twilighters

ALBUM:

1	BOTH SIDES OF THE TWILIGHTERS	(Vanco)	1968 SC

Another **Twilighters**, their album contains two good garage/psych cuts, plus many weak tracks. It was released on the same label as Easy Chair, so perhaps they came from the Northwest.

Twin Connexion

ALBUM:

1 TWIN CONNEXION (Decca) 1968

A breezy pop psyche group with sitar, probably a studio project.

(Stephane Rebeschini)

Two Boys In The Windows

Probably from Texas hence the inclusion of *If You Love Me Girl* on *Acid Visions Box Set 1* (CD).

The Two Of Clubs

The Two Of Clubs were a girl duo from Cincinnati. Their raunch-punk version of Petula Clark's *Heart* has resurfaced on *Psychotic Reactions* but the pair also had a chart hit with *Walk Tall (Like A Man)* on Fraternity which is much more of a "pretty" song.

A late sixties outfit from Burlingon, Iowa. You can also check out *Psychedelic Pill* on *Hipsville, Vol. 3* and the flip on both *30 Seconds Before The Calico Wall* (CD) and *Mindblowing Encounters Of The Purple Kind*.

1. Search For The Answer/I'll Bring You Back (Onyx 3287) 1970

This psychedelic 45 was the work of a Massachusetts outfit.

Tyme

The members of this garage-punk combo all attended Northwestern Regional High School in Winsted, Connecticut. They recorded an acetate in 1966 which consisted of *Cry For The Trees* backed by *Land Of 1,000 Dances* but it got next to no airplay and with their recording career never taking off they concentrated on their popularity as alive band giving many of the hits of the era their own rather unique garage-punk interpretation. 22 years later *Land Of 1,000 Dances* made vinyl on *Back From The Grave, Vol. 7*.

Tyme of Day

45:

1. Listen To What Is Never Said/I Wanna Know (Mercury 72861) 1968

Possibly a Texan outfit - this 45 was produced by Norman Petty. *Listen...* is a strange ditty about a fathers advice to his son - it has some fuzzy noises but ain't yer normal garage fayre, interesting though. the flip is reedy garage pop. (Max Waller)

Tymes Children

45:

1. Take Me Back/Go To Him (Panorama 38) 1966

Cool beat garage sounds from Salem, Oregon. *Take Me Back* is uptempo Invasion-infused beat. *Go To Him* is another version of the sullen beat ballad covered by the London Knights. (Max Waller)

Tyrannies

45:

1. Little Girl/She's A Queen (Watch 45 1903) 1965

Sultry garagey folk-rock, with a bow to the Beau Brummels, from June 1965. From Abita Springs, Louisiana. Check out *She's A Queen* on *Class Of '66!*

From New York / New Jersey region, their *Pull The Wool* deserves attention. It's a later sounding garage fuzz-punker that's probably '68 rather than '67 - plenty of fuzz but it's sorta 'laid back' with swirling organ and the vocal style has that post-Fudge soulish arrogance. Despite that this ditty works pretty well, but not for the "class of '66" I suspect. The flip is forgettable as you guessed all along.

45:

1	(Just Like) Romeo and Juliet/Some Days You Just Can't Wait	(MGM 14023)	1969

Originally known as Underground Cinema, this band were discovered by producer Alan Lorber, who changed their name and signed them to MGM. Part of the emerging 'Bosstown Sound' of 1968, they were the brainchild of group member Ian Bruce-Douglas, who also wrote all the material on their first two albums. Barbara Hudson's beautiful voice gave the group a distinctive vocal sound.

Their debut album was a very trippy affair. The double fold-out cover contained highly pretentious sleeve-notes by Bruce-Douglas. This pretentiousness was evident, too, in the album's lyrics. For example, its opening track *Ego Trip* begins:

'Mindless creedence
Gropes through idiosyncrasies
Up - rising up
Down ... (echoes)'
(from *Ego Trlp*)

and again at the beginning of the *Hip Death Goddess*, which captures Hudson's vocals at their best:

'See the glazed eyes
Touch the dead skin
Feel the cold lips
And know the warmth
Of the Hip Death Goddess'.
(from *Hip Death Goddess*)

Instrumental numbers, like *Sacrifice Of The Moon*, sound similar to their equivalents on the early Country Joe and The Fish albums. The album is liberally endowed with wind chimes, bells and sound effects and the lyrics are tailored with flower power mythology:

'I saw a funny freak parade
Marching down the street
They were acting very strange
Kissing everybody they meet
With eyeballs hanging out of their eyes
And daffodils in their hands
Someone asked what's happening here?'
(from *Funny Freak Parade*)

The final track, *Pamela*, which has a similar wind chimes intro to Country Joe's *Grace*, is intended to illustrate 'the intense beauty that can be seen and felt if one's senses are fully employed'. Once again acid was the inspiration behind those lyrics:

'Moonbeams and sapphires

Vibrate as one
I hear prisms
Crystal rainbows fill my sky
Shattered, they glisten
And blind the sun .
(from *Pamela*)

The album met with considerable commercial success peaking at No. 34 in the U.S. Album Charts.

Their follow-up album, *Behold And See* was in similar vein. The lyrics were less impressionable, though, and their music had become more mystical, particularly on the excellent *Genesis Of Beauty Suite* and *Fragmentary Marches Of The Green*. Other tracks like *Mind Flowers*, may be seen as an extension of themes from their earlier album. Once again, Barbara's vocals glisten with beauty. This reached No. 198 in the Album Charts. Be aware that on the Big Beat CD the tracks are resequenced and *Visions of Your Reality* has been dropped, leaving this track unissued on CD. Both albums are classic acid rock period pieces and highly recommended, if one can excuse their more pretentious trappings.

Bruce-Douglas' departure after their second album had a profound effect on the band's musical direction. All the material on the third album, apart from the opening cut *Romeo and Juliet*, was written by the new band and lacked the imagination of Bruce-Douglas' work. For the third album, Jeff Baxter, who later had a spell with Steely Dan, came in on lead guitar and Ted Myers and Tony Scheuren joined from Boston label-mates Chamaeleon Church. Curiously, Mike Levine, who was listed as bassist didn't actually play on the record. Tom Caulfield who had been a lifelong pal of Mike's and who'd previously played for the soul group The Three Degrees, instead played impeccable bass and a super harp solo on *Eddie's Rush*, the blues jam that concludes side one. Only Barbara Hudson remained from the original line-up, and although their final album, is overall less interesting, it is still worth hearing.

Fans of the band may be interested in checking out neo-psych / acid-goth band **Babylonian Tiles** cover of *Hip Death Goddess*, which appears on the St. Thomas Records sampler CD *Saints & Sorcerers Vol. 2* - It's even been approved by Ian Bruce-Douglas as "fulfilling his vision of 'Hip Death Goddess' personified"... *Hip Death Goddess* has also been covered by Lithium X-Mas (on their *Bad Karma* and *Helldorado* CDs).

Ultimate Spinach also appear on a couple of compilations: the *Bosstown Sound-1968* 2-CD set features *(Ballad Of) The Hip Death Goddess*, *Baroque #1*, *Fragmentary March Of Green*, *The World Has Just Begun*, *Happiness Child* and *Eddie's Rush*; and the *Family Circle-Family Tree* CD contains *Back Door Blues* and *Happiness Child*.

NB: (1) released as **The Uglies**.

From Detroit Lakes in Northwest Minnesota they were one of the State's most popular live acts. Their shows were wild and unpredictable, centred around Winston Fink and their 45s are not too hard to find. Bobby Vee produced their 4th 45 and *Spider Man* which is usually considered to be their finest moment, is best described as an organ led up tempo punker.

Dave Hoffman and Mike Gilson later recorded an album and 45 with Friendship whilst Alan St. Pierre also recorded a solo 45 in 1967. Bob Eveslage also released a 45 using the pseudonym Robbie Jay in 1966. All this underscores the depth of their musical talent.

Bob Eveslage now resides in New Ulm, Minnesota, and still writes and records music. He was the founding member of **The Unbelievable Uglies**: "The other four original members were Dave Hoffman (Winston Fink) on stand-up electric bass, Greg Paul on lead guitar, Mike Shannon on drums, Dave Prentice (a very, very funny Front Man who worked hand-in-hand with Winston), and me on the keyboards. Al Spears was a later addition, and a very good R&B vocalist. Members came and went, but the five of us held the band together for about eleven years."

Bob also took a couple of years out of the group, when he moved to Seattle, "I was part owner of a studio and with a studio group called Today we had a single on Jerry Dennon's label called *We've Been A Bad, Bad Boy*. After a couple of years I came back to the **Uglies** and Minnesota. The original members are all still living in the Minnesota area and are doing different things. All but Greg are still involved with music as a profession."

Bob's most recent 45 was released in 1987 on the Clowd label, which was partly run by the late Fred Heggeness (the well known record collector and author from Detroit Lakes). Entitled: *You're The Only One (Patty's Song)* and writen for his wife, it received quite a bit of airplay in the upper midwest. The flip was recorded by Dan Holt with Bob on backing intstruments and was an old Ral Donner cover entitled *You Don't Know What You've Got (Until You Lose It)*.

Compilation appearances so far include: *Get Straight* on *Hipsville, Vol. 3*, *Spider Man* on *The Midwest vs. The Rest, Vol. 1*. *Research Into The Soul Of Psychedelic Sound* on *Everything You've Always Wanted To Know....* CD and *Sixties Rebellion, Vol. 15* and *The Log* on *Mondo Frat Dance Bash A Go Go*.

From LaCrosse, Wisconsin, this four-piece put out an interesting version of The Traffic classic and made it

altogether more garagey by sticking a fuzz lead on it as well as subtley fiddling with the middle break (no little lost girl vocals here), good and if you're one of the 100 owners of *Everywhere Chainsaw Sound 1*, you can enjoy it thereon. Unfortunately their other output fails to match this. The group, or members of it at least, were billed to appear at the 'La Crosse Rock Reunion '91' gathering along with the TJ's, Johnny and The Shy Guys, Dave Kennedy and The Ambassadors, Fax, Ladds, Lost and Founds, Hope, Marauders, Satisfactions, Molly McGuires, Today's Tomorrow and local godfather of rock' - Lindy Shannon.

45s:

1. Kathy Ran Around/I Can't Go On (Hunt 805) 1966
2. Let's Be Happy/Lover Boy (National 19241) 1967

This Iowa City outfit was fronted by Larry Barrett, the son of a major Midwest jazz musician and DJ, whose earlier band had been The Countdowns, Apparently the new **Uncle and The Anteaters** name was the suggestion of a drunk at a frat party! *Kathy Ran Around* has a typical mid-sixties Farfisa organ solo and sincere vocals, *Lover Boy* contains some nice layered harmonies and *Let's Be Happy*, a much slicker song than the other two, is an attempt at Turtles-style rock. All three songs have resurfaced on the Dirty Water compilation and are well worth a listen. Barrett was later in the XL's and Rox (a post-Daybreakers project).

Uncle Sam and the War Machine were from Springfield/Amherst area of Massachusetts. Although how they came to record for a label based in Cleveland, Ohio is unknown. *Spy Girl* is a upbeat popper that's somewhere between garage and bubblegum sounds - it also borrows from *Wild Thing*. *Hold On* is a pleasantly haunting garage - folk-rocker and is to be found on *From The New World, Vol. 1.* .

Greg Bullen went on to found a band called **Bald Mountain Road**, consisting of blues and honky tonk. He was a killer piano player. **US & the WM** also once opened for Frank Zappa at Fillmore East. There were a lot of strange double bills in those days. (Max Waller / Jonathan Sharkey)

4. Little Girl/Don't Pretend (Reprise 0446) 1966
5. Surprise Surprise/Get Down On Your Knees (Hideout 1011) 1966
6. Love's Gone Bad/Mo Jo Hanna (VIP 25040) 1966 122

A popular sixties band from Grosse Pointe, one of the richer Detroit suburbs, in Michigan. They were one of the top live attractions at the Hideout teen club which was run by local promoters Dave Leone and Ed 'Punch' Andrews. To promote them further Dave Leone decided to put them onto vinyl. He got a poem from a 'friend', put it to music and the result, *Man In The Glass* was issued as the first 45 on Hideout. It was energetically promoted and picked up by Reprise for national distribution, but when Leone later discovered the lyrics were taken from a poem used at Alcoholics Anonymous he had to stop plugging it.

In 1965 the Hideout club label issued the sampler LP *Best Of The Hideouts* (Hideout 1002), which saw a limited vinyl reissue in 1990 - it features *Friday At The Hideout, Man In The Glass, Surprise Surprse* and *Get Down On Your Knees*.

Thereafter, they became the first white act to sign for Motown. *Love's Gone Bad* issued on the VIP subsidiary was quite popular cover of the Chris Clark composition and actually made No. 122 in the U.S. Charts.

Other compilation coverage has so far included: *Love's Gone Bad* on *Nuggets* 4-CD box-set, *Nuggets Vol. 6*; *Man In The Glass* and *Love's Gone Bad* on *Michigan Brand Nuggets*; *Friday At The Hideout* and *Don't Pretend* on *Highs In The Mid-Sixties, Vol. 6*; *Surprise, Surprise* on *Highs In The Mid-Sixties, Vol. 5*; More recently, *Thee Unheard Of* compilation has, included two previously unreleased cuts by the band, *Don't Bother Us* and *Hang It In Your Ear*. The first is rather lame, but the second captures their live sound rather well.

ALBUM:

1. PSYCHEDELIC VISIONS (Mercury Wing WC-16337) 1967

On this album a group of unknown musicians do fuzzed-up instrumental cover versions of classics like *Psychotic Reaction*, *Tobacco Road* and *We Ain't Got Nothing Yet*, along with a few originals like *Psychedelic Dream*, *Mind Jammer* and *Psychedelic Visions* (which are all written by Merk Currie). It's not a bad album and, in addition, their version of *Psychotic Reaction* can also be heard on *Relics, Vol. 1*.

There was also a different outfit of this name who released two 45s on Mainstream:-

1. Easy/Satisfy'n Sunday (Mainstream 660) 1966
2. Get Him Out Of Your Mind/Take Me Back (Mainstream 667) 1966

Myths have abounded about a pre-Ultimate Spinach outfit thought to have been known as **Underground Cinema**. In 1996 Arf! Arf!'s *New England Teen Scene Unreleased* CD finally uncovered some proof - two 7" acetates featuring *Blackbird*, *Sunday Morning*, *Where Has Time Gone To* and *Moondog Blues* (the first three appear on the CD).

Recorded at AAA studios in Dorchester, Mass. by Bruce-Douglas, Tull and others in 1967, a set of the acetates survived thanks to Al Lorusso (of The Bourbons). They were given to him in appreciation of his loan of equipment for the session. Whether they used the name **Underground Cinema** is still unconfirmed. Other musicians rumoured to be involved include guitarists Richie Bartlett (Brother Fox and Tar Baby, the Fools) and Steven Cataldo (Saint Steven, Nervous Eaters) who recorded as the Front Page Review around the same time.

Undergound Electrics

ALBUM:

1	HEY JUDE	(Crown CST 588)	1968/9

Another exploito-LP from the budget label that issued The (Electic) Firebirds, aka 31 Flavors - and this too is rumoured to be the same band.

The contents bear little resemblance to the sleeve - a paisley-bedecked hippie chick sitting cross-legged with arms aloft. After the Beatles' cover with plastic beaker vocals, the remainder is a strong selection of heavy blues-rock in the style of Cream and Led Zeppelin's first album, exploiting the legacy of the likes of Robert Johnson, John Lee Hooker and Elmore James (*Crossroads*, *Boogie Chillun* and *Dust My Blues*).

Composed by David Dalton, this album has been likened to The Deep on a bad day and is recommended to those who find bad records great! Side 1 - Acid Rock - includes *Play Your Game*, which can also be found on the *Echoes In Time* compilation. 1	THE AMERICAN METAPHYSICAL CIRCUS	(Columbia CBS 7317)	1969

NB: (1) reissued on CD (One Way A-26792) 1996.

Joe Byrd, who master-minded this group of experimental Californian musicians, was born in Louisville, Kentucky. He is a descendant of the famous Byrd family of Virginia and he grew up in Tucson, Arizona. During high school years, he played in country-and-western and pop music bands, but by the time he entered the University of Arizona he had begun playing vibes with a jazz group.

After graduation, Byrd received Stanford University's Sollnit Fellowship for graduate study composition. But Byrd chose to split for New York, where he had already begun listening to electronic music and meeting far-out Berkeley composers.. While there, he worked as a conductor, arranger, teacher and assistant to critic-composer Virgil Thompson. It was during this era that he developed his interest in experimental music and his works were often performed abroad.

Influenced by events in California in the late sixties, he decided to quit New York and head for the University of California at Los Angeles. Here he worked as a teaching assistant, also finding time to study acoustics, psychology and Indian music. He eventually dropped out of UCLA to work full-time on his musical enterprises, putting together **The United States Of America**, whose other main asset was vocalist (and Byrd's ex-girlfriend) Dorothy Moskowitz, who possessed possibly one of the most attractive singing voices in rock. Other original members included political radical Michael Agnello and bassist Stu Brotman but both left before the band signed to Columbia with Brotman joining Kaleidoscope.

The group's sole album was erratic but often brilliant, with Byrd and Moskowitz writing most of the music and lyrics

between them. Opening track, *The American Metaphysical Circus* parodied Sergeant Pepper and the unusual, but commercial *I Won't Leave My Wooden Wife For You, Sugar* became well known here in England by virtue of its inclusion on the CBS compilation *The Rock Machine Turns You On*.

Overall the album was one of the most successful attempts to marry experimental electronic music, with rock lyrics. Instruments used included a Durrett synthesizer and Tom Oberheim's ring modulator, an electic violin and an unfretted bass. The beauty of the lyrics was matched by the excellence of Moskowitz's voice on tracks like *Cloud Song* and *Love Song For The Dead Che*.

Other tracks like *The Garden Of Earthly Delights*, which was also included on *The Psychedellc Dream* compilation and *Coming Down* appear drug-inspired:

'Poisonous gardens, lethal and sweet
Venomous blossoms
Choleric fruit deadly to eat
Violet nightshades, innocent bloom
Omnivorous orchids
Cautiously wait, hungrily loom
You will find them in her eyes,
In her eyes, In her eyes'
(from *Garden Of Earthly Delights*)

I think it's over now, I think it's ending
I think it's over now, I think it's ending
A thought of coloured clouds all high above my head
A trip that doesn't need a ticket or a bed
And everything is smelling sweeter than the rose'
(from *Coming Down*)

The album is a minor collectors' item but has also been reissued. It climbed as high as No. 181 in the U.S. Album Charts when it was first released. The cover was originally planned to be an American flag dripping with blood but, understandably, Columbia bailed out of the idea.

Live, the band played an exact reproduction of the album but had trouble getting suitable gigs. One, in which they were paired with The Troggs, was an unmitigated disaster and they also had an ill-tempered coupling with The Velvet Underground (in fact, after leaving the Velvets, Nico tried to join the **USA**). In addition, tension between bandmembers was rife, with Byrd, who the album's producer David Rubinson describes as "one of the most insane examples of control freak that I've, to this day, ever experienced", attempting fruitlessly to dictate policy to the other strong personalities in the band. Every rehearsal became, in Byrd's words, "group therapy". When three of them were busted for marijuana at a gig in Orange County, California, only Byrd and Moskowitz remained and they soon split into two factions with each leading their own group.

After the group split, Byrd made a further album with a bunch of 12 musicians called The Field Hippies. Although not as successful as The USA album, this was a strange voyage into the world of mystical and quasi-religious music. Once again he found three female vocalists - Susan de Lange, Victoria Bond and Christie Thompson - with seductive voices. The lyrics often paralleled themes on the earlier album.

'Waitin' to die for the seventeenth time
Etched on a mirror in the back of your mind
Trapped on a mountain nobody can climb
You can't ever come down...'
(from *You Can't Ever Come Down*)

Susan de Lange's beautiful rendering of *Moonsong-Peloc* paralleled the *Cloud Song* on the earlier album. Victoria's beautiful *Patriot's Lullaby* was in similar vein, but unfortunately most of the material on side 2 failed to again the

same standard.

Today, Joe Byrd is a recognised composer and arranger who plays electronic music, organ, electric harpsichord and, occasionally, calliope. In 1975 he released a synthesizer albums, *Yankee Trancendoodle* and followed this with *Xmas Yet To Come* in 1980.

Folk-rockers from Seattle, Washington (also quoted as from Portland Oregon). They landed a distribution deal through the New York-based Rust label. Both sides of their first 45 are excellent soft psych-rock songs, *Wind And Stone* being a classic 'back to the wilds' theme song with a glorious spirit-lifting raga-esque break, and lyrics reflecting the rejection of "the plastic society". The *Gypsy Eyes* 45 contains two more melodic folk-rockers with the odd effect and is full of dewey-eyed romantic yearning.

3. Cry Cry Cry/It's Not Fair (Liberty 56052) Summer 1968

NB. *It's Unfair* and *Its Not Fair* are the same song. (3) recorded June '67.

A stunning outfit from Detroit, Michigan who may be the only band in history to take their name from economics jargon. Ron Stults had earlier been in a band called the High Tones who had opened for the Four Seasons in 1963. After they broke up, he joined classmate Rory Mack in the Village Beau's but after their demise in September 1966, Rory invited him to be lead singer in a new band he was forming. This became **The Unrelated Segments**.

The band had only been together for about ten days when they recorded *Story Of My Life* on November 26th, 1966. The song went top ten in Detroit and the **'Segments** became one of the more popular live acts in the City, playing gigs with Bob Seger, Terry Knight and The Pack, SRC, Frost, and the MC5. In 1968 they supported the Who in concert, with the Amboy Dukes opening for the other two. Their second single was unfortunately released the month

of the Detroit race riots when the city was virtually shut down so sales were limited. After the release of their long-delayed third single, *Cry Cry Cry*, Andy was fired because of differences with the band's manager, Louis Torock (John's father). Six months later Barry was drafted and shipped out to Vietnam, and the band changed their name to U.S and recorded two songs including the infectious *Hey Love* with its get down soul-groove. Shortly after Rory decided to leave the music business for good and by the end of 1969 the band decided to call it quits.

All five of their compositions were composed by Mack (music) and Stults (words) and are collected together on *SVR Rock Hits Of The Sixties, Vol. 1* and on Eva's *Swamp Rats/Unrelated Segments* compilation. In addition, they also appear on several other compilations. Both sides of their first 45 can be heard on *A Journey To Tyme, Vol. 1*. The 'A' side, a rather interesting fast tempo rocker is also on *Psychedelic Unknowns, Vol. 4* and *Nuggets, Vol. 12* and the much more ordinary flip side can also be found on *Boulders, Vol. 10*. Both sides of their stunning follow-up 45 are on *Boulders, Vol. 9*. In addition the 13th Floor Elevators-like 'A' side can be found on *Acid Dreams, Michigan Brand Nuggets* and *Nuggets, Vol. 6* and the flip, a sensitive punk ballad, on *Gathering Of The Tribe*. Finally *Cry Cry Cry* resurfaced on *The Magic Cube, Back From The Grave, Vol. 2* and the *Acid Dreams Testament* (CD). More recently *Its Gonna Rain* has been covered by The Broken Jug on their *William* LP. The Collectables CD, however, is the best compilation of their output, including all three of their singles, the two U.S recordings, alternate backing-tracks for three songs, five post U.S Ron Stults tracks (sounding a lot like Blue Cheer), as well as six tracks by SVR stablemates, the Tidal Waves - all in excellent sound and with extensive sleevenotes and band photos.

Ron Stults went on to form the Lost Nation whose LP *Paradise Lost* is pretty decent progressive rock. He now claims to have written over 2000 (!) songs.

Probably from the East Coast, as their both albums were recorded in New York, home of the Ascot Label. Produced by Tony Michaels and Vinny Gormann and engineered by Warren Schatz, their first album is basically folk-rock with a hint of psychedelia with *Waking Up* one of its finest moments. A truly beautiful album - it's worth checking out for fans of this genre. All their songs were penned by the group.

Released two years later and produced by Shel Kagan, the second album is heavier and more rock-blues in style, but still contains some good tracks: *Sleeping Prophet*, *Personal Manager* (an Albert King cover) and *Sleepy Mountain Ecstacy*. The voice of Dede Puma, their female singer, is still really impressing.

In 1972, Gene Stashuk played cello on Bonnie Raitt's *Givin Up* album. The other members apparently vanished from the music scene.

2	Summer Is Over/I Could Go On	(Mainstream 653)	1966

NB: (1) with Kathi McDonald.

From the Bellingham, WA, this band evolved out of The Bellingham Accents. The second 45 features two strong West Coast ballads led by the particularly forceful female vocals of Kathi McDonald, whilst *I'm Walkin' Babe* is a snarling punker with vocals by Harvey Redmond.

Laurie Vitt recalls:- "I believe (but I'm not sure) that Jay Hamilton suggested the name **The Unusuals**. Jay was a

local Bellingham DJ and we got to know him through dances that we played. By this time Kathi was in for a full cut and we had replaced Doug Ling with Harvey Redmond, a student at Western. Harvey was a much better musician and good singer. The first 45, *I'm Walking Babe* received almost no air play, but the flip side, *Babe It's Me*, a Sonny and Cher-like tune that Kathi and I did, was No. 1 in Bellingham for 26 weeks straight but never got national attention."

Between this record and *Summer Is Over*, we went on the road as a back-up band for Dewey Martin (pre-Buffalo Springfield). He had a hit at the time (*White Cliffs Of Dover*) and he and his band had been billed as British. Dewey was a good singer and a better drummer and I recall that he occasionally played drums while on the road. Eventually we dropped our drummer, Pat Jerns, and picked up a guy named Gary Ramsey. Gary Ramsey transformed from being a businessman-type manager of a steak house to a full blown hippie within about a year of joining the band. The story behind *Summer Is Over* was that we drove to San Francisco, recorded it at our expense and returned to Washington. Within a week, the owner of the studio called and said that Rene Cardenas of Time-Mainstream wanted the record but we would have to come down and re-record it, at their expense. So we went back, were ready to go the studio and then an airline strike stopped all commercial flights. Rene was stuck in NY. He bought a small jet and flew to San Francisco, we recorded the record, and he auditioned a bunch of groups. The only two he picked up were us and Big Brother and The Holding Company - he liked our tapes better and released *Summer Is Over* within four weeks. It was a '4-star Pick' in Record World and got a lot of national play but never really took off."

"**The Unusuals** broke up in 1967 when Harvey and I graduated from Western. Harvey took a job teaching in Oregon and I got a job at a research lab in Seattle. Kathi and Gary Ramsey, meanwhile, drove to the bay area in Gary's psychedelic truck that we had all painted, in the hope of joining the Bay area scene".

Gary had gotten pretty far out and as it turned out, he came back to Bellingham and when I went back to Western for a master's, I put together a bar band with Gary, Bill Capp plus a bass player. Gary got farther and farther out and eventually we fired him. I played with a number of bar bands while a master's student, including Clever Baggage, a 10 piece band that emulated Chicago Transit Authority (later Chicago), with Vic Bundy on keyboards. However, Boeing laid off thousands of people and the music market crashed in Washington so I ended up back with four-piece bands in Bellingham. When I moved to Arizona for graduate school, I first played in a soul band consisting of the remnants of Dyke and The Blazers, who reorganized after Dyke was gunned to death on the streets of Phoenix. I later played in several rock bands. Rainbow was the first and it consisted of me, Rod Pappas (gtr), a bass player who I can't remember, and Rob Rideout, the original drummer in the Bellingham band The Rebels. Shortly after we replaced the bass player with Charlie Moss who was very good. Rod and Rob decided to go to Seattle and left. Charlie and I got together with two former members of Hillary Blaze, formerly from New York and kept the name Rainbow. We did some recording but when Rod came back from Seattle, Charlie and I quit to team up with Rod and a drummer named David Newberry to form Mantis. Although the "Rainbow tapes" were never released, years later when the Hillary Blaze Drummer, Jimmy Tirella died, the other guitar player, Sandy Napoli, put together a CD and sent me a copy which he called the *Rainbow Tapes* but under the name Hillary Blaze as a tribute to Jimmy. Mantis became very popular in the bar scene in Arizona during the mid '70s and we started recording an LP. We released a single locally and it did pretty well (*Insane*/*Country Cowboy*). Our music was actually a bit heavy for Arizona at the time and I suspect that had we stuck together a couple more years, we would have done great (we did pretty well financially, playing six nights a week). I was balancing music with my graduate education. I quit when I was offered a post-doc in Brazil, essentially making a major career decision. I have played with no bands since, but still play my guitars virtually every day."

Kathi McDonald later found some fame in the 1970s after joining Big Brother and The Holding Company. Lauri Vitt is now Curator of Reptiles and Professor of Zoology at Sam Noble Oklahoma Museum of Natural History.

Compilation coverage has ncluded:- *I'm Walkin' Babe* on *Highs In The Mid-Sixties, Vol. 16.*

45s:

1. Just Like An Aborigine/Hassan I Sabbah (Sundance 22190) 1970

2. Free John Now!/Prayer For John Sinclair (Rainbow 22191) 1971

Formed in Detroit in the spring of 1967 by Frank Bach, who was stage manager and announcer at the newly-opened Grande Ballroom, where the MC5 were "house band". The two bands were closely related, taking an active part in the John Sinclair-managed commune, variously known as the Detroit Artists' Workshop, Trans-Love Energies or the White Panther Party (WPP). When after the assassination of Martin Luther King, the commune moved to Ann Arbor in May 1968, the band followed, playing many engagements and often opening for the MC5 or sometimes as a main attraction at local clubs and ballrooms. In Ann Arbor **Up** replaced Vic Peraino with Scott Bailey and continued to roll under the guidance of John Sinclair's brother David.

The MC5 and Stooges fans certainly remember the story about the seminal September'68 visit by Elektra Records president Jac Holzman who signed both bands after a wild show at the Union Ballroom. The opening act that failed to impress him were **Up**. As a result, while the two other bands started releasing nationally, **Up** got stuck in local small venues. Eventually, after the MC5 broke with the commune's ideals, they became the primary propaganda medium for the White Panther Party, following J.Sinclair's imprisonment in July 1969 for possession of two marijuana cigarettes. They disbanded in 1973.

Their retrospective album features both 45's, live and unreleased material. *Just Like An Aborigine* is a stand-out track recalling rather late '70s British punk than the Detroit vein (but inexplicably suffers from poor hollow sound). The flip is not as exciting but features a mighty bass riff not dissimilar to Metallica's *Enter Sandman*. The second 45, as the titles suggest, was one of the efforts for the release J. Sinclair. Actually, it was given away for free at the John Sinclair Freedom Rally in December 1971. The flip, which features Allen Ginsberg's melodic recitation, was recorded by the poet himself in N.Y. without the band's assistance (added as bonus track on CD). The album also features *Come On* planned for the A-side of their next 45.

Judging by the rest of the material, musically they landed within the triangle drawn by the MC 5, the Stooges and Blue Cheer but without losing their clear-cut original style. There are also two '69 studio tracks *I Don't Need You* and *Never Say Die* sporting killer riffs that are pretty close to early Sub Pop grungy sound. John Sinclair was right when he wrote this to begin the liner notes: "It's common to name the MC5 and the Stooges among the forefathers of what they call punk rock, but it was their associates in a third band, the Up, who could more accurately be identified as the real precursors of punk."

Both sides of their first 45 can also be heard on *Michigan Mixture, Vol. 1*. *Just Like An Aborigine* is also on *Let Em Have It Vol. 1* CD.

1. Sing Hallelujah/Green Satin (Jerden 725) 1964

Upsetters

45:

1	Autumn's Here / Draggin' The Main	(Autumn 4)	Sep. 1964

Embryonic San Francisco sounds and one of the early release on Tom Donahue and Bobby Mitchell's pioneering Autumn label. *Draggin' The Main* combines surf and hot-rod street-cred with 12-string guitar and can be heard on *Dance With Me: The Autumn Teen Sound* CD. Compiler Alec Palao notes that the track also turned up on tapes marked as by the Dreamers and the Impax - alternative names for this unknown outfit, perhaps?

Uranus and The Five Moons

45:

1. Your Groove/Mimi Von Lark (Gotcha Co 2048) 196?

Very pleasant soulful beat-garage from New England - like the Zombies with a touch of the Young Rascals. Sadly, the flip is a corny vaudeville 'novelty' lark - kazoos, piano, plastic beaker vocals and all that dreck, prevalent 1967-8. (Max Waller)

1. Somewhere In The Morning/You Say (PS) (Hour 9-31137) 1967

An Owatonna, Minnesota-based band originally known as The Rogues when they formed back in late 1964. By mid-1966 they were calling themselves the U.S. Rogues and by late 1967 just before their 45 was recorded they reverted to simply **US**. Both their 45 songs were originals. 1,000 copies were pressed and early ones came in a rare promotional picture sleeve. They played quite extensively around the Midwest. Tom Krause was drafted in 1968 and a few months later the band re-recorded their two 45 cuts in a Minneapolis studio along with four new songs - *Please Be What You Are*Land Of Goodness, *Isn't Your Life Funny, Honey* and *Talkin' 'Bout Love* - which never saw the light of day. The session even included some kids from the Owatonna High School orchestra! Greg Hammel left the band in 1969 and they finally split in 1970.

They took part in the 1966 "IGL Roof Garden Jamboree", which resulted in a rare 1967 LP on IGL and more recently a double-CD *IGL Roof Garden Dance Jamboree '66* (Arf Arf AA-047/048). The latter dusted off the original tapes of all bthe bands that took part and includes three tracks by **Us** - *Mona, Heart Of Stone* and *The Last Time*.

talented Segarini went on to form Family Tree, Roxy and The Wackers.

NB: (1) and (3) released as by The "Us Too" Group. (1) features a different version of *I'll Leave You Crying*. (5) released as by Maelstrom.

From the Fairfield suburb of Cincinatti, their finest moment is *I'll Leave You Crying*, a particularly good slab of strong melodic pop with a tough edge; melodramatic arrangements with some tasty scorching fuzz, and cool vibes. The "Jinx" 45 features a different version with a teen combo sound and strong organ whilst the reissues feature an interesting use of flute on both sides.

The bands first Counterpart 45 contains light-weight-uptempo pop and a soft slow beat-ballad, whilst the *Pleasure Seeker* 45 is also good late sixties pop, on the light side again but with some flashes of searing heavy guitar on the flip.

Len Gartner was both vocalist and drummer in the band, switching roles with another band member. Another early member of the band was John Faris, who was later in Zephyr with Tommy Bolin.

Curiously the Maelstrom 45 come out with out the band's knowledge!

Compilation coverage has so far included: *I'll Leave You Crying* on *Mindblowing Encounters Of The Purple Kind*; and *The Girl With The Golden Hair* on *The Lost Generation*.

6	And When It's Over/I Don't Need Your Loving	(Atco 45-6552)	1968

An historically interesting punk band from Forest Hills, Long lsland. Leslie West later helped out Jolliver Arkansaw

(a quartet with Felix Pappalardi, who evolved out of Bo Grumpus), Mountain and West, Bruce And Laing. He also issued three solo albums and has done session work for Bo Diddley, Bobby Keys and Mylon Lefevre, among others. Older brother, Larry West also went on to Haystacks Balboa, who issued an album on Polydor in 1970. Jerry Storch went solo and released one album on RCA.

Respect is now their best known track due to its inclusion on the classic *Nuggets* compilation and later on *Nuggets, Vol. 2* and *Nuggets* (4-CD) but the compilation *Hipsville, 29 BC* included the 'A' sides of their first two 45s. Their later 45s tended towards a heavier sound but were still punkish and occasionally stunningly powerful, especially *A Sunny Summer Rain* which knocks spots off other East Coast 'heavies' at the time. *Beside The Sea* and *And When Its Over* are also decent fuzz-crunchers. Somehow success always seemed to elude them but thankfully Arista's retrospective collection goes some way to redress that. It contains the three Atco 45s, the 1st Vanguard 45 and the 'A' side of the 2nd and apparently an unreleased Vanguard 45 and an unreleased *My Babe*.

Confusingly, the Southern Sound 45 has also been seen listed with a 'B' side entitled *You're Too Young*. Can anyone resolve this?

He also wrote (or cowrote) *Get Together*, the classic hippie anthem made famous by The Youngbloods. A popular track, the song was well-covered: in 1966 by Jefferson Airplane, *Takes Off* LP; 1967 - by H.P.Lovecraft on their debut LP and *At The Mountains Of Madness*, Tiffany System on 45; 1968 - Cryan Shames *Synthesis* LP, Dolphin 45, Smith *A Group Called Smith* LP; 1969 - Mission and Youngbloods 45s; 1970 - Association 'Live'. **Valente**'s original (and unreleased) version of *Let's Get Together* can be heard on the *Someone To Love* CD.

Valente was part of the first line-up of Quicksilver Messenger Service (his *Dino's Song* is on their debut album) but was busted twice and spent more than eighteen months in jail. In 1968, before joining Quicksilver for good, he released one solo album of acid folk/rock, with a good version of John Philips' *Me And My Uncle*.

Valente sadly died in the '80s.

In the early '60s, **Dave Van Ronk** began as a folk/blues singer in the Greenwich Village scene. After several solo albums, which are out of scope this book, he assembled an electric group, the Hudson Dusters for one unusual album in 1968. It's a surprising combination, the very harsh voice of **Van Ronk** seeming out of place at first with the psyche/rock backing, but it works, especially on two Joni Mitchell covers, *Clouds (Both Sides Now)* and *Chelsea Morning* and on *Alley Oop*, *Head Inspector*, *Mr. Middle*, *Keep Off The Grass* and *Rompin Through The Swamp*, an adaptation of Peter Stampfel (Holy Modal Rounders).

The album was produced by Barry Kornfeld and arranged by David Woods, who also wrote three tracks.

Afterwards, **Dave Van Ronk** returned to his solo career, but this album deserves to be heard.

This New York psychedelic rock group, named after a popular American Ice Cream, formed in 1966 out of the ashes of (Mark Stein and) The Pigeons and began by specialising in doing slowed down version of other peoples' compositions. Their debut album included organ dominated versions of Lennon-McCartney's *Ticket To Ride* and *Eleanor Rigby*, Rod Argent's *She's Not There* and Curtis Mayfield's *People Get Ready*- The remake of The Supremes' hit *You Keep Me Hanging On* reached No 18 in the U.K. in the Summer of 1967 and was later a U.S. hit. Their treatment of these songs was characterised by organ melodramatics and extravagant productions; the album sold quite well and the group had an uniquely distinctive sound. It is said that The Beatles were impressed with the band, with George Harrison playing their version of *Ticket to Ride* and *Eleanor Rigby* for anyone that visited them. *Eleanor Rigby Pts I & 2* (Atlantic 584, 139) failed as a single in the UK, as did *Where Is My Mind/The Look Of Love* (Atlantic 584.170), a 1968 release. Their first album reached No 6 in the U.S. Album Charts.

Their next album, however, was over-ambitious and pretentious, failing in its attempt to provide a history of 25 years of musical development on one LP! Nonetheless it still climbed to No 17.

Rennaissance, which was released in 1968 and reissued in 1974 by WEA, showed some improvement, largely on account of their typically melodramatic nine-minute version of Donovan's *Season Of The Witch* which was somewhat surprisingly a minor hit in the U.K. in 1969. However, when the band attempted to write their own material, the result was usually a dismal failure. **Vanilla Fudge** described their music as 'psychedelic symphonic rock'. The 'symphonic' was an exaggeration, although one can detect a slight classical influence in their music. *Rennaissance* reached No. 20 in the Album Charts and *Near The Beginning* made No. 16. Side two was live.

As the psychedelic era drew to a close, the band moved towards a more conventional heavy rock sound, finally splitting after their fifth LP which reached No. 34 in 1970. Appice and Bogert went on to play with Cactus then Beck, Bogert and Appice and then Rod Stewart, while Stein formed an abortive band called Boomerang.

You Keep Me Hangin' On, one of their finest moments, can also be heard on *Highs Of The Sixties* and *Nuggets, Vol. 9*.

From Thomasville, North Carolina, **The Varcels** were one of many area combos to record on Calvin Newton's Justice Records label. And, like most of the other Justice acts, their sole album contains the usual cover versions of the period, including *Summertime*, *Money*, *House Of The Rising Sun*, and *In The Midnight Hour*. In addition to two band originals - the instrumental *Hang Loose* and *I'm Tired (Of Messin' Around*) - the album also includes a decent, organ-domianted version of The Standells' *Dirty Water*.

Another Justice rarity dusted off. A smartly shorn sextet resplendent in vampire capes pose in front of their coffin-topped red hearse. Under the lid there's an assortment of brassy instrumentals, frat and club sounds, lounge, soul and ballads - all covers and often the same as on many of the other lesser known "soul-garage" Justice albums. Not recommended.

This San Francisco five piece had in Jan Errico the novelty of one of the very few girl drummers at the time, aside from Honey Lantree of England's Honeycombs. Formed in 1964, they soon secured a residency at the Morocco Room in San Mateo, following in the footsteps of The Beau Brummels, who'd gone on to better things. Very early in the residency they were discovered by the co-owners of Autumn Records, Tom Donahue and Bobby Mitchell, who signed them to their label. Rick Dey soon departed to join The Wilde Knights and was replaced by an older bassist who was known to everyone simply as Ron. The band soon became a popular live attraction during the Spring of 1965 at all the teen nightclubs, teen fairs and Battles Of The Bands in Northern California's burgeoning music scene. Their first 45, *I StilI Love You*, was a jangly Beatles/Byrds'-type folk-rocker, which has since resurfaced on *The Sound Of The Sixties* and *Nuggets, Vol. 7* compilations. It became a very minor hit peaking at No 84 and helped secure the band appearances on 'American Bandstand', 'the Lloyd Thaxton Show' and 'Where The Action Is'. They returned to the studio in October 1965 to record Tom Paxton's folk-rocker *The Last Thing On My Mind*. This has subsequently resurfaced on *Nuggets, Vol. 7* and *Sound Of The 60's:- San Francisco, Part 1*. To help promote it they enjoined to a West Coast tour with The Yardbirds and The Beach Boys. Later in the Spring of 1966 they played at another Battle Of The Bands in L.A. where they and the Buffalo Springfield were the only paid bands. The competition was actually won by The Doors. By now Reese Sheets had left the band to be replaced by Jim Sawyers, who'd previously been with San Jose band The Other Side. Both sides of their first two Autumn 45s also appeared on the *Autumn Single Box* compilation. Big Beat's *Dance With Me: The Autumn Teen Sound* CD features two versions of *I Still Love You* and *Anything* whilst the *Someone To Love* CD features both sides of the 2nd 45 and two unreleased Jan Ashton tracks - *About My Tears* and *Cold Dreary Morning* (the latter also on *Nuggets Vol. 7*).

Soon after Sawyers joined in 1965, Hollis and Ashton left (the latter for labelmates The Mojo Men) around the time of the second 45's release. Bailey recruited another female drummer called Kristy and they were augmented by Bob Moseley on guitar, but he moved quickly on (to Moby Grape) and was replaced by guitarist Richard Fortunato, formerly of The Preachers.

Early 1966 and Autumn Records were in financial difficulties. All of its roster was transferred to Warner Brothers. By then **The Vejtables** had nearly folded - in April 1966 Jim Sawyers left for The Syndicate Of Sound and Frank Smith also disappeared. Bailey and Fortunato were hangin' tough and drafted in two more ex-Preachers when Leo

De Gar Kulka of Golden State Recorders offered them a contract with Mercury.

This incandescent but short-lived line-up produced the superb Uptown 45, featuring the raga-punker *Feel The Music* backed by *Shadows*, an excellent piece of experimental psychedelia. Both sides can be heard on *Sound Of The Sixties - San Francisco Part 2* and *Crystallize Your Mind* CD; *Feel The Music* is also on *Mayhem and Psychosis Vol. 2* and *Pebbles Vol. 12*; *Shadows* is on *Acid Dreams*.

Speculation over the years about the quality of the other tracks from these sessions had given them a legendary tag amongst collectors. Finally in 1994 Big Beat's *Good Things Are Happening* CD unearthed this handful of nuggets - *Good Things Are Happening*, *Time And Place*, *Better Rearrange*, *Hide Yourself* and *Good Times* - and expectations were met in FULL (kudos to Alec Palao). Five awesome proto-psych freakouts with strong sneering vocals from Fortunato and slabs of distorted guitar and feedback. Clearly influenced by the Yardbirds, **The Vejtables** had leapt forward to join that band in the musical vanguard at the dawn of the psychedelic era.

Bailey clung onto the band's name for another year but the personnel was erratic, as apparently was his behaviour. Another 45 did eventually surface in late 1967, with Frank Smith on board again, but was released as by the Book Of Changes. Fortunato had long gone onto a string of fascinating outfits - to George Caldwell's Bees, later the W.C. Fields Memorial Electric String Band, then ESB, and finally Fields.

Native American Indians, Pat and his brother Lolly were mostly known for their songwriting skills (*Niki Hoeky* for P.J.Proby, *Look At Me* for Dobie Gray...).

Produced by Leon Russell, *At The Haunted House* is a mix of garage and pop and contains some correct renditions of *Satisfaction*, *In The Midnight Hour*, *Papa's Got a Brand New Bag*, *Good Lovin'*... plus six original songs.

The 'Haunted House' in question was an L.A Club and the liner notes are a must-read: "The ingenious bandstand, designed especially for their act, features a monster's head fashioned into a shell which pushes the sound up and out-making a microphone unnecessary. The actual sound comes through the monster's nostrils, which blow hot steam which makes the sound even louder."

The **Vegas** brothers would later work with Jim Ford for his excellent *Harlan County* album and, in 1970, would form Redbone, a commercially successful Indian rock/soul act.

The best three tracks - *Velvet Night, Freak Show* and *Edge Of The Woods* were written by non-band members J. Curtiss and S. Kanyon.

For the most part, heavy choppy psych, that'll appeal to fans of the Vanilla Fudge/Hassles school possibly but for some an acquired taste.

Velvet Underground were New York's answer to the California rock renaissance. Their main inspiration came from Lou Reed and John Cale. Reed, born on 12 March 1943 in Freeport, Long Island, New York was an accountant's son, the eldest of two children from a middle class Jewish family. He had dropped out of Syracuse University to write songs. Cale had been born on 5 December 1940 in Crynant, South Wales. He'd studied contemporary music in London prior to winning a scholarship to New York's Eastman Conservatory. The remaining members were Maureen Tucker. who'd been born in New Jersey in 1945; Nico, who entered the world in Cologne, Germany in 1938 (her parents were Polish and later died in a Nazi death camp); and Sterling Morrison, who was born in the same year as Reed in New York and later attended high school with him. Reed and Cale first met each other in New York in 1964, but Cale did not play with Reed until the latter had gone on to assemble his own bands, The Warlocks and later The Primitives, which included Morrison and Tucker. Reed and Cale, also wrote a 45 for The All Night Workers.

When Cale joined in 1966, they changed their name to **The Velvet Underground** and played in various clubs around Greenwich Village. They soon came to the attention of Andy Warhol, who added the beautiful German model and actress, Nico, to their line-up and featured them in his Exploding Plastic Inevitable Media Show, which was a multi-media psychedelic show, staged in New York in 1966.

The debut album, produced by Andy Warhol, was one of the most innovative and influential in the history of rock. The songs largely concentrated on the decadence of American City life, thereby countering the peace and love trip emanating from America's West Coast. *I'm Waiting For The Man* and *Heroin* dealt with the rising phenomena of heroin addiction, while *Venus In Furs* explored the dark world of sado-masochism. Nico's sexy but death-like voice was a big plus on tracks like *Sunday Moming, Femme Fatale* and *I'll Be Your Mirror*. The music on this album was effectively an assault on the listener's senses - comprised of throbbing, often discordant rhythms, riddled with electronic feed-back. Most of it was written by Reed, although Nico's vocals were also important to its appeal. Commercially, however, it was a non-starter as the subject-matter of many of its tracks prevented any radio airplay and it also spawned no hit singles. It peaked atjust No. 171 in the National Album Charts and Reed and Cale were both upset by the indifferent reception it received, feeling it to be rather special.

Nico left the band at this stage to pursue a solo career, and Warhol began to loose interest, withdrawing his financial support. Nico's departure inevitably affected their musical policy and their second album, *White Light/White Heat* which, lacking the gentle songs written for her on the first LP, was aggressively harsh. It contained two stand-out tracks, *Sister Ray*, a 17 minute story about a group of sailors who are interrupted by the police while visiting a drag queen, and The Gift based on a short story Reed had composed. In both songs, the lyrics were augmented by a storm of unorthodox electronic music. Commercially, the album represented another failure peaking at only No. 199 in the Album Charts and Cale quit the band to pursue a solo career. He was replaced by Doug Yule (bs, gtr, keyb'ds). From hereon, Reed became the dominant figure in the band.

The third album, *The Velvet Underground*, again represented a change in musical direction being composed of softer, more harmonious songs. The album was based around a girl's search for significance through nihilism (*Candy Says*), religion (*Jesus*), adultery (*Pale Blue Eyes*) and ended with a jovial song about loneliness (*After Hours*). However, the band's repeated changes in style had left their audience way behind and this album failed to make a popular impact. Mid-1969 saw them without a record contract, but in 1970 they recorded *Loaded*, generally regarded as a dynamic rock'n'roll album. Unfortunately, Reed quit a month before its release, when the band, benefiting from a renewed wave of public interest, appeared on the brink of achieving commercial success. The album contained at least three further classics *Sweet Jane*, the story of a resilient city girl, *Sweet Nothing*, an account of city kids able to live on next to nothing and *Rock and Roll*. The remaining members attempted to keep the band going with new recruits, but quit after the inevitably disappointing *Squeeze* was released in 1970. Posthumously two live albums were released, the poorly recorded *Live At Max's Kansas City* and 1969, a recording of gigs in Texas and San Francisco that year.

VU, which appeared in February 1985 was their previously unissued fourth Verve/MGM album, the missing masters for which were recently unearthed in the States. 9 of the 10 tracks from circa 1968-69 were previously unreleased. It became their most successfull album commercially, climbing to No. 87 in the U.S. Album Charts.

Cale and Reed later achieved the popular success that eluded them with **The Velvets**, through a series of solo albums. Nico, who had appeared in Warhol's movie 'Chelsea Girls' prior to joining **Velvet Underground**, also released three solo albums (*Chelsea Girl, The Marble Index* and *Desertshore*) with assistance from Cale before emigrating to Paris in 1971.

In retrospect, **The Velvets'** first album, with its harsh loud music and its lyrical obsession with decadence, was probably the most significant album of this era in that it previewed the aggressive punk sounds to emerge in the late seventies.

Guitarist Sterling Morrison died at the age of 53 on August 30th, 1995.

After founder Jim Valley left to join Don and The Goodtimes, a change in style took place resulting in the bouncy beater *That Sound*, to be heard on *Boulders, Vol. 11*. The flip is a solid cover of The Kinks song. The transformation was completed with the renaming to The Surprise Package, who redid *That Sound* as *Out*

Of My Mind for good measure.

Keyboardist Mike Rogers, also played in **The Viceroys** prior to them becoming The Surprise Package.

2	GOIN' HOME BLUE	(No label)	197? SC

This bunch came from LA. *Victims Of Chance* is of minor interest to some collectors. The title track is very pleasant and accessible, but the rest of the album is extremely freeform and experimental (with lots of brass) and very much an acquired taste. They certainly had lots of recording freedom! Most of the material was composed by a guy called Johnny Kitchen who may have been in the band. There is a very strong Zappa influence here. *Goin' Home Blue* was housed in the "Century" mill cover, also used by Fifth Flight on their *Into Smoke Tree Village* release, and is mostly light country rock.

The mysterious Johnny Kitchen is also associated with some Canadian releases on the Condor label including Crazy People.

ALBUM:

1. (A) VICTORIA (No label) c1971 R5

NB: (1) was a demo album issued in a plain white sleeve. It has been reissued in Germany (Little Indians #7) 1997, in a red velveteen cover with all print gold foil embossed! Later reissued on CD.

Rare local New Jersey private press, with an "odd" sound created by this largely female group and featuring horns prominently on several tracks. Two hundred copies of the album were pressed in 1971, and Ruban distributed a quantity of them through Europe while on a motorcycle trip in the early seventies.

Victoria may be connected in some manner to Dirty Martha.

One track, *Ride A Rainbow* has also resurfaced on *Love Peace & Poetry Vol. 1*.

Victoria

TOP

ALBUMS:

1	SECRET OF THE BLOOM	(San Francisco SD 201)	1970
2	VICTORIA	(San Francisco SD 201)	1971

NB: (1) also exists in a plain white cover with a promo kit.

Not to be confused with the New Jersey group, this **Victoria** was a pretty long-haired singer from San Francisco. David Rubinson (who was then the producer of Taj Mahal and Moby Grape) and Fred Catero produced her two albums on their label.

The first LP was recorded partly in Nashville with local musicians (David Briggs, Mac Gayden, Kenny Buttrey & co) and partly in San Francisco and, for these tracks, apart a guitar played by Ron Wells, used only classical instruments (cello, viola, flute, oboe...) with Ed Bogas and other local players.

The material consisted of covers (Warren Zevon's *Tule's Blues*, Stephen Stills's *Helplessly Hoping* and a song from Midnight Cowboy *A Famous Myth* written by Jeffrey Comanor, who also penned *Out In the County*) plus four original songs. Although **Victoria** was graced with a voice a la Joni Mitchell, the result is eminently forgettable.

Her second album was slightly better. This time she wrote all the songs and the backing group was nothing less than amazing: the famous jazz pianist Herbie Hancock, David Hayes (Lamb, Jesse Colin Young) on bass, a young Ron Montrose on acoustic guitars on two tracks, Rick Quintinal (pre Malo) on drums and Simon Perkoff on piano. Ed Duran played electric guitar on the best track: *We've Got Ways To Keep High*, but overall the album is rather tedious. As an aside, the famous beat poet and novelist Richard Brautigan wrote the short liner notes with this conclusion "Victoria sings as well as she cooks"! **Victoria**'s recording career apparently stopped after this second effort.

2. Blue Feeling/l Ain't Got You (Star Rhythm SR-1 001) 1980

Operating out of the Taunton, Massachusetts area, this band was strongly influenced by the British invasion sound. Indeed, the 'A' side of their sole offering at the time - *You Can't Do That* - was a Lennon/McCartney composition and they advertised themselves as 'The Vikings: Featuring The Exciting English Sound'. The Star Rhythm single was released in the early eighties but recorded back in 1965. In fact the **Vikings** recorded ten songs that year and Decca showed some interest in the tapes of the sessions but almost simultaneously with this the band split when two members were drafted. *Bay State Rock, Vol. 1* includes *You Can't Do That, Blue Feeling* and *l Ain't Got You* along with two otherwise unreleased tracks from their 1965 session:- *Have Mercy* and *Hitch Hike*.

1	Come On And Love Me/I Will Never Go	(Viking 1000)	1966
2	Cherish The Love You Feel/Golden Girl	(Lowery 360)	c 1968

A different outfit, this time from deepest Alabama. The first 45 was recorded by Ed Boutwell in Birmingham, Alabama and although *Come On And Love Me* is a fairly standard garage dirge, *I Will Never Go* has a New Colony Six vocal sound. Both sides were co-written by Charles Nettles. This influence continues on their second 45, where *Cherish...* again written by Nettles sounds just like Mercury-era New Colony Six! Some might hate this for its orchestration, but I like it a lot. The 'B' side is a Tommy Roe cover, which is very common for Lowery-related acts!

Charles Nettles must have been a big fan of the New Colony Six, who did get airplay in the south at the time with *I Confess* and *Love You So Much.*

Come On And Love Me can also be found on *Highs In The Mid-Sixties, Vol. 8.*

Hailing from Dover in Delaware, their version of The Rolling Stones' *Under My Thumb*, was retitled *Under The Thumb* and is not a bad effort, coming with a solid organ backing, typical garage beat and effective vocals. You can

also find it on *Pebbles, Vol. 21* and *Garage Punk Unknowns Vol. 8*. The flip is also a great teen organ-punker and has recently resurfaced on *Back From The Grave, Vol. 8*.

This band also contributed a version of *Hello, I Love You* to the 1968 album *Hazelton '68* as **The Village Outcasts**.

6	Thank You Baby / A Shot Of Rhythm & Blues	(Atco 6568)	Mar 1968

The best-known of many '60s **Villagers** hailed from the Florida communities of Chipley, Wewahitchka and Marianna. They recorded just across the border at the F.A.M.E. studios (Florence Alabama Music Enterprises) and with local hits there, came to be regarded frequently as an Alabama band.

Their forte was catchy and comercial beat-pop with an Invasion flavour and their debut kicks off in that fashion with a good version of the Tam's *Laugh It Off* backed by a Beatles ditty - the lead vocalist has a timbre not unlike that of Manfred Mann's Paul Jones.

The follow-up is most sought-after by garage fans - *Cool It*, featuring some lowdown fuzz, is compiled on *It's A Hard Life*. It was their only walk on the wild side and they returned to accessible pop with *Where Have You Been*.

Thought to hail from the Charlotte, NC area but this is unconfirmed. This 45 is not garage despite being on the very collectable JCP label - *Bring Me A Rose* is a weak folk-pop ballad that's been compared to the Seekers, despite the lack of female vocalist. Their version of *C.C. Rider* is done in a traditional upbeat folk style, ala 1964-era MFQ.

From Mineral Wells in Texas, this raw punk combo are best remembered for their version of *Route 66*, although after a name change to **Rock 'n' Roll Double Bubble Trading Card Co. of Philadelphia**, they had an American Top 40 hit, with *Bubble Gum Music*. The band also made a cameo appearance in an episode of the American television series, "Run For Your Life", starring Ben Gazarra. In the cameo, **The Visions** are seen performing *Small Town Commotion.*

The band later became Dalton, James and Sutton, whilst Gary James later was a founding member of Blackhorse and The Cauze.

Today, Gary lives in Fort Worth, Chuck Morgan is a security officer in Houston and Billy Dalton is thought to have moved to San Bernadino, California.

Compilation coverage has so far included: *Route 66* on *Flashback, Vol. 6* and *Highs In The Mid-Sixties, Vol. 11:- Texas Part One*; *Humpty Dumpty* on *Flashback, Vol. 3* and *Highs In The Mid-Sixties, Vol. 17:- Texas, Part Four*; and *Small Town Commotion* on *Incredible Sound Show Stories Vol. 6*.

His fairly demented 'n' doomy interpretation of Jagger-Richards' *The Spider And The Fly* can also be heard on *Pebbles, Vol. 11* and *Vol. 7* of the equivalent CD series. It's worth a spin if only for the novelty value. Both sides of the 45 also feature on the *Turds On A Bum Ride Vol's 1 & 2* (CD) or *Vol. 1 & 2* of the vinyl counterparts.

Another Ivanhoe 45, released as by 'Bobby Trend', couples *Judy* with *Good Day*. The latter is a cover of the Ormandy song.

5	2ND RIGHT 3RD ROW	(Poppy PYS-5705)	1972

NB: He also had two tracks on *The Blues Project* (Elektra) 1964.

From Boston, **Eric Von Schmidt** began his career in the late '50s and is recognized as a gifted composer, a fine guitarist and a good folk/blues singer. A very influential musician, it should be noted that Bob Dylan wrote the liner notes on his fourth and fifth albums while Richard Farina penned the notes for his second. He was also influential on many East Coast blues/folk singers: Geoff Muldaur, Tom Rush, Jim Kweskin etc.

His 1964 album was produced by Sam Charters and featured Geoff Muldaur and Mel Lyman. The song *Joshua Gone Barbados* was covered by Tom Rush and several other folk and blues acts.

The Smash album is reputedly very strange but we haven't heard it yet.

The 1972 album was produced by Jim Rooney and Michael Cuscuna, arranged by and engineered by Nick Jameson, the leader of American Dream. It's a good and relaxed effort, with support of Paul Butterfield, Geoff and Maria Muldaur, Billy Mundi, Garth Hudson, Stu Brotman (Kaleidoscope), Jim Colegrove (Bo Grumpus), Ben Keith (Mother Earth, Neil Young) and Amos Garrett.

His records are now quite rare.

Von Schmidt was also a noted painter and illustrator, his name can be found on sleeves of records by The Blue Velvet Band or Geoff and Maria Muldaur.

Produced by Gary Usher (Sagittarius, Byrds), their three albums are typical of the early '70s Californian rock/pop scene and some rate their albums quite high (some others may find them boring!). Their best moment may be the cover of *Oh My Love*, the Lennon/Ono song with a surprising koto, on their second album.

45s:

1. Bad Girl/A Rainy Day (Date 1577) 1967

Wagner had previously fronted The Bossmen from the Flint/Saginaw area of Michigan. In late 1967 he decided to change their name to The Frost. Mark Farmer was later with Grand Funk, on guitar. Prior to their change in name they recorded a single *Sunshine*, which is a great cut and a fine example of an American band playing British style flower-power rock. It may also be heard on *Mindrocker, Vol. 7*. *Bad Girl* is a re-release of a good beat-ballad done by The Bossmen, whereas *A Rainy Day* is an orchestrated ballad somewhat at odds with the 'heavy' image Frost would foster.

Wagner also wrote one track for Terry Knight and The Pack and later went on to work and record with Alice Cooper, writing some of his most famous songs including, *Only Women Bleed, Welcome To My Nightmare* and *How Ya Gonna See Me Now*.

A punk act for Los Angeles. **Ty Wagner** was an early sixties rocker who survived the onslaught of beat and released many 45s outside the scope of this book. *I'm A No-Count* is a classic punk anthem, whilst a later effort *Slander* features some great punk lyrics:- 'I thought you were hip/You're just a bum trip/Close your lyin' lip/Don't you know it's a sin/Slander, Slander'. Some great organ backing, too!

Compilation coverage has included: *I'm A No-Count* on *Chosen Few, Vol. 2, Teenage Shutdown, Vol. 4* and *Pebbles, Vol. 9* (CD); *Slander* on *Back From The Grave, Vol. 7* and *Walking Down Lonely Street* on *It's Finkin' Time* credited to **Ty Wagner with The Ones**.

Sadly it doesn't contain any of the tracks from their first album on Golden Crest. Also of interest is *Do Not Release!* (Taki) 1997, a limited edition 10", which features early demos for their *Out Of Our Tree* album. 10	You Can't Fly/Thinking Out Loud	(Bell 694)	1968

Formed in the mid-late 1950s in Tacoma, Washington State. Most of their original albums are now sought-after by collectors. Ormsby and Morrill were real pioneers, forming Etiquette Productions and the label in the early sixties - the first band to do so by a long way. They also recorded a 45, *All My Nights, All My Days/Better For Both Of Us* (Jerden 789), under the pseudonym of the Breakers in 1966. The 'A' side is on *The History Of Northwest Rock, Vol. 3*. By 1966 only Ormsby and Morrill remained from the original line-up, Dangel having left to join Floating Bridge. For *Outburst* they were joined by Neil Anderson (lead gtr), Ron Gardner (sax, vcls) and Dave Roland (drms) (ex-Regents). Earlier in 1965 they featured on the LP *Merry Christmas* (featuring The Sonics, Wailers and Galaxies) (Etiquette ETALB 025) 1965 playing four tracks:- *She's Comin' Home, Maybe This Year, Christmas Spirit* and *The Christmas Song*. This was reissued a few years back, but originals are very rare and collectable.

Later still Anderson was replaced by Danny Weaver (lead gtr), with Anderson going on to an act called Ice in early '68 (Neil Anderson gtr, Bob Bennet (ex-Sonics) drms, Clyde Heaton (ex Calliope) keyb'ds plus one unknown), and then Adam Wind. Upon their demise in 1969, Gardner formed Sweet Rolle with Weaver, Roland and Dave Immer. Then in 1972 Gardner formed the Ron Gardner Group (Ron Gardner - vcls, sax, keyb'ds; Denny Weaver - gtr; Dave Shogren - bs (ex Doobies); Dave Immer - keyb'ds; and Doug Booth - drms), who issued a great album on MCA. This was not quite the end of the episode, for Morrill, Dangel, Ormsby, Burk and Gardner reformed in 1979 to cut a further album. Roland also had a spell with The City Zu amongst others.

The Wailers were one of Washington's most famous sixties bands and also gigged regularly in San Francisco in 1967. Of their several albums, *Tall Cool One* was the most successful commercially. It made No. 127 in the U.S. Album Charts back in 1964. Both the *Out Of Our Tree* and *Outburst* LPs from 1966 feature some fine garage sounds, though the band's repertoire was always varied and so difficult to label.

Compilation coverage has so far included *Hang Up* and *You Weren't Using Your Head* on *Nuggets, Vol. 8*; *Dirty Robber* on *Born Bad, Vol. 6*; *You Weren't Using Your Head* on *Turds On A Bum Ride Vol. 4* (CD); *Beat Guitar*, from 1960, on *Welcome To The Beat Generation*; and *Out Of Our Tree* on *Nuggets* 4-CD box-set.

Wali and The Afro Caravan

ALBUM:

1	HOME LOST AND FOUND	(Sonobeat)	1969 R3

On the same label as Mariani and Johnny Winter's debut, and similarly released in a plain white hand-stamped cover,

this odd and extremely rare album offered tribal chants with percussion and flute accompaniment.

2(B)	SECOND POEM TO KARMELA OR GYPSIES ARE IMPORTANT	(Vanguard VSD 79282)	1967

NB: (1) reissued on CD (Vanguard VMD 79238).

Peter Walker was a guitarist and the musical director of the "Celebrations" of Dr. Timothy Leary, who wrote the liner notes to the first album("Peter Walker plays on the ancient protein strings of the genetic code" !!). Produced by Sam Charters (one of the Vanguard house producers, who later produced Country Joe), *Rainy Day Raga* is an instrumental album with nine of his compositions and a cover of *Norwegian Wood*. Very quiet and relaxing, it's supposed to be an association of Indian music (notably by using drones and tamboura) with folk music: the American folk raga was born!

Produced by Michael Chechik, the second album *Second Poem To Karmela Or Gypsies Are Important* was recorded with Jim Pepper. We haven't yet heard it.

Jeremy Steig would later form Jeremy and The Satyrs and become a renowned jazz musician.

45s:

1. Gotta Get Some/Robin Hood (Cameo 430) 1966
2. Train Kept A-Rollin'/I Found What I Was Looking For (Dynovoice 232) 1967

This was a Stones/Them-influenced outfit from Springfield, Massachusetts and they made some classic '66 style punk recordings. In particular *Gotta Get Some* and *Train Kept A-Rollin* feature some excellent frantic guitar and vitriolic vocals.

Walker was earlier with an outfit called The Esquires who had one 45 *Shake A Tail Feather/Down The Track*, on Salem (SR-003). See also The Bold.

Compilation coverage has so far included: *Gotta Get Some* on *Pebbles, Vol. 9* (LP), *Pebbles Vol. 10* (CD), *Songs We Taught The Fuzztones* and *Mindrocker, Vol. 11*; *Train Kept A-Rollin'* on *Pebbles Vol. 10* (LP/CD).

45:

1. (I'm Gonna) Fill The Hole In Your Soul/C'mon And Work (St. Clair STC-007) 1966

A sorta *Midnight Hour* punker with typically reedy sound from an obscure Pittsburgh performer. The flip is another garagey R'n'B style workout - more dance club than garage fodder. (Max Waller)

The Wallflowers

TOP

45:

1. No Love Today/The Kind Of Love (Ridon 855) 1967

A Northwest group produced by Rick Keefer, best known to readers of this book for his collaboration with The New Tweedy Brothers! **Wallflowers** play a charming garage pop style, not unlike an embryonic New Tweedy Brothers, although any connection between the two bands is speculative. (Clark Faville)

Wally and The Rights

45:

1. Hey Now Little Girl/Zipper (The GM Record Co 113) 196?

Probably from Gladewater in Texas, the 'A' side of their sole vinyl offering was a poorly recorded but catchy punk number. Check it out on *Flashback, Vol. 2*. The flip was an instrumental.

The Walnut Band

ALBUM:

1	GO NUTS	(Appaloosa)	1976 R2

A Californian group working in Grateful Dead territory. This private pressing is now rare.

The Wanderers

45:

1. Higher Education/I Feel So Blue (Texas Record Co 2067) 196?

A Texas outfit. You'll also find the 'A' side - a Kinks-influenced garage punker - on *Flashback, Vol. 5*. It's well worth a spin.

The Wanderers

ALBUM:

1	SING THE LORD... A NEW SONG!	(Allen)	c1971 R1

A rare Connecticut Christian garage band. Side One contains Christian songs, including two John Ylvisaker tracks, whilst Side Two has competent garage covers of *Fire*, *Testify* and *Knock On Wood*, plus an amazing nine minute original track *BSRS*, which recalls early Country Joe and The Fish.

(Stephane Rebeschini)

The Wanderer's Rest

45s:

1. The Boat That I Row/The Girl That I Love (Night Owl 6771) 1967
2. You'll Forget/Agripine III (Wright 67101) 1967
3. Temptation/Love Is A Beautiful Thing (Wright 6813) 1968

A Milwaukee, Wisconsin outfit whose sole output was these three 45s. *The Boat That I Row*, a Neil Diamond composition, can also be heard on *Highs In The Mid-Sixties, Vol. 10* and *You'll Forget* crops up on *Vol. 15* of the same series. Neither tracks are in any way exceptional.

Wanderin' Kind

45:

1. Wynken Blynken And Nod/Something I Can't Buy (Dunwich 135) 1966

5. East Side Story/Sad Situation (Detroit Sound 232) 1967
6. Big Town Girl/Don't Worry Baby (A & M 856) 1967

Operated out of Detroit in Michigan. There first 45, *Here To Stay*, is a rather appealing punk ballad with some nice organ and guitar backing. Their cover of Wilson Pickett's *In The Midnight Hour* attracted enough attention to be picked up by A & M for nationwide distribution but failed to make any impact and by the second A & M 45 the sound had been whittled down to plodding R'n'B pop.

Compilation coverage has so far included: *Here To Stay* on *Punk Ballads From The 60s, Sixties Archives Vol. 5* (CD), *The Garage Zone Vol. 4, Garagelands Vol. 1, No No No* (CD); *In The Midnight Hour* on *Mayhem & Psychosis Vol. 3, Garagelands Vol. 2, Michigan Nuggets* (CD); and *Sad Situation* on *The Lost Generation, Mayhem & Psychosis Vol. 2* (CD).

Goin' Down is a less savage reworking of an unreleased 1966 Marauders track *Our Big Chance* - a fabulous fuzz-punker - unearthed by Alec Palao and Joey D to be a gem in the *Psychedelic Crown Jewels Vol. 2*.

3. Another Year/Poor Kid (Ara 1915) 1968

Frank Beard came across Dusty and Rocky while playing for The Cellar Dwellers at the Fort Worth Cellar. The three of them basing themselves in Dallas, Texas formed **The Warlocks** dying their hair blue and dropping lots of acid. Later in their brief career they teamed up with English singer Lady Wilde and backed her regularly at Dallas cinemas for British invasion movies like 'Catch Us If You Can'and 'Hard Day's Night'. They also backed her on their final 45 and when she departed for a career on the stage they formed the American Blues. Originals of their 45s, which had pressings of just 500, change hands for a lot of money but some of the tracks can also be found on compilations.

Later still the three-some moved on to Houston, met Billy Gibbons and ZZ Top was born.

Compilation coverage has included: *Life's A Mystery* on *Acid Visions, Vol. 2* and *Acid Visions - The Complete Collection, Vol. 1* (3-CD set); and *If You Really Want Me To Stay* on *(Texas) Flashback, Vol. 1*.

Their 45 also received heavy airplay locally, with KVR Radio in Seattle playing *Brother Ward* every night in late Feb '66, however like so many bands of this era, college and the draft caused them to break up in the Summer of '67.

The Collectables retrospective is a collection of unreleased practice sessions from 1969 and through 1970 which document the evolution of the band who started life in Illinois as The Lemon Drops. From there they trekked to San Francisco in search of fame, only to split, regroup and split again finally returning in the above incarnation, known variously as Space, Silver Watermelons and finally **Watermelon**. From laid-back atmospheric instrumentals to heavy acid-rock workouts with progressive tendencies, this should appeal not just to those who've followed the band through the series of Cicadelic retrospectives, but to fans of acid-rock, West Coast jams and nineties 'head music'. Recommended.

The compilation *Chicago Garage Band Greats* also includes two previously unreleased cuts by the band dating from 1968:- *The Ocean Song*, an experimental, rather mellow song and *Trilogy*, an instrumental. You can also find *Popsicle Girl* and *You Got It* on *Green Crystal Ties, Vol. 6*.

In 1970 Eddie and Gary Weiss formed an acid rock trio under the name Buzzsaw.

1. Electrically Heated Child/Saturday Morning Renpentance (Dunhill D 4118) 1968

If the name of the band is anything to go by, this should be one of the most psychy singles ever, but it fulfills your expectations only partly. The 'A' side is sweetest toytown pop-psych, quite agreeable, while the flip is much better with harmony vocals over a repetitive backing and includes a surprising time / measure change. Nice but inconsequential. (Marcel Koopman)

Sho' nuff, it's a free-form freakout (or perhaps just the lads winding down before lighting another joint!). *Baby Let Go* is pleasant upbeat with tasty keyboard and guitar moves. 6. Stay Away (From Me Girl)/I Can Feel The Changes (Bollman Int'l 5036) 1977

Not to be confused with Dallas' Kenny Wayne; Shreveport, Louisina's Kenny Wayne "Shepherd" or indeed Wayne Lacadisi, **Kenny Wayne** had earlier recorded with The Starchiefs and The Grapes Of Wrath.

A crossover between late sixties punk and early seventies rock, the **Kamotions** second 45, *A Better Day's A Comin'*, was a rough and wild protest number - the 'A' side can also be found on *Highs In The Mid-Sixties, Vol. 23:- Texas, Part Five*.

Child Bride their next 45 featured Chuck Roscoe, who is now a producer with Jennifer Warren (Germany's top female songstress) to his credit, as well as bass player with Eric Johnson and Robbin Ford. Fender recently designed and named a six-sting bass "The Roscoe Beck Signature Model" in his name!

It Took 27 Years came out in the Summer of '74, and although uncredited was co-produced and co-written by Buddy Holly's manager/producr Norman Petty, with **Wayne** on piano and string machine.

Stay Away From Me Girl, **The Kamotions** final 45 wasn't released until 1977, but it was recorded in Shreveport, Lousiana on News year day 1972.

Their album, *In Motion* is a passable effort overall, including covers of Free's *All Right Now*, T. Bone Walker's *Stormy Monday Blues*, a soul medley of Joe Brown's *I Got You* and Ted Wright's *Out Of Sight*, C. Allen and J. Hill's *Are You Ready* and Jim Peterik's (of Ides Of March) *Vehicle*. Interspersed among these are a number of originals, a mixture of uptempo rock (*How Should I Feel*, *Child Bride* and *They*) and pop ballads (*The Day When The Sun Goes Down* and *Time Seems To Fly*, of which the former is by far the best) penned by Kenneth W. Hagler (aka **Kenny Wayne**), who also designed the cover and managed a local booking agency in Texarkana, Texas.

Subsequently, **Wayne** has released an album as **Kenny Wayne & His Very Special Guests** *Born With The Blues And Raised On Rock 'N' Roll*; and has recently recorded a new eighteen track album *Rockin' Little Redwater, Texas Boy* which he describes as "The best damn record that I've ever made!!"

It should be noted that the two hard rock albuns, released as by Kenny Wayne are in fact the work of the other

Kenny Wayne from Dallas.

From Cleveland, Ohio. Their 45 was issued on a New York City label and comprises of late sixties soft pop-rock - not 'garage' as sometimes claimed. It sounds not dissimilar to later (Young) Rascals material - pleasant but very average.

The obscure Wazoo LP on an equally obscure Michigan label is strange indeed - the personnel as listed above is sketchy due to the lack of info on the gatefold sleeve, with its welter of named and unnamed photos, but Robert DiPasquale had previously been in Bocky and The Visions. Musically the album contains an odd mix of brassy jazz-rock with The Fugs and lots of weird s**t thrown in: anti-war and anti-establishment jibes, some nice baroque touches, a soupcon of avant-garde, some heady lyrics, and barrages of war and off-the-wall sound effects... all of which make for a challenging listen. Noteworthy moments include: the eleven minute jazz-psych trip of *The Way I See It*; the bluesy fuzz of *Sleep On*; the amazing bad-trip noise of *Arnie Funny Far Fackor* which should only be listened to in a padded room; and the excellent heavy fuzz-and-feedback blast of *BH Man* that closes the album in a more accessible acid-rock vein.

The Weads

45:

1. Don't Call My Name/Today (Duane 1042) 1965

You'll also find *Don't Call My Name* on both *Open Up Your Door, Vol. 2* and *Tymes Gone By*, it's a tuneful beat-ballad. The flip is uptempo beat-pop, also featured on *Killer Cuts*. From the label that brought the world The Savages, so presumably Bermuda was home to this outfit too.

45:

1	4-4, 5-4 / My Original Blue Jeans	(Plamie P 1026)	Feb 1968

Keyboard-dominated garagey sounds from the pen of one Steffen Presley, on a Salinas, California label. The band were from Modesto and this appears to be their sole release. Check out *4-4,5-4* on *Seeds Turn To Flowers Turn To Dust*.

The Weavils

45:

1. Here I Am In Love Again/We're The Weavils (Lori 9550) 1965

From Houston. Judging by the 'B' side, with their fake British accents they seem to have been a Beatles' put-down group. The song rocks along pretty well and has humour too, The punch line:- 'The Beatles are good but we don't care, cause it only takes a minute to comb our hair!

You can also find *We're The Weavils* on *Pebbles, Vol. 21* and *Acid Visions - The Complete Collection, Vol. 1* (3-CD set).

Wednesday

ALBUM:

1	LAST KISS	(Sussex)	1974

A strange "concept" album, with a side devoted to the rock standards dealing with tragic death and lost love! The interest is mainly on the second side, full of wah-wah guitar rock.

1. It's Your Time/Little Girl (Teenbeat 1006) 1966
2. No Good News/Stop (NWI 2745) 1969

NB: (1) reissued on Behemoth (T-2) in 1988 with a picture sleeve and insert/info/interview with Fred Cole.

Originally from Las Vegas in Nevada, this band later relocated to Oregon. Their first 45 became an anthem for the flower children at Portland's Spring Trips Festival in 1967. *It's Your Time* has since resurfaced on *Nuggets, Vol. 8* and *Pebbles, Vol. 1* (CD). *Little Girl* is also a great raw punker that displays Fred's raucous vocals and some savage guitar work. Sadly, though, it was all a litle too raw for the American record buying public at the time and didn't sell.

The band also spent a lot of time in Los Angeles where they came under the influence of Lord Tim Hudson, manager of The Seeds. He didn't like the combination of pushing **The Weeds** on the road with The Seeds to promote the LP they'd just recorded so their name was changed to The Lollipop Shoppe with the above line-up still intact. The group didn't like the name and after the LP and 45s failed to generate riots, they returned to the Northwest and put out the N.W.I. 45 as **The Weeds** once more. The others broke away but Fred Cole kept going... Later in 1979 he was in a hard-core outfit, The Rats. He's become something ot a cult figure since with Dead Moon and had earlier recorded as Deep Soul Cole.

It's Your Time, Little Girl and *Stop* also appear on *Filling The Gap*.

45:

1. Weird/Give Me A Try (Nu-Sound 6111) 1966

Hailed from Rochester, New York with a song called *Weird* which cropped up on an extremely obscure 45. The lyrics seem to deride the singer's girlfriend, there's some pretty wild drumming, some driving guitar and pretty good vocals. Not bad at all and it's resurfaced on *Pebbles, Vol. 21*, the *Pebbles Box* set and on *Teenage Shutdown Vol. 8*.

Formed in 1962, this Alabama quintet lasted through to 1969, performing on the South-Eastern circuit throughout Alabama and Tennessee. Just one 45 was released, recorded at Quin Ivy's studio in Sheffield, Alabama.

Four of the original line-up got together again in 1992 (line-up 'B') for the Muscle Shoals Bands Of The '60s Reunion concert, captured on CD, where they perform three '60s covers - *Gimme Some Lovin'*, *Gloria*, and Bruce Chanel's *Hey Baby*.

These are captured on the CD of the event alongside contributions from Mickey Buckins and The New Breed, Terry Woodford and The Mystics, The Del-Rays, Mark V with Dan Penn, Hollis Dixon and The Keynotes, Bobby Denton and Travis Wammack.

The *Muscle Shoals Band Of The 60s Reunion* CD (AMHOF 1993-01) is available through the Alabama Music Hall Of Fame website at: http://www.alamhof.org

8. Rejoice/Bandstand Dancer (Verve 10716) 1973

This pop/rock group emerged from the San Francisco folk circuit. They made an immediate impact with *You Were On My Mind*, which made No. 3 in the Billboard Charts. In the U.K. it was covered by Crispian St. Peter. They enjoyed a further minor hit with their cover of Dino Valente's hippie anthem *Let's Get Together* and although it

enjoyed no chart success their next release *You Let A Love Burn Out* had some nicely layered harmonies and may have influenced Marty Balin in assembling Jefferson Airplane with their initial two girl, one guy vocal harmonies. This effort, along with *You Were On My Mlnd*, can also be heard on *Nuggets, Vol. 7* Their first two albums climbed to No's 32 and 172 respectively in the U.S. Album Charts.

The band seem to have had four phases in their career. The first (and most successful) was from 1965-67 when they were contracted to A & M; the second from 1969-71 when they signed to Vault; they returned briefly in 1973 to record the 45 for Verve and then reformed again in 1976.

Michael Stewart was the brother of John Stewart (of The Kingston Trio fame) and later became a Capitol record executive. Bob Jones was later in Southern Comfort.

1(A)	Flip, Flop And Fly/Another Side Of This Life	(Bertram Int'l INT-230)	Dec. 1969

Late sixties heavy club-rockers from California's East Bay Area, clearly influenced by Creedence Clearwater Revival. *Flip, Flop And Fly* is an uninspiring R'n'B flavoured boogie. Fred Neil's *Another Side...* is more CCR-like with some fine guitar. Both tracks are from their all-covers album, recorded live at Rick's Lounge in Walnut Creek.

Their seven minute version of *Susie Q* doesn't stick to the Creedence formula, instead an extended workout with acidic guitar soloing and a jazzy vibe - a fine finale. They tackle The Equals' *Baby Come Back* and a quartet of Beatles tracks with varying results: a brave attempt at *A Day In The Life* comes off well, considering; *Oh! Darling* is OK; *Sgt.Pepper/With A Little Help...* and George Harrison's *Something* come across as dull and plodding.

Jim Thibodeaux (originally from Nampa, Idaho) had relocated to California at the age of 8. After a three year stint in the army he'd formed The Blazers, a "show lounge group". Several outfits later he joined established local act The Antics in November 1967. Barney Northcutt (from Richmond, Ca.) had joined earlier that year; Ed Kirby (from Martinez, Ca.) had been in the group since 1962.

The Antics split in 1968 whereupon this threesome formed The Groop. In early 1969 they landed a residency at Rick's Lounge and by the end of the year had become known as **The Weight**.

This album is an interesting exemple of psychedelic folk with some oriental touches (sitar, tabla) and inspiration taken from middle age (*Mortuary Bound*, *If Death Don't Overtake Me*). Produced by Gene Shiveley, it was arranged by Don Gallucci (ex-Kingsmen, Don and The Good Times and Touch), Joey Newman (pre Touch) and Jeremy Stewart. The songs are all written by **Elyse Weinberg** and published by Peyotl music (sic!), except a cover of Bert Jansch's *Deed I Do*.

Originally from Crockett, California, although they frequently played in San Francisco in the late sixties. They were formed in 1967 by Cornelius, Sagen (who'd previously been an executive for Capitol Records) and John Stewart's brother Michael who'd enjoyed some success with The We Five. Very much in the mould of groups like Notes From The Underground they were more concerned with playing good time music and enjoying themselves than exploring new musical forms.

Produced by Bob Johnston and Neil Wilburn, their first album contains two Dylan covers, two Fred Neil songs (*Everybody's Talkin* and *Dolphins*), the classic Ian Tyson song, *Four Strong Winds*, as well as *Six Days On The*

Road (also covered by Taj Mahal and Street Noise) and Bobby Kimmel's *New England Winter*, the Stone Poneys song. The few originals were penned by M. Stewart (helped by We Five's Bob Jones on *Step By Step*) and Ron Cornelius.

The second album reputedly has good guitar work and excellent harmonies and both are very minor collectors' items.

Ron Cornelius will keep on working with Bob Johnston on records by Leonard Cohen and Bob Dylan. He also released a solo country rock album in the early '70s.

Unfortunately it's 'A' side is lame brassy pop (arranged by Leon Russell) - still, three gooduns out of four ain't bad at all.

From Seattle, this act later went to San Francisco, met Matthew Katz, and became the "definitive" vesion of Indian Puddin' and Pipe! This 45, produced by Katz under the bands original monicker, has a fantastic 'B' side, written by Steve Mack, with an irresistable rhythm and a great guitar break. Both sides have great 'West Coast' harmony vocals and can now also be found on the U Spaces Psychedelic Archaology Vol. 1 CDR.

Curiously **West Coast Natural Gas** before they moved to 'Frisco, had played a gig in Seattle with the "original" Indian Puddin' and Pipe (who became Easy Chair)...

As their name suggests this band attempted to push back the frontiers of musical experience. They wrote and arranged all their compositions enjoying considerable recording freedom. The **West Coast Pop Art Experimental Band** (**WCPAEB**) were the first L.A outfit to have a light show and were one of the biggest bands in town in the early days (in fact, the Mothers Of Invention once opened for them). Ironically, despite their reputation as psychedelic enfant terribles, none of the members used drugs (just like another purveyor of freaky music, Frank Zappa).

The Harris brothers and Michael Lloyd first met in 1964 when they were all students at the Hollywood Professional School - the school attended by most of the kids working in show-business. The three certainly had pedigree. Shaun and Danny were the sons of one of the U.S's best-known classical composers, Roy Harris, and Michael was a musical prodigy who had been working professionally for some time as a member of the New Dimensions. They first worked together as The Laughing Wind, and as such recorded a 45 for Tower Records, entitled: - *Good To Be Around*/*Don't Take Very Much To See Tomorrow*. In order for them to start performing they needed a drummer, and for a short while Danny Belsky, an old friend and former band member with Michael filled in on their first recordings. Thereafter, John Ware played live with the band and legendary drummers Hal Blaine and Jimmy Gordon played in the studio. Their final member Bob Markley was introduced to them by Kim Fowley at a party he was throwing for The Yardbirds first U.S. tour at Markley's house. Markley was a wealthy attorney originally from Oklahoma who badly wanted to be in a band so he could get lots of girls (true!). Although a lot older than the other three (he was about 30, they were 16 or 17), he made a deal with them that he'd provide them with equipment if he could be in the band. As he didn't sing or play an instrument, he held a tambourine and stood in front of a dead mike. Markley's role in the band remains unclear. Because of his background in law, the other three left him with more and more business control, preferring to concentrate on the music. It's probable as a result that most of the production and composing credits attributed to him are spurious. Contrary to what most articles of the band allege, Michael Lloyd never left the band and continued making the albums with the Harris brothers right up to the demise of the band.

Markley's social connections helped them to get a deal with Reprise Records where they recorded three albums despite having no commercial success whatsoever. Their second album, reissued by Reprise a few years ago, blended 'experimental' tracks such as *1906*, *Help I'm A Rock* and *Transparent Day* with the melodic harmonies of *Shifting Sands*, *I Won't Hurt You*, *Leiyla*, *Here's Where You Belong* and *If You Want This Love*. Their first 45 was taken from this LP. Prior to this LP they recorded material for an earlier privately-pressed album in 1966 which is one of the rarest sixties artifacts. Some of that material and other oddities were issued by Raspberry Sawfly Records in 1982 (SAW 8001), and the "Fifo" album has subsequently been reissued officially by Sundazed.

Volume 2 was more adventurous and consequently inconsistent. Tracks like *In The Arena* sound badly disjointed yet others like *Suppose They Give A War And No One Comes* with its strong dynamic contrasts are very effective, and *Delicate Fawn* is a joyful little ditty. However, the prominent track on this album is probably the highly original *Tracy Had A Hard Day Sunday*. Unlike much of the other material on the album, this tune had considerable commercial appeal. A later 45, *Smell Of Incense* was taken from this album. It must have made quite an impression 'cos it was also recorded by The Abstracts on their LP, The Pawnbrokers and by Southwest F.O.B.. In fact, the single was only belatedly released a year after the album in response to the latter's hit version of the song.

Their next effort was less ambitious, containing a number of competent conventional songs such as *As Kind As Summer* and the enchanting, haunting *As The World Rises And Falls*. Some of the material shows a strong satirical bent, like *A Child Of A Few Hours Is Burning To Death* with its deadly blues riff, sarcastic megaphone-on-a-parade-ground vocals, and martial atmosphere. The title track combines a chiliastic invitation with mock-travelogue music to unique effect and *Eighteen Is Over The Hill* is as perfectly-realized a piece of music as can be imagined. Altogether it represented a considerable improvement on their previous efforts. Incidentally, the order of tracks on this record bears little relationship to the order given on the record sleeve.

The group recorded one final effort on the Amos label before splitting, Markley's attempts to dominate the band

finally alienating the other three. Markley later made a solo album with a supporting band, *A Group* (Forward SFT 1007) in 1969 and produced some material for J.J. Light.

After the group broke up Shaun and Dan Harris headed for the Midwest as The California Spectrum. They had a great light show and for about 14 - 16 months toured very successfully. Shaun relocated to Denver for a year or so, performing as The Spectrum and also booking and promoting other bands. He later released a solo LP, *Shaun Harris* (Capitol ST 11168) 1973, consisting of soft country rock (with orchestrations by his father, Roy Harris) and subsequently has collaborated with Michael on an almost endless stream of recordings from 1970 to the present. Michael became vice-president of MGM Records and one of the best-known producers in Los Angeles.

Dan continued writing and working with Michael and Shaun. In 1984, he moved to Sweden where he performed and recorded very successfully. A few years later he travelled back to L.A., where he currently resides. He teaches guitar, performs, acts and writes with his wife, Vicky.

Compilation appearances have so far included: *I Won't Hurt You* on *Nuggets Vol. 9* and *A Child's Guide To Good And Evil* on *Electric Psychedelic Sitar Headswirlers Vol. 1*.

For details of Michael Lloyd's later exploits see The Smoke entry. For more information on the **West Coast Pop Art Experimental Band** check their excellent website: http://www.bart.nl/~cvdlely/wcpaeb.html.

More recently the enchanting *Smell Of Incense* was revived again in 1994 by a Norwegian band who also took the title as their band name - very apt for their trippy psychedelic-folk style.

ALBUM:

1. THE WIZARD OF OZ AND OTHER TRANS LOVE TRIPS (Capitol ST 2776) 1967

Produced by Nick Venet, this was probably a studio project. James E. Bond junior also features on the credits. The album's a rather patchy instrumental concept recording full of ragas, sitars and flutes. It may appeal to those who like the freaky side of The Chocolate Watchband's *Inner Mystique* or *The Zodiac* by Cosmic Sounds.

NB: (1) reissued on CD by Golden Classics Rebirth (GCR 011) 1997.

From Cincinnati, Ohio, although their early seventies progressive rock album was recorded at Woodland Sound Studio, Nashville, Tennessee. Its finest moments are the title track, *Where Are You* and *Everyday*. If rather jazzy progressive rock with lots of keyboards, woodwind and plenty of melody is your niche seek out a copy of this album which has become quite collectable.

The band used to gig frequently with Whalefeathers.

1. Can't Come Home/Lovin' Is (No label NE 217) 1968

An insistent guitar refrain makes the top side catchy, but it's only late sixties light pop-rock. The flip is also quite poppy. Both tracks were written by Richard Talauera and the band were moored in El Paso, Texas. (Max Waller)

Originally from Omaha, Nebraska, they later moved to Fort Dodge in Iowa where they played a heavy brand of psychedelia in the late sixties. They continued recording throughout the seventies and released an album as The Hawks in 1980. *My Life* and *Bright Lights Windy City* resurfaced on *Glimpses, Vol. 1* and *2* respectively and *Sister Jane* can be heard on *Monsters Of The Midwest, Vol. 1*, a cassette compilation. Prior to the album with The Hawks, Kaufman released a solo LP under the pseudonym Captain Kirk. A band worth investigating.

7(C)	Ain't Gonna Find Nobody (Better Than You)/When I Arrive	(RCA Victor 47-9498)	1968

This seminal band hailed from Orlando, Florida, and despite their lack of national success at the time are nowadays regarded in the same league as The Chocolate Watchband, Standells, Music Machine etc.. This view is entirely justified, as their 45s reveal a depth and diversity of talent, from the raucous punk of *When I Arrive* or *You Burn Me Up And Down* through to melodic drifting ballads such as *St. John's Shop* and *The Day She Dies*. **We The People** also have a unique quality in their songwriting, with *My Brother The Man*, *Mirror Of You Mind*, *In The Past* and numerous others all standing out as top quality stuff.

The band were formed out of two acts - the Trademarks and Offbeets, at the suggestion of Ron Dillman, who managed both bands. Within a week of their first meeting / rehearsal in early 1966, they were recording their first 45, *My Brother, The Man*, but shortly afterwards Tom Wynn was replaced by Lee Ferguson and the band signed a production and publishing deal with Nashville-based Tony Moon.

Whilst their first two 45s contained punchy psychedelic rockers, *He Doesn't Go About It Right* contains a dollop of Kinks style humour, and *St. John's Shop* is a beautiful slow ballad. All were big regional hits in Florida and Tennessee, but under threat of the draft, and frustrated by the lack of national success, Wayne Proctor quit early in 1967. Shortly before his departure they recorded *Love Wears Black (None)*, at Bradley's Barn in Nashville in early 1967, which was intended for release under the pseudonym Fresh Air. He also co-wrote The Skunks 1967 track, *Don't Ask Why* with Clark Taylor, which has recently been given another airing on *The Quill Records Story* (CD).

With Wayne pursuing a career in song-writing, the group continued, although Lee Ferguson was then drafted and replaced by Terry Cox from Those Four Guys. Now signed to RCA, national success still proved elusive, although the later 45s are still pretty good (and *When I Arrive* remains a complete stormer).

Tom Talton too left the group in 1968/69 and later resurfaced with Tom Wynn in Cowboy. **We The People** soldiered on for a while, but they eventually called it a halt in 1970.

In addition to their 45s, the band also had two French EPs with picture sleeves: the first (London 10181) 1966 contains the four tracks that comprise the first two Challenge 455: the second (London 10184) 1967 contains *St John's Shop, In The Past, Declaration Of lndependence* and *Lovin' Son Ot A Gun* - the last two being non-US 45s tracks.

The band have also been the subject of three retrospective compilations, with Sundazed's *Mirror Of Our Minds* being the latest and best. A double CD package, with extensive liner notes/interviews by Jeff Jarema, it includes no less than fourty tracks. All their 45 cuts are featured, plus all the "previously unreleased" cuts that have cropped up elsewhere on other comps etc. and a whole bundle of other tracks also make their first appearance anywhere... All in all a thoroughly recommended package!

Compilation coverage has also so far included: *You Burn Me Up And Down* on *Mindrocker, Vol. 6*, Eva's *Sound Of*

The Sixties, Sixties Archives, Vol. 1 and *Psychedelic Unknowns, Vol. 5* (*Vol. 4* of the equivalent CD); *He Doesn't Go About It Right* on *Mindrocker, Vol. 6*; *Mirror Of Your Mind* on *Mayhem And Psychosis, Vol. 2*; *In The Past* on *Mindrocker, Vol. 5*, *Psychedelic Unknowns* (EP) and *Psychedelic Unknowns, Vol. 2*; *My Brother, The Man* on *Garage Punk Unknowns, Vol. 4*; and *When I Arrive* on *Pebbles, Vol. 7*.

The CD compilation *Psychedelic Microdots, Vol. 1:- Orange Sugar And Chocolate* too is also of interest as not only does it include original masters of *My Brother The Man, Mirror Of Your Mind, You Burn Me Up And Down* and *In The Past* to whet your appetite but also four unreleased tracks, *By The Rule, Half Of Wednesday, Free Information* and *Too Much Noise*.

A 45 that is rated by some and touted as 'psych' by others. Well, it's very pleasant harmony-rock, somewhat orchestrated, and comparable to, say, The Cryan' Shames *Synthesis* material. Now, I rate The Cryan' Shames highly but I wouldn't call 'em psychedelic, so beware of this one.

From Cincinnati, Ohio, this outfit used to gig frequently with Westfauster and played a heavy, very keyboard-dominated blend of music. Their albums have distinct psychedelic influences and although both have their moments the are sometimes a bit messy. Both albums are sought-after by collectors.

Lenny Leblanc went on to become a successful Christian music artist, whilst Mike Wheeler who played with the band in their last two years, went on to work with grammy winning Nashville songwriter Mike Reid. Wheeler also led an act called Wheels, who recorded on Boardwalk, with an album produced by Craig Fuller, and who toured with Little Feat in '78. He's also worked more recently with Paul Barrere.

The What Knots

45:

1. l Ain't Dead Yet/Talkin' 'Bout Our Breakup (Dial 45-4067) 1967

45s:

1. Morning/l Need You Baby (Amber AMB 102) 1966
2. Nobody Else But You/Look Down (Amber AMB 101) 1966

A high school aged band from the Hillsdale/Oradell/Hackensack area of Northern New Jersey. Their first 45 actually made the Top Ten in Seattle and Salt Lake City and was undoubtedly their finest moment, *Morning* got a further airing on *Hipsville 29 BC* and both sides of the 45 reappeared later on the *Attack Of The Jersey Teens* compilation along with a third 45 cut, *I Was A Fool*, which was never released at the time. Their second 45 simply sank without trace and after the relative success of *Morning* everything was downhill until they eventually called it quits. They were one of the few rock bands to record on Amber Records, which really specialised in doowop and accapella music.

1	All The Time/Baby What's New	(Amber 6657)	1966

From Fremont, this band began when Washington High School friends Dave Wheeler and Bob Birdwell started playing guitars together in 1964. Needing someone to play lead, they asked another school friend, Roger Kennedy to join them and were introduced to drummer Terry Rissman from Mision High School. Terry didn't even OWN a set of drums... but he borrowed the school's marching band's drums and he set them up in such a way that he could play them as a set!

Dave Wheeler named the band 'the Tarentels' from a dictionary - Tarentella being the Italian dance of the tarantula. Over time, Dave moved away, and Bob moved over to bass. Roger moved from lead to rhythm, and Barry Houck came in as lead. Chuck Tedford was also brought in on keyboards.

Bob:- "We landed a job playing with The Turtles at the San Leandro Rollerina, (Bill Quary's Teens & Twenties) and were spotted by Barry Carlos of Go Teen Productions. He signed us up as **Peter Wheat and The Breadmen**, and we played all over with the big names of the day. Paul Revere, Byrds, Animals, Them, Chuck Berry, Big Brother, Yardbirds, and so many more I can't recall just sitting here. Since we were KYA Radio's "house band" we were even originally scheduled to play with the Beatles at Candlestick. However, because of a conflict between our Musician's Union, (Local 510), and SF's union, (Local 6), we got bumped.... but at least we DID get tickets to see the show".

"Dave Wheeler still writes and plays music full-time; I'm a business executive for a very large private corporation; Terry was working as a janitor last I heard; Roger passed away about four years ago; Chuck Tedford is a truck driver; and I haven't seen Barry in around 10 years..."

Baby What's New has also been compiled on *Pebbles Vol. 10*.

You can also check out the 'A' side on *Highs In The Mid-Sixties, Vol. 16*. Its success led to a contract with the Philadelphia-based Jamie Records but after just one further 45 arguments about musical direction brought their recording career to an end. However, they moved to Beaverton, Oregon, with a modified line-up B, which did not record, before the draft and further differences of opinion led to their demise. Released on the obscure Good Medicine label in a beautiful snakeskin textured gatefold cover, this album is beginning to be sought after. Led by the legendary performer/producer Thomas Jefferson Kaye, the songs include *All Cried Out*, *Qualified*, *Collection Box* and *Hoe-Bus*. A few cuts have killer fuzz guitar leads and others have a nice communal folk feel.

White Cloud also backed Loudon Wainwright III on his third album (the one with *Red Guitar* and *Dead Skunk*).

A native indian, Thomas Jefferson Kaye alos produced several of Gene Clark's albums and released two interesting

solo LPs in 1973 and 1974 (the latter with Fagen and Becker from Steely Dan).

2(A)	IN SEASON	(UNI 73140)	1972

This Nashville group is mainly interesting for being the first group of John Hiatt. Their second album, produced by Buzz Cason, is mainly a country rock influenced with one boogie tune, recorded live in the studio with crowd noises (*Bull Island Boogie*) and the cartoon inspired *Looney Tune*. All the material is original and includes two Hiatt songs, *You Caught Me Laughing* and *Sail Away*. The album is probably better avoided, unless you're a country rock fan, or a Hiatt collector.

Hiatt then went solo and found fame as a songwriter for various country and pop/rock singers, before recording his best albums in the late '80s/early '90s. His first albums were recorded with Doug Yankus, the former Soup guitarist.

ALBUM:

1. (A) WHITELIGHT (Century 39955) 1969

NB. Two versions of (1) were issued, one containing a version of *Heartbreak Hotel*, the other *VDFM*. The latter version is by far the rarer one. (1) has been also been reissued, and released on CD (Two Of Us 001) 1997 together with Mississippi's solo album *Velvet Sandpaper*.

Completely unconnected to White Lightning this group was from Long Beach, California. Musically, it's very diverse. It opens and closes with *Instrumentalland II*, composed by the Perron brothers. In between there's quite a good cover of Bob Womack's *What Is This*; the Beatle-ish *You'll Lose A Good Thing*; a poor cover of Jimmy Reed's *Baby, What You Want Me To Do*; a folk-rocker *But I Don't Know Why* and lots of funky strutting on *Cold Shot*. The highlight, *I Couldn't Got High*, a fine pop/rocker turns up on side 2 alongside a reasonable cover of Lou Reed's *I'm Waiting For My Man*, a dreadful ballad, *Always Always*, and a lame cover of Presley's *Heartbreak Hotel*. Don't fork out megabucks for the very rare original but snap up the repress if you can.

This album has exactly the same front cover as The Philosophers' *After Sundown* LP, as both titles were manufactured by Century, who offered bands without artwork, the option of picking a cover from a number of 'catalogue' art designs.

Mississippi also recorded a solo album before he joined up with the Perron brothers, entitled *Velvet Sandpaper* (Taurus - Scorpio) 1969 R2/3. This has been reissued recently, although erroneously shown as by **White Light**, and both albums have been reissued on one CD.

Compilation appearances have so far included: *VDFM, Crashin', White Light Pt. 1* and *White Light Pt. 2* on *Filling The Gap*; *I Couldn't Get High* and *Cold Shot* on *Kicks And Chicks Vol. 1*.

3. William/Of Paupers And Poets (Hexagon 944) 1968

This outfit was formed by Caplan in Minneapolis, Minnesota in Sept. of 1968. The compulsive psychedelic punk song *William*, which was issued on a number of occasions, was their finest moment and can be heard on *Acid Dreams, Everywhere Interferences, Garagelands, Vol. 1* (CD) and the *Acid Dreams Testament* (CD). It's been covered in the eighties by Broken Jug and Billy Synth and The Turnups. Both tracks turn up on Eva's *Litter Rare*

Tracks compilation, whilst *The Scotty Story* (CD) includes *William, Of Paupers And Poets* and *(Under The Screaming Double) Eagle*. They later became Lightning and issued a 45 and an eponymous LP on PIP.

Eagle is a retrospetive album of previously unreleased material, which was recorded around the time of the superb *William* single during 1968-69 at Warren Kendrick studios in Minneapolis. Some tracks are purely instrumental and the extended *No Time For Love* bears more than a little resemblance to Quicksilver's excellent *Gold And Silver*, but there's some superb guitar jamming here and the album is essential for Litter fans and recommended to all connoisseurs of guitar-driven psychedelia.

For more information on the band, check out **White Lightning**'s official website: http://www.thelitter-lightning.com.

Rambling pop-psych on a New York label with nonsensical couplets (shades of Race Marbles' *Like A Dribbling Fram*) - this trippy period-piece now graces *A Heavy Dose Of Lyte Psych*. The 'B' side is a slow dirge with more picturesque lyrics. (Max Waller)

ALBUM:

1	WHITEWOOD	(Rockadelic RRLP 36)	1998

According to the liners this album was recorded circa 1969 by a bunch of unknown musicians - "...music publications ran ads inviting would-be songwriters to 'put your lyrics to music'. For a price these companies would hire musicians to record the songs and press up a limited number to be used by the songwriter for promotion purposes." This LP resulted from one such venture and despite the mediocre recording quality, is interesting post-Hendrix heavy psych-prog. Apparently - "the writer of these tunes (who wishes to remain anonymous) has no idea who the members of the band **Whitewood** were, nor was he a fan of Rock and Roll music". A fascinating story of an unknown branch of 'exploito' music. Perhaps the writer's initially bitter disappointment has been lessened by the interest now shown in his incredibly rare artefact. 2. Crackin' Up/Bluescene (BlacKnight 903) 1966
3. Drive It Home/To Have Never Loved At All (Goyle 101) 1966

The Wig were one of Austin's longest lasting sixties rock groups. Benny Rowe had earlier played in The Wigs but when they broke up after a European tour he retained the name omitting the 's' and put together line-up (A) above. They quickly became a popular live attraction in Central Texas performing regularly at the Jade Room in Austin. Promotional copies ol the Empire release came in yellow vinyl. You can hear the 'A' side, which included some competent guitar playing but lacked any commercial potential on *Pebbles, Vol. 1* and the *Pebbles Box* set compilations. It was a Rusty Wier composition. The flip was an instrumental. When the follow-up made little impact the writing was on the wall for the band. They finally broke up in 1968 and Wier and Yaryan went on to Lavender Hill Express, whilst Johnny Richardson teamed up with Gary P. Nunn, Rick Cobb and Chuck Greenwood in The

Georgetown Medical Band. Wier later enjoyed a successful solo career. The retrospective album features **The Wig** covering five classic songs of the era - *Everybody Needs Somebody*, *Gimme Some Lovin'*, *Louie Louie*, *Gloria*and *You Really Got Me* - and playing their second 45, live at the Jade Room. It also includes both sides of their first intended but unreleased 45 - *Little By Little* and *Forever And A Day*, which later evolved into *Crackin' Up*. There's also a practice recording of *Crackin' Up* prior to the recording of the first 45. The remaining two tracks are by The Georgetown Medical Band. Still it's probably true to say that this album is likely to remain largely the interest of rock archivists. The studio version of *Drive It Home* can also be found on *Flashback, Vol. 6*.

Wig / Wags

45:

1. I'm On My Way Down The Road/The Goofy Goggle (SAMA 1002) 1967

Quoted as having been based both in Texas and Ohio, the 'A' side to this 45 can also be found on *Pebbles, Vol. 10* and *The Essential Pebbles Collection Vol. 2* (2-CD). It's a decent enough pop-punk effort which builds up to quite a powerful climax.

It's also said that they recorded a 45 as The Loving Years (*Down The Road/Apples And Oranges* on Viva 623) in 1967.

Formed in 1964 this Hampton, Virginia quartet gained a reputation in the area for their ability to cover the Beatles. Leader Hal Souders and his cousin Carl Moore started to write their own material and created two haunting teen garage ballads which were released on their sole 45 in early 1966. 2. Beaver Patrol/Tossin' And Turnin' (Modern 1014) 1965

Huycke, Brown and Adair all originated from Seattle where they had played in The Caravans, The Fury's and The Pipers IV. They headed for LA when founder member Ray Kennedy was drafted. Adding Rick Dey who joined from The Vejtables lineup 'A' recorded the above two 45s. Paul Revere apparently paid Rick Dey around $5,000 for *Just Like Me* in 1965 and it became The Raiders' first big hit. The Wilde Knights later reformed in the

Northwest in 1967 as Genesis and were later known as King Biscuit Entertainers (1968) and American Cheese (1969).

The *Rough Diamonds* album is strongly recommended as an excellent source of the careers of The Furys, Pipers IV, Wilde Knights, King Biscuit Entertainers and American Cheese.

Beaver Patrol can also be heard on *Acid Dreams Epitaph* CD, *Pebbles, Vol. 1*, *Pebbles, Vol. 1* (CD), *The Essential Pebbles Collection* (2-CD), *Acid Dreams Epitaph* (CD), *Acid Dreams - The Complete* (3-LP set) and the *Pebbles Box Set*. It has become something of a punk classic. Their version of *Just Like Me* can also be found on *Highs In The Mld-Sixtles. Vol. 7*.

Rick Dey went on to do stints with February Sunshine and the Merry-Go-Round. He died in late '69/early '70 from an overdose of nitrous oxide (laughing gas) at a Hollywood party.

From the opening echoed growl of the guitar intro to Stars In The Sky through the ten minute plus jam in Quicksand at the end of side two, this record sits toward the top of the pile of lost-in-time U.S. West Coast psychedelic hard rock privately pressed albums.

It was originally issued in a plain sleeve with a sticker on the front. Only four or five copies of the original issue, which was made for demo purposes, are known to exist. A popular mid-sixties San Francisco-based folk-rock outfit. Their 1966 45 *Baby Dear* was quite uptempo. The flip smooth and mellow culminating into an exciting finish. These and two other uptempo numbers, *Coffee Cup* and *Jump In* are included on the *A Pot Of Flowers* LP (Mainstream 6100). In addition, *Baby Dear* can also be heard on *Sound Of The 60s: San Francisco, Part 1*. McClure later played for Levitt and McClure and Joyous Noise.

Both sides of the second 45 were written by J. Helmer, who may have been a later member of the band, or alternatively the 2nd 45 could be by a different act.

Sometimes described as 'garage', this slick-haired dark-suited outfit present an album of "big-beat" sounds; an assortment of polished ballads, pop/motown and dance numbers - *It's Not Unusual*, *My Little Red Book*, *You've Lost That Lovin' Feelin'*, *Dancing In The Streets*, *What's New Pussycat*. Not for garage fans, though they do a solid version of the 'Stones *Satisfaction* and a brooding cover of the Highwaymen's folk-rock popper *My Foolish Pride* (written and demo'd by the D-Men/Fifth Estate team). The 45s are generally strident pop thumpers or sultry ballads.

Guitarist Chuck Alden later formed the Fuzzy Bunnies, a quartet who were also house band at New York's Arthur club between 1967-1968 and who released at least three 45s:-
The Sun Ain't Gonna Shine Anymore / Lemons And Limes (Decca 32364) 1968

Kickin' off in the early '60s as the Dynamic Deltones, this Tidewater area band performed rock'n'roll up and down the East Coast. By 1966 they'd become **The Wild Thing** and adopted a totally unique look - once seen never forgotten imagine Little Richard or Esqerita with silver hair, a male equivalent of a "beehive" on top and long tresses at the back.

Weird Hot Nights is a raw thumper with raucous vocals, manic laughter, spiteful guitar and an exotic break - compiled on *Aliens, Psychos And Wild Things* (CD) and *Midnight To Sixty-Six*. The flip strikes a tough stance too with strong vocals and biting lead. Both sides were composed by scenemaker Frank Guida and local soul singer Lenis Guess.

They rocked on to the end of the decade with an LP and 45 on Elektra but those candyfloss coiffures have not been seen since.

NB: (8) released as by Al Anderson and Wildweeds.

This group started life in Windsor/Windsor Locks, Connecticut. Their sole album is composed of musically competent electric folk music with a strong country influence. Among the more interesting tracks are *Belle* and *An Overnight Guest*. They generated a good time sound, but although their songs lacked lyrical poignancy, their album remains of minor interest to some collectors.

Al Anderson went solo after the band's demise, releasing two further 45s on Vanguard:- *We'll Make Love/Just Want To Have You Back Again* (Vanguard 35168), which made No. 101 in the Billboard Charts in 1973, and *Ain't No Woman Finer Look In'/You're Just Laughing Inside*. He also joined NRBO in the early seventies.

Another member, Ray Zeiner (who'd left prior to the LP) put out one solo 45, *I Had A Girl/You Know Your Love* (Poison Ring 721) in 1969. Zeiner and "Big Al" were the driving force behind the "Weeds" and internal rivalry within the group led eventually to their break-up.

Their bass player, Bobby Dudek, was incidentally blind. Andy Lepak replaced his older brother's place on the drum stool, when Al Lepak was drafted.

Their strong 45 debut *No Good To Cry* was covered by The Moving Sidewalks on their *Flash* album.

Born in Los Angeles, **Tim Williams** was a white singer and guitarist who, during his teens, moved with his family to the Californian desert community of Lancaster. Here he began to play folk and blues music and met up with Frank Zappa and Captain Beefheart. The liner notes of his sole album state that "he met and learned a great deal from Frank Zappa and Captain Beefheart, who worked regularly with their bands in the area and Beefheart especially encouraged his interest in the blues". **Williams** began playing with a five-piece group, the Delta Blues, as well as being a solist in the coffeehouses and folk music clubs.

Williams then moved to Santa Barbara, married, worked the local clubs and came in contact with Hoyt Axton. He managed to get a recording contract with Epic and his album was produced by the blues producers Chris Strachwitz and Doug McGuire. Side one is electric and the Side two is made up of acoustic blues and folk, with a good cover of Axton's *Snow Bliend Friend* (also covered by Steppenwolf) plus several blues classics.

The album is really rare now but is mainly of interest to blues fans, the influence of Beefheart being negligible.

2(B)	WE'RE COMING UP	(RCA LSP 4193)	1969

From Shreveport, Texas, **Willie and The Red Rubber Band** issued two albums of their own mix of Rock, R&B and psyche, like The Hombres or The Gentrys.

The first album is probably their best, with tracks like *Mary Jane*, *Nature's Way Of Saying Thank You* or *School Of Hard Knocks*.

Produced by Duke Niles and Chuck Sagle, the second one is bluesier but contains some good tracks, such as *Watch Out Fool Self*, *We're Coming Up*, *Chicky Chicky Bomm Boom* or *Deep Eyes Of Darkness*. All the tracks were written by group members. John Buck Wilkin (the former Ronny and The Daytonas leader) guests on guitar.

On both albums, the tracks are generally short (under three minutes). Although some arrangements sound very dated now, the guitar and keyboards parts are generally interesting and the albums are pleasant.

2. (B) SPIRIT OF ELIJAH (Voice Of Elijah 27977/8) 197? R3
3. (B) HEAVEN'S GONNA BE A BLAST! (Voice Of Elijah 29005/6) 197? R2

All three of these albums are significant collectors' items and had great sleeves. The band remained anonymous on their album credits, but played the Spokane / Eastern Washington circuit for years, before discovering "Jesus" and anonymity.

Their debut album, which was recorded live and issued in at least three different hand-made cover designs, is poorly recorded and rather lightweight. Their second effort, *Spirit Of Elijah* represented a vast improvement, however, featuring some nice laid back guitar-rock in the mould of Moby Grape's *Wow*, and their third, *Heaven's Gonna Be A Blast!* was their rockin' Allman Brothers - type pinnacle.

Wilson McKinley also recorded a fourth album, which was only released on cassette, and is country-gospel rock (in that order).

Prior to the Gospel albums **The Wilson McKinley** recorded an album under the alias of The California Poppy Pickers, with their original line up, including Don Larson on bs/vcls. Entitled *Honky Tonk Women* (Alshire) 1969, they used the proceeds from the album to fund the release of an original EP in 1970 on Rockin' Chair Records.

Recently Don Larson, Mike Messer and Randy Wilcox have been recording a new album as **Wilson McKinley**. For more information on the band check the following website: http://oneway.simplenet.com/jesusmusic/wilson.htm

Tom Wilson

TOP

ALBUM:

1	TOM'S TOUCH	(ABC ABCS-?)	1969

NB: (1) also released in Holland by EMI Stateside (LSSH 1501).

Tom Wilson was one of the main producers associated with the psychedelic movement. With his two companies : Rasputin (production) and Terrible Tunes (publishing), **Wilson** was obviously able to choose the right groups at the right moment.

Between 1965 and 1970, he produced the following groups (to name a few): Mothers Of Invention, Velvet Underground, Ill Wind, Harumi, Fraternity Of Man, Bagatelle, Last Ritual, The Serfs, Barry Goldberg, Blues Project, Beacon Street Union, Country Joe and The Fish, Fear Itself, Maximillian...

A bit like Kim Fowley, he obviously worked as an independant producer, his productions being released by various labels.

Tom's Touch is not a solo album but a rare compilation of some of his productions for ABC: Fraternity Of Man, Ill Wind, Bagatelle, Purpose and Fire.

45:

1. Moments Spent/Uptown Girl (Capitol 2274) 1968

This New York group is most notable for the inclusion of Debbie Harry, who was later in Blondie. A dreamy album it has its moments. Aside from two cover versions of Don Everly and Roger Miller songs, the album's hippie flower-pop songs were written by the band members. The outstanding track being the hypnotic narration/chant *There Is But One Truth, Daddy*, which has a musical backing slightly reminiscent of Pink Floyd. The band took their name from the children's book by Kenneth Graham.

The album was produced was Artie Kornfeld, who contributed to the Woodstock '69 Festival. He also produced another interesting album, *A Time To Remember!*, which was credited to The Artie Kornfeld Tree.

Windsor Tunnel

ALBUM:

1	WINDSOR TUNNEL	(Avco Embassy AVE 330??)	1970

An unknown quintet (two guitars, bass, organ and drums) released this album in 1970. Musically patchy, it opens with a rock version of The Animals *We Gotta Get Out Of This Place*, followed by *Ballad Of Sharon's Birthday*, a ballad with good vocal harmonies, and a fuzz number, *I've Been Let Down*. The other tracks are more pop oriented.

45:

1. I Haven't Got You/(My Name Is) Granny Goose (Colpix 796) 1966

An unknown outfit whose sole known 45 is produced by The Monkees maestros Boyce & Hart, so perhaps based in L.A. (or a studio project). Forget the 'B' side - a novelty of sorts with cornball vocals. *I Haven't Got You* is a swingin' midtempo garage-beater that is somewhere between *Gloria* and *Hang On Sloopy* - lightweight and not a buzz of fuzz to be heard, but very catchy. Both sides were composed by one E. Reed. (Max Waller)

The EP, recorded a little later in 1970 after drummer Kenny Thompson had been replaced by Steve Thielges, contained four originals by the band, although they included a lot of Beatles' songs in their live act.

NB: (1) had a limited pirate repress in 1990 and has been pirated on CD. A legitimate reissue from Gear Fab (GF-124) 1999 includes both sides of the 45 as bonus cuts.

45:

1. Got Love/Freedom (short version) (Penguin P-100) Spring 1971

Wizard's album is now very rare and sought-after by some collectors. Sometimes described as psych, it's really more late '60s style rock and certainly there has some ace moments on tracks like *Killing Time*, *Evergreen* plus some Hendrix-style histrionics at the end of *Seance*.

The band formed in the Spring of 1970 in Tampa, Florida when Forney and Schultz were due to play a gig in a short-lived band called "Brother", supporting Canadian act "Smith" and Chicago's Flock. Before the concert, Paul and Ben had a disagreement with Brother's drummer, who walked out and disappeared for nearly an hour. Needing to run a soundcheck, they asked their roadie, Chris to sit at the drums and just "pound away" so they could get the whole rig balanced. Completely unaware that Chris had been playing the drums for about 5 years and having sat in on a few rehersals knew all their songs by heart, Paul and Ben were rather taken aback when he began playing along in perfect time... The next day, they fired their drummer, asked Chris to join the band, and renamed themselves **Wizard**.

They set about touring extensively, playing gigs in Florida, Georgia, Alabama, Michigan, Chicago, and Colorado including the Goose Lake Festival in Michigan Summer of 1970, and the following Winter, opening for the likes of Iron Butterfly and Van Morison in Florida.

Their sole album was recorded the album at LeFevre Sound Studios in Atlanta, Georgia, and consisted of mainly original material, many of which were the product of jam sessions and live stage improvisations. They split in mid '71, but are still in touch to this day, and Chris Luhn recalls "All-in-all, it was a good time. We met and played with some outstanding musicians, including the members of Bob Seeger, Frigid Pink, Catfish, Third Power, Teagarden & Van Winkle, Iron Butterfly, Chicago, Ten Years After, Small Faces, etc. Now, I'm a lawyer. Go figure.. ."

This group should not be confused with the Californian hard rock Wizard, which released an album on Future Track in 1978.

1. (A) THE WIZARDS FROM KANSAS (Mercury 61309) 1970

NB. (1) was repressed in the late eighties, also reissued on CD (Afterglow 006) 1993

This was an obscure country-influenced band whose sole album contained fine versions of classic period songs *High Flying Bird* and Bully St. Marie's *Codlne*, as well as some excellent original compositions notably *Misty Mountainside, Country Dawn* and *She Rides With Witches*. The band exhibited a fine range of harmonies, and were indeed from Kansas! The album is recommended and is a significant minor collectable.

You can also find their version of *High Flying Bird* on *Reverberation IV* (CD).

1	WOLFMAN JACK AND THE WOLFPACK	(Bread 070)	1965

45:

1	Wolfman Boogie (Part One)/Wolfman Boogie (Part Two)	(Bread APR)	1965

The famous "howling" D.J. also recorded some albums. His first was released in 1965, on it he is accompanied by an electric band, with good 'garagey' covers of '50s rock and New Orleans hits, plus *Wolfman Boogie pt's 1/2*. The record came in a stunning cover and is now rare.

Wolfman Jack kept on recording during the '70s but his other albums fall outside the scope of this book.

45:

1. She Loves Me, She Loves Me-Not/Watusi Beat (Bobbette Bb 380) 1986

Wondrous twangin' garage "recorded 'Live' at The Rhythm Room, Fullerton, California". The flip is a derivative fuzz-rocker about dancin', not a surf number as you might expect from the title. A real nugget, although a bit misleading, as the catalogue number dates the 45 as 1965, when it is in fact a fake 'authentic' outfit, recorded in 1986. (Max Waller)

This San Francisco-based band were sometimes prone to over-indulgent improvisation but they had their moments. Their albums were essentially crossovers between the 'psychedelic' and 'progressive' eras with the second one by far the better of the two. On the first *Conceptions Of Reality* is notable for Karyl Boddy's soothing vocals but the stand-out track is *Happy Egotist*, a fine imaginative slice of psychedelia. Forget the rest of the album which is full of messy arrangements and lots of brass. The second album has three decent tracks:- *Flash*, a somewhat mystical, trippy piece of psychedelia; *Love*, experimental soft psychedelia with liberal lashings of woodwind and the ten and a half minute finale, *Evil People*, an amalgam of psychedelia and progressivism with some nice interweaving guitar work. The remainder of the album is messy and too brassy. Neither album has yet acquired collectors status but they may in time. If you're interested start with the second.

5	Take Me To Your Heart / You Made Me	(United Artists 50271)	1968

NB: (4) and (5) as Terry And The Chain Reaction.

Formed in 1962 at Sheffield High School, this Alabama quartet were popular on the fraternity circuit in Alabama, Georgia and Mississippi. They welded a Southern swing with R'n'B and frat flavourings onto a foundation of British Invasion pop. Known as Terry Woodford And The Mystics (despite the first three 45s being credited to **Terry Woodford** alone), they evolved into Terry And The Chain Reaction who released two decent pop 45s on United Artists.

Keep Your Cool may appeal to garage fans - a strutting number with *Green Onions* keyboard moves and spoken vocals and an arrogance reminiscent of 006's *Like What, Me Worry*. Plan 9 covered it on their 1985 LP *Keep Your Cool And Read The Rules*.

At the Muscle Shoals Bands Of The '60s Reunion concert in 1992, the original quartet performed *Suzie Q*, *Satisfaction* and *Where Is My Little Girl*. These are captured on the resultant CD (AMHOF 1993-01) alongside contributions from Mickey Buckins and The New Breed, The Del-Rays, The Weejuns, Mark V with Dan Penn, Hollis Dixon and The Keynotes, Bobby Denton and Travis Wammack. 1. People Been Talkin'/Tryin'So Hard (Smash 2201) 1968

Based in Philadelphia, this band's album is full of pleasant mostly original compositions. Many of the tracks, particularly on side two are gentle, laid back ballads with *Marble Reflections*, *Tryin' So Hard*, *Everything Is Fine* and the mystical *Just To Be With You* the pick of these. It includes one genuinely psychedelic track - *Color Scheme*, a high energy rocker with lots of frantic guitar work. Recommended. The album was produced by Jack Shaw and recorded at the Regent Sound Studios in New York City. The 45 was taken from it.

The band's main claim to fame was that it was one of Todd Rungren's first outfits (along with Money) betore he went off to form The Nazz. He left prior to the recording of their album.

Syracuse, New York was the stamping ground for this R'n'B/blues-influenced combo dominated by vocalist Ed Wool, whose strong raucous style could be compared to Eric Burdon, especially on numbers like the cover of Brown-Terry's *Please Please (Don't Go)*. It's flip can be heard on *Mind Blowers, Vol. 1*. The LP is bluesy rock-pop, if that's your bag, whose highlight is undoubtedly *Love Love Love Love Love*, another vocal tour-de-force, by Tom Haskell.

Nowadays Wool resides in Albany, N.Y. and continues to record and tour with The Ed Wool Band, playing jazz-rock and big band dance music. Tom Haskell is now a freelance photographer.

Formed by Williams in the Summer of 1966 after his spell with The By Fives. They cut a four song demo at the Boyd Recording Studios in Dallas. Two of the tracks were issued on a 45 in 1966. The 'A' side with Genie on vocals featured some fine 12 string guitar by Keathley. The flip was later re-recorded by Williams and Keathley when they joined The Penthouse Five. The other two demo tracks were *Today Is Just Tomorrow's Yesterday*, which Genie had originally written as a poem but added a tune to and *Keep On Walking*. Williams had earlier recorded this as *I Saw You Walking* with The By Fives but with Keathley's psychedelic leads this latest version was an improvement. Sadly, however, the band broke up within a few weeks of the single's release. All four of their tracks can also be heard on *Texas Punk, Vol. 6* and on *The Penthouse 5 - The WordD Is Love!* CD alongside an alternate version of *Today...* and material by the Penthouse 5 and By Fives.

However a treasure awaited on the other side - a beautiful laidback slice of tripped-out psychedelia with all the right moves and suitably 'out there' lyrics, guaranteed to evoke a stoned smirk!

"Colors start to spin, you dig the state you're in, your mind is somewhere, hanging on a string... Fortunately the track has now been compiled on the *Acid And Flowers* CD and *High All The Time Vol. 2*. Outta Chicago and a Dunwich production to-boot. 1. We've Lost It/? (Soundtrack 1012) 196?

An obscure artist from Texas. The 'A' side, sounds like the work of a crooner type personality backed by faceless session musicians, trying to be hip with 'wacky' lyrics. *We've Lost It* has also resurfaced on *Sixties Rebellion, Vol. 4*.

1. Wake Me, Shake Me/I Don't Know Why (Mainstream 689) 1968

A Connecticut combo with female lead provide us with a belting version of The Blues Project number (itself 'borrowed' from the Carole King/Myddle Class classic *Don't Let Me Sleep Too Long*). Like the flip, it features strong vocals, reedy keyboard and some searing guitar though it we're being finnicky here, it's closer to hard-rock than garage. (MW).

1. The Way I Feel/I Wonder Why (Hit Cat 201) Dec. 1965
2. I'm Gonna Go Now/I'm Your Puppet (Paris Tower 111) Jun. 1967

From the small community of Mount Dora near Orlando, *I'm Gonna Go Now* got a further airing on *Off The Wall, Vol. 2* and *Teenage Shutdown Vol. 10. The Way I Feel* appeared on the rare 1966 sampler *12 Groovy Hits, 12 Florida Bands* (Tener 154) and a non-45 cover of *You Keep Me Hangin' On* cropped up on the 1968 *Bee Jay Video Soundtrack* sampler LP (Tener 1014).

3. Know A Lot About Love/Lost One (Charay 38) 1967
4. Fly By Nighter/If I Had It (Charay 38) 1967

This garage band lead by Rudy Wyatt, may have suffered from a paucity of material since they kept putting *Lost One*, which they'd earlier recorded as The Roots, on the flip's to their 45s. Although The Roots had recorded in Dallas, they probably came from South Carolina rather than Texas. They continued until early 1967 but broke up when Rudy moved to Atlanta to join the house band of The Whiskey club there.

The flip side to their last 45 *If I Had It*, starts a little like The Elevators' *Levitation* and has a Beefheart/Seeds style slide guitar riff. Hear it on *Sixties Rebellion Vol. 5*. *Back From The Grave, Vol. 8* also includes the unreleased track *Goin' Places*, which was recorded in early 1966 at Mark 5 Studios at the same session as *Fly By Nighter*. You can also find *Lost One* on *Boulders Vol. 3*; *Fly By Nighter* on *Back From The Grave Vol. 4*; and *Alley Oop* on *It's A Hard Life*.

1(A)	Take It On Home/Stop It Girl	(Feature 202)	1966
2(A)	Take It On Home/Stop It Girl (PS)	(Philips 40454)	1967

A noteworthy 45 by a Peoria, Illinois quartet who were together from 1965 till 1968. Originally known as the Heard, they added the Wylde epithet for their release to distinguish them from contemporary US/UK Herd/Herde/Heard

outfits.

Initially recorded in 1966 at their own expense in a small Peoria studio, the 45 was issued on a label based in Janesville, Wisconsin where the band were based whilst gigging in that region. Both sides were composed by Jim Croegaert whose style leans towards the Zombies. *Take It On Home* is a haunting minor-mood ballad that borrows some chords from The Left Banke as well as the orchestrated style. *Stop It Girl* is a midtempo punk ballad with anguished vocals and Prunes-like feedback/sustain - the latter appears on *Bad Vibrations Vol. 2*. More recently some members were tracked down and both sides grace Psychedelic Crown Jewels Vol. 3.

Thirty odd years on - Bill is still playing in the Peoria area; Jim is a hospital chaplain in Evanston - he still writes and records; Paul manages a group of apartments, also in Evanston; Ron operates a website design business with his wife in the San Francisco Bay area.

1. Not The One For Me/Why Ain't Love Fair? (Main-iac 001/2) 1966

These Bangor, Maine garage-punkers put out the above 45 on their own label. The combo featured the brothers Wylde from Bangor, Maine, thus the ingenious band name. There's a strong rumour that this is a joke on Nugget-diggers by the ubiquitous Erik Lindgren and cohorts, but who really cares - the music's great! *Why Ain't Love Fair* has been compiled on *The Chosen Few Vol's 1 & 2* CD, *Gone Vol. 2* and *Garagelands Vol. 2* LP; *Not The One For Me* has also turned up on *Vile Vinyl Vol. 1*.

4	Little Wooden House/Hang It Up!	(Sure Play 1206-45-0003)	c1966

In 1966 the WONE-sponsored three-day battle of the bands highlighted Dayton, Ohio's local talent. Roger Sayre's *Walk Slowly Away* appears on the resultant album *WONE, The Dayton Scene* (Prism PR-1966) and is one of the more accomplished cuts, a fine Merseybeat ballad with a strong Searchers influence. Unlike nearly all of the twelve winning acts featured, **The X-cellents** already had a 45 pedigree - it's strange that this cut doesn't appear to have made it onto that format. Thankfully it is more accessible via the *Oil Stains* compilation.

More of their output has reappeared: the stompin' garage-beat *Little Wooden House* on the *Boulders EP Box Set* and *Sixties Rebellion Vol. 16*; its frat-rocker flip *Hang It Up!* on *Victims Of Circumstances*.

They'd change their name to The Vacant Lot and issue one further 45.

This New Mexico band's original line-up were Souix Indians and had evolved out of Lincoln St. Exit. Indeed the original line-up was the same as Lincoln St. Exit. The early albums expounded the cause of the American Indian. Of most interest to readers will be *Entrance* which compiles material from the band's early days. This includes *Sunday Dream*, a superb slice of psychedelia, which they had originally recorded as Lincoln St. Exit; *Forever Or Not At All*, some haunting psychedelia; *Orange Benevolence*, a haunting acid ballad and several examples of LA-style sunshine pop a la Orange Colored Sky (*Half A Man*, *Open Doorway*, and *She's Upon Her Way*). This album certainly is recommended.

1. Silver Wings/I Need A Ride (MMC 015) 1968

This band started out in high school as a dance band-style outfit called The Swinging Shepherds, later changing their name to **The XLs**. *Dirty Water* includes their catchy Bob Guy number *I Need A Rlde* and an unreleased song about teenage sex on the beach, *Summer Love In The Sand*, a rather commercial song which won a Battle Of The Bands competition against lots of stiff opposition, but was rejected for release by quite a few record companies. Larry Barrett (previously of The Countdowns and Uncle And The Anteaters) was a later member of the band. When Guy and Heinrich were drafted McClean and Thede changed their name to Fire And Ice.

The XLs

1. Second Choice/Ruined World (Paro 100) 1966/7
2. Mary Jane/Mixed With The Rain (Paro 202) 1968

From Terre Haute, Indiana. This outfit cut two excellent 45s. The first was beat/punk and the second garage-psych. You can enjoy both 'A' sides on the excellent *Hoosier Hotshots*, or inhale the aural delights of *Mary Jane* on *Psychedelic Moods Part Two* (CD) and *Mayhem And Psychosis Vol. 2* CD.

The Xtreems

1. Substitute/Facts Of Life (Star Trek 1221) 1967

Based in St. Louis, Missouri this band's superb Yardbirds-influenced guitar work probably explains why their sole 45 has received extensive compilation coverage. You'll find both sides on *A Journey To Tyme, Vol. 2*; *Substitute* (their fine cover of The Who's classic hit which has some great fuzz guitar work) on *The Garage Zone, Vol. 2* and *Facts Of Life* their awesome psych-punk original on *Psychedelic Unknonws Vol. 3* (CD), *Relics, Vol. 1* and *Mayhem And Psychosis, Vol. 3*.

10. GOLDEN SUNRISE (with Sky Saxon) (Psycho 2) 1982 R1

NB: In addition to the above they apparently recorded another, *Yod Ship Suite*, which came out without a sleeve. It's reputedly not one of the group's best efforts, though certainly one of the rarest. (7), (8) and (10) have also been reissued on CD. (10) was originally issued on a 8-track cassette.

This bunch of Hollywood misfits are rumoured to have contained members of The 13th Floor Elevators, which is wrong. It is also rumoured that Sky Saxon had some involvement with them prior to the Psycho album. This is also

thought to be incorrect.

All the above albums are extremely rare and musically very weird. Those known to the author are largely mellow, mystical and probably drug-induced. The Psycho pressing was limited to 300 - all on coloured vinyl. This is reputed to contain their best music on tracks like *Time Travel*, a spacey instrumental, *Voyage*, which opens with strange chants that give way to a percussion-dominated instrumental and *Across The Prairie*, one of the more commercial tracks on the album. Nonetheless, its musical appeal is still likely to be quite narrow. Very much a band for collectors of rare psychedelia with plentiful funds. Some of these albums have undergone limited repressings and are now more accessible.

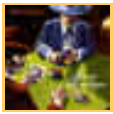
ALBUM:

1(A) UP FROM THE SEWERS (Manhole No #) 1971

NB: (1) There were actually three versions of the album. All are R3. The first cover had a hand drawn sleeve by Berkman. The second cover was a silkscreened "fist" cover. The reverse side was a large paste-on sticker with song titles, the glue failed on most of these so it is often found inside the cover and listed as an "insert", though it's got dried glue residue on the back of it! The third cover came with a silk-screened "rose" cover and again a rear sticker that usually came off. All three covers contain the same vinyl pressing. The first two were released in 1971, the third may have come out a little later.

A Chicago act was responsible for this underground album - sometimes referred to as *Euphoria Blimp Works Presents Yama And The Karma Dusters Up From The Sewers*, although Euphoria Blimp Works and **Yama and The Karma Dusters** were both alternate names for the group.

An excellent album of varied musical styles, it includes high energy rockers (*Revolution* (not The Beatles song), *CTA* and the excellent *Evolution*, with its environmentally conscious lyrics). There are also folk-rockers (*Don't Kill The Babies* and *I Want To Make It Back To Puerto Rico*) and folk ballads (*I Want To Talk To You* and *Reflections*), whilst Chicago blues get a nod and a wink on *Kathleen*. A strong Dylan influence is evident at times, particularly on *Snow Bitch* and some great honky tonk piano on *Wouldn't It Be Funny*.



A Recommended album, those without deep pockets should keep a look-out for a legit CD release, which is in

preparation.

Berkman and Pollack had earlier played with The Knaves, a sixties folk-punk outfit, also from Chicago.

This group formed at Cal Poly, San Luis Obispo, California. Their album is a delightful potpouri of West Coast-sounding flower-power and psychedelia with lots of fuzz guitar. There are some superb cover versions of Donovan's *Catch The Wind*, Dylan's *The Times, They Are A-Changin'* and Dino Valente's *Let's Get Together*, which are every bit as good as the originals, interspersed with some excellent self-penned material like *Follow Your Dream's Way* and *Johann Sebastian Cheetah*.

Two tracks on the album, *City Sidewalks, Sanctuary* and *Good Ole Friends* were written by Carter-Gilbert (John and Tim), the creative source behind Denver's Rainy Daze, and curiously, these were also recorded by Hardwater, in the same year.

Another notable feature of the album is beautiful Jefferson Airplane-like male - female layered harmonies. Recommended.

Follow Your Dream's Way has also been compiled on *Psychosis From The Thirteenth Dimension* (CDR).

This was rather an interesting project. Don Grady (whose real name was Don Agrati) had previously been the popular star of U.S. TV show 'My Three Sons' as well as working with a folk-rock outfit called The Palace Guard. He teamed up with a young L.A. producer/songwriter called Gary Zekley, who'd previously finished working with Jan and Dean, on an album, working under the name of **Yellow Balloon**. The album consisted of various out-takes from the Jan and Dean sessions, new work with session musicians and some work by the new band Grady hastily assembled for live appearances when one of the outtakes from the Jan and Dean sessions, the bright'n'breezy pop tune *Yellow Balloon*, climbed to No. 25 in the National Charts. Had it been released on a major label it would probably have been a bigger hit.

For the live band, Frosty Green and Don Braught were duly recruited from Oregon's Rising Sons and Salem's Breakaways respectively, whilst Alex Valdez and Paul Canella had previously been in Tucson's Five Of Us. These disparate musicians were brought together by Grady, who'd noted the names of accomplished players whilst travelling the country doing telethons and on tour, with his Windupwatchband. (He'd previously toured on the back of his solo Canterbury 45 *The Children Of St. Monica*, which had been a modest hit in the Pacific Northwest. Incidentally his Windupwatchband featured Gil Rogers and Darryl Dragon (later with Bob Smith and Captain and Tennille), however these guys were not in **Yellow Balloon**.)

After the **Yellow Balloon** disolved, Green, Braught, Valdez and Canella continued to play together as The Popcorn Explosion. Don Grady continued to record well into the 1970s under his real name Don Agrati.

The album has become a minor collectors' item, however Sundazed's twenty-track retrospective CD comprises the entire album plus *Noollab Wolley*, 45/demo/alternate versions, the two Don Grady 45s (one with the Windupwatchband), and an interview with Gary Zekley. With a hefty booklet fully detailing the band's history, put together by Domenic Priore, it's a fine tribute not just to the band but to the visionary behind them - Gary Zekley (aka Yodar Critch) who passed away in 1996.

Yellow Balloon also appears on *Nuggets Vol. 4.*

1	Down To The Wire / God Knows I Love You	(Capitol 2957)	1970

Recorded in Los Angeles and traditionally produced by Dallas Smith (Nitty Gritty Dirt Band, Hourglass, Canned

Heat), **Yellow Hand**'s album can be considered as an extra Buffalo Springfield album, as it contains four Steve Stills songs (*Neighbor Don't You Worry, We'll See, Come On* and *Hello, I've Returned*) and two Neil Young tunes (*Down To The Wire, Sell Out*), most of these tracks being unreleased by Stills and Young. The remaining tracks are three Jerry Tawney songs and a cover of Delaney Bramlett and Mac Davis' *God Knows I Love You*.

Unfortunately, the musicians are not as good as Buffalo Springfield and the album is more a curiosity than a collector's piece, although Pat Flynn's guitar is interesting. The liner notes claim that "their sounds are not of rock and not of acid and not of country and western but are the sounds of the beat and the pulse and the throb of the how and why of being". None of the group members appear to have played in any documented group before or after.

Down To The Wire can also be found on *Garagelands Vol. 2* CD.

NB: (1) and (2) were written by Bernie Schwartz.

This band were formed in Torrance, Los Angeles, by Dan Hortter in early 1966. Originally known as The Driftones, they changed name to the more hip **Yellow Payges** later that year, when they signed a contract with Gary Bookasta, the owner of The Hullabaloo club.

In 1967 they signed to UNI and in the Summer went on their first tour joining Dick Clark's Caravan Of Stars - a tour package that took in 45 cities in as many days. For the tour Mike Rummans replaced Bob Norsoff on lead guitar and Teddy Rooney (Mickey Rooney's son from Martha Vickers) replaced Herb Ratzloff on Bass.

In the summer of '68 Mike Rummans and Teddy left the group, and in came Bob Barnes (ex-Elite / Those Guys) and Bill Ham (Rocks / The Nomads). Dan Hortter recalls: "I hooked up with Bob Barnes through an acquaintance of mine and Bob told me about Bill Ham. We were desperate because we had a concert to do at the Hollywood Bowl on August 16th, 1968 with the Animals, The Rascals and Tommy James and The Shondells. We flew Bill Ham from Ft. Worth out two weeks prior to the Bowl concert and the rest was history. We were the house band at the Hullabaloo club (which later became the Kaleidoscope and then the Aquarius Theater) on Sunset and Vine from '67 through to '69."

Although major chart success eluded **The Yellow Payges** they were quite a successful band issuing a string of singles displaying a variety of musical styles. The beauty of the slow numbers like *Moonfire* and *Never Put Away My Love For You* contrasts with hard rock cuts like *Crowd Pleaser, Devil Woman* and the rock'n'roller, *Boogie Woogie Baby*.

There were rumours of a second LP but it never emerged. With 16 non-LP tracks mainly on UNI 45s it certainly could have happened, and a decent CD retrospective of the band is long overdue. As it was **The Yellow Payges** disbanded in 1970 having failed to make the big time. Don : "Our demise came when we signed a multi million dollar contract with AT&T to do an add campaign for the Yellow Pages (BIG MISTAKE). I went on to do some solo recordings with Buddah Records. Neil Bogart-President of Buddah at the time was a close friend of the group and gave me a shot. Unfortunately things didn't work out very well."

As to the other members of the band, Dacus went on to The Steve Stills Band and later to a long term slot in the top band Chicago, where he replaced Terry Kath who had shot himself while playing Russian roulette! Gorman later played with Bandit, a mid-seventies heavy rock outfit. Ham became a top line producer responsible for albums by Texan bands like Point Blank and ZZ Top, as well as playing with Kinky Friedman in the '70s.

You can hear *Jezebel* and *Never See The Good In Me*, the 'A' sides of their two Showplace 45s, on *Mindrocker, Vol. 11*.

2	I Can Live Without You/Garden Of Imagining	(Dunhill 4061)	1967

NB: (1) and (2) as Jerry Yester.

First known as a member of the Modern Folk Quartet, Jerry Yester cut two folk/pop singles in 1966 and 1967. When the MFQ broke up, he replaced Zalman Yanovsky in The Lovin' Spoonful.

After the Spoonful's demise in 1969 Yester made the above album with his wife, Judy Henske, a traditional folk singer with a long recording career in her own right. The album which was released on Frank Zappa's label, is excellent and worthy of acclaim. Ry Cooder and David Lindley also probably play on it. Subsequently Yester and Henske formed a band called Rosebud with Craig Doerge, David Vaught and John Seiter, cutting an album of the same name in 1971.

A multi-talented figure, Yester is also known as the producer and engineer of several Californian groups and singers : The Association (who included his brother Jim), The Turtles, Tim Buckley, Tom Waits, Rainbow Red Oxidiser etc..

Ashes Have Turned and *I Can Live Without You* has been compiled on *Penny Arcade, Dunhill Folk Rock, Vol. 2*.

From the the Cheshire and Prospect areas of Connecticut, these guys started out playing classic garage fuzz-punk as demonstrated by *To Be Or Not To Be* on *Psychedelic Unknowns, Vol. 2* (EP) (now reissued as the *Psychedelic Unknowns* LP). They'd progress to a hard rock style, of which the LP is a good example and worth searching out.

There's also a French EP on Discaz 1101 that features the Parrot 45 tracks plus *Love And Things* and *Dance All Night*, so perhaps there's another U.S. 45.

The double-CD retrosepctive on Collectables comprises one CD by the North Atlantic Invasion Force and one by **Yesterday's Children**. This contains the complete LP, early/demo versions of the Parrot 45s and several unreleased cuts from 1966 including the couple on that French EP.

Love And Things has also turned up on *It's A Hard Life*.

Portage, Indiana was home to this band who formed in 1973 and recorded their raw, wild debut album at a professional studio in Chicago in 1975. While the band obviously had great talent and progressive rock was their medium, the record has a garage quality to it, an infectious energy that is missing from so much music of the genre. The tracks are long with elaborate arrangements, but the virtuosity is implied rather than displayed and the album therefore avoids the usual progressive rock pitfalls. The record has an amazing sleeve and label design as well, and is recommended. A follow-up recording in 1976 (finally issued in 1989) was more refined and much of the excitement of the debut had been lost. The group recorded into the 1980s using the name Crafty Hands. One of the really interesting and worthwhile Christian psych artists. **John Ylvisaker** and his wife Amanda were apparently some kind of travelling Christian preachers and their albums were sold during their celebrations. Although sometimes patchy, their music contains some excellent jangly folk psych tracks with electric guitar and organ and enthusiastic vocals.

An exact discography is difficult to establish with certainty, as some albums were shared with other Christian singers, not necessarily rock or folk rock.

Take four young men, stick masks on them, make 'em sing with English accents, give 'em a 'mystery group' tag and... hey presto... enterprising Bob Gallo had manufactured a group to repel the British Invasion and from whom he could get all the credit(s). Musically it is competent Merseybeat style beat, rock, pop and ballads. *Roses Are Red* has resurfaced on *I.S.S.S. Vol. 1 - The Technicolour Milkshake* and *Playboy* is on *Searching For Love*.

The down-side is that the accents tend to wear thin quickly, as do the 'yeahs' at the end of a large number of lines and throughout the album (plenty of falsetto 'oooos' too). Because the scarlet caped and masked lads couldn't reveal their identities and talk about their favourite things, the LP notes are about "the man who made it all possible", yes it's good old Bob again, writ large across everything. Did the group, whoever they were, get anything out of this hype?

NB: (1) has been reissued several times.

Born Perry Miller in 1944 in New York, **Jesse Colin Young** began his career in 1963 in the Greenwich Village folk circuit. In 1964 he recorded a folk album *The Soul Of A City Boy* which was produced by Bobby Scott and contained ten of his compositions plus *Four In The Morning*, a song by the future Holy Modal Rounder, Robin Remailly.

The next album *Young Blood* was recorded for Mercury with John Sebastian and Peter Childs and flopped, its best moments being compiled on one side of *Two Trips*, an album published by Mercury in 1970 to cash on the Youngbloods' success, the group formed by **Young** in 1966.

At the end of the Youngbloods, **Jesse Colin Young** released *Together*, with Jerry Corbitt, Scott Lawrence, Jeffrey Myer, Earthquake Anderson, Pete Childs and the excellent guitarist Eddy Ottenstein (who also played with Jeffrey Cain). John Wilmeth and Ron Stallings of Southern Comfort also played horns on one track. The album is recommanded to Youngbloods' fans, with its mix of covers: Nick Gravenites' *Born In Chicago*, the bluesy *Six Days On The Road*, Chuck Berry's *Sweet Little Sixteen* and five excellent original and sunny tracks including *Good Times*, *Lovely Day* and *Peace Song*.

Jesse Colin Young kept on recording for Warner in the '70s and his albums before 1975 are in the same mould. After several albums of mixed interest, he returned to form in 1987 with *The Highway Is For Heroes*. He is still recording today.

The 'A' side has resurfaced on *Monsters Of The Midwest, Vol. 1*, a cassette compilation. The flip can be found on *Vol. 2* of the same series. Despite the rather infectious 'A' side the 45 flopped and the band reverted back to their previous name of The Great Danes. NB: (1) as by Jeff Cain And The Youngbloods. There was also an Italian single, sung in Italian: *Qualcuno Mi Dir/Qui Con Noi, Tra Di Noi* (aka *Get Together*) (RCA Victor N 1587) 1968.

Sounding similar to The Lovin' Spoonful, **The Youngbloods**, were originally from New York. Indeed Jesse Colin Young (real name Perry Miller) issued the second of two earlier albums, entitled *Youngblood*, in a group which actually featured John Sebastian (hrmnca) along with Pete Childs (dobro). It flopped, and he formed a duo with Jerry Corbitt, a folk singer from Georgia who'd got a good reputation on the Boston folk-circuit. Bauer and Levinger were then drafted in the group's early recordings which their record company, Mercury, subsequently issued as the *Two Trips* album.

Billed as **Jesse Colin Young And The Youngbloods**, their first two albums for RCA were made in New York and produced by Felix Pappalardi but failed to establish the group. They headed west for San Francisco, attracted by the lure of its musical explosion. There they issued *Elephant Mountain* which was a vast improvement on their earlier material and also had a hit with hippie anthem *Get Together* in the Summer of 1967. However, during the recording of their album, which peaked at No. 118 in the U.S. Album Charts, Jerry Corbitt left the band. This reduced the band to a threesome, although Mike Kane was added in 1972. *Elephant Mountain*, produced by Charlie Daniels, contained a wealth of diverse material. The opening track *Darkness, Darkness* has a beautiful string introduction and a ringing guitar solo, There are jazzy instruments in *On The Sir Francis Drake* and *Trillium* with Banana's fresh guitar and piano playing well to the fore and a wealth of country-folk material such as *Sunshine, Beautiful, Smug* and *Ride The Wind*, as well as the jug-bands *Rain Song*.

After Corbitt's departure they signed a new contract with Warner Brothers who granted them their own 'Raccoon' label and issued *Rock Festival* and *Ride The Wind* - two live recordings, the latter also produced by Charlie Daniels. They made No's 80 and 157 respectively in the U.S. Album Charts. The band now reached their zenith. *Ride The Wind* gives a good indication of the band at its best. Apart from the title track the album contained gorgeous versions of *Sunlight, Get Together* and *Beautiful*. *Rock Festival* is a much rockier album including more up-tempo efforts like *Faster All The Time* and *Peepin' n Hidin'* alongside their more typical laid back efforts like *It's A Lovely Day*, *Josephine* and *Misty Roses*. *Fiddler A Dram* and *Interlude* find the group sounding very similar to the Kaleidoscope. The album concludes with *Ice Bag* - an experimental jam which suited the psychedelic influences of the times.

Meanwhile RCA released a double compilation containing the best of the material the band had recorded for them. This reached No. 144 in the U.S. Album Charts.

Next they added Michael Kane, who had earlier played alongside Levinger in Trolls, and recorded two further albums of old rock-n-roll classics (*Good n Dusty* and *High On A Ridgetop*). They met with less commercial success than their predecessors achieving only the 160 and 185 spots respectively in the U.S. Album Charts. Their eventual demise at the end of 1971 marked the passing of one of the West Coast's best loved bands. However, Jesse Colin Young continued to record releasing a series of excellent solo albums in the mould of *Elephant Mountain*.

Jerry Corbitt went on to record two solo albums *Corbett* (Polydor) 1970 and *Jerry Corbitt* (Capitol) 1971 before moving into production work (including a number of Top 10 hits) for artists like Don McLean and Charlie Daniels. He also figured on most of Jesse Colin Young's solo albums.

Compilation coverage has so far included: *Sugar Babe* on the *Zabriskie Point* soundtrack; and both *Act Naturally* and *Hippie From Olema* on the *Medicine Ball Caravan* soundtrack.

45s are included on the *Attack Of The Jersey Teens* compilation. Apart from their originals their live act was full of lively Yardbirds, Kinks and Animals' covers. After the second 45 they dropped the 'Young' from their title, grew their hair and their live act grew louder and overtly psychedelic. Sadly, this later stage was never captured on vinyl and when some members got drafted the band split. Eugene remained in the music business, first with a band called Dwaf and later as a solo artist. His later output has appeared on limited edition privately pressed releases. Owing something to psychedelia, jazz, rock'n'roll and the avant garde it defies categorization.

Arguably a marginal case for inclusion here since they are really remembered for playing a crowd-pulling brand of rock'n'roll and R & B. They came together in New York in early 1965 when Cavaliere, Brigati and Cornish all left Joey Dee's Starlighters at the same time. They played their first gig at the Choo Choo Club in Garfield, New Jersey. Their

music was soul-based, danceable and immediate and after their debut single, *I Ain't Gonna Eat My Heart Out Anymore*. met with some initial success, the follow-up *Good Lovln* made No. 1 and set them on the road to further success. They were the first white rock act to be signed by Atlantic and their music had a wide appeal to both black and white audiences. *Groovin'*, their second No. 1 and possibly their magnum opus, marked a definite change of style. Depicting a long, ecstatic afternoon in the sun it superbly captured the vibes of the Summer of 1967 and is of far more relevance to this book than what had gone before. Other notable slices of superb pop-rock were *How Can l Be Sure?, A Girl Like You* and *It's Wonderful*, which made use of sound effects. After the last mentioned the 'Young' was omitted from their title and they increasingly veered towards a sort of goodvibe, jazzy rock. *People Gotta Be Free* gave them their third and final U.S. No. 1 after which they underwent a changed line-up (from A to B) and changed labels to Columbia. Among the newcomers was Buzzy Feiten who'd previously played with Paul Butterfield.

The new line-up cut two albums, which aroused some interest but little excitement, before finally disbanding in 1972. Felix Cavaliere later went solo recording two critically acclaimed if commercially unsuccessful albums for Bearsville. Robert Popwell joined The Crusaders in 1976.

In terms of compilation appearances, you'll find *Come On Up* on *Wild Thing*; *I Ain't Gonna Eat My Heart Out Anymore* on *Highs Of The Sixties*; *It's Wonderful* on *Nuggets, Vol. 9*; and *Sattva* on *Journey To A Higher Key Vol. 1*.

Clearly an extremely successful act commercially. They enjoyed three No. 1 45s and three other Top Ten hils. Their *Greatest Hits* album topped the U.S. Album Charts. *Groovin', Once Upon A Dream, Collections, The Young Rascals* and *Freedom Suite* all made the Top Twenty, peaking at Nos 5, 9, 14, 15 and 17 respectively. Even their later albums made some impression on the charts.

1. The Invaders Are Coming/A Very Special Day (Dynamic Sound 2006) 1967
2. I Love You Oh So Much/Welcome To My World (Dynamic Sound 2007) 1967

A little gem this one from Wisconsin, *The Invaders Are Coming* is a song all about a guy who believes invaders from outer space are coming to take his girl friend. It's got a lot of commercial appeal and there's some very effective organ work to create a sort of spacey sound. Give the excellent *Highs In The Mid-Sixties, Vol. 10* or *Yeah Yeah Yeah* (CD) a spin if you wanna experience this boss Badger sound... then turn to either *The Madness Invasion* or *Vile Vinyl Vol. 2* for The Invasion's *The Invasion Is Coming* - the previous incarnation of the song in a very different gutsy garage style. No spacey effects here but great raucous vocals and fuzz solo (*The Invasion Is Coming/I Want To Thank You* on Dynamic Sound 2004). It's a good bet that these two outfits are one and the same.

1. Poor Boy/It Happens To Be Fun (Canterbury C 514) 1967

The weak 'A' side is trying to sound like a cross between The Searchers and The Millennium. The 'B' side sets out the same way, but watch! a bitonal chorus works so unsettling as to be frightening, especially within this utterly innocent environment. (Marcel Koopman)

Mellow rock from Arizona. *Sun-Burned Idol* has a reedy sound and folkie vibes. *Rustic...* is more in a folk-psych mode with trippy lyrics and energetic keyboard fingering. (Max Waller)

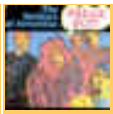
From Corpus Christi in Texas, **Zakary Thaks** were one of the city's top acts between 1966-69. Originally known as The Marauders, they soon changed name to The Riptides, with a repertoire of mainly surf-style music. With British bands like the Kinks and Stones becoming more influential, in March 1966 they again changed names to **The Zakary Thaks** and signed to Carl Becker's J-Beck label. Chris Gerniottis was just 15 at the time whilst the other members were 17.

Bad Girl, their first 45 was a strong punk song with a snappy guitar introduction. It was picked up by Mercury for national distribution but was reckoned to have sold more records in South Texas where they developed a strong following. The follow-up sold quite well locally too, getting to No. 1 in Austin and San Antonio. It was liberally endowed with guitar feedback, but the flip was a more routine bluesy number thrown together in an hour at the studio. **Zakary Thaks** at this time opened for most of the touring bands that played Corpus Christi, including The Byrds, Jefferson Airplane, Animals, Beach Boys, Yardbirds, and The 13th Floor Elevators.

Their third single, *Please* attempted to change direction with its mersybeat pop sound while the follow-up, *Mirror Of Yesterday* was recorded with the Houston Symphony Orchestra on one of the first eight track recorders. After its failure, Chris Gerniottis left the band to join Liberty Bell but rejoined in 1969 for their final single. They broke up for a little while after the *My Door* 45 and then reformed briefly, without Pete Stinson, to record a final 45 which was leased to ABC but never released by them. They played on and off until the summer of 1972 although no further 45s were forthcoming.

Zakary Thaks were one of Texas' finest sixties bands and their work is essential for connoisseurs of psychedelia. Both the albums/CDs listed contain all their 45s and either are recommended. In addition, *Texas Reverberations 1966-68* (Texas Archive Recordings TAR-1) 1982 features live and unissued cuts by the band. Side one, includes a slightly longer version of *Face To Face* their second 45, with more searing guitar work at the end; *Footsteps Jam* an instrumental jam and *Can't You Hear Your Daddy's Footsteps*, a re-mix of the 45 version with more intense fuzztone guitar. Of much less note is a live performance on side two taken off a 16 millimetre film that J-Beck made to get gigs for the band. Although it relies on cover versions, because club owners were more familiar with these, and the audio quality is dire, the film does show just how young these guys were and it worth trying to find on video.



Other compilation coverage has so far included: *Can You Hear?* on *Psychedelic Crown Jewels Vol. 1* (CD), *Acid Dreams* and the *Acid Dreams Testament* (CD); *Bad Girl* on *I Was A Teenage Caveman* and *Pebbles, Vol. 2* and *I Need You* on the *Acid Dreams Testament* (CD); *Won't Come Back* on *Texas Psychedelic Punk Vol. 11* (Metal Acetate #4); *I Need You* and *Can't You Hear...* on *Acid Dreams - The Complete* (3-LP); *Bad Girl* on *Nuggets* (4 CD); *Shake* (live 1967) and *Face To Face* (unreleased rehearsal) on *The History Of Texas Garage Bands In The 60s Vol. 5* CD.

Pete Stinson later moved to California where he is a construction worker. The other members all remained in the music business. In the short-term their talented vocalist Chris Gerniottis went on to play briefly for Liberty Bell and then formed Kubla Khan. He later became a singing waiter in a dinner-theatre group called the Barnstormers along with future Hollywood actor Dennis Quaid before quitting music entirely.

(7) came in a picture sleeve - a group shot. Both sides are apparently different to the versions on *Weasels Ripped My Flesh* and *Uncle Meat* respectively. (13) apparently features a different version of *Tears Begin To Fall* and the 'B' side is not yet on a Zappa album. (14) comes in a picture sleeve of the long-extinct circa 1968 Mothers. (7) also released in France with a PS (Reprise RV 20221). There's also a French single with picture sleeve: *Son Of Suzy Creamcheese*/*Big Leg Emma* (Verve 58516).

One of America's most outrageous and controversial rock stars, **Zappa** was born in Baltimore, Maryland on 21 December 1940. His family were of Sicilian-Greek background. His father worked in various Army and Government jobs. In 1950, they moved to the West Coast (San Diego) and by 1953 Frank's parents had brought him a drum kit

and he was composing written music. The following year Frank was drumming in a R & B band, The Ramblers. 1955 saw his family move to Lancaster, California and one of Frank's schoolmates was Don Van Vliet. What a combination! Frank, by now having discarded the drums played guitar with Vliet in the 1956 outfit, The Blackouts.

In 1959 his family moved on to Claremont, California and Frank branched out on his own, taking a flat in Los Angeles. He played in a 'cocktail' San Bernadino band, Perrino and The Mellotones and wrote the score to 'Run Home Slow', a low-priced Western, which flopped first time round, He married Kay, though it was a short-lived venture, and played in other local groups, The Boogie Men (1 960) and The Masters (1961). In 1961 he also wrote the soundtrack to another second rate movie, 'The World's Greatest Sinner'.

An important turning point in his career came when he started working with electronic dynamo, Paul Buff, in his recording studio in Cucamonga. Zappa eventually bought Buff out with money from the royalties from 'Run Home Slow', which did better when it was re-issued in 1963, and renaming the studio, Studio Z, produced and/or wrote a string of 45s, which are now sought-after by Zappa collectors, but not directly relevant to this book, Some of the 45s appear on the 1983 *Rhino Rare Meat* EP. The episode ended in late 1964 when **Zappa** was framed by the vice squad into making a cheap porn movie and he quit Cucamonga to return to LA. There he played in another white R & B band, The Soul Giants and sometimes with Captain Glasspack and His Mufflers before forming **The Mothers Of Invention** out of the ashes of the former. They attracted the attention of Herb Cohen, who became their manager and them signed to Verve.

The Mothers were always controversial, As they set to work on their debut album, one of the first songs they recorded was *Who Are The Brain Police?*. This album was innovative, weird and widely advertised in the underground press. It sold well. It was issued as a double LP in the U.S. and a single LP in the UK.

Their second album met with wider acclaim. The band were by now regarded as quite unique. Musically, they were difficult to categorise. Some of it was psychedelic (without the drugs - **Zappa** was strongly opposed to drugs), much was satirical and full of social comment on themes such as the hypocrisies of the middle class white American way of life. Other music particularly the *Ruben and the Jets* album, was a spoof on the doo-wop music and associated lifestyle of **Zappa**'s youth.

The *Ruben* album should be of less interest to readers, but all of the other Verve albums are well worth investigation. They contained some excellent songs like *Wowie Zowie, America Drinks Up And Goes Home, Status Back Baby, Who Needs The Peace Corps, Concentration Moon* and *Flower Punk*. On *We're Only In It For The Money*, possibly **The Mothers'** best album for Verve, the cover parodies *Sergeant Pepper* and the lyrics (eg. *Flower Punk*) were full of swipes at the product of the psychedelic era-the flower children who **Zappa** seems to have regarded as phony as the earliertargets of his satire. This was also their best selling album peaking at No 30 in the U.S. Album Charts, but several of the others sold well:- *Absolutely Free, Uncle Meat* and *Live At The Fillmore East- June 1971* all made the Top 50; *Burnt Weeny Sandwich, 200 Motels* and *Just Another Band From LA* made the Top 100; *Freak Out!*; *Cruising With Reuben And The Jets*, and *Chunga's Revenge* made the Top 150 and *Mothermania, Lumpy Gravy, Hot Rats, Waka/Jawaka* and *Weasels Ripped My Flesh* all made the Top 200.

Zappa's solo albums (solo is misleading, they often included members of **The Mothers** as well as session musicians and sometimes extravagant orchestras) are also of interest. For *Lumpy Gravy*, which was full of lush orchestral passages and taped dialogue, he was supported by the Abnuceals Emuukha Electronic Symphony Orchestra and Chorus. *Hot Rats* is generally regarded as one of his best solo albums and tracks like *Peaches En Regalia* and *Willie The Pimp* capture **Zappa**'s guitar work and writing at its best.

Weasels Ripped My Flesh is a collection of live material recorded between 1967-69. Stand out tracks include the surreal *Didia Get Any Onja?* and *The Orange County Lumber Truck* is a driving instrumental, which is interrupted by manic laughter. *Bur'nt Weeny Sandwich* is a predominantly instrumental album centred around a 22 minute track *The House I Used To Know*.

In May 1971 **Zappa** put together the movie score for *200 Motels* and then flew to England to perform the piece at the Royal Albert Hall with the Royal Philharmonic Orchestra. At the eleventh hour the Hall's Administrators cancelled

the gig considering the lyrics obscene. **Zappa**' eventually lost the resulting legal baffle which wasn't heard until 1975. The film described as a 'surrealistic documentary' was shot in London in seven days and was one of his biggest flops. Far better was his *Live At The Fillmore, 1971* album recorded at one of the final Fillmore East concerts where he appeared on stage with John and Yoko. It captured **The Mothers** at their most vulgar on tracks like *What Kind Of Girls Do You Think We Are?* and *Do You Like My New Car?* He also issued the *Tears Began To Fall* 45 under the pseudonym Billy Dexter to see if it would sell. lt didn't.

In December 1971 he was pushed from the stage by the boyfriend of a fan towards the end of a concert at London's Rainbow. He suffered multiple fractures of the leg and was confined to a wheelchair for nine months. His next album, *Just Another Band From LA*, had been recorded at the University of California in Los Angeles on 7 August 1971 but wasn't released until May 1972. It suffered from over-indulgence in places but also included plenty of humour and a 25 minute mini opera *Billy The Mountain*, which had some partcularly amusing moments. *The Grand Wazoo* and *Waka/Jawaka* were produced from his wheelchair and are generally regarded as two of his better albums.

Zappa has also turned his talent to production work, particularly in the late sixties, when he produced albums for artists like the GTO's, Beefheart, Wild Man Fischer and Lord Buckley.

The Verve albums have all become quite scarce, especially in mono, and are now selling for quite high prices. **Zappa** has continued throughout the seventies and eighties and into the nineties to experiment with many different musical styles - with varying degrees of success. His output has been prolific. Herb Cohen said in 1971 'I can't get him to take a fucking vacation'. His music has become more commercial with time, but the lyrics remain witty and socially aware. He is arguably one of the most fascinating musicians and writers to emerge from America's West Coast.

As for **The Mothers**, who carried on with many different line-ups and several additional personnel until 1976. Estrada later played with Little Feat; Mundi formed Rhinoceros, Artie Tripp played with Beefheart; Bunk Gardner with Geronimo Black, Don Preston played for Flo and Eddie and Sherwood for Reuben and The Jets (who were assembled by **Zappa**).

Frank Zappa died, at the age of 52, on December 4th, 1993, after losing his battle against cancer.

3. (C) SUNSET RIDE (Warner Bros WS 2603) 1973
4. () ZEPHYR: LIVE (Tommy Bolin Archives) 1997

NB: (1) also issued in the U.K. by Probe (SPB 1006) 1970. (1) reissued by Beat Goes On (BGOLP 41) 1989, and also on CD (BGOCD 41) 1990. (1) also reissued on CD by MCA (MCAD 22032) 198?. (4) is a CD only release of a live show taped before Tommy Bolin quit the band.

45s:

1. Cross The River/Sail On (Probe 475) 1970
2. Going Back To Colorado/Radio Song (Warner Bros 7444) 1970
3. High Flying Bird/Sierra Cowgirl (Warner Bros 7604) 1972

Formed in Boulder, Colorado in 1968 by Tommy Bolin as **Ethereal Zephyr**, they supported bands like Jeff Beck Group, Ten Years After and Led Zeppelin. Their debut album includes the classic *Sail On* which is reminiscent of Allman Brothers, Vanilla Fudge and Deep Purple. With wailing vocals akin to Janis Joplin and electric guitar blues in a similar vein to Led Zeppelin, it captured the mood of the time entering the lower reaches of the U.S. Top 50, was also released in the UK.

Their second album, which is regarded as a more mature and focussed effort, was produced by Eddie Kramer. After it's release they went on an extensive tour with blues legend Albert King, but the pressures of touring for such a long period led Bolin to quit. Fans of the band will however be keen to obtain a recent live CD, *Zephyr: Live*, which captures the band in fine form.

After Bolin quit, Candy and David Givens put together a new line-up, but when their third album failed to revive the bands fortunes, they called it a day. Bolin went to New York to play with jazz-fusion group Energy, and subsequently played on Billy Cobham's *Spectrum* album in 1973, before ultimately joining Deep Purple.

Tommy Bolin has subsequently achieved posthumous cult status, and fans of his will enjoy his excellent official website: http://www.tbolin.com.

John Faris had earlier been a member of Us Too.

ALBUM:

1. (A) ZERFAS (700 West LH 730710) 1973

NB: (1) is due to be reissued oficially on CD together with bonus tracks, by the excellent Gear Fab label. Reissued on vinyl in 1999 (ATLAS 730 710 16).

An Indianapolis, Indiana outfit whose album of self-penned compositions is worth checking out. The material is mostly strong, there's lots of keyboards and sound effects on Side 2 but good harmonies too. Side 1 is quite Beatlesque. The prime cut *You Never Win* opens with a backwards guitar intro; *The Sweetest Part* is first class synthesized rock and *I Don't Understand* and *I Need It Higher* add the band's own dimension to The Beatles' early seventies sound. Recommended.

One track, *I Need It Higher* has also resurfaced on *Love Peace & Poetry Vol. 1*.

The Zero End

45:

1 Blow your Mind/Fly Today (Garland 2002) 19??

From Astoria, Oregon, a great two sided punk/garage single with fuzz breaks and tortured vocals. They may have released some other singles.

A Chicago garage band. The 'A' side can also be found on *Boulders, Vol. 2* and *Garage Punk Unknowns, Vol. 7*.

1(A) WANTED DEAD OR ALIVE (Imperial LP-12456) 1970

NB: (1) reissued on Pickwick with one track ommitted (*Fiery Emblems*). (1) also reissued on CD.

Born in 1947 in Canada and classically trained, **Warren Zevon** moved to Los Angeles in the mid-60s. A gifted songwriter, The Turtles decided to record two of his songs (*Outside Chance* and *Like The Seasons*), the latest being the flip to their million-selling *Happy Together*. He was then offered a recording deal with White Whale and recorded three singles as Lyme and Cybelle. After that he played with Smokestack Lightning, The Brothers and eventually met Kim Fowley. He wrote and arranged two songs on Fowley's *Good Clean Fun* (*Kangaroo* and *I'm Not Young Anymore*) and through him got a contract with Imperial (who were bought by United Artists shortly after).

Dedicated to Fowley, and produced by **Zevon** with the help of Bones Howe, *Wanted Dead Or Alive* is an excellent album, full of good guitars, interesting lyrics and strong songs (*Gorilla, A Bullet For Ramona, Travelin In The Lightnin'*), between blues, folk/rock and pop. The title track is a cover of The Rogues and was co-written by Fowley. Another cut, *She Quit Me* was used on the 'Midnight Cowboy' soundtrack.

On the album the rhythm section comprised of former Arthur Brown drummer Drachen Theaker and Skip Battyn. Mars Bonfire also guested but is uncredited. One of the last albums released on Imperial, it flopped and **Zevon** was unable to find a new label.

After that commercial failure, **Zevon** became the musical director of the Everly Brothers, before relaunching his solo career in 1975 when his songs were covered by Linda Ronstadt. A longtime friend of Jackson Browne and David Lindley, he is still touring and recording brilliant records.

ALBUM:

NB: (1) came in a cover consisting of two stickers held together with tape!

A loud, raw hard rock album from Portland, Oregon. Fred Cole had earlier been in The Lollipop Shoppe and The Weeds, and is currently in Dead Moon. Of the other members, Jim Roos became a computer programer and plays in many different and successful Northwest bands. Lorry Erck is a skilled welder, continues to play music and is currently a partner in RSE, a production company involved in Pro Audio applications. Greg Shadoan also works as a computer engineer and is currently playing with The Tom Feeny band. (Clark Faville)

The Zone V

45:

1. I Cannot Lie/Black Jacket Woman (Caravan 21449) Mar. 1968

The 'A' side to this 45 can also be heard on *Highs In The Mid-Sixties, Vol. 13: Texas, Part Three*, although the band

came from Shickshinny, Pa.. With some snotty punk vocals and ringing guitar work it should appeal to fans of the genre. *I Cannot Lie* also appears on *Yeah Yeah Yeah* CD and *Teenage Shutdown Vol. 9: Teen Jangler Blowout!*.

45:

1. Sunset Strip/One Night Man (Sunburst 775) Dec. 1968

Although this band may not have originated from California, they were based there. The first album is on an Ed Cobb label and he produced and co-arranged it. It's an interesting album of rock with vestiges of mid-sixties punk and some psychedelia, indeed, the most psychedelic and relevant cuts to this book are *Love Machine*, *Have You Been Sleepin* and *From A Camel's Hump*. It is now a minor collectors' item. Leese went on to play with Heart for whom Flicker was a producer.

The non-LP 45 is not as good though the raucously sung funk-edged *Sunset Strip* is redeemed by a searing guitar break and wah-wah'd outro.

The Zoo

45:

1. She Said, She Said - Good Day Sunshine/Where Have All The Good Times Gone? (Cameo Parkway 147) 1967

An entirely different group from Akron, Ohio. This **Zoo** was actually a later incarnation of The Beau Denturies and this 45 was also released on Encore as Yellow Pages. *Where Have All The Good Times Gone?* later resurfaced on *A Journey To Tyme, Vol. 4* and *Mindrocker, Vol. 11*.

5. * Sugar Cane (one-sided acetate) (Bell) 196?
6. Bachelors Got It Made/Telephony (Nu-Sound 711) 196?

* as Zookie And His Potentates.

A garage band from Michigan who have two previously unreleased cuts:- *She Ain't Worth All That* and *Sugarcane* - included on *Thee Unheard Of* compilation. Both are well worth a spin. *She's Not Worth All That* has some nice guitar touches and *Sugarcane* is a real hard rocker, an early taste of what would become heavy metal music in later years.

Zorba and The Greeks

45s:

1	One And Only Girl / You Had Your Chance	(Golden State GSR-597-A-1/2)	Nov 1966
2	Shockwave / Memories Of You	(Golden State GSR-597-B-1/2)	Nov 1966

A Roseburg, Oregon band who made a trip to the Bay Area, laid down four tracks and had them pressed simultaneously as a pair of 45s for self-distribution, on Leo De Gar Kulka's Golden State studios' custom label.

Unavailable for the Big Beat compilations featuring Golden State recordings, the bouncy organ-pop-punker *One And Only Girl* has cropped up since on *Fuzz, Shaykes And Flakes Vol. 2*.

45:

1. Together/Dark Of The Morning (Hexagon 9445-3328) 1970

From Minneapolis, this 45 is featured on *Litters' Rare Tracks* LP on Eva. The assumption is that they were connected to the Litter in some way since they were also produced by Warren Kendrick. That may be the only link since we already know that The Electras/Twas Brillig was a separate outfit and no definite details have emerged on this lot. The style here is pretty mellow rock and seems to have little in common with The Litter.

You can also find *Dark Of The Morning* is also on *A Lethal Dose Of Hard Psych*.

NB: (1) also issued as a mono/stereo promo 45 *The Revolution's Over* (Columbia 4-44831) 1969.

Poignant orchestrated folk-pop with flute - a folkie protest about society's changing values and the hypocrisy of it all - *The Revolution's Over* is a sad comment on the end of an exciting decade of youth's self-discovery and assertion. The flip is brassy harmony pop.

(Max Waller)

Zuma

45:

1. The Night Of The Phantom/You're A Bad Habit (Zuma 777) 196?

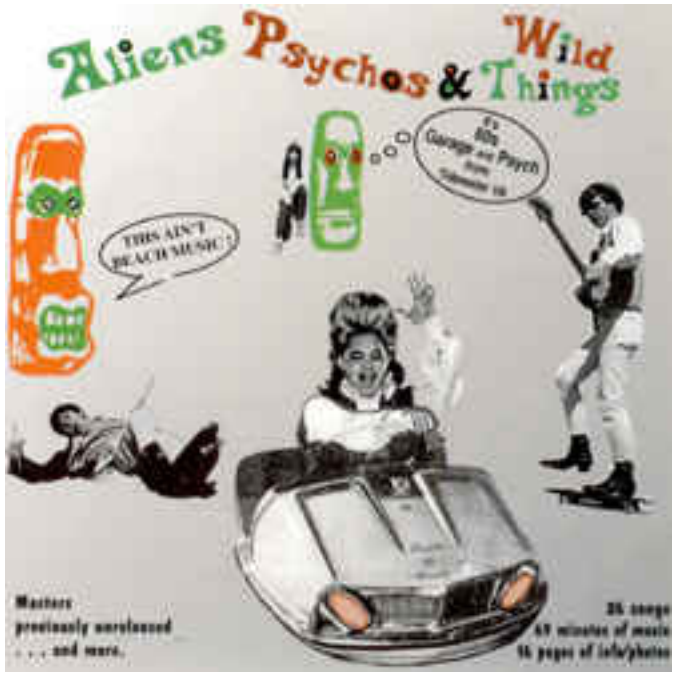
ALBUM:



1(A) SPIDERS IN THE NIGHT (Kama Sutra KSBS 2036) 1971

An interesting folk/rock singer songwriter, whose only album was produced by Lenny Kaye and Richard Robinson. Nice dreamy arrangements, good vocal parts and unusual lyrics. *Turtles V Green Ants*, *Sifting Around In A Haze* and the title track deserve to be discovered. Lenny Kaye would later play with Patti Smith and is also known for preparing the original *Nuggets* compilation.

U-Spaces

An e-mail discussion group on psychedelic music, primarily from the 60's.

Psychedelic Archaeology is a series devoted to unearthing psychedelic gems and distributing them to the members in this group through trade.

Every effort was made to only include original psychedelic singles which have never been reissued since their initial release date.

Sound quality varies. Many tracks have audible vinyl pops and / or tape hiss depending upon the original source used for this compilation.

This collection is meant to inspire archivists to locate clean masters of these recordings and release them in a proper format. THIS CD IS NOT MEANT FOR SALE OR PROFIT!

To Join U-SPACES, send an email to VelvetFogg@aol.com or go to http://members.aol.com/VelvetFogg/HTML/U-SPACE.htm
